

From Shauna:

Below is **all undergrad main campus apps**. Remember, the app term for fall 2017 still has 4+months. Also, remember that some programs had a name change. So what appears to be a 100% increase = not the real case. Also, keep in mind the increase in Early Childhood Ed Birth-Pre-K, is generally a false increase. Most of those apps are really EED in disguise.

Programs that catch my attention:

Agri Bus Animal Science (AGRI works their recruits!)

Electrical Engr Biomedical Option

Game/Interactive Media Design

Medical Technology

Only if you want to disregard the name change:

Physics Education

Environmental Science
