Twenty Years of Learning

BRUCE HAGGARD ~ AGS DIRECTOR

This 1999 AGS yearbook is a memento for the alumni who have helped to make the Twentieth Annual Arkansas Governor's School program an enriching educational experience. This yearbook is dedicated to the two faculty members who have participated for each of those twenty years, John Erwin and Jim Hatch; as well as to the Administrative Assistant, Lisa Calef who helped so much with the preparations but who was sidelined for the duration of the program by the crash of flight 1420. Mr. Erwin and Mr. Hatch have consistently challenged music students to exceed even the highest standards in understanding and performance of 20th Century music. All AGS participants over the past 20 years have benefited from hearing these extraordinary concerts. Thanks John, Jim and Lisa!

This summer's program opened with a memorable address by Governor Mike Huckabee who reminded us of the taxpayers' investment. He enthusiastically encouraged all of you to make the most of this unique opportunity. There were lectures by and conversations with many other Featured Speakers such as, the Amazing James Randi, Bertice Berry, Miller Williams, David Bailin, Jay McDaniel, Lynne Quarmby, retired Senator Dale Bumpers on Parents Day, John Churchill, Kirk Hathaway with Ballet Arkansas, and Anthony Cohen. You will undoubtedly remember the new theories, the sometimes heated discussions, and the open atmosphere of your Area I, II and III classes. You may wish to forget the Saturday morning classes, curfews, roommate conflicts, summer heat, occasional bad meal, construction noise, pecan shells on the soles, and class assignments. However, the art show and drama productions, featured films with discussions, the videos, the guest speakers, campus games, dances, variety shows, and birthdays in the cafeteria are all part of the positive memories. But the most memorable of all will be the atmosphere of intellectual freedom and of course the friends you met in the short six weeks of the summer of 1999. We were a diverse group of people, but we came together to learn and to participate in making the unique community experience called AGS.

The faculty, staff, and residential hall assistants endeavored to provide a summer program around the theme of "building communities". The success and value of the AGS program will be measured by how much you have learned about your particular disciplinary focus and the nature of knowledge, by how much you have learned about yourself and your role in society, and by the degree to which you are inspired to make a positive difference in the world. Our communities are a product of what we are willing to put into them and an informed citizen is an asset to family and to the global community.

Please take your responsibility as alumni seriously and remember to thank the taxpayers, the legislators, your school administrators, your teachers, and your parents for helping you get to this point and for providing you with this opportunity to participate. Also talk to potential future participants and teachers about the program so they can help rising seniors of the future understand the opportunities offered by the AGS.

My charge to you, as you finish your final year in high school and make plans for your future, is to carefully order your priorities and to remember that the "life well lived" requires a zeal to understand, a self-disciplined mind, a good work-ethic, a positive attitude, a strong sense of responsibility, and a zest for participation. I hope that your six weeks at the 1999 Arkansas Governor's School will prove to be a springboard for a life-long love of learning that will bring you personal happiness and joy.

The faculty, staff, and residential hall assistants of the 1999 AGS wish you the very best in your efforts to achieve the greatest of your aspirations.

Sincerely,
Bruce Haggard, Director

AREA I

Area I embraces instruction in the performing arts of choral music, drama, instrumental music and visual arts, and course work in the academic disciplines of English/Language arts, natural science, mathematics, and social science.

Emphasis in Area I is placed on participatory learning experiences which prepare students to enter and understand the critical systems that undergird the various fields of study. To this end, students examine new, challenging, and often controversial theories, techniques, and works — all designed to encourage them to develop a critical stance based on careful scrutiny of ideas and developments within their area of interest.

