From the Director

Lyle Rupert

As AGS 2007 draws to a close, I want to thank all of you for a wonderful session. Energy was high, behavior was good, goals were met, and we had a blast doing it! Whenever you look through your yearbook and reminisce about your summer at AGS, be sure to remember the new friends you made, the teachers and staff members who guided you, the wonderful educational experience you encountered, the speakers you heard, the films you saw, the activities you participated in, and the excitement you had. Too bad you can't do it all over again!

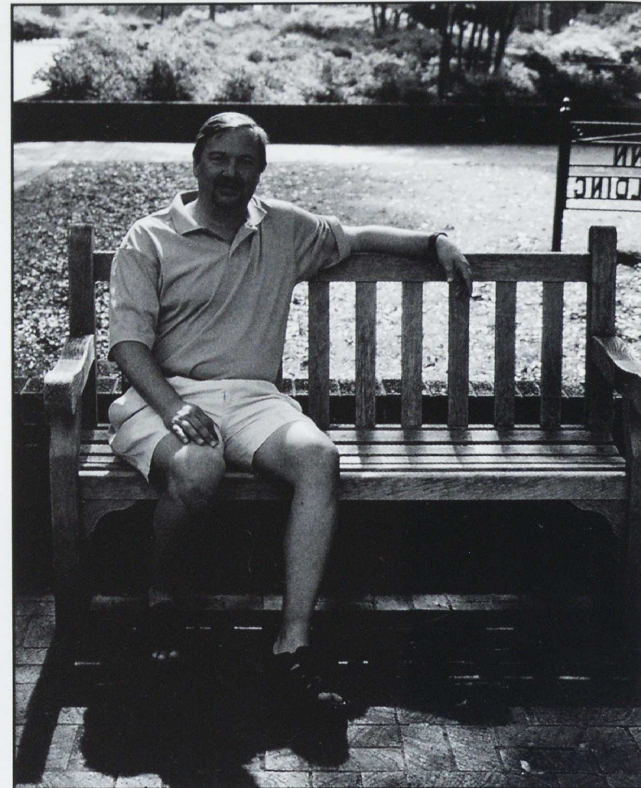

From the opening convocation with special guest Governor Mike Beebe through our closing convocation and slideshow, you've encountered many things - marine biology and luminescent sea creatures, methods and benefits of critical thinking, discussions of reality, new theories and cutting edge research, historical perspectives and understanding the past, and international situations and concerns. You've experienced drama, art, and music - both by professionals and by your classmates. You've watched and discussed meaningful films. You've competed and collaborated in recreational and other activities. (By the way, do you remember who won the Student vs Faculty/Staff softball game?!) You've participated in collecting cereal for hungry people and in donating blood for the Red Cross. Wow! How did you pack all of that into just six weeks?! And, was the sacrifice of giving up six weeks of your summer worth it? I'm sure most of you would answer with a resounding "YES!"

Hopefully, your eyes and minds have been opened to see and understand more about yourself, the world, and your place in it. But, it doesn't stop here. Continue to develop your awareness and your abilities and use what you've learned to make this world a better place for everyone. Make learning a life-long activity for yourself. And, continue to understand what it means to be a part of a community and how to help the community thrive.

Congratulations on your accomplishments so far. I hope you have a wonderful senior year. You've got a bright future full of opportunities ahead of you, including college and career. I hope that AGS has helped you be better prepared and more effective for your future. Be intentional with and responsible for your ideas and actions. Think deeply and critically. Be aware and compassionate. Thank those who have invested in you and helped make AGS a reality for you - your family, your teachers, the Department of Education, and the Legislature of the Great State of Arkansas (and the taxpayers!) Be well. And, be yourself.

