Meeting was called to order at 4:01

Melinda began discussing the phlebotomy CP program. Dr. Murders began the program to enable students to take the summer class prior to entering another Health & Wellness program. This would enable students to begin working. No labs were set up at the time. A CPR class was also set up at the time and it wasn't coordinating with the times. The students are entering with no anatomy prior to taking the class.

Rebekah advised they might need to look into changing the classes in Summer I & II. Melinda was asked to check into how many students enter the program with no prior classes. Rebekah made a motion to table it and Heather second it.

Heather brought up the bylaws and it was decided to discuss them at the next meeting.

The next meeting will be Dec. 1, 2021 at 4:00

Motion to adjourn and Heather 2nd it.
