Enrolling In College

Students are urged to acquaint themselves with this catalog thoroughly. It sets forth policies and procedures for enrolling and successfully completing the various programs of study.

The basic responsibilities of selecting a major field, enrolling in the prescribed courses of study in the field, and complying with the University’s requirements for graduation rest with the student; however, University personnel will assist the student with problems encountered. Further assistance is offered in the form of capable departmental advisors, a full-time guidance and counseling service, and an appropriate graduation check list to serve as a reminder of the various graduation requirements.

Arkansas Tech University will provide equal opportunity in employment to all persons. This applies to all phases of the personnel process, including recruitment, hiring, placement, promotion, demotion, separation, transfer, training, compensation, discipline, and all other employment terms, conditions, and benefits. Arkansas Tech University prohibits discrimination based on race, color, religion, national origin, sex, age, disability, or veteran status.

Arkansas Tech University will provide a copy of this policy to all applicants for employment. All faculty and staff will be notified annually of the policy. Further, Arkansas Tech University will consider through a designated grievance procedure, the complaints of any person who feels that he or she has been discriminated against on the basis of race, color, religion, national origin, sex, age, disability, or veteran status.
Arkansas Tech University will have an Affirmative Action Plan that contains a set of specific and result-orientated procedures to apply every good faith effort to achieve prompt and full utilization of minorities, women, those with disabilities or veterans at all levels and all segments of its workforce where deficiencies exist. Additionally, Arkansas Tech University will continually monitor and evaluate its employment practices to ensure that they are free of bias or discrimination based upon race, color, religion, national origin, sex, age, disability, or veteran status.

A copy of the Affirmative Action Plan, including specific responsibilities and provisions for implementation and compliance, will be made available upon request. Responsibility for implementation and compliance with this Affirmative Action policy has been delegated to the Affirmative Action officer, e-mail affirmative.action@atu.edu.

Arkansas Tech University complies with all applicable state and federal laws including, but not limited to, Title VI and Title VII of the Civil Rights Act of 1964 as amended, the Age Discrimination in Employment Act of 1967 as amended, Title IX of the Educational Amendments of 1972, Section 504 of the Rehabilitation Act Amendments of 1974, the Civil Rights Restoration Act of 1987, the Americans with Disabilities Act of 1990, and the Civil Rights Act of 1991.

It is the policy of Arkansas Tech University to maintain the University Community as a place of work and study for staff, faculty, and students free of harassment, to include sexual and gender harassment and all forms of sexual intimidation and exploitation. All students, staff, and faculty should be aware that the University is both concerned and prepared to take action to prevent and correct such behavior. The determination of what constitutes sexual harassment will vary with the particular circumstances, but it may be described generally as unwanted sexual behavior, such as physical contact and verbal comments or suggestions which adversely affect the working or learning environment of others. Anyone who is subjected to offensive sexual behavior is encouraged to pursue the matter through the established informal or formal grievance procedures. Generally, the informal procedures afford an opportunity to explore a problem and consider alternative means for its resolution.

A copy of the annual budget is available in the Ross Pendergraft Library and Technology Center. A copy of the annual financial report is available from the Office of the Vice President for Administration and Finance in Room 207 of the Administration Building.

The provisions of this catalog are subject to change without notice and do not constitute an irrevocable contract between any student and Arkansas Tech University.

### Academic Calendar

**2010 - 2011**

#### Summer Session 2010

**First Term**

- Late registration for first term: June 7 - 8
- Classes begin: June 7
- Last day to register and add courses/change sections: June 8
- Last day to officially withdraw/drop courses with 80 percent reduction of tuition: June 11
- Preregistration for freshmen for fall semester: May through August
- Last day to drop courses with a "W" or change from credit to audit: July 2
- Holiday: (Monday) July 5
- First term ends: July 9

#### Second Term

- Late registration for second term: July 12-13
- Classes begin: July 12
- Last day to register and add courses/change sections: July 13
- Last day to officially withdraw/drop courses with 80 percent reduction of tuition: July 16
- Last day to drop courses with a "W" or change from credit to audit: August 6
- Second term ends: August 13
- Graduation: August 14

#### Fall Semester 2010

- Registration: August 23 - 24
- Classes begin: August 25
- Last day to officially withdraw/drop courses with full reduction of tuition/fees: August 26
- Last day to register and add courses/change sections: August 31
- Labor Day holiday: September 6
- Last day to officially withdraw/drop courses with 80 percent reduction of tuition: September 29
- Mid-term: October 13
- Deadline for degree audit (transcript evaluation), December 2011 graduates: October 15
- Preregistration for spring semester: November
- Thanksgiving holidays: 7:00 a.m., November 24 - 7:00 a.m., November 29
- Last day to drop courses with a "W" or change from credit to audit: November 29
- Reading Day: December 7
- End of course examinations: 6:00 a.m., December 8 - 12:30 p.m., December 14
- Graduation: December 18

#### Spring Semester 2011

- Registration: January 11 - 12
- Classes begin: January 13
- Last day to officially withdraw/drop courses with full reduction of tuition/fees: January 14
- Martin Luther King Day holiday: January 17
- Last day to register and add courses/change sections: January 20

Faculty

The date after each name indicates the first year of appointment to this institution.

GABRIEL L. ADKINS, 2009
Assistant Professor of Speech
B.A., Ottawa University, 1996;
M.S., Pittsburg State University, 2002;
M.A., Wichita State University, 2005.

SHERMAN Q. ALEXANDER, 1993
Associate Professor of Accounting
B.S., Eastern Illinois University, 1984;
M.B.A., Eastern Illinois University, 1985;
Ph.D., University of Kentucky, 1995;
C.P.A.

ROBERT W. ALLEN, 1981
Professor of Chemistry
B.S., University of Oklahoma, 1969;
M.S., University of Oklahoma, 1973;
Ph.D., University of Oklahoma, 1975.

VREGE AMIRKHANIAN, 1989
Associate Professor of Mathematics
B.S., Tehran University, 1969;
M.S., Oklahoma State University, 1973;
Ph.D., Oklahoma State University, 1978.

BENJAMIN F. ANDERSON, III, 2001
Assistant Professor of English
B.A., University of North Carolina, 1999;
M.F.A., University of South Carolina, 2005;
Ph.D., Florida State University, 2009.

STANTON C. APPLE, 1999
Instructor of Mechanical Engineering
B.S.M.I., University of Arkansas, 1969.

CHRISTINE E. AUSTIN, 2007
Assistant Professor of College Student Personnel
B.A., University of Denver, 1994;
M.Ed., University of Maine, 1990;
Ph.D., University of Denver, 2007.

CATHY BAKER, 1998
Professor of Geology
B.S., Arkansas Tech University, 1976;
M.S., University of Arkansas, 1976;
Ph.D., University of Iowa, 1986.

DEBORAH L. BARBER, 2002
Associate Professor of Music
B.S., Auburn University, 1970;
M.Ed., Auburn University, 1979;
Ph.D., Auburn University, 2003.

GARY W. BARROW, 1981
Professor of Music
B.M.E., North Texas State University, 1968;
M.M., Catholic University of America, 1973;
Ph.D., North Texas State University, 1982.

ALICE BATCH, 2003
Instructor of Business
B.A., California State University, 1978;
M.B.A., California State University, 1984.

KRISTY BAYER, 2004
Instructor of Health and Physical Education
Head Coach
B.A., Grand Valley State University, 2001;

C. DAVID BELL, 1988
Professor of Elementary Education
Head, Department of Curriculum and Instruction
B.S., Arkansas Tech University, 1985;
M.Ed., University of Arkansas, 1972;

MICHAEL E. BENEFIELD, 1999
Associate Professor of Finance
B.S., United States Military Academy, 1968;
M.Ed., University of North Carolina, 1980;
Ph.D., University of Central Arkansas, 1998;
M.Ed., University of Central Arkansas, 1986;
Ed.D., University of Central Arkansas, 1988;
Ed.D., Oklahoma State University, 1996.

ANWAR A. BHUIYAN, 2001
Associate Professor of Chemistry
B.S., Dhaka University, 1983;
M.S., Dhaka University, 1986;
M.S., Northeast Louisiana University, 1994;
Ph.D., Marquette University, 1996.

GLEN R. BISHOP, 2001
Assistant Professor of Recreation and Park Administration
B.S., University of Michigan, 1979;
M.S., Texas A & M, 1985;
Ph.D., Michigan State University, 1994.

GENE MARIE BLACK, 1986
Professor of Management

http://www.atu.edu/academics/catalog/adminFac.html
DONALD A. CARNAHAN, 1985  
Professor of Mathematics  
B.A., Arkansas College, 1967;  
M.S., University of Arkansas, 1969;  

PAMELA S. CARR, 1991  
Professor of Accounting  
Head, Department of Accounting and Economics  
B.S., Arkansas Tech University, 1977;  
M.A., Southwest Missouri State University, 1984;  
Ph.D., Oklahoma State University, 2001;  
C.P.A.  

TIM L. CARTER, 1998  
Associate Professor of Curriculum and Instruction  
B.S., Arkansas Tech University, 1989;  
M.Ed., Arkansas Tech University, 1994;  
Ph.D., University of Georgia, 1998.  

CARLOS CASTILLO, 2009  
Assistant Professor of Electrical Engineering  
B.S.E.E., University of Los Andes (Venezuela) 1991;  
M.S.E.E., University of South Florida, 2003;  
Ph.D., University of South Florida, 2008.  

ANTHONY A. CATON, 2004  
Assistant Professor of Journalism  
Director of Broadcasting  
A.A., University of Arkansas at Fort Smith, 1988;  
B.A., University of the Ozarks, 1990;  

E. URSULA CHANDLER, 1981  
Professor of German  
B.S., Illinois State University, 1965; Ph.D.,  
Northwestern University, 1981.  

CHERYL B. CHANEY, 1999  
Assistant Professor of Biology  
B.S., Missouri Western State College, 1990;  
M.S., Tennessee Technological University, 1997.  

CHANGRYOL CHOI, 2009  
Instructor of Health and Physical Education  
Assistant Athletic Trainer  
B.S., Youngnam University, 1997;  
B.S., Illinois State University, 2005;  
M.S., Youngnam University, 1999;  

WANDA CHRISTIE, 2006  
Assistant Professor of Nursing  
B.S.N., Arkansas Tech University, 1986;  
M.N.Sc., University of Arkansas for Medical Sciences, 2004.  

ELDON G. CLARY, JR., 1967  
Professor of Secondary Education  
Dean, College of Education  
B.S.E., North Texas State University, 1962;  
M.Ed., North Texas State University, 1964;  
Ed.D., North Texas State University, 1968.  

JOHN CLEMENTS, 2005  
Assistant Professor of Music  
B.A., Luther College, 1994;  
M.M., University of Missouri-Columbia, 1996;  
D.M., Florida State University, 2008.  

LORETTA COCHRAN, 2003  
Associate Professor of Management  
B.S., Emory University, 1991;  
M.S., Emory University, 1994;  
Ph.D., Emory University, 1999.  

RICHARD R. COHOON, 1960  
Professor of Geology  
Dean, College of Natural and Health Sciences  
B.A., Oklahoma City University, 1954;  
M.S., University of Oklahoma, 1959;  
Ed.D., Oklahoma State University, 1974.  

TRACY L. COLE, 2007  
Assistant Professor of Legal Studies  
B.S.E., University of Arkansas, 1990;  
M.Ed., University of Arkansas, 1991;  
J.D., University of Arkansas at Little Rock, 2003.  

JENNIFER COLEMAN, 2001  
Assistant Professor of Nursing  
B.A., Luther College, 1993;  
B.S.N., University of Iowa, 1997;  
M.S.N., University of Iowa, 2000.  

JAMES H. COLLINS, 1983  
Professor of Agriculture  
B.S., Mississippi State University, 1976;  
M.S., Louisiana State University, 1979;  
Ph.D., Louisiana State University, 1982.  

THERESA CONNORS, 1993  
Associate Librarian  
B.F.A., Louisiana Tech University, 1981;  
M.L.S., Louisiana State University, 1986.  

HAL D. COOPER, 1979  
Associate Professor of Music  
Director of Bands  
B.M.E., Henderson State University, 1966;  
M.M.E., Henderson State University, 1974.  

KEVIN C. COSTLEY, 2003  
Associate Professor of Early Childhood Education  
B.S., Missouri Southern State College, 1975;  
M.S., Pittsburgh State University, 1978;  
M.A., Pittsburgh State University, 2001;  
Ph.D., Kansas State University, 1982.  

KAREN K. COX, 1994  
Assistant Professor of Nursing  
B.S., University of Central Arkansas, 1978;  
M.N.Sc., University of Arkansas for Medical Sciences, 1982.
NANCY COX, 1981
Instructor of English and Developmental Reading
B.A., Arkansas Tech University, 1977;
M.Ed., Arkansas Tech University, 1981.

PHYLLIS J. COX, 2001
Associate Professor of Allied Health Sciences
Director of Medical Assistant and Medical Technology Programs
B.S., University of Arkansas at Monticello, 1972;

CAROLYN C. CRAWFORD, 1982
Assistant Professor of Elementary Education
Director of the University Testing Center
B.S., Mississippi Valley State University, 1965;
M.E., University of Mississippi, 1968;
Ph.D., Kansas State University, 1979.

KANDIS S. CROOM, 2001
Associate Professor of School Counseling
B.A., Arkansas Tech University, 1971;
M.Ed., University of Arkansas, 1975;

EDWIN CUENCIO, 2008
Assistant Professor of Art
B.F.A., Philippine Women’s University, 1988;

ROY R. CULP, 1975
Professor of Mechanical Engineering
B.S.M.E., University of Arkansas, 1968;
M.S.M.E., University of Arkansas, 1972;
Ph.D., University of Arkansas, 1984.

REBECCA L. CUNNINGHAM, 2000
Instructor of Computer and Information Science
B.S., Arkansas Tech University, 1995;
M.S., University of Central Arkansas, 1999.

SHELLEY DAILY, 2000
Associate Professor of Nursing
B.S.N., Arkansas Tech University, 1995;
M.N.Sc., University of Arkansas for Medical Sciences, 1999.

MELISSA DARNELL, 2003
Assistant Professor of Nursing
Learning Resources Coordinator
B.S.N., University of Central Arkansas, 1994;
M.S.N., University of Central Arkansas, 2002.

ABBY DAVIS, 2004
Instructor of Health and Physical Education
Head Coach
B.A., Arkansas Tech University, 2002;

CELESTE DAVIS, 2007
Assistant Professor of Nursing
A.D.N., University of Arkansas at Fort Smith, 1996;
B.S.N., Arkansas Tech University, 1998;

DAVID DAWSON, 2009
Instructor of Health and Physical Education
Head Coach
B.A., Ottawa University, 1996;
M.A., University of Saint Mary, 2005.

THOMAS A. DEBLACK, 1995
Professor of History
B.A., Southern Methodist University, 1973;
M.S.E., Ouachita Baptist University, 1979;
Ph.D., University of Arkansas, 1995.

SHAUNA S. DONNELL, 1995
Instructor of Speech
Assistant Vice President, Enrollment Management
B.A., Arkansas Tech University, 1991;

MARK DOWNEY, 2006
Instructor of Health and Physical Education
Head Coach
B.S., University of Charleston, 1995;
M.S., Marshall University, 1998.

GEORGENA D. DUNCAN, 1975
Professor of History
B.A., University of Arkansas, 1966;
Ph.D., University of Liverpool, 1971.

PETER A. DUKEMA, 2001
Associate Professor of History
B.S., Hope College, 1984;
M.Div., Western Theological Seminary, 1987;
M.A., University of Arizona, 1989;
Ph.D., University of Arizona, 1998.

JAMIE EARLS, 2009
Assistant Professor of Emergency Management
B.S., Arkansas Tech University, 2006;
M.S., Arkansas Tech University, 2008.

CAREY A. ELLIS-BOSOLD, 2004
Assistant Professor of Nursing
B.S.N., Arkansas Tech University, 1996;
M.S.N., University of Central Arkansas, 2002.

ERNEST J. ENCHELMAYER, 2005
Assistant Professor of English
B.A., University of Mississippi, 1993;
M.A., Arkansas State University, 1996;
Ph.D., Southern Illinois University, 2005.

RUTH D. ENOCH, 2004
Associate Professor of Mathematics
B.A., Vanderbilt University, 1974;
M.S., University of Iowa, 1975;
Ph.D., Purdue University, 2004.
DAVID J. ESHELMAN, 2006  
Assistant Professor of Speech  
B.A., Case Western Reserve University, 1999;  
M.F.A., University of Texas at Austin, 2002;  
Ph.D., University of Missouri at Columbia, 2006.

MIKE W. FAIRBANKS, 2007  
Assistant Professor of Agriculture  
B.S., Arkansas Tech University, 1993;  
M.S., Southeast Missouri State University, 1995;  
Ph.D., University of Arkansas, 2002.

ROGER FANG, 2001  
Associate Professor of Computer and Information Science  
B.Sc., National Chiao-Tung University, 1980;  
M.Sc., University of Florida, 1987;  

DALE S. FELKINS, 1997  
Assistant Professor of Agriculture  
B.S., Arkansas Tech University, 1993;  
M.Ed., Arkansas Tech University, 1996;  
M.S., University of Arkansas at Little Rock, 2003.

ROBERT F. FRAISER, 2003  
Associate Professor of Mechanical Engineering  
B.S., Louisiana Tech University, 1984;  
M.S., Texas A&M, 1987;  
Ph.D., Virginia Tech University, 1993.

ROBERT FITHEN, 1998  
Associate Professor of Mechanical Engineering  
B.S., Louisiana Tech University, 1984;  
M.S., Texas A&M, 1987;  
Ph.D., Virginia Tech University, 1993.

KENNETH T. FUTTERER, 1980  
Professor of Fisheries Science  
Head, Department of Biological Sciences  
B.S., University of Tennessee at Martin, 1983;  
M.S., Pennsylvania State University, 1986;  
Ph.D., Pennsylvania State University, 1990.

CHARLES J. GAGEN, 1990  
Assistant Professor of Chemistry  
B.S., Henderson State University, 1978;  

MICHAEL GARNER, 2006  
Assistant Professor of Emergency Management  
B.A., University of Arkansas at Monticello, 1977;  
M.A., University of Arkansas, 1979;  
Ph.D., University of Arkansas, 2001.

MICHAEL GARNER, 2006  
Assistant Professor of Emergency Management  
B.S., University of Arkansas at Monticello, 1977;  
M.A., University of Arkansas, 1979;  
Ph.D., University of Arkansas, 2001.

PAOLA GEMME, 2001  
Associate Professor of English  
B.A., University of Genoa, 1985;  
M.A., Pennsylvania State University, 1988;  
Ph.D., Pennsylvania State University, 1990.

STEVE GANN, 1999  
Associate Professor of Physical Science  
Chemical Stockroom Manager/Laboratory Supervisor  
B.S., Arkansas Tech University, 1977;  
B.S., University of Arkansas, 1989.

DAVE GLEASON, 2005  
Assistant Professor of History  
B.A., Arkansas Tech University, 1970;  
M.A., University of Arkansas, 1975;  
Ph.D., University of Arkansas, 1997.

DONALD M. GOOCH, 2007  
Assistant Professor of Political Science  
B.A., University of Central Arkansas, 1998;  
M.A., University of Arkansas, 2001;  
Ph.D., University of Missouri - Columbia, 2009.

ELIZABETH GRAY, 2005  
Assistant Professor of Emergency Management  
B.A., Vanderbilt University, 1993;  
M.B.A., Hendrix College, 1995;  
M.B.A., University of Arkansas at Little Rock, 1999;  
J.D., University of Arkansas at Little Rock, 1999.

</tbody>
</table>
JAY M. HUDKINS, 2009
Assistant Professor of Speech
B.S.E., Baylor University, 1992; M.A., Baylor University, 1992.

CYNTHIA L. HUKILL, 2008
Associate Professor of Music
Head, Department of Music

SEAN T. HUSS, 2005
Assistant Professor of Sociology
B.A., University of Arkansas at Little Rock, 1995; M.A., University of Tennessee, 1998; Ph.D., University of Tennessee, 2006.

RICHARD A. IHDE, 2004
Associate Professor of Emergency Management
B.A., Arkansas Tech University, 1997; M.Ed., Arkansas Tech University, 2001; Ed.D., Nova Southeastern University, 2008.

JOHN R. JACKSON, 2003
Associate Professor of Fisheries Science
B.S., Michigan State University, 1983; M.S., Mississippi State University, 1987; Ph.D., Mississippi State University, 1996.

LINDA JACKSON, 2010
Instructor of College Student Personnel
B.A., Idaho State University, 1989; M.Coun., Idaho State University, 1992; M.S., Arkansas Tech University, 2006.

SHELIA JACKSON, 1998
Professor of Health and Physical Education
B.S.E., Southern Arkansas University, 1981; M.Ed., University of Arkansas, 1984; Ph.D., Texas Women’s University, 1988.

CYNTHIA JACOBS, 2007
Assistant Professor of Biology
D.V.M., Louisiana State University, 1982.

ELLEN J. JENKINS, 1997
Professor of History
Director of Honors
B.A., University of Texas at Dallas, 1977; M.A., University of North Texas, 1983; Ph.D., University of North Texas, 1992.

GEORGE P. JOHNSON, 1990
Associate Professor of Biology
Curator of Herbarium
B.S., Western Kentucky University, 1978; M.S., Western Kentucky University, 1980; Ph.D., North Carolina State University, 1985.

CYNTHIA J. JONES, 1984
Associate Professor of Nursing
Assistant to Head of Nursing
B.S.N., University of Mississippi School of Nursing, 1971; M.N., University of Mississippi, 1976.

GAVIN D. JONES, 2007
Assistant Professor of Chemistry
B.S., Louisiana State University, 2002; Ph.D., University of Arkansas, 2007.

STEPHEN JONES, 2005
Assistant Professor of Management
B.S.E., Pittsburg State University, 1981; M.A., University of Missouri, 1983; M.B.A., Southwest Missouri State University, 1989; Ph.D., University of North Texas, 1998.

SCOTT JORDAN, 1994
Associate Professor of Mathematics
B.S., Southern Arkansas University, 1985; M.S., University of Arkansas, 1988; Ph.D., University of Southwestern Louisiana, 1994.

SUSAN JORDAN, 1994
Instructor of Mathematics
B.S., University of Arkansas, 1987; M.A., University of Arkansas, 1990.

D. MICHAEL KEISLER, 1975
Professor of Mathematics
B.A., University of Texas, 1966; Ph.D., North Texas State University, 1974.

CHRISTOPHER J. KELLNER, 1991
Professor of Wildlife Science
B.S., University of California at Berkeley, 1978; M.S., Eastern Kentucky University, 1985; Ph.D., University of Arkansas, 1990.

LOYCE A. KENNEDY, 1999
Assistant Professor of Nursing
B.S.N., University of Arkansas for Medical Sciences, 1972; M.S.N., University of Central Arkansas, 1997.

PALLAVI KETKAR, 2002
Instructor of Mathematics
B.S., University of North Texas, 1996; M.S., University of North Texas, 1999; M.S., University of Texas at Austin, 2002.

VICKY H. KIEHL, 1967
Associate Professor of Music
B.A., Arkansas Tech University, 1967; M.M., North Texas State University, 1974.

SCOTT W. KIRKCONNELL, 1981
Professor of Biology
WILLIAM KIRKPATRICK, 1989
Assistant Professor of Physical Education
B.S., Fort Hays State University, 1983;
M.S., Fort Hays State University, 1985;
LINDA C. KONDRICK, 2001
Associate Professor of Physical Science
B.S., University of the Ozarks, 1988;
M.Ed., Arkansas Tech University, 1992;
JOHN L. KROHN, 1991
Professor of Mechanical Engineering
Head, Department of Mechanical Engineering
B.S.M.E., University of Arkansas, 1981;
M.S.M.E., University of Arkansas, 1983;
Ph.D., Texas A & M University, 1992;
P.E.
PAUL S. LAKE, 1981
Professor of English
B.S., Towson State University, 1975;
A.M., Stanford University, 1979.
ROBIN C. LASEY, 2004
Associate Professor of Chemistry
B.S., University of Missouri-Rolla, 1994;
Ph.D., Bowling Green State University, 2002.
ED LEACHMAN, 2004
Assistant Professor of Emergency Management
Interim Head, Emergency Management
B.S., Louisiana Tech University, 1960;
M.S., Louisiana Tech University, 1963.
SANGKI LEE, 2008
Assistant Professor of Journalism
B.A., Sogang University, 1997;
M.A., Sogang University, 1999;
M.A., Michigan State University, 2002;
SEUNG SUK LEE, 2009
Assistant Professor of Hospitality Administration
B.S., Oklahoma State University, 2000;
M.S., Oklahoma State University, 2004;
Ph.D., Iowa State University, 2008.
TIMOTHY W. LEGGETT, 2002
Assistant Professor of Early Childhood Education
B.S., William Carey College, 1975;
M.R.E., New Orleans Baptist Theological Seminary, 1977;
M.Ed., William Carey College, 1980;
G.S.R.E., Southeastern Baptist Theological Seminary, 1983;
Ed.D., Nova Southeastern University, 1995.
THOMAS G. LUMPERS, 2003
Associate Professor of Mathematics
Head, Department of Mathematics
B.S., University of Arkansas, 1989;
M.S., University of Arkansas, 1990;
Ph.D., University of Arkansas, 1998.
MICHAEL A. LINK, 1965
Associate Professor of History
B.S., Henderson State University, 1962;
M.S., Henderson State University, 1963;
Ph.D., University of the South, 1966;
Ph.D., (Philosophy and Religion), Protestant Faculty of Paris, 1976.
STANLEY D. LOMBARDO, 1977
Professor of English
B.A., State University of New York at Buffalo, 1970;
Ph.D., Indiana University, 1979.
ERIC C. LOVELY, 2002
Associate Professor of Biology
B.A., Bloomsburg University of Pennsylvania, 1992;
M.S., University of New Hampshire, 1995;
Ph.D., University of New Hampshire, 1999.
LOWELL H. LYBARGER, 2007
Associate Librarian
B.A., Rutgers University, 1990;
M.A., University of Washington, 1997;
MLIS, Kent State University, 2006;
Ph.D., University of Toronto, 2003.
W. DANIEL MARTIN, 2000
Associate Professor of Sociology
Head, Department of Behavioral Sciences
B.S., University of Central Arkansas, 1989;
M.S., University of Central Arkansas, 1992;
Ph.D., Oklahoma State University, 1996.
KEVIN H. MAISON, 1986
Professor of Marketing
Head, Department of Management and Marketing
B.S., Arkansas Tech University, 1982;
M.B.A., University of Arkansas, 1986;
Ph.D., University of Arkansas, 1995.
CONNIE MCKNIGHT, 2000
Associate Professor of Recreation and Park Administration
Interim Head, Department of Parks, Recreation, and Hospitality Administration
B.S., Arkansas Tech University, 1991;
M.S., University of Central Arkansas, 2000;
D.N.P., University of Tennessee, 2009.
CATHI MCMANUS, 2000
Associate Professor of Recreation and Park Administration
B.S., Arkansas Tech University, 1991;
M.S., Northwest Missouri State University, 1991;
Ph.D., University of Arkansas, 1997.
CHARLES MEBI, 2009  
Assistant Professor of Chemistry  
B.Sc., University of Buea (Cameroon), 1969;  
M.Sc., University of Buea (Cameroon), 1998;  
Ph.D., University of Nevada, 2007.

CHRIS M. MERLE, 1998  
Assistant Professor of Health Information Management  
A.S., Arkansas Tech University, 1989;  
B.S., Arkansas Tech University, 1993;  
M.S., Arkansas Tech University, 2002.

DAVID J. MIDDLETON, 1998  
Associate Professor of Computer and Information Science  
B.S., University of Sydney, 1979;  
Ph.D., University of North Carolina at Chapel Hill, 1986.

ALEXANDER MIRKOVIC, 2007  
Assistant Professor of History  
B.A., University of Athens, Greece, 1993;  
M.A., University of South Florida, 2005;  
Ph.D., Vanderbilt University, 2002.

FLORIAN MISOC, 2009  
Assistant Professor of Electrical Engineering  
B.S., University of Bucharest (Romania), 1989;  
M.S., Pittsburg State University, 1996;  
Ph.D., Kansas State University, 2007.

JEFFREY A. MITCHELL, 1994  
Professor of Philosophy  
B.A., Whitman College, 1986;  
M.A., Vanderbilt University, 1990;  
Ph.D., Vanderbilt University, 1993.

RAY MOLL, 2005  
Assistant Professor of Hospitality Administration  
B.B.A., University of Central Arkansas, 1986;  

BRENTA G. MONTGOMERY, 1997  
Assistant Professor of Hospitality Administration  
B.S., Oklahoma State University, 1976;  
M.S., University of Central Oklahoma, 1992;  
Ph.D., Oklahoma State University, 1998.

JOHN NETTE MOODY, 1997  
Assistant Professor of Computer and Information Science  
B.S., Arkansas Tech University, 1994;  
M.S., Arkansas Tech University, 1996;  

LARRY J. MORELL, 1998  
Professor of Computer and Information Science  
B.A., Duke University, 1974;  
M.S., Rutgers University, 1976;  
Ph.D., University of Maryland, 1983.

ARDITH A. MORRIS, 1982  
Professor of Speech/Theatre  
Theatre Director  
B.A., University of the Ozarks, 1973;  
M.A., University of Arkansas, 1975;  
Ph.D., Northwestern University, 1980.

GARY E. MORRIS, 2002  
Instructor of Music  
Director of Choirs  
B.M.E., Arkansas State University, 1970;  
M.S.E., Arkansas State University, 1971.

JAMES L. MOSES, 1999  
Associate Professor of History  
B.A., Louisiana State University, 1980;  
M.A., University of New Hampshire, 1985;  
Ph.D., Tulane University, 1997.

DAVID MUDRINICH, 1998  
Associate Professor of Art  
B.S., Pennsylvania State University, 1976;  

TOMMY L. MUJERT, 1989  
Assistant Professor of Journalism  
B.S., Arkansas State University, 1978;  
M.A., Arkansas State University, 1986.

JAMES K. MUSSEER, 2005  
Assistant Professor of Physics  
B.S., West Texas State University, 1987;  
Ph.D., Texas A & M University, 2005.

ABDULKADIR NAGAC, 2009  
Assistant Professor of Economics  
B.S., London School of Economics, 2004;  
M.S., University of Texas, 2006;  
Ph.D., University of Texas, 2009.

NOBUYUKI NEZU, 2001  
Associate Professor of Computer and Information Science  
B.S., Gakushuin University, 1991;  
M.S., Oklahoma City University, 1993;  
Ph.D., Oklahoma State University, 1999.

HANNA E. NORTON, 2001  
Associate Professor of Journalism  
B.A., University of Georgia, 1994;  
M.A., University of Georgia, 1996;  
Ph.D., University of Georgia, 2001.

THOMAS E. NUPP, 1997  
Professor of Wildlife Science  
B.S., The Pennsylvania State University, 1987;  
M.S., Auburn University, 1992;  
Ph.D., Purdue University, 1997.

ALEXIS NYANDWI, 2009  
Assistant Professor of Journalism  
B.A., University of Oran (Algeria), 1993;  
M.A., Washington State University, 1997;  
DAVID M. OSBURN, 2000
Associate Professor of Psychology
B.A., University of Arizona, 1979;
M.Ed., Wichita State University, 1987;
M.A., Wichita State University, 1999;
Ph.D., Wichita State University, 2000.

JULIO CESAR PACHECO FILHO, 2008
Instructor of Health and Physical Education
Assistant Coach

NANCY B. PARK, 2001
Instructor of Computer and Information Science
B.S., Arkansas Tech University, 1994;
M.B.A., University of Arkansas, 1995;
M.B.S., University of Arkansas, 1998.

PHILIP D. PARKER, 1977
Associate Professor of Music
B.M., Wichita State University, 1975;
M.M., Indiana University, 1977.

WILLIAM A. PARTON, 1990
Director of Library
B.M., University of Houston, 1973;

JASON A. PATTON, 2008
Assistant Professor of Geology
B.S., Arkansas Tech University, 1996;
M.S. Murray State University, 1998;
Ph.D., University of Arkansas, 2008.

JACKIE L. PAXTON, 2005
Professor of Early Childhood Education
A.A., Westark Community College, 1976;
B.S.E., University of Central Arkansas, 1978;
M.S.E., University of Central Arkansas, 1979;
Ed.D., University of Arkansas, 1990.

MARK M. PEACOCK, 2008
Assistant Professor of Psychology
B.A., University of Arkansas at Little Rock, 2000;
M.A., University of Arkansas, 2004;
Ph.D., University of Arkansas, 2007.

KATHRYN D. PEARSON, 1984
Assistant Professor of Mathematics
B.S., Arkansas Tech University, 1979;
M.Ed., Arkansas Tech University, 1979;

THOMAS W. PENNINGTON, 1995
Assistant Professor of Legal Studies
Legal Counsel
B.S., Arkansas Tech University, 1990;
J.D., University of Arkansas, 1993.

SUSAN POZNAR, 1993
Professor of English
B.A., Brandeis University, 1980;
M.A., Duke University, 1982;

MALCOLM R. RAINEY, 2010
Professor of Animal Science
Head, Department of Agriculture
B.S., Southeastern Louisiana University, 1982;
M.A., West Texas State University, 1985;
Ph.D., Mississippi State University, 1988.

NELSON R. RAMIREZ, 2006
Assistant Professor of Spanish
B.A., University of California, Berkeley, 1997;
M.A., University of California, Berkeley, 1999;
Ph.D., University of California, Berkeley, 2005.

JAMES REASONER, 2008
Instructor of Electrical Engineering
B.S.E.E., U.S. Naval Academy, 1971;

CLINT REED, 2008
Instructor of Health and Physical Education
Assistant Coach
B.S., Arkansas Tech University, 2002;

RANDALL W. REINFRO, 2003
Assistant Professor of Agriculture
B.S., Arkansas Tech University, 1980;
M.S., University of Arkansas, 1982.

GILL RICHARDS, 2000
Professor of Management
B.A., University of Arkansas, 1962;
M.B.A., University of Arkansas, 1963;
Ph.D., University of Arkansas, 1961.

CAREY M. ROBERTS, 2000
Associate Professor of History
B.A., University of Southern Mississippi, 1993;
M.A., University of South Carolina, 1998;
Ph.D., University of South Carolina, 1999.

JEFF W. ROBERTSON, 1997
Professor of Astrophysics
Head, Department of Physical Science
Director of Astronomical Observatory

http://www.atu.edu/academics/catalog/adminFac.html
B.S., University of Kansas, 1989;  
M.S., San Diego State University, 1991;  
Ph.D., Indiana University, 1995.

RONALD D. ROBISON, 1988  
Associate Professor of Computer and Information Science  
Head, Department of Computer and Information Science  
B.S., Iowa State University, 1970;  
M.S., University of Southern California, 1975.

SARAH H. ROBISON, 1989  
Associate Professor of Computer and Information Science  
B.S., University of Arkansas at Monticello, 1978;  
M.Ed., Southern Arkansas University, 1982;  
M.S., Nova Southeastern University, 1994.

MICHAEL T. ROGERS, 2007  
Assistant Professor of Political Science  
B.A., Wabash College, 1995;  
M.A., University at Albany-SUNY, 1999;  
Ph.D., University at Albany-SUNY, 2005.

MARY ANN ROLLANS, 1980  
Professor of Secondary Education  
Dean, College of Professional Studies and Community Outreach  
B.A., Arkansas Tech University, 1986;  
M.S.E., University of Central Arkansas, 1994;  
Ed.D., University of Arkansas, 1986.

REGINA ST. JOHN, 2006  
Assistant Professor of English  
B.A., University of Arkansas at Monticello, 1993;  
M.A., Arkansas State University, 1994;  
Ph.D., Ball State University, 2004.

JULIE M. SCHLUTERMAN, 2007  
Assistant Professor of Sociology  
B.A., Arkansas Tech University, 1997;  
M.A., University of Tennessee, 2002;  
Ph.D., University of Tennessee, 2007.

LINDA SELF, 2005  
Assistant Professor of Nursing  
B.S.N., University of Southern Maine, 1981;  
M.S., Texas Woman's University, 2000;  
M.A., Webster University, 2008.

CORY SHAMAN, 2008  
Assistant Professor of English  
B.A., Mississippi State University, 1992;  
M.A., University of Mississippi, 1997;  
Ph.D., University of Mississippi, 2007.

C. GLENN SHEETS, 1990  
Professor of Elementary Education  
B.S.E., Henderson State University, 1971;  
M.S.E., Henderson State University, 1975;  

DONNA S. SHERILL, 1992  
Instructor of Mathematics  
B.S., Arkansas Tech University, 1990;  

SEYEDHAMED SHOJAEI, 2009  
Assistant Professor of Physics  
B.S., Sharif University of Technology (Iran), 1995;  
M.S., Sharif University of Technology (Iran), 1997;  
Ph.D., Indiana University, 2009.

REBECCA A. SHOPFNER, 2000  
Associate Professor of Teaching and Learning  
B.S.E., University of Central Arkansas, 1973;  
M.Ed., Arkansas Tech University, 1998;  
Ed.D., University of Arkansas, 1999.

KENNETH W. SHORES, 1985  
Associate Professor of Mathematics  
B.S., Arkansas Tech University, 1970;  
M.S., University of Arkansas, 1972.

CHERYL S. SMITH, 1992  
Professor of Nursing  
B.S.N., University of Southern Alabama, 1983;  
M.S., University of Southern Mississippi, 1990;  
Ph.D., University of Arkansas for Medical Sciences, 2006.

TIMOTHY E. SMITH, 1998  
Associate Professor of Music  
B.M., St. Olaf College, 1989;  
M.M., Indiana University, 1991;  
Ph.D., Indiana University, 1998.

V. CAROLE SMITH, 2004  
Associate Professor of Middle Level Education  
B.M., University of Arizona, 1960;  
M.M., University of Arizona, 1972;  
M.Ed., University of Arizona, 1980;  
Ph.D., University of Arizona, 1986.

DARLA D. SPARACINO, 1993  
Associate Professor of Health Information Management  
B.S., Arkansas Tech University, 1989;  

SAMMIE P. STEPHENSON, 1969  
Assistant Professor of Elementary Education  
B.A., Henderson State University, 1963;  
M.S.E., University of Central Arkansas, 1969;  

JAMES STEUBER, 2008  
Assistant Professor of Mechanical Engineering  
B.S., Arkansas Tech University, 2001;  
M.S., Texas A & M University, 2007;  
Ph.D., Texas A & M University, 2009.

IVAN H. STILL, 2006  
Assistant Professor of Biology  
B.S., University College London, 1988;  
Ph.D., University of Newcastle-upon-Tyne, 1992.

JOSEPH N. STOECKEL, 1992  
Professor of Fisheries Science

http://www.atu.edu/academics/catalog/adminFac.html
ANNETTE B. STUCKEY, 2006
Assistant Professor of Professional Studies
B.A., Southern Illinois University at Carbondale, 1978;
M.A., Southern Illinois University at Carbondale, 1985;
Ph.D., Virginia Polytechnic Institute and State University, 1993.

JOSEPH SWAIN, 2009
Assistant Professor of Geography
B.S., Northwestern State University, 2000;
M.A., Western Illinois University, 2003;
Ph.D., University of Oklahoma, 2008.

H. MICHEAL TARVER, 2002
Professor of History
Dean, College of Arts and Humanities
B.A., The University of Louisiana at Lafayette, 1983;
M.A., The University of Louisiana at Lafayette, 1990;
Ph.D., Bowling Green State University, 1995.

TERESA TAYLOR, 2004
Instructor of Mathematics
B.S., Arkansas Tech University, 1990;
M.Ed., Arkansas Tech University, 1994;

BRUCE L. TEDFORD, 2001
Associate Professor of Biology
B.S., University of Arkansas at Little Rock, 1976;
M.A., University of California, 1980;
Ph.D., Louisiana State University, 1985.

VINCENT P. TINERELLA, 2008
Assistant Librarian
B.S., Northeastern Illinois University, 1982;
M.A., DePaul University, 1994;

JULIE TRIVITT, 2007
Assistant Professor of Economics
B.S., Missouri State University, 1994;
M.A., University of Arkansas, 1996;
Ph.D., University of Arkansas, 2008.

L. KIM TROBOY, 2002
Professor of Management Information Systems
B.S., Arkansas Tech University, 1980;
M.B.A., University of Arkansas, 1987;
Ph.D., University of North Texas, 1997.

JASON S. ULSPERGER, 2006
Assistant Professor of Sociology
B.S., University Central Arkansas, 1997;
M.A., Arkansas State University, 1999;
Ph.D., Oklahoma State University, 2003.

DAVID G. UNDERWOOD, 2001
Professor of Education
Associate Vice President for Academic Affairs
B.A., Western Kentucky University, 1972;
M.P.S., Western Kentucky University, 1978;
M.A.Ed., Western Kentucky University, 1979;
Ph.D., Indiana University, 1985.

SUSAN J. UNDERWOOD, 2003
Associate Professor of College Student Personnel
Director, College Student Personnel
B.S., Western Kentucky University, 1980;
M.A.Ed., Western Kentucky University, 1982;
Ph.D., New Mexico State University, 1990.

PHILIPPE VAN HOUTTE, 2007
Assistant Librarian

THOMAS A. VAUGHN, 2003
Associate Professor of Speech
B.A., University of Arkansas, 1990;
M.A., University of Arkansas, 1992;
Ph.D., Indiana University, 1998.

DONNA R. VOCATE, 1998
Professor of Spanish
Head, Department of Speech/Theatre/Journalism
B.A., University of Colorado-Boulder, 1962;
M.A., University of Denver, 1977;
Ph.D., University of Denver, 1980.

RYAN WALLACE, 2005
Instructor of Health and Physical Education
Assistant Coach
B.S.E., Henderson State University, 2001;
M.S., Henderson State University, 2003.

JAMES R. WALTON, 2006
Associate Professor of Marketing
B.S., Missouri Southern State College, 1979;
M.B.A., University of Central Arkansas, 1993;
Ph.D., Texas Tech University, 2001.

DANA D. WARD, 1988
Professor of Spanish
B.A., Hendrix College, 1974;
M.A., University of Arkansas, 1977;
Ph.D., University of Arkansas, 1987.

DAVID W. WARD, 1999
Associate Professor of Psychology
B.S., University of Texas, 1986;
M.S., University of Georgia, 1990;
Ph.D., University of Georgia, 1998.

JASON E. WARNICK, 2006
Assistant Professor of Psychology
B.A.B.S., Arkansas State University, 2002;
M.A., University of Mississippi, 2004;
Ph.D., University of Mississippi, 2006.
JOHN W. WATSON, 1978
Professor of Mathematics
Vice President for Academic Affairs
B.A., University of Arkansas, 1971;
M.S., University of Arkansas, 1973;
Ed.D., Oklahoma State University, 1978.

ELISABETH WEBB, 2006
Assistant Professor of Wildlife Science
B.A., Washington and Lee University, 1999;
M.S., Southern Illinois University at Carbondale, 2002;
Ph.D., Texas Tech University, 2006.

HELGA WENDELBERGER, 2008
Assistant Professor of English
B.A., University of Georgia, 2002;
Ph.D., University of Georgia, 2006.

SUSAN WEST, 2008
Assistant Professor of Hospitality Administration
B.A.S., Stephen F. Austin State University, 2000;

DONNA R. WHITE, 2001
Associate Professor of English
B.A., Arkansas Tech University, 1976;
M.A., University of Texas, 1985;
Ph.D., University of Minnesota, 1991.

MARGARET G. WILKERSO.N, 1976
Associate Professor of Rehabilitation Science
B.A., Arkansas Tech University, 1970;
M.R.C., Arkansas State University, 1971.

MELINDA A. WILKINS, 1988
Professor of Health Information Management
Director of Health Information Management
B.S., Southwestern Oklahoma State University, 1983;
M.Ed., Southwestern Oklahoma State University, 1988;
Ph.D., Capella University, 2008.

DENNIS W. WILLIAMS, 2007
Assistant Professor of Sociology
B.A., Louisiana Tech, 1998;
M.A., University of Louisiana, 2001;
Ph.D., University of Oklahoma, 2006.

PENNY P. WILLMERING, 1999
Associate Professor of Rehabilitation Science
B.S.Ed., University of Missouri-Columbia, 1979;
M.A., Southern Illinois University, 1986;
Ph.D., University of Madison-Wisconsin, 1999.

DEBORAH WILSON, 1992
Professor of English
B.A., Louisiana Tech University, 1974;
M.Ed., Mississippi College, 1982;
Ph.D., Louisiana State University, 1991.

SID T. WOMACK, 1986
Professor of Secondary Education
B.M.E., Abilene Christian College, 1972;
M.Ed., Sam Houston State University, 1974;
Ph.D., Texas A&M University, 1979.

JEFFREY R. WOODS, 2000
Associate Professor of History
Interim Head, Department of History and Political Science
B.A., University of Kansas, 1992;
M.A., University of Arkansas, 1994;
Ph.D., Ohio University, 2000.

SAM M. WORLEY, 1997
Associate Professor of English
B.A., The University of Texas at Austin, 1981;
M.A., The University of North Carolina at Chapel Hill, 1986;

TSUNEI YAMASHITA, 1998
Associate Professor of Biology
B.A., Hendrix College, 1985;
Ph.D., Vanderbilt University, 1993.

ANNETTE ZAHARIAN, 1984
Professor of French
A.B., Rutgers University, 1974;
M.A., Syracuse University, 1980;
D.A., Syracuse University, 1983.

QING ZENG, 2007
Assistant Professor of Psychology
B.A., Hunan Agricultural University, 1982;
M.S., Brigham Young University, 1991;
Ph.D., Brigham Young University, 1998.

CONNIE W. ZIMMER, 1990
Associate Professor of Secondary Education
A.B., Western Kentucky University, 1972;
M.S.L.S., Western Kentucky University, 1975.

Distinguished Professor

JACK R. HAMM, 1972
Distinguished Professor of Mathematics
B.S., Arkansas Tech University, 1964;
M.S., University of Missouri at Rolla, 1968;
Ph.D., University of Missouri at Rolla, 1972.

Faculty Emeriti

FIRMAN W. BYNUM, 1948
Dean of Students Emeritus
B.S.E., University of Arkansas, 1944;
M.S., University of Arkansas, 1950.

ROBERT L. CASEY, 1971
Professor Emeritus of Music
B.A., Arkansas Tech University, 1954;
M.M.E., University of North Texas, 1959;  

RAYMOND E. (GENE) COLE, 1970
Professor Emeritus of Economics
B.S., Arkansas Tech University, 1969;  
M.A., University of Arkansas, 1970;  
Ph.D., University of Arkansas, 1976.

EDWARD J. CONNELLY, 1960
Professor Emeritus of Music
B.M., De Paul University, 1955;  
M.M., University of Illinois, 1960;  

E. SUE DOSIS, 1956
Professor Emeritus of English
B.A., University of the Ozarks, 1946;  
M.A., University of Arkansas, 1950;  
Ph.D., University of Arkansas, 1958.

ROBERT R. EDWARDS, 1989
Professor Emeritus of Management
B.A., Arkansas Tech University, 1960;  
M.S., American Technological University, 1981;  
Ph.D., University of Arkansas, 1988.

PATRICIA A. GORDON, 1965
Professor Emeritus of Health and Physical Education
B.S.E., University of Central Arkansas, 1957;  
M.Ed., University of Oklahoma, 1960;  

ROYCE D. JONES, 1973
Professor Emeritus of Accounting
B.S., Arkansas Tech University, 1965;  

HARLAN L. MICMILLAN, 1969
Professor Emeritus of Biology
B.S., College of the Ozarks, 1950;  
M.S., University of Arkansas, 1955;  
Ph.D., Purdue University, 1960.

BOBBY MULLEN, 1956
Professor Emeritus of Mathematics
B.S., Arkansas Tech University, 1952;  
M.A., University of Arkansas, 1955.

AUDREY R. OWENS, 1984
Professor Emeritus of Nursing
B.S., Youngstown State University, 1971;  
M.S., Youngstown State University, 1978;  
M.S., Texas Woman’s University, 1979;  

DONALD P. RICHARD, 1967
Professor Emeritus of Physical Science
B.S.E., University of Central Arkansas, 1960;  
M.S.E., University of Central Arkansas, 1966.

EARL F. SCHROCK, Jr., 1971
Professor Emeritus of English
B.A., Arkansas Tech University, 1966;  
M.A., University of Arkansas, 1968;  
Ph.D., University of Arkansas, 1980.

WILLIAM W. TIROG, 1959
Professor Emeritus of Chemistry
B.S., University of Arkansas, 1956;  
M.S., University of Arkansas, 1960;  
Ph.D., Louisiana State University, 1967.

HLDA J. TURNER, 1979
Professor Emeritus of Business
B.S., Arkansas Tech University, 1960;  
M.Ed., University of Arkansas, 1968;  

VICTOR K. VERE, 1976
Professor Emeritus of Geology
B.S.E., State University of New York (Cortland), 1961;  
M.S., Syracuse University, 1968;  
Ph.D., Syracuse University, 1972.

KENNETH R. WALKER, 1968
Professor Emeritus of History
B.A., Goshen College, 1949;  
M.A., Indiana University, 1950;  
M.Ed., University of Arkansas, 1964;  
Ph.D., Indiana University, 1952.

JAMES T. WILLCUTT, 1967
Professor Emeritus of Physics
B.S., Arkansas Tech University, 1965;  
M.S., University of Missouri at Rolla, 1967.

KEITH C. WILLS, 1968
Professor Emeritus of Health and Physical Education
B.A., Hendrix College, 1958;  
M.S.E., Arkansas State University, 1965;  
Ph.D., Texas A M University, 1970.

CHIA CHI YANG, 1980
Professor Emeritus of Chemistry
B.S., National Cheng-Kung University, Taiwan, 1949;  
M.S., Georgia Tech, 1958;  
Ph.D., Georgia Tech, 1979.
The Campus

Arkansas Tech University, with its spacious 516-acre campus, is located on the northern edge of the city of Russellville. This growing community, with a population of approximately 24,000, is ideally situated between the mountains of the Ozark National Forest on the north and those of the Ouachita National Forest on the south. It is midway between the state’s two largest population centers, Fort Smith, 85 miles to the west, and Little Rock, 75 miles to the east. Interstate Highway 40 passes just north of the campus and connects these two cities.

Arkansas Tech University’s Lake Point Conference Center is located west of Russellville and is home to the College of Professional Studies and Community Outreach and offers both credit and non-credit programs. Lake Point is nestled on Lake Dardanelle in a beautiful wooded setting and offers private guest rooms, elegant and casual food service, unique amenities and spectacular views from every building. Lake Point Conference Center can accommodate a wide variety of meetings, training, conferences, retreats, as well as business and social functions.

In addition, Russellville is the crossroads of activity for State Highways 7, 22, 64, and 124. The historic natural crossing of the Arkansas River at Dardanelle is four miles to the south. The navigable river forms a 36,600 acre lake with 315 miles of shoreline behind a lock and dam located just southwest of the city. The Missouri Pacific Railroad passes through the city and parallels the river between Little Rock and Fort Smith.

Russellville is the county seat of Pope County. Historic Dwight Mission, established by the American Board of Foreign Missions among the Cherokee Indians in 1821, was located a short distance west of the campus of Arkansas Tech University on Illinois Bayou, where that stream is now crossed by Highway 64. Descendants of Cephas Washburn, the intrepid missionary who founded the mission and named it for Timothy Dwight of Yale, live in Russellville at the present time.

Arkansas Tech University is in the center of an area experiencing vigorous industrial development as evidenced by the growth of local industry and the number of national concerns locating plants in the area. Nuclear One, the first nuclear power plant completed in the Southwest, and a second nuclear power unit have been constructed near Russellville by Entergy, thus assuring continued industrial growth. Headquarters for District 9 of the Arkansas Highway Department and for the Ozark – St. Francis National Forests are located in Russellville. The McClintock – Kent Navigation Project is having a significant effect upon the development of the area. The impoundment of the Arkansas River has formed Lake Dardanelle which borders the west edge of the campus. Poultry, cattle, soybeans, cotton, and lumber are the principal money crops in the area served by Arkansas Tech University.

History

Arkansas Tech University was created by an act of the Arkansas General Assembly in 1909. Under the provisions of this Act, the state was divided into four Agricultural School Districts. Boards of Trustees were appointed by the Governor with the approval of the Senate, and appropriations were made for the erection of buildings and employment of a faculty for a district agricultural school in each of the four districts.

Twenty counties of northwestern Arkansas were designated as the Second District. Governor Donaghey appointed W. U. Balkman, J. R. Williams, H. S. Mobley, A. D. Shinn, and O. P. Nixon as a Board of Trustees for the Second District Agricultural School. Several towns made efforts to have the school located in their area. After considering all proposals, the Board of Trustees decided to locate it at Russellville, which had made an offer of a tract of 400 acres of land adjoining the city limits and a cash bonus of several thousand dollars.

The school opened its doors for students in the fall of 1910. The first class to graduate from the school was the class of 1912. In 1921-22, a freshman year of college work was offered, in 1922-23 a second year, in 1923-24 a third year, and in 1924-25 a fourth year. The General Assembly in 1925 changed the name from the Second District Agricultural School to Arkansas Polytechnic College with power to grant degrees. The class of 1925 was graduated with the degree of bachelor of science, as was the class of 1926. The effort to maintain a four-year high school and a four-year college proved beyond the resources of the institution at that time, and it became a junior college in the fall of 1927. The four years of secondary work were dropped, one year at a time, and the last high school class was the class of 1929.

Changing and increasing demands for college education in Arkansas caused the Board of Trustees in 1948 to convert the college from a junior college to a degree-granting institution. In 1948-49 the college offered the third year of college work, and in 1949-50 the fourth year, with the first baccalaureate degrees awarded at the end of the 1949-50 spring semester. A graduate program leading to the degree of master of education was established in 1976. Graduate courses were first offered by Arkansas Tech in the summer of 1975.

In accordance with an act of the Arkansas General Assembly and by the authority of the State of Arkansas Board of Higher Education, the name of Arkansas Polytechnic College was changed to Arkansas Tech University, effective July 9, 1976.

Arkansas Tech has consistently adjusted its scope to accommodate immediate and future needs. In 1985 the institution reorganized its programs into the Schools of Business, Education, Liberal and Fine Arts, Physical and Life Sciences, and Systems Science. In 1997, the School of Community Education and Professional Development was established. As part of ongoing efforts in strategic planning and a recognition of the growth and scope of the institution and its programs, the schools were renamed in 2009: College of Business, College of Education, College of Arts and Humanities, College of Natural and Health Sciences, College of Applied Sciences, and College of Professional Studies and Community Outreach.

Mission Statement

(adopted February 28, 2008)

Arkansas Tech University, a state-supported institution of higher education, is dedicated to nurturing scholastic development, integrity, and professionalism. The University offers a wide range of traditional and innovative programs which provide a solid educational foundation for life-long learning to a diverse community of learners.

http://www.atu.edu/academics/catalog/genInfo.html
General Education Goals

The general education curriculum is designed to provide a foundation for knowledge common to educated people and to develop the capacity for an individual to expand that knowledge over his or her lifetime. Students who have completed the general education curriculum at Arkansas Tech University will be able to:

- Communicate effectively
- Think critically
- Develop ethical perspectives
- Apply scientific and quantitative reasoning
- Demonstrate knowledge of the arts and humanities
- Understand wellness concepts

(See "General Education Requirements")

Programs of Study

In carrying out its mission, the University offers programs of study leading to baccalaureate degrees in the areas listed below. Programs of study leading to a master's degree are offered in Liberal Arts, English, History, Multimedia Journalism, Spanish, Teaching English to Speakers of Other Languages, Engineering, College Student Personnel, Emergency Management and Homeland Security, Fisheries and Wildlife Science, Information Technology, Nursing, Psychology, School Counseling and Leadership, Educational Leadership, Instructional Improvement, Teaching, Learning and Leadership, Elementary Education, Gifted Education, and Secondary Education with specializations in English, Instructional Technology, Mathematics, Physical Education, and Social Studies. Arkansas Tech also offers the Educational Specialist degree in Educational Leadership. (Please refer to graduate catalog for additional information.)

**College of Applied Sciences**

Agriculture Business
Computer Science
Culinary Management (A.A.S.)
Electrical Engineering
Emergency Management (B.S.)
Hospitality Administration
Information Systems
Information Technology (A.A.S. and B.S.)
Mechanical Engineering
Nuclear Technology (A.S.N.T.)
Recreation and Park Administration

Physical Plant

The physical plant of Arkansas Tech University is located on a tract of 533 acres near the northern boundary of the city of Russellville. Acreage provides space for varsity and intramural recreational activities, drill fields, and the University farm. The McClellan – Kerr Arkansas River Navigation System provides a freshwater lake which borders on the west edge of the campus.

All instructional programs are taught in buildings which have been specifically designed or modified to complement the projected instructional tasks. The Corley Building, renovated in 2009, provides instructional space and state of the art laboratories for engineering, computer science, and mathematics. McEver Hall, renovated in 2010, provides specialized classrooms and labs for Biological and Physical Sciences. Norman Hall, which was completed in 2007, houses the Department of Art and contains a gallery and specialized classrooms. Rothwell Hall houses Academic Advising, College of Business offices and classrooms, a trading room with a live Stock Market Ticker and Video Display Wall, and the Arkansas Small Business and Technology Development Center. Rothwell Hall was not only completed in Arkansas Tech’s 100th year of operation (2009), but is also Tech’s 100th building.

The College of Professional Studies and Community Outreach and the Center for Leadership and Learning are located at our Lake Point Conference Center which was acquired by Tech in 2006.