God bless you in your future,

Lyle Rupert, Director

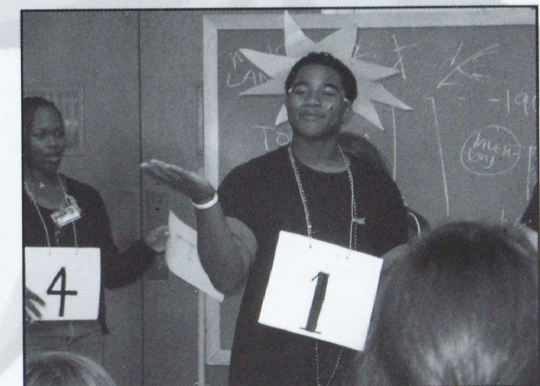

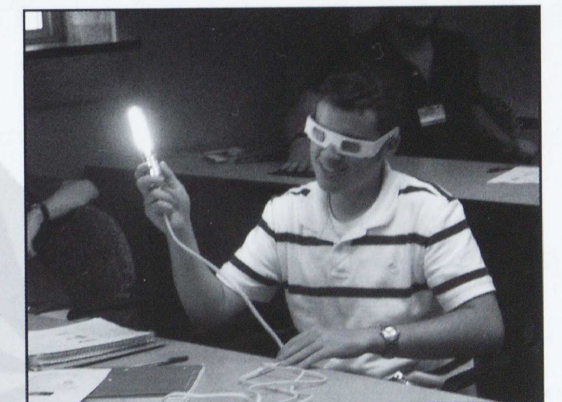

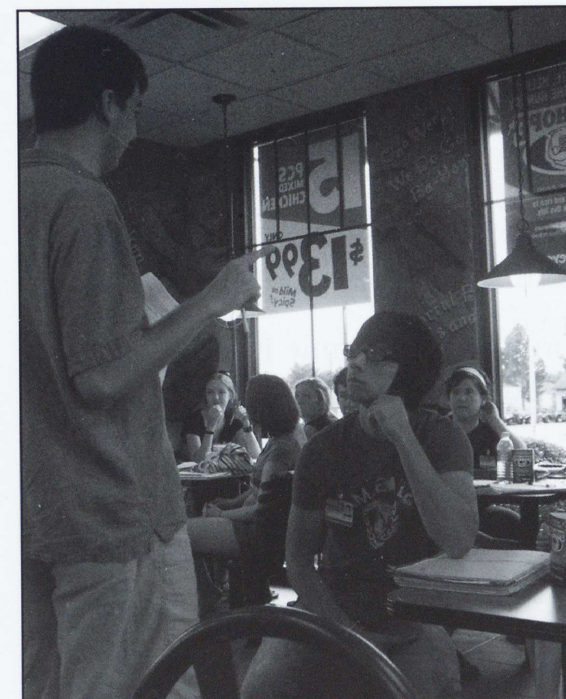

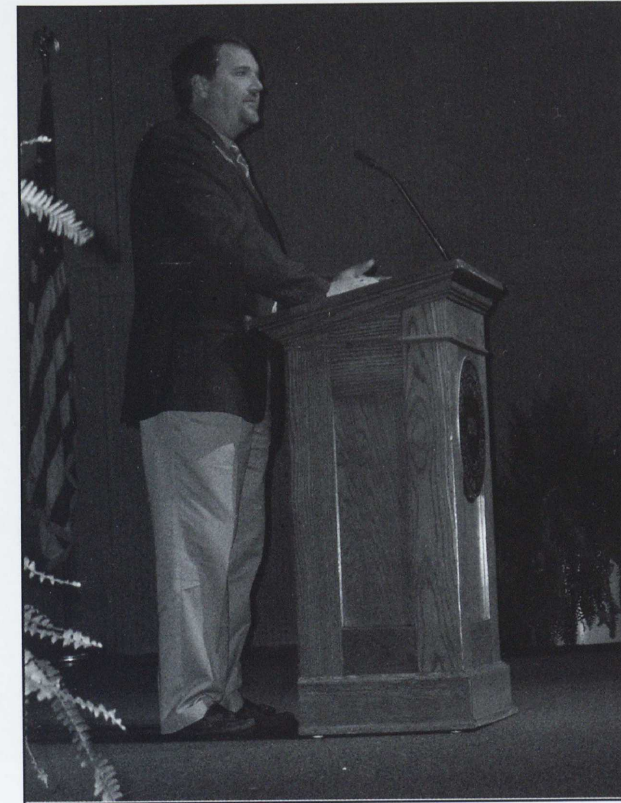

Area I

Arts and Academia

Area I embraces instruction in the performing arts of choral music, drama, instrumental music and visual arts, and course work in the academic disciplines of English/language arts, natural science, mathematics and social science.

Emphasis in Area I is placed on participatory learning experiences which prepare students to enter and understand the critical systems that undergird the various fields of study. To this end, students examine new, challenging, and often controversial theories, techniques, and works—all designed to challenge them to develop a critical stance based on careful scrutiny of ideas and developments within their areas of interest. Stacy Key is the Area I Coordinator and Tom McDonald is the Area I Arts Coordinator.

Area II

General Conceptual Development

(L to R) **Row 1:** Jim Rush, Ashley Cullum, Mark Elrod (Area Coordinator), Michael Simeone.

Row 2: Revis Edmonds, Phillip Spivey, David Scott Cunningham, Kathleen Babcock, Bryan Cwik.

The Area II curriculum is designed to enhance conceptual development. Students are encouraged to learn more about how knowledge is acquired (epistemology) and to understand the various ways of knowing in different disciplines. In striving to increase their ability to analyze diverse perspectives on current normative issues, students gain a new appreciation for their implications. Classroom discussion then leads students to progress toward deeper levels of intellectual reflection, which enhances their ability to become better thinkers. Mark Elrod is the Area II Coordinator.

Area III

Personal and Social Development

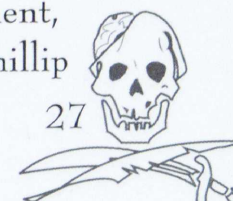

(L to R) **Row 1:** Fred Boosey, Richard Gobble, John Shirron.

Row 2: Spencer Sutterfield, Morgan Hicks, Chad Terrell.

Row 3: Debbie Hibbs, Phillip Melton (Area Coordinator), Melinda Beith.

Area III is designed to foster the personal and social development necessary for the students to benefit fully from their Area I and Area II classes and the comprehensive cultural and social events of the AGS program. The Area III curriculum provides an opportunity for the students to see the importance of taking personal responsibility for one's own ideas and for one's participation in a democratic society. Area III provides students a forum for actively exploring civic responsibility; it seeks to inspire a student's understanding of his or her own personal potential and to impress upon the student the value of character, leadership, integrity, insight, and compassion, not only within their own communities, but also in a society at large. Within this framework, students explore curricular issues such as theories of intelligence, conflict and stress management, psychological and personality theory, goal setting, and community service. Phillip Melton is the Area III coordinator.
