

Transfer Students

Newly admitted transfer and returning students who have declared a major, and have earned more than 60 hours will meet with a faculty advisor in the academic departments.

Newly admitted transfer and returning undeclared students or students with a declared major and less than 60 earned hours will be advised in the AAC. Any student who needs additional guidance in selecting a major may also meet with an advisor in the AAC.

 Students seeking only an associate degree will be advised by the department after their first advising appointment with the AAC, except for the students seeking the Associate of Arts in General Education.

The AAC will continue to advise students who are seeking an associate in conjunction with a bachelor degree until approximately 60 hours.

Arkansas Tech University offers a limited number of Transfer Scholarships. Please contact the Office of Admissions for further information.
