The School of Systems Science seeks to equip students with the interdisciplinary, technical, and critical-thinking skills that are necessary to develop workable solutions to complex problems. The School is composed of six academic departments: Agriculture, Computer and Information Science, Electrical Engineering, Mechanical Engineering, Mathematics, and Parks, Recreation and Hospitality Administration. These departments offer programs of study leading to the baccalaureate and associate degrees listed below.

Bachelor of Science

- Agriculture Business with Horticulture Business and Animal Science options
- Computer Science with Information Systems and Computer Science options
- Hospitality Administration
- Mathematics
- Recreation and Park Administration with options in
 - Recreation Administration
 - Therapeutic Recreation
 - Park Administration
 - Turf Management
- Interpretive Naturalist options

Bachelor of Science in Electrical Engineering

- Electrical Engineering

Bachelor of Science in Mechanical Engineering

- Mechanical Engineering

Associate of Science

- Information Technology

Associate of Science in Nuclear Technology

- Nuclear Technology

In addition, the Department of Agriculture offers curricula in Pre-Forestry and Pre-Veterinary Medicine, and the Department of Mathematics offers a curriculum leading to teacher licensure.