Arkansas Tech University has several resources which lend themselves to serving the cultural and recreational needs of the University and surrounding community. The John E. Tucker Coliseum complements the instructional program by providing a modern setting for concerts, conventions, and sporting events. The Hull Physical Education building, renovated in 2001, has an Olympic-style swimming pool which is used for physical education classes; for recreational swimming for students, faculty, and staff; and by the community swim club. The Witherspoon Arts and Humanities Building has a modern auditorium with a seating capacity of 742. The L.L. “Doc” Bryan Student Services Center and the Student Activities Building constitute the main facilities for student services, student government, publications, and indoor recreational activities. The Arkansas Tech Museum, located in the Techionery Building, contains exhibits on archeology and early history of western Arkansas; museum lectures and events address cultural needs on the campus and in the community, and offer opportunities for students in the Parks, Recreation and Hospitality Department to become involved in interpretive activities.
Ross Pendergraft Library and Technology Center houses more than 1,195,000 items, including: 168,000 print volumes; 895,000 microforms; 115,000 government documents; 13,000 multimedia items; and 825 periodical subscriptions. Among these holdings are extensive backfiles of journals and newspapers. Photocopiers and microform reader-printers are available using the VendaCard system. The library is a member of AMIGOS/OCLC, a regional broker of international bibliographic data and information services. Over 140 electronic databases covering most subjects are accessible from the library and over the Internet through the Tech homepage at http://library.atu.edu. Assistance in the retrieval and use of materials is provided by seven professional librarians, nine paraprofessional staff, and a number of part-time employees. Librarian-mediated instruction and online searches are provided on request. Materials not available in the library may be requested through our interlibrary loan system, normally at no charge. The Library is the publisher of the retrospective Arkansas Gazette Index.

Pendergraft Library is open 97 hours per week except between semesters and during holidays. The state-of-the-art facility includes a variety of computer labs (both open use and instructional), a music/multimedia lab, two distance learning classrooms, a large conference room, five breakout/meeting rooms, ten group study rooms, satellite downlink, cable TV connections, 135 publicly accessible computers, 132 lab computers, about 400 data drops for laptop computers, and access to the Tech wireless network.
Individuals who meet the admission requirements listed below may apply to Arkansas Tech University. The University reserves the right to reject the application of any individual. Every student must file an application for admission. Applications and additional information about Arkansas Tech are available from the Office of Admissions, 1605 Coliseum Drive, Suite 141 Doc Bryan, Arkansas Tech University, Russellville, Arkansas 72801.

Students may apply on-line from the Tech web site at http://www.atu.edu/ or e-mail for additional information via tech.enroll@atu.edu.

Tech will provide equal opportunity in admission to all persons. This applies to all phases of the admission process. Any demographic information collected through the Admission Application is on a voluntary basis and is to be used in a nondiscriminatory manner consistent with applicable civil rights laws for reporting and statistical purposes only and cannot affect eligibility for admission.

Tech is subject to and endorses both the Americans with Disabilities Act and Section 504 of the Rehabilitation Act of 1973. The Director of Disability Services serves as the coordinator for these federal programs. The Office of Disability Service is located in Bryan Hall 103, Arkansas Tech University, Russellville, AR 72801, and can be contacted by calling (479) 968-0302 or FAX (479) 964-0375.

Beginning June 1, 2007, all students at Arkansas Tech University will be assigned a permanent, randomly generated, student identification number. A student's social security number will be used only on applications for admission and solely for the purposes of Federal reporting requirements and determination of eligibility for Federal financial aid.

All students must provide proof of two measles, one mumps and two rubella immunizations by way of an official record from another educational institution, certificate from a licensed medical doctor, or an authorized public health department representative. Proof of the appropriate immunizations must be presented to the Office of Admissions prior to enrollment in classes.

Entering freshmen must comply with the following admission requirements and freshman placement standards. This includes students who enter with college credit earned prior to high school graduation, during summer following high school graduation, or by advanced placement.

Residual college entrance exams, taken on other college campuses, will not be accepted for admissions.

### Entering Freshman/New Student

New students to Arkansas Tech University must submit an application for admission, college entrance exam scores, a record documenting completion of secondary requirements, and proof of immunization. If you have concurrent college credit, an official transcript from that institution is required. For Advanced Placement (AP), College Level Examination Program (CLEP) or International Baccalaureate (IB) credit, an original or certified copy from your high school will need to be submitted prior to credit being awarded. Detailed course articulation for AP, CLEP, and IB can be located under Credit by Exam. A minimum criterion for exam scores and grade point averages is listed below:

1. Composite ACT score of 15 or above, SAT Reasoning Test (formerly SAT-1) composite score of 710 (mathematics and critical reading average) or above, or a COMPASS composite score of 47 or above for students who graduate from an accredited public secondary school; or composite ACT score of 19 or above, composite SAT Reasoning Test score of 910 (mathematics and critical reading average) or above, or composite COMPASS score of 68 or above for students who graduate from private secondary schools, were home schooled, or received a GED. Note: SAT exam scores are to include the SAT Reasoning Test averages for mathematics and critical reading only. Writing exams for neither ACT nor SAT are required.

2. Completion of graduation requirements from an accredited public or private secondary school, a non-accredited private secondary school, or a home school program documenting a minimum 2.0/4.0 cumulative grade point average, and completion of the university’s secondary school core curriculum, OR minimum GED score of 450.

### Secondary School Core Course Recommendation

Twenty-two credits minimum earned from grades nine through twelve from the following core courses or equivalent are recommended for college preparation. Asterisks indicate core courses required by Act 1290 for unconditional admission:

- **English** - 4 units, with emphasis on writing skills, but not to include oral communications, journalism, drama, or debate. Oral Communications - ½ unit of oral communications.
- **Science** - 3 units with laboratories, chosen from physical science, biology, chemistry, or physics. Only one unit may come from a life science.
- **Mathematics** - 4 units, including algebra I and algebra II, geometry, and an advanced math course. The fourth unit may be college algebra or a higher level college math course, as long as three college credit hours are earned. College credit will show on a high school transcript as a half-unit of credit, but will still be considered the fourth unit for unconditional college admission purposes. The student must present a college transcript along with his or her high school transcript when applying for unconditional admission. It is strongly recommended that students take a math course during their senior year.
- **Social Studies** - 3 units, to include 1 unit each of American history (does not include contemporary American history), world history (not to include world cultures, world geography, or global studies), and ½ unit of American government, or civics and ½ unit of social studies (not to include courses in practical arts).
- Physical Education - ½ unit of physical education.
- Health and Safety - ½ unit of health and safety.
- Fine Arts - ½ unit of fine arts.

http://www.atu.edu/academics/catalog/admission.html
Foreign Language - 2 units in one foreign language.
Electives - 4 units of electives.

### Freshman Placement Standards

In accordance with A.C.A. § 6-61-110, first-time entering undergraduate students (includes students who entered college the summer of 1995 or thereafter and students who enter with advanced standing) who enroll in baccalaureate degree programs or associate-degree transfer programs must meet the following placement standards prior to enrollment in college-level mathematics or English composition courses.

**Mathematics** – Students scoring 19 or above on the mathematics section of the ACT, 460 or above on the quantitative portion of SAT-1, or enrolled in college-level mathematics courses. For students who take the COMPASS, those scoring 41 or above on the algebra section may enroll in college-level mathematics courses. Students not meeting the standard must successfully complete a developmental (pre-college level) mathematics program, demonstrating achievement at least as sophisticated as intermediate algebra, in order to be placed in college-level mathematics courses.

**English Composition** – Students scoring 19 or above on the English section of the ACT or 470 or above on the verbal section of SAT-1 may enroll in college-level English courses. For students who take the COMPASS, those scoring 75 or above on the writing section may enroll in college-level English courses. Students not meeting the standard must successfully complete a developmental program.

**Reading** – Students scoring 19 or above on the reading section of the ACT, 470 or above on the verbal section of SAT-1 will be considered to have met minimal reading skill requirements. For students who take the COMPASS, those scoring 82 or above on the reading section will be considered to have met minimal reading skill requirements. English composition may be taken concurrent with or subsequent to any required developmental reading program.

Students who are required to complete developmental program(s) in mathematics, English, and/or reading, must enroll in the appropriate course during their first semester at Tech and in each subsequent semester until the developmental program is completed. A grade of "C" or better is required in all developmental courses before the student may advance to higher level courses.

### Former Students

Students who have interrupted their attendance at Arkansas Tech University must reapply for admission. Academic clemency may be granted in accordance with the clemency policy detailed in the Regulations and Procedures section.

### Transfer Students

Transfer students making application for admission to Arkansas Tech University must submit official transcripts from all colleges/universities where they have been officially registered. Students seeking transfer of credit from other institutions may be asked to provide a catalog or course description from the transfer institution.

Students with fewer than 24 semester hours of earned college-level credit must also submit a high school transcript and must request current transferable ACT or SAT scores be sent to the University. ACT, SAT, or COMPASS scores will not be required if the English and mathematics general education requirements have been satisfied with grades of "C" or better. In the event that receipt of a student's transcript is unavoidably delayed, as may frequently occur at midyear, a transfer student may be admitted provisionally pending receipt of the official transcript, but the University reserves the right to require immediate withdrawal if the previous record does not meet admission requirements.

Applicants for transfer must have earned a GPA of 2.00 (on a 4.00 scale) on all college-level courses attempted and be eligible to re-enroll at the last college or university attended.

Financial aid applicants must request a financial aid transcript from each post-secondary institution attended whether they received aid from that institution or not. Aid applications will not be processed until these transcripts are received by the financial aid office.

### Transfer Credit

The following policy is effective January 2, 2007. Credit from colleges and universities accredited by one of the six U.S. regional accreditation associations will be accepted for transfer credit. Credit from U.S. colleges and universities not accredited by one of the six regional accreditation associations will not be accepted for transfer credit. Credit from colleges or universities outside the U.S. presented for transfer credit will be considered on an individual basis. A maximum of 68 semester hours of acceptable credit may be transferred from community colleges. Transfer credit, although accepted by the university, is not guaranteed to be applicable toward meeting degree requirements for all programs offered by the university. Applicability of transfer credit to meet degree requirements depends on the major selected by the transfer student.

### Arkansas Course Transfer System (ACTS)

The Arkansas Course Transfer System (ACTS) is designed to assist in planning the academic progress of students from the high school level through the adult workforce. This system contains information about the transferability of courses within Arkansas public colleges and universities. Students are guaranteed the transfer of applicable credits and equitable treatment in the application of credits for admissions and degree requirements. Students may complete specified General Education courses anywhere in the public system as well as many courses in the degree/major that have been pre-identified for transfer. Course transferability is not guaranteed for courses listed in ACTS as "No Comparable Course." Transferability of courses taken prior to January 1, 2007, is at the discretion of the receiving institution. The Arkansas Transfer System can be accessed at http://acts.adhe.edu/

### International Student Admissions

The International and Multicultural Student Services Office (IMSSO) is pleased to serve as the admissions office for international students studying at Arkansas Tech University (Tech). Any student who is not a United States citizen or a permanent resident of the United States is considered an international student. International students are subject to out-of-state tuition rates and an international student services fee as well as additional admission requirements. International students interested in applying for admission to Tech must submit the following documents:

1. **Application** – An application for international admission, properly completed
2. **Application Fee** – A nonrefundable application fee of $50 USD

http://www.atu.edu/academics/catalog/admission.html

3/29/2010
3. Academic Records – All transcripts must be originals or school-certified copies of originals with official English translations. Notarized copies are not accepted.
   - Entering Freshmen: All applicants must submit appropriate academic records verifying previous educational attainment and the completion of secondary education requirements or the equivalency of US high school. This documentation should include grade/mark sheets as well as certificate/diplomas showing completion of secondary education equivalent to 12 years of US high school.
   - Transfer Students: Students who have previously attended college either in the US or abroad must submit official transcripts from all colleges/universities where they have been officially registered. Students seeking transfer of credit must complete a credential evaluation through a company authorized by Arkansas Tech University (a list of approved service providers can be obtained in the IMSSO or in the Registrar’s Office) and submit catalog or course descriptions from the transfer institution. Students with fewer than 24 semester hours of earned college-level credit must also submit a high school transcript or the equivalency of a US high school transcript and diploma as well as complete an entrance exam such as the ACT, SAT or COMPASS.

4. Entrance Exam – All applicants must complete the ACT, SAT or COMPASS exam. Students who have not completed the ACT or SAT may take the COMPASS exam on campus upon arrival and after admission to assist in advisement and course placement. However, if ACT or SAT scores are available, please provide this documentation along with the application for admission. Students with more than 24 semester hours of earned college-level credit are not required to take an entrance exam.

5. English Proficiency – Students who wish to apply for admission to the English Language Institute (ELI) are not required to demonstrate English proficiency. All other applicants should submit official documentation of meeting one of the following standards:
   a. A minimum score of 500 on the written TOEFL (Test of English as a Foreign Language), 173 on the computerized TOEFL or 61 on the Internet-based TOEFL. Scores must be received directly from Educational Testing Service (ETS). The school code for Arkansas Tech University is 6010.
   b. A minimum score of 5.5 on the International English Language Testing System (IELTS). An official score card must be sent directly to Arkansas Tech University.
   c. An EIKEN score of Grade 2A. Scores must be sent directly from STEP, Inc. (Society for Testing English Proficiency).
   d. For transfer students from US colleges/universities, one of the above mentioned documents can be provided or an official college/university transcript showing successful completion of college-level English Composition I and English Composition II with a grade of C or better.

6. Evidence of Sufficient Financial Support – Undergraduate costs are estimated at $17,092 USD for 9 months of study including tuition and fees, housing, meals, books and other living expenses. Applicants must provide certified evidence of the source and amount of funding that will be utilized to support educational expenses. Documents must be official and issued within the 6 months previous to the time of application. No copies are accepted.

7. Passport – Please provide a photocopy of your current passport as well as any previous visas to the US, I-20’s and an I-94 card if available.

The application for international admission and all supporting documents should be submitted by May 1 for the fall semester, October 1 for the spring semester and March 1 for both summer sessions for priority consideration. Applications are still accepted after the priority dates. Admission will not be granted until all supporting documentation as listed above has been received and evaluated. Upon acceptance, notification will be sent to the student along with an I-20 (Certificate of Eligibility).

Students seeking to defer admission to a future term must submit a $25 USD deferral fee along with updated evidence of financial support. Please send a written request for deferral to the IMSSO along with the fee and updated financial support documentation within 60 days of the start date of your last admission.

Full payment of tuition and fees must be made at registration each semester. International students are required to purchase a health insurance policy provided by the university. Tech receives no remuneration as a result of international student enrollment in the health insurance plan.

More detailed information regarding international student admissions may be obtained by contacting the International and Multicultural Student Services Office, Tomlinson 29, Arkansas Tech University, Russellville, Arkansas, 72801-2222, USA; telephone 479-964-0832; fax 479-880-2039; web http://www.atu.edu/imss.

**Conditional Admission**
First-time entering freshmen and transfer students who have been denied admission may file a written appeal addressed to the Associate Vice President for Enrollment Management seeking conditional admission. The appeal should be made within ten calendar days from the date admission was denied and should state applicant’s grounds for appeal. Students granted conditional admission will be admitted on academic probation.

**Non-Degree Admission**
Arkansas Tech University serves the general public by allowing individuals to enroll in classes for professional development and self-fulfillment without meeting regular admission requirements. The student admitted under this policy, who later chooses to pursue a degree, must reapply for admission as a degree seeking student and meet standard admission policies. A maximum of 27 credit hours earned as a non-degree seeking student may be applied to a degree program. Financial Aid benefits may not be granted to students admitted as non-degree seeking. For more information, call the Office of Admissions at (479) 968-0343.

**High School – University Admissions**
Arkansas Tech University welcomes the opportunity to serve area schools by complementing their programs with special opportunities for students to enroll for college courses and earn college credit by attending Tech during summer sessions or by attending on a part-time basis during the regular academic year, concurrent with enrollment in secondary school. In accordance with the Arkansas Code of 1987 Annotated, paragraph 6-18-223, makes provisions whereby a student who is enrolled in a public school in Arkansas and who has completed the eighth grade is eligible to enroll at Arkansas Tech University upon approval of the appropriate public school official, provided the student does not need developmental courses in mathematics, English or reading and has a cumulative high school grade point average of 2.00 or greater on a 4.0 scale.

Upon completion of a course(s), students may choose whether or not to have the course(s) and grade(s) recorded for college credit. Students who do not wish to have the course(s) and grade(s) recorded for college credit must notify the Registrar in writing within thirty days of the end of the term or semester attended. A student must reapply each term or semester attended. The course(s) agreed upon by the student and their high school must also be approved each term by a university official. An application for concurrent enrollment can be found at http://admissions.atu.edu.

ACT (American College Testing) Program

Entering freshmen are required to provide Arkansas Tech University with American College Testing (ACT) Assessment scores for purposes of admission, academic placement, and the awarding of academic scholarships. Entering freshmen who have not taken the ACT prior to arrival at Arkansas Tech or whose score report is more than five years old are required to take the Residual ACT preceding their first semester. The ACT, which covers English, mathematics, reading and science reasoning, is administered five times per year at test centers, such as high schools, colleges and universities, across the nation. ACT information and registration forms may be obtained from local high schools, colleges, or universities.

You may also contact the Arkansas Tech University Testing Center for ACT information and registration materials. In addition, you may correspond directly with ACT at American College Testing Program, P.O. Box 168, Iowa City, Iowa 52243.

The 2010-2011 ACT national test schedule is as follows:

<table>
<thead>
<tr>
<th>Test Date</th>
<th>Registration Deadline</th>
</tr>
</thead>
<tbody>
<tr>

</tbody>
</table>

Please check the ACT Website for the 2011-2012 test schedule at https://www.actstudent.org.

COMPASS (Computerized-Adaptive Placement Assessment and Support System)

Entering freshmen are required to provide Tech with American College Testing (ACT) Assessment or Computerized-Adaptive Placement Assessment and Support System (COMPASS) scores for purposes of admission and academic placement. COMPASS is administered on the computer and consists of three tests: writing, math algebra, and reading. Please contact the Arkansas Tech University Testing Center for COMPASS information at (479) 968-0302.

Student Retention and Graduation Rates

For information about retention and graduation rates at Tech, go to http://ir.atu.edu or contact the Office of Institutional Research.

Selecting a Major Field

Arkansas Tech University encourages students to give long and serious thought to the selection of a major field of study. They should determine the academic pursuits that lead to the vocations most attractive, not only in financial gain, but in interest as well. Then they should examine the program of study most closely related to their interest areas.

Undecided Study

Many students entering the University have not chosen a major. The individual who has not decided on a major may enroll in general education courses which are required of all candidates for the baccalaureate degree (see "General Education Requirements"). Students enrolling as "undecided" majors will be assigned to the Academic Advising Center. The Academic Advising Center is located in Rothwell Hall, room 107 and can be contacted by calling (479) 964-0843. Students enrolled as "undecided" may select a major at any time; however, a student must select a major during the semester in which the student earns 45 credit hours.

Procedure for Scheduling Courses

Detailed procedures for registration/preregistration are contained each semester in the schedule of courses. Prior to enrollment, students, in consultation with an academic advisor in their major field of study, prepare a class schedule and officially register for classes, pay fees and, if living on campus, pay room rent and board.

Course Information

All courses taught at Arkansas Tech University are listed alphabetically by subject area in the Course Descriptions section. Course symbols, the four-digit numbers used to identify courses within a department, have the following significance: the first digit of the number denotes the year level at which the course is given; the second and third digits differentiate the course from others in the department; the fourth digit shows the number of credit hours given. Typically an "hour of credit" requires one hour of classroom work per week for the duration of a semester.

Graduate Program

The requirements for the degree of master of education, master of science in education, master of liberal arts, master of arts, master of science, master of science in nursing, master of engineering, and educational specialist degree are set forth in the publication entitled "Graduate Catalog". Information may be obtained by contacting the Dean of the Graduate College, telephone (479) 968-0398.
Students enrolling at Arkansas Tech University are assessed tuition and fees to cover the costs of instruction and other student services common to a university setting. Additionally, certain courses requiring individual instruction or special facilities carry fees which are listed with the course description.

Students enrolling for twelve or more semester hours of undergraduate courses for the fall or spring semester are considered full-time. Tuition is assessed for each course at the appropriate credit-hour rate according to residency for full-time and part-time students. Instate tuition is $167 per credit hour ($334 per credit hour for out-of-state students). Up to $11.50 per credit hour ($23.00 per credit hour for out-of-state students) of the tuition fee for courses taken during the fall and spring semesters will be allocated to athletics.

Full-time students enrolled for the fall or spring semester are assessed a $25 student activity fee (students enrolled for summer I or summer II are assessed a $5 student activity fee), a $110 technology fee, a $10 technology equipment fee, a $5 publications fee, a $4 per credit hour instructional support fee, a $5 per credit hour strategic facilities initiative fee, a $10 assessment fee, a $110 technology fee, a $10 technology equipment fee, a $5 activity fee, and a $5 transcript fee which entitles them to a photo ID card and admission to all University-sponsored activities on the same basis as full-time students.

All fees and charges to students are set by the University’s Board of Trustees. Every attempt is made to establish charges in time to appear in the catalog; however, when this is not possible, estimated charges are shown. The University reserves the right to change fees and charges at any time if conditions necessitate or permit the change.

Total University charges for instate residents for the school year (twelve hours fall and spring semesters) are estimated as follows:

<table>

Tuition for courses taken during summer and mini-sessions will be assessed at the appropriate credit-hour rate for each course. A $10 assessment fee, a $5 transcript fee, a $5 activity fee (Summer I and II only), a $4 per credit hour instructional support fee, a $5 per credit hour strategic facilities initiative fee, a $110 technology fee, and a $10 technology equipment fee are also assessed each summer and mini-session.

Tuition, fees, and one-fourth of the room and board charges for on campus students are due and payable prior to the beginning of each term. The balance of room and board charges may be paid in three monthly installments. An alternative payment plan is offered via the web site: http://stuaccts.atu.edu.

All students living in residence halls are required to purchase a meal plan; Declining Balance Dollars (DCB) may be used in Chambers Cafeteria, Doc Bryan Food Court, and Convenience Store.

Payment for room and board is due and payable prior to the beginning of the semester. Students may, however, arrange to make four equal payments—one prior to the beginning of the semester and one by the 15th of each month. Room and board charges are subject to change.

When space permits, students may be allowed single occupancy of a residence hall room. The additional charge of $350 per semester is payable in full upon receipt of the monthly statement.

Residence halls are closed between fall and spring semesters. However, residents may remain in the residence halls during this period provided they submit proper paperwork to the Office of Residential Life to gain approval. There will be an additional cost for residents approved to remain in the residence halls over this break period. Residents may remain in the residence halls during all other breaks, provided they notify the residence hall staff of their intentions prior to the break period.

University Commons apartments are available to upper-class students. No board plan is required, and students are able to sign a nine-month or twelve-month contract. Two bedroom and four bedroom apartments are available.

---

**Estimated Living Expenses**

All students living in residence halls are required to purchase a meal plan; Declining Balance Dollars (DCB) may be used in Chambers Cafeteria, Doc Bryan Food Court, and Convenience Store.

Payment for room and board is due and payable prior to the beginning of the semester. Students may, however, arrange to make four equal payments—one prior to the beginning of the semester and one by the 15th of each month. Room and board charges are subject to change.

When space permits, students may be allowed single occupancy of a residence hall room. The additional charge of $350 per semester is payable in full upon receipt of the monthly statement.

Residents may remain in the residence halls during all other breaks, provided they notify the residence hall staff of their intentions prior to the break period.

University Commons apartments are available to upper-class students. No board plan is required, and students are able to sign a nine-month or twelve-month contract. Two bedroom and four bedroom apartments are available.

---

**Payment of Accounts**

Tuition and all other fees and charges, including at least one-fourth of room and board charges for students in residence halls, are due and payable prior to the beginning of each term at the Student Accounts Office, in the Doc Bryan Student Services Center, Office 133. Financial settlement may be made by personal payment or authorized financial aid (loans, scholarships, grants, third parties, etc.). Visa, Master Card, and Discover credit cards are accepted for all charges. An alternative payment plan is offered via the web site: http://stuaccts.atu.edu. Registration is not complete until all financial obligations have been met satisfactorily. Failure to make financial settlement will result in cancellation of the class schedule.

Monthly billing statements are electronic. Near the first of each month, notification and information for access will be provided to students via the individual student e-mail address and online at http://stuaccts.atu.edu. Students are responsible for accessing billing statements and printing a paper copy if desired. In addition, paper copies are mailed twice yearly shortly before the beginning of the fall and spring terms. Students registering between billing cycles are responsible for accessing their charges online or contacting Student Accounts to insure making correct payment by the required due date. Payment is due even if billing statement is not received.

Students with delinquent accounts are not eligible for food service, transcripts, recommendations, advance registration, or readmission to any term. Collection fees for outstanding debts owed to the University may be assessed to the student.

The University reserves the right to amend or add to the regulations of the institution, including those concerning charges and methods of payment, and to make such changes applicable to students enrolled in the University, as well as to new students.

---

**Reduction of Fees and Charges**

Students officially withdrawing from the University by the end of the fifth day of the semester in a summer term, as listed in the “Academic Calendar” will receive an 80 percent reduction of tuition for courses which they are enrolled in at time of withdrawal. No reduction in tuition will be made after the fifth day of the summer semester. No reduction in fees will be made beginning with the first day of class of the summer term.

---

**Reduction of Tuition for Official Withdrawal**

Students registering for the fall or spring semester but officially withdrawing from the University by the end of the second day of the semester, as listed in the “Academic Calendar” will receive a 100 percent reduction of tuition and fees. Room and Board will be reduced on a pro rata basis. Thereafter, students officially withdrawing by the end of the twenty-fifth day of the semester will receive an 80 percent reduction of tuition only for courses in which they are enrolled at time of withdrawal. No reduction in tuition will be made after the twenty-fifth day of the semester. No reduction in fees will be made after the second day of the semester.

In the event a student is receiving student financial aid, any refund amount attributable to a loan, grant, or scholarship will be returned to the appropriate account and not to the student. The amount returned to federal programs will be the amount of unearned Federal aid based on the number of calendar days of attendance up to the sixty percent point of the semester. Aid accounts will be refunded in the following order up to the amount of the original disbursement: Federal Family Education Loan Programs; Federal Perkins Loan Program; Federal PLUS Loan Program; Federal Pell Grant Program; Federal Academic Competitiveness Grant; Federal SMART Grant; Federal SEOG Program; Arkansas Department of Higher Education Programs; Tech scholarships and
private aid. Additionally, students who have received a cash payment of Federal aid money will receive a letter after their withdrawal informing them of any amount to be repaid. These repayments will be made through the Student Accounts Office.

The student will be ineligible to register for additional courses until the required payments are made.

**Reduction of Tuition/Fees for Dropping to Fewer Hours**

Students dropping to fewer hours before the end of the fifth day of the semester in a summer term as listed in the "Academic Calendar" will receive an 80 percent reduction for the courses which are dropped. No reduction in tuition will be made after the fifth day of the semester. No reduction in fees will be made once the summer session begins.

Students enrolled for the fall or spring semester who drop courses by the end of the second day of the semester, as listed in the "Academic Calendar" will receive a 100 percent reduction of tuition for the courses dropped. Thereafter, students enrolled who drop courses before the end of the twenty-fifth day of the semester will receive an 80 percent reduction of the courses dropped. No reduction will be made after the twenty-fifth day of the semester. No reduction in fees will be made after the second day of the semester.

**Reduction of Room and Board**

A student withdrawing from school will be charged pro rata room and board to the date of official check-out from the residence hall. It is the student’s responsibility to make arrangements to do a complete check-out with their hall staff upon withdrawal from the university. Students moving from the residence hall at their request during an academic year will be charged the full room and board for term of their housing agreement (typically an academic year). Students moving into residence halls during a semester will pay a pro rata charge on room and board.

Students moving out of University Commons apartments before the end of their lease term will forfeit their deposit and will be responsible for all apartment rent.

**Out-of-State Residence Status for Tuition and Fee Purposes**

Students classified as “out-of-state” must pay out-of-state tuition as shown in the section entitled “Fees and Charges.”

No student who is a minor shall be admitted to Arkansas Tech University and classified as in-state for fee purposes unless the parent or legal guardian is a bona fide domiciliary of Arkansas and has resided in this state in that status for at least six consecutive months prior to the beginning of the term or semester for which the fees are to be paid.

Any student not a minor must have lived in the state as a nonstudent for at least six consecutive months prior to the beginning of the term or semester for which fees are to be paid to be classified as an in-state student. The policy in its entirety is available in the Office of the Registrar.

All undergraduate students (those who have not earned a baccalaureate degree) whose initial matriculation (first entry) into Arkansas Tech University is on or after July 1, 2004, and who are legal residents of states which are contiguous to Arkansas (specifically, Louisiana, Mississippi, Missouri, Oklahoma, Tennessee, or Texas) shall receive a waiver of out-of-state tuition charges, effective for these tuition charges as of the beginning of the Fall Semester, 2005.

A student from outside of Arkansas entitled to be treated as an in-state student for fee purposes should complete an “Application for Residency Classification as Instate Domiciliary” and supply evidence to that effect.
Housing

Single students under 21, and with under 60 hours of college work completed, are required as space permits, to live on campus in University-owned housing units and to purchase a meal plan. This policy affects full-time (twelve hours or more, fall and spring; five hours or more, summer term) students only. Part-time students may reside in University housing with approval from the Office of Residential Life. For the purpose of health, safety, privacy and for the normal operation of the residence halls, residents must be 18 years of age or older by October 1 of the year under contract.

Rooms and apartments located on campus are reserved by students in advance of the term of residence. A $25 application fee, payable to Arkansas Tech University, is required of applicants for campus housing.

Residence hall rooms are equipped with beds, mattresses, chairs, mirrors, and desks. Students furnish linens, bed cover and spreads, pillow, and study lamps. Custodians maintain the corridors and utility rooms, but students are responsible for the care, orderliness, and cleanliness of their rooms.

Each residence hall is supervised by a director assisted by student staff members. The Housing Office is located in Room 229 of the L.L. Doc Bryan Student Services Building.

Exemptions from student housing may be requested and will be considered on an individual basis.

Campus Residence Units

The University offers twelve residence halls for our students. Eighty-four apartments are available for upper-division students. The residence halls are air-conditioned and are constructed to accommodate two students per room (Campus Court, Stadium Suites, Nutt Hall, and Wilson Hall have some designed single rooms available). All rooms are equipped with cable television service as well as internet services. Laundry facilities are located in all residence halls with the exception of Stadium Suites. The Office of Residence Life also manages two smaller facilities for members of the Arkansas Tech University sororities.

Baswell Hall

Baswell is our newest addition to the Tech Campus, and provides the entrance to Tech's newly renovated football stadium. Baswell offers housing for both males and females in a suite style arrangement with two rooms sharing bathroom facilities. The unique design of Baswell Hall provides four spacious lounges on the second through fifth floors for our students to study, relax and socialize.

Brown Hall

Brown Hall is an all-male residence hall located on the west edge of campus between Tucker and Turner Halls. It houses approximately 150 students. It is designed as a traditional residence hall with three floors, each with a long hallway of rooms and rest rooms conveniently located off the hallways. Students desire to live in Brown Hall because of its strong community. Brown Hall was renovated during the Summer of 2003.

Campus Court

Campus Court, located less than a mile north of the center of campus, is a co-ed residence hall providing students with private bathrooms in each double room, similar in style to Paine Hall. This facility provides added security for our residents through electronic gates, manned 24 hours a day by campus security. Special parking on campus is provided for our residents choosing to reside in Campus Court.

Caraway Hall

Caraway Hall is located on the southeast side of campus nestled between Tomlinson Hall and the Alumni House. It currently houses approximately 100 women, with two students sharing a room and common bathrooms located on each floor. This hall has a tradition of academic excellence and great loyalty from its alumni. Two spacious lounges, one on the first floor and one on the fourth floor, give Caraway a great feeling of community and camaraderie with the hall. Caraway Hall is on the National Registry of Historical Buildings. The rest rooms in Caraway Hall were renovated during the summer of 2005.

Critz/Hughes Complex

This complex, opening in the Fall of 2009, is actually two residence halls, Critz Hall and Hughes Hall. Both facilities were built prior to 1960 and in the past few years have been used by the university to serve a variety of functions. Recently renovated, these buildings now serve to provide community style living for approximately 150 of our residents.

Jones Hall

Jones Hall is situated on the north side of campus. Jones houses approximately 210 students and provides a suite-style living arrangement in which two rooms share a common bathroom. As our largest all-female facility on campus, the ladies of Jones Hall have a strong sense of identity and many of them choose to stay in Jones Hall for their entire years at Tech!
Nutt Hall

Nutt Hall opened its doors to students for the first time in the fall of 2002. It is a five-story co-ed hall for 338 residents. Arranged in a variety of suite styles, Nutt has both double rooms as well as single rooms. Students in Nutt Hall enjoy the common living areas available on each of the ten wings in the hall. Single Rooms in Nutt are typically occupied by upperclass students.

Paine Hall

Paine Hall was closed in the mid 1990s for renovation and was reopened for operation in the fall of 2001. Paine provides space for 216 students, and serves as a co-ed hall offering a unique living environment on campus. Located on the northwest edge of campus, Paine Hall has private bathrooms for each double room. Students who choose this hall appreciate this opportunity for increased privacy.

Roush Hall

Roush Hall is located on the north side of the campus, next to the Doc Bryan Student Services Center. Roush provides a suite-style living arrangement for approximately 100 men in which two rooms share a common bathroom. Students desire this hall because of the close brotherly community and because of its convenient location. Roush has three lounges available for students to study, play games and socialize.

Stadium Suites

Stadium Suites are located on the most southern part of campus directly across from the south goal post of Buerkle Field. This facility consists of 11 units housing 4 students in two singles and one double room, sharing a living room space. Priority for this unique living arrangement is given to upperclass students.

Turner Hall

Turner Hall is a three-story traditional co-ed residence hall offering living opportunities for nearly 200 Tech students. It is not uncommon to walk into Turner Hall and be greeted by students socializing in the entryway or playing pool in the first floor lounge. Similar in design to Brown Hall, the rooms in Turner Hall are located off of central hallways, as are the bathroom and shower facilities.

Wilson Hall

Wilson Hall is one of the oldest facilities on the Tech Campus and until this past year served the Tech Community as a classroom and Faculty Office building. Renovated during the past few months, Wilson Hall has been re-introduced to the campus once again as a residence hall, this time as a co-ed facility for over 150 residents. Wilson Hall offers both single and double rooms for our residents all located off of long hallways with community bathrooms and shower facilities.

University Commons Apartments

Five units with four-bedroom and two units with two-bedroom apartments are offered to our upper-division students. Each apartment has a living room, kitchen, washer and dryer along with private bedrooms with Internet access. The residents share the common kitchen, washer and dryer, living room space and two full baths in the four-bedroom apartments. The two-bedroom units are comprised of two private bedrooms, a kitchen, washer and dryer, living room and two full baths. University Commons Apartments also have a centrally located clubhouse with a large television area, fitness equipment, game tables, the apartment staff office, and a full service kitchen.

University Bookstore

The Arkansas Tech University Bookstore is located in the Young Building. Textbooks, study guides, school supplies, computer software, caps and gowns for graduation, in addition to other items may be purchased.

A full refund will be given on new or used textbooks until the end of the 5th class day. The following conditions will apply:

1. You need your cash register receipt and Tech I.D.
2. Your new textbooks must be returned in brand new condition with no bent corners or water damage.
3. Wrapped or boxed textbooks must be unopened.

Textbook Refund Policy

An extended period for refunds is available to students who drop a class or withdraw from school. Specific dates will be posted each semester. Students must have a withdrawal slip and receipt. Returns are not allowed on study guides, workbooks, cliffnotes, wrapped or boxed merchandise that is opened, etc. The manager reserves the right to make the decision on the condition or salability of the merchandise.

Buy Back Policy

Students may sell their textbooks for cash at the bookstore during examination week. Fifty percent of the new price will be paid to the student if the bookstore has received a request from the instructor stating the textbook will be used the following semester, the textbook is in good condition (no water damaged books will be bought back), and the bookstore is not overstocked. Textbooks with a new edition pending may be bought back at less than 50 percent of new price. Current market value will be paid on current editions not used or needed for the following semester on campus. A current Tech ID is required to sell books back. The bookstore does not guarantee the buy back of any textbook at any time.

Additional information concerning the University Bookstore may be obtained by visiting their web site at http://bookstore.atu.edu, by calling (479) 968-0255, by faxing (479) 964-0861, or by e-mailing bvaughan@atu.edu.
Counseling Services

The Arkansas Tech University Counseling Services, 1605 Coliseum Drive, Doc Bryan Student Services 233, provides counseling, consultation, and outreach to the Arkansas Tech University community. The counseling staff is committed to promoting the educational mission of the University by working with the campus community to establish and maintain healthy and effective behavior patterns and lifestyles that enhance learning and personal development. The range of services provided includes personal counseling for students in individual, couples, or group sessions. The staff provides confidential information and services at http://svcs.atu.edu.

Department of Public Safety

The Department of Public Safety is located on campus at 1511 N. Boulder Avenue. To report a crime or emergency call the Department of Public Safety at 479-968-0222 or 911. The Department of Public Safety maintains direct contact with the 911 communications center for all emergency services. It is the responsibility of the Department of Public Safety to investigate all reports of criminal activity and accidents that occur on campus. Also, you can visit the Department of Public Safety website for more information and services at http://dps.atu.edu.

Health and Wellness Center

Recognizing that optimum health is essential to effective learning, the University maintains a health services available to all students. The Health and Wellness Center, located in Dean Hall Room 126 (entrance on the north side of the building), provides confidential treatment of minor injuries and illnesses through a well-equipped facility and within the scope of practice of the two registered nurses who staff the center full-time. The RNs make appropriate referrals to local health care providers when necessary.

The University assumes no financial responsibility for student care other than that provided by the Health and Wellness Center. Students are urged to carry their own health insurance and Tech cooperates with a number of other higher education institutions in Arkansas to make available a student group insurance policy. Students not adequately covered by an individual or family group insurance policy may purchase the policy at the beginning of any semester. Application forms are available at the Health and Wellness Center or online at www.macori.com. All international students are required to purchase a medical insurance plan that satisfies the requirements of the Office of International and Multicultural Student Services.

In addition to clinical services, a wide range of health promotion and educational programs are provided in a variety of campus settings.

Student Accident and Health Insurance

Arkansas Tech cooperates with a number of other higher educational institutions in Arkansas to make available a student group insurance policy. Students not adequately covered by an individual or family group insurance policy may purchase this policy at the beginning of any semester. Application forms are available at the Health and Wellness Center or online at: www.macori.com. All international students are required to purchase a medical insurance plan that satisfies the requirements of the Office of International and Multicultural Student Services.

Disability Services for Students

Arkansas Tech University is committed to providing equal opportunities for higher education to academically qualified individuals who are disabled. Students with a disability attending Tech will be integrated as completely as possible into the University community.

Tech does not offer a specialized curriculum for students with disabilities nor does it assume the role of a rehabilitation center, but does assume responsibility for modifying campus facilities and procedures to accommodate individual needs where reasonable and without posing an undue hardship on the University.

Services arranged through the University’s Disabilities Director include consideration of classroom and building accessibility, planing for adequate travel time between classes, note-taking assistance, alternative testing, and similar types of accommodations. Per individual needs, students who may require academic support are encouraged to utilize the various departmental tutorial laboratories as well as the Student Service Tutoring Center.

Tech is subject to and endorses both the Americans with Disabilities Act and Section 504 of the Rehabilitation Act of 1973. The Disabilities Director serves as the coordinator for these federal programs. The Disabilities Director is located in the University Testing Center in Bryan Hall, Suite 103, and may be contacted by calling (479) 968-0302; (479) 968-0308 (TDD), (479) 968-0375 (FAX), or by e-mail at disabilities@atu.edu.

University Testing Center

The University Testing Center provides services which assist in the recruitment, retention, and graduation of students.

Testing services include providing registration information and materials and administering examinations such as the American College Test Assessment (ACT), Graduate Record Exam (GRE), Law School Admission Test (LSAT), Miller Analogies Test (MAT), Medical College Admissions Test (MCAT), Professional Assessments for Beginning Teachers (PRAXIS), and others. Test registration bulletins and preparatory materials are available for many of these exams on line. Tests that will allow an individual to earn college credit by attaining the qualifying score established by Arkansas Tech University include Advanced College Placement (AP), College Level Examination Program (CLEP), National League for Nursing (NLN) and Arkansas Tech examinations. Tests that require payment must be paid in advance at Student Accounts in Doc Bryan.

The Center is staffed with a director and one testing coordinator. Arkansas Tech University students may use these services for free (excluding tests). The University Testing Center is located in Suite 103 of Bryan Hall and may be reached via phone (479) 968-0302.

Norman Career Services

Norman Career Services provides online registration for students, alumni, and employers, as well as established web links to ethical employment boards. Registrants may access and provide information through WonderLink via the Career Service website [www.atu.edu/career], including cover letters, resumes, campus recruiting schedules, information sessions, etc. The center hosts and maintains a computerized career inventory, called “Discover,” which may be accessed online. Services provided to ALL classifications of students and alumni include an extensive career library, company videos, career counseling, and resume critiquing. It also provides career workshops to classes, student groups and community organizations to ensure that Arkansas Tech University graduates are well informed, prepared for the job search, and availed of every opportunity to choose from professional alternatives. Career and part-time employment opportunities through business, industry, government, the health field and education are posted through WonderLink.

Norman Career Services hosts recruiters who conduct a variety of interviews each semester. Current contacts are maintained with local, national, and international employers seeking career professionals from every major. Career fairs are hosted each fall and spring for all students.

Additional information concerning Career Services may be obtained by visiting their web site at [http://www.atu.edu/career], by calling (479) 968-0278, or writing to ATU, Norman Career Services, Doc Bryan Student Service Center, Suite 211, Russellville, AR, 72801.

Student Exchange Opportunity - Arkansas Tech University Komazawa University Student Exchange

Students who wish to improve their Japanese language skills and learn more about Japanese society may do so by studying for a semester or a year at Komazawa University in Tokyo. Students must have completed two years of university work in the case of undergraduates and one year of graduate work in the case of graduates prior to enrollment in this program. Applicants must have good academic standing and a minimum of two years of Japanese language instruction. Students will be admitted in the first semester beginning in April or in the fall term which begins in September. Costs include Tech tuition and fees (students are exempt from Komazawa tuition) as well as transportation and living expenses. More information may be obtained from the Office of International and Multicultural Student Services, Tomlinson Room 029 phone (479-964-0832) or the College of Arts and Humanities, Witherspoon 240, phone (479-968-0274).

International and Multicultural Student Services

The International and Multicultural Student Services Office provides support services designed to enrich the college experience for multicultural and international students. The office actively recruits multicultural and international students to increase the diversity of the Tech campus, provide the opportunity for cultural exchange, and aid in helping all Tech students develop an appreciation for cultural differences.

The office offers a wide range of services for international students, including orientation, immigration updates, cross-cultural programming, and other support services necessary to ease the transition of international students into the U.S. culture. American college students play a vital role in this process by volunteering to serve as mentors to new international students through the Global Connect program.

Several established organizations receive support from the International and Multicultural Student Services Office, including the Black Student Association, the Chinese Student Association, the Hispanic Student Association, the Indian Student Association, the Association for Cultural Interaction, and the Japanese Student Association.

Working together, programs are developed and sponsored throughout the year to educate faculty, staff and students regarding international and multicultural heritage.

Additional information may be obtained by calling (479) 964-0832, faxing (479) 880-2039, or writing to the Director of International and Multicultural Student Services, Tomlinson Room 29, Arkansas Tech University, Russellville, Arkansas 72801, U.S.A.

English Language Institute

The mission of the ATU English Language Institute (ELI) is to provide classes that assist international students in developing the English language skills necessary to successfully pursue academic work in a United States college or university, and to assist in their adjustment to a different culture. The ELI accomplishes the mission by delivering non-credit English as a Second Language (ESL) instruction for international students, and by providing those students with activities that increase the awareness and understanding of American culture. The ELI is an integral part of the Office of International and Multicultural Student Services. Additional information may be obtained by calling (479) 964-0832, faxing (479) 880-2039, or writing to the Director of International and Multicultural Student Services, Tomlinson Room 029, Arkansas Tech University, Russellville, Arkansas 72801, U.S.A.

Student Financial Aid

The primary purpose of student financial aid at Tech is to provide assistance to students who, without aid, would be unable to attend college. Financial assistance consists of scholarships, grants, loans, and part-time employment, which may be offered to students singularly or in various combinations, depending upon the degree of need. In determining the extent of a student’s need, the University must consider the financial support which may be expected from the income, assets, and other resources of the parents and the student. Aid awards by the University are considered supplementary to the efforts of the student’s family in assisting their children with college expenses. All awards are administered by the Financial Aid Office in accordance with the University’s equal educational opportunity policy. The University does not participate in individual financial aid agreements with other institutions. Application forms for all types of aid may be obtained from the Financial Aid Office in Doc Bryan Student Service Center, Office 117.

Cost of Attendance

A student’s cost of attendance (also called the financial aid budget) is the total of required tuition and fees and allowances for books and supplies, room and board, travel and personal expenses. Since federal regulations allow the cost of a computer to be added to the cost of attendance one time during the college career of a student, the cost of a computer and related accessories up to $1,500 purchased no earlier than four months prior to enrollment will be added to the student’s cost of attendance budget upon the student’s submission of an itemized paid-in-full receipt. This will be a one time adjustment with the costs being spread over the school year. No further adjustments will be made for upgrades or additional software at any time during the student’s career. Other adjustments to the cost of attendance allowed by federal regulations include Tech sponsored study-abroad programs approved for academic credit.
child care costs, purchase of equipment required by all students in the same course of study, and reasonable expenses incurred related to a student’s disability. These adjustments may result in additional financial aid if the student was not already receiving the maximum amount of every type of aid for which they were eligible. For more information, contact the Financial Aid Office: (479) 968-0399.

**Scholarship Stacking Policy**

Act 1180 of 1999 prohibits postsecondary institutions from using public funds in a student aid package which may contain a combination of state, institutional, private and federal funds, including Veteran’s benefits, that exceeds the cost of attendance at the institution. Arkansas Tech follows the Arkansas Department of Higher Education regulations by reducing scholarship amounts which cause awards to exceed cost of attendance. Scholarships awarded by Tech will be reduced before other scholarships. If a student has both academic and performance scholarships from Tech, the academic scholarship will be reduced first. In absence of direction from a private donor, private funds will be credited to the first semester attended unless they cause an over-award for the semester. In these cases, the scholarship will be divided equally between the current and following semester. For more information on the scholarship stacking policy, contact the Financial Aid Office: (479) 968-0399.

**Institutional Stacking Policy**

Under Arkansas law, ACT 323, other financial aid received may reduce the value of the academic award. The maximum allowance for institutional scholarships will be limited so that the total award, including Federal grants and state awarded funds, does not exceed the actual billed cost for tuition, academic fees, room and board, plus a stipend up to $700.

**Academic Scholarship Requirements**

Academic scholarships will be awarded on a priority basis; therefore, students should make application at an early date since only a limited number of these scholarships are available. The priority deadline is February 15. Students may receive only one Tech funded academic scholarship in any semester. The amount of total funds received by each student will be consistent with the Arkansas Department of Higher Education Scholarship Stacking Policy, Arkansas Act 1180 of 1999 and the Institutional Stacking Policy. Receipt, continued receipt, or renewal of all academic scholarships is contingent upon the student honoring the Arkansas Tech University Student Code of Conduct.

Main campus scholarship awards will only pay for main campus coursework and must be used the fall semester following high school graduation. Scholarship recipients must live in a residence hall or receive an exemption to the residency requirements from the Residential Life Office in accordance with established University policy. Recipients are responsible for making on-campus housing arrangements. Students who live in Louisiana, Mississippi, Missouri, Oklahoma, Tennessee, and Texas are considered in-state for tuition purposes and are eligible to apply for in-state academic scholarships. Original ACT reports should not be altered. Superscores or recalculated ACT scores, using subset scores from multiple exams, will not be accepted.

All scholarship applicants must be admitted to the University with a Federal Financial Aid Application (FAFSA) on file before a scholarship will be authorized. All additional information requested by the Financial Aid Office must be submitted by December 1 in order to meet the aid application requirements for second semester renewal. For all subsequent semesters, the FAFSA must be completed by August 1.

Scholarships can be deferred for up to one year upon Scholarship Committee approval. A deferment must be requested in writing prior to the semester of the scholarship award.

Students, who received scholarship awards prior to fall 2010, see the undergraduate catalog printed for the year of entry for renewal requirements. Transfer credits, CLEP, AP, IB, summer courses, or concurrent enrollment credit cannot be used to qualify for scholarship renewal. To remain in compliance with Act 323 of 2009, the University reserves the right to cancel or modify any scholarship funded by the institution at any time.

To remain in compliance with Act 323 of 2009, the University reserves the right to cancel or modify any scholarship funded by the institution at any time.

**University Honors Scholarship**

University Honors participants receive a maximum award of $5300 per semester for up to eight semesters or until the completion of an undergraduate degree, whichever comes first. Students who score a 28-36 ACT and have a 3.50 cumulative high school GPA are encouraged to apply. All University Honors scholarship recipients must participate in University Honors curriculum requirements, in the sophomore service requirement, and attend all Honors functions. Scholarship recipients must complete a minimum of 15 hours per semester with a 3.25 semester GPA to be eligible for the scholarship for the following semester. For additional information on the University Honors scholarship, contact Dr. Jan Jenkins, Director of Honors, at (479) 968-0456.

**Distinguished Scholars**

Distinguished Scholars receive a maximum award of $4500 per semester for up to eight semesters or until the completion of an undergraduate degree, whichever comes first. Incoming freshmen who score 24-35 ACT composite and 3.25 cumulative high school GPA are encouraged to apply. Scholarship recipients must enroll in a minimum of 15 hours during the fall semester of the freshman year and complete a minimum of 12 hours with a 3.00 semester GPA to be eligible for the scholarship for the following semester. Recipients must enroll in a minimum of 15 hours for the spring semester and complete a total of 30 hours for the freshman year with a 3.00 semester GPA to be eligible for the scholarship for the sophomore year. Transfer credit, CLEP, AP, IB, summer courses, or concurrent enrollment credit cannot be used to qualify for scholarship renewal. Renewal for subsequent semesters requires a 3.25 semester GPA on a minimum of 15 hours.

This scholarship must be used the fall semester following high school graduation.

**Second Century Scholars**

Second Century Scholars receive a maximum award of $2,550 per semester for up to eight semesters or until the completion of an undergraduate degree, whichever comes first. Incoming freshmen who score 24-25 ACT composite and 3.25 cumulative high school GPA are encouraged to apply. Scholarship recipients must enroll in a minimum of 15 hours during the fall semester of the freshman year and complete a minimum of 12 hours with a 3.00 semester GPA to be eligible for the scholarship for the following semester. Recipients must enroll in a minimum of 15 hours for the spring semester and complete a total of 30 hours for the freshman year with a 3.00 semester GPA to be eligible for the scholarship for the sophomore year. Renewal for subsequent semesters requires a 3.25...
Two scholarships for up to $2,550 each fall semester will be given to members of Phi Theta Kappa. These transfer students must also have completed a minimum of 30 transferable hours with a minimum 3.5 grade point average to be eligible. A student must enroll in and complete 15 or more hours with a 3.25 semester GPA for renewal of up to three subsequent semesters.

Presidential Honors Transfer Scholarship

This scholarship allows any Arkansas two-year college president/chancellor the opportunity to name one student each fall for a transfer scholarship awarded up to $2,550 per semester. A student must enroll in and complete 15 or more hours with a 3.25 semester GPA for renewal of up to three subsequent semesters. Interested students should check with their current two-year school’s Financial Aid Office or President’s/Chancellor’s office for further details.

Academic All-Star Scholarship

Transfer students who are selected as Academic All-Stars by their two-year institution are eligible to apply for this scholarship. This scholarship is awarded up to $2,550 per semester. A student must enroll in and complete 15 or more hours with a 3.25 semester GPA for renewal of up to three subsequent semesters. Priority consideration will be given to the first ten students who apply.

Departmental Fellowships

A limited number of undergraduate fellowships are awarded yearly to students who show special aptitude in English, forensics, hospitality administration, sports information, theatre, or university recruitment. Students who receive a fellowship must be enrolled full time and cannot be on academic or disciplinary probation. The students are assigned to special projects in their intended profession for which they receive credit on their account.

Music Performance Scholarships

The University will award, on an audition basis, a limited number of music performance scholarships for participation in major instrumental or choral organizations. The amount of the scholarship will be determined based on criteria established by the Music Department. The award will not be relinquished so long as satisfactory participation in the major music organization(s) continues and other conditions given below are met. The awards are renewable for the seven regular semesters immediately following enrollment, based on the recommendation of the Music Department head and the student’s maintaining a cumulative grade point average of 2.25 or higher. No student is eligible for the award in a semester in which he or she is on academic or disciplinary probation. Once lost,

Out-of-State Scholarship

A limited number of scholarships are awarded on a competitive basis to out-of-state students. Special consideration will be given to children of Tech alumni. To be eligible, a student must score between 24-36 on the ACT and have a minimum of a 3.25 cumulative high school GPA or be designated as valedictorian or salutatorian in his/her high school graduating class. This scholarship award varies based on the level of the student’s ACT score. Scholarship recipients must enroll in a minimum of 15 hours during the fall semester of the freshman year and complete a minimum of 12 hours with a 3.00 semester GPA to be eligible for the scholarship for the following semester. Recipients must enroll in a minimum of 15 hours for the spring semester and complete a total of 30 hours for the freshman year with a 3.00 semester GPA to be eligible for the scholarship for the sophomore year. Renewal for subsequent semesters requires a 3.25 semester GPA on a minimum of 15 hours. Failure to meet the renewal requirements in any semester will result in the forfeiture of the scholarship for all subsequent semesters. This scholarship must be used the fall semester following high school graduation.

Collegiate Scholars

Collegiate Scholars receive a maximum award of $500 per semester for up to four semesters. Incoming freshmen who score 21-23 ACT composite and 3.25 cumulative high school GPA are encouraged to apply. Scholarship recipients must enroll in a minimum of 15 hours during the fall semester of the freshman year and complete a minimum of 12 hours with a 3.00 semester GPA to be eligible for the scholarship for the following semester. Recipients must enroll in a minimum of 15 hours for the spring semester and complete a total of 30 hours for the freshman year with a 3.00 semester GPA to be eligible for the scholarship for the sophomore year. Renewal for subsequent semesters requires a 3.25 semester GPA on a minimum of 15 hours. Failure to meet the renewal requirements in any semester will result in the forfeiture of the scholarship for all subsequent semesters. This scholarship must be used the fall semester following high school graduation.

Academic Excellence Scholars

Academic Excellence Scholars receive a maximum award of $2,550 per semester for up to eight semesters or until the completion of an undergraduate degree, whichever comes first. Incoming freshmen, who are designated as valedictorian or salutatorian in his or her high school graduating class, are encouraged to apply. Scholarship recipients must enroll in a minimum of 15 hours during the fall semester of the freshman year and complete a minimum of 12 hours with a 3.00 semester GPA to be eligible for the scholarship for the following semester. Recipients must enroll in a minimum of 15 hours for the spring semester and complete a total of 30 hours for the freshman year with a 3.00 semester GPA to be eligible for the scholarship for the sophomore year. Renewal for subsequent semesters requires a 3.25 semester GPA on a minimum of 15 hours. Failure to meet the renewal requirements in any semester will result in the forfeiture of the scholarship for all subsequent semesters. This scholarship must be used the fall semester following high school graduation.

Tech Transfer Scholarship

The award amount varies for this competitive scholarship. Students who have completed 30 or more transferable, for-credit hours at an accredited college or university with a minimum 3.25 transfer GPA should apply. Students who receive transfer scholarships are required to enroll in and complete 15 or more hours with a 3.25 semester GPA for renewal of up to three subsequent semesters. Transfer scholarships must be used on the main campus in Russellville.

Phi Theta Kappa

Two scholarships for up to $2,550 each fall semester will be given to members of Phi Theta Kappa. These transfer students must also have completed a minimum of 30 transferable hours with a minimum 3.5 grade point average to be eligible. A student must enroll in and complete 15 or more hours with a 3.25 semester GPA for renewal of up to three subsequent semesters.
the scholarship may be regained by raising the grade point average to the required level or by removal from academic or disciplinary probation and upon recommendation of the head of the Music Department.

**Senior Service Fellowships**

Fellowships in the various colleges of the University are open to a limited number of outstanding advanced students. These service fellowships are awarded at the discretion of college committees when the caliber of the applicant justifies such assistance. Candidates for the fellowship must have earned 90 semester hours of credit, have a minimum grade point average of 3.00 on all work, and be enrolled in a minimum of 12 hours for the semester(s) for which the fellowship is granted. Any deviation or exception to this policy must be approved by the Office of Academic Affairs. Students who would like to be considered for a Senior Service Fellowship must make written application by April 1 to the appropriate dean.

**Athletic Scholarship**

The maximum number and maximum value of such scholarships will be determined by the constitution and by-laws of the NCAA Gulf South Conference. Applicants should contact the Arkansas Tech University Athletic Director at 479-968-0245.

**Native American Out-of-State Waiver**

Arkansas Tech University offers in-state tuition rates to Native American students in other states belonging to tribes which formerly lived in Arkansas, before relocation, and whose names are on the rolls of tribal headquarters. Tribes thus identified include the Caddo, Cherokee, Chickasaw, Choctaw, Creek (Muskogee), Delaware, Kickapoo, Osage, Quapaw, Shawnee, and Tunic. Students who qualify for in-state tuition for fee purposes may apply for freshman academic scholarship. For more information contact the Office of Admissions at (800) 582-6953.

**Arkansas Tech University Foundation Scholarships**

Arkansas Tech University Foundation Scholarships will be awarded if funds are sufficient. To be considered for an Arkansas Tech University Foundation scholarship where need is a determining factor, a Federal Financial Aid Application (www.fafsa.com) must be on file in the Financial Aid Office. Federal regulations do not permit students to receive financial aid in excess of their cost of attendance. For complete details regarding scholarship stacking regulations, contact the Financial Aid Office.

Students who receive privately funded scholarships will be responsible for writing thank you notes. Expressing appreciation to donors for their interest in and support of higher education is an important part of receiving a scholarship.

The Arkansas Tech University Foundation reserves the right to amend scholarship requirements and criteria.

