Student's Name: _____

                      (Last)   (First)   (Middle)

High School: _____

Name of school personnel submitting the test scores: _____

Email of school personnel submitting the test scores: _____

Formal Test Data

Give names of tests, dates administered, and appropriate standard score and percentile scores. Please provide as much data as possible. The percentile for the score is important so that the committee has some context for what constitutes a good score. Committee members may not be familiar with the specific test. If percentile is not available, please include some information about the relative level for the score. Include sub-test scores for areas of application. Test data should not be more than two years old and should be verified. Some examples of test score data that would apply: SAT, PSAT, NMSQT, ACT, Aspire, etc.

Test Name	Test Date	Score AND Percentile (Include subscores, if applicable.)
