

# Issues and Programs Lists

---

KXRJ-FM provides Tech and Community information to the public throughout the evening during our live DJ hours. KXRJ-FM provides community information not readily available to the public through Easy Listening and Jazz music programming as well as evening live programming.

- **Arkansas Nuclear One:** During any emergency situation at ANO, our station becomes the prime notification outlet for the Russellville area. The Arkansas Department of Health Communications Centers at ANO, Russellville or Little Rock can interrupt our normal audio to broadcast evacuation, or other health and safety related, instructions for persons living within our coverage area.
- **Nuclear Planning and Response:** NPR maintains a backup generator located on the roof of Witherspoon to maintain KXRJ-FM in an operational status in the event of power failure to the building or campus.