**FOUNDATION GENERAL SCHOLARSHIPS**

The student is responsible for submitting the Foundation General Scholarship Application and all documentation listed in the scholarship criteria to the Office of Development. The application and all required documentation must be received by March 15 (i.e., applicant letter, reference letters, etc.). Only one application and documentation is required for multiple Foundation General Scholarships. The applicant will be considered for all scholarships through the Office of Development where all the criteria requirements have been fulfilled. Application is available for printing at www.atu.edu/financialaid.

Documentation must include:

- A letter from the applicant explaining the need for the scholarship, special family circumstances, and career goals.
- Three letters of recommendation from an Arkansas Tech faculty member, high school counselor or principal and a letter from your pastor, employer, or someone familiar with your work ethics and family situation.

**Susan Adams Memorial Scholarship**

The family and friends of Susan Adams have established a scholarship in her memory. The amount of the scholarship will be credited toward tuition for the recipient. Although any worthy student is eligible to receive the scholarship, preference in selection will be given to out-of-state students who are children of Tech graduates.

**J.L. Adkins and Cora E. Adkins Scholarship**

Established at the bequest of J.L. and Cora E. Adkins, annual scholarship awards are made to students pursuing a degree in Education or Fine Arts. While preference will be given to Arkansas Tech students from the Missouri counties of Dunklin, Stoddard or New Madrid, any Education or Fine Arts major is eligible to apply. Awards will be made each year that funds are sufficient.

**Heartsill and Polly Bartlett Scholarship**

Preference will be given to a student who is a traditional, incoming freshman from Pope or Yell County, Arkansas, has a cumulative grade point average from high school of 2.0 or higher, has demonstrated financial need and is planning to attend Arkansas Tech University full-time. To be considered for this scholarship, applicants must submit a letter of application and a letter of recommendation from their high school counselor in addition to a completed scholarship application. This scholarship may be renewable at the discretion of Arkansas Tech University if the recipient is making acceptable academic progress. Scholarships will be awarded each year that funds are sufficient.

This memorial scholarship has been established by the parents and friends of Janet Beck in honor of her many accomplishments. Awards will be made each year that funds are sufficient with the initial recipient being a graduating senior from Nemo Vista High.

</tr>
<tr>
<td>Markey Butterworth Scholarship</td>
<td>An endowed scholarship in memory of Markey Butterworth is given annually to an out-of-state student majoring in Fisheries and Wildlife Biology.</td>
</tr>
<tr>
<td>Harry T. Casner Memorial Scholarship</td>
<td>This scholarship will be awarded each fall that funds are sufficient with preference being given to an incoming freshman who plans to major in Mathematics, is an Arkansas resident, has demonstrated financial need, has earned a high school cumulative grade point average of 2.5 or higher, submits a letter of recommendation and an applicant letter with the scholarship application. In addition, the scholarship may be renewable if the recipient enrolls in and successfully completes a full-time academic load of 15 hours per semester and maintains a cumulative grade point average of 2.5 or higher.</td>
</tr>
<tr>
<td>Judge J. E. Chambers Scholarship</td>
<td>Proceeds from an endowment by the family of the late Judge John E. Chambers provide scholarships for outstanding applicants from Danville, Western Yell County or Dardanelle high schools. Academic promise and service to school and community will be heavily considered in determining the recipient. Submit an application with two supporting letters of recommendation.</td>
</tr>
<tr>
<td>Ms. Baiyan Chen Memorial Scholarship</td>
<td>Dr. Qing Zeng has established a scholarship in memory of her mother, Ms. Baiyan Chen (陈白燕女士, January 3, 1918—September 28, 2009), who was a high school teacher of language and literature in China. A scholarship will be awarded each fall based on the following criteria: preference will be given to a female student, junior or senior status, full-time student with preference given to a student seeking a degree within the Department of Behavioral Sciences, cumulative grade point average of 2.5, and must demonstrate financial need.</td>
</tr>
<tr>
<td>John Clement/First State Bank Scholarship Fund</td>
<td>Established by the First State Bank, this scholarship honors John Clement for his many years of service to the River Valley community. Scholarship applicants must be entering freshmen who graduated from Ola or Plainview-Rover, have the recommendation of their high school counselor as being qualified to complete a higher education curriculum. Additionally, applicants must have demonstrated financial need and not have access to other scholarships or grants which will completely pay their education costs.</td>
</tr>
<tr>
<td>Connie V., Loretta M., &amp; Elora C. Coker Scholarship</td>
<td>This scholarship will be awarded each year that funds are sufficient. Preference will be given to an incoming freshman, graduating from Two Rivers School District in Arkansas, enrolled in 15 semester credit hours or more, and demonstrating financial need. This scholarship may be renewed for the freshman spring semester if the recipient continues to enroll in 15 credit hours and maintains a cumulative 2.0 grade point average or higher. If the recipient meets the scholarship renewal requirements of the freshman year, the scholarship may be renewed for an additional six consecutive semesters provided the recipient enrolls in and successfully completes 15 credit hours each semester and maintains a cumulative 2.5 grade point average or higher.</td>
</tr>
<tr>
<td>J. Louis and Florence C. Cooper Scholarship</td>
<td>This scholarship was established by educators J. Louis and Florence C. Cooper for needy and deserving individuals with priority being given to students in teacher education. To be eligible for this award, the student must have reached the junior or senior level, have a cumulative grade point average of 3.0 or higher, demonstrated financial need and enroll in and successfully complete a minimum of 15 credit hours per semester.</td>
</tr>
<tr>
<td>DeHaven Family Annual Scholarship</td>
<td>This scholarship was established by educators J. Louis and Florence C. Cooper for needy and deserving individuals with priority being given to students in teacher education. To be eligible for this award, the student must have reached the junior or senior level, have a cumulative grade point average of 3.0 or higher, demonstrated financial need and enroll in and successfully complete a minimum of 15 credit hours per semester.</td>

<tbody>
<tr>
<td>Denton-Wainright Endowed Scholarship</td>
<td>This scholarship was established by Cheryl Denton in memory of Dr. John Wainright and Joan Wainright in recognition of the difference they made in the lives of Tech students through their support and guidance. Joan Wainright was on the music faculty from 1955 to 1982. Dr. John Wainright, at Tech from 1952-1981, was on the faculty in music and education. He was named Dean of Education in 1970 and served in that capacity until 1981. Scholarships and awards will be granted each fall that funds are sufficient in accordance with the following criteria. The recipient must be a junior or senior majoring in music education with the intent to teach elementary music or education; preference order (1) music education-keyboard instrumental (2) music education-keyboard vocal (3) music education-vocal (4) English education or (5) education. In addition the recipient must maintain full-time student status, and have demonstrated financial need. The scholarship may be renewed for the spring semester provided the recipient continues to meet the scholarship criteria and funds are sufficient. Scholarship recipients from one year will be eligible to reapply for subsequent years.</td>
</tr>
<tr>
<td>Nona Dirksmeyer Memorial Scholarship</td>
<td>Awards will be granted each fall that funds are sufficient to a full-time student who majors in Music, is in good academic standing, and is enrolled in a minimum of 15 semester credit hours. The scholarship may be renewed for the spring semester provided the recipient continues to meet the scholarship criteria and funds are sufficient. Scholarship recipients from one year will be eligible to reapply for subsequent years.</td>
</tr>
<tr>
<td>Bill Preston Donnell Memorial Art Scholarship</td>
<td>The family and friends of Bill Donnell, a 1993 Tech graduate in graphic design, have established a tuition scholarship as a tribute to his memory. Each year the funds from the Bill Donnell, Jr., Memorial Golf Tournament hosted by Chamberlyne Country Club will be contributed to the scholarship account. This scholarship will be awarded each fall term to an entering freshman or current student who is majoring in art. Preference will be given to students who demonstrat financial need, who are residents of Yell County, and/or who plan to study emphasis in graphic design.</td>
</tr>
<tr>
<td>T. A. Dulaney Memorial Scholarship</td>
<td>Awards will be granted annually if funds are sufficient. Recipients will be chosen based on the following criteria: a junior or senior student who has declared a major in history or political sciences, demonstrated financial need, and enrolled in a semester course load of 15 hours or more. Preference will be given to a student who plans to teach. The recipient may re-apply for the scholarship.</td>
</tr>
<tr>
<td>Gene Farmer Memorial Award</td>
<td>A grant is awarded to an Arkansas high school editor who plans to specialize in either journalism or political science at Arkansas Tech University. This award, to honor and encourage a student of outstanding ability, will be made to the high school editor whose academic and journalistic accomplishments indicate the greatest potential for distinguished service in either field. The award, from the income of the Gene Farmer Memorial Endowment, is in memory of one of Arkansas Tech’s most distinguished graduates, who from a beginning as editor of Tech’s student newspaper, achieved national and international prominence as a journalist. Mr. Farmer authored several books and worked for many years as a senior editor for Life Magazine.</td>
</tr>
<tr>
<td>Feltner Kirkpatrick Scholarship</td>
<td>This scholarship will be awarded each year that funds are sufficient to a student who is pursuing a course of study that has ties to the food service or hospitality industry, has a minimum cumulative grade point average of 3.0 or higher and has a minimum ACT score of 20 or higher.</td>
</tr>
<tr>
<td>First United Methodist Church Scholarship</td>
<td>An endowed scholarship has been established by the First United Methodist Church in Russellville to assist Methodist students who are majoring in nursing will receive first consideration. Students should be recommended by their home church pastor.</td>
</tr>
<tr>
<td>Nicki Goodlett Memorial Scholarship</td>
<td>A scholarship award will be made each year that funds are available. The student must meet the following criteria: be an Arkansas resident, full-time student, be of sophomore classification (30 credit hours) or higher, have a 2.0 cumulative GPA or higher, receiving no other scholarship. Applicants should submit a letter of application expressing need and goals, three letters of recommendation from a pastor, faculty member, or other who can articulate the applicant's background, financial situation, and goal; and show performance that reflects an ability to successfully attain a college degree and demonstrates a significant trend toward academic improvement.</td>
</tr>
<tr>
<td>Don C. Guess 4-H Scholarship</td>
<td>An endowed scholarship awarded each year that funds are sufficient. Preference will be given to entering freshman who is an active member of 4-H in either Pope or Yell County, has exhibited at the Pope or Yell County Fair, has a cumulative high school grade point average of 2.75 or higher and is planning to pursue an Agriculture or Agriculture-Business degree.</td>
</tr>
<tr>
<td>Heard Scholarship</td>
<td>The Heard Scholarship established by John W. Heard will be awarded each fall semester that funds are available. The student must be an entering freshman graduating from Lamar High School with a cumulative GPA of 2.5 or higher. Enroll in and successfully complete 15 hours class load per semester. An applicant letter explaining need and goals and letters of recommendation from high school counselor and principal should accompany the scholarship application.</td>

A $250 scholarship award will be made each fall and spring that funds are available based on the following criteria: applicant must be an Arkansas resident (or at least considered a resident for purposes of tuition), a full-time student with a declared major, and of sophomore classification or higher with a 2.0 cumulative grade point average or higher at the time funds are dispersed. Recipient cannot be a transfer student, must have demonstrated financial need, and must be making academic progress as defined through the Office of Financial Aid. Applicant should submit one letter of recommendation from a faculty or staff member attesting to their dedication to succeed, and submit an essay that clearly demonstrates a significant obstacle or challenge the applicant has faced and how overcoming it has affected them. The essay should also reflect how the applicant plans to give back to the community. This scholarship is renewable for the spring semester as long as the recipient continues to meet the above criteria. After receiving the scholarship for one academic year (fall and spring), the recipient is not eligible to re-apply.

A $500 one-semester scholarship will be granted each fall that funds are available. The recipient must be a Pope County resident, freshman or sophomore level student with GPA of 2.5 or higher, full-time student enrolled in 12 semester credit hours with a minimum of one course in the department of agriculture. Applicant must submit one educational and one personal letter of recommendation, and a letter of application that expresses the students need and goals, specifically career goals as they relate to agriculture. Preference will be given to students who themselves, their parents or grandparents are members of the Pope County Cattlemen’s Association (submit copy of receipt or letter, if applicable.) Demonstrate financial need.

Two $500 scholarships will be awarded each fall semester that funds are available to Pope County students majoring in a degree program within the Department of Agriculture or Department of Nursing. Preference will be given to students whose parents or grandparents are members of Pope County Farm Bureau. Recipients will be full-time students, with sophomore classification or higher, and a cumulative grade point average of 2.5 or higher. The scholarship is renewable for the spring semester if the student maintains a 2.5 grade point average and successfully completes a 12 credit hour course load during the fall semester. The recipient is eligible to reapply in subsequent years.

Friends and members of the Church of Christ have established an endowed scholarship fund in memory of Jim Price to assist students who are members of the Church of Christ. The scholarship is awarded on a semester basis and can be renewed for one additional semester. To be eligible, a recipient must have completed 24 or more hours at Arkansas Tech with a “C” average or better. Applicants may contact the Jim Price Memorial Scholarship Fund Board of Directors at the Church of Christ Student Center in Russellville. Students should be recommended by their home congregation.

Established through the generosity of Mr. and Mrs. Reed, this scholarship shall be awarded each year that funds are sufficient to an undergraduate student who meets the entry requirements of Arkansas Tech and can provide proof of an earned cumulative grade point average of 3.0 or higher as reflected on an official high school transcript. In addition, applicants must enroll as a full-time student, successfully maintain that full-time status and have demonstrated financial need.

This scholarship will be awarded each year that funds are sufficient to a junior or senior level student majoring in a degree program within the College of Business, enrolled in a 15 credit hour or more course load, with a cumulative grade point average of 3.0 and demonstrated financial need. This scholarship can be renewed for up to three consecutive semesters provided the recipient enrolls in and successfully completes a 15 credit hour course load each semester and maintains a 3.0 grade point average.

An annual scholarship in the amount of $1,500 awarded to a senior majoring in electrical engineering. Preference will be given to a student who plans to reside in Arkansas after graduation. Mr. Ritchie, now retired, was a long-time president of Arkansas Power & Light (now Entergy).

Awarded each year that funds are sufficient, this scholarship will be awarded to students who have a proven record of academic achievement and demonstrated financial need.

Scholarships will be granted each year that funds are sufficient to full-time students who have graduated from high school in Pope or Yell County, Arkansas, have achieved sophomore status, are majoring in Fine Arts and maintains a cumulative grade point average of 2.5 or higher. Recipients of this scholarship will be required to volunteer at least two hours per week at the Arkansas River Valley Arts Center for each semester that they receive this award. This scholarship is automatically renewable for an additional two years if the recipient maintains the required criteria.

This endowed scholarship has been established by the Russellville Kiwanis Club through the Arkansas Tech University Foundation for the purpose of providing scholarships for students attending Arkansas Tech University. This scholarship is in memory of Jack W. Holloway who was an active Kiwanian for over 30 years and a veteran of WW II. Joe Ray was from Havana and served in the
Holloway/ Joe Ray Scholarship

Arkansas Senate. Scholarships will be granted each year that funds are sufficient with preference given to students who have graduated from high school in Perry, Yell, Newton or Pope County, have maintained a high school grade point average of at least 2.5 on a 4.0 scale and are planning to attend Arkansas Tech University on a full-time basis. Scholarships will be awarded for a period of one year. However, students may re-apply for subsequent years if they maintain a cumulative grade point average of 2.5 or higher at Arkansas Tech University.

Russellville Noon Lions Club Scholarship

A scholarship will be awarded to a local student who exhibits academic ability, leadership, and financial need.

Russellville Rotary Club Scholarship

A scholarship is awarded each year to a Pope County student. Applications may be made each summer to the Rotary Club through any of its members.

Mary Teresa Shinn Scholarship

The scholarship is given in memory of Mary Teresa Shinn.

St. Mary’s Regional Medical Center Nursing Scholarship

This scholarship will be awarded each semester that funds are sufficient. The recipient will be a junior or senior level student majoring in Nursing, enrolled in a minimum of 15 credit hours, with a cumulative GPA of 3.0 or higher, and must demonstrate financial need. Special consideration shall be given to students who are conversant in Spanish or taking Spanish courses and intend to stay in the Russellville area after graduation. The scholarship is renewable for up to three consecutive semesters as long as the student enrolls in and successfully completes course load of 15 credit hours and maintains a 3.0 or higher grade point average.

Kenneth and Janice Sutton Scholarship

Through the generosity of Kenneth and Janice Sutton, a scholarship has been established to assist students who are residents of Stone County, Arkansas. The recipient will be an entering freshman, who is attending Arkansas Tech the fall immediately following high school graduation, have a high school cumulative grade point average of 3.0 or higher, have an ACT score of 21 or higher, be enrolled as a full-time student, and have a letter of recommendation from the high school guidance counselor or teacher. The scholarship is renewable for the spring semester provided the student completed a full-time course load in the fall with a 2.5 grade point average and enrolls as a full-time student in the spring semester.

T-Smooth Scholarship Project

Through the generosity of T. J. Smith, a scholarship fund has been established through the Arkansas Tech University Foundation. An award will be made each fall that funds are available to a full-time student with a declared major in journalism. An entering freshman must have a 3.0 or higher grade point average and a 21 ACT score; a sophomore or higher classification must have a 2.75 cumulative college grade point average. The recipient must demonstrate financial need and must submit an essay that clearly details why journalism was chosen as a major and how the student plans to use the journalism degree. This scholarship is renewable for the spring semester as long as the recipient continues to meet the above criteria. The recipient is not eligible to re-apply for subsequent years.

Louise Berkeley Turner Scholarship

This partial-tuition scholarship will be awarded each fall semester that funds are available to a student majoring in math, science or a related field and may be renewed for one consecutive semester provided the recipient is making sufficient academic progress.

Mary Elizabeth Ragland Urton Memorial Scholarship

An award will be given each year that funds are sufficient to a deserving female student who has maintained a minimum grade point average of 2.5, practices her leadership skills, and exemplifies ethical and moral values.

Alfred and Martha Brownlee Vance Scholarship

An annual scholarship for an incoming freshman will be awarded each year funds are sufficient. Preference will be given to a Pope County resident.

Vance Family Scholarship

The annual scholarship will be awarded when funds are sufficient.
Jessie Rye Wade Scholarship

This scholarship will be awarded each year that funds are sufficient to full-time students who exhibit academic progress and have demonstrated financial need. To be considered, applicants must submit a completed application along with a letter of recommendation from an Arkansas Tech University faculty member.

Eugene and Hazel Weir Educational Trust

This scholarship was established to provide scholarships to qualified Arkansas Tech University students from Pope County, Arkansas. Mrs. Weir graduated from Atkins High School, attended Arkansas Tech and then went on to teach in Pope County schools for 46 years, including many years in Russellville.

Penny L. Wheeler Memorial Scholarship

A scholarship is awarded annually to the most deserving nursing student based upon high school record, need, and test scores.

Robert Hays and Martha Williams Scholarship

The Robert Hays and Martha Williams tuition scholarship is awarded to an incoming freshman annually. The recipient must be a resident of an Arkansas county within 100 miles of Arkansas Tech University. The student must have maintained a “B” average through high school, participated in school activities, possess the quality of good citizenship and have financial need.

Teresa Williams Memorial Endowment Scholarship

Endowed scholarships to Arkansas Tech will be awarded to qualified high school graduates of Benton, Arkansas.

James L. Witt Scholarship

This scholarship was established for the purpose of providing scholarships for students attending Arkansas Tech University majoring in Emergency Management. Scholarships and awards will be granted each year that funds are sufficient, with preference given to students who have a minimum of 24 college hours, maintains a minimum class load of 6 hours per semester, and a cumulative 3.0 grade point average.

Yell County Scholarship

This partial-tuition scholarship was established by an anonymous donor and is to be awarded to deserving students from Yell County.

Yell County Wildlife Federation Scholarship

A $500 scholarship award will be granted each spring that funds are available. The recipient will be a second-semester freshman or higher in classification with a 2.5 or higher cumulative grade point average, majoring in Fisheries and Wildlife or Parks and Recreation and demonstrated financial need. Recipient selection in order of preference will be: (1) a Fisheries and Wildlife major from Yell County, (2) a Parks and Recreation major from Yell County, (3) any qualified Fisheries and Wildlife major, (4) any qualified Parks and Recreation major. If no qualified student is identified from the specific preference categories listed above, the scholarship funds will be carried forward to the following year. The recipient must attend the January Federation meeting to have a picture made receiving the scholarship.

Foundation Major Specific Scholarships

The student is responsible for contacting the department to verify additional application requirements in order to be eligible for these scholarships. The Foundation Major Specific Scholarship Application with supporting documentation and the department application (if required) must be submitted to the Department Head or Dean of the college. This will require a separate application packet for each Department Head or Dean of the college. The application may only be considered for the specific scholarship for which you apply, therefore, it is important to contact the department for additional requirements. Application is available for printing at http://www.atu.edu/givetotech.

The Foundation Major Specific Scholarship documentation must include:

- Documentation must include:
  - A letter from the applicant explaining the need for the scholarship, special family circumstances, and career goals.
  - Three letters of recommendation from an Arkansas Tech faculty, high school counselor or principal and a letter from your pastor, employer, or someone familiar with your work ethics and family situation.

The application and all required documentation must be received by March 15 (i.e., applicant letter, reference letters, etc.).
### Accounting Scholarships

Several fee and book scholarships are awarded each year to accounting majors. The scholarships are provided by contributions made to the Accounting Club by alumni of the Accounting Department. The recipient selection is based on need and potential in the accounting profession. Submit applications to the head of the Accounting and Economics Department.

### Alumni Association Scholarship

This scholarship is open to entering freshmen who are enrolled in a minimum of 12 credit hours, have a minimum cumulative grade point average of 3.2 on a 4.0 scale and have earned a minimum composite ACT score of 21. In addition, applicants must have one parent who attended Arkansas Tech University. Selection will be based on a review of high school GPA, ACT composite score, extra-curricular activities and community involvement. Two letters of recommendation are required. Applications are available through the alumni office, development office or online (http://alumni.atu.edu/scholarship.htm). Children of Tech Alumni Association Scholarship Committee members are not eligible to apply. Application with all supporting documents including an official high school transcript must be postmarked by March 15 and submitted to the address on the application.

### Bob Adkison/ ARVAC Addictions Research Scholarship

To be eligible for this scholarship, applicant must be a full-time student enrolled in 12 credit hours per semester, major in Psychology, Sociology, or Rehabilitation Sciences, junior or senior level student with 75 earned credit hours, successful completion of Pay/Soc 2053, cumulative grade point average of 3.25 or higher, and submit a letter of application that expresses need for the scholarship and career goals. The scholarship may be renewed for the succeeding semester if the recipient continues to meet the criteria. Submit application and all supporting documentation to the head of the Behavioral Sciences Department.

### Virginia Bachman Textbook Scholarship

This scholarship will be awarded each fall semester and is renewable for the succeeding spring semester as long as the recipient continues to meet the criteria and successfully completes the fall course load. Recipient selection will be a junior or senior Accounting major who is enrolled in a minimum of six semester credit hours and has a 2.0 or higher GPA. Financial need will be a consideration. Submit application to the head of the Accounting and Economics Department.

### Col. Alton F. Balkman Athletic Scholarship

This partial-tuition scholarship will be awarded to a student from Arkansas who is either a current member of the Tech basketball or football team or a former member in the last semester or year of his or her undergraduate degree program. The student must demonstrate potential for service to country such as was exemplified by Colonel Alton F. Balkman. Applicants must have at least a “C” average and must submit a letter of application and two letters of recommendation from Athletic Department faculty. Financial need will be a consideration when making this award. This scholarship is renewable provided funds are available; the student receives the recommendation of the Athletic Department and continues to meet the scholarship criteria. Submit application to the Athletic Director.

### Nell Teeter Balkman Nursing Scholarship

This partial-tuition scholarship will be awarded to a junior or senior nursing student from Arkansas who demonstrates potential for nursing leadership such as was exemplified by Nell Teeter Balkman. Applicants must have at least a “C” average and must submit a letter of application and two letters of recommendation from Arkansas Tech University Nursing Department faculty. This scholarship is renewable provided funds are available; the student receives the recommendation of the Nursing Department and continues to meet the scholarship criteria. Financial need will be a consideration in making this award. Submit application to the head of the Nursing Department.

### Col. Carl Baswell Engineering Scholarship

To be considered for this scholarship applicants must have successfully completed the pre-professional curriculum as outlined in the Arkansas Tech University catalog, reached the junior or senior level, declared a major in Engineering, earned a cumulative grade point average of 3.0 or higher, demonstrated financial need and be a resident of Arkansas. Submit application to the Dean of the College of Applied Sciences.

### Sybil W. Bates Engineering Scholarship

To be eligible for this scholarship, a student must be an incoming freshman majoring in Engineering, have an ACT composite score of 26 or higher and a 3.5 or higher grade point average in core classes from high school. This scholarship is for the freshman year only and is not renewable for subsequent years. Applications should be directed to the Dean of the College of Applied Sciences.

### Bridenthal Choir Scholarship

This scholarship is named for Dorothy Bridenthal Bean and her twin sister, Deloris Bridenthal Prestridge, both of whom attended Arkansas Tech from 1940 until their graduation in 1942. While this award is designed for students whose studies concentrate on choir in their music education, a student who is majoring in choir or choral music is preferred. Each applicant must audition for the scholarship. The recipient must be in good academic standing. This scholarship will be awarded each semester that funds are sufficient. Interested students should contact the head of the Music Department.

### Bridenthal Piano Scholarship

This scholarship is named for Dorothy Bridenthal Bean and her twin sister, Deloris Bridenthal Prestridge, both of whom attended Arkansas Tech from 1940 until their graduation in 1942. While this award is designed for students whose studies concentrate on piano in their music education, a student who is majoring in piano is preferred. Each applicant must audition for the scholarship. The recipient must be in good academic standing. This scholarship will be awarded each semester that funds are sufficient. Interested students should contact the head of the Music Department.
**Fay Bullock Scholarship Fund**

A scholarship awarded each semester to a student who is majoring, or one who intends to major, in the Department of History and Political Science. Academic achievement, need, and relevant extracurricular activities will be considered in making the award. Submit application to the head of the History and Political Science Department.

**Belinda Byrns Memorial Scholarship**

This annual scholarship was established in memory of Belinda Byrns and will be awarded each year funds are sufficient. Applicants must be a full-time Recreation and Parks major, have a cumulative grade point average of 2.75 or higher, submit a resume and an applicant letter explaining why he or she deserves the scholarship, educational and professional goals, and summarize professional experience. One letter of recommendation from a professional in the Recreation and Parks profession who is not a full-time or adjunct ATU Recreation and Parks faculty member is also required. Recipient must reapply each year for the scholarship.

**CADDS Fly Fishing Club Annual Scholarship**

This annual scholarship will be awarded each year that funds are sufficient. Preference will be given to students who have achieved junior or senior status, have declared a major in Fisheries and Wildlife, and have maintained a minimum cumulative grade point average of 2.75 or higher. In addition financial need and/or research accomplishments may be considered. Submit application to the head of the Fisheries and Wildlife Department.

**Reuben Dee Caudle Scholarship**

A partial-tuition scholarship will be provided for a student majoring in one of the physical science fields. The recipient must demonstrate a financial need and must meet and maintain satisfactory scholastic requirements. Preference will be given to Arkansas residents and those who have prior military service. This scholarship is to be re-awarded to the initial freshman recipient each of his/her subsequent three years while at Tech provided he/she continues to major in Physical Sciences and maintains good academic standing. Awards will be made each fall semester that funds are sufficient. Submit application to the Dean of the College of Natural and Health Sciences.

**Chartwells Hospitality Scholarship**

To be considered for this scholarship, applicants must be a full-time Hospitality major. Students must have successfully completed 30 credit hours with a cumulative grade point average of 2.75 or higher and have an interest in food service. A letter of recommendation from a faculty member or industry representative, a one page biography or resume, an unofficial transcript, and a letter detailing their candidacy and qualifications as they relate to this scholarship should be submitted by students wishing to be considered for this scholarship. Applications and all supporting documents should be submitted to the head of the Parks, Recreation and Hospitality Administration Department.

**C. L. Chiang and C.C. Yang Chemistry Scholarship**

An endowed scholarship established by Mr. C. L. Chiang of Singapore in honor of Dr. C.C. Yang, Professor Emeritus. The scholarship is awarded to an incoming freshman majoring in chemistry. The requirements for this award are a high school GPA of 3.0 or greater, and a composite ACT score of 24 or greater. Applications should be made to the head of the Physical Sciences Department. This scholarship is renewable by request if the recipient makes satisfactory progress toward an ACS-accredited degree in chemistry.

**Dana Coffman Journalism Scholarship**

This partial-tuition scholarship has been established in memory of Dana Coffman, a former Journalism student at Arkansas Tech University. Preference will be given to a female student majoring in the field of Journalism. Academic achievement and financial need will be reviewed before making the award. Application should be made to the head of the Speech, Theatre, and Journalism Department.

**Rip Collins Memorial Scholarship**

Established by the Friends of the Little Red River to honor Mr. Rip Collins, the scholarship shall be used to make awards to full-time student(s) attending Arkansas Tech University. A recipient will be chosen annually and receive partial tuition for both the fall and spring semester of that academic year. Selection process will begin in the spring after recommendations are made by fisheries professors at Arkansas Tech. Applications and letters from the applicants expressing their thoughts, beliefs, and future plans concerning fisheries management are required. Preference will be given to a sophomore or junior fisheries student in good standing who is interested in either cold water fisheries biology, management, or stream/riverine fisheries biology or management. Application should be made to the head of the Biological Sciences Department.

**Connelly Music Fund**

This scholarship was established in honor of Ed Connelly a long-time professor of music at Arkansas Tech University. Students interested in being considered for this scholarship should submit the application to the head of the Music Department.

**G. M. and Ruby Cook Business Scholarship**

An endowed scholarship will be awarded annually to a business major. Applications should be made to the Dean of the College of Business.

**William C. (Bill) & Barbara Gund Scholarship**

Students majoring in English with a junior or senior standing are eligible for this partial-tuition scholarship provided that they maintain a grade point average of at least 3.0 and follow all established criteria. Preference will be given to non-traditional students. Application should be directed to the head of the English Department.

**Francis Gwaltney Memorial Scholarship**

An endowed scholarship awarded to an English or Creative Writing major with sophomore, junior, or senior standing in memory of Francis Gwaltney, former author and member of the English and Creative Writing faculty. The scholarship is awarded competitively based on original fiction submitted by applicants to the head of the English Department two weeks before the end of each spring semester.

**Burl Harris Memorial Scholarship**

Mr. and Mrs. John G. Harris have established this scholarship in honor of Burl Harris, a long-time practicing Public Accountant and businessman in Russellville. During most of his life, he was actively involved in industrial development efforts for the Russellville area. Mr. Harris served on the Arkansas Tech University Foundation Board of Directors until his death in 1990. He was a dedicated supporter of the University as a whole and of the Department of Accounting in particular. This scholarship will be awarded each year that funds are sufficient to a junior- or senior-level accounting major enrolled in a minimum of 6 or more credit hours. Applications should be directed to the head of the Accounting and Economics Department.

**Kathleen Tucker Hollabaugh Journalism Scholarship**

This scholarship is funded by the Pope County Historical Association in honor of Kathleen Tucker Hollabaugh, the first woman editor of the Arka-Tech. The annual award will be made to a sophomore, junior or senior journalism major each year funds are sufficient and will be based on commitment to journalism and work in the field. A letter about commitment to journalism and samples of the applicant’s work should accompany the scholarship application. Application should be directed to the head of the Speech, Theatre, and Journalism Department.

**Hindsman Athletes Scholarship**

This endowed scholarship will be awarded annually to a member of the Tech Men's Basketball team. The recipient must be a full-time student, and have demonstrated financial need. This award is renewable for the spring semester as long as the recipient continues to meet the criteria, successfully completes a full-time course load in the fall semester, and funds are sufficient. Applications should be directed to the Athletic Director.

**Jimmie Hartman Hoover Memorial Scholarship**

This endowed scholarship was created for the purpose of assisting graduate students at Arkansas Tech University and will be awarded each year that funds are sufficient. The applicant must be a full-time graduate student who is enrolled in 6 semester credit hours in the Instructional Technology degree program and have a cumulative grade point average of 3.0 or higher. Preference will be given to students who have an interest in library science. In addition, financial need may be considered. Application should be directed to the Dean of the Graduate College.

**International Business Experience Scholarship**

This scholarship will be awarded each year that funds are sufficient to students who demonstrate a financial need and are committed to/or are enrolled in an International Business Experience course. Submit application to the Dean of the College of Business.

**Junior Auxiliary of Russellville Book Scholarship**

An award will be made to a Russellville high school graduate each year that funds are sufficient to defray the cost of books. The student must be currently enrolled at Arkansas Tech University. Applications are available in the Development Office, Administration Building room 209 in early February.
**Junior Auxiliary of Russellville Education Scholarship**

An award will be made each year that funds are available to an Arkansas Tech student majoring in Education. Applicants must be junior or senior level with a cumulative grade point average of 3.0 or higher and demonstrated financial need. Applications are available in the Development Office, Administration Building room 209 in early February.

**Junior Auxiliary of Russellville Judy Thacker**

This scholarship is open to any major at any level in their undergraduate career who has a minimum cumulative grade point average of 2.75. Preference will be given to a non-traditional student. Awards will be made each year that funds are sufficient. Applications are available in the Development Office, Administration Building room 209 in early February.

**Junior Auxiliary of Russellville Marge Crabaugh**

An award will be granted each year that funds are available to a student majoring in a field pertaining to “Child Welfare.” Applicants must have a cumulative grade point average of 3.0 or higher, be a Russellville or Pope County resident with junior or senior status. Applications are available in the Development Office, Administration Building room 209 in early February.

**Junior Auxiliary of Russellville Nursing Award**

This fund has been established to provide a scholarship each year that funds are available to an Arkansas Tech University Nursing student in their junior or senior year of study. Applicants must have a cumulative grade point average of 3.0 or higher. Applications are available in the Development Office, Administration Building room 209 in early February.

**Jackie Knight Memorial Scholarship**

A scholarship awarded annually to an outstanding and deserving senior-to-be who is majoring in accounting. Grade point and financial need will be considered in making the selection. This scholarship was established by the family and friends of Jackie Knight, former Vice-President for Administration and Finance at Tech. Direct applications to the head of the Accounting and Economics Department.

**The Lake Dardanelle Big Bass Scholarship**

Through the generosity and support of local and area fishermen, the organizers of “The Lake Dardanelle Big Bass Classic,” Wilkins Sporting Goods and the Russellville Advertising and Promotion, the Lake Dardanelle Big Bass Scholarship has been established for the purpose of providing scholarships for Fisheries and Wildlife students attending Arkansas Tech University. Applications should be submitted directly to the director of the Fisheries and Wildlife Department in late September. Scholarships will be granted each fall in accordance to the following criteria: a declared major in Fisheries and Wildlife, a junior or senior level student in good standing, attach a resume, copy of transcripts, and a letter of application that indicates the scholarship for which application is being made and that addresses financial need and career goals. Preference will be given to Arkansas residents and to students whose career goals focus on fisheries management. The scholarship is for the fall semester only and is not renewable.

**Little Rock Grain Exchange Scholarship**

To be considered for this scholarship, students must have declared a major in Agriculture or Agriculture Business. Freshmen students must rank in the upper half of their Arkansas high school graduation class and possess ACT or SAT test scores that exceed the state average. Additionally, applicants must have two or more positive recommendations from their high school principal, counselor or teachers. Sophomore students must have two or more positive recommendations from their university or college teacher and have a 3.0 cumulative grade point average. Financial need will be considered although not determinative. Scholarships are renewable each semester up to a total of eight semesters assuming the student takes a full academic load of 15 hours per semester and maintains a minimum cumulative grade point average of 3.0 or higher. Applications should be directed to the head of the Agriculture Department.

**Majors Family Engineering Scholarship**

This partial tuition scholarship will be made to an engineering major at the junior or senior level. Recipients can be either continuing or transfer students. To be eligible for this scholarship, a student must have successfully completed the pre-professional curriculum as outlined in the Arkansas Tech University catalog, must have an overall GPA of 2.75 or greater, must be declared as a major within the engineering department and enroll in the appropriate classes with an engineering advisor for the semester of the award. Awards may be renewed for one additional semester if the student maintains a 2.75 overall grade point average, remains a major in the engineering program and is making satisfactory progress toward an engineering degree. Applications should be directed to the Dean of the College of Applied Sciences.

**Massie-Mobley Modern Foreign Language Scholarship**

Scholarship will be awarded to an upperclassman majoring in foreign language. Application should be directed to the head of the Foreign Languages and International Studies Department.

**Wilson Matthews Distinguished Scholar Athlete Fund**

Established in recognition of Mr. Wilson Matthews, a distinguished graduate of Arkansas Tech University, this scholarship will be awarded to students who participate in team sports. These scholarships are renewable annually based on the student-athlete’s academic and athletic standing and with continued recommendation of the nominating coach and selection by the Matthews Scholarship Committee. Criteria for receiving this scholarship are: nomination by a coach; junior standing or above; GPA of 3.0; preferably from a rural area; and exemplary credentials in academics, athletics, and leadership skills in school or community. Selected students must submit a resume and three letters of reference representing the areas of academics, athletics and
leadership. Consideration will be given for additional financial assistance being received and to those students who meet the criteria with an emphasis on football. Application should be made through the Athletic Department.

<td>An endowed scholarship awarded annually to a deserving student in music. The recipient must be in good academic standing. Application should be directed to the head of the Music Department.</td>
</tr>
</tbody>
</table>
B. G. and Anita Owen Textbook Scholarship  
A book scholarship awarded to a student with junior standing was initiated by B. G. Owen, Associate Professor of Biology. Following the expressed wishes of their daughter, friends may contribute funds to perpetuate this scholarship awarded according to criteria determined by the late Professor Owen. Applications should be directed to the head of the Biological Sciences Department.

Odean Owens Criminal Justice Award  
One award will be granted each fall semester that funds are available based on the following criteria: A student with a major or minor in criminal justice and submission of a 500 word essay on a topic to be determined by the department head. Application should be directed to the head of the Behavioral Sciences Department.

Tate C. “Piney” Page Memorial Athletic Scholarship  
An endowed scholarship to assist a graduate assistant who excelled in football and academics has been established in memory of Dr. Page through contributions by the Russellville Kiwanis Club. Application should be directed to the Athletic Director.

Professor Tom Palko Scholarship  
A partial tuition scholarship established in honor of Mr. Palko, Emeritus Professor of Allied Health Science, will be awarded each year that funds are available. Selection will be based on an ACT composite score of 21 or above, sophomore class standing, a minimum college-level grade point average of 2.75, a declared major in the College of Natural and Health Sciences with preference being given to Medical Assisting or Medical Technology majors, and demonstrated financial need. Applications should be directed to the Dean of College of Natural and Health Sciences.

Ross Pendergraft Scholarship  
Four renewable partial-tuition scholarships are to be awarded to full-time undergraduate students who have demonstrated financial need and are majoring in computer and information science, accounting and economics, management and marketing-one from computer and information science, one from management and marketing and two from accounting and economics. Each scholarship will be renewable with the original recipient provided he or she has a GPA of not less than 2.5 for the fall semester and a cumulative GPA of at least 3.0 at the end of each spring semester.

William C. and Myonia Pinson Instrumental Music Scholarship  
A scholarship will be provided each year that funds are available for an instrumental music major. Students interested in being considered for this scholarship should direct a scholarship application to the head of the Music Department.

James and Geneva Pledger Agriculture Scholarship  
Through the generosity of Jim and Geneva Pledger, this scholarship has been established to provide scholarships for Arkansas Tech students. One $500 scholarship will be granted each year funds are available. The recipient must be a junior or senior in good standing, have declared a major within the Department of Agriculture, and have demonstrated financial need. Renewable for spring only and recipient may re-apply for subsequent years. Application should be directed to the head of the Agriculture Department.

Quail Unlimited/ Jim Ed McGee Scholarship  
Awards will be granted each fall that funds are sufficient to an Arkansas resident with a junior or senior class standing who has declared a major in Fisheries and Wildlife. The student must have a cumulative grade point average of 2.0 or higher, be enrolled in a minimum course load of 12 student semester credit hours, demonstrate financial need and submit a letter of application. The scholarship is renewable for the succeeding spring semester provided the student maintains a minimum 2.0 grade point on a minimum course load of 12 student semester credit hours. Students must re-apply each year. Application should be directed to the head of the Biological Sciences Department.

Lillian Massie Reed Modern Foreign Language Award  
A scholarship awarded annually to a student majoring in foreign language. Application should be directed to the head of the Foreign Languages and International Studies Department.

Lambert Resimont Scholarship  
This endowed athletic scholarship is to be awarded annually to a graduate assistant who excelled in basketball and academics. Students interested in applying should contact the Arkansas Tech Athletic Director.

Ann and Gill Richards Engineering Scholarship  
This scholarship is awarded annually to an excellent engineering student. Application should be made to the head of the Electrical Engineering Department.

</tr>
<tr>
<td>Virgil Alvin Turner Book Scholarship</td>
<td>A book scholarship established by Mr. and Mrs. Raymond B. Stroud which is awarded for the fall semester of the sophomore year to a major in chemistry. Recipients should be dedicated to obtaining a degree in chemistry and demonstrate this through scholastic achievements. Application should be directed to the head of the Physical Sciences Department.</td>
</tr>
</tbody>
</table>
Valley Motors Accounting Scholarship

progress and maintains a minimum of half-time status. Application should be directed to the head of the Accounting and Economics Department.

Wal-Mart Information Systems Scholarship

Scholarship awards will be made each fall that funds are sufficient, based on the following criteria: junior or senior classification, majoring in computer science, information systems, or information technology, a full-time student enrolled in 12 or more credit hours per semester, have a cumulative grade point average of 3.0 or higher, and be an Arkansas resident. This scholarship is renewable for the spring semester as long as the recipient continues to meet the criteria. The scholarship is for one year only, but a junior classification who is a recipient may re-apply for the succeeding year. Application should be directed to the head of the Computer and Information Science Department.

Renee Walters/Julia Williams Memorial Scholarship

Recipients will be selected each year that funds are sufficient. Preference will be given to students who have declared a major in Hospitality Administration, are currently enrolled in HA 4116, have successfully completed HA 4001, and have maintained a cumulative grade point average of 2.5 or higher. Students wishing to be considered must submit a letter of recommendation from a professional contact currently working in the field of Hospitality Administration and a letter of application of at least one page in length outlining their candidacy and qualifications as they relate to this scholarship. Applications and all supporting documents should be submitted to the head of the Parks, Recreation and Hospitality Administration Department.

Melvern Watson Scholarship

Awards will be made each year that funds are available. This scholarship will be awarded to a student majoring in Agriculture or Agriculture Business with preference given to current or transfer students, especially those who have achieved junior status. Financial need will be a consideration and students who receive the scholarship may re-apply for the scholarship for subsequent years. Applications should be turned in to the head of the Agriculture Department.

Dr. Charles and Joyce Wilkins Nursing Scholarship

This senior honors scholarship will be a one-semester partial tuition scholarship awarded to a full-time or part-time nursing student who has the highest grade point average prior to entering the first semester of the senior year. Since there are two nursing classes, a recipient will be selected from each class. Financial need is not a requirement. Application should be made to the head of the Nursing Department.

Ted and Betty Williams Scholarship

In honor of Ted and Betty Williams, this scholarship has been established to provide scholarships during the fall and spring semesters for students who demonstrate financial need, maintain a cumulative grade point average of 3.0 or higher, enroll in and successfully complete a minimum of fifteen hours each semester, and exhibit leadership potential as demonstrated by extracurricular achievements. Scholarship recipients from one year will be eligible to re-apply for subsequent years. Applicants must submit a written application to the Director of Enrollment Management in a process that will be administered by the Office of Academic Affairs. This scholarship requires a separate application which is available through the Admissions Office in the Student Services Building.

Gene Witherspoon Memorial Scholarship

A scholarship awarded each year that funds are sufficient to an instrumental music major by the Arkansas Tech Band Alumni in memory of Gene Witherspoon, director of bands at Arkansas Tech from 1950 to 1970. Application should be directed to the head of the Music Department.

Hallie Belle Witherspoon Memorial Scholarship

A scholarship is awarded each year that funds are sufficient to an instrumental music major by the Arkansas Tech Band Alumni in memory of Hallie Belle Witherspoon. Application should be directed to the head of the Music Department.

Yell County Medical Society Scholarship

A scholarship awarded each spring semester by the Yell County Medical Society to a Tech student from Yell County majoring in nursing. Application should be sent to the Head of the Arkansas Tech University Nursing Department by December 1st of each year.

Privately Supported Scholarships

Allied Poultry Industries Scholarship

Scholarships are awarded to students in the Department of Agriculture. These scholarships are awarded to promote entrance into this vast food-producing industry. Trained, high-quality college graduates are needed for jobs as administrators, production managers, and sales-service representatives. The selection is made by the Allied Poultry Industries Scholarship Committee.
Arkansas Health Information Management Association Scholarship
An annual scholarship fund has been established by the Arkansas Health Information Management Association. The scholarship is awarded each spring to a deserving health information management major in his/her junior or senior year. The recipient is determined by the Executive Board of the Arkansas Health Information Management Association. Interested students should contact the Health Information Management Program office at 1311 N. El Paso, T5 to obtain an application. Application deadline is January 31st.

ATA Endowment Program
A $300 scholarship for African-American juniors or seniors in accredited teacher education programs in Arkansas colleges and universities. Details may be secured from the Student Aid Office or from Room 207, AEA Building, 1500 West Fourth Street, Little Rock, Arkansas 72201.

FFA Scholarships
The scholarship program for the national FFA organization will be determined jointly by an officer of the University and the FFA organization. Information concerning this program can be secured from the State Department of Education or the Tech Department of Agriculture.

J.D. Knight Scholarship
This scholarship was established by Mrs. J.D. Knight in memory of her late husband, Mr. J.D. Knight, a former member of the Arkansas Tech Board of Trustees. The recipient must be majoring in accounting, business, or economics and must have an interest in banking as a possible career.

Cora McHenry Scholarship for Teaching Excellence
Four tuition scholarships available to minority students committed to teaching in the public school of Arkansas at either the early childhood/middle or secondary level. Two of these scholarships will be awarded to early childhood or middle level education majors and two to secondary majors on a competitive basis. To apply a student should submit a high school transcript, two letters of recommendation from school officials, a brief handwritten essay on why the applicant is interested in teaching, and a record of activities in school, church, and the community to the Director of Teacher Education Student Services, College of Education, Arkansas Tech University. This scholarship is renewable as long as the recipient maintains a 2.50 grade point average and remains eligible for the teacher education program. Application deadline is April 15.

Pope County Association for Handicapped Scholarships
One or more scholarships of varying amounts awarded annually to students with disabilities who are residents of Pope County and who are enrolled or admitted as post secondary students. Application forms may be obtained from high school counselors or from the Pope County Association for Handicapped, P.O. Box 2512, Russellville, Arkansas 72801.

Pope-Yell County Single Parent Scholarship
Scholarships are awarded each semester to single parents who are residents of Pope or Yell counties. Recipients must have applied for federal financial aid and be eligible for a federal Pell Grant. Application deadline is July 15 for the fall semester and January 15 for the spring semester. Applications are available from Pope-Yell County Single Parent Scholarship Board, River Valley Shelter for Battered Women and Children, Inc. P.O. Box 2066, Russellville, Arkansas 72811.

R. Lewis Urton Senior Rehabilitation Scholarship
An annual grant provided by the Arkansas Rehabilitation Association to a senior major in rehabilitation science. Applications for the scholarship are received during the spring semester. Students interested in applying should contact the Director of the Rehabilitation Science program. Each applicant will be interviewed by a committee made up of members of the Arkansas Rehabilitation Association.

Academic Policy for Students Receiving Federal Student Financial Aid
This policy applies to funds received through the Federal Pell, Supplemental Educational Opportunity (FSEOG), Academic Competitiveness (ACG) and SMART Grants, the Federal Work Study, the Federal Perkins Loan, the Federal Subsidized Stafford Loan, the Federal Unsubsidized Stafford Loan and the Federal PLUS loan programs.

This policy will be applied automatically and without favor or prejudice, with all aid students progress being checked at the end of each fall and spring semester. Individual students will be reviewed within the semester if notification of a grade change is received by the Financial Aid Office.

Any appeal of this policy must be made in writing to the Financial Aid Academic Policy Appeal Committee and turned in to the Financial Aid Office within thirty days of the notification of the violation. Financial aid will not be paid retroactively for any semester’s lost eligibility.

Students must meet all conditions of the policy. Violation of any section will result in loss of aid.

Institutional Academic Suspension
Any student whose name appears on the institutional suspension list will not be eligible to receive aid for their next period of enrollment even if they do re-enroll with the approval of the Admissions Council unless summer hours earned at Tech re-establish eligibility.
It is the student’s responsibility to notify the Financial Aid Office when they are no longer on the suspension list.

**First Undergraduate Degree**

A student is considered making satisfactory academic progress as a full-time student if the total credits earned (with a grade of “D” or better) are:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

NOTE: ALL part-time students must always earn the number of hours in which they are enrolled. Incomplete, repeat and audit classes are counted as hours attempted, but do not increase hours earned. When a class is repeated the latest grades earned in 1000 and 2000 level classes will be counted in the cumulative grade point average. All grades for 3000 and 4000 level classes will count in the cumulative grade point average. If an incomplete grade is not replaced by an earned letter grade by the end of the next regular semester it will become a grade of “F” and will be considered in the next regular determination of policy progress. No special consideration of the effects of dropping classes will be allowed unless the Student Financial Aid Director is contacted for approval prior to dropping the courses. Students may use summer hours earned at Tech to fulfill the academic progress requirement. Hours earned at another institution will not meet the requirement.

**Transfer Students**

Transfer Students will be assigned an “equivalent semesters attended” based on the number of hours accepted by the Registrar’s Office rounded down to the nearest quarter semester. Example: A student with fifty-four transfer hours would have “equivalent semesters attended” of 4.5 (54 divided by 12 = 4.5). It is the student’s responsibility to make sure transfer transcripts are on file with the Registrar.

A student must receive a bachelor’s degree by the end of six (6) years of full-time attendance or an associate’s degree by the end of three (3) years of full-time attendance and a certificate by the end of one and one-half (1.5) years of full-time attendance. Allowances will be made for semesters involving required remedial course work and certificates which require more than one year. All fall and spring semesters attended will be counted whether a student received financial aid during the semester or not. Students may use summer hours earned at TECH to fulfill the academic progress requirement. Hours earned at another institution will not meet the requirement. Less than full-time semesters will be counted proportionally (See chart below).

Part-time Enrollment Chart:

- Attempted Hours
  - 1-5 hrs = .25 semester
  - 6-8 hrs = .50 semester
  - 9-11 hrs = .75 semester
  - 12+ hrs = 1 semester

Students granted academic clemency will have all semesters attended counted on the basis of attempted hours and actual attendance.

**Subsequent Bachelors Degree OR Teacher Certification**

Full-time students must earn an average of twelve hours per semester; part-time students must earn the hours for which they enroll each semester. A second bachelor’s degree or teacher certification must be completed by the end of three years of full-time enrollment. A second associate degree or certificate must be completed by the end of one and one-half years of full-time enrollment. If a degree is not completed within this time frame, the student may appeal and provide a memo from their advisor detailing the reasons why it was not possible for the subsequent degree to be completed in the required time frame. All hours not applicable to the subsequent degree will then be disregarded in the calculation of maximum semesters. Funds may be received for no more than three certificates, two associate degrees, two bachelors and two master’s degrees.

**First Undergraduate Degree**

All students must have a minimum cumulative grade point average (GPA) of 1.0 at the end of their first semester, 1.50 at the end of their second semester, 1.75 at the end of their third semester and 2.0 at the end of their fourth and all following regular (fall and spring) semesters or “equivalent transfer semesters.” Example: A student who earns 24 hours in four half-time semesters would be required to have a 2.0 at the end of the fourth semester. While a student who earns 24 hours in two full-time semesters would still have two additional semesters before a 2.0 GPA would be required. To continue on aid, this GPA must be maintained for all remaining semesters. No appeal will be granted for anyone in violation of the required cumulative 2.0 GPA.

Any student who fails to meet the required 2.0 GPA will be reinstated once the required GPA is met. However, financial aid will not be paid retroactively for any aid lost because of this requirement. It is the student’s responsibility to notify the Financial Aid Office when they have attained the required GPA.

**Subsequent Credentials or Teacher Certification**

Students must maintain a 2.0 GPA each semester.

**Changing Majors**

When students change majors they are required to continue meeting all sections of this policy. If the major change causes the student to exceed the maximum number of semesters attended, they may appeal and provide a memo from their advisor detailing the hours from the previous major which do not apply to the current major. All hours not applicable to the new major will then be...
Withdrawals
During each undergraduate or graduate career, a student receiving aid may completely withdraw ONE SEMESTER ONLY or receive all grades of “F” and return the next semester to receive all entitled financial aid. Upon withdrawing any additional semesters or receiving all grades of “F” while on financial aid, the student will not receive aid for their next period of enrollment. The next period of enrollment hours must be equivalent to the number of hours enrolled during the withdrawal semester. (Example: If a student withdraws a second time while enrolled in 12 hours, the student would have to pay for 12 hours before becoming eligible to receive financial aid).

Federal regulations require a calculation to determine how much aid, if any, must be returned to the Federal program when a student withdraws or receives all grades of “F”. Students who must repay funds will be notified within 45 days of the amount by the Financial Aid Office.

Application for Federal Student Aid
General - Students use the Free Application for Federal Student Aid and list Tech as one of the schools to receive information. With the exception of Unsubsidized, Additional Unsubsidized Federal Stafford and PLUS loans, students must be financially eligible to receive funds from Federal financial aid programs.

Deadline - To receive equal consideration, a student must have a complete application on file by April 15. All remaining funds will be awarded on a first-come, first-serve basis until depleted. Note: All requested information must be returned to the Financial Aid Office by July 15 to ensure aid availability at the beginning of the fall semester.

Federal Pell Grant
The Federal Pell Grant provides direct grants from the government to the undergraduate student for educational expenses. Since this is a grant program, the student does not have to repay the amounts received, unless the semester for which a grant is received is not completed.

Under current guidelines, only students who have never received a bachelor’s degree are eligible for the Pell Grant. The university does not determine whether a student is financially eligible. The amount of the grant given to an individual student is based on a schedule provided to the university by the government. No eligible student will be denied a grant.

Federal Academic Competitiveness Grant
The Federal Academic Competitiveness Grant provides up to $750 per year to freshman students and up to $1,300 per year to sophomore students who are also Federal Pell Grant eligible, are enrolled full time and have completed a rigorous academic program while in high school. Sophomore students must have completed a minimum of thirty hours with a 3.0 cumulative grade point average to be eligible. Students may receive this grant one time for each class level.

Federal SMART Grants
The Federal Science & Mathematics Access to Retain Talent (SMART) Grant provides up to $4,000 per year to full-time junior (60-89 earned hours) and senior (90-120 earned hours) students who are Federal Pell Grant eligible, have a 3.0 cumulative grade point average and are majoring in Computer Science, Information Systems, Information Technology, Electrical Engineering, Engineering Physics, Mechanical Engineering, Biology, Mathematics, Physical Science, Chemistry or Geology. Students may receive this grant one time for each class level.

Federal Supplementation Educational Opportunity Grant Program
The purpose of the Supplemental Educational Opportunity Grant Program is to provide additional funds to qualified students of exceptional need. Each grant is awarded according to federal guidelines.

Student Employment
The University uses student employees when practicable, but students are not encouraged to work to an extent which would hinder their scholastic program. Employment assignments are made under both the Federal College Work-Study Program and the institutional Non-Work-Study Program. To be eligible for student employment, the student must be enrolled at least half-time, successfully pass minimum load requirements, satisfy grade point requirements, maintain satisfactory employer-employee relations and have conduct and personal appearance that reflect credit to the student and the University.

Federal Perkins Loans
Under the program students may borrow up to $27,500 for undergraduate students and $40,000 for graduate students. Annual loan limits are $5,500 for undergraduates and $8,000 for graduates.

The repayment period and the interest do not begin until six months after the student completes studies. The loan bears interest at the rate of five percent per year and repayment of principal may be extended over a ten-year period. The University approves and makes the loans and is responsible for collections. Repayment is deferred for as long as a borrower is enrolled at an institution of higher education and is carrying at least a half-time academic load. Under certain conditions, a part or all of the loan may be canceled if the student enters the teaching profession.
Federal regulations require a delayed disbursement of thirty days for all first-year, first-time undergraduate student borrowers in any Federal Direct Loan program. Additionally, all student borrowers must be enrolled in a minimum of six hours.

Federal Direct Subsidized Loans

The Federal Direct program authorizes loans up to $3,500 per year for first-year undergraduate students, $4,500 for second-year undergraduate students, and $5,500 per year for undergraduate students who have completed two years of undergraduate work. Graduate students may borrow up to $8,500 for a school year. The maximum an undergraduate student may borrow is $23,000 which is included in the $65,500 maximum for graduate students. Under this program a student must financially qualify for the loan. The loan has an interest rate of 4.5 percent through June 30, 2011. The rate will drop to 3.4 percent for the period of July 1, 2011 through June 30, 2012.

Repayment of principal and interest ordinarily begins six months after the student leaves school or ceases to be at least a halftime student. The amount of the monthly payments will be based on the total amount borrowed.

Unsubsidized Federal Direct Loans

The Federal Direct Unsubsidized Stafford Loan has the same loan limits and deferments as the Direct Subsidized Loan. However, the student does not have to be financially eligible for the loan and must either pay the interest while in school or have it capitalized for repayment with the loan principal. The total borrowed in Subsidized and Unsubsidized Direct Loans may not exceed the student’s yearly maximum as shown above. The loan has an interest rate of 6.8 percent.

Direct Federal PLUS Loans

Parents of students may borrow annually the amount of the student’s cost of education minus other aid for each child who is enrolled at least half time and is a dependent undergraduate student. PLUS is limited to parents who do not have an adverse credit history, and late payments on outstanding obligations are not to be considered as having adverse credit history. The interest rate is 7.9 percent, with the borrower beginning payment within sixty days of loan disbursement. Graduate students may also borrow under the PLUS loan program. They have to meet the same credit history requirements, must apply for Federal financial aid and may borrow up to the cost of attendance less other financial aid. As with the Parent PLUS, the interest rate is 7.9 percent.

