Engineering Career Opportunities (FT/Intern/Coop)

Lockheed Martin is a global security and aerospace company that employs about 116,000 people worldwide and is principally engaged in the research, design, development, manufacture, integration and sustainment of advanced technology systems, products and services. Headquartered in Bethesda, MD, Lockheed Martin has 1,000 facilities in 500 cities and 46 states across the United States as well as business locations in 75 countries and territories.

With breakthrough performance, game-changing innovations, and an unwavering sense of purpose, Lockheed Martin offers an extensive array of IT and engineering capabilities across a broad spectrum of careers. Whether it’s delivering real-time data to military aircraft or designing technologies to government agencies worldwide, your contributions will make a real difference to our world.

We invite you to explore the possibilities with one of the foremost systems engineering, software and systems integration companies as we search for college graduates and interns/co-ops to contribute in the following engineering disciplines:

- **Electrical:** Design software to perform engineering tasks and/or maintain electrical equipment, components and products.
- **Computer:** Design networks that connect computer systems and/or work on integrating software programs with computer hardware.
- **Systems:** Perform test planning and analysis, architecture development and assessment, system capabilities analysis and develop theoretical models to determine the best way to design a system.
- **Mechanical:** Research, plan and design of mechanical products and systems using a variety of design tools.
- **Aerospace:** Design, develop and test aircraft, missiles and space vehicles and oversee their production.
- **Industrial/Operations/Production:** Analyze and design a sequence of operations and/or work flow in order to improve efficiencies within plant and production facilities.

As an integral part of the Lockheed Martin team, you will have the opportunity to excel at Lockheed Martin – one of the World’s Most Admired Companies by Fortune Magazine, the Best Diversity Company by Readers’ Choice Survey by Diversity Careers Magazine, America’s Ideal Employers for Business and Humanities/Liberal Arts by Universum, and Diversity Inc.’s Top 50 Companies for Diversity.

Due to the nature of some opportunities, there may be a requirement to obtain a security clearance or be eligible for a security clearance.

Location: Nationwide

Qualifications for Lockheed Martin Engineering Opportunities include:
- BS or MS Degree in Aeronautical, Electrical, Computer, Systems, Industrial, Mechanical Engineering or related major
- 2.8 cumulative minimum GPA preferred