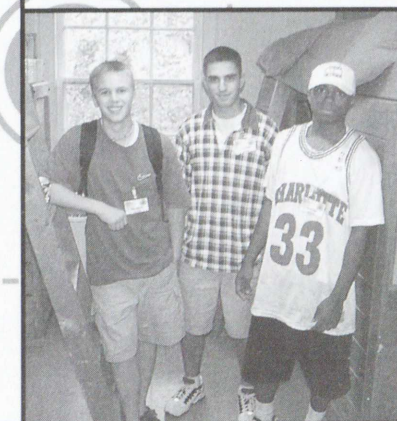

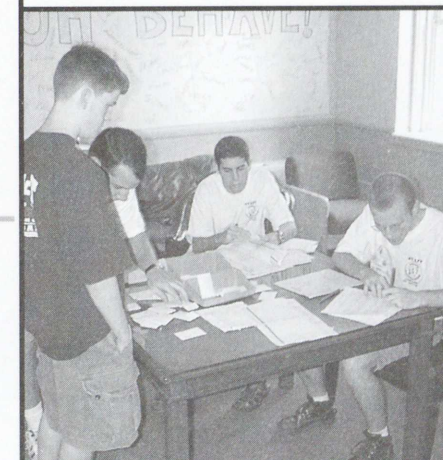

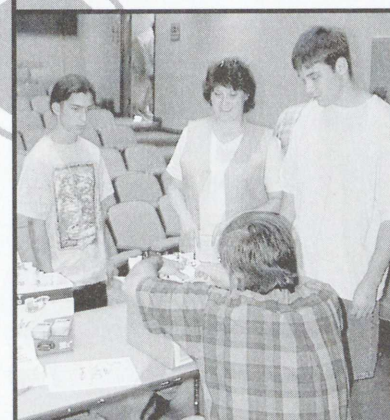

Alice Hines is Coordinator of Academic Disciplines and Michael Bates is the Coordinator of Performing Arts.

AREA II ~ GENERAL CONCEPTUAL DEVELOPMENT

Area II curriculum is designed to enhance conceptual development. Students are encouraged to learn more about how knowledge is acquired (epistemology) and to understand the various ways of knowing in different disciplines. In striving to increase their ability to analyze diverse perspectives of current normative issues, students gain a new appreciation for their implications. Classroom discussion then lead students to progress to deeper levels of intellectual reflection which enhances their ability to become better thinkers.

Keith Sutton is the Area II coordinator.

PERSONAL AND SOCIAL DEVELOPMENT ~ AREA III

Area III attempts to create an environment in which students inquire into the nature of their individual abilities and the responsibility they have to their respective communities.

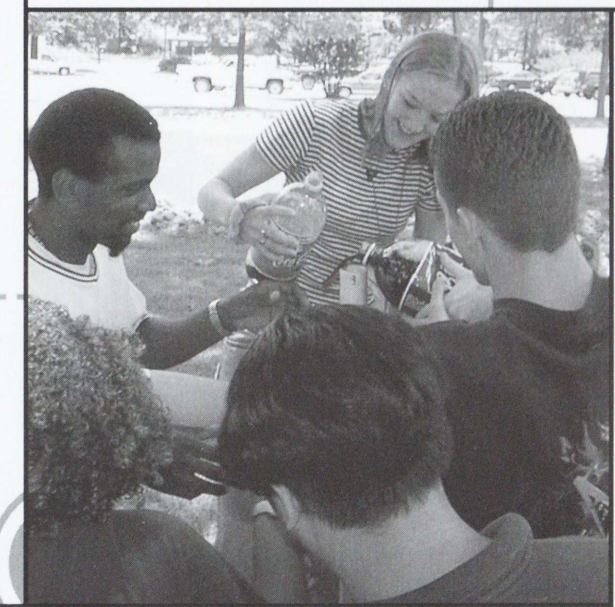

Realizing that "community" is now both local and global, Area III fosters the development of both the personal and social awareness the students will need as their knowledge expands and they confront diverse world views. Using the framework of social theory, sociology, and psychology and ethics, Area III provides a forum for students to explore issues that arise in a diverse community. By stressing the importance of personal self-awareness and individual accountability along with the values of character, compassion, and social responsibility, Area III encourages a deeper commitment and understanding of what it takes to create and maintain a just and compassionate community, both local and global.