Additional Federal Direct Unsubsidized Loan

Dependent students may borrow $2,000 per year for four years. Independent students may borrow up to $6,000 per year for the first two years of undergraduate study and $7,000 per year thereafter with an undergraduate maximum of $34,500. Graduate students may borrow up to $12,000 per year with a combined undergraduate and graduate total of $73,000. Borrowers do not have to show need but do have to apply for financial aid. The interest rate is 6.8 percent. Students are responsible for paying the interest that accrues on the loan from the time the loan is disbursed until it is paid in full but have the option to defer interest payments while in school and have the interest added to the amount borrowed.

Mr. Tommy Memorial Student Loan Fund

Arkansas Tech has a special loan fund known as the "Mr. Tommy Memorial Student Loan Fund." This fund was established by Arkansas Tech alumni as a memorial to the late E.S. Tomlinson, for many years head of the biology department. Supplementing lesser contributions by hundreds of former students is the Margaret McFadden Lykes, Jr., contribution. Loans from this fund are limited in amount and intended primarily for emergency aid to students. One semester of successful residence is required of all students applying for these loans. Information relative to this fund may be obtained from the Student Services Office.

Dr. James I. Balch Student Loan Fund

An interest-free loan to be repaid in installments of twenty percent, forty percent, and forty percent at nine, eighteen, and thirty-six month intervals. A student must be a junior or senior with a 3.0 cumulative grade point average, must demonstrate financial need, and must file a separate loan application which is available through the office of the Associate Vice President for Administration and Finance.

Arkansas Department of Higher Education Programs

The programs listed below are awarded and administered by the Arkansas Department of Higher Education. Further information may be obtained by writing to: Arkansas Department of Higher Education, 114 East Capitol, Little Rock, AR 72201, or by calling (479) 371-2000, or 1-800-547-8839 or at [www.adhe.edu](http://www.adhe.edu). The application for all programs is available on-line.

Higher Education Opportunities Grant (GO! Opportunities Grant)

The GO! Grant provides $1000 grants to full-time and $500 grants to part-time students based on financial need. Students must be an Arkansas resident for at least 12 months prior to applying for the grant. Students also must meet the financial need criteria established for the GO! Grant and attend an approved Arkansas Institution. Applicants must complete the Free Application for Student Aid (FAFSA). Application deadlines are June 1 and November 1.

Due to additional funding made possible by the Arkansas Scholarship Lottery, the Arkansas Academic Challenge Scholarship has been expanded to provide opportunities for higher education to previously unserved Arkansans (traditional & non-traditional students). The scholarship will be available to high school seniors and non-traditional students who are Arkansas residents. High school students are eligible if they have completed the Smart Core Curriculum with an overall grade point average of at least 2.5 or have an ACT composite score of at least 19. Non-traditional students who graduated from an Arkansas public high school must have
Arkansas Academic Challenge Scholarship Program

A high school grade point average of at least 2.5 and have an ACT composite score of at least 19 or have completed at least twelve college semester hours with a college grade point average of at least 2.5. There are no income restrictions but students still must complete the Free Application for Federal Student Aid. The application deadlines are June 1 and November 1. The scholarship award amount will be determined annually in early Spring.

The Workforce Improvement Grant

A need based grant for non-traditional students who are at least 24 years old. The program’s goal is to help those students returning to school who have financial need but might not be eligible for assistance from traditional state and federal programs. The annual award is a maximum of $2,000 for a student enrolled full time (12 semester hours), but may be less in order to prevent an overaward as defined by Federal regulations. Students enrolled part time will have their grants prorated based on the number of hours enrolled. Because the grants are not renewable, students must apply each year. To apply, fill out the FAFSA by July 1 of each year.

The State Teacher Education Program (STEP)

The State Teacher Education Program (STEP) provides Federal student loan repayment grants of up to $7,000 to Arkansas residents who earned a teaching degree after 4/1/2004, are teaching in a public school in a geographical and/or subject shortage area or who are minorities. Application deadline is June 1.

Governor's Scholars Program

The Governor’s Scholars Program provides $4,000 merit grants each year to seventy-five of Arkansas’ academically superior high school graduates in order to assist them in their undergraduate studies at approved colleges or universities in Arkansas. The scholarship is renewable for up to three additional years provided the student meets the continuing eligibility standards. Application deadline is February 1 of high school graduation year.

Governor’s Distinguished Scholars

The Governor’s Distinguished Scholars Program provides a tuition, mandatory fees, and room and board not to exceed $10,000 per year to students who achieve 32 or above on the ACT or 1410 on the SAT or are a National Merit Finalist attending an approved Arkansas public or private college or university. The scholarship is renewable for up to three additional years provided the student meets the continuing eligibility standards. Application deadline is February 1 of high school graduation year.

Law Enforcement Officer's Dependents Scholarship

The Law Enforcement Officers’ Dependents Scholarship (LEO) provides a waiver of tuition, fees, and room at any public college, university, or technical institute in Arkansas for dependents and spouses of Arkansas law enforcement officers, some Highway and Transportation Department employees, and other public employees, who were killed or permanently disabled in the line of duty. Application deadlines are June 1 and November 1.

Military Dependent's Scholarship

The Military Dependent’s Scholarship Program provides a waiver of tuition, fees, and on-campus room and board to full-time students at any public college, university, or technical institute in Arkansas for dependents and spouses of Arkansans who were killed or missing in action or who were prisoners of war or who are totally and permanently disabled. All applicants must also apply for and show acceptance or denial of the Federal dependent's Educational Assistance Program. Application deadlines are June 1 and November 1.

Teacher Opportunity Program (TOP)

The TOP program offers reimbursement grants to cover tuition and fees for up to six hours per fiscal year to current Arkansas teachers seeking to further their education.

Arkansas National Guard Tuition Incentive Program (G-TIP)

The Arkansas National Guard Tuition Incentive Program (G-TIP) provides up to $5,000 per year to Arkansas residents who are active members of the Arkansas Army/Air National Guard. Applications may be obtained from the unit commander or online at http://www.arguard.org/Education/tas.asp

Other Sources of Assistance

Military Activation

Students who cease attendance at Arkansas Tech University without completing and receiving a grade in one or more courses due to military activation or deployment may receive compensation for the resulting monetary loss as provided by Act 85 of 2005. Please contact the Registrar’s Office for information.
Arkansas National Guard

Act 82 of 2005 provides a tuition and waiver assistance program for soldiers and airmen of the Arkansas National Guard. Members of the Arkansas National Guard should contact the Student Accounts Office for information.

Over 60 Tuition Waiver

Students who are sixty or older on the first day of class may have tuition and fees waived upon completion of certification of eligibility. Students must notify the Financial Aid Office each semester of the number of enrolled hours which need to be waived. Applications are available in the Financial Aid Office.

Workforce Investment Act

The Workforce Investment Act is a federal program which provides financial assistance to individuals in need. The program’s primary targets are individuals with barriers to employment and dislocated workers. Candidates who meet eligibility requirements will receive tuition and book scholarships for two years to complete an associate degree at Arkansas Tech University. WIA is an equal opportunity employer/program. Auxiliary aids and services are available upon request to individuals with disabilities. Requests for information about eligibility may be made through the WIA office, 104 S. Rochester, Russellville, AR 72801; telephone 968-4919; TDD/ARS: 1-800-285-1131.

Vocational Rehabilitation Assistance

Persons who have substantial handicap to employment as a result of a permanent disability may receive, at no cost to themselves, vocational counseling and some financial assistance toward the cost of their college training when the vocational objective of the disabled person is approved by the Vocational Rehabilitation Counselor. These services are available through the Division of Rehabilitation Services, 1401 Brookwood Drive, Little Rock, Arkansas 72203. Application for assistance or request for information about the program may be made to that address or to a local rehabilitation counselor.

Veterans Benefits

Arkansas Tech University is approved by the State Approving Agency for Veterans as a school (college, university, etc.) whereby veterans and dependents of deceased or disabled veterans may obtain subsistence while working toward a degree. Eligible students should contact the Office of the Registrar to obtain information regarding school attendance under the following program: Title 38, Chapter 30, Montgomery GI Bill for Veterans; Title 38, Chapter 32, Veterans Educational Assistance Program (VEAP); Title 38, Chapter 35, Survivors and Dependents Education; Title 10, Chapter 1606, Montgomery GI Bill for Selective Reserves; and Title 10, Chapter 1607, Reserve Educational Assistance Program.

All students must be working toward a degree and should follow the curriculum outline for their objectives, since only specific courses may be applied toward VA certification and graduation. Veterans may be given placement credit for prior military training. The Office of the Registrar is available to assist students concerning VA benefits. The Office of the Registrar is located in the Doc Bryan Student Services Center, Office 153.

Enrollment certification will not be sent to the Department of Veteran’s Affairs until transcripts are on file and the person applying for veteran’s benefits has been admitted to the University.

Activities and Organizations

Arkansas Tech University is exceptionally rich in the number of activities and organizations offered to its students. There are few members of the student body who do not take part in one or more of these activities.

Activities, except the all-university events sponsored by the Student Activities Board and Intramural & Recreational Sports, revolve around a large number of active student organizations which link together students with kindred tastes and interests.

The purpose and operation of the student organizations may be found in the current Arkansas Tech University Student Handbook.

All students must give prompt attention to communications from faculty and staff members of the University. Most communications will be sent through the United States mail or to your official Tech e-mail address.

**Academic Dishonesty**

In addition to taking reasonable steps to discourage cheating, the faculty must accept a responsibility to clarify and interpret for the students matters of dishonesty, such as cheating or plagiarism.

If an occurrence of academic dishonesty is detected, the instructor should refer to the "Student Academic Conduct Policies" outlined in both the Student Handbook and the Faculty Handbook for the appropriate procedures. The policies also outline procedures to appeal a charge of academic dishonesty if the student feels the charge was inappropriate.

**Academic Misconduct**

The faculty must also accept a responsibility to clarify and interpret for the students matters of academic misconduct which concerns the student’s classroom behavior. For example, students may disrupt the learning environment in a classroom through inappropriate behavior, such as, talking to students, unnecessary interruptions, attempting to monopolize the professor’s attention, or being chronically late to class. Misconduct also covers verbal or nonverbal harassment and/or threats in relation to classes. Student behavior should not infringe on the rights of other students or faculty during a class.

If an occurrence of academic misconduct is detected, the instructor should refer to "Student Academic Conduct Policies" outlined in both the Student Handbook and the Faculty Handbook for the appropriate procedures. The policies also outline procedures to appeal a charge of academic misconduct if the student feels the charge was inappropriate.

Involvement in such activities as conspiracy or breaking and entering is to be reported to the Vice President for Student Services for appropriate action through regular University disciplinary channels.

**Academic Probation**

Students will be placed on academic probation whenever their semester grade point falls below 2.00 unless the cumulative grade point is 2.00 or higher. These criteria also apply to entering transfer students. Removal of probation will be accomplished by raising the cumulative grade point to 2.00 or higher.

Freshmen students who in a probationary semester fail to remove themselves will continue on probation for the following semester. Sophomore, junior, and senior students who in a probationary semester fail to remove themselves but achieve a 1.75 semester grade point will continue on probation for the following semester unless the academic suspension policy applies.

**Academic Suspension**

Suspension will be automatic for sophomore, junior and senior students who in a probationary semester fail to achieve a 1.75 semester grade point; or who fail to remove themselves from probation within three successive full semesters. Students may combine summer term grades at Arkansas Tech with those of the spring semester immediately preceding in order to establish eligibility for retention in college.

Suspension means that the student will not be allowed to attend Arkansas Tech the succeeding regular semester; after one regular semester the student may be eligible for readmission on academic probation. Students receiving a second academic suspension will be eligible to seek readmission one year from the date of suspension. Students who believe there are extenuating circumstances which would justify earlier readmission must contact the Registrar’s Office for assistance in arranging an appeal hearing with the appropriate college dean. Students who meet the semester/year stipulation must file a request for readmission with the Registrar’s Office.

Students on academic suspension who wish to transfer to Arkansas Tech must meet the eligibility standards for readmission to the last college/university attended before being considered for admission to Tech.

**Adding/Dropping Courses**

The deadline for adding courses or changing courses or sections is given in the University calendar; thereafter, changing to audit or dropping a course are the only changes permissible. Courses officially dropped after the 11th class day and through the thirteenth week of a fall or spring semester will be recorded as “W.” Students may add, drop, or change sections of courses only by following the official procedure which requires that they obtain and return the necessary forms to the Registrar’s Office after obtaining the formal approval of their academic advisor. Failure to complete this procedure can result in a grade of “F” being entered on the student’s record. A fee of $10 will be charged except for changes made for the convenience of the University. Please note: A student accumulating an excessive number of absences in a course may be dropped from the course by the instructor with a grade of “FE.”

**Auditing Courses**

Auditing of courses requires official admission to the University, approval by the instructor involved, and payment of the regular fee for the course. Audit will be on a “space available” basis. Students auditing courses are subjected to the same regulations as other students with regard to registration and attendance, but they do not take examinations nor receive credit for the course. A student
Class Absence

Regular class attendance is considered essential if students are to receive maximum benefit from any course. Control of class attendance is vested in the teacher, who has the responsibility of defining early in each course his/her standards and procedures. A student accumulating an excessive number of unjustifiable absences in a course may be dropped from the course by the instructor with a grade of "FE." A student who is dropped from three courses in a semester for unsatisfactory class attendance may be immediately suspended.

Class Load Policy

A student can expect to spend 2-3 hours outside the class (for studying, homework, preparation, etc.) for each hour in the class. This means that a student can expect to spend 24-36 hours in studying for a 12 semester credit hour load. It is therefore recommended that a full-time student enroll in no more than 18 hours per semester (7 hours per summer session). Students working full-time are encouraged to take no more than 12 hours per semester. Students readmitted after academic suspension cannot take more than 12 hours per semester (3 hours per summer session). Students on academic probation must obtain approval from their advisor to enroll in more than 15 hours per semester.

These totals include all courses for which students may enroll. Permission to take course loads above these maximums must be obtained in advance of registration from the dean of the college of the student’s major.

Course Overload

Students who enroll above the maximum loads without securing permission from the dean will be dropped from their classes. To be considered for a course overload, the student must submit a petition to the dean and should meet the following criteria:

1. Have a 3.25 minimum grade point average in the preceding two summer sessions (minimum: 12 semester hours) or in the preceding fall or spring semester (minimum: 12 semester hours) at the university, or
2. Be in good academic standing in the college if in the last semester before graduation.

The maximum overload permitted in any college by an approved petition is a load totaling 24 hours for a fall or spring semester, nine hours in summer session I or II, and 15 hours for any combination of summer enrollments. Overloads over 21 hours will be subject to review by the Office of Academic Affairs.

Class Standing

Students with fewer than 30 semester hours are classified as freshmen, students with 30 through 59 semester hours as sophomores, students with 60 through 89 hours as juniors, and students with at least 90 hours as seniors.

Clemency

In accordance with Act 1000 of 1991, a student who has not attended Arkansas Tech University for a period of at least three years may apply to have the grades and credits for one or more consecutive terms or semesters earned prior to the three year separation removed from his/her grade point average. Any undergraduate student who has previously attended Arkansas Tech University may qualify to request academic clemency providing the following criteria are met.

After re-entering Tech following a separation of at least three years, a student may request academic clemency at the Office of the Registrar for approval by the Vice President for Academic Affairs. The student must specify the term or consecutive terms for which academic clemency is desired. Any petition for academic clemency must be requested and granted prior to the beginning of the second semester of enrollment after returning to Tech. Academic clemency may be granted only one time and is irreversible. If the request is approved, Academic Clemency will cover all credits earned during the term or terms for which academic clemency is requested. The student’s complete record will remain on the transcript with the added notation of "academic clemency granted" and the effective date.

For purposes of degree requirements, a student who received academic clemency must follow the provisions of the catalog in effect at the time of re-enrollment.

Academic clemency does not restore eligibility for student financial aid, scholarships or athletic eligibility.

Conduct

Arkansas Tech University expects its students to obey all the policies of the university and all federal, state and local laws. Each student, as a member of the Tech community, assumes an obligation to obey all rules and regulations made by properly constituted authorities. Failure to comply can result in disciplinary actions which may include disciplinary probation, suspension for a stated period of time, or expulsion which is permanent forced withdrawal. Conduct for which a student is subject to disciplinary action is published in the Student Handbook available in the Office of Student Services and in other official publications of Tech.

Dean’s List

Undergraduate students whose grade point at the end of each semester is 3.50 or better, based on a minimum of 12 semester hours of work, will be placed on the Dean’s list for outstanding scholarship. Recognition will be accorded these students through appropriate news media.

The Family Educational Rights and Privacy Act (FERPA) affords student's certain rights with respect to their education records. They are:
### Repeated Courses

Students may repeat courses they have taken at Arkansas Tech University for the purpose of grade point adjustments (1) only by re-enrolling in the same courses at Arkansas Tech University and (2) subject to the following provisions. For repeated 1000- and 2000-level courses, only the grade from the last attempt of the repeated course is calculated into a student's cumulative grade point, although all grades and all attempts are recorded on the student's academic record. For repeated 3000- and 4000-level courses, all grades for repeated courses are calculated into the student's cumulative grade point and all attempts of the repeated course are addressed.

### Grading

Final grades are reported to the Registrar’s Office at the end of the semester. Midterm grades are reported for freshmen only. A final grade of “I” may be recorded for a student who has not completed all the requirements of a course only in situations where the student has an illness or other circumstances beyond the student’s control, and has completed seventy-five percent of the course requirements provided work already completed is of passing quality. If a grade of “I” is assigned, the instructor will set a reasonable time limit within the following semester in which the work must be completed. Beginning the first summer term, 1990, and thereafter, a grade of “I” will not be computed in the grade point average for the semester recorded; however, the “I” will be automatically changed to a grade of “F” for grade and grade point purposes at the end of the next regular semester (fall or spring) unless course requirements are completed and the final grade is reported before the end of the semester. A grade of “I” recorded prior to the first summer term, 1990, will be computed as an “F” for grade point purposes.

No grade other than “I” may be changed after it is recorded except if an instructor finds that a grade has been erroneously recorded. The instructor may correct the grade by submitting a written request and explanation of the error to the Vice President for Academic Affairs. If a grade of “I” is assigned, the instructor will set a reasonable time limit within the following semester in which the work must be completed. Beginning the first summer term, 1990, and thereafter, a grade of “I” will not be computed in the grade point average for the semester recorded; however, the “I” will be automatically changed to a grade of “F” for grade and grade point purposes at the end of the next regular semester (fall or spring) unless course requirements are completed and the final grade is reported before the end of the semester. A grade of “I” recorded prior to the first summer term, 1990, will be computed as an “F” for grade point purposes.

### Graduation

Please refer to the section entitled “Graduation Requirements” for information pertaining to degree audit, application for graduation, payment of graduation fees, and other graduation requirements.

### Late Registration

For registration during the period stated in the University Calendar as late registration, a fee of $25 is charged.

### Family Educational Rights and Privacy Act

1. The right to inspect and review the student’s education records within 45 days of the day the University receives a request for access. Students should submit to the Registrar, dean, head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The University official will make arrangements for access and notify the students of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request that the student’s education records that the student believes are inaccurate or misleading be amended.

   Students may ask the University to amend a record that they believe is inaccurate or misleading. They should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading.

   If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

   One exception which permits disclosures without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel and health staff), a person or company with whom the University has contracted (such as an attorney, auditor, collection agent, or internship agreement); a person serving on the Board of Trustee; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Arkansas Tech University to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

   Family Compliance Office
   U.S. Department of Education
   600 Independence Avenue, SW
   Washington, D.C. 20202-4605

   “Directory information” at Arkansas Tech University consists of the student’s name, address, telephone listing, electronic mail address, dates of attendance, major field of study, enrollment status (e.g. undergraduate or graduate), participation in officially recognized activities and sports, weight and height of members of athletic teams, degrees, honors and awards received, and the most recent educational agency or institution attended.

   This information may be made available upon request to members of the general public. If a student on the Russellville campus wishes for this information to be regarded as confidential, according to the provisions of the Family Educational Rights and Privacy Act of 1974, she/he should notify the Vice President for Students Services at (479) 968-0238.

   If a student on the Ozark campus wishes for this information to be regarded as confidential, according to the provisions of the Family Educational Rights and Privacy Act of 1974, she/he should notify the Chief Student Officer at (479) 508-3310.

   Examples of dates of attendance include an academic year, a spring semester, or a first quarter. The term does not include specific dates of attendance for a student’s attendance at an educational agency or institution.

### Graduation Requirements

Please refer to the section entitled “Graduation Requirements” for information pertaining to degree audit, application for graduation, payment of graduation fees, and other graduation requirements.

### Graduation Requirements

Please refer to the section entitled “Graduation Requirements” for information pertaining to degree audit, application for graduation, payment of graduation fees, and other graduation requirements.

### Graduation Requirements

Please refer to the section entitled “Graduation Requirements” for information pertaining to degree audit, application for graduation, payment of graduation fees, and other graduation requirements.

recorded on the student's academic record. Adjustments to cumulative grade points are not made for courses transferred from other colleges or universities.

Student Records

Student academic records are maintained in the Office of the Registrar. Unofficial copies of academic records are available for guidance purposes to students and their advisors. All student records are maintained in compliance with the standards and guidelines of The Family Educational Rights and Privacy Act of 1974, Federal Law 93-380.

Traffic Regulations

By authority of the Board of Trustees and in accordance with Legislative Act 328, 1967, Arkansas Tech University requires all members of the faculty, staff, student body and classified personnel to register motor vehicles which they own or operate on the Tech campus or on lands controlled by the University. All registrants shall abide by all traffic and parking regulations as outlined by a printed pamphlet available in the Doc Bryan Student Services Building or at the Department of Public Safety office.

Registration of vehicles shall be accomplished at the time of regular registration for the fall, spring or summer semesters at the Department of Public Safety located at 1511 North Boulder. All faculty, staff and students must present a current Tech ID card before a permit will be issued. All vehicles on Tech campus are required to register and display a current parking permit. Parameters for the operation and parking of motor vehicles may be viewed on the campus map available at the Department of Public Safety. Vehicles are defined as any self-propelled vehicle having two or more wheels.

Permits are valid from August 15th one year through August 15th of the next year. After securing a permit at the Department of Public Safety, charges are assessed to the student’s account at the Office of Student Accounts. Faculty and staff are required to prepay and bring their receipt along with their ID when picking up their permit. Permits must be displayed by hanging in the rearview mirror so the number can be read from the outside; they may not be taped on the vehicle or laid on the dash or seat. These permits can be moved from vehicle to vehicle. Permits are the responsibility of the purchaser and must be removed prior to sale or transfer of the vehicle, upon termination of employment or withdrawal from the university. Only one permit per individual can be purchased unless the prior permit was lost or stolen. The reported lost or stolen permit will be invalid. There is no refund for permit cost. The registration fee, penalties and fines are published in the ATU parking map.

Temporary permits are available at the Department of Public Safety for faculty, staff and students who have misplaced their permits. These permits are provided at no cost and are valid for a maximum of seven days.

Withdrawals

A student who wishes to withdraw from school during a semester is required to follow the official withdrawal procedure which requires reporting to the Office of the Registrar. Students who withdraw without following this required procedure will have their grades recorded as “F.” If a student withdraws officially, the procedure for recording grades is identical with that for dropping an individual course, as described in this section under the heading “Adding/Dropping Courses.” If a student withdraws from school during the final two weeks of a semester, the Vice President for Academic Affairs may waive the requirement that grades of “F” be recorded if the circumstances forcing a withdrawal justify special consideration.

University Policy

While every effort will be made to conform to catalog announcements, the University reserves the right to adapt its program as may be necessary.

Graduation Requirements

Major fields of study leading to a bachelor degree are offered in accounting, agriculture business, art, art education, biology, business education, chemistry, computer science, creative writing, creative writing education, early childhood education, economics and finance, electrical engineering, emergency management, engineering physics, english, english education, fisheries and wildlife biology, foreign language, foreign language education, general studies, geology, health and physical education, health information management, history, hospitality administration, information systems, international studies, journalism, life and earth science education, management and marketing, mathematics, mathematics education, mechanical engineering, medical technology, middle level education, music, music education, nursing, physical science, physical and earth science education, political science, professional studies, psychology, recreation and park administration, rehabilitation science, social studies education, sociology, speech, and speech education.

Associate degrees are offered in criminal justice, early childhood education, general studies, information technology, medical assistant and science, social studies education, sociology, speech, and speech education.

Students have a choice of the catalog under which they may complete graduation requirements. Non-transfer students must choose to complete requirements for graduation under the provisions of the Arkansas Tech University catalog in force at the time they enter Tech or in any subsequent Arkansas Tech catalog provided they were enrolled at the University during the year the catalog was in effect. Transfer students must choose to complete graduation requirements under the provisions of the Arkansas Tech catalog in force at the time they first enrolled in any college or any subsequent Arkansas Tech catalog, provided the Tech catalog was not over four years old at the time they entered Arkansas Tech, and they were enrolled in college either at Tech or elsewhere during the year in which the catalog was in effect. The catalog a student selects to use to complete degree requirements may require departmental approval and approval of the Registrar’s Office if significant curriculum changes have occurred. For effective use of the results of its constant reexamination of student needs and as a means for improving its total educational program, the University reserves the right to make effective immediately any change in graduation requirements for students whose studies have not advanced beyond the level at which the change becomes operative.

**Degree Audit and Application for Graduation**
Candidates for graduation must complete a degree audit and an application for graduation. Seniors completing graduation requirements at the end of the fall semester must submit to the Registrar’s Office an application for graduation and complete a degree audit in consultation with their advisor on or before the end of the eighth week of the previous fall semester. Seniors completing graduation requirements at the end of the spring semester or either of the following summer sessions must submit an application for graduation and complete a degree audit in consultation with their advisor on or before the end of the eighth week of the previous spring semester.

Students who file an application for graduation but fail to complete all graduation requirements as planned must submit a new degree audit and new application for graduation.

**Degree Audit Processing Fee**
A processing fee, payable at the Student Accounts Office, is assessed when the application for graduation is approved. If the student fails to complete all graduation requirements, an additional processing fee will be assessed for the next semester or term in which graduation is planned.

**Financial Obligation**
Before any transcript is issued, the student must have paid any debt owed the University.

**Graduation Honors**
The bachelor’s degree with honors will be conferred upon candidates who at graduation have earned a minimum grade point average on all courses taken at Arkansas Tech as follows: Summa Cum Laude-3.900 - 4.000, Magna Cum Laude-3.700 - 3.899, Cum Laude-3.500 - 3.699. Graduation honors will be determined by work taken at Arkansas Tech only. The associate degree with honors will be conferred upon candidates subject to the grade point average criteria listed above. This policy is effective to new students enrolling in the first summer term, 2000, and subsequent terms. Previously enrolled students should contact the Office of the Registrar for clarification of the policy.

**Commencement Participation**
Students must complete all degree requirements prior to participating in the December, May, or August commencement ceremonies. Students completing all degree requirements in the fall semester will participate in the December commencement ceremony; spring semester will participate in the May commencement ceremony; and summer terms will participate in the commencement ceremony held in August. Students will not participate in the commencement ceremony if all degree requirements are not completed prior to the ceremony. Students not completing all requirements will participate in the next scheduled commencement ceremony providing all degree requirements are met. Students taking courses at other institutions must have official transcripts submitted to the Registrar’s Office and have completed all degree requirements prior to the commencement ceremony to be allowed to participate.

Participation in commencement is expected of all candidates for degrees. Students who are unable to participate may officially petition the Vice President for Academic Affairs in writing for permission to have the degree awarded in absentia.

Students who do not have a minimum grade point of 2.00 in the major and overall will not be eligible to participate in the commencement ceremony. Academic regalia shall be worn by the student during the graduation ceremony (see University Bookstore). The academic regalia will consist only of the cap and gown. No decorations, writings, necklaces, braids, pins, cords, medallions or other items other than the Arkansas Tech University Honors cord and medallion shall be worn or placed on the academic regalia.

http://www.atu.edu/academics/catalog/graduation-requirements.html 3/29/2010
The requirements for the associate degree in medical assistant are outlined under the statements of the College of Natural and Health Sciences; requirements for the associate degrees in information technology and nuclear technology are outlined under the statements of the College of Applied Sciences; and requirements for the associate degree in early childhood education is outlined under the statements of the College of Professional Studies and Community Outreach. The requirements for the associate degree in
Requirements for Associate Degrees

A. Residence
1. The last 30 semester hours of work toward a degree must be done in residence.
2. No more than a total of 30 semester hours of correspondence, extension, military service, or credit by examination work may be applied as credit towards a degree.

B. Hours of Credit and Grades
1. Refer to major field of study for semester hour requirements.
2. The cumulative grade point average must not be less than 2.00 and not more than 25 percent of the semester hours may carry the “D” grade. Students must have a 2.00 grade point in their major.
3. At least 20 semester hours of course work above the 1000 level are required for the degree of Associate of Arts in General Studies.
4. No more than four semester hours of activity credit (basic military science and those courses that may be used to meet the General Education activity requirement) may be counted toward graduation. The only exception is that a student may have the standard allowance of military credit (three hours of military science and three hours of PE credit) and four other hours of activity credit for a total of ten semester hours. A student registering for an activities course in excess of these limits receives no credit for the additional course and the grade is not included in the computation of grade point.
5. Only six hours of freshman English composition may be used to satisfy degree requirements.
6. Complete all assessment activities required by the University.
7. An official record of any correspondence or transfer work completed at another institution must be on file in the Registrar’s Office prior to the end of the semester or term in which graduation is planned.

Requirements for Additional Degrees

Baccalaureate Degrees
To complete an additional baccalaureate degree, the following must be completed: (a) a minimum of 30 semester hours (18 of which must be upper division) at Arkansas Tech in addition to the hours earned for the first degree, (b) all University catalog requirements for the major field of study with the exception of the university-wide general education requirements, (c) applicable requirements specified under “Requirements for Baccalaureate Degrees”. Students pursuing a second baccalaureate degree must use the Arkansas Tech University catalog in effect at the time they first enroll subsequent to receiving the first degree or any subsequent Tech catalog provided they were enrolled at the University during the year the catalog was in effect.

Associate Degrees
To complete an additional associate degree, whether the first degree is a bachelor or associate, the following must be completed: (a) a minimum of 30 semester hours at Arkansas Tech in addition to the hours for the first degree, (b) all University catalog requirements for the major field of study, (c) applicable requirements specified under “Requirements for Associate Degrees”.

Assessment Program
Arkansas Tech University began systematically assessing student learning in 1994 with the creation of two university-wide assessment plans. The first focused upon General Education and implemented guidelines of the State Board of Higher Education as required by legislative Act 874 of 1993. The second plan related to all academic programs and support offices in response to new initiatives of the Higher Learning Commission of the North Central Association of Colleges and Schools.

The University’s initial efforts to assess General Education began in 1995 with the administration of tests to eligible students. While useful information was gleaned from such tests, university faculty devised a more comprehensive assessment plan in 2007. The new plan included direct measurement of student learning in the Core Curriculum courses and tracking the impact of such learning in upper-division courses and programs.

Both departmental and university-wide measures are used to evaluate student progress toward program-related educational goals. The measures include best practices used throughout the United States and Canada and involve faculty, students, and staff. In addition to direct measurement of student learning in specific classes, capstone courses, and student internships, students may be asked to complete surveys or participate in focus groups, senior exit interviews, and other assessment activities designed to ensure continual improvement in quality of learning. A final key component of program assessment involves detailed monitoring of student scores on nationally standardized exams, licensure tests, and certification requirements.

Information specific to each academic major is available on every departmental website. Additional details about university assessment can be obtained by contacting the Coordinator of University Assessment or the Director of Institutional Research.

General Education Requirements
The general education curriculum is designed to provide a foundation for knowledge common to educated people and to develop the capacity for an individual to expand that knowledge over his or her lifetime. Students who have completed the general education curriculum at Arkansas Tech University will be able to:

Communicate effectively
Think critically
Develop ethical perspectives
Apply scientific and quantitative reasoning
Demonstrate knowledge of the arts and humanities
Understand wellness concepts

To accomplish the above goals, Arkansas Tech requires the completion of the following general education curriculum. Students should refer to the curriculum in their major area of study for specific courses either recommended or required by the academic department to fulfill the general education requirements.

**English - 6 hours**
(See Course Descriptions for minimum grade requirements)

Three hours from one of the following:

- ENGL 1013 Composition I
- ENGL 1043 Honors Composition I

Three additional hours from one of the following:

- ENGL 1023 Composition II
- ENGL 1053 Honors Composition II

**Mathematics - 3 hours**
(See Course Descriptions for minimum grade requirements)

Three hours from one of the following:

- MATH 1003 College Mathematics
- MATH 1113 College Algebra
- Any higher level mathematics course

**Science - 8 hours**

Complete two of the following, for a total of eight hours of science:

A. BIOL 1014* Introduction to Biological Science or any other biology course (BIOL) that includes a lab
B. PHSC 1013* Introduction to Physical Science and PHSC 1021* Physical Science Laboratory or any other physical science course (CHEM, GEOL, PHYS, PHSC) that includes a lab
C. BIOL/PHSC 1004* Principles of Environmental Science

*Note that the science courses marked above are designed to meet general education objectives and are recommended unless you meet the prerequisites for a more specialized science course identified by your major curriculum.

**Physical Activity - 2 hours**

Two hours from the following:

- Physical education activity courses
- Recreation (RP) coeducational activity courses
- Wellness science activity courses
- Theatrical dance activity
- Appropriate military science courses completed through cross-enrollment agreement with UCA.

**Fine Arts - 3 hours**

Three hours from one of the following:

- *ART 2123 Experiencing Art
- MUS 2003 Introduction to Music
- TH 2273 Introduction to Theatre
- *ENGL 2173 Introduction to Film
- *JOUR 2173 Introduction to Film

Art Majors:
Art Education Majors Take ART 2123
Fine Arts and Graphic Design majors take any of the above options except ART 2123

Music Majors:
Any of the above course options except MUS 2003

**Humanities - 3 hours**

Three hours from one of the following:

- *ENGL 2003 Introduction to World Literature
- ENGL 2013 Introduction to American Literature
- ENGL 2023 Honors World Literature
- PHIL 2003 Introduction to Philosophy
- PHIL 2043 Honors Introduction to Philosophy

**Social Sciences - 12 hours**

Three hours from one of the following:

- HIST 1903 Survey of American History
- POLS 2003 American Government

Nine additional hours from the following:
**Freshman Orientation**

Beginning fall, 2008, all entering freshmen are required to take an orientation course during their first semester of enrollment (fall or spring). A number of the academic majors have an orientation course designed specific to the major. Students whose declared major does not have an orientation course or who are undeclared will take CSP 1013, Principles of Collegiate Success, or TECH 1001, Orientation to the University.

All orientation courses are designed to introduce the beginning student to the Arkansas Tech University campus, its culture, and traditions, and will contain certain common topics. Important policies governing campus life will be explained, and campus resources will be identified. Topics covered in each course will answer many questions typical freshmen have, which will assist in the transition from a high school environment. Subject matter will include managing time, setting academic goals, exam preparation, study and note-taking skills, introduction to library resources, and choosing a major and career.

**State Minimum Core**

The courses that comprise Tech’s general education curriculum also constitute the University’s State Minimum Core, established in accordance with Act 98 of 1989, for implementation the fall semester of 1991. Act 98 requires colleges and universities to identify “a minimum core of courses which shall apply toward the general education core curriculum requirements for baccalaureate degrees at state supported institutions of higher education and which shall be fully transferable between state institutions.”

**Credit By Examination**

Information concerning the following tests may be obtained from the Arkansas Tech University Testing Center or from the appropriate department.

**IB (International Baccalaureate) Program**

High school students who participated in the International Baccalaureate (IB) Program may receive college credit by attaining Tech’s IB qualifying score. Credit earned through IB may satisfy general education requirements. Scores of 5, 6, or 7 on standard level exams will provide three units elective credit in the subject area and will satisfy Core Curriculum requirements, as appropriate to the subject area. Scores of 5, 6, or 7 on higher level exams will provide six units of elective credit in the subject area and will satisfy Core Curriculum requirements, as appropriate to the subject area. Advanced placement in major courses will be awarded in consultation with the Department Chair. Following are the IB examinations that Tech will accept, the corresponding qualifying score, and credit awarded:

**College Level Examination Program (CLEP)**

CLEP allows students to earn credit toward graduation by attaining Tech’s qualifying score on either the general and/or subject examinations. A student may acquire a maximum of 30 hours of college credit through CLEP. Credit earned through CLEP may satisfy general education requirements. No more than one subject examination may be taken in a particular departmental area, and students must have prior approval from the department in which they are majoring to count the hours toward graduation.

It is recommended that an ACT sub-score of 24 or above or an SAT sub-score of 500 or above be used as a guideline for attempting to earn credit through CLEP. Following are the CLEP examinations that Tech will accept, the corresponding qualifying score required, and credit awarded.

Institutional Credit

**Computer Science**
Students with previous computer experience may petition the Department of Computer and Information Science for credit for COMS 1003 Introduction to Computer Based Systems. Petitioners will be given written and/or oral examinations by a computer science faculty member.

**Engineering**
Students who complete the appropriate Project Lead the Way (PLTW) course(s) with an average of "B" or better and score 70% or higher on the corresponding PLTW college credit exam(s) may receive institutional credit for MCEG 1002, Engineering Graphics, and/or MCEG/ELEG 1012, Introduction to Engineering.

**Foreign Language**
Students with previous foreign language experience may petition the Department of Foreign Languages and International Studies for advanced placement and credit. Petitioners will be given written and/or oral examinations by a foreign language faculty member, who will then recommend an appropriate foreign language placement level. This placement level will not exceed FR 3013, GER 3013, GRK 2023, JPN 2024, LAT 2023, or SPAN 3013, and will be approved by the department head. Students who have omitted one or more courses in the basic language sequence will receive credit for omitted courses when they have validated their advanced placement by passing the course into which they are placed with a grade of "C" or better.

**Challenge Subject Examinations**
Students who have had extensive experience in health care and industrial settings may elect to attempt to earn credit through an institutional challenge examination in the following subjects or technical programs:
- AHS 2013 Medical Terminology
- HIM 3023 Introduction to Health Information Management
- HIM 3033 Basic Coding Principles
- HIM 3133 Alternative Health Records
- HIM 3132 Health Data and Statistics
- Lab-based courses in Industrial Plant Maintenance and Industrial Electronic Technology (Advisor recommendation required).

**Nursing Examinations**
Registered nurses, licensed practical nurses, and/or licensed psychiatric technician nurses seeking admission to Arkansas Tech University's nursing program may elect to demonstrate and validate previous collegiate-quality nursing education. This may be accomplished by successfully completing certain ACT-PEP, CLEP, and National League for Nursing examinations. See the "Department of Nursing".

**Internships**
Arkansas Tech University endorses the internship approach to learning and has adopted university-wide guidelines. This approach can help students understand the reality of certain careers and supplement academic instruction with practical, realistic implementation in a work environment. Academic credit can be earned for internships in several degree programs. Please see individual programs for availability of specific degree credit.
University Honors

The University Honors program at Arkansas Tech University is designed to provide an enriched intellectual experience for students of outstanding educational talents and leadership potential. At Arkansas Tech University, the honors student will benefit from opportunities to interact with other highly-motivated students and outstanding professors in the challenging atmosphere of small, innovative honors classes specially designed to foster rational enquiry, critical thinking, and analytical skills.

Application to University Honors should be made as early as possible during the senior year of the high school student. Honors students are selected through an application process which includes a written essay and a personal interview on our campus. To be eligible for University Honors, the high school student must have a minimum ACT Composite score of 28 and a cumulative grade point average of 3.5 or higher.

Students in the honors program take special General Education courses in their freshman and sophomore years. Sophomores participate in on-campus volunteer projects, followed by participation as peer mentors during the junior year. The senior year requires completion of the Senior Honors Project, as well as presentation of project results at an annual Senior Honors Symposium.

Students selected for the University Honors program receive excellent scholarships as well as such privileges as preferred preregistration, opportunities for individual directed study with Tech professors, and special recognition at commencement. The prescribed curriculum for the University Honors program is provided below.

Total Hours: 19 - 23
ACCT 2003
ACCOUNTING PRINC I
Each semester. Prerequisite: COMS 1003 or BUAD 2003. Fundamental process of accounting, books of original entry, preparation of working papers, adjusting entries, and financial statements for sole proprietorships. Accounting majors may not repeat this course to raise grade point in their major field after completing ACCT 3013.

ACCT 2013
ACCOUNTING PRINC II
Each semester. Prerequisite: ACCT 2003. Accounting processes applied to corporations and partnerships. Manufacturing cost, income tax, managerial reports, cash flow, and statement analysis. Accounting majors may not repeat this course to raise grade point in their major field after completing ACCT 3013.

ACCT 3003
INTERMEDIATE ACCT I
(Additional prerequisites for 3000- and 4000- level courses are listed in the College of Business section of this catalog.) Prerequisites: ACCT 2013; junior standing in College of Business. A comprehensive study of accounting theory governing preparation of financial statements with emphasis on conceptual framework, development of accounting standards, and the recording and reporting process. Cash, receivables, inventories, property, plant and equipment, intangible assets, and other selected topics.

ACCT 3013
INTERMEDIATE ACCT II
(Additional prerequisites for 3000- and 4000- level courses are listed in the College of Business section of this catalog.) Prerequisite: ACCT 3003. Continuation of ACCT 3003. Topics covered include current and long-term liabilities, contingencies, stockholders' equity, earnings per share, temporary and long- term investments, revenue recognition, accounting changes, cash flows, statement analysis, and disclosure in financial reporting.

ACCT 3023
ACCOUNTING INFO SYSTEMS
(Additional prerequisites for 3000- and 4000- level courses are listed in the College of Business section of this catalog.) Spring Semester. Prerequisites: MGMT 2013 and ACCT 3003. A study of accounting information processing, the systems concept, the analysis and design of accounting information systems, and database hardware and software technology as they apply to producing accounting information to be used in decision making.

ACCT 3043
FEDERAL TAXES I
(Additional prerequisites for 3000- and 4000- level courses are listed in the College of Business section of this catalog.) Prerequisite: ACCT 2013. A study of federal income tax laws and their relationship to other forms of taxation with primary emphasis on the determination of federal income tax liability and tax planning for individuals.
ACCT 3053  
**FEDERAL TAXES II**

(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) Prerequisite: ACCT 3043. A study of federal income tax laws with primary emphasis on the determination of federal income tax liability and tax planning for entities other than individuals.

ACCT 3063  
**MANAGERIAL ACCOUNTING**

(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) Prerequisite: ACCT 2013. A study of accounting principles, concepts and procedures as an aid to management for internal use in planning, controlling and decision making. Financial statements, cost accounting, cost behavior, budgets, capital expenditures, pricing decisions, and other selected topics will be covered.

ACCT 4003  
**ADVANCED ACCT I**

(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) Prerequisite: ACCT 3013. A comprehensive study of complex accounting problems involving financial statement treatment of income taxes, pensions, and leases. Problems underlying accounting for partnerships, corporate liquidations and reorganization, and estates and trusts are examined.

ACCT 4013  
**ADVANCED ACCT II**

(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) Prerequisite: ACCT 3013. A comprehensive study of complex problems involving mergers and acquisitions, consolidated financial statements, segment and interim reporting, multinational accounting, SEC, and accounting theory.

ACCT 4023  
**COST ACCOUNTING**

(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) Spring. Basic principles of cost accounting, departmentalization, budgets, standard cost, variance analysis, job order and process costs.

ACCT 4033  
**AUDITING**

(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) Fall. Prerequisite: ACCT 3013. Auditing procedures and concepts, audit working papers and reports, evaluation of internal controls, legal and ethical environment.

ACCT 4053  
**CPA REVIEW**

Spring. Prerequisites: ACCT 3043 and 4003. A review of problems relating to preparation for the C.P.A. examination. Emphasis on all four examination parts: practice auditing, law, and theory with concentration in theory and practice.
ACCT 4071
SEMINAR IN ACCOUNTING
(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) Prerequisite: Permission of the Department. Accounting topics of current interest will be covered. Coverage will include international accounting practices, S.E.C., and accounting ethics. Cases and small group activities will be utilized. Participants will prepare and present written and oral reports on topics under study. Credit for one to three hours may be earned depending upon the material covered.

ACCT 4072
SEMINAR IN ACCOUNTING
(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) Prerequisite: Permission of the Department. Accounting topics of current interest will be covered. Coverage will include international accounting practices, S.E.C., and accounting ethics. Cases and small group activities will be utilized. Participants will prepare and present written and oral reports on topics under study. Credit for one to three hours may be earned depending upon the material covered.

ACCT 4073
SEMINAR IN ACCOUNTING
(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) Prerequisite: Permission of the Department. Accounting topics of current interest will be covered. Coverage will include international accounting practices, S.E.C., and accounting ethics. Cases and small group activities will be utilized. Participants will prepare and present written and oral reports on topics under study. Credit for one to three hours may be earned depending upon the material covered.

ACCT 4083
INTERNSHIP IN ACCOUNTING
(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) Prerequisite: Permission of the Accounting Department Head and senior standing. A structured assignment which allows a senior accounting major to gain "real world" professional experience in an accounting position relating to an area of career interest. The student works full-time one semester in the office of a cooperating firm under the supervision of a member of management of that firm. An accounting faculty member will observe and consult with the student and the cooperating firm's management periodically during the period of internship. A term paper prepared by the student will be required.

ACCT 4084
INTERNSHIP IN ACCOUNTING
(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) Prerequisite: Permission of the Accounting Department Head and senior standing. A structured assignment which allows a senior accounting major to gain "real world" professional experience in an accounting position relating to an area of career interest. The student works full-time one semester in the office of a cooperating firm under the supervision of a member of management of that firm. An accounting faculty member will observe and consult with the student and the cooperating firm's management periodically during the period of internship. A term paper prepared by the student will be required.

ACCT 4085
INTERNSHIP IN ACCOUNTING
(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) Prerequisite: Permission of the Accounting Department Head and senior standing. A structured assignment which allows a senior accounting major to gain "real world" professional experience in an accounting position relating to an area of career interest. The student works full-time one semester in the office of a cooperating firm under the supervision of a member of management of that firm. An accounting faculty member will observe and consult with the student and the cooperating firm's management periodically during the period of internship. A term paper prepared by the student will be required.
ACCT 4086  
**INTERNSHIP IN ACCOUNTING**

(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) Prerequisite: Permission of the Accounting Department Head and senior standing. A structured assignment which allows a senior accounting major to gain “real world” professional experience in an accounting position relating to an area of career interest. The student works full-time one semester in the office of a cooperating firm under the supervision of a member of management of that firm. An accounting faculty member will observe and consult with the student and the cooperating firm’s management periodically during the period of internship. A term paper prepared by the student will be required.

ACCT 4093  
**GOVERNMENTAL ACCT**

Prerequisite: ACCT 3013. Study of GAAP underlying accounting for governmental/nonprofit entities. Governmental, Proprietary, and Fiduciary funds along with Fixed Asset and Long-term Liability Account Groups are covered.

ACCT 4103  
**SPECIAL TOPICS IN ACCOUNTING**

(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) This course provides in-depth exploration of selected accounting topics. The primary topic will vary from offering to offering; thus, the course may be taken more than once.

ACR 1004  
**GASOLINE ENGINE THEORY**

Provides the student with an introduction to automotive engines. Students learn the proper use and care of hand tools, precision tools, special tools, and equipment. Theory of operation with attention to components is included. Cooling systems, lubrication systems, intake systems, exhaust systems, vehicle maintenance, as well as PC based automotive schematics and flow charts are taught. Safety is emphasized.

ACR 1203  
**FUNDAMENTAL ELECTRICITY**

The characteristics of alternating current, waves, phase relations, transfer action, electrical circuits, and its use with controls, motors, relays, resistors, including legends and symbols are taught. In addition, the student will study the wide variety of motors, single and three phase, used in the air conditioning and refrigeration field.

ACR 1205  
**TUBING AND PIPING**

This course covers the process of identifying tubing and pipe with practical applications in sizing and fitting to different configurations using mechanical fittings and soldering. The history and development of air conditioning is also covered. Silver branding and aluminum soldering is also taught. Practical application is provided in the laboratory. Safety is emphasized.

ACR 1222  
**INDUSTRIAL CONTROLS**

Designed to teach the student how to set up a control system for different types of control requirements. Different types of control methods are studied, such as PLC, digital and microprocessor systems.
ACR 1301
INDUSTRIAL SAFETY IN A/C
The hazards associated with the different refrigerants, electricity, the oxy-acetylene torch, radon, carbon monoxide, extreme heat and extreme cold will be addressed.

ACR 1302
BASIC COMPRESSION/REFRIG
A comprehensive study of mechanical refrigeration systems emphasizing proper service techniques through analysis of the problem. Testing procedures, parts removal and installation are covered in depth. Also included is a study of the computation of temperature - pressure relationship and related problems.

ACR 1503
ELECTRONIC COMPONENTS
The student will study the wide variety of motors used in the air conditioning and refrigeration field. In addition, various system controls, relays, resistors, contactors, and timers are concepts that will be taught as they relate to motors and their operation.

ACR 1602
SCHEMATICS
The student will learn to read, draw, and interpret writing diagrams and to place the circuitry in operative arrangements with electrical and electronic symbols. System diagrams will be developed by the student for a wide variety of A/C equipment.

ACR 1803
RESIDENTIAL SYSTEMS
This course is a study of the major components and control devices for gas and oil furnaces, hydronic systems, heat pumps, and cooling systems.

ACR 2102
RESIDENTIAL SYSTEMS
Pre-requisite: ACR 1203 and ACR 1302. This course is a study of the major components and control devices for gas and oil furnaces, hydronic systems, heat pumps, and cooling systems.

ACR 2104
HEAT GAIN AND LOSS
Pre-requisite: ACR 1302. A study of air properties and the instrumentation to meet the environmental needs of structures, residential and commercial, and the factors involved in the calculation of heating and cooling loads. Also included, is a study of the distribution mediums such as duct design and sizing.
ACR 2112
AIR CONDITIONING SERVICE

This course includes a comprehensive study of air conditioning systems which emphasizes proper service techniques through analysis of the problem. Testing procedures, parts removal, and installation are covered in depth. A study of the computation of temperature pressure relation and related problems is included. Environmental impacts and safety are emphasized, including Environmental Protection Agency certification.

ACR 2114
INDUSTRIAL REFRIGERATION

Covers all aspects of using ammonia as a refrigerant. Describes both single-stage and two-stage ammonia systems. Explains the importance of accumulators and intercoolers in ammonia systems. Concludes with coverage of liquid recirculation system operation.

ACR 2124
SHEET METAL

Provides an introduction to safety, tools, machinery, materials, and fasteners used in the sheet metal trade.

ACR 2125
BOILER OPERATIONS

Will cover the basic theory, operation and construction of a high pressure boiler.

ACR 2134
BOILER OPERATIONS

Will cover the basic theory, operation, and construction of a high pressure boiler.

ACR 2904
INTERNSHIP

Provides students with the experience of a job in a business. Students will participate in internship during the final phase of program completion. Contracts will be signed between the school, students, and training site stating the rules and objectives of internship.

ACR 2991
SPECIAL TOPICS FOR ACR

This course is designed to introduce students to specific areas in Air Conditioning and Refrigeration. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

ACR 2992
SPECIAL TOPICS FOR ACR
This course is designed to introduce students to specific areas in Air Conditioning and Refrigeration. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

**ACR 2993**  
SPECIAL TOPICS FOR ACR

This course is designed to introduce students to specific areas in Air Conditioning and Refrigeration. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

**ACR 2994**  
SPECIAL TOPICS FOR ACR

This course is designed to introduce students to specific areas in Air Conditioning and Refrigeration. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

**ACR 2995**  
SPECIAL TOPICS FOR ACR

This course is designed to introduce students to specific areas in Air Conditioning and Refrigeration. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

**AGAS 1001**  
PRIN/ANIMAL SCIENCE LAB

Study of management and the facilities used in the production of beef cattle, swine, sheep, and horses. Laboratory mandatory for all animal science majors. Optional for others. Laboratory two hours.

**AGAS 1014**  
PRIN OF ANIMAL SCIENCE

A study of the American livestock industry and the scientific principles underlying the management and production of livestock and poultry. Lecture three hours, laboratory two hours.

**AGAS 2083**  
FEEDS/FEEDING
Prerequisites: AGAS 1014, CHEM 1114, or consent of instructor. Principles of animal nutrition, characteristics of feed ingredients, feeding strategies, and formulation of rations for farm animals. Lecture three hours.

AGAS 3004
REPRODUCT FARM ANIMALS
Prerequisite: AGAS 1014 or consent of instructor. Anatomy and physiology of the reproductive system of farm animals; to include a study of the causes of reproductive failure, management to improve reproductive efficiency, and practical training in pregnancy testing and artificial insemination of cattle. Lecture three hours, laboratory two hours.

AGAS 3014
BEEF CATTLE MANAGEMENT
Prerequisite: AGAS 1014 or consent. A study of practices in management of beef cattle including breeding, feeding, care and marketing, with emphasis on production in the South. Lecture three hours, laboratory two hours.

AGAS 3104
SWINE MANAGEMENT
Prerequisite: AGAS 1014 or consent of instructor. A study of current practices during the farrowing, growing, and finishing phases of swine production. Topics covered include housing, feeding, scheduling, reproduction, disease control, and waste disposal. Lecture three hours, laboratory two hours.

AGAS 3113
LIGHT HORSE PRODUCTION
Prerequisite: AGAS 1014 or consent of instructor. A study of breeding, feeding, management, and disease control practices in light horse production. Lecture three hours.

AGAS 3303
POULTRY MANAGEMENT
Prerequisite: Junior standing or consent of instructor. A study of the management practices involved in the various phases of the production of eggs, broilers, turkeys, and breeders. Lecture three hours.

AGAS 3323
POULTRY NUTRITION
Prerequisite: Junior standing or consent of instructor. An introductory course in poultry nutrition. A study of the essential nutrients for poultry, available sources of these nutrients and formulation of diets that supply the nutrients in their appropriate amounts. Lecture three hours.

AGAS 3333
POULTRY PROC/PROD TECH
Prerequisite: Junior standing or consent of instructor. A study in depth of the overall industry practices and problems covering the processing, handling, marketing, and preparation of poultry meat and by-products. Lecture three hours.

AGAS 4203
ANIMAL NUTRITION

Prerequisites: CHEM 1114 and AGAS 2083 or consent of instructor. Digestion, absorption of nutrients, and metabolism of farm animals. Includes a study of the requirements for maintenance, growth, activity, and reproduction of ruminants and non-ruminants. Lecture three hours.

AGAS 4303
POULTRY DISEASE

Prerequisite: Junior standing or consent of instructor. The etiology, basic pathology, and combatants of bacterial, viral, protozoan, and mycotic diseases of poultry. Lecture three hours.

AGBU 1013
PRIN OF AGRICULTURAL BUS

Overview of the economic theories associated with the production, consumption, and marketing of agricultural products, and with the policies designed to achieve efficiency and welfare goals in agriculture. Lecture three hours.

AGBU 2063
PRIN/AGRI MACROECONOMICS

Prerequisite: AGBU 1013. A study of macroeconomic variables that affect agriculture with emphasis on consumption, unemployment, inflation, government spending and taxes, investments, national income, and money and banking. Lecture three hours.

AGBU 2073
PRIN/AGRI MICROECONOMICS

Prerequisite: AGBU 1013. A study of microeconomics variables that affect agriculture with emphasis on price determination, production, costs, income distribution, perfect and imperfect competition. Lecture three hours.

AGBU 3133
INTERMED AGRI MACROECON

Prerequisite: AGBU 2063 and 2073 or consent of instructor. A study of macroeconomic theory and its application to the agriculture industry. Lecture three hours.

AGBU 3143
INTERMED AGRI MICROECON
Prerequisite: AGBU 2063 and 2073 or consent of instructor. A study of microeconomic theory and its application to the agriculture industry. Lecture three hours.

AGBU 3213
CAREER DEVELOPMENT IN AG
Prerequisite: Junior standing. Study of the professional opportunities and responsibilities associated with agricultural business careers. Interaction with professionals in the chosen career along with development and improvement of written communication, oral communication, and leadership skills. Lecture three hours.

AGBU 3993
INTERNSHIP I IN AGRI
Prerequisite: Approval of the department head. A supervised, practical experience providing undergraduate agribusiness majors with a hands-on, professional experience in a position relating to an area of career interest. The student will work in a local cooperating agribusiness establishment under the supervision of a member of management of that firm. A minimum of 300 clock hours of supervision, maintain a weekly internship log and prepare a final report. Note: only three hours of Internship I in Agriculture may be used to satisfy the curriculum requirements for a B.S. degree in Agribusiness.

AGBU 4003
AGRI-BUSINESS MGMT
Prerequisite: AGBU 1013, Junior standing, or consent of the instructor. A study of the managerial practices and procedures that apply to all agriculture businesses. Emphasis is placed on the use and application of management and economic principles in decision making directed toward profit maximization. Lecture three hours.

AGBU 4013
AGRICULTURAL MARKETING
Prerequisite: AGBU 2063 and 2073, or consent of instructor. A study of marketing functions, practice, organizational structure, legal aspects of agricultural marketing in relation to marketing policies, analysis of consumer behavior, and market demand. Lecture three hours.

AGBU 4023
AGRICULTURAL FINANCE
Prerequisite: AGBU 2063 and 2073 and ACCT 2003. Designed as an economic and accounting study of the processes in agricultural businesses. Manufacturing costs, income tax, managerial reports, cash flow, and statement analysis of agricultural businesses along with capital allocation and the purpose and efficiency of agricultural lending institutions are analyzed. Lecture three hours.

