Students who complete the program will demonstrate:

Learning Outcome 1: Students will demonstrate effective oral communication skills.

The dissertation chair and all committee members will complete the Oral Communication Rubric at each student's dissertation defense meeting. The rubric was created by the CLL EdD faculty in the 2018-2019 school year. The program goal is that 95% of students will meet or exceed expectations for this outcome (as measured by the Oral Communication Rubric).

Learning Outcome 2: Students will demonstrate effective written communication skills.

The dissertation chair and all committee members will complete the Written Communication Rubric at each student's dissertation defense meeting. The rubric was created by the CLL EdD faculty in the 2018-2019 school year. The program goal is that 90% of students will meet or exceed expectations for this outcome (as measured by the Written Communication Rubric).

Learning Outcome 3: Students will demonstrate appropriate ethical reasoning skills.

Two EdD faculty will assess the Final Paper from the EDLD 8053 Ethics and Values course using the Ethical Reasoning Rubric. The papers will be anonymized (i.e., student's names/identifying information removed) before the assessment is completed. The rubric was created by the CLL EdD faculty in the

2018-2019 school year. The program goal is that 100% of students will meet or exceed expectations for this outcome (as measured by the Ethical Reasoning Rubric).

Learning Outcome 4: Students will demonstrate effective research skills.

The dissertation chair and all committee members will complete the Research Skills Rubric at each student's dissertation defense meeting. The rubric was created by the CLL EdD faculty in the 2018-2019 school year. The program goal is that 90% of students will meet or exceed expectations for this outcome (as measured by the Research Skills Rubric).
