6:00-9:00 PM	Crafts	BazTech 203
7:30 PM	Spider-Man: Into the Spider-Verse	Doc Bryan Auditorium (20)

### **Bubble Soccer**

Tired of lying in bed at night asking yourself what it would be like to play soccer as a ball? This event is your opportunity to gain closure and move on with your life.

### **Trivia Night**

Come to baztech for a night of trivia with questions sourced by your own AGS faculty.

### **John Anglin- Not like Monopoly**

A discussion of modern board games and how the hobby has changed. Come learn about some of the new games in Baztech.

### **The Influence of Technology on Mental and Physical Health**

In this talk, the speaker focuses on stigma and issues that commonly arise while using technology. Specifically, she discusses strategies to overcome stressors associated with mental and physical health issues that result from the usage of social media.

### **Culture and Consumption- an Intersectional Approach**

Culture and Consumption studies focus on how society constructs and interprets material and non-material artifacts. The purpose of this talk is to shed light on the social structure in which these artifacts are produced. By examining the intersections of race, class and gender, we can better understand how these goods reflect a system of inequality and privilege.

### **Kathy Manus- Blackout Poetry**

Enjoy a unique creative writing activity using pages from books to create poetry.

### **Sunday July 21<sup>st</sup>**

10:00 AM- 9:30 PM	Board Games	BazTech 204
10:00 AM-9:30 PM	Crafts	BazTech 203
2:00 PM	Dodgeball Tournament	MultiSport (3)
<b>*6:00 PM</b>	<b>Floor Meetings</b>	Residence Halls
7:00 PM	Kickball	Campus Rec Fields (48)

### **Aaron McArthur- Paper Marbling Workshop**

The secret art of paper marbling. This hands-on workshop invites you to learn the basic production of this paper that was once an integral part of book-binding.

### **Dodgeball**

Come test your aim and reflexes in hull gym!

### **Luay Washeh- Cyber Attacks!**

Cyber-crime is changing and increasingly threatening the United States national security and economy. Cyber-attacks are becoming more frequent and increasingly sophisticated. Malicious software continues to propagate through cyber-attacks. In this presentation, we will discuss malicious software and techniques used by cyber criminals to launch different types of cyber-attacks. In addition, we will discuss countermeasures for these types of attacks. The approaches discussed in our presentation are important steps towards reducing cyber-crime.

### **Luke Dormehl**

Luke Dormehl is a technology journalist, author, and public speaker. His most recent book, *Thinking Machines*, is about the past, present and future of artificial intelligence. Mr. Dormehl will talk to students about what could happen if machines ever gain self-awareness? Will the scope of humanity need to broaden itself to include intelligent machines?

### **John McGrew- Independent Animated Short Films and Art in Motion**

At the Animated Shorts talk, several films and filmmaker commentaries will be shown. Animated short films have been selected from a variety of mediums. Following the viewings, attendees will have the opportunity to ask questions about and make comments on the films.

### **Rick's Open Improv Session #2**

Jamming on the blues. Based upon simple blues riffs and figures from recognizable tunes by Quincy Jones, Charlie Parker, Sonny Rollins and others, we'll learn a few blues "heads" and improvise on them, again making music with friends! Open to all instrumentalists, vocalists, and observers. Jam #1 is helpful, but not a pre-requisite.

### **Patrick Haggae- Goodbye Arkansas, Hello Arkansas: A Map-Focused Look at Our Rapidly Changing State**

Massive changes in population, economy, and power are rearranging the human geography of Arkansas. The eastern Delta region continues its long downhill slide, while Northwest Arkansas is a center of near-endless growth. This map-focused talk examines how regions of Arkansas have already changed, as well as projections of our state's future. By 2050, Arkansas will be more urban, more dominated by Northwest Arkansas, and less culturally 'southern'.

### **Jacob Grosskopf- Galapagos Islands: Why They Are Even More Important Than You Think**

The Galapagos Islands are best known for the site which Charles Darwin developed his important work on natural selection and evolution. What many do not know is the Galapagos Islands have a rich geologic history, to the point of altering the Earth's ocean currents and building a land bridge between North America and South America, leading to global changes in Earth's climate and biological geography. This talk explores how the Galapagos Islands formed, how this is different from normal volcanism, and the series of events that altered the Earth to the current climate and continent configuration it is in today.

### **Tim Trawick- Arkansas Fiddler**

Come hear some foot stompin' old time fiddle music by Tim Trawick, an Arkansas State Fiddle Champion! You'll hear a variety of music including old time, bluegrass, Cajun, western swing and other surprises!

### **Jeff Woods- Echochambers, Symbolism, Politics and the Arkansas Governor's School**

What does AGS symbolize politically and culturally? Why is it so important to so many people and how have groups formed to invest in what AGS is and does? This will be a discussion more than a lecture.

### **Blade Runner**

In a cyberpunk vision of the future, man has developed the technology to create replicants - humanoid androids with short, fixed lifespans - which are illegal on Earth but are used in the off-world colonies. In Los Angeles, 2019, Deckard is a Blade Runner, a cop who specializes in terminating replicants. He is forced to come out of retirement when four replicants escape from an off-world colony and come to Earth.

### **Legislator Day**

Arkansas State Legislators will be visiting AGS classrooms and facilities.

### **Flood Recovery Preparation**

If you are planning to go to Dardanelle on Saturday July 20 to visit the recent flood zone, please attend this preparation meeting.

### **Flood Recovery Day:**

We will be visiting the recent flood zone in Dardanelle Arkansas and learning from local officials about responding to the disaster. We also may get a chance to help out.

### **John McGraw- Radical? Militant? Librarianship!**

Libraries are radicalizing Informing into Engaging, because their communities are Transforming.

**Archery Tag** It's like dodgeball but with arrows. Don't worry though, they're soft-tipped arrows so they won't hurt.

### **Open Tennis**

Every tennis player's favorite sport is coming to AGS! Head to the tennis courts north of Witherspoon tonight to join in on the fun!

### **Spider-Man: Into the Spider-Verse**

Teen Miles Morales becomes Spider-Man of his reality, crossing his path with five counterparts from other dimensions to stop a threat for all realities.

### **Kickball**

The forbidden love-child of baseball and soccer is here on campus for a limited time.