AGBU 4033
AGRICULTURAL POLICY
Prerequisite: AGBU 2063 and 2073 or consent of instructor. Designed as an introduction to historical and current federal governmental legislation in agriculture. Specific emphasis is placed on the logic, beliefs, attitudes and values of the American people coincident with the social, economic, and political environment, and on evaluating the objectives, means and the observed results through the criteria of resource allocation and income distribution in the agricultural sector of the economy. Lecture three hours.
AGBU 4043
APPRaisal FARM REAL EST
Prerequisite: AGBU 2063 and 2073, or consent of instructor. A practical application of principles and practices in farm real estate evaluation, emphasizing the processes of value development and uses. Lecture three hours.

AGBU 4053
AGRI Price ANALYSIS
Prerequisite: AGBU 2063 and 2073. Study of the trends, cycles, and seasonal patterns associated with agricultural markets and institutional arrangements. Graphical and statistical analysis of commodity data and the fundamentals of agricultural futures markets are covered. Lecture three hours.

AGBU 4063
AGRICULTURAL INVESTMENTS
Prerequisite: AGBU 2063 and AGBU 2073, senior standing or consent of instructor. An in-depth analysis of investment opportunities available in the field of agriculture. Emphasis will be on investment in stocks, bonds, agricultural commodities, futures hedging, and in international currencies. Students will be required to create and maintain a diversified investment portfolio with weekly monitoring of their chosen investments. Lecture three hours.

AGBU 4951
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

AGBU 4952
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

AGBU 4953
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

AGBU 4954
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.
AGBU 4983
INTERNSHIP II IN AGRI
Prerequisite: Internship I in Agriculture, approval of the department head, junior or senior standing, minimum of 2.5 GPA overall. A supervised, practical experience providing undergraduate agribusiness majors with a hands-on, professional experience in a position relating to an area of career interest. The student will work in a local cooperating agribusiness establishment under the supervision of a member of management of that firm. A minimum of 300 clock hours of supervision, maintain a weekly internship log, prepare a final report and present at least a 15 minute seminar to the agriculture department. Note: only three hours of Internship II in Agriculture may be used to satisfy the curriculum requirements for a B.S. degree in Agribusiness.

AGBU 4991
SPEC PROB/AGRI
Prerequisite: Permission of the department. One to four hours credit, depending on the nature and extent of the problem. This is a course designed to introduce qualified students to specific agricultural areas including Agribusiness, Animal Science, Horticulture, or Plant Science. Note: only six hours of Special Problems in Agriculture may be used to satisfy the curriculum requirements for the B.S. degree in Agribusiness.

AGBU 4992
SPEC PROB/AGRI
Prerequisite: Permission of the department. One to four hours credit, depending on the nature and extent of the problem. This is a course designed to introduce qualified students to specific agricultural areas including Agribusiness, Animal Science, Horticulture, or Plant Science. Note: only six hours of Special Problems in Agriculture may be used to satisfy the curriculum requirements for the B.S. degree in Agribusiness.

AGBU 4993
SPEC PROB/AGRI
Prerequisite: Permission of the department. One to four hours credit, depending on the nature and extent of the problem. This is a course designed to introduce qualified students to specific agricultural areas including Agribusiness, Animal Science, Horticulture, or Plant Science. Note: only six hours of Special Problems in Agriculture may be used to satisfy the curriculum requirements for the B.S. degree in Agribusiness.

AGBU 4994
SPEC PROB/AGRI
Prerequisite: Permission of the department. One to four hours credit, depending on the nature and extent of the problem. This is a course designed to introduce qualified students to specific agricultural areas including Agribusiness, Animal Science, Horticulture, or Plant Science. Note: only six hours of Special Problems in Agriculture may be used to satisfy the curriculum requirements for the B.S. degree in Agribusiness.

AGEG 3003
SOLVING AGRI PROBLEMS
Prerequisite: Junior standing and fulfill general education mathematics requirements. This course will use dimensional analysis to solve agriculturally oriented problems such as irrigation, fertilizer, and organic matter application rates; energy cost-estimates; pump sizing for heads and flow rates; dilution factors; and feed ingredient selection. The course will use computers and such programs as MathCad and Microsoft Excel.

AGEG 3203
SOIL/WATER/FOREST CONSER
Prerequisite: Junior standing or consent of instructor. Causes and control of soil and water losses; methods of erosion control; relationship of soil and water conservation to forest, recreation, pollution and wildlife management. Lecture three hours.

AGEG 3213
WATERSHED MANAGEMENT

Prerequisite: Junior standing or consent of instructor. An introductory course in the problems of water supplies from surface sources and underground aquifers. Practices to develop supplies, to protect sources, and maintain water quality will be emphasized. Lecture three hours.

AGEG 3413
AGRI WASTE MANAGEMENT

Prerequisites: MATH 1113, CHEM 1114, and AGSS 2014. A study of potential adverse environmental quality problems associated with agricultural operations, current trends and innovative solutions to waste management problems, and current legal constraints and regulating agencies. Lecture three hours.

AGPM 3104
INTRODUCTION TO ENTOMOLOGY

This course will introduce the student to insect diversity and the identification of the major families of insects. Laboratory time will be spent learning family characteristics and collecting and preserving insect specimens. Lecture will consist of topics such as insect diversity, morphology and physiology. $25 course fees.

AGPM 3124
APPLIED PEST CONTROL

Prerequisites: AGPS 1003, AGPM 3104, AGPS 3053, Junior standing or consent of instructor. Advanced concepts and techniques used in modern pest control practices and the chemistry and environmental fate of pesticides.

AGPM 4103
INTEGRATED PEST MANAGEMENT

Prerequisite: AGPS 1003, Junior standing or consent of instructor. A systematic approach utilizing biological, cultural and genetic control methods to suppress pest numbers in agroecosystems.

AGPS 1003
PRINCIPLES OF AGRONOMY

A study of important agronomic practices associated with crop production, including classification of crops, the role of soil and the environment, crop management, cropping systems, integrated pest management and harvest methods. Lecture three hours.

AGPS 1024
PRIN OF HORTICULTURE
Principles and practices in propagation of plants, sexual and asexual reproduction methods; construction and management of greenhouses. Lecture three hours, laboratory two hours.

AGPS 1033
INTRO TO FORESTRY
General survey of the five fields of forestry; a preview of forestry subjects; forestry resources; some emphasis on silviculture, measurement, protection, utilization, preservation and forest administration. Lecture three hours.

AGPS 3024
FORAGE CROPS/PASTURE MGT
Prerequisites: AGPS 1003, Junior standing or consent of instructor. Selection, culture, production, distribution and uses of pasture and forage plants; management problems in hay and silage; emphasis on utilization and improvement of pasture. Lecture three hours, laboratory two hours.

AGPS 3044
PLANT PROPAGATION
Prerequisite: AGPS 1024, Junior standing or consent of instructor. A study of the principles and practices in the propagation of herbaceous and woody indoor plants and flowers. Lecture three hours, laboratory two hours.

AGPS 3053
WEED ECOLOGY
Prerequisite: AGPS 1003 and Junior standing or consent of instructor. The principles of weed ecology including weed demography and population dynamics, competition, interference, soil seed bank concept and systematic approaches to weed management.

AGPS 3064
VEGETABLE GROWING
Prerequisite: AGPS 1024, Junior standing or consent of instructor. The application of scientific facts and principles that are involved in the successful production of vegetables under cover and/or in the open. Lecture three hours, laboratory two hours.

AGPS 3074
FLORICULTURE
Prerequisite: AGPS 1024, Junior standing or consent of instructor. Commercial production and marketing of major cut flower crops, bedding plants, and flowering pot plants under cover and/or in the open. Lecture three hours, laboratory two hours.

AGPS 3083
SM FRUIT/NUT CULTURE
Prerequisite: AGPS 1024, Junior standing or consent of instructor. A study of the factors underlying the commercial and home production of small fruits and nuts, including a study of varieties, propagation, pruning, spraying, harvesting, and marketing. Lecture three hours.

AGPS 3093
GREENHOUSE OPERAT/MGMT
Prerequisite: AGPS 1024, Junior standing or consent of instructor. Greenhouse construction and management of heating, cooling, moisture, fertilization, lighting, insect and disease control in the growth of major greenhouse crops. Lecture three hours.

AGPS 3244
PLANT PATHOLOGY
Prerequisite: BIOL 2134 or BIOL 1014. Introductory course in plant diseases. A study of the causes, symptoms, spread and control of plant diseases. The emphasis is placed on the interaction between disease causing agents and the diseased plant and the way in which environmental conditions influence the mechanisms by which factors produce plant disease. Lecture three hours, laboratory two hours.

AGPS 4103
CROP/GARDEN INSECTS
Prerequisite: AGPS 1024, Junior standing or consent of instructor. Anatomy, physiology, ecology, life history, and control of insects affecting crops and garden plants. Lecture three hours.

AGSS 2014
SOILS
Prerequisite: CHEM 1114. Development, classification, and properties of soils. A review of the major areas of soil science and their application to agricultural production and the environment. Lecture three hours, laboratory two hours.

AGSS 3033
SOIL FERTILITY
Prerequisite: AGSS 2014. Physical, chemical, and biological properties that relate to soil fertility as measured by plant production and quality. Growth response to fertilizers and fertilization methods. Lecture three hours.

AHS 1023
BASIC PHARM W/OVERVIEW MICRO
Fall and Spring. Enrollment is limited to medical assistant and health information management majors. Topics to be covered in addition to introductory pharmacology will include basic chemistry as it applies to the medical laboratory and a brief overview of microbiology and immunology. Basic pharmacology as it relates to the drug interaction with each of the body systems and classifications of drugs will be covered. Students will utilize the Physicians' Desk Reference (PDR) in the course. Lecture three hours.

AHS 2013
MED TERMINOLOGY
Fall and Spring. A study of the language of medicine including word construction, definition, and use of terms related to all areas of medical science, hospital service, and the allied health specialties. Duplicate credit for AHS 2013 and 3013 will not be allowed.

AHS 2022
MED LAB ORIEN/INST,LAB

Fall. Prerequisites: a grade of "C" or higher in BIOL 1114 or BIOL 2124. Enrollment is limited to students enrolled in BIOL 2023. Topics covered will include laboratory orientation, laboratory procedures/techniques, introduction to clinical laboratory instrumentation (both manual and automated), quality control principles, and care of equipment. Laboratory four hours per week. $10 laboratory fee.

AHS 2023
MED LAB ORIENT/INSTRUM

Fall. Enrollment is limited to medical assistant and/or medical technology majors who have completed at least BIOL 1114 or BIOL 2124 (AHS 2013 recommended) with a grade of "C" or higher and are in the final year of their program at Tech. This course is concerned with both the theoretical and practical application of a wide range of clinical duties performed by the medical assistant and medical technologist. Topics covered will include hematology, urinalysis, hematostatic processes, body chemistry, microbiology, and blood typing. Lecture three hours.

AHS 2032
MED ASST CLIN PRAC LAB

Spring. Enrollment is limited to medical assistant majors who are enrolled in AHS 2034 and in the final semester before the medical assistant externship assignment. This course is designed to allow for practice in locale area clinics. Students will complete a two-hour laboratory in the simulated lab and will be assigned to three hours in area clinics on a weekly basis. While at the medical facility students will apply the theories and concepts covered in AHS 2023 and AHS 2034. Five-hour laboratory weekly. $10 laboratory fee.

AHS 2033
CODING PRINC MEDICAL OFFICE

Prerequisites: AHS 2013, 1023, BIOL 2004, or permission of instructor. A study of medical coding using ICD-9-CM and CPT codes in the medical office. Students will be taught to evaluate patients' medical records to correctly assign both diagnostic and procedural codes required for healthcare reimbursement in the medical office setting.

AHS 2034
MED ASST CLIN PRAC

Spring. Enrollment is limited to medical assistant majors. Prerequisite: AHS 2023 and 2022. Topics covered will include examination room techniques, sterilization procedures, operation and care of electrocardiograph, assisting with minor surgery, physiotherapy, pharmacology, medications and specialist assisting. Students must subscribe to malpractice liability insurance. Lecture four hours.

AHS 2044
MED ASST ADM PRACTICE

Fall. Prerequisite: AHS 2013. This course is open only to medical assistant majors in the final part of the program or by permission of the medical assistant program director. A survey course emphasizing the business administrative duties of the medical assistant. Course content will include working with patients, medical records, medical dictation, office procedures, and office management. Student must subscribe to malpractice liability insurance. Lecture three hours, laboratory two hours. $10 laboratory fee.
AHS 2053
COMPUTER/OVERVIEW/INSUR

Spring. Prerequisites: HIM 2003, AHS 2044. This course is open only to medical assistant majors in the final part of the program or by permission of the medical assistant program director. This course will prepare the medical assistant to work as an administrative medical assistant in a health care facility. Students are introduced to the computerization of the medical office using current operating systems. Topics covered will include recording information on patients, scheduling appointments, printing reports, producing patient statements and claim forms, and filing electronic claims. Lecture 3 hours.

AHS 2055
EXTERNSHIP

First summer term. Prerequisites: Completion of all other required courses in medical assistant curriculum. The course is scheduled at the end of the program. It shall include the opportunity to perform various clinical and administrative procedures under supervision. The student will remain in a medical facility for a period of four weeks. Assignments may be made anywhere in Arkansas; students must assume the full financial responsibility for this assignment. A seminar will be scheduled for the fifth week. Student must subscribe to malpractice liability insurance.

AHS 2061
MED ASSISTANT SEMINAR

First summer term. Prerequisite: AHS 2055. A one week seminar scheduled for the week following the externship. Topics discussed will be based on those arising from the student's experiences while on his/her externship. Employment procedures will also be covered.

AMST 2003
AMERICAN STUDIES

An exploration of American culture through study of significant ideas, social issues and literary texts. AMST 2003 may be used to fulfill 3 hours of the Social Sciences general education requirements.

ANTH 1213
INTRO TO ANTHROPOLOGY

An introduction to the subdisciplines of cultural anthropology, physical anthropology, archeology, and linguistics.

ANTH 2003
CULTURAL ANTHROPOLOGY

A study of contemporary and historical peoples and cultures of major world culture areas. May not be taken for credit after completion of ANTH 3213.

ANTH 2103
HUMAN ECOLOGY MOUNTAIN SOUTH

This course provides students with the knowledge and skills to understand changing human-environment relationships in the mountain South and to apply these understandings to the assessment of, and potential solutions to, contemporary socio-environmental issues in the area. We will explore the emergence of Mississippian societies, their transformation during prehistoric and early historic eras, the impacts of early European settlements and the regions' incorporation into the global marketplace, development and the growth of tourism and industry in the area, and current social and environmental issues in the mountain South.
ANTH 2203
INDIANS/NORTH AMERICA

A study of contemporary and historical peoples and cultures of North America.

ANTH 2223
NORTH AMER ARCHAEOLOGY

The study of prehistoric peoples and cultures of North America.

ANTH 2303
GLOBALIZATION

This course provides an overview of the economic, social, technological, environmental, and ideological impacts of globalization on national communities, with an emphasis on the cultural dynamics of the process. Through class discussions and lectures, readings, and student research, this course will examine the complex implications of globalization on culture change in different national settings.

ANTH 3241
SEMINAR/ANTHROPOLOGY

Prerequisite: Permission of instructor. A directed seminar in an area of anthropology. The specific focus will depend upon research interests, student interest, and current developments in the field of anthropology.

ANTH 3242
SEMINAR/ANTHROPOLOGY

Prerequisite: Permission of instructor. A directed seminar in an area of anthropology. The specific focus will depend upon research interests, student interest, and current developments in the field of anthropology.

ANTH 3243
SEMINAR/ANTHROPOLOGY

Prerequisite: Permission of instructor. A directed seminar in an area of anthropology. The specific focus will depend upon research interests, student interest, and current developments in the field of anthropology.

ANTH 3244
SEMINAR/ANTHROPOLOGY

Prerequisite: Permission of instructor. A directed seminar in an area of anthropology. The specific focus will depend upon research interests, student interest, and current developments in the field of anthropology.

ANTH 3303
SOUTHEASTERN ARCHAEOLOGY
The course will survey the rise of chiefdom-level societies in the prehistoric Southeast, reconstruct the “Mississippian world” these chiefdoms created, document the activities of sixteenth-century Spanish explorers in the region, and trace the subsequent decline of Mississippian chiefdoms. In addition to reconstructing the landscape of the ancient South, students will explore long-term social and cultural traits of southeastern Indians and discover the secrets unearthed at famous Mississippian sites such as Cahokia, Moundville, and Etowah.

ANTH 3313  
SOUTHEASTERN INDIANS

This course is an ethnographic and historic survey of southern Indians from European contact through the era of Removal. Particular emphasis will be placed on the following subjects: the decline of chiefdom societies across the South, the Spanish mission system, the development of the deerskin and Indian slave trade, native resistance to colonial encroachment, and a detailed discussion of Removal. The course also includes ethnographic descriptions of major southern Indian groups, including the Creek, Cherokee, Catawba, Chocotaw, Chickasaw, Seminole, Apalachee, and Natchez. By the end of the course students should acquire an understanding of a little known aspect of our country’s heritage, be able to distinguish between the various colonial strategies at play in the region, as well as the various forms of native resistance, and gain an appreciation for the place of southern Indians within U.S. society today.

ANTH 3403  
ETHNOGRAPHIC METHODS

This course trains students in research methods in anthropology with an emphasis on qualitative research. Students learn the different uses of methodologies to address specific types of research questions, practice participant-observation and interview techniques as part of semester-long research projects, and survey anthropological theory as it relates to conducting ethnographic fieldwork.

ANTH 4103  
ANTHROPOLOGY OF EUROPE

This course focuses on cultural history and diversity in Europe in the era of modern nation-state. Course topics include: state formation and the development of national communities, relations between rural cultural enclaves and industrialized population centers, supranational integration and cultural identity, and nationalism in the era of global immigration into Europe. The goal of this course is to analyze how cultural identities in Europe have been formed, sustained, and challenged given these multiple transformations in the political, economic, and social fabric of European nation-states. This is a reading and writing-intensive course.

ANTH 4206  
WORKSHOP IN ANTHROPOLOGY

Five week summer session. Prerequisite: Permission of instructor and department head. An intensive five week experience in anthropology combining classroom study and field exposure to techniques, artifacts, and findings pertinent to anthropology/archeology of North America. Extensive travel to sites and collections will be an integral part of the study experience. It may be necessary to assess a special fee which would be stated in advance.

ANTH 4403  
INTERP/EDUC/MUSEUM/METH

Prerequisites: Senior or Graduate standing, or permission of instructor. Museum perspectives and approaches to care and interpretation of cultural resources, including interpretive techniques of exhibit and education-outreach materials, and integrating museum interpretation/education into public school and general public programming. Class projects focus on special problems for managing interpretive materials in a museum setting.

ANTH 4853  
MUSIC OF THE WORLD’S PEOPLES
A survey of predominantly non-Western world music cultures with attention to sonic structures, musicians, musical instruments, and socio-cultural contexts of music making. Open to students in all majors. Listening emphasized.

ANTH 4951
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

ANTH 4952
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

ANTH 4953
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

ANTH 4954
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

ANTH 4991
SPEC PROB/ANTH
Prerequisite: Permission of instructor. Independent work under individual guidance of staff member.

ANTH 4992
SPEC PROB/ANTH
Prerequisite: Permission of instructor. Independent work under individual guidance of staff member.

ANTH 4993
SPEC PROB/ANTH
Prerequisite: Permission of instructor. Independent work under individual guidance of staff member.
ANTH 4994
SPEC PROB/ANTH
Prerequisite: Permission of instructor. Independent work under individual guidance of staff member.

ART 1163
BASIC PHOTOGRAPHY
A study of the use of the camera, films, equipment, and the basics of black and white processing and printing. Includes introductions to lighting techniques, composition, and color photography.

ART 1303
INTRO TO DRAWING
An introduction to structural and expressive responses in drawing by the study of line, volume, shape, light perspective, the media, and their interrelations. Studio six hours. $36 art fee.

ART 1403
TWO-DIMENSION DESIGN
Basic study of elements and principles of two-dimensional design employing a variety of tools and materials. Studio six hours.

ART 1503
INTRO TO GRAPHIC DESIGN
Prerequisite: ART 1403, ART 1303 or permission of instructor. An introduction to fundamental graphic design principles, techniques and materials. $36 art fee.

ART 2103
ART HISTORY I
An examination of the periods and western cultures responsible for major artistic monuments and achievements from pre history through the Gothic period.

ART 2113
ART HISTORY II
A western art survey of the events, people, and stylistic trends involved in the development of major art forms from the era of the Italian Renaissance to the present.

ART 2123
EXPERIENCING ART
This course is designed to provide a background in art and the related processes so that a student may develop powers of observation and thereby respond to a work of art.

**ART 2213**  
DIGITAL SKILLS FOR GD  
Prerequisites: ART 1503 Introduction to the Macintosh computer system. Students will learn graphic design software which they will, in turn, use to create various projects. $36 art fee.

**ART 2303**  
FIGURE DRAWING  
Prerequisite: ART 1303. Introduction to the study of the human figure. A major emphasis will be directed to exercises in the study of anatomy, proportion, and line as it relates to the figure. Studio six hours. $36 art fee.

**ART 2403**  
COLOR DESIGN  
Basic application of color principles and color theory. Studio six hours. $36 art fee.

**ART 2413**  
THREE-DIMENSION DESIGN  
Prerequisite: ART 1403. Basic study of three-dimensional problems of structure, spatial organization, and introductory sculptural concerns. Studio six hours. $36 art fee.

**ART 2703**  
INTRO TO SCULPTURE  
Prerequisites: ART 1303, 1403, 2413. Basic techniques of sculpture and sculptural composition. Modeling, casting, carving, and constructive processes are introduced. Studio six hours. $100 art fee.

**ART 3003**  
CONCEPTS/ART EDUCATION  
Prerequisite: Sophomore Review. Introduction to theory and specialized practice in art education issues as applied to elementary art experience. Studio processes, art criticism, aesthetics, and art history methodology will be incorporated into lessons implemented as part of field experience in local elementary schools. Studio six hours. $36 art fee.

**ART 3013**  
ART EDUCATION PRACTICUM
Prerequisite: Sophomore Review. Curriculum design with emphasis on visual art standards, art media, and assessment as applied to teaching on the secondary level. Students will implement a unit of study in partnership with local schools. Studio six hours. $36 art fee.

ART 3113
ART HISTORY/AMERICAN
Prerequisite: Sophomore Review. A study of art forms in architecture, painting, sculpture and craft from Colonial times to the present.

ART 3123
ART HISTORY/RENAISSANCE
Prerequisite: Sophomore Review. A concentrated study of art forms in architecture, painting, sculpture and crafts during the period of the Italian and Northern Renaissance.

ART 3203
TYPOGRAPHY AND LAYOUT
Prerequisites: ART 1503, ART 2213, and Sophomore Review. Beginning and intermediate problems in layout designs as well as the effective use of type. $36 art fee.

ART 3223
THREE DIMEN/GRAPH/DESIGN
Prerequisite: ART 1503, ART 2213, ART 3203 and Sophomore Review. Studio problems in the design and presentation of 3 D advertising packaging and displays. Studio six hours. $36 art fee.

ART 3233
PRODUCTION TECHNIQUES
Prerequisite: ART 1503, 2213, 3203, 3223, and Sophomore Review. Introductory course on methods for producing camera ready art. Studio six hours. $36 art fee.

ART 3243
WEB DESIGN
Prerequisite: ART 2213, 3203, and Sophomore Review. Introduce basic website planning, content editing and creation using graphic arts techniques. Screen-based color theory, web design aesthetics, use of graphic editors, and interface design are explored. Studio six hours. $36 course fee.

ART 3253
COMPUTER ILLUSTRATION
Prerequisite: ART 2213 and Sophomore Review. This course will provide students with advanced conceptual skills in computer illustration and digital imaging. Students will acquire intermediate knowledge in vector and pixel-based drawing formats, digital painting effects, comic art/video game illustration, storyboarding and coloring through the completion of integrated design projects. Studio six hours. $36 course fee.

**ART 3303**
**DRAWING STUDIO I**
Prerequisites: ART 1303, 2303, or permission of instructor and Sophomore Review. The application of the theories and techniques of drawing as they relate to the study of composition in finished works of art. Studio six hours. $36 art fee.

**ART 3403**
**INTRO TO OPAQUE PAINTING**
Prerequisites: Art 1303, 1403, 2403, Sophomore Review or permission of instructor. The exploration of opaque painting techniques. Traditional oil, acrylic and alkyd will be studied. Studio six hours. $36 course fee.

**ART 3503**
**PAINTING STUDIO I**
Prerequisite: ART 3403 and Sophomore. A continued study in the opaque or transparent painting techniques. Emphasis will be directed toward the economy of conception and performance in the completion of finished works of art. Studio six hours. $36 art fee.

**ART 3533**
**WATERCOLOR PAINTING**
Prerequisite: ART 1303, 1403, 2403, or permission of instructor and Sophomore Review. The exploration of transparent water painting techniques. Studio six hours. $36 art fee.

**ART 3603**
**INTRODUCTION TO CERAMICS**
Prerequisites: ART 1403 or permission of instructor and Sophomore Review. An introduction to ceramics, emphasizing the imaginative design and production of ceramic objects utilizing hand building and wheel throwing techniques. Exposure to the complete ceramic process through the use of demonstrations, slides, and lectures. Studio six hours. $100 art fee.

**ART 3703**
**SCULPTURE STUDIO I**
Prerequisite: ART 2703 and Sophomore Review. A continued study of sculptural techniques introduced in Introduction to Sculpture, allowing for student expansion and specialization on individual conceptions. Studio six hours. $100 art fee.

**ART 3713**
**SCULPTURE STUDIO II**
Prerequisite: ART 2703 and Sophomore Review. A continued study of sculptural techniques introduced in Introduction to Sculpture, allowing for student expansion and specialization on individual conceptions. Studio six hours. $100 art fee.

ART 3803
INTRO TO PRINTMAKING

Prerequisites: ART 1303, 1403, 2403 and Sophomore Review. A survey of traditional printmaking techniques will be taught including intaglio, relief, and monotype. Studio six hours. $100 art fee.

ART 3813
PRINTMAKING STUDIO I

Prerequisite: ART 3803 and Sophomore Review. Printmaking activities introduced in Introduction to Printmaking will be used as a basis for the student to expand and specialize. Students will be expected to develop an individual print series in one or more print techniques. Studio six hours. $100 materials fee.

ART 3903
INTRO TO FIBER ARTS

Prerequisites: Art 1303, 1403, 2403 and Sophomore Review. An introduction to fiber arts to include historical and cultural connections, techniques and processes associated with materials studies such as weaving, papermaking, textile design, and mixed media. Studio six hours. $36 art fee.

ART 4103
ART HISTORY/MODERN

Prerequisite: Sophomore Review. The study of art and architecture from neo classicism to the present with emphasis on the art styles after Impressionism.

ART 4123
ART HISTORY, MEDIEVAL

Prerequisite: ART 2103, sophomore review or permission of instructor. A study of the art and architecture of the European Middle Ages, from the rise of Christianity through the Gothic period.

ART 4133
ART HISTORY/NATIVE AMERICAN

This course surveys the Native American arts of North America from ancient to modern (and postmodern) times looking at various geographical regions. Course content includes the relationship between indigenous American worldview and Native artistic traditions and visual culture. The course also covers the impact of colonialism and modernization on Native American culture and how Native communities have negotiated, appropriated, and/or resisted these pressures. We will also look at the adaptation of modernism to Native American visual culture, both by Native and non-Native artists.

ART 4143
ART HISTORY/LATIN AMERICAN

This course surveys Latin American art from the Colonial to the Modern period, covering a wide geographic region and emphasizing certain patterns of colonialism, nationalism, modernism, and regionalism that give us a glimpse of the cultural processes at work in this vast region in the early modern Americas. The first half of the course is divided into such themes as the arts and visual culture of indigenous Americans and its interplay with European
colonization, the consolidation of colonial power in viceroyalties, the work of missionaries, the metropolitan church, and the colonial aristocracy. The class then covers the development of national art in the nineteenth century, before looking at Latin American arts in the twentieth century including the interplay between modernism and regionalism.

ART 4163
ADVANCED PHOTOGRAPHY/VIDEO
Prerequisite: JOUR (ART) 1163 or consent of instructor. An introduction to advanced photographic techniques including digital photography and nonlinear editing. Various historic and current theories of visual journalism provide a substantive base for the application of techniques.

ART 4233
TECHNIQ/ILLUSTRATION
Prerequisites: ART 1303, 1403, 2303, 2403 and Sophomore Review. Application of fine art drawing and painting techniques to illustration problems. Studio six hours. $36 course fee.

ART 4243
PROF PORTFOLIO PREP FOR GD
Prerequisites: Art 1503, Art 2213, Art 3203, Art 3223, Art 3233 and Sophomore Review. The purpose of this course is to prepare the student for entry into the professional world through the development of a resume and the presentation of their work. $36 course fee.

ART 4313
DRAWING STUDIO II
Prerequisite: ART 3303 and Sophomore Review. The further development of advanced drawing concepts and skills. This course will deal with each student on a one to one basis. The student will present a "contract of drawing projects" subject to instructor's approval. Studio six hours. $36 art fee.

ART 4323
DRAWING STUDIO III
Prerequisite: ART 3303 and Sophomore Review. The further development of advanced drawing concepts and skills. This course will deal with each student on a one to one basis. The student will present a "contract of drawing projects" subject to instructor's approval. Studio six hours. $36 art fee.

ART 4503
PAINTING STUDIO II
Prerequisite: ART 3503 and Sophomore Review. Advanced study of the opaque/transparent painting techniques. Emphasis will be theme oriented. Each student must submit to the instructor a "painting contract" which must be approved. Studio six hours. $36 art fee.

ART 4513
PAINTING STUDIO III
Prerequisite: ART 3503 and Sophomore Review. Advanced study of the opaque/transparent painting techniques. Emphasis will be theme oriented. Each student must submit to the instructor a “painting contract” which must be approved. Studio six hours. $36 art fee.

ART 4603
CERAMICS STUDIO I
Prerequisites: ART 3603 and Sophomore Review. A study of advanced techniques and skills. This course will deal with each student on a one to one basis. Each student must submit a “contract of ceramics project” subject to instructor’s approval. Studio six hours. $100 art fee.

ART 4613
CERAMICS STUDIO II
Prerequisites: ART 3603 and Sophomore Review. A study of advanced techniques and skills. This course will deal with each student on a one to one basis. Each student must submit a “contract of ceramics project” subject to instructor’s approval. Studio six hours. $100 art fee.

ART 4623
ANIMATION TECHNIQUES
Prerequisite: ART 2213, 2303, 3203, and Sophomore Review. Introduce basic drawing/2D animation, and create movies/cartoons, motion graphics/interactive content using multimedia tools and techniques. Time-based media, animation timing, use of audio-visual editors, and effective storyboard techniques are explored. Studio six hours. $36 course fee.

ART 4701
SPECIAL METHODS/ART
Prerequisites: Sophomore Review, admission to student teaching phase of teacher education program and concurrent enrollment in SEED 4809. Intensive on campus exploration of the principles of curriculum construction, teaching methods, use of community resources, and evaluation as related to teaching art.

ART 4703
SENIOR PROJECT/EXHIBITION
Spring. Prerequisite: Junior Review, Sophomore Review. This course is required for all Fine Arts majors, and elective for Graphic Design and Art Education majors.

ART 4723
ART HISTORY SEMINAR
Prerequisite: Sophomore review, senior standing, or permission of instructor. This course will provide a forum for in-depth examination of a particular artist, movement, theme, or period in art history.

ART 4733
GRAPHIC DESIGN INTERNSHIP
Prerequisites: Art 1503, 2213, 3203, 3233, Sophomore Review, Junior Review and instructor's permission. A supervised, practical experience providing graphic design majors with professional hands-on training in a position relating to an area within their chosen field of graphic design at a cooperating business.

ART 4736
GRAPHIC DESIGN INTERNSHIP
Prerequisites: Art 1503, 2213, 3203, 3233, Sophomore Review, Junior Review and instructor's permission. A supervised, practical experience providing graphic design majors with professional hands-on training in a position relating to an area within their chosen field of graphic design at a cooperating business.

ART 4803
PRINTMAKING STUDIO II
Prerequisite: ART 3813, Sophomore Review and permission of Instructor. A concentration on printmaking techniques which will develop additional strength and capability in the student. Studio six hours. $100 art fee.

ART 4813
PRINTMAKING STUDIO III
Prerequisite: ART 3813, Sophomore Review and permission of Instructor. A concentration on printmaking techniques which will develop additional strength and capability in the student. Studio six hours. $100 art fee.

ART 4823
ART CRITICISM/AESTHETICS
Prerequisites: Sophomore Review, Art 2103 and/or 2113. Perspectives on analyzing and interpreting works of art required for art education majors. The course may be used as an art history elective for graphics and fine arts majors.

ART 4951
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

ART 4952
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

ART 4953
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**ART 4954**  
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**ART 4991**  
SPEC PROB/ART

This course requires advance approval by the instructor, department head, and the dean of school. Designed to provide certain advanced students with further concentration in a particular area. Fee may apply.

**ART 4992**  
SPEC PROB/ART

This course requires advance approval by the instructor, department head, and the dean of school. Designed to provide certain advanced students with further concentration in a particular area. Fee may apply.

**ART 4993**  
SPEC PROB/ART

This course requires advance approval by the instructor, department head, and the dean of school. Designed to provide certain advanced students with further concentration in a particular area. Fee may apply.

**ART 4994**  
SPEC PROB/ART

This course requires advance approval by the instructor, department head, and the dean of school. Designed to provide certain advanced students with further concentration in a particular area. Fee may apply.

**AST 1004**  
GASOLINE ENGINE THEORY

Provides the student with an introduction to automotive engines. Students learn the proper use and care of hand tools, precision tools, special tools, and equipment. Theory of operation with attention to components is included. Cooling systems, lubrication systems, intake systems, exhaust systems, vehicle maintenance, as well as PC based automotive schematics and flow charts are taught. Safety is emphasized.

**AST 1005**  
ENGINE PERFORMANCE
Provides students with an understanding of fuel, ignition, drivability, and emissions systems. Theory of operation as well as relevant electronic components and computing systems diagnosis is included.

**AST 1103**  
**AUTOMOTIVE BRAKE SYSTEMS**

Concentrates on the theory and operation of disc and drum brake systems. Basic hydraulic principles as well as the operation and components of the brake foundation systems are taught. The course includes an in-depth study of various power brake systems, including vacuum assisted systems, hydraulically boosted systems, and several types of anti-lock braking systems.

**AST 1105**  
**GASOLINE ENGINE THEORY**

Provides the student with an introduction to automotive engines. Students learn the proper use and care of hand tools, precision tools, special tools, and equipment. Theory of operation with attention to components is included. Cooling systems, lubrication systems, intake systems, exhaust systems, vehicle maintenance, as well as PC based automotive schematics and flow charts are taught. Safety is emphasized.

**AST 1113**  
**INTRO AUTO DRIVETRAINS**

Designed to cover the entire drivetrain on a late model vehicle with a standard transmission. Instruction will begin with the flywheel and proceed to the transmission, through the differential assembly, and ending at the wheel and hub. Includes the principles of gear reduction as it applies to the theory, operation, and repair of manual transmission, differential, and transaxles. Several types of four-wheel drive systems will be taught.

**AST 1202**  
**INTRO AUTO DRIVETRAINS**

Designed to cover the entire drive train on a late model vehicle with a standard transmission. Beginning with the flywheel, to the transmission, through the differential assembly and ending at the wheel and hub. Includes the principles of gear reduction as it applies to the theory, operation, and repair of manual transmission, differential, and transaxles. Several types of four-wheel drive systems will be taught.

**AST 1203**  
**AUTO CLIMATE CONTROL**

 Begins with a study of refrigeration, the refrigeration cycle, and basic components of a typical automotive refrigeration system. The function and construction of compressors, lines, expansion valves, expansion tubes, condensers, evaporators, blower motors, and air distribution systems is covered. Automatic temperature control systems including the latest computer monitored systems, and heating and ventilation will also be covered. Service and maintenance procedures as well as shop safety are emphasized.

**AST 1206**  
**ENGINE PERFORMANCE**

Provides students with an understanding of fuel, ignition, drivability, and emissions systems. Theory of operation as well as relevant electronic components and computing systems diagnosis is included.
AST 1212
ADV AUTO DRIVETRAINS

AST 1213
AUTO CHASSIS/STEERING

Designed to introduce the student to the theory and operation of modern suspension and steering systems. The study of the suspension system includes wheels, tires, hubs, bearings, seals, springs, and vehicle forms. Various designs and construction of each of these components will be covered. Steering and suspension systems start with the basic theory of steering geometry and the related factors. Wheel alignment, construction and operation of the various manual, and power steering components is included.

AST 1223
ADVANCED AUTO DRIVETRAINS

AST 1904
INTERNSHIP I

Provides student with the experience of a job in a business. Students will participate in internship during the final phase of program completion. Contracts will be signed between the school, students, and training site stating the rules and objectives of internship.

AST 2103
ADVANCED AUTO ELECTRONICS

Prerequisites: AST 1105 and ELT 1222. This course applies the fundamentals of electronics, including Ohm’s Law, basic electrical circuits, wiring diagrams, and common electrical symbols to the automobile. Diagnosis and troubleshooting of electrical circuits is emphasized, including familiarizations with most common types of testing equipment. It includes an in-depth study of the theory and operation of automobile electronic control systems.

AST 2113
ADV ENGINE PERFORMANCE

Prerequisites: AST 1105, AST 1206, and ELT 1222. This course covers advanced theory and testing of engine related fuel and computerized systems. The student should have a basic understanding of basic computer, fuel, and ignition systems. Students will use more advanced equipment for testing.

AST 2203
DIESEL THEORY

Studies the basic principles involved in the construction and operation of diesel engines. Examines fuel, air, cooling, and control systems of various designs. Discusses engine overhaul and repair, includes gauging proper measuring instruments and tools for these tasks. Studies the design, operation, care, and repair of fuel injection systems used on a variety of diesel engines. Emphasizes care and cleanliness in troubleshooting the fuel preheating, starting, generating, and lighting systems. Lecture: 2 hours, laboratory: 1 hour.
AST 2903
INTERNSHIP II

Provides student with the experience of a job in a business. Students will participate in internship during the final phase of program completion. Contracts will be signed between the school, students, and training site stating the rules and objectives of internship.

AST 2991
SPECIAL TOPICS FOR AST

This course is designed to introduce students to specific areas in Automotive Service Technology. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

AST 2992
SPECIAL TOPICS FOR AST

This course is designed to introduce students to specific areas in Automotive Service Technology. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

AST 2993
SPECIAL TOPICS FOR AST

This course is designed to introduce students to specific areas in Automotive Service Technology. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once. This course requires 15 clock hours per one semester credit hour.

AST 2994
SPECIAL TOPICS FOR AST

This course is designed to introduce students to specific areas in Automotive Service Technology. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

AST 2995
SPECIAL TOPICS FOR AST

This course is designed to introduce students to specific areas in Automotive Service Technology. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

AST 2996
SPECIAL TOPICS FOR AST

This course is designed to introduce students to specific areas in Automotive Service Technology. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.
BIOL 1004
PRIN ENVIRONMENTAL SCI

On demand. This course is designed to bring the student to a basic but informed awareness of and responsible behavior toward our environment and the role of the human race therein. The content will include a study of the philosophical and scientific basis for the study of ecosystems and the environment, the nature of ecosystems, the techniques used to study the environment, the origin and development of current environmental problems, the interdisciplinary nature of environmental studies, the processes of critical thinking and problem solving, and the moral and ethical implications of environmentally-mandated decisions. Lecture three hours, Lab three hours. $20 laboratory fee.

BIOL 1011
ORIENTATION TO BIOL SCI

This course orients entering students to the biological sciences. Topics examined in this course include an overview of the Tech Department of Biological Sciences and careers in biology, managing a biology curriculum (registration procedures, student responsibilities, and study skills), requirements for professional schools and graduate education, and undergraduate research opportunities.

BIOL 1014
INTRO/BIOLOGICAL SCIENCE

Each semester. An introduction to the major concepts of biological science, with an emphasis on the development of this scientific perspective and how it applies to humans. Duplicate credit for BIOL 1014 and BIOL 1114 will not be allowed. May not be taken for credit after completion of BIOL 1114, 2124, or 2134. Lecture three hours. Laboratory two hours. $10 laboratory fee.

BIOL 1114
PRINCIPLES/BIOLOGY

Each semester. Prerequisite: scores of 19 or higher on the reading and science reasoning portions of the enhanced ACT; or a grade of C or higher in a science course; or approval of the instructor. Duplicate credit for BIOL 1014 and BIOL 1114 will not be allowed. An in depth study of biological principles and the interrelationships of biology with other sciences. Topics included are: cellular structure, intermediary metabolism and differentiation, population genetics, ecology, and evolution. Lecture three hours, laboratory two hours. $10 laboratory fee.

BIOL 2004
BASIC HUMAN ANAT/PHYSIOL

Each semester. Prerequisites: a grade of C or higher in a science course or approval of the instructor. This course may not be taken for credit after completion of BIOL 2014, 3074, or equivalent. This course is intended for students who have a need for basic studies in functional aspects of the organ systems of the human body. Lecture three hours, laboratory two hours. $10 laboratory fee.

BIOL 2014
HUMAN ANATOMY

Each semester. Prerequisites: a grade of C or higher in a science course or approval of the instructor. This is an introductory course in human anatomy which should be useful to students in the biological and health oriented fields. The course is designed to present an introduction to the unified concepts and data that contribute to a basic understanding of the structure of the human body. The course will include familiarization with essential technical vocabulary; reference to general functions of organs and organ systems; and brief encounters with histology, embryology, and comparative anatomy. Lecture three hours, laboratory two hours. $10 laboratory fee.
BIOL 2022
MED LAB ORIEN/INST.LAB
Fall. Prerequisites: a grade of "C" or higher in BIOL 1114 or BIOL 2124. Enrollment is limited to students enrolled in BIOL 2023. Topics covered will include laboratory orientation, laboratory procedures/techniques, introduction to clinical laboratory instrumentation (both manual and automated), quality control principles, and care of equipment. Laboratory four hours per week. $10 laboratory fee.

BIOL 2023
MED LAB ORIENT/INSTRUM
Fall. Enrollment is limited to medical assistant and/or medical technology majors who have completed at least BIOL 1114 or BIOL 2124 (AHS 2013 recommended) with a grade of "C" or higher and are in the final year of their program at Tech. This course is concerned with both the theoretical and practical application of a wide range of clinical duties performed by the medical assistant and medical technologist. Topics covered will include hematology, urinalysis, hemostatic processes, body chemistry, microbiology, and blood typing. Lecture three hours.

BIOL 2111
ENVIRONMENTAL SEMINAR
Spring. A seminar for students pursuing the environmental option of biology, chemistry, or geology and other students interested in environmental sciences.

BIOL 2124
PRINCIPLES/ZOOLOGY
Each semester. Prerequisite: scores of 19 or higher on the reading and science reasoning portions of the enhanced ACT; or BIOL 1014 or BIOL 1114; or approval of the instructor. A survey of the major animal phyla: morphology, physiology, and natural history. Lecture three hours, laboratory two hours. $10 laboratory fee.

BIOL 2134
PRINCIPLES OF BOTANY
Each semester. Prerequisite: scores of 19 or higher on the reading and science reasoning portions of the enhanced ACT; or BIOL 1014 or BIOL 1114; or approval of the instructor. Introduction to the structure, function, classification, and importance of nonvascular and vascular plants. Lecture three hours, laboratory two hours. $10 laboratory fee.

BIOL 2144
HONORS ZOOLOGY
Prerequisites: Admission to the Tech Honors Program or permission of the instructor. An honors course which includes a survey of the major animal phyla: morphology, physiology, and natural history. The presentation will foster rational inquiry, critical thinking, and analytical skills in general and specifically toward discussions of evolution and associated implications for world views. Duplicate credit for BIOL 2124 and 2144 will not be allowed. Lecture 3 hours, lab 2 hours.

BIOL 2881
SPECIAL TOPICS IN BIOLOGY
On demand. Prerequisites: consent of the instructor. This course offers specialized instruction in an area of biological sciences that is not otherwise covered in the curriculum. The focus of the course will vary from offering to offering, thus the course may be taken more than once. Note: BIOL 2884 includes a $10 lab fee.

BIOL 2882
SPECIAL TOPICS IN BIOLOGY

On demand. Prerequisites: consent of the instructor. This course offers specialized instruction in an area of biological sciences that is not otherwise covered in the curriculum. The focus of the course will vary from offering to offering, thus the course may be taken more than once. Note: BIOL 2884 includes a $10 lab fee.

BIOL 2883
SPECIAL TOPICS IN BIOLOGY

On demand. Prerequisites: consent of the instructor. This course offers specialized instruction in an area of biological sciences that is not otherwise covered in the curriculum. The focus of the course will vary from offering to offering, thus the course may be taken more than once. Note: BIOL 2884 includes a $10 lab fee.

BIOL 2884
SPECIAL TOPICS IN BIOLOGY

On demand. Prerequisites: consent of the instructor. This course offers specialized instruction in an area of biological sciences that is not otherwise covered in the curriculum. The focus of the course will vary from offering to offering, thus the course may be taken more than once. Note: BIOL 2884 includes a $10 lab fee.

BIOL 3004
PLANT TAXONOMY

Spring. Prerequisite: BIOL 1114 and 2134 or permission of instructor. An overview of the major principles of classification, identification, naming, and collection of representatives of vascular plants. Lecture two hours, laboratory four hours. $20 laboratory fee.

BIOL 3014
COMPARATIVE ANATOMY

On demand. Prerequisite: BIOL 2124. A comparative study of the vertebrate classes in terms of their organ systems. An emphasis is placed on evolution from aquatic to terrestrial forms and significant phylogenetic trends. Lecture two hours, laboratory four hours. $10 laboratory fee.

BIOL 3024
EMBRYOLOGY

On demand. Prerequisite: BIOL 2124. A comparative study of the development of the frog, pig, and chick, and an introduction to human embryology. Lecture two hours, laboratory four hours. $10 laboratory fee.
BIOL 3043
CONSERVATION

On demand. Prerequisite: BIOL/CHEM/GEOL 2111. A study of natural resources, their utilization in a technical society, and factors leading to their depletion. Lecture three hours.

BIOL 3054
MICROBIOLOGY

Each semester. Prerequisites: One semester of chemistry and one semester of biology. An introduction to the microbial world with an emphasis on prokaryotes. Identification of bacteria based on staining, immunologic reactions, morphology and physiology. Symbionts and pathogens of human and domestic animals. Principles of control using chemical and physical agents. An overview of virology and immunology. Lecture three hours, laboratory two hours. $10 laboratory fee.

BIOL 3064
PARASITOLOGY

On demand. Prerequisite: BIOL 2124. A survey of parasitism in the various phyla. Special emphasis is given to parasites that affect humans. Lecture two hours, laboratory four hours. $10 laboratory fee.

BIOL 3074
HUMAN PHYSIOLOGY

Each semester. Prerequisites: C grade or better in BIOL 2014 and CHEM 1114 or CHEM 2124. An introduction to the function of vertebrate body systems, i.e., muscle action, digestion, circulation, nervous control, endocrine, metabolism and respiration, with special emphasis on the human body. Lecture three hours, laboratory two hours. $10 laboratory fee.

BIOL 3084
ICHTHYOLOGY

Fall. Prerequisite: BIOL 2124. Systematics, collection, identification, natural history, and importance of fishes. Lecture two hours, laboratory four hours. $20 laboratory fee.

BIOL 3094
ENTOMOLOGY

On demand. Prerequisite: BIOL 2124. Introduction to the world of insects: morphological and physiological adaptations, classification, methods and collecting and preserving common insects. Lecture two hours, laboratory four hours. $20 laboratory fee.
Spring. A seminar for students pursuing the environmental option of biology, chemistry, or geology and other students interested in environmental sciences.

**BIOL 3114**  
**PRINCIPLES OF ECOLOGY**  
Fall and Spring. Prerequisites: BIOL 2124, 2134, and one semester of chemistry. Responses of organisms to environmental variables, bioenergetics, population dynamics, community interactions, ecosystem structure and function, and major biogeographical patterns. Lecture two hours, laboratory four hours. $20 laboratory fee.

**BIOL 3124**  
**GENERAL PHYSIOLOGY**  
Fall. Prerequisites: BIOL 1114, 2124, 2134, and two semesters of chemistry. An in depth study of basic physiology employing examples of both plants and animals. Lecture three hours, laboratory two hours. $10 laboratory fee.

**BIOL 3134**  
**INVERTEBRATE ZOOLOGY**  
Spring. Prerequisites: BIOL 1114, 2124, 2134, and two semesters of chemistry. Morphology, physiology, natural history and taxonomy of major invertebrate phyla. Laboratory maintenance and preservation techniques. Lecture two hours, laboratory four hours. $20 laboratory fee.

**BIOL 3144**  
**ORNITHOLOGY**  
Spring. Prerequisite: BIOL 2124. An introduction to the biology of birds. The course covers aspects of anatomy, physiology, behavior, natural history, evolution, and conservation of birds. Laboratories address field identification and natural history of the birds of Arkansas. Students will be expected to participate in an extended 5-7 day field trip. Lecture two hours, laboratory four hours. $20 laboratory fee.

**BIOL 3154**  
**MAMMALOGY**  
Fall. Prerequisite: BIOL 2124. Taxonomy, identification, ecology, and study natural history of the mammals. Lecture three hours, laboratory two hours. $20 laboratory fee.

**BIOL 3163**  
**BIODIVERSITY/CONSERV BIO**  
Fall of even years. Prerequisites: FW(BIOL) 3114 and one of the following: BIOL 3004, FW(BIOL) 3084, BIOL 3094, BIOL 3134, FW(BIOL) 3144, FW(BIOL) 3154, BIOL(FW) 3224, BIOL 4044, or permission of instructor. The concepts of, processes that produce, and factors that threaten biological diversity are introduced and examined. Further emphasis is placed on unique problems associated with small population size, management of endangered species, and practical applications of conservation biology. Lecture three hours.

**BIOL 3174**  
**PHYSIOLOGICAL ECOLOGY**
Prerequisites: BIOL 1114, 2124, 2134 and two semesters of chemistry. An in-depth study of plant and animal adaptations and responses to different environmental conditions. Comparative physiology of major systems, mechanisms of adaptation and adaptations to challenging habitats will be studied. $10 laboratory fee.

BIOL 3184
ANIMAL BEHAVIOR

Spring of even years. Prerequisites: sophomore standing in biology or psychology, or approval of instructor. An introductory course in animal behavior covering behavioral responses in primitive and advanced animals exposed to a wide range of environmental and social conditions. Laboratory exercises will include field as well as in-lab exercises and will focus on observational techniques and analyses of behavioral patterns in vertebrates and invertebrates. Lecture three hours, laboratory two hours. $20 laboratory fee.

BIOL 3213
SCI EDUC IN ELEM SCHOOL

Each semester. Prerequisites: Junior standing, ECED 2001, ECED 2002, and at least six credit hours in science. An overview of the most recent and research-based strategies and techniques for planning, teaching, and assessing elementary science. Inquiry-based methods and other constructivist approaches as described in the National Science Education Standards will be emphasized. Design and execution of learning activities for an elementary school setting are required. Lecture two hours, laboratory two hours; three credit hours. $10 laboratory fee. Note: To enroll in an internet section (TC1 or AT1) of this course, one of these prerequisite courses is required: COMS 1003, EDMD 3013, or equivalent.

BIOL 3223
SCI ED MIDDLE LEVEL

Spring. Prerequisites: 16 hours in science and MLED 2001. This course is designed to provide pre-service teachers with an integrated approach to the teaching of science in the middle grades. Theoretical and practical aspects of teaching science will be explored and students will develop curricular materials based on their explorations. Lecture two hours, laboratory 2 hours. $10 laboratory fee.

BIOL 3224
HERPETOLOGY

Spring of odd years. Prerequisite: BIOL 2124. The phylogeny, classification, physiology, behavior, and distribution of reptiles and amphibians. The Laboratory will stress identification of the species found in Arkansas Lecture two hours, laboratory four hours. $20 laboratory fee.

BIOL 3233
SCI EDUC IN SEC SCHOOL

Fall. Prerequisites: 16 hours in biology or 16 hours in physical science and SEED 2002. This course will examine the issues of nature and history of science, developing lessons and assessments, and science education standards for the prospective secondary school teacher. Curriculum development, including assessment and planning skills, utilizing various instructional media and inquiry methodology are emphasized. Design and execution of learning activities for a secondary school setting are required. Lecture two hours and lab two hours. $10 laboratory fee.

BIOL 3252
NATURE/CONTEXT OF SCI

On demand. Prerequisite: At least 12 hours of science courses. This seminar course examines science from a holistic perspective. It will concentrate on examining how current science develops scientific knowledge including unifying concepts across scientific disciplines, the place of science within modern society, technology and its role in science and society, and current scientific methodology.
BIOL 3803  
**APPL PATHOPHYSIOLOGY**  
Each semester. Prerequisites: grade of C or better in BIOL 2014 and BIOL 3074. This course focuses on the mechanisms and concepts of selected pathological disturbances in the human body. Emphasis is placed on how the specific pathological condition effects the functioning of the system involved, as well as its impact on all other body systems. Lecture 3 hours.

BIOL 4003  
**HIST/PHIL SCIENCE**  
On demand. Prerequisite: a Sophomore- level science course (or higher). A course in the historical development and philosophical basis of modern science. BIOL (PHSC) 5003 may not be taken for credit after completion of this course. Three hours lecture.

BIOL 4013  
**MULTICULTURAL SCIENCE ED**  
On demand. Prerequisites: Junior standing or admission to teacher education program. A course designed to familiarize prospective teachers with the materials, methods, and procedures to meet the needs of culturally diverse learners in the science classroom. This course includes the discussion of equity issues, the limitations of Eurocentric and androcentric science world views, how culturally diverse students learn science, instructional strategies, technology, and alternative assessment. Lecture three hours for three credit hours.

BIOL 4014  
**ENDOCRINOLOGY**  
Spring of odd years. Prerequisites: BIOL 1114, 2124 and one semester of chemistry. An in-depth study of the endocrine systems of animals with emphasis on vertebrates. Histology and embryology of endocrine organs or cell groups, mechanisms of stimulation, response, and actions plus comparative aspects of similar organs in different animal groups will be studied. Lecture 3 hours, laboratory two hours. $10 laboratory fee.

BIOL 4023  
**IMMUNOLOGY**  
Spring. Prerequisites: Four hours each in biology and chemistry and/or consent of instructor. An overview of the human immune system, including cellular and humoral defense mechanisms, immunity to infection, hypersensitivity, transplant rejection, and tumor destruction. Immune deficiency and autoimmune diseases. Antibody structure and the use of antibodies in medicine and research. Three hours lecture.

BIOL 4024  
**LIMNOLOGY**  
Spring. Prerequisite: BIOL(FW) 3114. A study of physical and chemical processes in fresh water and their effects on organisms in lakes and streams. Laboratory sessions and field trips demonstrate limnological instrumentation and methodology. Lecture two hours, laboratory four hours. $20 laboratory fee.

BIOL 4033  
**CELL BIOLOGY**  
Fall. Prerequisites: BIOL 1114, 2124 or 2134 plus four additional hours of biology and one course from BIOL 3034, 3054, 4023 or CHEM 3343; eight hours of chemistry. The primary goal of this course is to introduce the basic cell structures and the molecular mechanisms whereby the cell functions through the
directed application of energy and processing of information. Topics include methods of cell study, cellular organelles and their ultrastructures, membrane structure and function, cell differentiation, and reproduction. Lecture three hours.

**BIOL 4044  
DENDROLOGY**

Fall. Prerequisites: BIOL 1114 and 2134. A study of woody plants with emphasis on field recognition throughout the year. Lecture two hours, laboratory four hours. $20 laboratory fee.

**BIOL 4054  
VERTEBRATE HISTOLOGY**

Spring of even years. Prerequisites: BIOL 1114, 2124 and an additional four hours in biology. A study of functional/structural relationship of cells, tissues, and organs. Exercises in the preparation and observation of tissues and development of general principles of micro techniques. Lecture two hours, laboratory four hours. $10 laboratory fee.

**BIOL 4064  
EVOLUTIONARY BIOLOGY**

Spring of even years. Prerequisite: BIOL 3034 or permission of instructor. This course focuses upon the principles and major concepts in evolutionary biology from a historical and contemporary viewpoint. Morphological and molecular evolution, population genetics, systematics, the fossil record, a history of life on earth, macroevolution, and adaptation are among the topics examined in this course. Lecture 3 hours, lab 3 hours. $10 laboratory fee.

**BIOL 4074  
MOLECULAR GENETICS**

Spring of odd years. Prerequisite: BIOL 3034. This course continues the material introduced in Genetics (BIOL 3034) with a focus upon the major concepts and techniques in contemporary molecular genetics. Current viewpoints of the gene, gene regulation, developmental genetics, recombinant DNA technology, genomics, proteonomics, and molecular evolution are among the topics examined in the course. Lecture 3 hours, laboratory 3 hours. $10 laboratory fee.

**BIOL 4083  
CANCER BIOLOGY**

Prerequisites: BIOL 3034. An in-depth study of major areas and topics in cancer biology, including etiology and epidemiology of cancer, impact of the human genome mapping project, molecular genetics and cell biology of cancer, cancer modeling and clinical aspects of human cancer.

**BIOL 4094  
COASTAL ECOLOGY**

May Mini-Term. Prerequisites: BIOL 2124 and BIOL 2134 and one semester of chemistry. A focused study of coastal ecology, as represented by the Mississippi Gulf Coast. Coastal plants, animals, their interactions, and relationship to the physical environment are explored. The course includes a required field trip to the Gulf Coast. Investigations are conducted in the marshes, bays, estuaries, bogs, and barrier island systems. Students bear the cost of food and a nominal housing fee. $20 laboratory fee.

**BIOL 4111  
ENVIRONMENTAL SEMINAR**
Spring. A seminar for students pursuing the environmental option of biology, chemistry, or geology and other students interested in environmental sciences.

BIOL 4112
BIOLGY INTERNSHIP
Each semester. Prerequisite: junior or senior standing and consent of internship program director. A supervised, practical experience providing BIOL majors with a hands-on, professional experience related to their career interests. The course will allow students to gain experience in an occupational environment. Students will be placed in positions under the direction of the internship program director and work supervisor. The program will emphasize application of classroom knowledge to career goals. Approximately 200 clock hours, a proposal, a log book or journal, a summary letter from the employment supervisor, and a written report are required. A maximum of four credit hours is allowed for BIOL internship.

