Dear AGS 2014:

Can you believe AGS is already finished? Although the time flew by, we packed a lot into our six weeks together. We made a lot of new friends, learned a bunch, talked with each other, considered new ideas, developed our skills, broke some bad habits, and had a lot of fun along the way. I hope you will take all that AGS has provided and continue to use it in your future development. Take this gift from your state and let it continue to help you think, learn, and communicate. In all areas of your future – college, career, family, citizenship – you can have a positive impact on the world.

You have also impressed me with your willingness to serve others. Groups of you worked in meal centers feeding local hungry people. About sixty of you gave blood during the American Red Cross blood drive. We contributed hundreds and hundreds of boxes of cereal to the Central Arkansas Food Bank. I hope you keep up that type of good work throughout your lives.

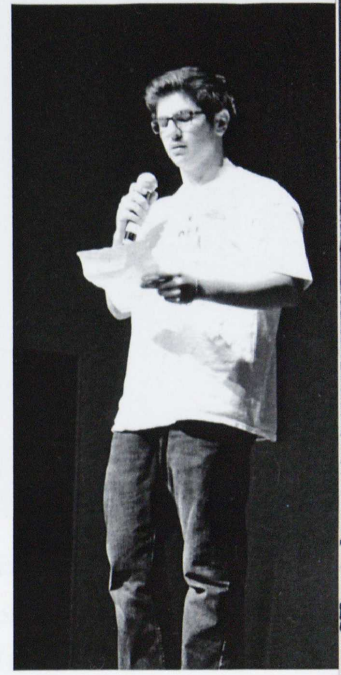

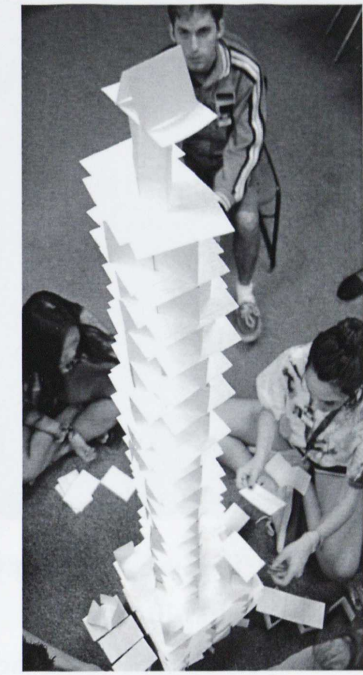

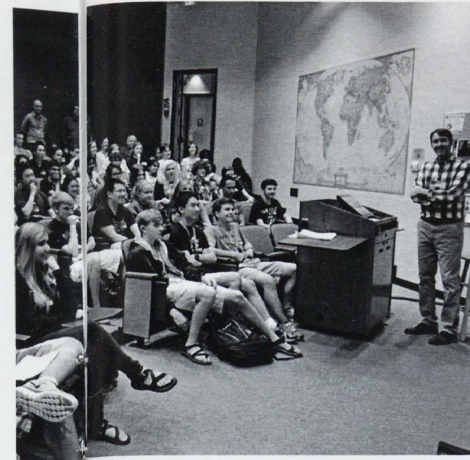

I've enjoyed spending this time with you and look forward to hearing about your future endeavors. Stay in touch!

