

2012 FACULTY ACCOMPLISHMENTS

ARKANSAS TECH
UNIVERSITY

ROBERT CHARLES BROWN
- PRESIDENT

On behalf of the Board of Trustees, please allow me to offer our most sincere congratulations and express our appreciation to all of our faculty colleagues on the significant level of accomplishment which is recalled in the pages of this volume. For over 100 years now, Tech has been dedicated to excellence in teaching, scholarship and service for the benefit of our students and the people of Arkansas. This high level of scholarship and the dedication exhibited by our faculty are the reasons the University is widely known for care and concern in meeting the educational needs of our constituents.

ARKANSAS
TECH
UNIVERSITY

JOHN WATSON
- VICE PRESIDENT FOR ACADEMIC AFFAIRS

The mission statement of Arkansas Tech University indicates that we offer a wide range of traditional and innovative programs which form the basis for lifelong learning to a diverse student body. This record of faculty accomplishments demonstrates that the Tech faculty is a diverse group of professionals committed to the principle of lifelong learning. The Office of Academic Affairs appreciates the excellent work of our faculty members who pursue these scholarly activities in addition to their commitment to excellence in the classroom. We extend congratulations to our colleagues who are recognized in this issue.

FACULTY AWARDS OF EXCELLENCE

*Faculty Award of
Excellence for Teaching*

Dr. David Mudrinich

Professor of Art

David Mudrinich received his MFA from the University of Georgia and has been a faculty member at Arkansas Tech since 1998. Within the Department of Art, he teaches all levels of drawing and painting and also conducts the senior project and exhibition course. He finds particular enjoyment in being able to work one-on-one with students and assist them as they progress through the program. Remaining active as an artist is also an important part of his teaching methodology and creative research. He stresses the importance of time management, discipline, organization and goal setting as additional

skills needed in the art professions. Mr. Mudrinich received the ATU 2005 Faculty Award of Excellence for Scholarship based on his research in exploring the sense of place within the American landscape. His works have been exhibited nationally including at the Butler Institute of American Art, Arkansas Art Center, Springfield Art Museum, Clinton Presidential Center and the Wichita Center for the Arts. Collections of his work include the State of Georgia Art Collection, the William J. Clinton Foundation, Hendrix College and North Georgia College and State University.

Dr. Daniel Bullock

Associate Professor of Electrical Engineering

Dr. Daniel Bullock received his B.S. degree in Physics from Arkansas Tech University in 1997. Dr. Bullock was awarded a M.S. in Applied Physics in 1999 and a Ph.D. in Physics in 2001 both from the University of Arkansas. Dr. Bullock first came to Arkansas Tech as an Assistant Professor in Physics in August of 2003 and was promoted to Associate Professor of Physics in August 2009. Dr. Bullock then joined the Department of Electrical Engineering as an Associate Professor of Engineering in January 2010.

During this time, Dr. Bullock was able to develop a productive research program in the area of Nano Science while teaching both physics and electrical engineering courses. Dr. Bullock was successful in developing and receiving over twenty research grants resulting in over \$250,000 in funding to support his research. As a result of his research, Dr. Bullock published approximately ten papers in peer reviewed journals and made over eleven presentations on his research at professional meetings.

Dr. Richard Cohoon

Professor of Geology

Dr. Richard Cohoon, distinguished professor of geology, served on the Arkansas Tech faculty from 1960-2012. He retired on commencement day with 52 years of service, making him the longest-serving faculty member in Arkansas Tech history. Dr. Cohoon earned his baccalaureate degree from Oklahoma City University in 1954. He added a Master of Science degree from the University of Oklahoma in 1959 and a Doctor of Education degree from Oklahoma State University in 1974. Dr. Cohoon served as dean of what is now known as the College of Natural and Health Sciences for 23 years

and as department head of physical sciences before that. Even though Dr. Cohoon's days as an active member of the faculty ended with his retirement on May 12, 2012, his familiar face continues to be seen on the Arkansas Tech campus during the 2012-13 academic year. Dr. Cohoon has used that time to complete work on his "Geologic Road Guide to Scenic Route 7." The first draft of the project is currently under review. Final field checking, supplemental article writing and publishing will take place in 2013 in coordination with the Arkansas Geological Survey.