BIOL 4114
BIOLGY INTERNSHIP
Each semester. Prerequisite: junior or senior standing and consent of internship program director. A supervised, practical experience providing BIOL majors with a hands-on, professional experience related to their career interests. The course will allow students to gain experience in an occupational environment. Students will be placed in positions under the direction of the internship program director and work supervisor. The program will emphasize application of classroom knowledge to career goals. Approximately 400 clock hours, a proposal, a log book or journal, a summary letter from the employment supervisor, and a written report are required. A maximum of four credit hours is allowed for BIOL internship.

BIOL 4701
SPECIAL METHODS/BIOL
Fall and Spring. Prerequisites: Admission to student teaching phase of the teacher education program and concurrent enrollment in SEED 4909. Intensive on campus exploration of the principles of curriculum construction, teaching methods, use of community resources, and evaluation as related to teaching biology.

BIOL 4881
ADVANCED TOPICS BIOLOGY
On demand. Prerequisites: an upper level science course and consent of the instructor. This course offers advanced instruction in an area of biological sciences that is not otherwise covered in the curriculum. The focus of the course will vary from offering to offering, thus the course may be taken more than once. Offered on demand. $10 laboratory fee.

BIOL 4882
ADVANCED TOPICS BIOLOGY
On demand. Prerequisites: an upper level science course and consent of the instructor. This course offers advanced instruction in an area of biological sciences that is not otherwise covered in the curriculum. The focus of the course will vary from offering to offering, thus the course may be taken more than once. Offered on demand. $10 laboratory fee.

BIOL 4883
ADVANCED TOPICS BIOLOGY
On demand. Prerequisites: an upper level science course and consent of the instructor. This course offers advanced instruction in an area of biological sciences that is not otherwise covered in the curriculum. The focus of the course will vary from offering to offering, thus the course may be taken more than once. Offered on demand. $10 laboratory fee.
BIOL 4884
ADVANCED TOPICS BIOLOGY

On demand. Prerequisites: an upper level science course and consent of the instructor. This course offers advanced instruction in an area of biological sciences that is not otherwise covered in the curriculum. The focus of the course will vary from offering to offering, thus the course may be taken more than once. Offered on demand. $10 laboratory fee.

BIOL 4891
SEMINAR IN BIOLOGY:

Fall and Spring. Prerequisite: an upper level biology course and senior standing. Designed to integrate all aspects of biology by covering current topics in many fields of biology and to acquaint the student with fields of biology not covered in the general curriculum.

BIOL 4951
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

BIOL 4952
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

BIOL 4953
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

BIOL 4954
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

BLAW 2033
LEGAL ENVIRON/BUSINESS

Each semester. Prerequisite: Sophomore standing. A survey of the basic framework of the American and international legal systems, including civil procedure, constitutional law, administrative regulation, and topics in business law, with particular emphasis on the ethical, sociocultural and political influences affecting such environments.
BLAW 3063
COMMERCIAL LAW
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) Prerequisites: BUAD 2033. An in-depth analysis of the Uniform Commercial Code and its effect on the business environment. Course focuses on sales, negotiable instruments, secured transactions, and bankruptcy. Significant federal and state statutes affecting commerce also are explored.

BLAW 4073
SPECIAL TOPICS IN LAW
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) Prerequisite: BUAD 2033. Course offers an in-depth exploration of selected legal issues affecting business. The primary focus of the course will vary from offering to offering; thus the course may be taken more than once.

BUAD 1003
INTRO/BUSINESS SYSTEMS
This course cannot be taken for credit after completion of any upper division (3-4000 level) College of Business course. The purpose of "Introduction to Business Systems" is to orient students to the business disciplines and business expectations including professionalism and ethics. Topics examined include business fundamentals such as accounting, finance, management, marketing, information technology and a basic understanding of economic factors. The course also provides an overview of the College of Business programs, the College of Business core curriculum (including course requirements, student responsibilities, and study skills), and an overview of business career options.

BUAD 1023
KEYBOARDING
Instruction and supervised practice in basic keyboarding skills with emphasis on alphabetic and numeric keyboard, ten-key pad, and basic applications transferable to computer terminal keyboards. The purpose of the course is to prepare Business Education majors for teaching secondary education students how to use computer and typewriter keyboards. The course is required by Business Education majors, but may be taken by other majors as well. May not be taken for credit after successful completion of BUAD 2002.

BUAD 2003
BUSINESS INFO SYSTEMS
Each semester. Prerequisite: Sophomore standing. An introduction to business information systems with emphasis on concepts and applications utilizing spreadsheets, word processing, and database management as productivity tools; provides basic rationale for using computers in generating and managing information necessary for the business decision making process.

BUAD 2043
PRIN/WORD PROCESSING
Prerequisite: BUAD 1023 or BUAD 2003 or COMS 1003. A course designed to develop technology skills using current software; application documents include letters, memos, reports, tables, desktop publishing, and graphics for business as well as personal use.

BUAD 2053
BUSINESS STATISTICS
Each semester. Prerequisites: COMS 1003, COMS 2003, BUAD 2003 or MGMT 2013, and MATH 2223 or any higher level math course. This course reviews basic descriptive statistics and probability distributions. The course introduces inferential statistics and their application to business problems. Topics covered include data collection, the t-tests for one sample, matched-pairs, and independent groups, the F-test for one and two-way analysis of variance, the
z-test for one and two proportions, the chi-square tests for independence and goodness of fit, the t- and F-tests as they relate to simple and multiple regression, control charts, time-series analysis, the visual display of quantitative information, and the reporting of results. Problems are addressed using technology such as statistical calculators and advanced statistical software.

**BUAD 2073**
**PRINCIPLES/REAL ESTATE**
An orderly approach of study to prepare students for the Uniform License Examination. Topics covered include contracts, real estate financing, ownership, brokerage, valuation, settlements, arithmetic review, forms of ownership, title transfer, mortgage instruments, deeds, leases, title closing, contract laws, real estate taxes, property descriptions, and other pertinent areas.

**BUAD 3023**
**BUSINESS COMMUNICATIONS**
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) Each semester. Prerequisites: 6 hours of English Composition and COMS 1003 or BUAD 2003. Course includes principles of effective business communication using technology to generate documents including letters, memos, and reports; international, ethical, legal, and interpersonal topics are integrated throughout the course.

**BUAD 4001**
**PROBLEMS/BUSINESS ADMIN**
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) On demand. Prerequisites: Senior standing and permission of department head. Individual exploration of significant topics and problems in business administration under the direction of an assigned faculty member. A report will be required.

**BUAD 4002**
**PROBLEMS/BUSINESS ADMIN**
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) On demand. Prerequisites: Senior standing and permission of department head. Individual exploration of significant topics and problems in business administration under the direction of an assigned faculty member. A report will be required.

**BUAD 4003**
**PROBLEMS/BUSINESS ADMIN**
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) On demand. Prerequisites: Senior standing and permission of department head. Individual exploration of significant topics and problems in business administration under the direction of an assigned faculty member. A report will be required.

**BUS 0903**
**KEYBOARDING**
Acquaints the student with the alphabetic keyboard through usage of the computer. The course emphasizes basic skill development through drills for speed and control, methods used in centering and tabulations, letter style, business reports, and production measurement. (May be required if student’s skill level is not adequate for other course work.)
BUS 1003  
BUSINESS ENGLISH

Designed to develop the student’s vocabulary skills, dictionary usage, proofreading, listening, and English grammar as needed for current business usage enabling the student to write and communicate effectively.

BUS 1013  
WORD PROCESSING I

Pre-requisite: BUS 0903 or permission of instructor. Provides instruction in basic word processing machine operations and word processing skills. The student will learn to produce documents through keyboarding, editing, storing, retrieving, and printing. The student will also learn basic maintenance of word processing software and equipment in the modern business office.

BUS 1023  
BUSINESS MATHEMATICS

A comprehensive study of mathematics as applied to business. Banking, payroll, business statistics, and other selected topics will be covered.

BUS 1033  
ADMIN SUPPORT PROCEDURES

Prerequisite: BUS 0903 or permission of instructor. Emphasizes the practices and procedures acceptable in a business office. Topics include interpersonal relations, telephone usage, mail handling, records management, job application procedures, travel arrangements, reprographics, and financial statements.

BUS 1043  
PROF COMMUNICATION

Designed to review and/or learn the basics in punctuation and to further develop spelling skills. The course covers the principles of effective communication in the modern business office. Topics include writing skills, reading skills, and psychological principles involved in effective business letter writing as well as oral communication.

BUS 1053  
SPREADSHEETS

Students will develop comprehensive skills using Microsoft Excel. These skills will include toolbar usage, cell and worksheet formatting, cell functions, worksheet organization and printing. The user will become adept at advanced features such as charts, linking worksheets and workbooks, customizing templates and toolbars, and other features.

BUS 1063  
LEGAL ENVIRON/BUSINESS

Provides an introduction to characteristics of the American system of free enterprise and the obligations and rights of an individual. Topics include torts, rights of private property, contracts, bailment, insurance and risk, labor, and dignity and worth of an individual.
BUS 1073
ACCOUNTING
The study of fundamental accounting concepts and procedures. The course emphasizes the accounting cycle, and includes journalizing and posting transactions, preparing trial balances, worksheets, and financial statements. Emphasis is also given to cash, banking, payroll procedures, sales, purchases, and accounts receivable/payable.

BUS 1083
INTRO TO ECONOMICS
An overview of macroeconomics with continued emphasis on microeconomic theory as it applies to business technology students.

BUS 1303
INTRO TO COMPUTERS
Designed to introduce students to computer hardware, software, procedures, systems, and human resources as applied to business. It focuses on computer literacy, the concepts of the data processing cycle, and an introduction to commercially available software.

BUS 2113
WORD PROCESSING II
Pre-requisite: BUS 1013. Provides students an opportunity for more in-depth practical application of word processing skills. Emphasis is given to design, format, merging, and advanced editing techniques.

BUS 2123
COMPUTER APS/ACCOUNTING
Prerequisite: BUS 1073. Designed to acquaint students with major areas of computerized accounting. Application areas covered will include general ledger, accounts payable, accounts receivable, and payroll.

BUS 2133
MULTIMEDIA
Focuses on a variety of software as well as technology-based equipment used in advanced office settings. Projects will emphasize the use of the following: digital camera, video equipment, desktop publishing, graphics production, electronic slide show presentations, E-mail, and Internet.

BUS 2143
INTRO TO MANAGEMENT
Provides insight into the characteristics, organization, and operation of a business. Studies include international business, factors of business operations, and business decision-making. Management skills, the legal environment, and types of business ownership are included in this course.
BUS 2153
DATABASE MANAGEMENT

This course includes elementary database design, record layouts, simple selection operations, and basic report generation.

BUS 2163
DESKTOP PUBLISHING

Prerequisites: COMS 1003 or BUS 1303 and/or BUS 1013. Utilizes a desktop publishing software program in order to provide practical experience in the development of marketing and informative correspondence. Activities include creating newsletters, menus, posters, fact sheets, advertisements, business reports, brochures, comprehensive indexes, and planning a web page.

BUS 2173
SPECIAL TOPICS/BUSINESS

This course covers new developments in business environments, such as technologies, laws, and organizational structures. The instructor selects a pertinent and current topic as the focus of the course. Topics will change with semesters. May be repeated for credit for total of 6 hours.

BUS 2213
INTRO HUMAN ANATOMY

This course is designed for the student desiring knowledge relative to the human structure and basic functioning of the human body. This course meets the basic requirement of in-breadth, but not in-depth study of the human body.

BUS 2223
MEDICAL TRANSCRIPTION I

Pre-requisite: BUS 0903. Introduces the student to the skills needed to properly format medical documentation such as history and physical reports, operative reports, discharge summaries, etc. Provides training in the transcribing of documents from recordings using a microcomputer and transcription machine.

BUS 2233
MEDICAL TERMINOLOGY

Study of terms that relate to body systems, anatomical structures, medical processes and procedures, drugs and a variety of diseases that afflict humans. This course includes medical word construction, definitions, spellings, and the use of terms in the medical field.

BUS 2243
DISEASE PROCESSES

Pre-requisites: BUS 2213 and BUS 2233. Coverage of the nature of diseases and human conditions. Includes symptoms, signs, etiological factors, diagnostic studies, and treatments.
BUS 2253
MEDICAL CODING I

Pre-requisites: BUS 2213 and BUS 2233. Introduces the student to the concepts of coding medical conditions and procedures. The student will gain entry-level proficiency in the techniques of coding using the ICD-9-CM (International Classification of Diseases, 9th revision, Clinical Modification) system.

BUS 2263
MEDICAL CODING II

Pre-requisite: BUS 2253. Introduces the student to the concepts of coding medical procedures in the physician office. The student will become familiar with entry-level proficiency in the techniques of coding using the Current Procedural Terminology (CPT) system.

BUS 2273
MEDICAL TRANSCRIPTION II

Pre-requisite: BUS 2223. Includes advanced word and information processing concepts and advanced applications.

BUS 2283
HUMAN ANATOMY AND PHYSIOLOGY

This course is designed to present an in-depth study of the anatomical structure of the human body. Students in this course will be presented concepts which will continue to develop a basic understanding of the internal relationships within the human body.

BUS 2303
MONEY AND BANKING

Addresses the various financial markets as well as economic factors and their impact on the banking industry.

BUS 2313
DEPOSIT OPERATIONS

Covers customer services, teller functions, new accounts, accounts payable, trusts, estates, branch security, general ledger banking, e-banking and online banking, call support, confidentiality, and research in banking.

BUS 2333
LOAN OPERATIONS

All aspects of consumer and commercial lending as well as financial and insurance statements. Other topics that will be addressed include managing loan files, assessing risk in lending, understanding issues of regulation and compliance, bankruptcy, credit reports, and appraisals.

BUS 2903
INTERNSHIP
Provides students with experience in a business setting. Students will participate in internship during the final phase of program completion. There will be contracts signed between the school, students, and training site stating the rules and objectives of the internship.

**BUS 2991**  
**SPEC TOPIC/BUSINESS TECHNOLOGY**

This course is designed to introduce students to specific areas in Business Technology. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

**BUS 2992**  
**SPEC TOPIC/BUSINESS TECHNOLOGY**

This course is designed to introduce students to specific areas in Business Technology. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

**BUS 2993**  
**SPEC TOPIC/BUSINESS TECHNOLOGY**

This course is designed to introduce students to specific areas in Business Technology. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

**BUS 2994**  
**SPEC TOPIC/BUSINESS TECHNOLOGY**

This course is designed to introduce students to specific areas in Business Technology. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

**BUS 2995**  
**SPEC TOPIC/BUSINESS TECHNOLOGY**

This course is designed to introduce students to specific areas in Business Technology. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

**BUS 2996**  
**SPEC TOPIC/BUSINESS TECHNOLOGY**

This course is designed to introduce students to specific areas in Business Technology. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.
CHEM 1114  
SURVEY OF CHEMISTRY  
Each semester. Prerequisite: a score of 19 or above on the mathematics section of the ACTE exam, or completion of MATH 0903, Intermediate Algebra, with a grade of C or better. A survey of selected topics in chemistry for life science majors. A brief introduction to fundamental concepts, atomic structure, chemical bonding, and periodic law as applied in the life sciences and allied areas. Lecture three hours, laboratory three hours. May not be taken for credit after completion of CHEM 2124 or 2134. $10 laboratory fee.

CHEM 2111  
ENVIRONMENTAL SEMINAR  
(See CHEM 4111).

CHEM 2124  
GENERAL CHEMISTRY I  
Each semester. Prerequisites: score of 21 or higher on the math portion of the ACTE; or MATH 1113 or equivalent; or a "C" or better in CHEM 1114; or approval of the instructor. The first of a two semester sequence designed for science and engineering majors. Topics include qualitative and quantitative, applied and theoretical analyses of the interactions of matter; atoms, molecules, ions, the mole concept, chemical equations, gases, solutions, intermolecular forces, thermochemistry, quantum theory, periodic law, ionic and covalent bonding, molecular geometry. Lecture three hours, laboratory three hours. $10 laboratory fee.

CHEM 2134  
GENERAL CHEMISTRY II  
Each semester. Prerequisite: completion of CHEM 2124 or equivalent. A continuation of CHEM 2124, encompassing chemical kinetics, equilibrium, acid/base systems, atmospheric chemistry, thermodynamics, electrochemistry, descriptive inorganic chemistry and nuclear chemistry. Lecture three hours, laboratory three hours. $10 laboratory fee.

CHEM 2201  
CHEMISTRY SEMINAR  
(See CHEM 4401).

CHEM 2204  
ORGANIC PHYS CHEMISTRY  
Spring semester. Prerequisites: CHEM 1114 or CHEM 2124. For students who desire only one semester of organic/physiologic chemistry, such as wildlife biology and various allied health programs. A brief introduction to organic and physiological chemistry. The structures, reactions and biological aspects of organic compounds will be stressed. Will not be counted for chemistry credit toward the ACS approved BS in chemistry. Lecture three hours, laboratory three hours. $10 lab fee.

CHEM 2991  
SPECIAL PROBLEMS/CHEM
Permission of instructor. One to three credits, depending on the nature and extent of the problem. This course is designed to encourage creative, independent scientific activity on the part of advanced students. Problems will be designed to fit the future aspirations of individual students and will be supervised by a faculty mentor.

CHEM 2992
SPECIAL PROBLEMS/CHEM

Permission of instructor. One to three credits, depending on the nature and extent of the problem. This course is designed to encourage creative, independent scientific activity on the part of advanced students. Problems will be designed to fit the future aspirations of individual students and will be supervised by a faculty mentor.

CHEM 2993
SPECIAL PROBLEMS/CHEM

Permission of instructor. One to three credits, depending on the nature and extent of the problem. This course is designed to encourage creative, independent scientific activity on the part of advanced students. Problems will be designed to fit the future aspirations of individual students and will be supervised by a faculty mentor.

CHEM 3111
ENVIRONMENTAL SEMINAR

(See CHEM 4111).

CHEM 3245
QUANTITATIVE ANALYSIS

Spring. Prerequisites: CHEM 2134. This is a lab intensive course, that focuses on a variety of experimental techniques that enable the chemist to characterize and quantify many types of samples. Lecture three hours, laboratory six hours. $10 laboratory fee.

CHEM 3254
FUND OF ORGANIC CHEM

Fall, Spring. Prerequisites: CHEM 2134. An introduction to the chemistry of covalently bonded carbon. Special emphasis will be given to descriptive and structural aspects of Organic Chemistry. Lecture three hours, laboratory three hours. $10 laboratory fee.

CHEM 3264
MECH ORGANIC CHEMISTRY

Spring. Prerequisite: Completion of CHEM 3254 or equivalent. A continuation of CHEM 3254 with special emphasis on theory and mechanisms of organic reactions. Lecture three hours, laboratory three hours. $10 laboratory fee.

CHEM 3301
CHEMISTRY SEMINAR
CHEM 3313
ENVIRONMENTAL CHEMISTRY
Spring. Prerequisite: Chemistry 3254. An examination of the chemistry of the environment including the origins, natural processes, and anthropogenic influences.

CHEM 3324
PHYSICAL CHEMISTRY I
Fall. Prerequisites: CHEM 3245, PHYS 2024, or 2124, MATH 2924. Upper division chemistry course designed for chemistry, physical science, and engineering majors desiring a deeper understanding of the physical and mathematical processes of chemistry. Course content includes ideal and non-ideal gases, laws of thermodynamics, enthalpy, heat capacity, free energy, Maxwell's relations, chemical and phase equilibria, electrochemical equilibria, fugacities, activity coefficients, mixtures, colligative properties, surfaces. Lecture three hours, laboratory three hours. $10 laboratory fee.

CHEM 3334
PHYSICAL CHEMISTRY II
Spring. Prerequisite: CHEM 3324. Continuation of CHEM 3324 (Physical Chemistry I). Upper division chemistry course designed for chemistry, physical science and engineering majors desiring a deeper understanding of the physical and mathematical processes of chemistry. Course content includes chemical kinetics and reaction mechanisms, molecular collisions, transition state theory, quantum mechanics, electronic structure of atoms and diatomic molecules, molecular spectroscopy, solid-state chemistry. Lecture three hours, laboratory three hours. $10 laboratory fee.

CHEM 3344
PRINC OF BIOCHEMISTRY
Fall, Spring. Prerequisite: CHEM 3264 and BIOL 1014 or 1114. The chemistry of metabolism of carbohydrates, lipids, and proteins. Basic concepts of the biochemistry of DNA, vitamins, enzymes, biological oxidations, and bioenergetics with introduction to biochemical laboratory techniques. Lecture three hours, laboratory three hours. $10 laboratory fee.

CHEM 3353
FUNDAMENTAL/TOXICOLOGY
On demand. Prerequisite CHEM 3254. An introduction to the science of poisons. Toxicological principles studied include structures, dose/response relationships, metabolism, mechanism of action, and gross effects of chemicals.

CHEM 3363
METABOLIC BIOCHEMISTRY
Prerequisites: CHEM 3343. The study of metabolism of carbohydrates, lipids, proteins, and nucleic acids, and the study of biological information flow in organisms. Metabolic pathways and genetic informational flow in plants and animals will be addressed. Lecture three hours.

CHEM 3423
DESCRIPTIVE INORGANIC CHEM
Prerequisite: CHEM 3264. Basic descriptive inorganic chemistry dealing in a systematic way with the elements and the structures, properties and reactions of their inorganic compounds. Topics range from coordination chemistry to organometallic chemistry to bioinorganic chemistry. Three hours of lecture.

CHEM 3991
SPECIAL PROBLEMS/CHEM

Permission of instructor. One to three credits, depending on the nature and extent of the problem. This course is designed to encourage creative, independent scientific activity on the part of advanced students. Problems will be designed to fit the future aspirations of individual students and will be supervised by a faculty mentor.

CHEM 3992
SPECIAL PROBLEMS/CHEM

Permission of instructor. One to three credits, depending on the nature and extent of the problem. This course is designed to encourage creative, independent scientific activity on the part of advanced students. Problems will be designed to fit the future aspirations of individual students and will be supervised by a faculty mentor.

CHEM 3993
SPECIAL PROBLEMS/CHEM

Permission of instructor. One to three credits, depending on the nature and extent of the problem. This course is designed to encourage creative, independent scientific activity on the part of advanced students. Problems will be designed to fit the future aspirations of individual students and will be supervised by a faculty mentor.

CHEM 4111
ENVIRONMENTAL SEMINAR

Spring. A seminar for students pursuing the environmental option of chemistry, biology, or geology and other students interested in environmental sciences.

CHEM 4401
CHEMISTRY SEMINAR

Spring. Participants will prepare written reviews, present oral reports, and defend their reports. Emphasis will be on the use of the library and current chemical research.

CHEM 4414
INSTRUMENTAL ANALYSIS

Fall. Prerequisite: CHEM 3245. This course is designed for chemistry majors. It will focus on the understanding of the instrumental methods used in analytical chemistry. A variety of spectrometric, chromatographic, and electrometric techniques will be covered in the lecture and laboratory. Lecture three hours, laboratory three hours. $10 laboratory fee.

CHEM 4422
ADVANCED ORGANIC CHEM
On demand. Prerequisite: CHEM 3264. An expansion and/or continuation of theoretical topics addressed in CHEM 3264.

CHEM 4424
ADV INORGANIC CHEMISTRY

Spring. Prerequisite: CHEM 3324. CHEM 4424 is a senior level inorganic chemistry course. The course gives an overview of some of the many advanced areas of study in inorganic chemistry including atomic and molecular structure, acid-base chemistry, symmetry and group theory, coordination chemistry and organometallic chemistry. Lecture three hours, laboratory three hours. $10 laboratory fee.

CHEM 4432
ADVANCED TOPICS/CHM

On demand. Prerequisite: Permission of instructor. Various advanced topics in any specialty area of chemistry, e.g., polymers, coordination chemistry, and nuclear chemistry.

CHEM 4433
ADVANCED TOPICS/CHM

On demand. Prerequisite: Permission of instructor. Various advanced topics in any specialty area of chemistry, e.g., polymers, coordination chemistry, and nuclear chemistry.

CHEM 4434
ADVANCED TOPICS/CHM

On demand. Prerequisite: Permission of instructor. Various advanced topics in any specialty area of chemistry, e.g., polymers, coordination chemistry, and nuclear chemistry.

CHEM 4951
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

CHEM 4952
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

CHEM 4953
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

CHEM 4954
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

CHEM 4991
SPEC PROB/CHEM

Permission of instructor. One to four credits, depending on the nature and extent of the problem. This course is designed to encourage creative, independent scientific activity on the part of advanced students. Problems will be designed to fit the future aspirations of individual students and will be supervised by a faculty mentor.

CHEM 4992
SPEC PROB/CHEM

Permission of instructor. One to four credits, depending on the nature and extent of the problem. This course is designed to encourage creative, independent scientific activity on the part of advanced students. Problems will be designed to fit the future aspirations of individual students and will be supervised by a faculty mentor.

CHEM 4993
SPEC PROB/CHEM

Permission of instructor. One to four credits, depending on the nature and extent of the problem. This course is designed to encourage creative, independent scientific activity on the part of advanced students. Problems will be designed to fit the future aspirations of individual students and will be supervised by a faculty mentor.

CHEM 4994
SPEC PROB/CHEM

Permission of instructor. One to four credits, depending on the nature and extent of the problem. This course is designed to encourage creative, independent scientific activity on the part of advanced students. Problems will be designed to fit the future aspirations of individual students and will be supervised by a faculty mentor.

CHIN 1014
BEGINNING CHINESE I

Prerequisite: Consent of Instructor. Student will be given credit for 40 hours of set construction participation.

CHIN 1024
BEGINNING CHINESE II
Continued emphasis on conversation and fundamental language skills.

CHIN 2014
INTERMEDIATE CHINESE I
Prerequisite: Beginning Chinese II (CHIN 1024) or equivalent. Instruction designed to develop communication skills and knowledge of grammar, reading, writing, and culture.

CHIN 2024
INTERMEDIATE CHINESE II
Prerequisite: Intermediate Chinese I (CHIN 2014) or equivalent. Instruction designed to enhance communication skills and knowledge of grammar, reading, writing, and culture.

CIS 1103
PROGRAMMING I
This course is designed to give the student an understanding of established and new methodologies using Microsoft Visual Basic programming. Course content will include an overview of programming, designing an application and using variables and constants. Emphasis will be placed on developing logical thinking skills. No prior programming skill is necessary.

CIS 1113
FUNDAMENTAL COMPUTER OPERATION
Students will learn to manage current Microsoft Operating Systems. Topics included are troubleshooting and applying basic commands that are necessary in a working environment. Students will also explore basic Network and Web Design concepts. No prior computer experience is necessary.

CIS 1123
NETWORKING I
Designed as a foundation course that provides the theory and basic understanding of the hardware and software that comes together to build local area and wide area networks.

CIS 1133
MICROCOMP APPLICATIONS
This class is an introduction to using microcomputer application software. It uses business software in a hands on lecture approach. Topics include the use of microcomputers for word processing, spreadsheet, database, electronic publishing and presentation functions.

CIS 1143
INTRO TO DIGITAL LOGIC
An introductory course in the study of Digital Logic Systems. Basic digital logic gates, truth tables, numbering systems, and different types of TTL integrated circuits are studied.

CIS 1153
NETWORKING I

Designed as a foundation course that provides the theory and basic understanding of the hardware and software that comes together to build local area networks.

CIS 1203
PROGRAMMING II

A continuation of Programming I. This course introduces the programming power of Microsoft Visual Basic 6.0.

CIS 1213
OPERATING SYSTEMS

Pre-requisite: CIS 1113. Expands on the foundation that was built in Operating Systems I. Topics will include file management, multitasking, graphics, peer-to-peer networking, and accessories. Specific tasks of networking such as E-mail and scheduler will be covered.

CIS 1223
NETWORKING II

Pre-requisite: CIS 1123. Builds upon the skills and concepts learned in Networking I. Emphasis will be on the hands-on aspects of personal computer networks using Microsoft and Linux based networking products, including installations and/or expanding a networking system and troubleshooting problems.

CIS 1233
SYSTEM ANALYSIS & DESIGN

This course is an introduction to basic concepts regarding the system life cycle, analytical tools and methods, file and record layouts, and elements of the design phase.

CIS 1243
HTML PROGRAMMING

Pre-requisite: CIS 1103. This class provides training in coding simple to complex web pages using HTML code. Common programming practices as well as distinct HTML skills are taught. Repetition, variable usage, and decision structures are covered, as well as some basic Javascript routines.

CIS 1253
NETWORKING II

Pre-requisite: CIS 1153. Builds upon the skills and concepts learned in Networking I. Emphasis will be on the hands-on aspects of personal computer networks using Microsoft and Linux based networking products, including installations and/or expanding a networking system and troubleshooting problems.
CIS 1303  
PC MAINTENANCE I  
This course is designed to prepare individuals to troubleshoot, build, and repair personal computers, workstations, printers, and other computer peripherals. The student will also learn to install, debug, diagnose, and repair software problems associated with PCs.

CIS 2133  
WEB PAGE DESIGN  
This course introduces the student to design and development of web pages. HTML, images, multimedia, and other topics will be covered so that students learn how to publish and maintain a web site to a server.

CIS 2143  
HELP DESK SUPPORT  
This course is designed to teach individuals to troubleshoot the Microsoft Office Application Suite. It focuses on customer service and communication with the end user.

CIS 2153  
MICROSOFT PROGRAMMING  
This course is designed to teach individuals to use the Microsoft Visual Basic for applications. It focuses on macro creation and integration of a programming language into a business application suite.

CIS 2303  
PC MAINTENANCE II  
Pre-requisite: ICS/CIS 1303. This course is designed to teach individuals core elements of computer repair based on the A+ Certification exams. The student will build on the knowledge acquired from PC Maintenance I, allowing them to be more prepared to diagnose, and repair computers in the working environment.

CIS 2903  
INTERNSHIP  
Provides students with the experience of a job in a business. Students will participate in internship during the final phase of program completion. There will be contracts signed between the school, students, and training site stating the rules and objectives of internship.

CIS 2991  
SPECIAL TOPICS FOR CIS  
This course is designed to introduce students to specific areas in Computer Information Systems. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.
CIS 2992
SPECIAL TOPICS FOR CIS
This course is designed to introduce students to specific areas in Computer Information Systems. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

CIS 2993
SPECIAL TOPICS FOR CIS
This course is designed to introduce students to specific areas in Computer Information Systems. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

CIS 2994
SPECIAL TOPICS FOR CIS
This course is designed to introduce students to specific areas in Computer Information Systems. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

CIS 2995
SPECIAL TOPICS FOR CIS
This course is designed to introduce students to specific areas in Computer Information Systems. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

CJ 2003
INTRO/CRIMINAL JUSTICE
An overview of the criminal justice system and the workings of each component. Topics include the history, structure, and functions of law enforcement, judicial and correctional organizations, their interrelationship and effectiveness, and the future trends in each.

CJ 2033
SOCIAL PROBLEMS
Prerequisite: SOC 1003. A sociological analysis of contemporary social problems including inequalities, deviance, population changes, and troubled institutions.
CJ 2043  
CRIME AND DELINQUENCY  
Prerequisite: SOC 1003 or CJ(SOC) 2003. A study of the major areas of crime and delinquency; theories of crime, the nature of criminal behavior and the components of the criminal justice system. Topics include: crime statistics, criminology research, theories of crime and delinquency, criminal typologies and operations of the criminal justice system.

CJ 3023  
JUDICIAL PROCESS  
The structure and operations of the state and national court systems. Emphasis is upon the role of the criminal courts in the political system and the consequences of judicial policy making.

CJ 3033  
THE CRIMINAL MIND  
Prerequisite: PSY 2003 and CJ(SOC) 2003 or (CJ)SOC 2043. The course familiarizes students with various models, theories, and research regarding criminality from a psychological perspective. Genetic, constitutional, and biological factors will be emphasized and some practical applications to dealing with criminals will be considered.

CJ 3083  
SOCIAL DEVIANCE  
Prerequisite SOC 1003 or SOC(CJ) 2003. An introduction to the sociological and criminological study of human deviance. Various theories of deviance will be examined and applied to real life examples.

CJ 3103  
JUVENILE JUSTICE SYSTEM  
Prerequisite: CJ(SOC) 2003 or permission of instructor. An in-depth look at the juvenile justice system including the structure, statuses and roles as well as current issues, problems, and trends.

CJ 3153  
PRISONS AND CORRECTIONS  
Prerequisite: SOC 1003 and SOC(CJ) 2033. An introduction to and analysis of contemporary American corrections. Emphasis will be on current and past correctional philosophy, traditional and modern correctional facilities, correctional personnel and offenders, new approaches in corrections, and the relationship of corrections to the criminal justice field.

CJ 4013  
DRUGS IN SOCIETY  
Prerequisites: SOC 1003 or CJ 2003. This course presents a comprehensive study of the history and prohibition of drug use in the United States, as well as the effects of drugs on society in the form of crime, prison and treatment. The main focus of this class is on the history of drug use, how certain drugs become illegal, and the intended and unintended consequences of drug prohibition for communities and society.
CJ 4023
LAW & THE LEGAL SYSTEM
A comprehensive study of judicial process and behavior in criminal and civil law. May not be taken for credit after completion of POLS 5023 or equivalent.

CJ 4053
CRIMINAL LAW/CONSTIT
A survey of the procedures and issues associated with American criminal justice as viewed from a Constitutional perspective.

CJ 4141
SEMINAR IN CRIMINAL JUSTICE
Prerequisite: CJ 2003 and consent of instructor. This course is a directed seminar in an area of criminal justice selected by both the student and supervising faculty member. Topics will vary depending on the research underway, community or student need, and the unique educational opportunity available. This course may be repeated for course credit if the content differs.

CJ 4142
SEMINAR IN CRIMINAL JUSTICE
Prerequisite: CJ 2003 and consent of instructor. This course is a directed seminar in an area of criminal justice selected by both the student and supervising faculty member. Topics will vary depending on the research underway, community or student need, and the unique educational opportunity available. This course may be repeated for course credit if the content differs.

CJ 4143
SEMINAR IN CRIMINAL JUSTICE
Prerequisite: CJ 2003 and consent of instructor. This course is a directed seminar in an area of criminal justice selected by both the student and supervising faculty member. Topics will vary depending on the research underway, community or student need, and the unique educational opportunity available. This course may be repeated for course credit if the content differs.

CJ 4144
SEMINAR IN CRIMINAL JUSTICE
Prerequisite: CJ 2003 and consent of instructor. This course is a directed seminar in an area of criminal justice selected by both the student and supervising faculty member. Topics will vary depending on the research underway, community or student need, and the unique educational opportunity available. This course may be repeated for course credit if the content differs.

CJ 4206
THE LAW IN ACTION
Prerequisite: SOC/CJ 2043, 9 hours of Criminal Justice coursework, senior classification, and instructor permission. Offered only in the summer. An examination of sociological theories of law and main currents of legal philosophy is followed by participant observation of actual community legal agencies, including police, courts, and others as available. Requires insurance fee.
CJ 4951
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

CJ 4952
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

CJ 4953
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

CJ 4954
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

CJ 4991
SPEC PROB/CJ
Prerequisite: Prior approval of instructor and department. Content is to be determined by faculty student conference and based on student background and interest.

CJ 4992
SPEC PROB/CJ
Prerequisite: Prior approval of instructor and department. Content is to be determined by faculty student conference and based on student background and interest.

CJ 4993
SPEC PROB/CJ
Prerequisite: Prior approval of instructor and department. Content is to be determined by faculty student conference and based on student background and interest.
CJ 4994
SPEC PROB/CJ
Prerequisite: Prior approval of instructor and department. Content is to be determined by faculty student conference and based on student background and interest.

COMS 1003
INTRO COMP BASED SYS
Provides students with both computer concepts and hands-on applications. Although little or no prior computer experience is required for this course, keyboarding proficiency is assumed. Topics include PC basics, file maintenance, and hardware and software components. Students will gain experience in the use of Windows, e-mail, the Internet, word processing, spreadsheets, databases, and presentation packages. The integration of software packages will also be covered. This course may not be taken for credit after completion of COMS 2003 or BUAD 2003. Credit by examination is offered to students who have notable experience with computers and MS Office applications. Information regarding this examination can be found at cs.atu.edu/coms1003.

COMS 1103
FORTRAN PROGRAMMING
Prerequisite: MATH 1113 or equivalent. An introduction to programming using the FORTRAN language with emphasis on numerical computing, including the use of scientific subroutine libraries.

COMS 1203
PROGRAMMING IN BASIC
An introduction to programming using BASIC and/or Visual Basic.

COMS 1303
COMP APPL FOR TECH MAJ
Corequisite: MATH 1113 or equivalent. The purpose of this course is to give the students in engineering, mathematics, chemistry, and other technical disciplines the prerequisite computer skills necessary to make effective use of the computer in their major degree programs where computer applications have been integrated into the course of study.

COMS 1333
WEB PUBLISHING I
Prerequisite: COMS 1003 or BUAD 2003. This course focuses on how to develop web pages for display on the World Wide Web. Topics covered include markup languages, style sheets, links, images, multimedia, tables, forms, design issues, and other topics as appropriate. Students will learn how to publish a web site to a server and maintain the site.

COMS 1403
ORIENT TO COMP INFO/TECH
Corequisite: MATH 1113 and COMS 1411. (Required of all students who have declared a major in computer science, information systems, and information technology). An introduction to the professions of computer science, information systems, and information technology. Topics include ethics, professionalism, and opportunities within the three fields as well as an overview of hardware, software, technology, and information systems concepts and terms.
COMS 1411
COMPUTER/INFO SCI LAB
Corequisite: COMS 1403. An introduction to the computing resources of the department and the university.

COMS 2003
MICROCOMP APPLICATIONS
Prerequisite: COMS 1003 or BUAD 2003. This course provides hands-on experience with several software applications. Topics include intermediate and advanced word processing and desktop publishing features; spreadsheet design, formulas, and charts; database design principles and implementation; presentation design and techniques; and integration among these applications. Students will be required to apply each package on a semester project related to their major.

COMS 2104
FOUND COMPUTER PROG I
Prerequisite: MATH 1113, and either COMS 1403 and 1411 or consent of instructor. An introduction to structured programming using C++. This is the beginning programming course for students majoring in computer science, information systems, and information technology. Programming principles covered in lecture are practiced in lab. Major topics include sequential, selection, and iterative control structures, functions, parameter passing, and file processing. Arrays are introduced as a structured data type.

COMS 2163
SCRIPTING LANGUAGES
Prerequisite: Minimum of 3 hour programming course. This course introduces the student to script writing in several languages. The primary categories of scripts will be UNIX shell, text processing, and Perl. CGI Scripts, using Perl, will be introduced.

COMS 2203
FOUND COMPUTER PROGRAMMING II
Prerequisite: MATH 1113 and completion of COMS 2104 with a grade equal to or greater than a C. Topics include multi-dimensional arrays, functions, string processing, classes, and records. Students are introduced to object-oriented programming using C++.

COMS 2213
DATA STRUCTURES
Prerequisite: COMS 2203, and COMS 2903. This course involves a study of abstract data structures and the implementation of these abstract concepts as computer algorithms.

COMS 2223
COMP ORGANIZ/PROG
Prerequisite: COMS 2203 and ELEG 2134. This course covers computer architecture and machine-level programming in assembly language. Considerable practical experience will be gained through programming projects. Topics include internal data representation and manipulation, as well as physical, and logical level input-output macros.
COMS 2233
INTRODUCTION/DATABASES
Prerequisite: COMS 1003 or 1403. This course develops a detailed understanding of a database software package developed for microcomputer applications. Topics include how to design, implement, and access a personal database. Entity relationship diagrams are emphasized in design. The use of macros, data conversion operations, linking, and complex selection operations are used in implementation. Advanced report generation mechanisms are covered along with custom-designed menus and user interfaces.

COMS 2333
WEB PUBLISHING II
Prerequisite: COMS 1333 or consent of instructor. This course is a continuation of COMS 1333. Students are introduced to multimedia design concepts and software. Multimedia applications and design tools are used to create and maintain multimedia products such as dynamic graphics, animation, interactive websites, and video.

COMS 2700
NETWORK ARCH LAB
Corequisite: COMS 2703. Laboratory exercises repairing and networking computers.

COMS 2703
COMPUTER NETWORKS/ARCHITECTURE
Prerequisite: COMS 1411 and COMS 1403. Corequisite: COMS 2700. This course covers how to install and administer a local area network and connect it to the Internet. Topics include network architecture, hardware, and software, along with popular protocols for establishing connectivity for sharing resources such as printers and files. Participation in a designated lab outside of the regularly scheduled meeting time is required.

COMS 2713
SURVEY/OPERATING SYSTEMS
Prerequisite: COMS 1411; COMS 1003 or COMS 1403. Several Operating Systems (such as Unix, Microsoft, AS/400) will be examined with regard to the user's view of the system. This view includes the types of files supported, the kinds of operations that can be performed on files (from the shell and from programs), the mechanisms for starting and controlling processes (i.e. running programs), some basic utility programs that a beginning or intermediate level administrator would need to use.

COMS 2733
INTRO COMP FORENSICS/SECURITY
Prerequisites: COMS 2703, Corequisite: COMS 2713. An introduction to the fundamentals of computer forensic technology. The course emphasizes techniques for identifying and minimizing the threats to, and vulnerabilities of computer systems. These techniques include methods and tools for tracking suspicious activity, for recovering and preserving digital media, and for doing post-mortem analysis.

COMS 2803
PROGRAMMING IN C
Corequisite: MATH 1113. Not for majors. This course involves the design, coding, debugging, and implementation of programs using the C language. The UNIX operating system is introduced. May not be taken for credit after the successful completion of COMS 2104.
COMS 2853
BUSINESS APPL PROGRAM COBOL
Prerequisites: COMS 2203. This course involves the analysis, design, development, testing, implementation, and maintenance of business application programs using the COBOL language. Topics include traditional data file organization, access, and processing methodologies. Additional topics include data validation, tables, sorting, searching, screen I/O, and report-based output. Programs are developed in PC and IBM mid-range computing environments.

COMS 2903
DISCRETE STRU/TECH MAJOR
Prerequisite: MATH 1113. Fundamental mathematical concepts related to computer science, information systems, and information technology, including logic and proof techniques; sets, sequences, relations, and functions; combinatorics; algebraic structures and Boolean algebra; trees and graphs.

COMS 2981
SPECIAL TOPICS
Prerequisite: Permission of the department. This course will be offered on an "as-needed" basis to cover those topics and subject areas in computing that are emerging in a technological sense, but that do not yet warrant the addition of a new course to the curriculum. This course may be repeated for credit if course content differs.

COMS 2982
SPECIAL TOPICS
Prerequisite: Permission of the department. This course will be offered on an "as-needed" basis to cover those topics and subject areas in computing that are emerging in a technological sense, but that do not yet warrant the addition of a new course to the curriculum. This course may be repeated for credit if course content differs.

COMS 2983
SPECIAL TOPICS
Prerequisite: Permission of the department. This course will be offered on an "as-needed" basis to cover those topics and subject areas in computing that are emerging in a technological sense, but that do not yet warrant the addition of a new course to the curriculum. This course may be repeated for credit if course content differs.

COMS 2984
SPECIAL TOPICS
Prerequisite: Permission of the department. This course will be offered on an "as-needed" basis to cover those topics and subject areas in computing that are emerging in a technological sense, but that do not yet warrant the addition of a new course to the curriculum. This course may be repeated for credit if course content differs.

COMS 3053
IMPLIC/TECHNOLOGY/SOCIET
Prerequisite: Junior standing. This course explores social, legal, philosophical, political, economic, and constitutional issues related to information technology. The focus will be on those issues faced as members of a complex technological society and as professionals in a technology-related field. Extensive research on current issues is expected.

**COMS 3163**  
**WEB PROGRAMMING**

Prerequisite: COMS 2163. This course expands on the concept of CGI programming introduced in COMS 2163. Topics include features of web forms and CGI processing via a scripting language. Basic database interaction and Server-Side Includes (SSI), client-side implementation of pop-up windows, form validation, cookies, security, and other concepts will also be discussed.

**COMS 3213**  
**ADV DATA STRUCTURES**

Prerequisite: COMS 2213. Concepts, implementation, and application of B trees, AVL trees, hashing, graphs, and other abstract data structures will be studied.

**COMS 3333**  
**IMPLEMENT/E-COMMERCE**

Prerequisite: COMS 2333 and 3163. This course covers technical issues involved in developing online stores. The primary emphasis of this course will be the design, implementation, and configuration of the "shopping carts" used for online business. Particular attention will be paid to areas of security, privacy, and protection.

**COMS 3503**  
**VISUAL PROGRAMMING**

Prerequisite: COMS 2003 (or equivalent) and COMS 2213. This course covers the design and development of event-driven programs using an object-oriented visual programming language such as Visual Basic.

**COMS 3513**  
**ADMIN/USING IBM PLATFORM**

Prerequisite: COMS 2104 or consent of instructor. This course is an introduction to the operations of the IBM midrange computer system. Topics include architecture, system security, user interface, and work management. Coverage will also extend to applications and programming using an introduction to DB2 and RPG.

**COMS 3523**  
**HUMAN FACTORS/INFO TECH**

Prerequisite: Junior standing in a computing major or instructor consent. A study of the major factors involved in Human-Computer Interaction. A system-oriented, multi-disciplinary approach to understanding the human considerations in the design, testing, implementation, and administration of computer-based systems and information technology.

**COMS 3603**  
**PRINC OF MGT SCIENCE**
Prerequisite: BUAD 2053 and junior standing. An introduction to management science analytical techniques, including such topics as the simplex method of linear programming, dual problem and sensitivity analysis, and integer programming. Emphasis is placed on the application of these methods using case studies and examples from the area of finance, marketing, and production. Applicable management science software will be used.

**COMS 3703**  
**OPERATING SYSTEMS**

Prerequisite: COMS 2213 and 2223. This course explores the fundamental concepts upon which modern operating systems are based. Topics include CPU, memory, file and device management, concurrent processes, protection mechanisms, and distributed systems. Several important algorithms will be implemented by the student.

**COMS 3803**  
**COMP APPL/ACCT-BUS**

Prerequisites: COMS 2003 or equivalent, ACCT 2013, Junior standing. Topics to be covered include intermediate and advanced microcomputer applications in business.

**COMS 3903**  
**SYS SOFTWARE/ARCHITECT**

Prerequisite: COMS 2703 and junior standing. This course covers the implementation of production operating systems, the fundamentals of digital logic, and machine architecture. This course does not count as credit toward a degree in Computer Science.

**COMS 4013**  
**QUALITY MGMT INFORMATION TECH**

Prerequisite: BUAD 2053 and COMS 4203. The study of quality management and quality assurance with regard to the analysis, design, development, and implementation of information systems and information technology. Topics include measurement techniques and standards, including ISO 9001 and other associated best practices regarding process management and process improvement.

**COMS 4033**  
**SYS ANALYSIS/DESIGN I**

Prerequisite: COMS 4203. The application of concepts, tools, procedures, and techniques involved in the development of information systems. Emphasis is placed on the systems approach to problem solving, user involvement, the management of quality, project control, and teamwork.

**COMS 4043**  
**SYS ANALYSIS/DESIGN II**

Prerequisite: COMS 4033 and either COMS 4133, 4163, or 4313. A continuation of COMS 4033, with emphasis on the application of the theory and techniques covered in the previous course. Students will research, analyze, design, implement, test and document a complete system. Students will complete and present their final system project as a team.

**COMS 4053**  
**INFO SYS RESOURCE MGMT**
Prerequisite: Junior standing in information systems, information technology, or computer science. A study of the principles and concepts involved in the management of organizational maintenance of all information resources, including hardware, software, and personnel. Includes coverage of departmental functions within computer services and information systems. Additional topics include legal, ethical, and professional issues, quality management, and the strategic impact of information systems.

COMS 4063
IT PROJECT ADMIN

Prerequisite: Junior standing in information technology, information systems, or computer science. This course provides a thorough introduction to the art and science of Project Management, as applied in the domain of information technology. Theories, best practices, and tools of project management are studied in relation to the completion of a successful project life cycle.

COMS 4103
ORGANIZATION PROG LANGUAGES

Prerequisite: COMS 2213 and COMS 2223. This course emphasizes the comparative structures and capabilities of several programming languages. Major emphasis will be placed on language constructs and the run-time behavior of programs.

COMS 4133
APPL PROGRAM DEVELOPMENT

Prerequisite: COMS 2213 and COMS 2853. Object-oriented application development. Topics include 00 Programming, three-tier design, and model-driven development. The course involves a major individual programming project. Students will develop and present their own large-scale application program.

COMS 4163
PERSONAL SOFTWARE ENGR

COMS 4203
DATABASE CONCEPTS

Prerequisite: COMS 2003, COMS 2203 and COMS 2903. Problems associated with common data processing systems, reasons for database system development; objectives such as data, device, user, and program independence; hierarchical, network, and relational models; data structures supporting database systems; operational considerations such as performance, integrity, security, concurrency, and reorganization; characteristics of existing database systems.

COMS 4213
DATABASE ADMINISTRATION

Prerequisites: COMS 4203. This course develops a comprehensive foundation in the planning, implementation and execution of database management policies and procedures. Topics include installation, storage and replication implementation, security management, indexing and performance tuning, and backup and recovery.
COMS 4253
COMPUTER GRAPHICS
Prerequisite: COMS 2213 and MATH 4003. Developing algorithms to do line drawing, two and three dimensional displays, clipping and windowing, and hidden line removal. Other areas will include graphic I/O devices, display processors, and data structures for graphics.

COMS 4303
CLIENT/SERVER SYSTEMS
Prerequisite: COMS 2213 and COMS 4203. This course provides in-depth coverage of client/server concepts. The student will use object-oriented visual programming tools and SQL in the construction of client/server programs. Emphasis will be placed on the proper design of server databases and on programming techniques used in event-driven environments.

COMS 4313
WEB SERVER ADMIN
Prerequisites: COMS 2333 and COMS 2733. The tools and techniques needed to administer a web server. Installation, configuration, and administration of a variety of web servers on different platforms.

COMS 4353
ARTIFICIAL INTELL
Prerequisite: COMS 2213 and junior standing. General concepts, wide overview of AI history, and development and future of AI. Implementation of AI techniques using the LISP and or PROLOG languages. Additional topics include pattern recognition, natural language processing, learning process, and robotics.

COMS 4403
COMPILER DESIGN
Prerequisite: COMS 2223, 3213 and 4103. This course covers syntax translation, grammars and parsing, symbol tables, data representation, translating control structures, translating procedures and functions, processing expressions and data structures, and multipass translation. Students will design a computer language and implement the compiler.

COMS 4603
SYSTEM PROGRAMMING
Prerequisite: COMS 2213 and either COMS 3703 or COMS 3903. This course is intended to give the student practical experience in the implementation, modification, and maintenance of system software.

COMS 4700
DATA COMMUNICATION/NETWORK LAB
Corequisite: COMS 4703. Students will complete network lab exercises in support of COMS 4703.
COMS 4703
DATA COMMUNICATIONS/NETWORKS
Prerequisite: COMS 2703, COMS 2903; COMS 2223 or COMS 3903. Corequisite: COMS 4700. Basic elements and functional aspects of the hardware and software required to establish and control data communications in a stand-alone or network environment. Topics include communication protocols, media, network topologies, and system support software. Participation in a designated lab outside of the regularly scheduled meeting time is required.

COMS 4710
HETEROGENEOUS NETWORKS LAB
Corequisite: COMS 4713. Students will complete network lab exercises in support of COMS 4713.

COMS 4713
HETEROGENEOUS NETWORKS
Prerequisite: COMS 4703. Corequisite: COMS 4710. The student will design, develop, implement and manage numerous heterogeneous networking operating system environments. Required policies and procedures are examined and developed. Networking tools required for the development of a seamless heterogeneous networking environment are studied and applied.

COMS 4803
SYSTEMS SIMULATION
Prerequisite: COMS 2213 and 3 hours of Statistics. Three hour programming course and junior/senior classification. An introduction to simulation methodology as it applies to the analysis and synthesis of systems. Design of simulation experiments and the analysis of data generated therefrom. Random sampling of the Monte Carlo method are used to develop computer procedures for simulated sampling. A broad range of applications is discussed.

COMS 4951
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

COMS 4952
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

COMS 4953
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.
COMS 4954
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

COMS 4981
SEMINAR COMPUTER INFO SCIENCE

Prerequisite: Permission of department. A directed seminar in an area of computer and information science. Seminars will focus on topics relating to emerging technologies which are beyond the scope of other computer and information science courses. This course may be repeated for credit if course content differs.

COMS 4982
SEMINAR COMPUTER INFO SCIENCE

Prerequisite: Permission of department. A directed seminar in an area of computer and information science. Seminars will focus on topics relating to emerging technologies which are beyond the scope of other computer and information science courses. This course may be repeated for credit if course content differs.

COMS 4983
SEMINAR COMPUTER INFO SCIENCE

Prerequisite: Permission of department. A directed seminar in an area of computer and information science. Seminars will focus on topics relating to emerging technologies which are beyond the scope of other computer and information science courses. This course may be repeated for credit if course content differs.

COMS 4991
SPEC PROB/COMS INFO SCIENCE

Prerequisite: Permission of department. This course will allow the student to work individually or as part of a small team to study and design practical computerized systems in order to solve problems of particular interest. This course may be used to offer a variety of subjects that strengthen the student's knowledge in areas not covered by other course offerings.

COMS 4992
SPEC PROB/COMS INFO SCIENCE

Prerequisite: Permission of department. This course will allow the student to work individually or as part of a small team to study and design practical computerized systems in order to solve problems of particular interest. This course may be used to offer a variety of subjects that strengthen the student's knowledge in areas not covered by other course offerings.

COMS 4993
SPEC PROB/COMS INFO SCIENCE

Prerequisite: Permission of department. This course will allow the student to work individually or as part of a small team to study and design practical computerized systems in order to solve problems of particular interest. This course may be used to offer a variety of subjects that strengthen the student's knowledge in areas not covered by other course offerings.
**COMS 4994**  
**SPEC PROB/COMS INFO SCIENCE**

Prerequisite: Permission of department. This course will allow the student to work individually or as part of a small team to study and design practical computerized systems in order to solve problems of particular interest. This course may be used to offer a variety of subjects that strengthen the student’s knowledge in areas not covered by other course offerings.

---

**COS 1101**  
**HYGIENE & SANITATION I**

This course provides you with the necessary information to master the National Industry skill Standard for entry level Cosmetologist. Students will conduct services in a safe environment and take measures to prevent the spread of infectious and contagious disease. Students will safely use a variety of salon products while providing client safety.

---

**COS 1110**  
**HAIRDRESSING I W/LAB**

A basic study of the properties of the hair and scalp. Basic hair care, shampooing, rinsing, conditioning, braiding, the care and styling of wigs and hair enhancements, wet styling, thermal straightening (hair pressing), and the principles of hair design with labs.

---

**COS 1121**  
**RELATED SCIENCE I**

A study of cell growth, metabolism, tissues, organs, skeletal and muscular systems, basics of electricity, and basics of chemistry.

---

**COS 1131**  
**MANICURING I**

A study of skin and nails, which includes manicuring, pedicuring, and massage.

---

**COS 1141**  
**COSMETIC THERAPY I**

A study of histology of the skin, hair removal, skin care facial, electrotherapy and light therapy, facial makeup, and eyebrow arching.

---

**COS 1151**  
**SALES/MGMT/DEPORT I**

A study of the principles of selling and practice of applying knowledge to give the client full service through management and shop deportment.
COS 1201
HYGIENE/SANITATION II
Prerequisite: COS 1101. A continuation of COS 1101. This course provides you with the necessary information to master this National Industry skill Standard for entry level Cosmetologist. Students will conduct services in a safe environment and taking measures to prevent the spread of infectious and contagious disease. Students will safely use a variety of salon products while providing client safety.

COS 1210
HAIRDRESSING II W/LAB
Pre-requisite: COS 1110. A continuation of COS 1110, this course is a basic study of the properties of the hair and scalp. Basic hair care, shampooing, rinsing, conditioning, braiding, the care and styling of wigs and hair enhancements, wet styling, thermal straightening (hair pressing), and the principles of hair design with labs.

COS 1221
RELATED SCIENCE II
Pre-requisite: COS 1121. A continuation of COS 1121, a study of cell growth, metabolism, tissues, organs, skeletal and muscular systems, basics of electricity, and basics of chemistry.

COS 1231
MANICURING II
Pre-requisite: COS 1131. A continuation of COS 1131, a study of skin and nails, which includes manicuring, pedicuring, and massage.

COS 1241
COSMETIC THERAPY II
Pre-requisite: COS 1141. A continuation of COS 1141, a study of histology of the skin, hair removal, skin care facial, electrotherapy and light therapy, facial makeup, and eyebrow arching.

COS 1251
SALES/IMGTM/DEPORT II
Pre-requisite: COS 1151. A continuation of COS 1151, a study of the principles of selling and practice of applying knowledge to give the client full service through management and shop deportment.

COS 2301
HYGIENE & SANITATION III
Prerequisites: COS 1101 and COS 1201. A continuation of COS 1201. This course provides you with the necessary information to master this National Industry skill Standard for entry level Cosmetologist. Students will conduct services in a safe environment and taking measures to prevent the spread of infectious and contagious disease. Students will safely use a variety of salon products while providing client safety.
COS 2310  
HAIRDRESSING III W/LAB  
Pre-requisites: COS 1110 and COS 1210. A continuation of COS 1210, this course is a basic study of the properties of the hair and scalp. Basic hair care, shampooing, rinsing, conditioning, braiding, the care and styling of wigs and hair enhancements, wet styling, thermal straightening (hair pressing), and the principles of hair design with labs.

COS 2321  
RELATED SCIENCE III  
Pre-requisites: COS 1121 and COS 1221. A continuation of COS 1221, a study of cell growth, metabolism, tissues, organs, skeletal and muscular systems, basics of electricity, and basics of chemistry.