God bless you,
Lyle

AREA I

ACADEMICS & THE ARTS

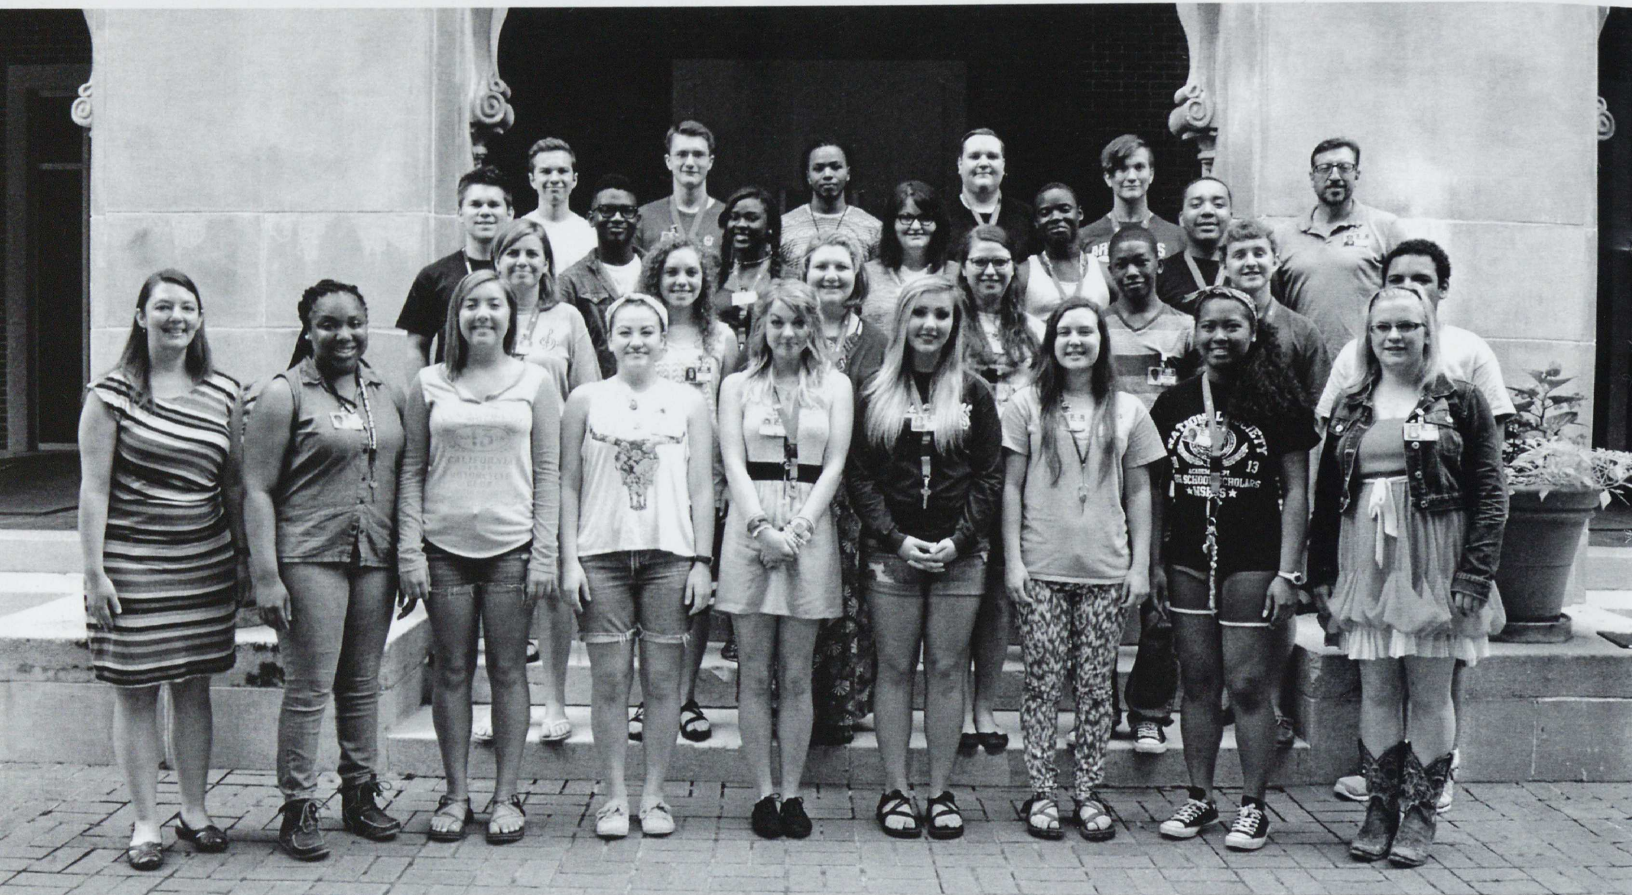

The curriculum in Area I embraces instruction in the artistic disciplines of Choral Music, Drama, Instrumental Music, and Visual Arts, as well as instruction in the disciplines of English/Language Arts, Natural Science, Mathematics, and Social Science.

Emphasis in Area I is placed on participatory learning experiences which expose students to the complex and critical systems that undergird the various fields of study. To this end, students examine new, challenging, and often-revolutionary theories, techniques, and works, all designed to challenge them to develop a critical stance based on careful scrutiny of ideas and developments within their areas of interest. Stacy Key is the Area I Academics Coordinator, and Fred Boosey is the Area I Arts Coordinator.

AREA II

CONCEPTUAL DEVELOPMENT

Alan Elrod, Mark Elrod, Jim Rush, Revis Edmonds, Phillip Spivey (off the boat), Tara Flanagan, Ray Wheeler, Sarah Baver.

The Area II curriculum is designed to enhance conceptual development. Students are encouraged to learn more about how knowledge is acquired (epistemology) and to understand the various ways of knowing in different disciplines. In striving to increase their ability to analyze diverse perspectives on current normative issues, students gain a new appreciation for their implications. Classroom discussion then leads students to progress toward deeper levels of intellectual reflection, which enhances their ability to become better thinkers. Mark Elrod is the Area II Coordinator.

AREA III

PERSONAL & SOCIAL DEVELOPMENT

Jody Webb, Chad Terrell, Debbie Hibbs, Fred Boosey, Elizabeth Martin, Spencer Sutterfield, Phillip Melton, Kelly Taylor.

Area III is designed to foster the personal and social development necessary for the students to benefit fully from Area I and Area II classes and the cultural and social events of the AGS program. The Area III curriculum provides an opportunity for the students to see the importance of taking personal responsibility for one's own ideas and for one's participation in a democratic society.

Area III provides students a forum for actively exploring civic responsibility; it seeks to inspire a student's understanding of his or her own personal potential and to impress upon the student the values of character leadership, integrity, insight, and compassion, not only within their own communities, but also within society at large. Within this framework, students explore curricular issues such as theories of intelligence, conflict and stress management, psychological and personal theory, goal setting, and community service. Phillip Melton is the Area III Coordinator.
