

DEPARTMENT OF PARKS, RECREATION AND HOSPITALITY ADMINISTRATION

The Department of Parks, Recreation and Hospitality Administration offers majors in *Recreation and Park Administration* and *Hospitality Administration* and minors in *Recreation and Park Administration* and *Hospitality Administration*.

The *Recreation and Park Administration* major provides specialized education that helps prepare students for supervisory and administrative positions in federal, state, and local recreation and park agencies as well as commercial recreation and tourism organizations.

The *Hospitality Administration* degree program is designed to prepare students for management positions within the hospitality industry such as lodging, resorts, conference and convention centers, restaurants, contract services, theme parks and travel/tourism-related operations.

This program is designed to prepare students for management careers in private and public recreation agencies or park systems. A broad background in the behavioral and natural sciences is required with major emphasis on resource management and the delivery of leisure services to diverse populations. Specialized course work in biological sciences and business management aid in natural resource decision making. This provides a base for professional courses in planning, design, and operation of park and recreation facilities. A career in recreation administration, park administration, therapeutic recreation, turf management or interpretation requires a basic understanding of human behavior and the challenges of contemporary society. Due to the multidisciplinary nature of the career field, a student is required to choose courses from several related fields, based on professional interest. A comprehensive general education is complemented with a core of professional courses. The *Bachelor of Science* in Recreation and Park Administration offers five emphasis of professional preparation:

Recreation Administration Option prepares students to work in community and agency settings and commercial recreation businesses. Programming and people management are major areas of expertise.

Minor Recreation and Park Administration

The minor in Recreation and Park Administration is designed for those students majoring in other disciplines who wish to develop specialized knowledge in the area of Recreation and Park Administration. This minor may be of particular interest to those students who wish to work for a recreation and park oriented agency after graduation. This minor may be well-suited for Emergency Administration and Management, Fisheries and Wildlife Biology, and Hospitality Administration majors. Flexibility in the minor allows students to choose courses to match their particular needs and interests.

The minor in Recreation and Park Administration requires 18 hours of courses:

RP 1013 Principles of Recreation and Park Administration

RP 2003 Recreation Programming

RP Electives (12 hours of RP academic courses including 9 hours at the 3000 or 4000 level, excluding RP 3043, RP 4001, and RP 4116)

Hospitality Administration

The hospitality administration degree program is designed to prepare students for management positions within the hospitality industry such as lodging, resorts, conference and convention centers, restaurants, contract services, theme parks and travel/tourism-related operations.

The course work concentrates on general business, management, finance, marketing, accounting, law, computer science, and specific courses related to hospitality management. The entire curriculum features numerous opportunities for the practical application of problem-solving skills and creativity.