COS 2331  
MANICURING III  
Pre-requisites: COS 1131 and COS 1231. A continuation of COS 1231, a study of skin and nails, which includes manicuring, pedicuring, and massage.

COS 2341  
COSMETIC THERAPY III  
Pre-requisites: COS 1141 and COS 1241. A continuation of COS 1241, a study of histology of the skin, hair removal, skin care facial, electrotherapy and light therapy, facial makeup, and eyebrow arching.

COS 2351  
SALES/MGMT/DEPORT III  
Pre-requisites: COS 1151 and COS 1251. A continuation of COS 1251, a study of the principles of selling and practice of applying knowledge to give the client full service through management and shop deportment.

COS 2405  
THEORY/PRACTICAL APPLIC  
A course covering all faces of Cosmetology. Theory and practical applications are stressed.

CRT 1105  
BASIC METAL REPAIR  
The straightening, alignment, and fitting of major panels are taught. Procedures necessary to weld, heat, cut, and shape are taught. Emphasis in this course is on theory and practical application.

CRT 1113  
METAL REPAIR I
The straightening, alignment, and fitting of major panels is taught. Procedures necessary to rough, shrink, bump, and finish are included. Emphasis in this course is on theory and practical application.

CRT 1123
BODY FRAME ALIGNMENT I

Students will receive instruction in the use of frame equipment and frame construction, sectioning, and straightening. Experience working with unitized construction using frame alignment equipment will be provided.

CRT 1133
PAINTING I

This course includes skills and technical knowledge in the preparation of metal for paint; stripping of old finishes; use and maintenance of spray painting equipment; mixing and spraying of all types of automotive finishes; and identification of common materials used.

CRT 1143
COLOR MATCHING I

Develop the skills needed to match any type of paint. Summarize color theory; color evaluation; color matching; computer analysis of paint, tinting, and other factors.

CRT 1205
BODY AND FRAME ALIGNMENT

Pre-requisite: CRT 1105. Students will receive instruction in the use of frame equipment and construction, as well as sectioning, and straightening. Experience working with unitized construction using frame alignment equipment will be provided.

CRT 1312
AIR BRUSHING

The student will learn spraying techniques using multiple colors, metal flake paints, and multilayer masking using special spraying techniques and air brushes.

CRT 1313
AIR BRUSHING

The student will learn spraying techniques using multiple colors, metal flake paints, and multilayer masking using special spraying techniques and brushes.

CRT 1405
PAINTING

This course includes skills and technical knowledge in the preparation of metal for paint; chemical stripping of old finishes; use and maintenance of spray painting equipment; mixing and spraying of all types of automotive finishes; and identification of common materials used.
CRT 1505
COLOR MATCHING
Pre-requisite: CRT 1405. A continuation of painting with emphasis on spraying techniques and tinting of paints to achieve color match.

CRT 2903
INTERNSHIP
Provides students with the experience of a job in a business. Students will participate in internship during the final phase of program completion. There will be contracts signed between the school, students, and training site stating the rules and objectives of internship.

CRT 2904
INTERNSHIP
Provides students with the experience of a job in a business. Students will participate in internship during the final phase of program completion. There will be contracts signed between the school, students, and training site stating the rules and objectives of internship.

CRT 2991
SPECIAL TOPICS FOR CRT
This course is designed to introduce students to specific areas in Collision Repair Technology. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

CRT 2992
SPECIAL TOPICS FOR CRT
This course is designed to introduce students to specific areas in Collision Repair Technology. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

CRT 2993
SPECIAL TOPICS FOR CRT
This course is designed to introduce students to specific areas in Collision Repair Technology. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

CRT 2994
SPECIAL TOPICS FOR CRT
This course is designed to introduce students to specific areas in Collision Repair Technology. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.
CRT 2995
SPECIAL TOPICS FOR CRT
This course is designed to introduce students to specific areas in Collision Repair Technology. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

CRT 2996
SPECIAL TOPICS FOR CRT
This course is designed to introduce students to specific areas in Collision Repair Technology. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

CSP 1013
PRIN OF COLLEGE SUCCESS
Prerequisite: Open to undergraduate students with no more than 30 earned semester hours or by permission of the Vice President for Academic Affairs. This course is designed specifically to enhance student adjustment to college life, student adaptation to the higher education learning experience, student comprehension of personal responsibility, and student advancement regarding career pathways.

CUL 1013
SANITATION SAFETY
This course provides knowledge of food safety, potable water, bioterrorism and risk management particularly in the areas of food service and storage. The student will gain knowledge on safe food handling from; receiving and storage through preparing and serving food. This course will also analyze ethical considerations with regards to food and water safety and food service. ServSafe certification from the NRAEF will result upon successful completion of standardized exam.

CUL 1923
INTRO TO FOOD/BEVERAGE MGMT
Prerequisite CUL (HA) 1013. This course introduces the practical skills and knowledge necessary for the effective management of food and beverage operations encompassing the historical timeline of food and beverage, non-alcoholic beverages, the identification of meats, fishes, fruits, vegetables, dairy products and proteins. This course also introduces the front-of-the-house essentials for food and beverage operations encompassing glassware, service ware and other front-of-the-house equipment.

CUL 2003
COST CONTROLS
This course will study the role of cost control management on overall profitability of hospitality entities. Basic principles of purchasing food, beverage, and non-food items with regards to maintaining an operation?s competitive advantage within the industry will be covered.

CUL 2023
HOSPITALITY SUPERVSN/LEADERSHIP
This course provides comprehensive coverage of the principles, theories, human-relations techniques, leadership styles, and decision-making skills that are required to manage a team to profitable results in the food service and lodging industries.

CUL 2053
WORK EXPERIENCE

Prerequisites: HA major, minor and/or culinary students. Sophomore standing or permission of instructor. Placement in selected hospitality settings as a student worker under professional guidance of both agency and faculty. Students are given the opportunity to take part in meaningful work experiences in actual work situations and managerial observation. Minimum of 200 clock hours of work experience.

CUL 2063
GUEST SERVICES MGMT

Prerequisite HA 1063. The analysis and development of guest services management skills including leadership behavior, motivation, communication, training, staffing, etiquette, and professional service. Lecture two hours, lab minimum of three hours depending on the special event requirements. $100 lab fee which helps to cover your meal costs and/or travel.

CUL 2813
BASIC HUMAN NUTRITION IN HA

Study of the relationship between nutrition and health as a basis for food choices of all ages; the application of nutrient functions in human life processes and cycles; how balanced eating promotes healthy lifestyles. Current concepts and controversies are highlighted.

CUL 2903
INTRODUCTION TO GARDE MANGER

Prerequisite CUL (HA) 1013. This course is an introduction to three main areas of the cold kitchen: reception foods, plated appetizer and buffet arrangements. Students will learn to prepare canapes, hot and cold hors d'oeuvre, appetizers, forcemeats, pates, galantine, terrines, roulades, salads and sausages. Curing and smoking techniques for meat, seafood and poultry items will be covered. Cheese identification, production, presentation and service will be studied. The student will also explore contemporary styles of presenting foods and buffet preparation. Lecture 1 hour, lab 3 hour minimum. $100 lab fee required. Additional Costs: professional uniforms and knives are required and are to be considered additional out-of-pocket expenses to the student.

CUL 2913
PRINC/FOOD PREPARATION

Prerequisites: CUL (HA) 1013. Corequisite: CUL (HA) 2813 and CHEM 1114. Upon completion of this course the student should be able to demonstrate skills in basic cooking techniques and methods, recipe conversion, and professional food preparation and handling. Additionally, the student should be able to recognize and safely operate common foodservice equipment used in commercial kitchens and demonstrate proficient culinary knife skills. This course is 2 hours lecture and a 4 hour lab depending upon special event requirement(s). $100 lab fee required. Additional costs: professional uniforms and knives are required and are to be considered additional out-of-pocket expenses to the student.

CUL 2923
STOCKS, SAUCES, AND SOUPS

Corequisite: CUL (HA) 2913. This course is an introduction to the basic stocks, sauces and soups and is based on the classical model by Escoffier. Fundamental elements covered include the entire classic French repertoire of hot sauces; the five leading sauces: bechamel, veloute, espagnole (also known as brown), tomato and hollandaise as well as small compound sauces, cold sauces, compound butter, court bouillon and marinades, roux and other thickening agents. Clear soups, thick soups and specialty soups will be introduced and expanded upon. Lecture 1 hour, lab 3 hour minimum. $100 lab fee required. Additional costs: professional uniforms and knives are required and are to be considered additional out-of-pocket expenses to the student.
CUL 2933
ADVANCED FOOD PREPARATIONS

Prerequisite: CUL (HA) 2913. This course reviews basic cooking methods and techniques and refines the understanding of and application of culinary terminology, proper care and use of tools and equipment as well as safety and sanitation techniques. Students will gain an advanced knowledge of the correct procedures for the following methods: poach, fry, bake, broil, boil, roast, stew, saute, grill and steam. Students will gain an advanced knowledge of vegetable, pasta, grain, and potato cookery as well as preparation of game, fish, shellfish, lamb, and veal. Lecture 1 hour, lab 3 hour minimum. $100 lab fee required. Additional costs: professional uniforms and knives are required and are to be considered additional out-of-pocket expenses to the student.

CUL 2943
INTRO TO BAKING AND PASTRY

Prerequisite: CHEM 1114. This course introduces basic methods used in baking and pastry. Methods introduced include, creaming, thickening for custards, pre-cooked, foaming, cut-in/rubbing, straight dough, blending and lamination. This course will focus on the range of baking ingredients in original, modified, and prepared forms as well as the theory and operation of large and small equipment used in bakeries and pastry shops. Through preparing, tasting and testing, students will learn to identify and select quality grains, dairy products, baking spices, flours, chocolates, fats, and oils used in baking. Lecture 1 hour, lab 3 hour minimum. $100 lab fee required. Additional costs: professional uniforms and knives are required and are to be considered additional out-of-pocket expenses to the student.

CUL 2996
EXTERNSHIP

Fall, spring and summer semesters. Culinary majors only. Prerequisites: Sophomore standing, current certifications in CPR, Standard and Advanced First Aid, consent of the department head and completion of all other courses applicable to degree. This course provides industry experience for students in cooperating businesses, agencies and organizations under professional guidance of both agency supervisor and faculty. While enrolled in this course, a student must work a minimum of 600 hours and a minimum of 15 weeks in an approved position in the hospitality industry. Student cannot document more than 40 hours of work experience per week. No prior experience credit will be given. A written report is required within two weeks of externship completion. $100 supervisor travel fee is required.

DE 4543
DRIVER/TRAFFIC EDUC II

Prerequisites: A valid driver's license, admission to teacher education program, a driving record free from frequent and unusual violations. This course is designed to prepare teachers to organize and teach driver education and traffic safety programs in secondary schools. It includes administration, supervision of personnel, design of facilities, and a research project. May not be repeated for credit as DE 5543 or equivalent.

DE 4613
DRIVER/TRAFFIC EDUC I

Prerequisites: A valid driver's license, admission to teacher education program, and a driving record free from frequent and unusual violations. This course is designed to prepare teachers to organize and teach driver education and traffic safety programs in secondary schools. This course provides a survey of materials and methods of instruction plus evaluation of textbooks and in car training of a student driver. Two hour lecture, two hours laboratory. May not be repeated for credit as DE 5613 or equivalent.

EAM 1003
LIV/HAZARD ENVIRONMENT

Overview of emergency management systems with an analysis of the causes, characteristics, nature and effects of such disasters as avalanches, drought, earthquakes, epidemics, fires, flooding, hazardous materials, hurricanes, industrial accidents, nuclear power plant accidents, power failures, volcanoes, and other catastrophic hazards. Required for major.
EAM 1013
AIM/SCOPE EMERGENCY MGMT

Analysis of disasters in historical settings and current situations. Areas covered include the role of local, state, and federal government, the unique problems of business/industry crisis management, disaster prevention and mitigation policy, technology support, and professionalism and litigation issues. Required for major.

EAM 2033
CIT/COM DISASTER PREPARE

Prerequisites: EAM 1003 and 1013 or consent of instructor. The course covers the need for citizen disaster preparedness; research findings on the subject; program design models; team and coalition building, materials and approaches, effective presentation skills, overcoming disaster denial and apathy; preparedness with children, the elderly, and other high-risk populations.

EAM 3003
DEV EMERGENCY MGMT SKILL

Prerequisites: EAM 1003 and 1013 or consent of instructor. Topics covered in this course include: program planning and management, financial planning and management, managing information, managing people and time, personality types, leadership styles, followership styles, decision-making skills, team-building skills and group dynamics; community-building skills, intergovernmental relationships, negotiating skills, communications skills, emergency management ethics, and professionalism.

EAM 3013
PUB POL ISSUE/EMER MGMT

Prerequisites: EAM 1003 and 1013 or consent of instructor. The course will analyze the role of public policy in relation to disaster planning issues, financial impact of disasters, disaster mitigation issues, land use planning, disaster recovery issues, legal and liability issues, management of large-scale disaster response/recovery, and disaster legislation.

EAM 3023
DISASTER PLAN/RESP OPER

Prerequisites: EAM 1003 and 1013 or consent of advisor. The course is an in-depth study of pre-plan requirements, hazards and resource assessments, vulnerability analysis, methodology of planning, and public policy considerations. Course content will include steps necessary for implementing a disaster plan and recovery efforts with consideration given to disaster warning systems, emergency center operations, public health issues in large-scale disasters, the press and communications issues, utilizing local, state, and federal interfaces. May not be taken for credit after completion of EAM 1023 and 2023.

EAM 3033
SOCIAL DIMENSION/DISASTE

Prerequisites: EAM 1003 and 1013 or consent of instructor. Overview of empirical vs. theoretical approaches; human behavior in disaster, myths and reality; group disaster behavior; community social systems and disaster; cultures, demographics and disaster behavior distinctions, and model-building in sociological disaster research.

EAM 3123
PUBLIC INFO SKILLS
This course provides the student with experience in dealing with the media before, during and after a crisis or disaster. The student will be able to
de demonstrate presentation skills using a variety of communication styles, graphics integration, informational brochures, and electronic resources. Much of the
course will involve working at onsite locations with actual media contact.

**EAM 3143**  
**ECONOMICS OF DISASTER**  
Prerequisites: EAM 1003 and 1013 or consent of instructor. The course concentrates on the implications of disaster on state, regional, national, and
international economies; case studies in false economies; economics of disaster modeling; and current issues in state, federal, and global economic disaster
policy.

**EAM 3206**  
**EXTERNSHIP**  
Prerequisites: EAM 1003 and 1013 or consent of instructor. This course should be completed by the end of the junior year. Students will enroll in this course,
pay the regular tuition and fees, and complete an assessment portfolio documenting their experience and training totaling 150 contact hours. No more than
100 contact hours of FEMA study courses can be applied. At least 50 hours of training or related activities must be included. This course is graded Pass/Fail.

**EAM 3243**  
**INTRO TO TERRORISM**  
Prerequisites: EAM 1003 and 1013 or consent of instructor. This course is an overview of terrorism in which students will explore various aspects of terrorism
in a Post 9/11 world leading to a basic understanding of a global phenomenon. Subject matter will include the history of terrorism, its strategies, and why
those strategies are effective. The student will examine the psychology of fundamentalist religious movements and extreme political organizations. While
studying the effects of terrorism the student will examine governmental concerns, preparedness and response operations and the politics of dealing with terrorism.

**EAM 4003**  
**DISASTER RELIEF/RECOVERY**  
Prerequisites: EAM 1003 and 1013 or consent of instructor. Recovery issues are studied and how they relate to ethical, medical, and economic and
environmental considerations; initial, short-term, and long-term recovery efforts and group exercises; and documentation and record-keeping.

**EAM 4013**  
**BUS/INDST CRISIS MGMT**  
Prerequisites: EAM 1003 and 1013 or consent of instructor. The course provides an analysis of the players involved; conjunction with governmental
emergency management; legal requirements; employee disaster awareness and preparedness; disaster mitigation and response; business resumption
considerations and public policy considerations and community outreach.

**EAM 4023**  
**INFORM TECH/EMERG MGMT**  
Prerequisites: EAM 1003 and 1013 or consent of instructor. This course emphasizes the application of computer technology to emergency management
issues. It includes determining information requirements and the acquisition, analysis, modeling and data management processes used to address those
requirements. Technologies covered include geospatial, networking, communications, remote sensing, and decision support systems and other emerging
technologies related to emergency management. Required for major.
EAM 4033  
EAM RESEARCH METH/ANALYS  
Prerequisites: EAM 1003 and 1013 or consent of instructor. The course covers the basic research methodology and statistical analysis required for managing a research/data base to be utilized for decision-making and policy development. Required for major.

EAM 4043  
DISASTER/EMERG MGT ETHIC  
Prerequisites: EAM 1003 and 1013 or consent of instructor. The course will involve a study of a variety types of ethical theory (teleological, deontological, distributive theories of justice, natural law), a review of specific ethical dilemmas per disaster phase, professional ethics, overcoming biases, avoiding discrimination, and developing sensitivity. Detailed ethical case studies will be conducted (Bhopal, Chernobyl, Three-Mile Island, Love Canal, Exxon Valdez).

EAM 4053  
COM MGT HAZARD/MATERIALS  
Prerequisites: EAM 1003 and 1013 or consent of instructor. The course addresses chemical properties of hazardous materials and wastes; legal requirements for their handling, storage, transportation, and disposal; and methods for protecting employees, facilities, and the community.

EAM 4106  
PRACTICUM IN EAM  
Prerequisites: EAM 1003 and 1013 or consent of instructor. Students will enroll in this course and pay the regular tuition and fees in order to obtain credit on their transcripts toward degree requirements. A portfolio will be required to document competencies attained. A minimum of 400 hours of relevant work experience must be completed in an approved internship site. The student will work with an advisor to have a site approved at least one semester in advance.

EAM 4951  
UNDERGRADUATE RESEARCH  
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

EAM 4952  
UNDERGRADUATE RESEARCH  
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

EAM 4953  
UNDERGRADUATE RESEARCH  
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.
EAM 4954
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

EAM 4991
SPECIAL PROBLEMS/TOPICS

Prerequisites: EAM 1003 and 1013 or consent of instructor. The topics will vary to reflect the continual changes in the emergency management field. This course may also serve as an independent study course upon recommendation of the advisor and approval by the dean.

EAM 4992
SPECIAL PROBLEMS/TOPICS

Prerequisites: EAM 1003 and 1013 or consent of instructor. The topics will vary to reflect the continual changes in the emergency management field. This course may also serve as an independent study course upon recommendation of the advisor and approval by the dean.

EAM 4993
SPECIAL PROBLEMS/TOPICS

Prerequisites: EAM 1003 and 1013 or consent of instructor. The topics will vary to reflect the continual changes in the emergency management field. This course may also serve as an independent study course upon recommendation of the advisor and approval by the dean.

ECE 2112
BASIC CH GROWTH/DEV I

Prerequisite: Score of 75 or above on the writing portion of the COMPASS or 19 or above on the English portion of the ACTE. A study of the developmental principles of the developmental stages of the child from birth to age eight. Involves both observation and lecture.

ECE 2212
BASIC CH GROWTH/DEV II

Prerequisite: ECE 2112. A study of the developmental principles of the developmental stages of the children from age nine to eighteen. Involves both observation and lecture.

ECE 2312
FOUNDATIONS & THEORIES

Prerequisite: Score of 75 or above on the writing portion of the COMPASS or 19 or above on the English portion of the ACTE. An introduction to the profession including historical and social foundations, awareness of value issues, ethical and legal issues, staff relations, and the importance of becoming an advocate for children and families.
ECE 2513
CURRICULUM FOR ECE
Prerequisites: ECE 2112 and ECE 2312. A study and application in the field of the theoretical base for early learning. Covers curriculum for young children based on research and theory.

ECE 2613
METH/MAT/DEV APP PRAC/ACTV YC
Prerequisites: ECE 2112 and 2312. A combination of classroom and field based experiences stressing developmentally appropriate techniques and materials fostering successful development and learning in young children.

ECE 2991
PRACTICUM IN ECE
Prerequisites: Completion of 12 hours of ECE courses taken for meeting assessment requirements for the Child Development Associate credential. Variable credit available for documented early childhood training related to the principles and procedures which support the development and operation of an effective early childhood education program. Credit may also be awarded for portfolio development for the Child Development Associate assessment. Equivalencies for awarding credit will be determined by the advisor in accordance with guidelines of the National Association for the Education of Young Children (NAEYC). Additional coursework approved by the advisor may be applied toward any balance of credit needed to complete the nine hours.

ECE 2992
PRACTICUM IN ECE
Prerequisites: Completion of 12 hours of ECE courses taken for meeting assessment requirements for the Child Development Associate credential. Variable credit available for documented early childhood training related to the principles and procedures which support the development and operation of an effective early childhood education program. Credit may also be awarded for portfolio development for the Child Development Associate assessment. Equivalencies for awarding credit will be determined by the advisor in accordance with guidelines of the National Association for the Education of Young Children (NAEYC). Additional coursework approved by the advisor may be applied toward any balance of credit needed to complete the nine hours.

ECE 2993
PRACTICUM IN ECE
Prerequisites: Completion of 12 hours of ECE courses taken for meeting assessment requirements for the Child Development Associate credential. Variable credit available for documented early childhood training related to the principles and procedures which support the development and operation of an effective early childhood education program. Credit may also be awarded for portfolio development for the Child Development Associate assessment. Equivalencies for awarding credit will be determined by the advisor in accordance with guidelines of the National Association for the Education of Young Children (NAEYC). Additional coursework approved by the advisor may be applied toward any balance of credit needed to complete the nine hours.

ECE 2994
PRACTICUM IN ECE
Prerequisites: Completion of 12 hours of ECE courses taken for meeting assessment requirements for the Child Development Associate credential. Variable credit available for documented early childhood training related to the principles and procedures which support the development and operation of an effective early childhood education program. Credit may also be awarded for portfolio development for the Child Development Associate assessment. Equivalencies for awarding credit will be determined by the advisor in accordance with guidelines of the National Association for the Education of Young Children (NAEYC). Additional coursework approved by the advisor may be applied toward any balance of credit needed to complete the nine hours.

ECE 2995
PRACTICUM IN ECE
Prerequisites: Completion of 12 hours of ECE courses taken for meeting assessment requirements for the Child Development Associate credential. Variable credit available for documented early childhood training related to the principles and procedures which support the development and operation of an effective early childhood education program. Credit may also be awarded for portfolio development for the Child Development Associate assessment. Equivalencies for awarding credit will be determined by the advisor in accordance with guidelines of the National Association for the Education of Young Children (NAEYC). Additional coursework approved by the advisor may be applied toward any balance of credit needed to complete the nine hours.

ECE 2996
PRACTICUM IN ECE

Prerequisites: Completion of 12 hours of ECE courses taken for meeting assessment requirements for the Child Development Associate credential. Variable credit available for documented early childhood training related to the principles and procedures which support the development and operation of an effective early childhood education program. Credit may also be awarded for portfolio development for the Child Development Associate assessment. Equivalencies for awarding credit will be determined by the advisor in accordance with guidelines of the National Association for the Education of Young Children (NAEYC). Additional coursework approved by the advisor may be applied toward any balance of credit needed to complete the nine hours.

ECE 2997
PRACTICUM IN ECE

Prerequisites: Completion of 12 hours of ECE courses taken for meeting assessment requirements for the Child Development Associate credential. Variable credit available for documented early childhood training related to the principles and procedures which support the development and operation of an effective early childhood education program. Credit may also be awarded for portfolio development for the Child Development Associate assessment. Equivalencies for awarding credit will be determined by the advisor in accordance with guidelines of the National Association for the Education of Young Children (NAEYC). Additional coursework approved by the advisor may be applied toward any balance of credit needed to complete the nine hours.

ECE 2998
PRACTICUM IN ECE

Prerequisites: Completion of 12 hours of ECE courses taken for meeting assessment requirements for the Child Development Associate credential. Variable credit available for documented early childhood training related to the principles and procedures which support the development and operation of an effective early childhood education program. Credit may also be awarded for portfolio development for the Child Development Associate assessment. Equivalencies for awarding credit will be determined by the advisor in accordance with guidelines of the National Association for the Education of Young Children (NAEYC). Additional coursework approved by the advisor may be applied toward any balance of credit needed to complete the nine hours.

ECE 2999
PRACTICUM IN ECE

Prerequisites: Completion of 12 hours of ECE courses taken for meeting assessment requirements for the Child Development Associate credential. Variable credit available for documented early childhood training related to the principles and procedures which support the development and operation of an effective early childhood education program. Credit may also be awarded for portfolio development for the Child Development Associate assessment. Equivalencies for awarding credit will be determined by the advisor in accordance with guidelines of the National Association for the Education of Young Children (NAEYC). Additional coursework approved by the advisor may be applied toward any balance of credit needed to complete the nine hours.

ECED 2001
INTRO/EARLY CHILDHOOD ED

Must be taken concurrently with ECED 2002. This course studies the social, historical, and philosophical foundations in American Education. Basic technology skills including the portfolio will be introduced.

ECED 2002
FIELD-BASED EXPER SEM
ECED 3023
FOUNDATIONS OF ECED
Must be taken concurrently with ECED 3033. An introduction to the field of early childhood education, including a history of the movement, influencing concepts and theories, and relevant issues.

ECED 3033
CHILD DEVELOPMENT
Must be taken concurrently with ECED 3023. A study of the physical, cognitive, and psychosocial development of the individual beginning with the prenatal period and continuing through early adolescence. This course includes an on-site field experience in settings for young children.

ECED 3043
DEV APPROPRIATE PRACTICE
Prerequisite: ECED 3023 and ECED 3033 and admission to Stage II. Corequisite: ECED 3053. A study of developmentally appropriate practice for young children, birth through age 9. This exploration is an integrated curricular study of appropriate early childhood curriculum, materials, environments, assessments, expectations, instructional strategies, and considerations for early childhood educators. Appropriate field observations and experiences are an integral part of this course, and will be integrated with course content.

ECED 3053
CHILD/FAMILY DIVERSE SOC
Prerequisite: ECED 3023 and ECED 3033 and admission to Stage II. Corequisite: ECED 3043. A study of the characteristics of young children with developmental disabilities in the contexts of family theory and intervention. Particular emphasis will be placed on how these characteristics impact the child's family and educational needs.

ECED 3113
INTEGRATED CURR 3-5 YRS
Prerequisites: ECED 3043 and ECED 3053 and admission to Stage II. Corequisites: ECED 3122. ECED 3162, ECED 3172, ECED 3183, ECED 3192. In this course, pre-service teachers build a working knowledge of curriculum strategies and techniques on which to base wise curriculum decision making for children ages 3-5. This course is connected to the ECED 3122 Practicum.

ECED 3122
PRACTICUM I
Prerequisite: ECED 3043 and ECED 3053 and admission to Stage II. Corequisites: ECED 3113, ECED 3162, ECED 3172, ECED 3183, ECED 3192. Practicum I is designed to provide pre-service teachers with field-based experiences for children age 3-5 years.

ECED 3162
DIAG/ASSESS CHILD I 3-5
Prerequisite: ECED 3043 and ECED 3053 and admission to Stage II. Corequisite: ECED 3113, ECED 3122, ECED 3172, ECED 3183, ECED 3192. A study of observational and developmentally appropriate tools and methods of collecting data for decision making. Emphasis is on qualitative assessment techniques that are specific to 3-5 year-old children. This course is connected to the ECED 3122 Practicum.

ECED 3172
GUIDING YOUNG CHILDREN
Prerequisite: ECED 3043 and ECED 3053 and admission to Stage II. Corequisites: ECED 3113, ECED 3122, ECED 3162, ECED 3183, ECED 3192. Emphasis is placed on the guidance and management, individually and in groups, of young children ages 3-5 years. The course focuses on developmentally appropriate practices in early childhood settings. Creation of learning environments that foster social competence, build self-esteem in young children, and assist them in the exploration of ways to independently solve problems and gain self-control are emphasized. This course is connected to the ECED 3122 Practicum.

ECED 3183
LANG/LITERACY I 3-5 YRS
Prerequisite: ECED 3043 and ECED 3053 and admission to Stage II. Corequisites: ECED 3113, ECED 3122, ECED 3162, ECED 3172, ECED 3192. A study of teaching strategies and support systems for encouraging the various areas of literacy in the 3-5 year-old child. This course is connected to the ECED 3122 Practicum.

ECED 3192
CHILDREN’S LIT 3-5 YRS
Prerequisite: ECED 3043 and ECED 3053 and admission to Stage II. Corequisites: ECED 3113, ECED 3122, ECED 3162, ECED 3172, ECED 3183. Study of sources and types of reading materials available for 3-5 year old children and ways to use them to enhance learning. This course is connected to the ECED 3122 Practicum.

ECED 3213
INTREGATED CURR II 6-9
Prerequisite: ECED 3113 and admission to Stage II. Corequisites: ECED 3222, ECED 3262, ECED 3272, ECED 3283, ECED 3292. ECED 3213 builds on the concepts presented in ECED 3113 and emphasizes developmentally appropriate curriculum for children ages 6-9; mandated curriculum; and contemporary issues related to curriculum. This course is connected to the ECED 3222 Practicum.

ECED 3222
PRACTICUM II
Prerequisite: ECED 3122 and admission to Stage II. Corequisites: ECED 3213, ECED 3262, ECED 3272, ECED 3283, ECED 3292. Practicum II is designed to provide pre-service teachers with field-based experiences for children age 6-9 years.

ECED 3262
DIAG/ASSESS CHILD II 6-9
Prerequisite: ECED 3162 and admission to Stage II. Corequisite: ECED 3213, ECED 3222, ECED 3272, ECED 3283, ECED 3292. A study of fundamental observation, assessment, and evaluation concepts and tools. Emphasis on both qualitative and quantitative methods of measuring and reporting student progress and learning. Designed to give the beginning teacher a background in the collection and interpretation of data with the goal of making valid data-driven decisions. This course is connected to the ECED 3222 Practicum.
ECED 3272
GUIDING CHILD II 6-9 YRS
Prerequisite: ECED 3172 and admission to Stage II. Corequisites: ECED 3213, ECED 3222, ECED 3262, ECED 3283, ECED 3292. Emphasis is on the guidance and management, individually and in groups, of primary-aged children, 6-9 years. The course focuses on developmentally appropriate practices in multi-cultural school settings that encourage children to become self-regulated learners. Creation of a context for positive discipline and a guidance approach for an encouraging classroom are explored. This course is connected to the ECED 3222 Practicum.

ECED 3283
LANG/LITERACY II 6-9 YRS
Prerequisite: ECED 3183 and admission to Stage II. Corequisites: ECED 3213, ECED 3222, ECED 3262, ECED 3272, ECED 3292. A study of teaching strategies and support systems for encouraging the various areas of literacy in the 6-9 year-old child. This course is connected to the ECED 3222 Practicum.

ECED 3292
CHILDREN'S LIT II 6-9 YR
Prerequisite: ECED 3192 and admission to Stage II. Corequisites: ECED 3213, ECED 3222, ECED 3262, ECED 3272, ECED 3283. Study of sources and types of reading materials available for 6-9 year old children and ways to use them to enhance learning. This course is connected to the ECED 3222 Practicum.

ECED 4915
EARLY CHLD ED INTERNSHIP
Prerequisite: Admission to Internship. (Fifteen hour course.) An intensive field experience and campus seminar class which culminates the early childhood program. Students will spend time in early childhood environments and in campus seminars applying their knowledge and skills in reflective decision making with children and families. $100 fee.

ECON 2003
PRINC OF ECONOMICS I
Each semester. Macroeconomic analysis of output, income, employment, price level, and business fluctuations, including the monetary system, fiscal and monetary policy, and international economics.

ECON 2013
PRINC OF ECONOMICS II
Each semester. Prerequisite: ECON 2003. Microeconomic analysis of consumer and producer behavior. Includes theory of production and cost, the effects of market structure on resource allocation, distribution of income, and welfare economics.

ECON 2103
HONORS PRINC OF ECONOMICS I
Prerequisites: Admission to University Honors or permission of Honors Director. Macroeconomic analysis of output, income, employment, price level, and business fluctuations, including the monetary system, fiscal and monetary economics, and international economics.
ECON 3003
MONEY AND BANKING
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) Each semester. Nature, principles and functions of money, macroeconomic theory, development and operation of financial institutions in the American monetary system, with emphasis on processes, problems, and policies of commercial banks in the United States.

ECON 3013
ECON OF LABOR RELATIONS
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) An overview of U.S. labor sector including demographic trends, labor unions, human capital issues and work-leisure values. A brief review of neo-classical wage theory with critiques. Selected labor sector issues such as global labor developments, public sector employment, migration/mobility and discrimination.

ECON 3073
INTER MICROECON THEORY
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) Prerequisites: ECON 2003 and 2013, MATH 2243 or 2914, and junior standing. An examination of the theories of consumer behavior and demand, and the theories of production, cost and supply. The determination of product prices and output in various market structures and an analysis of factor pricing.

ECON 3093
ECONOMETRICS
Prerequisites: BUAD 2053, PSY 2053 or MATH 2163 or consent of instructor. This course develops the theory and applications of regression analysis, which is the primary tool for empirical work in economics. Emphasis is placed on techniques for estimating economic relationships, economic modeling, inference, and testing economic hypotheses in the context of real world problems. Students will also be exposed to other empirical techniques to prepare them for further studies.

ECON 4001
READINGS/ECONOMIC THEORY
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) On demand. Prerequisites: Senior standing, background of courses needed for problem undertaken and permission of the department head. Advanced study on an individual basis is offered in money and banking, public finance, general economics, international trade, labor relations, transportation.

ECON 4002
READINGS/ECONOMIC THEORY
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) On demand. Prerequisites: Senior standing, background of courses needed for problem undertaken and permission of the department head. Advanced study on an individual basis is offered in money and banking, public finance, general economics, international trade, labor relations, transportation.

ECON 4003
READINGS/ECONOMIC THEORY
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) On demand. Prerequisites: Senior standing, background of courses needed for problem undertaken and permission of the department head. Advanced study on an individual basis is offered in money and banking, public finance, general economics, international trade, labor relations, transportation.

ECON 4033
CURRENT ECON PROBLEMS

(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) Emphasis is on a "way of thinking" about current economic problems including a conceptual context, critical thinking and problem solving approaches. Major domestic and global economic trends are reviewed. Current economic issues are selected for evaluation.

ECON 4053
COMPARATIVE ECON SYST

(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) Fall. Survey of a conceptual framework for comparing national economies and for studying a global economic system. Review of the current world economic environment and of policy issues at the national and multinational levels.

ECON 4073
WORLD ECONOMIC SYSTEMS

(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) On demand. A study of the institutional framework of an economic system selected by the instructor. The course includes a visit to the country being studied.

ECON 4093
INTL ECON AND FINANCE

(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) A course designed specifically for economics and finance majors desiring an understanding of the interplay of economic and financial forces between nations. While developing the theoretical base underlying these forces, the course will emphasize practical aspects of cross border flows of goods, services, and capital from the point of view of the firm. Lecture and discussion will be supplemented by analysis of cases and current events where appropriate. The content of the course should be readily applicable to any private or public sector policy making situation involving an international dimension in which students find themselves.

EDFD 3023
HUMAN DEVELOPMENT

A study of the physical, emotional, mental, and social growth of the individual beginning with the prenatal period and continuing through adulthood.

EDFD 3042
EDUCATIONAL PSY

Prerequisite: Admission to Stage II of the teacher education program and completion or concurrent enrollment in EDFD 3023. General principles of learning, the learner's potentialities with attention to individual differences, the environment of effective learning, application of psychology to educational problems. May not be taken for credit after completion of EDFD 3043.
EDFD 3072
INTRO/ED MEASUREMENTS
Prerequisite: Admission to Stage II of the teacher education program and completion or concurrent enrollment in EDFD 3023. Characteristics of good school appraisal; principles and procedures in the selection and use of standardized tests; techniques in the construction and use of classroom tests; the interpretation of various types of tests. May not be taken for credit after completion of EDFD 3073.

EDFD 4052
TEACHING EXCEP LEARNERS
Prerequisite: Admission to Stage II of the teacher education program. A study of the major areas of exceptionality including the learning disabled, mentally retarded, physically disabled, and the gifted, and of their special needs in a school program. May not be taken for credit after completion of EDFD 4053 or repeated for credit as EDFD 5052 or equivalent.

EDFD 4333
TEACH READ/STUDY STRAT
Prerequisite: Admission to Stage II of the teacher education program. This course is designed to provide pre service and in serve teachers and administrators with a knowledge of reading factors as they relate to various disciplines. The content of the course includes estimating the student's reading ability, techniques for vocabulary, questioning strategies, and developing reading related study skills. May not be repeated for credit as EDFD 5333.

EDMD 3013
INTGRATING INSTR TECH
An instructional technology course for preservice to teachers introducing students to the incorporation of technology into instructional situations. Students will become familiar with classroom computer utilization for instructional and classroom management technology, state and national standards for technology and curriculum areas, and create lessons centered upon those standards.

EDMD 4033
INTRO INSTRUCT TECH
A media methods course for teachers providing an introduction to classroom computer utilization; applications of the principles of graphic design, visual literacy, communications and learning theory to the selection, evaluation and use of instructional materials, and a survey of production techniques for teacher made materials. Includes basic production principles, operation of audiovisual equipment, and an introduction to computer assisted instruction and computerized classroom management. May not be repeated for credit as EDMD 5033 or equivalent.

ELEG 1012
INTRO TO ENGINEERING
Prerequisite: MATH 1113 or any higher level mathematics course. An introductory course to acquaint students with the technical and social aspects of engineering, the analytic approach to problem solving, measurements and calculations, including application of computer techniques. Lecture one hour, laboratory two hours.

ELEG 2103
ELECTRIC CIRCUITS I
Corequisite: MATH 2934 or consent of instructor. An introduction to circuit theory and electrical devices. Topics include resistive circuits, independent and dependent sources; analysis methods, network theorems; RC and RL first order circuits, and RLC second order circuits. Lecture three hours.

**ELEG 2111**
**ELECTRIC CIRCUITS LAB**
Corequisite: ELEG 2113. Report writing; use of basic electrical measurement devices; voltmeters, ammeters, R meters, wattmeters, and oscilloscopes. Computer modeling and data analysis of AC and DC circuits. Emphasis on developing laboratory techniques through experiments paralleling topics in ELEG 2103 and ELEG 2113. Laboratory three hours per week.

**ELEG 2113**
**ELECTRIC CIRCUITS II**
Prerequisite: ELEG 2103 or consent of instructor. Prerequisite/Corequisite MATH 3243. A continuation of ELEG 2103 covering phasor analysis, steady state power, complex network functions, frequency response, transformers, Laplace methods. Lecture three hours.

**ELEG 2130**
**DIGITAL LOGIC DESIGN LAB**
Corequisite: ELEG 2134. Prerequisite: COMS 2803 or COMS 2104 or consent of instructor. Laboratory must be taken during the same semester as the lecture, ELEG 2134. A study of basic digital logic circuit design and implementation. Circuit schematic development utilizing computerized automated design tools. Computer modeling and simulation of digital systems. Emphasis will be placed on proper laboratory techniques, including data collection, data reduction, and report preparation. Laboratory three hours.

**ELEG 2134**
**DIGITAL LOGIC DESIGN**
Corequisite: ELEG 2130. Prerequisite: COMS 2803 or COMS 2104 or consent of instructor. Binary numbers and codes, Boolean algebra, combinational and sequential logic including: minimization techniques, memory systems, register transfers, control logic design, and state machines. Lecture three hours.

**ELEG 3003**
**ENGR MODELING/DESIGN**
Prerequisites: COMS 2803 or MCEG 2203 and MATH 3243. Reduction of engineering systems to mathematical models; methods of analysis using computers; interpretation of numerical results; optimization of design variables. Examples are drawn from various engineering disciplines. Lecture three hours.

**ELEG 3103**
**ELECTRONICS I**
Prerequisite: ELEG 2113. Physics and electrical characteristics of diodes, bipolar transistors, and field effect transistors, behavior of these devices as circuit elements; common electronic circuits in discrete and integrated form; digital circuits including standard IC gates and flip flops, linear circuits including standard discrete and integrated amplifier configurations and their characteristics. Lecture three hours.

**ELEG 3123**
**SIGNALS/SYSTEMS**
Prerequisites: MATH 3243, ELEG 2113. Signal and system modeling, time and frequency domain analysis, singularity functions, the Dirac Delta function, impulse response, the superposition integral and convolution, Fourier series and Fourier and Laplace transformations. Lecture three hours.

**ELEG 3131**  
**ELECTRONICS LABORATORY**

Prerequisite: ELEG 2111 and ELEG 3103. Experiments paralleling ELEG 3103 emphasizing the applications and limitations of discrete electronic devices, circuit modeling, and applications of integrated circuits. Laboratory three hours per week.

**ELEG 3133**  
**MICRO-PROC SYST DESIGN**

Prerequisites: ELEG 2134 and ELEG 2130 or consent. Digital design using microprocessors. Microcomputer architecture, memory structures, I/O interfaces, addressing modes, interrupts, assembler programming, development tools. This course should also attract computer science students interested in hardware. Lecture three hours.

**ELEG 3143**  
**ELECTROMAGNETICS**

Prerequisite or Corequisite: ELEG 3123. An introduction to static and dynamic electromagnetic fields using vector methods. Transmission lines, electrostatic fields, magnetostatic fields, Maxwell's equations, plane electromagnetic wave propagation, reflection, refraction, attenuation, antennas, reciprocity, and gain. Lecture three hours.

**ELEG 3153**  
**ELECTRICAL MACHINES**

Prerequisite: ELEG 2113. Steady state analysis of single phase and polyphase transformers, direct current machines, synchronous machines, induction machines, and special purpose machines. Special emphasis will be given to the modeling and control of these machines. Lecture three hours.

**ELEG 3163**  
**ELECTRIC POWER SYSTEMS**

Prerequisite: ELEG 2113. Introduction to industrial and utilities electric power systems, poly-phase systems, fault conditions, per-unit values, and the method of symmetrical components.

**ELEG 4103**  
**ELECTRONICS II**

Prerequisite: ELEG 3103. A continuation of ELEG 3103 specializing in characteristics and applications of both linear and digital integrated circuits; amplifiers, feedback analysis, frequency response, oscillators, amplifier stabilization, microprocessors, memory systems, emphasis on design. Lecture three hours.

**ELEG 4113**  
**DIGITAL SIGNAL PROCESS**
Prerequisites: ELEG 3123. The study of discrete-time signals and systems, convolution, correlation, z-transform, discrete-time Fourier transform, analysis and design of digital filters. Lecture three hours.

ELEG 4133
ADVANCED DIGITAL DESIGN
Prerequisites: ELEG 2134. Principles of digital systems design and the use of hardware description languages (HDL) are targeted toward the development of programmable logic devices in this project oriented course. The basic tenets of HDL will be presented including design flow, structural and behavioral descriptions, data types, concurrent and sequential statements, processes, procedures, functions, and packages. Approximately one hour per week will be devoted to supervised project development.

ELEG 4143
COMMUNICATION SYS I
Prerequisites: ELEG 3123, MATH 3153. An introduction to design and analysis of analog and digital communication systems. Amplitude and angle modulation and demodulation, bandwidth, frequency division multiplexing, sampling and pulse-code modulation, detection error statistics in digital communication. Lecture three hours.

ELEG 4153
COMMUNICATIONS SYS II
Prerequisite: ELEG 4143. Continuation of ELEG 4143. Design and analysis of analog and digital communication systems, taking into account the effects of noise. Random variables, random processes, analog and digital communication systems in the presence of noise. Lecture three hours.

ELEG 4193
ELEC DESIGN PROJECT
Prerequisites: ELEG 3003, 4103, ELEG(MCEG) 4202, senior standing and consent of instructor. An independent or group project in electrical engineering design. Where appropriate, a team approach will be employed. Emphasis will be placed on designing an electrical system or sub system with due regard for: safety, environmental concerns, reliability, longevity, ease of manufacturing, maintainability, and cost effectiveness. A written and oral report are required.

ELEG 4202
ENGINEERING DESIGN
(ELEG majors) prerequisite: Senior standing and corequisite ELEG 4103. This course serves as the first part of a two course sequence in which the student completes a senior design project. Design methodologies and tools including real world design considerations such as environmental impact, engineering ethics, economics, safety, product costing and liability are introduced. Design for manufacture, project management, scheduling and proposal writing will be covered. Successful completion of this course shall require completion of a proposal for a senior design project being accepted by the faculty design project review process.

ELEG 4303
CONTROL SYSTEMS
Prerequisites: ELEG(MCEG) 3003 and ELEG 2113. An introduction to the field of control system engineering. Topics include: open and closed loop systems; mathematical modeling of electrical and mechanical systems; linearization; stability; block diagram reduction; signal flow graphs; transient analysis; stability analysis; root locus analysis; frequency analysis; and an introduction to compensator design. Lecture three hours.
ELEG 4313
MODERN CONTROL SYSTEMS

Prerequisite: ELEG 4303. A continuation of ELEG 4303 Control Systems. Topics include: frequency response design, state space analysis, controllability, observability, state space design, robustness, and an introduction to digital control. Lecture three hours.

ELEG 4951
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

ELEG 4952
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

ELEG 4953
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

ELEG 4954
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

ELEG 4991
SPEC PROB/ENGR

Prerequisite: Minimum of three hours at the junior level in area of study. Individual study in advanced area of the student's choice under the direction of a faculty advisor.

ELEG 4992
SPEC PROB/ENGR

Prerequisite: Minimum of three hours at the junior level in area of study. Individual study in advanced area of the student's choice under the direction of a faculty advisor.
ELEG 4993
SPEC PROB/ENGR
Prerequisite: Minimum of three hours at the junior level in area of study. Individual study in advanced area of the student's choice under the direction of a faculty advisor.

ELEG 4994
SPEC PROB/ENGR
Prerequisite: Minimum of three hours at the junior level in area of study. Individual study in advanced area of the student's choice under the direction of a faculty advisor.

ELT 1103
PROGRAMMING I
This course is designed to give the student an understanding of established and new methodologies using Microsoft Visual Basic programming. Emphasis is placed on developing logical thinking skills.

ELT 1104
FUNDAMENTALS/ELECTRICITY
This course is an overall study of the fundamental principles of D.C. and A.C. circuits. A basic study of Ohm's Law, series, parallel and series parallel resistor circuits. The fundamental concepts form the basis for the study of advanced applications of electronic systems. It is necessary for the electronic technician to be able to understand the basic concepts to function as an Electronic Technician.

ELT 1113
INTRO TO DIGITAL LOGIC
This is an introductory course in the study of Digital Logic Systems. Basic digital logic gates, truth tables, numbering systems, and different types of TTL integrated circuits are studied.

ELT 1123
SEMICONDUCTORS I
This course introduces semiconductors or solid-state components. Topics covered include the diode and applications, transistors, and amplifiers.

ELT 1143
INTRO TO DIGITAL LOGIC
An introductory course in the study of digital logic systems. Basic digital logic gates, truth tables, numbering systems, and different types of TTL integrated circuits are studied.
ELT 1222
BASIC ELECTRONICS/T & I
This course is an overall study of the fundamental principles of DC and AC electricity, Ohm's Law, series, parallel, and series parallel circuits as related to the automotive field.

ELT 1253
NETWORKING II
Prerequisite: ELT 1153. Builds upon the skills and concepts learned in Networking I. Emphasis will be on the hands-on aspects of personal computer networks using Microsoft and Linux based networking products, including installations and/or expanding a networking system and troubleshooting problems.

ELT 1303
PC MAINTENANCE
This course is designed to prepare individuals to troubleshoot, build, and repair personal computers, workstations, printers, and other computer peripherals. The student will also learn to install, debug, diagnose, and repair software problems associated with PCs.

ELT 2107
BASIC INDUSTRIAL AUTOMATION
An illustrated study of circuit configurations used in industry. Topics to be covered are: solid-state systems used to control DC and AC motors, electro-mechanical devices, three-phase power, open and closed loop motor control, robotic input and output transducers, various instrumentation and process control classes. Lecture: 9 hours, Laboratory: 5 hours.

ELT 2115
PROGRAMMABLE CONTROLLERS
Deals with the subject of programmable controllers (PCs). The PC is a microprocessor-based programmable device used in controlling mechanical machinery, energy management systems, computer integrated manufacturing, and other applications. Lecture: 3 hours, laboratory: 6 hours.

ELT 2116
BASIC INDUSTRIAL AUTOMATION
An illustrated study of circuit configurations used in industry. Topics to be covered are: solid-state systems used to control DC and AC motors, electro-mechanical devices, three-phase power, open and closed loop motor control, robotic input and output transducers, various instrumentation and process control classes. Lecture 9 hours. Laboratory: 5 hours.

ELT 2123
INDUSTRIAL FLUID POWER
This course is designed to provide the basic knowledge and application of physical principles involving pumps, cylinders, valves, motors, design, assembly, graphic symbols, and the operation of hydraulic and pneumatic control circuits based on logic principles. Lecture: 4 hours, laboratory: 1 hour.
ELT 2203
COMPUTER SYSTEM COMPONENTS
A study of the internal structure of the microprocessor. The full computer system is analyzed from both aspects of hardware and software. Many of the principles studied apply to computer troubleshooting and computer interfacing. Many of the computer support circuits are studied. Many of the skills learned from Programming I, Operating Systems, and Digital Logic are brought together and enhanced.

ELT 2204
COMPUTER SYS COMPONENTS
This course is a study of the internal structure of the microprocessor. The full computer system is analyzed from both aspects of hardware and software. Many of the principles studied apply to computer troubleshooting and computer interfacing. Many of the computer support circuits are studied. Many of the skills learned from Basic Programming, operating systems, and Digital Logic are brought together and enhanced.

ELT 2212
SEMICONDUCTORS II
A continuation of ELT 1123 Semiconductors I, this course is a study of field effect transistors, thristors, and linear integrated circuits.

ELT 2213
SEMICONDUCTORS II
A continuation of ELT 1123 Semiconductors II, this course is a study of field effect transistors, thristors, and linear integrated circuits.

ELT 2214
COMP INTERFACING/NETWORK
This course is a study of the different types of networks systems. The student is taught how to set up the hardware and software for a complete network system.

ELT 2215
COMPUTER TROUBLESHOOTING
This course is a study of the concepts of computer repair on IBM compatible computer systems. The student is taught how to troubleshoot hardware and software problems on these systems. Different types of configurations are studied, and upgrade methods are also considered. The student will learn to put a system together from the basic hardware components of a system. The student will troubleshoot a system that has both hardware and software problems.

ELT 2903
INTERNSHIP
Provides students with experience in a business setting. Students will participate in internship during the final phase of program completion. There will be contracts signed between the school, students, and training site stating the rules and objectives of the internship.
EMPT 1302
RHYTHM RECOGNITION

Students will gain knowledge of EKG monitoring of leads I, II, and III. Students will learn the basic electro physiology of cardiac conduction through the heart. Emphasis is on the study of arrhythmia etiologies and irregular waveforms and arrhythmia recognition. The knowledge and ability to perform cardioversion, noninvasive TCP pacing and 12-Lead Interpretation and application will be presented in this section.

EMPT 1304
MEDICAL EMERGENCIES I

This section teaches a systematic approach to assessment of cardiac patients with pathological disease processes and acute coronary symptoms. Students will learn to manage patients with cardiac pharmacological and electrical interventions. Designed to teach a comprehensive approach to cardiac patients with cardiovascular compromise. Students will study pulmonary disease and common acute reactions with review of pulmonary anatomy and treatment. Students will understand a comprehensive approach and clinical assessment and treatment for medical emergencies. Behavioral emergencies, neurology, anaphylaxis, renal, toxicology, hematology, and endocrinology with gastroenterology will be included in this section with an emphasis on assessment and field treatment.

EMPT 1305
CLINICAL PRACTICUM II

The student will apply basic and advanced assessment and procedures in the emergency department, Intensive Care Unit, and Operating Room while under supervision of preceptor and/or clinical coordinator. The student will have specific age and patient conditions to evaluate and assist in management of care in the ER department.

EMPT 1331
LAB II

Will be re-evaluated in basic skills learned in Lab I. Students will learn the application of EKG monitors, pacing, synchronized cardioversion, pacing and the practical use of pulmonary oximeters. Students will apply the knowledge of advanced patient assessment to clinical scenarios.

EMPT 1401
LAB III

Will demonstrate all skills learned in Labs I and II. Students will learn pediatric skills such as airway management, invasive therapy, and advanced trauma skills. Students will also demonstrate competency in advanced cardiac life support, pediatric life support, and pre-hospital trauma life.

EMPT 1412
MEDICAL EMERGENCIES II

Designed to train students the understanding of pathophysiology, assessment and management of infectious disease, geriatrics, pediatric/neonatology, and OB/GYN. Medical Emergencies II will emphasize assessment based management of present illness and focused patient complaints. Student will also be prepared for pre-hospital trauma in this session.

EMPT 1413
CLINICAL PRACTICUM II
Designated preceptors and/or clinical coordinator in the following areas will supervise students: Intensive Care Unit, Surgical Recovery, and Operating Room, and Labor & Delivery. Students will apply knowledge of course information learned and perform procedures that are appropriate for these areas of hospital. Students will have patient condition and age specific criteria to evaluate in this session that is mandatory to course completion.

EMPT 1424
PARAMEDIC INTERNSHIP I

Preceptors in the field will supervise patient assessment and management skills during the student=s pre-hospital rotation. Students will have a greater understanding of EMS systems and dispatching or emergencies with a higher level of competency in patient report transmission to the ED=s and patient report documentation. Students must successfully complete ACLS, the program=s skill and critical thinking competency, to be scheduled for an interview with the program medical director prior to scheduling their internship rotation.

EMPT 1431
ADV CARDIAC LIFE SUPPORT

Designed to offer health care professionals a high-density course of advanced cardiac knowledge and treatment. The course offers extensive EKG dysrhythmia treatment guidelines and a strong emergency cardiac pharmacological background. This course is for those individuals who are employed for an agency that requires knowledge and training in emergency cardiac care, such as RN=s, paramedics, physicians, and other health care professionals who seek advanced level training. The course will train an individual in a systematic approach to treatment of life-threatening cardiac and medical emergencies.

EMPT 1451
PREHOSP TRAUMA LIFE SUPP

Designed to expand pre-hospital care provider=s knowledge of trauma care. The course emphasizes that critically injured patients must be assessed and treated in a rapid systematic approach with aggressive care given en route to the receiving emergency department. Pre-hospital care providers are trained to operate within the Golden Hour, in order to offer a greater chance of patient survival. The course reviews and expands on anatomy and physiology, kinematics of trauma, pediatric and geriatric trauma, and shock treatment. The course can include RN=s, paramedics, EMT=s, physicians, and other health care providers who seek greater knowledge of trauma care.

EMPT 1461
PEDIATRIC ADV LIFE SUPP

Designed to provide health care professionals a greater knowledge of emergency care for the pediatric age group. This course is advanced level guidelines for medically ill, traumatically ill infants and children. The course stresses critical thinking of the health care provider in life threatening situations involving this age group. Resuscitation and management, as well as, anatomy and physiology review, pharmacologic lectures and skills check-offs, including a written exam is offered within this course. The course teaches current health care provider level pediatric emergency care.

EMPT 1504
PARAMEDIC INTERNSHIP II

Continuation of Internship I with evaluation by designated preceptors in the pre-hospital environment. Students must achieve a level of understanding, professionalism and clinical knowledge of pre-hospital emergency care to be recommended by the medical director and program director to enter this phase of the paramedic program. Students must perform patient assessment and management skills while under supervision of experienced preceptors including the ability to perform as a team leader in the pre-hospital setting during this phase of the program. A closer evaluation of student=s character and professionalism will be emphasized. This course will be the student=s final step in pre-hospital field evaluation.

EMPT 1512
ASSESSMENT BASED MGMT

The student will learn the final aspects of pre-hospital care and management in this session of the paramedic program. The student will learn effective scene and patient management, critical thinking and clinical decision-making. This session will serve as a final analysis of the student=s ability to analyze patient
information and provide the treatment necessary for the best outcome of the patient's condition. The student must have an understanding of all tasks required of the paramedic provider in the pre-hospital setting prior to the final exit of the paramedic program.

EMTP 1001  
FIRST AID AND CPR

Student in this course will learn to recognize and provide first aid for injuries ranging from simple lacerations to musculoskeletal injuries. Students will also learn how to recognize various medical emergencies ranging from heart attacks to allergic reactions. Students will complete requirements for certification in first aid, adult, child and infant CPR including Automated External Defibrillator (AED). This course is recognized by health care agencies, fire departments, police departments and local industries. (Cost of certification will be assessed.)

EMTP 1003  
MEDICAL FIRST RESPONDER

This course is designed to train students to perform in pre-hospital care of acutely ill or injured patients. Medical First Responders perform such measures as cardiopulmonary resuscitation, extrication, initial patient assessment and triage, and stabilization of any emergency.

EMTP 1007  
EMERGENCY MEDICAL TECHNICIAN

This course is designed to train students to perform in pre-hospital care of acutely ill or injured patients. EMTs perform such measures as cardiopulmonary resuscitation, extrication, initial patient assessment and triage, stabilization and transport of any emergency, to include routine transport of non-emergent patient to allied health care facility.

EMTP 1103  
LIFE SPAN DEVELOPMENT

Designed to prepare the student for the psychological development of infancy to geriatrics. The course of study will emphasize normal and abnormal physiological changes in people, both during their growth and development.

EMTP 1107  
ADV EMERGENCY MED TECHNICIAN

This course is designed to train students to perform in pre-hospital care of acutely ill or injured patients. EMTs perform such measures as cardiopulmonary resuscitation, IV access, extrication, initial patient assessment and triage, stabilization and transport of any emergency, to include routine transport of non-emergent patient to allied health care facility.

EMTP 1113  
PHARMACOLOGY I

Includes the pharmacological developments, standards, and patient rights and drug controls. The student will apply their knowledge of human anatomy and physiology, and ethics with the pharmacological use of medications, pharmacokinetics, fluids, and electrolytes. Clinical pharmacology will be emphasized.

