area 1

Academia & The Arts

Area I embraces instruction in the performing arts of choral music, drama and instrumental music, in visual arts, and in the academic disciplines of English/language arts, natural science, mathematics, and social science.

Emphasis in Area I is placed on participatory learning experiences which prepare students to enter and understand the critical systems that undergird the various fields of study. To this end, students examine new and often controversial theories, techniques, and works—all designed to challenge them to develop a critical stance based on careful scrutiny of ideas and developments within their areas of interest. Stacy Key is the Area I Academic Coordinator and Ray Wheeler is the Area I Arts Coordinator.

area 2 *General Conceptual Development*

(L to R) (lower row) Stefanie Dickinson, Michael Simeone (middle row) Emily Austin, C.J. Sentell, Sarah Robbins, Trent Shaskan, Phillip Spivey (cool kids row) John Walchak, Mark Elrod (Area Coordinator)

The Area II curriculum is designed to enhance conceptual development. Students are encouraged to learn more about how knowledge is acquired (epistemology) and to understand the various ways of knowing in different disciplines. In striving to increase their ability to analyze diverse perspectives on current normative issues, students gain a new appreciation for their implications. Classroom discussion then leads students to progress toward deeper levels of intellectual reflection, which enhances their ability to become better thinkers. Mark Elrod is the Area II Coordinator.

Personal & Social Development

area 3

(clockwise, beginning top left) Chad Terrell, Melinda Beith, John Shirron, Rob Bryant, Phillip Melton (Area Coordinator), Fred Boosey, Debbie Gibbs, Spencer Sutterfield, Miranda Morris

Area III is designed to foster the personal and social development necessary for the students to benefit fully from Area I and Area II classes and the cultural and social events of the AGS program. The Area III curriculum provides an opportunity for the students to see the importance of taking personal responsibility for one's own ideas and for one's participation in a democratic society. Area III provides students a forum for actively exploring civic responsibility; it seeks to inspire a student's understanding of his or her own personal potential and to impress upon the student the values of character, leadership, integrity, insight, and compassion, not only within their own communities, but also within their society at large.

Within this framework, students explore curricular issues such as theories of intelligence, conflict and stress management, psychological and personality theory, goal setting, and community service. Phillip Melton is the Area III coordinator.
