The School of Systems Science seeks to equip students with the interdisciplinary, technical, and critical-thinking skills that are necessary to develop workable solutions to complex problems. The School is composed of six academic departments: Agriculture, Computer and Information Science, Electrical Engineering, Mechanical Engineering, Mathematics, and Parks, Recreation and Hospitality Administration. These departments offer programs of study leading to the baccalaureate and associate degrees listed below.

Bachelor of Science

Agriculture Business with Horticulture Business and Animal Science options

Information Systems

Computer Science

Hospitality Administration

Mathematics

Recreation and Park Administration with emphases in:

Recreation Administration

Therapeutic Recreation

Park Administration

Turf Management

Interpretive Naturalist

Bachelor of Science in Electrical Engineering

Electrical Engineering

Bachelor of Science in Mechanical Engineering

Mechanical Engineering

Associate of Science

Information Technology

Associate of Science in Nuclear Technology

Nuclear Technology

In addition, the Department of Agriculture offers curricula in Pre-Veterinary Medicine, and the Department of Mathematics offers a curriculum leading to teacher licensure.
