ARKANSAS GOVERNOR'S SCHOOL

This yearbook of the 1990 Arkansas Governor's School is dedicated to all those who were here in the hope that it will continue to add a little spark to their lives by reminding them of their experiences this summer. It was a summer filled with many memories and new found friends. How does one put all of these different encounters into perspective? "Is it real" takes on new meaning as do so many other concepts and feelings that we carried with us to the beautiful Hendrix College campus. I trust that each of you will take a renewed hope, higher expectations, and a personal dedication to playing a leadership role in the betterment of life for all in the 21st Century.

Each of us will forever owe a debt of gratitude to the State of Arkansas for having fully funded this annual experimental program which expands the educational opportunities of some 400 of its gifted and talented high school students.

Some of the memorabilia of 1990: The Man who Mistook his Wife for a Hat, dances, dorm parties, *Alphaville* and *Night and Fog* and other films, Instrumental and Choral Concerts, Governor Clinton as well as Senators Pryor and Bumpers, Nikki Giovanni and Loren Hollander, performance sculpture, variety show, Hulen cafeteria food (not really that bad), 3:15 speakers in Mills B, 9:40 speakers every Tuesday and Thursday in Staples Auditorium, Fourth of July celebration with clients of the Human Development Center, bull sessions everywhere and at all times, and of course classes in Area I (disciplinary theories) as well as Area II (theories about theories) and Area III (talking about how we feel about it all). Some of the events, films, speakers, classes were entertaining; some were controversial or even filled with tension or personal anxiety; some were boring, but all were thought provoking for those who made the effort to learn. What an experience!

I hope that the spirit of free but responsible inquiry that is so carefully nurtured at the AGS will continue to live in each of you.

Best wishes to all who were here.

FACULTY

Area I embraces instruction in the performing arts of choral music, drama, instrumental music, and visual arts and course work in the academic disciplines of English/language arts, mathematics, natural science, and social science. Emphasis in Area I is placed on participatory learning experiences that prepare atudents to enter and understand the critical systems that undewrgird the various fields of study. To this end, the students examine new, challenging and often controversial theories, techniques, and works---all designed to encourage them to develop a critical stance based on careful scrutiny of ideas and developments within their area of interest. (Pictured on pages 3-26.)

Area II is designed to encourage conceptual development. Discussions generally center around broad philosophical issues which the instructor and students together investigate, not so much to reach agreement or definitive conclusions but to progress to deeper levels of intellectual reflection.

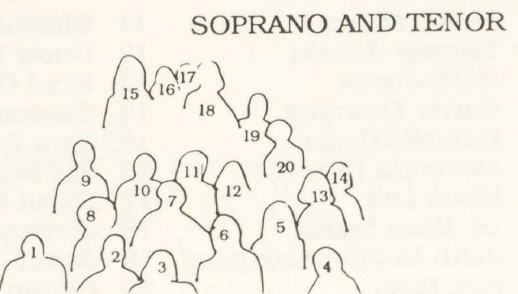

Bill Myers, Margaret Morgan, Charles Pinches, Conrad Shumaker, Kae Chatman, Randall Berkey, William Seidensticker, Christina Sharp

Area III uses small group discussions, speakers, and inventories to advance each student's understanding of acceptance of self and others and to promote personal and social responsibility.

Bill Haymes, Bruce Wooley, Wayne Fawcett, Donna Wallace, Betty Garretson, Jim Rush, Jon Arms, Sheila Parsons
