## PROFESSIONAL STUDIES

### BACHELOR OF APPLIED SCIENCE

The Bachelor of Applied Science (B.A.S.) degree will provide students who have earned an Associate of Applied Science (A.A.S.) degree in any discipline a seamless transition to the online B.A.S. degree. Additionally, the program of study is appropriate for:

- Students graduating from community colleges with credentials other than an A.A.S. degree
- Degree "stop-outs" who began but never completed a bachelor's degree
- Individuals who have accumulated hours that cannot be applied toward a specific major.

Students complete the necessary hours for the degree within a convenient yet directed scheduling format under the guidance of advisors who understand the unique needs of the adult learner.

This stackable education sequence enhances an individual's academic qualifications and increases potential career upward mobility. The degree design maximizes earned hours; a student with an A.A.S. degree must complete 66 hours to earn the B.A.S. degree (26 hours General Education/40 hours Degree Requirements).

To maximize credentialing opportunities, a student in the B.A.S. program may earn the Certificate by completing the first 15 hours of Professional Studies courses in the program.

#### Learning Objectives for the Bachelor of Applied Science Degree:

- Communication: Proficiency of written communication skills for a variety of audiences.
- Critical Thinking and Problem Solving: Analyzing and evaluating evidence to deliver data-driven solutions.
- Analytical Skills: Developing conclusions through quantitative and qualitative reasoning.
- Ethics: Applying ethical principles in personal, professional, and societal contexts.
- · Diversity: Demonstrating understanding and consideration of diverse cultural perspectives and intercultural complexities.
- Teamwork: Demonstrating teamwork fundamentals through participation and engagement.
- · Technical Expertise: Demonstrating proficiency in project management, computer literacy, technology, financial management, and knowledge application.
- · Leadership and Management: Applying leadership and management strategies in professional settings, to include human resources management, conflict management, and conflict resolution.