EMTP 1123  
PREHOSPITAL ENVIRONMENT
The role of the advanced pre-hospital provider in the EMS system is emphasized along with the legal responsibilities and liabilities of the EMS environment. The course will include the utilization of medical direction and use of EMS protocol, ethics and the well being of EMS personnel is emphasized with emphasis on illness and injury prevention. Students will also learn rescue, stress management, and triage. Hazardous materials will be taught as well as violence, with emphasis on pre-hospital provider safety.

**EMTP 1133**
**ANATOMY AND PHYSIOLOGY**

This course is the basic study of human anatomy and physiology. Students will study body systems and functions of human organisms. Students will learn basic biological chemistry and have an understanding of all systems and how homeostasis in human bodies is achieved.

**EMTP 1201**
**PAT/ASSESS/PAT SHOCK I**

Will learn an advanced and comprehensive approach to patient assessment and history taking. Students will apply current patient status and will continue to gather pertinent patient data. Review of anatomy and physiology with a more direct approach and emphasis on particular age groups. Students will use patient data with head to toe examinations and the use of mnemonics such as SAMPLE. An empathetic approach will be discussed in this section. Introduction to the phases of shock with emphasis of physiological changes at the cellular level. The student will have an understanding of disease process and fluid and acid-base balance. Students will gain the knowledge of assessment and management of patients with hypoperfusion including various forms of shock, multiple organ dysfunction syndrome, and cellular metabolism impairment. Students will have the knowledge of assessment and treatment of various shock conditions.

**EMTP 1213**
**PREHOSPITAL ENVIRONMENT**

The role of the advanced prehospital provider in the EMS system is emphasized along with the legal responsibilities and liabilities within the EMS environment. This course includes the utilization of medical direction and protocols, ethics, and the well being of EMS personnel with an emphasis on illness and injury prevention. Rescue, stress management, and mass casualty response will be included in this course. Hazardous materials as well as violent situations will be covered with an emphasis on personal and bystander safety. The patient assessment portion will include history taking, interview skills, and the physical exam. EMT level assessment techniques will be readdressed in addition to the introduction of paramedic level skills/techniques.

**EMTP 1221**
**PHARMACOLOGY II**

Utilizes the EMT 1113 Pharmacology I course objectives to help the student gain a greater understanding of more advanced drug therapy. This section of pharmacology will focus on cardiac medications and administration to pediatric, adult and geriatric patients in the clinical and pre-hospital setting. A basic knowledge of cardiac complaints and medications that are required for proper treatment and stabilization will be covered into this portion. Additional medications taught will include thrombolytic and respiratory medications.

**EMTP 1223**
**CLINICAL PRACTICUM I**

The student will receive supervised/ preceptor clinical experience in the emergency department, respiratory therapy, and operating room. Students will perform patient procedures under the guidance of a professional health care preceptor with expertise in the patient care area. Students will observe care of critical and non-critical patients. Students will be required to assess and document on specific age and diverse complaint based patients while in the clinical area. Students will earn a team approach in the clinical area while performing basic and advanced patient skills check-off in Lab I.

**EMTP 1231**
**LAB I**
Review and successfully perform EMT Basic skills. Advanced skill demonstration and proficient performance evaluations that will prepare the student for practical use in clinical and field internship. Advanced airway, intravenous therapy, intramuscular injections, and IV medication administration. Emphasis on patient rights in the area of health care.

**EMTP 1302**  
**RHYTHM RECOGNITION**

Students will gain knowledge of EKG monitoring of leads I, II, and III. Students will learn the basic electro physiology of cardiac conduction through the heart. Emphasis is on the study of arrhythmia etiologies and irregular waveforms and arrhythmia recognition. The knowledge and ability to perform cardioversion, noninvasive TCP pacing and 12-Lead Interpretation and application will be presented in this section.

**EMTP 1303**  
**CARDIOLOGY**

This course is designed to train students to understand the pathophysiology, assessment and management of cardiac patients to include pharmacological and electrical interventions. The pharmacology section will focus on the study, preparation, administration, and indications of cardiac medications. Students will gain knowledge of EKG (ECG) monitoring of leads I, II, and III with an emphasis on the study of arrhythmia etiologies and irregular waveforms. The American Heart Association (AHA) Advanced Cardiac Life Support (ACLS) will be administered during this course. ACLS is designed to offer health care professionals a high-density course of advanced cardiac knowledge and treatment. Critical thinking skills will be examined through case based scenarios as well as a written test. In addition to the regular coursework, students must successfully complete ACLS practical (Pass/Fail) and written exam (84%) to successfully complete Cardiology. (Certification costs will be assessed.)

**EMTP 1304**  
**MEDICAL EMERGENCIES I**

This course will present the student with the pathophysiology, clinical assessment and treatment of patients presenting with specific illness. Pulmonology, neurology, endocrinology, allergies, anaphylaxis, gastroenterology, urology, nephrology, toxicology, substance abuse, hematology, environmental emergencies, and infectious disease will be included in this section with an emphasis on assessment based management of present illness and focused patient complaints for effective field treatment.

**EMTP 1305**  
**CLINICAL PRACTICUM II**

The student will apply basic and advanced assessment and procedures in the emergency department, Intensive Care Unit, and Operating Room while under supervision of preceptor and/or clinical coordinator. The student will have specific age and patient conditions to evaluate and assist in management of care in the ER department.

**EMTP 1331**  
**LAB II**

Will be re-evaluated in basic skills learned in Lab I. Students will learn the application of EKG monitors, pacing, synchronized cardioversion, pacing and the practical use of pulmonary oximeters. Students will apply the knowledge of advanced patient assessment to clinical scenarios.

**EMTP 1401**  
**LAB III**

Will demonstrate all skills learned in Labs I and II. Students will learn pediatric skills such as airway management, invasive therapy, and advanced trauma skills. Students will also demonstrate competency in advanced cardiac life support, pediatric life support, and pre-hospital trauma life.
EMTP 1403
MEDICAL EMERGENCIES II

This course is designed to train students to understand the pathophysiology, assessment and management of infectious disease, abuse or assault, geriatrics, pediatrics, neonatology, and OB/GYN. Emphasis will be placed on assessment based management of present illness and focused patient complaints. The American Heart Association (AHA) Pediatric Advanced Life Support (PALS) program will be presented during this course. PALS is designed to provide health care professionals a greater knowledge of emergency care for the pediatric patient. Airway management, specialized procedures and pharmacological techniques will be addressed. The PALS program stresses critical thinking skills and the student will be examined through case based scenarios as well as a written test. In addition to the regular coursework, students must successfully complete the PALS practical exam (Pass/Fail) and written exam (84%) for successful completion of Medical Emergencies II. (Certification costs will be assessed.)

EMTP 1412
MEDICAL EMERGENCIES II

Designed to train students the understanding of pathophysiology, assessment and management of infectious disease, geriatrics, pediatric/neonatology, and OB/GYN. Medical Emergencies II will emphasize assessment based management of present illness and focused patient complaints. Student will also be prepared for pre-hospital trauma in this session.

EMTP 1413
CLINICAL PRACTICUM III

Designated preceptors and/or clinical coordinator in the following areas will supervise students: Intensive Care Unit, Surgical Recovery, and Operating Room, and Labor & Delivery. Students will apply knowledge of course information learned and perform procedures that are appropriate for these areas of hospital. Students will have patient condition and age specific criteria to evaluate in this session that is mandatory to course completion.

EMTP 1423
TRAUMA MANAGEMENT

This course is intended to present the student with a comprehensive insight into traumatic injury. Pathophysiology, assessment, and management of trauma to include blunt, penetrating, soft-tissue, burn, musculoskeletal, head, face, neck, spinal, thoracic, and abdominal trauma as well as hemorrhage and shock will be analyzed. Types and phases of shock will be explored to provide the student assessment knowledge for the treatment of various shock conditions. Epidemiology of trauma will be discussed as well as the Arkansas Trauma System. The course will culminate with the National Association of Emergency Technicians (NAEMT) Prehospital Trauma Life Support (PHTLS). PHTLS is designed to refine the student's trauma knowledge and critical thinking skills through lecture, practical applications, and case based management scenarios. The student will also receive insight into special circumstances and alternative treatment methods for trauma victims. (Certification costs will be assessed.)

EMTP 1424
PARAMEDIC INTERNSHIP I

Preceptors in the field will supervise patient assessment and management skills during the student's pre-hospital rotation. Students will have a greater understanding of EMS systems and dispatching or emergencies with a higher level of competency in patient report transmission to the ED's and patient report documentation. Students must successfully complete ACLS, the program's skill and critical thinking competency, to be scheduled for an interview with the program medical director prior to scheduling their internship rotation.

EMTP 1431
ADV CARDIAC LIFE SUPPORT

Designed to offer health care professionals a high-density course of advanced cardiac knowledge and treatment. The course offers extensive EKG dysrhythmia treatment guidelines and a strong emergency cardiac pharmacological background. This course is for those individuals who are employed for an agency that requires knowledge and training in emergency cardiac care, such as RN's, paramedics, physicians, and other health care professionals who seek advanced level training. The course will train an individual in a systematic approach to treatment of life-threatening cardiac and medical emergencies.
EMTP 1451
PREHOSP TRAUMA LIFE SUPP

Designed to expand pre-hospital care provider's knowledge of trauma care. The course emphasizes that critically injured patients must be assessed and treated in a rapid systematic approach with aggressive care given en route to the receiving emergency department. Pre-hospital care providers are trained to operate within the Golden Hour, in order to offer a greater chance of patient survival. The course reviews and expands on anatomy and physiology, kinematics of trauma, pediatric and geriatric trauma, and shock treatment. The course can include RN's, paramedics, EMT's, physicians, and other health care providers who seek greater knowledge of trauma care.

EMTP 1461
PEDIATRIC ADV LIFE SUPP

Designed to provide health care professionals a greater knowledge of emergency care for the pediatric age group. This course is advanced level guidelines for medically ill, traumatically ill infants and children. The course stresses critical thinking of the health care provider in life threatening situations involving this age group. Resuscitation and management, as well as, anatomy and physiology review, pharmacologic lectures and skills check-offs, including a written exam is offered within this course. The course teaches current health care provider level pediatric emergency care.

EMTP 1504
PARAMEDIC INTERNSHIP II

Continuation of Internship I with evaluation by designated preceptors in the pre-hospital environment. Students must achieve a level of understanding, professionalism and clinical knowledge of pre-hospital emergency care to be recommended by the medical director and program director to enter this phase of the paramedic program. Students must perform patient assessment and management skills while under supervision of experienced preceptors including the ability to perform as a team leader in the pre-hospital setting during this phase of the program. A closer evaluation of student's character and professionalism will be emphasized. This course will be the student's final step in pre-hospital field evaluation.

EMTP 1512
ASSESSMENT BASED MGMT

The student will learn the final aspects of pre-hospital care and management in this session of the paramedic program. The student will learn effective scene and patient management, critical thinking and clinical decision-making. This session will serve as a final analysis of the student's ability to analyze patient information and provide the treatment necessary for the best outcome of the patient's condition. The student must have an understanding of all tasks required of the paramedic provider in the pre-hospital setting prior to the final exit of the paramedic program.

EMTP 2991
SPECIAL TOPICS FOR EMTP

This course is designed to introduce students to specific areas in Paramedic/Emergency Medical Services. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

EMTP 2993
SPECIAL TOPICS FOR EMTP

This course is designed to introduce students to specific areas in Paramedic/Emergency Medical Services. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

ENGL 0203
ENGL AS SECOND LANG
A course in basic English grammar, composition, reading, aural comprehension, and oral communication designed to prepare speakers of English as a second language for the six hour, college level composition sequence. The grade in this course will be computed in semester and cumulative grade point averages, but the course may not be used to satisfy general education requirements nor provide credit toward any degree. Students who are placed in ENGL 0203 must earn a grade of C or better in the course before enrolling in ENGL 1013. A student who makes a D or F in ENGL 0203 must repeat the course in each subsequent semester until he or she earns a grade of C or better.

ENGL 0303
FOUNDATIONAL COMP

A course in basic grammar and writing to prepare students for the required six hour composition sequence. The grade in the course will be computed in semester and cumulative grade point averages, but the course may not be used to satisfy general education requirements nor provide credit toward any degree. A student who is placed in ENGL 0303 must earn a grade of C or better in the course before enrolling in ENGL 1013. A student who makes a D or F in ENGL 0303 must repeat the course in each subsequent semester until he or she earns a grade of C or better.

ENGL 1013
COMPOSITION I

Prerequisite: Score of 19 or above on English section of the Enhanced ACT, 460 or above on the quantitative portion of the SAT, 40 or above on the TSWE, 75 or above on the COMPASS writing section, or a grade of C or better in ENGL 0203 or 0303. A review of grammar, introduction to research methods, and practice in writing exposition using reading to provide ideas and patterns. May not be taken for credit after successful completion of ENGL 1043.

ENGL 1023
COMPOSITION II

Prerequisite: Minimum grade of C in ENGL 1013 or 1043. A continuation of ENGL 1013 with readings in poetry, fiction, and drama. May not be taken for credit after successful completion of ENGL 1053.

ENGL 1043
HONORS COMPOSITION I

Prerequisite: Admission to the Tech Honors Program or permission of the Honors Program Director. An honors course that concentrates on advanced reading and writing skills.

ENGL 1053
HONORS COMPOSITION II

Prerequisite: Successful completion of ENGL 1013 or ENGL 1043 and admission to the Tech Honors Program or permission of the Honors Program Director. An honors writing course that includes the study of poetry, fiction, and drama. NOTE: A grade of C or better must be earned in each of the two composition courses used to satisfy the general education requirement of English/Communication.

ENGL 2003
INTRO/WORLD LITERATURE

Prerequisite: ENGL 1013 or equivalent. An exploration of significant authors and themes in world literature. ENGL 2003 may be used to fulfill the general education humanities requirements.
ENGL 2013
INTRO/AMERICAN LITERATURE
Prerequisite: ENGL 1013 or equivalent. An exploration of significant authors and themes in American literature. ENGL 2013 may be used to fulfill the general education humanities requirement.

ENGL 2023
HONORS WORLD LITERATURE
Prerequisites: Successful completion of ENGL 1013 or 1043 and admission to the Tech Honors Program, or permission of the Honors Program Director. An honors course that explores significant authors and themes in world literature. ENGL 2023 may be used to fulfill the general education humanities requirement.

ENGL 2043
INTRO/CREATIVE WRITING
Prerequisite: ENGL 1023 or equivalent. Introduction to techniques of writing both fiction and poetry.

ENGL 2053
TECHNICAL WRITING
Prerequisite: ENGL 1023 or equivalent. Practice in composing abstracts, instructions, visuals, proposals, questionnaires, letters, memos, and a variety of informal and formal reports.

ENGL 2063
ADV COMP:PRAC/THEORY
Prerequisite: ENGL 1023 or equivalent. Practice with several types of expository writing. An introduction to research techniques and composition theory.

ENGL 2173
INTRO TO FILM
Prerequisite ENGL 1013 or equivalent. A study of film as an art form with particular attention given to genres, stylistic technique and film's relation to popular culture. ENGL 2173 may be used to fulfill the General Education fine arts requirement. ENGL 2173 may not be repeated for credit after the completion of JOUR 2173.

ENGL 2213
INTRODUCTION TO DRAMA
Prerequisite: ENGL 1013 or equivalent. A study of drama as literature; a study of terminology and elements of drama and the reading of selected works, including both classic and contemporary.
ENGL 2223
INTRODUCTION TO POETRY
Prerequisite: ENGL 1013 or equivalent. A study of basic form, terminology and specific works.

ENGL 2233
INTRODUCTION TO FICTION
Prerequisite: ENGL 1013 or equivalent. A study of form, terminology, and specific works of fiction.

ENGL 2263
MYTHOLOGY
Prerequisite: ENGL 1013 or equivalent. An introduction to the Western mythologies and a study of their influence on Western literature.

ENGL 2283
SCIENCE FICTION AND FANTASY
Prerequisite: ENGL 1013 or equivalent. A survey course which covers classics of the science fiction and fantasy genres. Approach to the works is both historical and thematic.

ENGL 2881
PRAC/LIT JOUR PUBL
Prerequisite: ENGL 1013 or equivalent. Students will work as staff members of NEBO: A Literary Journal. May be repeated for a maximum of five semester hours. Cumulative hours in ENGL 2881 and ENGL 4881 4 may not exceed nine.

ENGL 3013
SYSTEMS OF GRAMMAR
Prerequisite: ENGL 1023 or equivalent. Students are recommended to complete ENGL 3023 before enrolling in this course. A synthesis of the most useful elements of traditional, transformational, and structural grammar.

ENGL 3023
INTRO TO LINGUISTICS
Prerequisite: ENGL 1023 or equivalent. A study of basic concepts in language, comparative characteristics of different languages, and the principles of linguistic investigation.

ENGL 3043
LITERARY EDITING/PUBLISHING
Prerequisite: ENGL 1023. A study of literary editing and publishing in print and online.

ENGL 3083  
FICTION WORKSHOP  
Prerequisite: ENGL 2043. Concentration in the writing and evaluation of fiction. May be repeated once for credit as ENGL 3083.

ENGL 3093  
POETRY WORKSHOP  
Prerequisite: ENGL 2043. Concentration in the writing and evaluation of poetry. May be repeated once for credit as ENGL 3093.

ENGL 3103  
LITERARY THEORY  
Prerequisite: ENGL 1023 or equivalent. A study of contemporary critical approaches to literature.

ENGL 3173  
STUDIES IN FILM  
Prerequisite: ENGL 1023 or equivalent. A focused study of selected films. Course content will vary. May be repeated for credit as ENGL 3173 if course content differs.

ENGL 3203  
MODERN NOVEL  
Prerequisite: ENGL 1023 or equivalent. Reading in representative novels written since 1900.

ENGL 3223  
YOUNG ADULT LITERATURE  
Prerequisite: ENGL 1023 or equivalent. A survey of young adult literature.

ENGL 3243  
EARLY NOVEL  
Prerequisite: ENGL 1023 or equivalent. Reading in representative novels written before 1900.
ENGL 3293
STUDIES/LITERATURE/LANG
Prerequisite: ENGL 1023 or equivalent. A focused study of selected literary works or selected language topics. Course content will vary. May be repeated for credit as ENGL 3293 if course content differs.

ENGL 3303
LITERATURE OF SOUTH
Prerequisite: ENGL 1023 or equivalent. Reading in representative works by writers in the South since the Civil War.

ENGL 3313
AMERICAN LIT TO 1900
Prerequisite: ENGL 1023 or equivalent. Readings in the works of colonial and nineteenth century American authors.

ENGL 3323
MODERN AMERICAN LIT
Prerequisite: ENGL 1023 or equivalent. Readings in the works of twentieth century American authors.

ENGL 3413
BRITISH LIT TO 1800
Prerequisite: ENGL 1023 or equivalent. Readings in the works of selected early British authors.

ENGL 3423
BRITISH LIT SINCE 1800
Prerequisite: ENGL 1023 or equivalent. Readings in the works of nineteenth-and twentieth-century British authors.

ENGL 3453
CHAUCER
Prerequisite: ENGL 1023 or equivalent. A study of representative works.

ENGL 3463
SHAKESPEARE
Prerequisite: ENGL 1023 or equivalent. A study of selected comedies, histories, and tragedies.
ENGL 3513
METHODS OF RESEARCH
Prerequisite: ENGL 2063, equivalent, or consent. A study of techniques for research.

ENGL 4013
HISTORY/ENGL LANGUAGE
Prerequisite: ENGL 3023, equivalent, or consent. The development of English sounds, inflections and vocabulary.

ENGL 4023
SECOND LANG ACQUISITION
Prerequisite: ENGL 1023, equivalent, or permission of the instructor. An investigation and analysis of the theoretical foundations of learning a second language as a guide to the effective teaching of English to limited English proficiency (LEP) students.

ENGL 4053
SEMINAR/TECHNICAL COMM
Prerequisite: ENGL 2053 or consent. Course content will vary. May be repeated for credit as ENGL 4053 if course content differs.

ENGL 4083
SEMINAR:ENGL LANGUAGE
Prerequisite: ENGL 1023 or equivalent. Course content will vary. May be repeated for credit as ENGL 4083 or ENGL 5083 if course content differs.

ENGL 4093
SEM/CREATIVE WRITING:
Prerequisite: ENGL 2043. Course content will vary. May be repeated for credit as ENGL 4093 if course content varies.

ENGL 4173
SEMINAR IN FILM STUDIES
Prerequisite: ENGL 1023 or equivalent. Course content will vary. May be repeated for credit as ENGL 4173 or ENGL 5173 if course content differs.

ENGL 4213
AMERICAN FOLKLORE
Prerequisite: ENGL 1023 or equivalent. A study of the forms and subjects of American folklore, folklore scholarship and bibliography; field work in collecting folklore. May not be repeated for credit as ENGL 5213.

ENGL 4283
SEMINAR: WORLD LIT

Prerequisite: ENGL 1023 or equivalent. Course content will vary. May be repeated for credit as ENGL 4283 or ENGL 5283 if course content differs.

ENGL 4383
SEMINAR: AMERICAN LIT

Prerequisite: ENGL 1023 or equivalent. Course content will vary. May be repeated for credit as ENGL 4383 or ENGL 5383 if course content differs.

ENGL 4483
SEMINAR: BRITISH LIT

Prerequisite: ENGL 1023 or equivalent. Course content will vary. May be repeated for credit as ENGL 4483 or ENGL 5483 if course content differs.

ENGL 4683
SEM: GENDER STUDIES

Prerequisite: ENGL 1023 or equivalent. Course content will vary. May be repeated for credit as ENGL 4683 or ENGL 5683 if course content differs.

ENGL 4703
TCH ENGL SECOND LANG

Prerequisite: ENGL 1023, equivalent, or consent. An investigation and practice in teaching different levels of English grammar, oral communication, comprehension skills, reading, and composition to foreign students.

ENGL 4713
ESL ASSESSMENT

Prerequisite: ENGL 1023, equivalent, or consent. An introduction to the tools, techniques, and procedures for evaluating the English proficiency and language development of ESL students.

ENGL 4723
TEACH PEOPLE/CULTURES

Prerequisite: ENGL 1023, equivalent, or consent. An examination of cultural diversity in Arkansas and the United States, designed for prospective ESL teachers.

ENGL 4952
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

ENGL 4953
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

ENGL 4954
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

ENGL 4991
SPEC PROB/ENGL
Prerequisite: English major or minor and consent of instructor and department head. Course content and credit are designed to meet the needs of the student.

ENGL 4992
SPEC PROB/ENGL
Prerequisite: English major or minor and consent of instructor and department head. Course content and credit are designed to meet the needs of the student.

ENGL 4993
SPEC PROB/ENGL
Prerequisite: English major or minor and consent of instructor and department head. Course content and credit are designed to meet the needs of the student.

ENGL 4994
SPEC PROB/ENGL
Prerequisite: English major or minor and consent of instructor and department head. Course content and credit are designed to meet the needs of the student.
FAC 2202
CARPENTRY
Students will learn basic carpentry skills, power and hand tool safety, the proper use of power and hand tools, framing, trim, and hanging doors and windows. Also covered will be dry wall basics, painting, and basic masonry. Some cabinet making and architectural blueprint reading will be discussed.

FAC 2203
FAC ANAL/TROUBLESHOOT
Students will analyze configuration of facility structures such as roof pitches and metal beam structure support ratings using geometric figures. Students will also troubleshoot structural design flaws, facilities fixture design calculations, and load calculations of the facility units.

FAC 2212
PLUMBING
Basic plumbing skills will be taught and will include: fixture repair and replacement; piping (water and gas piping); piping drops, angles, and sizes; and basic plumbing codes for commercial and residential facilities.

FAC 2222
GROUNDS MAINTENANCE
Landscape management, chemical usage and storage, MSDS file care, ADA compliance, and safety and reliability topics will be covered.

FAC 2903
INTERNSHIP
This course provides students with the experience of a job in the facilities management business. Students will participate in internship during the final phase of program completion. There will be contracts signed between the university, student, and training site stating the rules and objectives of the internship.

FIN 2013
PERSONAL FINANCE
Prerequisites: sophomore standing. A course designed to provide students with the fundamental skills of personal financial planning and goal achievement. Topics covered include financial planning, cash and credit management, insurance, investment, and retirement and estate planning.

FIN 3043
INVESTMENTS I
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) This course provides the fundamental concepts of the investment area including markets, stocks and bonds, investment environments, economic, industry and security analysis, and portfolio concepts. May not be taken for credit after successful completion of ECON 3043.
FIN 3063
BUSINESS FINANCE
Prerequisite: BUAD 2053. Nature of business finance and its relation to economics, accounting, and law; role of the financial manager and financial markets; financial forecasting, planning, and budgeting; securities valuation, capital budgeting, and cost of capital; capital structure and working capital management; international finance. May not be taken for credit after successful completion of ECON 3063.

FIN 4023
INVESTMENTS II
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) Prerequisite: FIN 3043 (ECON 3043). This course provides further work with investment concepts involving derivative securities, specialized investment products, international investing, real estate, insurance products, construction of a portfolio, and work with computerized investment software. May not be taken for credit after successful completion of ECON 4023.

FIN 4043
PRINC/RISK/INSURANCE
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) Prerequisite: FIN 3063 (ECON 3063). A course designed to provide an understanding of the insurance field. Course content includes a survey of the extent and types of risk in business; ways of dealing with business risk; and a survey of insurance for risk-bearing purposes. May not be taken for credit after successful completion of ECON 4043.

FIN 4053
INTERNSHIP I/ECON/FINAN
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) Prerequisite: Permission of the Instructor, Department Head and Dean; Junior Standing; minimum 2.5 overall GPA. A supervised, practical experience providing undergraduate ECON/FIN majors with a hands-on, professional experience in a position relating to an area of career interest. The student will work in a local cooperating business establishment under the supervision of a member of management of that firm. A College of Business faculty member will observe and consult with the students and the management of the cooperating firm periodically during the period of the internship. Students will be required to make a classroom presentation, maintain an internship log, and prepare a final term paper. Note: Only three hours of internship may be used to satisfy the curriculum requirements for economics and finance electives. Additional hours may be used to satisfy the curriculum requirements for general electives.

FIN 4063
INTERNSHIP II/ECON/FINAN
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) Prerequisite: Internship I, permission of the Instructor, Department Head and Dean; Junior Standing; minimum 2.5 overall GPA. To be taken following completion of Internship I. A supervised, practical experience providing undergraduate ECON/FIN majors with a hands-on, professional experience in a position relating to an area of career interest. The student will work in a local cooperating business establishment under the supervision of a member of management of that firm. A College of Business faculty member will observe and consult with the students and the management of the cooperating firm periodically during the period of the internship. Students will be required to make a classroom presentation, maintain an internship log, and prepare a final term paper. Note: Only three hours of internship may be used to satisfy the curriculum requirements for economics and finance electives. Additional hours may be used to satisfy the curriculum requirements for general electives.

FIN 4103
SPECIAL TOPICS IN FINANCE
This course provides in-depth exploration of selected finance topics. The primary topic will vary from offering to offering; this, the course may be taken more than once.
FR 1014
BEGINNING FRENCH I

Training in the elements of French communication and comprehension. Four hours of applied class work. One hour of foreign language lab per week is required. Advanced placement and credit by examination are available to students who have previously studied French.

FR 1024
BEGINNING FRENCH II

Prerequisite: FR 1014 or equivalent. Training in basic French communication and comprehension skills to satisfy minimum survival needs in French-speaking countries. Four hours of applied class work. One hour of foreign language lab per week is required.

FR 2014
INTERMEDIATE FRENCH I

Prerequisite: FR 1024 or equivalent. Development of the skills necessary to understand and communicate in everyday situations in French speaking countries. Four hours of applied class work. One hour of foreign language lab per week is required.

FR 2024
INTERMEDIATE FRENCH II

Prerequisite: FR 2014 or equivalent. Further development of the skills necessary to understand and communicate in everyday situations in French-speaking countries. Four hours of applied class work. One hour of foreign language lab per week is required.

FR 3003
CONVERSATION/COMP I

Prerequisite: FR 2024 or permission of instructor. Development of advanced control of French communication and comprehension through the study of French language media (radio broadcasts, television newscasts and commercials, prose texts, periodical articles) and through classroom debates and simulations. Laboratory work by arrangement.

FR 3013
CONVERSATION/COMP II

Prerequisite: FR 3003 or permission of instructor. Continuation of FR 3003.

FR 3023
INTRO TO LINGUISTICS

Prerequisite: ENGL 1023 or equivalent and FR 2024 or equivalent. A study of basic concepts in language, comparative characteristics of different languages, and the principles of linguistic investigation.
FR 3113
CULTURE/CIVILIZATION
Prerequisite: FR 3013 or permission of instructor. Development of an understanding of French life through study and analysis of French history and geography texts, film, advertising, and mass media.

FR 3143
STUDY ABROAD
Prerequisite: enrollment in a Tech-sanctioned study program in a French-speaking country, completion of FR 2024 or equivalent, and permission of the Study Abroad supervisor. Study of the contemporary language and culture in a French speaking country. May substitute for FR 3003 or FR 3013, depending on the student's proficiency level.

FR 3163
COMM INTERNSHIP EXPER
Prerequisite: completion of FR 2024 or equivalent. Study of contemporary language and culture in a French-speaking community or setting. May be taken instead of FR 3143 to meet degree requirements.

FR 3213
ADVANCED GRAMMAR/USAGE
Prerequisites: FR 3013 or permission of instructor. The course is designed to build writing competence and strengthen grammatical competence. Grammar will be studied within the context of writing assignments. The course will deepen the knowledge of the language through the usage of applied linguistics, syntax, grammar, and semantics.

FR 3223
SHORT STORY
Prerequisites: FR 3013 or permission of instructor. The course is designed to build writing competence and strengthen grammatical competence. Grammar will be studied within the context of writing assignments. The course will deepen the knowledge of the language through the usage of applied linguistics, syntax, grammar, and semantics.

FR 4003
ORAL COMMUNICATION
Prerequisite: FR 3013 or permission of instructor. This course is designed to strengthen students' oral communication skills by enabling them to converse easily with native speakers on everyday topics in preparation for the oral proficiency interview (OPI). $134 interview fee.

FR 4213
FRENCH LIT TO 1800
Prerequisite: FR 3223 or permission of instructor. Careful study of selected French texts to introduce students to various literary genres and general literary trends.
FR 4223  
FRENCH LIT SINCE 1800  
Prerequisite: FR 3223 or permission of instructor. A study of representative texts from the period for understanding of genres, styles, and language.

FR 4283  
SEMINAR IN FRENCH  
Prerequisite: FR 3013. Course content will vary. May be repeated for credit if course content varies.

FR 4701  
FOREIGN LANG PEDAGOGY  
Prerequisites: Admission to student teaching phase of the teacher education program and concurrent enrollment in SEED 4909. Intensive on-campus exploration of the principles of curriculum construction, applied methods, professional collaboration, and evaluation as related to teaching French, German, or Spanish, followed by professional internship application of these principles under the supervision of a qualified departmental instructor.

FR 4703  
FOREIGN LANG TCH METH  
Prerequisites: FR 3013 and 3113 or equivalent; admission to Stage II of the Secondary Education sequence or equivalent. Survey of instructional methods with discussions and demonstrations of practical techniques for the teaching of foreign language.

FR 4801  
CULTURAL IMMER/RESEARCH  
Prerequisite: Enrollment in French Immersion Weekend and permission of instructor. Intensive study of French cultural topics followed by individual research projects. May be repeated for credit if content varies.

FR 4901  
FOREIGN LANG INTERNSHIP  
Prerequisites: Advanced foreign language proficiency; permission of the instructor and the department head. The Foreign Language Internship is intended primarily for majors in foreign languages or international studies. It is designed to provide outstanding students the opportunity to perfect their language proficiency and to acquire specific training and skills overseas. The overseas sponsor and the foreign language instructor of record will supervise the intern. Performance evaluations and a research paper will be required.

FR 4902  
FOREIGN LANG INTERNSHIP  
Prerequisites: Advanced foreign language proficiency; permission of the instructor and the department head. The Foreign Language Internship is intended primarily for majors in foreign languages or international studies. It is designed to provide outstanding students the opportunity to perfect their language proficiency and to acquire specific training and skills overseas. The overseas sponsor and the foreign language instructor of record will supervise the intern. Performance evaluations and a research paper will be required.
FR 4903
FOREIGN LANG INTERNSHIP
Prerequisites: Advanced foreign language proficiency; permission of the instructor and the department head. The Foreign Language Internship is intended primarily for majors in foreign languages or international studies. It is designed to provide outstanding students the opportunity to perfect their language proficiency and to acquire specific training and skills overseas. The overseas sponsor and the foreign language instructor of record will supervise the intern. Performance evaluations and a research paper will be required.

FR 4951
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

FR 4952
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

FR 4953
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

FR 4954
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

FR 4991
SPEC PROB/FRENCH
Prerequisite: FR 2024 and consent of the instructor and the department head. Designed to provide advanced students with a course of study in an area not covered by departmental course offerings.

FR 4992
SPEC PROB/FRENCH
Prerequisite: FR 2024 and consent of the instructor and the department head. Designed to provide advanced students with a course of study in an area not covered by departmental course offerings.
FR 4993
SPEC PROB/FRENCH
Prerequisite: FR 2024 and consent of the instructor and the department head. Designed to provide advanced students with a course of study in an area not covered by departmental course offerings.

FR 4994
SPEC PROB/FRENCH
Prerequisite: FR 2024 and consent of the instructor and the department head. Designed to provide advanced students with a course of study in an area not covered by departmental course offerings.

FW 1001
ORIENTATION FW SCIENCE
Fall. An introduction to professions in fisheries and wildlife science. Required of fisheries and wildlife students during their first fall term on the Tech campus. Lecture one hour.

FW 2003
ELEMENTS OF FW MANAGE
Fall. Principles of fish and wildlife management for the non major, including fish and wildlife identification and the role of various natural resource organizations in conservation. Lecture three hours.

FW 3001
JUNIOR SEMINAR/FW BIOL
Fall. Restricted to junior fisheries and wildlife biology majors or by consent of instructor. Instruction and practice in methods for scientific presentation and resume preparation. Assessment of career goals. Lecture one hour.

FW 3053
FISHERIES/WILDLIFE ADM
Fall of even years. Prerequisites: FW 1001 and junior standing, or permission of instructor. Administration of fish and wildlife agencies, including organizational designs and policies, planning, directing, budgeting, personnel management, and public relations. Special consideration will be given to public, scientific, and economic considerations in the decision making process. Lecture three hours. FW 3074 Habitat Evaluation

FW 3074
HABITAT EVALUATION
Fall of even years. Introduction to aquatic and terrestrial habitat mensuration and evaluation for field biologists, with emphasis on the description and demonstration of evaluation procedures and software. Lecture two hours, laboratory four hours. $20 laboratory fee.
FW 3084
ICHTHYOLOGY

Fall. Prerequisite: BIOL 2124. Systematics, collection, identification, natural history, and importance of fishes. Lecture two hours, laboratory four hours. $20 laboratory fee.

FW 3114
PRINCIPLES OF ECOLOGY

Fall and Spring. Prerequisites: BIOL 2124, 2134, and one semester of chemistry. Responses of organisms to environmental variables, bioenergetics, population dynamics, community interactions, ecosystem structure and function, and major biogeographical patterns. Lecture two hours, laboratory four hours. $20 laboratory fee.

FW 3144
ORNITHOLOGY

Spring. Prerequisite: BIOL 2124. An introduction to the biology of birds. The course covers aspects of anatomy, physiology, behavior, natural history, evolution, and conservation of birds. Laboratories address field identification and natural history of the birds of Arkansas. Students will be expected to participate in an extended 5-7 day field trip. Lecture two hours, lab four hours. $20 laboratory fee.

FW 3154
MAMMALOGY

Fall. Prerequisite: BIOL 2124. Taxonomy identification, ecology, and study natural history of the mammals. Lecture three hours, laboratory two hours. $20 laboratory fee.

FW 3163
BIODIVERSITY/CONSERV BIO

Fall of even years. Prerequisites: FW(BIOL) 3114 and one of the following: BIOL 3004, FW(BIOL) 3084, BIOL 3094, BIOL 3134, FW(BIOL) 3144, FW(BIOL) 3154, BIOL(FW) 3224, BIOL 4044, or permission of instructor. The concepts of, processes that produce, and factors that threaten biological diversity are introduced and examined. Further emphasis is placed on unique problems associated with small population size, management of endangered species, and practical applications of conservation biology. Lecture three hours

FW 3173
BIOSTATISTICS

Fall. Prerequisite: one semester of statistics. An analysis and interpretation of fisheries and wildlife data including descriptive statistics, hypothesis testing, analysis of variance, simple linear regression, correlation, goodness of fit, and contingency tables.

FW 3204
AQUACULTURE

Spring. Prerequisite: BIOL 2124 or permission of instructor. Course is designed to provide students with the essentials of successful warmwater aquaculture including crayfish and alligators. Basics of cool and coldwater aquaculture are also covered. Emphasis ranges from maintenance of brood stock and culture of fingerlings to production of market size fish. Lecture three hours, laboratory two hours plus several full-day field trips that may involve weekend or overnight travel. $20 laboratory fee.
FW 3224
HERPETOLOGY
Spring of odd years. Prerequisite: BIOL 2124. The phylogeny, classification, physiology, behavior, and distribution of reptiles and amphibians. The Laboratory will stress identification of the species found in Arkansas. Lecture two hours, laboratory four hours. $20 laboratory fee.

FW 4001
SENIOR SEMINAR/FW BIOL
Fall. Restricted to senior fisheries and wildlife biology majors or by consent of instructor. Designed to integrate various aspects of fisheries and wildlife biology by covering current topics and to acquaint students with areas not covered elsewhere in the curriculum. Lecture one hour.

FW 4003
PRIN/WILDLIFE MANAGEMT
Spring. Prerequisite: FW(BIOL) 3114 or permission of instructor. Principles of managing wildlife resources with emphasis on the history of wildlife resources in the United States, population ecology, wildlife values, and the administration of wildlife resources and resources agencies. Lecture three hours.

FW 4013
WILDLIFE TECHNIQUES
Fall. Prerequisites: FW(BIOL) 3114 or permission of instructor. Instruction in current wildlife techniques including habitat evaluation and manipulation, estimation of wildlife abundance, capturing and marking, identification, aging, and scientific writing. Course is structured around a research project that requires use of popular wildlife techniques. Lecture one hour, laboratory four hours. $20 laboratory fee.

FW 4014
FOREST ECOLOGY/MANAGEMT
Fall. Prerequisite: FW(BIOL) 3114. An in-depth coverage of ecological interactions in forested ecosystems. Lectures cover biotic and abiotic factors that influence development and species compositions of forest stands. Wildlife habitat relationships in forested ecosystems will also be discussed. Laboratories will familiarize students with field techniques and management activities important in the major forest types of Arkansas. Lecture two hours, lab four hours. $20 laboratory fee.

FW 4024
LIMNOLOGY
Spring. Prerequisite: FW(BIOL) 3114. A study of physical and chemical processes in fresh water and their effects on organisms in lakes and streams. Laboratory sessions and field trips demonstrate limnological instrumentation and methodology. Lecture two hours, laboratory four hours. $20 laboratory fee.

FW 4034
GEOG INFO SYS/NAT RES
Spring. Prerequisites: PSY(SOC) 2053 or MATH 2163 and Computer Science elective or GEOG 4833. Use of GIS technology in wildlife and fisheries management and research. Emphasis placed on creation, maintenance, and analysis of spatially explicit data. Two hours lecture, four hours lab. $10 laboratory fee.
FW 4043
FISHERIES TECHNIQUES
Spring. Prerequisites: FW(BIOL) 3114 and a computer science elective, or permission of instructor. The techniques and practices of warmwater fish management. Major emphasis will be placed on survey techniques, data collection, and data analysis techniques. Lecture one hour, laboratory four hours. $20 laboratory fee.

FW 4054
WATERFOWL ECOLOGY MANAGEMENT
Spring. Prerequisites: BIOL/FW 3114. Ecology and management of North American waterfowl and their habitats. Laboratory exercises will focus on identification, life histories, sex and age determination, and abundance survey methods. Lectures and discussions will cover behavioral ecology, reproductive ecology, winter ecology, harvest management, and habitat management and conservation. Lecture two hours, laboratory four hours. $20 laboratory fee.

FW 4064
WETLAND ECOLOGY MANAGEMENT
Fall. Prerequisites: BIOL/FW 3114. An in-depth coverage of wetlands including occurrence, morphology, hydrology, soils, ecology, and regulation. The types of wetlands and their functions will be discussed, as will local, state and federal regulations pertaining to their use, management and protection. Laboratory will focus on identification of common wetland vegetation, delineation of wetland vegetation, delineation of wetland boundaries, as well as field techniques and management activities commonly used in Arkansas wetlands. Lecture three hours, laboratory two hours. $20 laboratory fee.

FW 4083
PRIN OF FISHERIES MGT
Fall. Prerequisites: FW(BIOL) 3114, one semester of statistics, and one semester of calculus, or permission of instructor. The principles and theory of warmwater fish management with major emphasis on the human dimension in fisheries management, fishery assessment, population dynamics, and common management practices. Lecture three hours.

FW 4103
HUMAN DIMENSIONS OF FW MGMT
Spring. Prerequisites: BIOL/FW 3114 (Ecology) or permission of instructor. Exploration of the complex interactions of social, political, institutional, economic and ecological processes that contribute to natural resource use and management. The primary focus is on interactions and conflict resolution among various stakeholders, resource management agencies, and wildlife and fisheries resources. Topics covered include public attitudes and expectations; agency structure and policy; values of fishes, wildlife; and public relations. Lecture three hours.

FW 4112
INTERNSHIP
Each semester. Prerequisites: Consent of program director. A supervised, practical experience providing FW majors with a hands-on, professional experience related to their career interests. Approximately 200 clock hours, a proposal, a log book, and a written report are required. A maximum of four credit hours is allowed for FW internship.

FW 4114
INTERNSHIP
Each semester, Prerequisites: Consent of program director. A supervised, practical experience providing FW majors with a hands-on, professional experience related to their career interests. Approximately 400 clock hours, a proposal, a log book, and a written and oral report are required. A maximum of four credit hours is allowed for FW internship.

**FW 4881**
ADVANCED TOPICS:

On demand. Prerequisite: Consent of instructor. Open to junior and senior students only. Offers special instruction on fisheries and wildlife topics that are not otherwise covered in the curriculum. The primary focus of the course will vary from offering to offering, thus the course may be taken more than once. $10 laboratory fee for four credit hour class only.

**FW 4882**
ADVANCED TOPICS:

On demand. Prerequisite: Consent of instructor. Open to junior and senior students only. Offers special instruction on fisheries and wildlife topics that are not otherwise covered in the curriculum. The primary focus of the course will vary from offering to offering, thus the course may be taken more than once. $10 laboratory fee for four credit hour class only.

**FW 4883**
ADVANCED TOPICS:

On demand. Prerequisite: Consent of instructor. Open to junior and senior students only. Offers special instruction on fisheries and wildlife topics that are not otherwise covered in the curriculum. The primary focus of the course will vary from offering to offering, thus the course may be taken more than once. $10 laboratory fee for four credit hour class only.

**FW 4884**
ADVANCED TOPICS:

On demand. Prerequisite: Consent of instructor. Open to junior and senior students only. Offers special instruction on fisheries and wildlife topics that are not otherwise covered in the curriculum. The primary focus of the course will vary from offering to offering, thus the course may be taken more than once. $10 laboratory fee for four credit hour class only.

**FW 4951**
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**FW 4952**
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**FW 4953**
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**FW 4954<br>UNDERGRADUATE RESEARCH**

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**GEOG 2013<br>REGIONAL GEOG/WORLD**

Prerequisite: Minimum score of 19 on the English and Reading portions of the ACT or successful completion of ENGL 1013 or equivalent. A survey of major regions with particular emphasis upon Europe, the Commonwealth of Independent States, the Orient, the Mid East, Africa, and Latin America.

**GEOG 2023<br>HUMAN GEOGRAPHY**

A systematic treatment of the major concepts of human geography and their application to modern problems. Consideration of population, cultural patterns and processes, political organization of space, agricultural and rural land use, industrialization and economic development, and cities and urban land use.

**GEOG 2833<br>INTRO GEOGRAPHIC INFO SYSTEMS**

Prerequisite: COMS 2003 or permission of the instructor. An introductory course dealing with computer organized spatial and attribute data. GIS is a system of specialized computer programs with the capability to manipulate and analyze data for problem solving.

**GEOG 3033<br>PHYSICAL GEOGRAPHY**

A description and interpretation of the physical features of the surface zone of the earth and how man interrelates with this complex natural environment.

**GEOG 3113<br>GEOGRAPHY/US & CANADA**

A regional study emphasizing the physical and cultural aspects of Anglo America.

**GEOG 3303<br>GEOG/LATIN AMERICA**

A regional study of the lands and people of Latin America and their interrelationships. Particular attention will be given to Mexico, Brazil, and Argentina.
GEOG 3413
GEOGRAPHY OF EUROPE
A regional study of the physical and cultural aspects of Europe (including the C.I.S.) and their interrelationships.

GEOG 3703
GEOGRAPHY OF ASIA
A regional study of the lands and peoples of Asia and their interrelationships with particular emphasis on India, China, and Japan.

GEOG 3803
HISTORICAL GEOGRAPHY
Prerequisite: GEOG 2013. A study of how space and place is transformed through time. Through a focus on the geographies of the past throughout North America, this course examines the ways humans interact with the environment to create a material-cultural landscape.

GEOG 4023
ECONOMIC GEOGRAPHY
A study of the resources at man's disposal and his economic activities in utilizing these resources. Special attention is given to industrial and agricultural resources of leading nations. May not be repeated for credit as GEOG 5023 or equivalent.

GEOG 4203
PLACE AND COLLECTIVE MEMORY
Prerequisite: GEOG 2013. An examination of the way society remembers the past and portrays this collective memory through socially constructed monuments.

GEOG 4803
SEMINAR/GLOBAL STUDIES
A seminar on current world geographic influences that affect the nations of the world, such as demographics, complex environmental and physical changes, and political and economic relationships.

GEOG 4951
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

GEOG 4952
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

GEOG 4953
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

GEOG 4954
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

GEOG 4991
SPEC PROB/GEOG

Admission requires consent of department head.

GEOG 4992
SPEC PROB/GEOG

Admission requires consent of department head.

GEOG 4993
SPEC PROB/GEOG

Admission requires consent of department head.

GEOG 4994
SPEC PROB/GEOG

Admission requires consent of department head.

GEOL 1004
ESSENTIALS/EARTH SCI

An introduction to the fundamental topics of earth science including physical and historical geology, oceanography, and meteorology. Laboratory exercises include the study of minerals, rocks, fossils, topographic and geologic maps, and oceanographic and meteorological phenomena. Laboratory work will stress the use of the scientific method of problem solving. This course is designed as a general education science requirement and for prospective early childhood and middle level school teachers. Lecture three hours, laboratory three hours. $10 laboratory fee. Duplicate credit for GEOL 1004 and GEOL 1014 will not be allowed.
GEOL 1014
PHYSICAL GEOLOGY
A survey of the earth's features and forces which modify its surface and interior. Laboratory exercises include the study of minerals, rocks, and landforms through the use of topographic maps and aerial photography. Lecture three hours, laboratory three hours. $10 laboratory fee. Duplicate credit for GEOL 1014 and GEOL 1004 will not be allowed.

GEOL 2001
SEMINAR:
Prerequisites: GEOL 1014 and 2001. Participants will prepare oral and written reports and participate in discussions of the reports. Topics for the seminar will be determined by the instructors but will be subjects which are beyond the scope of other geology courses.

GEOL 2024
HISTORICAL GEOLOGY
Prerequisite: GEOL 1014. A survey of the physical and biological history of the earth. Laboratory exercises include the study of fossils, geologic maps, and cross sections. Lecture three hours, laboratory three hours. $20 laboratory fee.

GEOL 2111
ENVIRONMENTAL SEMINAR
A seminar for students pursuing the environmental option of geology, biology, or chemistry and other students interested in environmental sciences.

GEOL 3001
SEMINAR:
Prerequisites: GEOL 1014 and 2001. Participants will prepare oral and written reports and participate in discussions of the reports. Topics for the seminar will be determined by the instructors but will be subjects which are beyond the scope of other geology courses.

GEOL 3004
STRUCTURAL GEOLOGY
Prerequisites: GEOL 1014, 2024, and MATH 1203 or 1914. A study and analysis of the structural features of the earth's crust. Lecture three hours, laboratory two hours. $20 laboratory fee.

GEOL 3014
MINERALOGY
Prerequisites: GEOL 1014, 2024; CHEM 1114 or 2124. A study of crystallography, physical and chemical properties, origin, occurrence, and structure theory of minerals. Lecture two hours, laboratory four hours. $20 laboratory fee.
GEOL 3023
GEOLeOGIC FIELD TECHNIQUE
Prerequisites: GEOL 1014, 2024 and 3004. Interpretation of aerial photographs; mensuration techniques using the Brunton compass, hand level, and Jacob's staff, measurement and description of stratigraphic sections; construction of and geologic maps; collecting, sampling, and collation procedures. Lecture laboratory four hours. $20 laboratory fee.

GEOL 3044
GEOMORPHOLOGY
Prerequisites: GEOL 1014, 2024, 3004, and 3164. A study of the land forms and the processes which shape the earth's surface. Special emphasis will be placed on slope forming and fluvi processes. Lecture three hours, laboratory three hours. $20 laboratory fee.

GEOL 3053
GEOL/ENERGY/METALLIC RES
Prerequisites: GEOL 1014, 3014, and 3164. A study of the principal earth materials essential to local and national economies. Location, genesis, methods of extraction, and primary utilization and conservation are emphasized. Lecture three hours.

GEOL 3083
HYDROGEOLOGY
Prerequisites: MATH 1113 and GEOL 1014 or permission of the instructor. The earth's hydrologic system is studied in terms of both empirical and quantitative aspects of the steady-state condition of groundwater and its interaction with surface water, as well as transient behavior from the influence of wells. Basic water chemistry is also covered along with transport and fate of pollutants in groundwater. Lecture 3 hours.

GEOL 3111
ENVIRONMENTAL SEMINAR
A seminar for students pursuing the environmental option of geology, biology, or chemistry and other students interested in environmental sciences.

GEOL 3124
INVERT PALEONTOLOGY
Prerequisite: GEOL 2024. A systematic study of invertebrate fossils and their geologic significance. Lecture laboratory six hours. $20 laboratory fee.

GEOL 3153
ENVIRONMENTAL GEOLOGY
Prerequisite: GEOL 1014. A study of the geological factors which influence the pollution of land, water, and biological resources; the role of rock and soil in the geobiological community; hydrology; land sliding and faulting in the human environment, natural resource problems; urban and land use planning based on geological data. Lecture three hours.
GEOL 3164
PETROLOGY
Prerequisite: GEOL 3014. A study of the classification, origin, geologic occurrence, physical and chemical properties of igneous, sedimentary, and metamorphic rocks. Lecture three hours, laboratory three hours. $20 laboratory fee.

GEOL 3174
COMPUTER APPL IN GEOLOGY
Participants will focus on mastering common geotechnical, oil and gas, and Geographic Information Systems (GIS) software utilized throughout the geologic profession. Course will include techniques on GIS analysis; generating stratigraphic sections, cross-sections, structure contours, fence diagrams, rose diagrams, and other geologic documents; geologic data management. $20 course fee.

GEOL 4001
SEMINAR:
Prerequisites: GEOL 1014 and 2001. Participants will prepare oral and written reports and participate in discussions of the reports. Topics for the seminar will be determined by the instructors but will be subjects which are beyond the scope of other geology courses.

GEOL 4006
FIELD GEOLOGY
Each summer by arrangement. Prerequisites: GEOL 1014, 2024, 3004, 3014, 3023, 3124, and 3164. A six week summer course of instruction in the use of geologic mapping instruments, interpretation of aerial photographs and their use in the construction of geologic maps, development of techniques necessary in geologic field work, and recognition and interpretation of geologic phenomena. $10 laboratory fee. The course is offered in cooperation with the University of Arkansas and will be taught in the Dillon, Montana region. The fee for room and board is approximately $800; cost of tuition and transportation is not included in this amount.

GEOL 4013
OPTICAL MINERALOGY
Prerequisites: PHYS 2024, GEOL 3014, 3164. A study of minerals in thin sections with the petrographic microscope. Lecture laboratory four hours. $10 laboratory fee.

GEOL 4023
PRIN/STRAT/SEDIMENT
Prerequisites: GEOL 3124 and 3164. A study of sedimentary rocks and their stratigraphic relationships. Lecture three hours.

GEOL 4034
SUBSURFACE GEOLOGY
Prerequisites: GEOL 3004, 3164, 4023, MATH 1113, PHYS 2014, 2024. A study of analytic procedures in selected topics in geophysics, well logging, and subsurface geological relationships. Lecture three hours, laboratory two hours. $10 laboratory fee.
GEOL 4111
ENVIRONMENTAL SEMINAR
A seminar for students pursuing the environmental option of geology, biology, or chemistry and other students interested in environmental sciences.

GEOL 4951
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

GEOL 4952
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

GEOL 4953
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

GEOL 4954
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

GEOL 4991
SPEC PROB/GEOLOGY
Open to geology majors with the approval of the department head.

GEOL 4992
SPEC PROB/GEOLOGY
Open to geology majors with the approval of the department head.

GER 1014
BEGINNING GERMAN I
Introduction to conversation, basic grammar, reading, and writing. Four hours of classroom instruction. Advanced placement and credit by examination are available to students who have previously studied German. One hour of foreign language lab per week is required.

**GER 1024**  
BEGINNING GERMAN II  
Prerequisite: GER 2014 or equivalent. Continued instruction in grammar and fundamental language skills. Four hours of classroom instruction. One hour of foreign language lab per week is required.

**GER 2014**  
INTERMEDIATE GERMAN I  
Prerequisite: GER 1024 or equivalent. Instruction designed to develop greater facility in fundamental skills and more extensive knowledge of grammar. Four hours of classroom instruction. One hour of foreign language lab per week is required.

**GER 2024**  
INTERMEDIATE GERMAN II  
Instruction intended to complete the survey of the basic grammar of the language and to provide the mastery of fundamental skills essential for enrollment in upper level German courses. Four hours of classroom instruction. One hour of foreign language lab per week is required.

**GER 3003**  
CONVERSATION/COMP I  
Prerequisite: GER 2024 or permission of instructor. Further study of German based on analysis of short texts (newspaper articles, short stories, plays, poetry). Students are expected to use German in oral and written expression.

**GER 3013**  
CONVERSATION/COMP II  
Prerequisite: GER 3003 or permission of instructor. Continuation of GER 3003.

**GER 3023**  
INTRO TO LINGUISTICS  
Prerequisites: ENGL 1023 or equivalent and GER 2024 or equivalent. A study of basic concepts in language, comparative characteristics of different languages, and the principles of linguistic investigation.

**GER 3113**  
CULTURE/CIVILIZATION  
Prerequisite: GER 3013 or permission of instructor. Study of the geography, history, arts, institutions, customs, and contemporary life of the German speaking peoples.
GER 3143  
STUDY ABROAD  
Prerequisite: enrollment in a Tech-sanctioned study program in a German-speaking country, completion of GER 2024 or equivalent, and permission of the Study Abroad supervisor. Study of the contemporary language and culture in a German speaking country. May substitute for GER 3003 or GER 3013, depending on the student's proficiency level.

GER 3163  
COMM INTERNSHIP EXPER  
Prerequisite: completion of GER 2024 or equivalent. Study of contemporary language and culture in a German-speaking community or setting. May be taken instead of GER 3143 to meet degree requirements.

GER 3213  
ADVANCED GRAMMAR/USAGE  
Prerequisites: GER 3013 or permission of instructor. The course is designed to build writing competence and strengthen grammatical competence. Grammar will be studied within the context of writing assignments. The course will deepen the knowledge of the language through the usage of applied linguistics, syntax, grammar, and semantics.

GER 3223  
SHORT STORY  
Prerequisite: GER 3013 or permission of instructor. An introductory study of German short stories. Students will analyze short texts to strengthen their reading and text interpretation skills and to increase their knowledge of vocabulary.

GER 4003  
ORAL COMMUNICATION  
Prerequisite: GER 3013 or permission of instructor. This course is designed to strengthen students' oral communication skills by enabling them to converse easily with native speakers on everyday topics in preparation for the oral proficiency interview (OPI). $134 interview fee.

GER 4213  
GERMAN LIT TO 1832  
Prerequisite: GER 3223 or permission of instructor. A survey of major writers and representative works from early Middle Ages through the Age of Goethe.

GER 4223  
GERMAN LIT SINCE 1832  
Prerequisite: GER 3223 or permission of instructor. A survey of major writers and representative works since the Age of Goethe.
GER 4283
SEMINAR IN GERMAN
Prerequisite: GER 3013 or permission of instructor. Course content will vary. May be repeated for credit if course content varies.

GER 4701
FOREIGN LANG PEDAGOGY
Prerequisites: Admission to student teaching phase of the teacher education program and concurrent enrollment in SEED 4909. Intensive on-campus exploration of the principles of curriculum construction, applied methods, professional collaboration, and evaluation as related to teaching French, German, or Spanish, followed by professional internship application of these principles under the supervision of a qualified departmental instructor.

GER 4703
FOREIGN LANG TCH METH
Prerequisites: GER 3013 and GER 3113 or equivalent; admission to Stage II of the Secondary Education sequence or equivalent. Survey of instructional methods with discussions and demonstrations of practical techniques for teaching of foreign language.

GER 4901
FOREIGN LANG INTERNSHIP
Prerequisites: Advanced foreign language proficiency; permission of the instructor and the department head. The Foreign Language Internship is intended primarily for majors in foreign languages or international studies. It is designed to provide outstanding students the opportunity to perfect their language proficiency and to acquire specific training and skills overseas. The overseas sponsor and the foreign language instructor of record will supervise the intern. Performance evaluations and a research paper will be required.

GER 4902
FOREIGN LANG INTERNSHIP
Prerequisites: Advanced foreign language proficiency; permission of the instructor and the department head. The Foreign Language Internship is intended primarily for majors in foreign languages or international studies. It is designed to provide outstanding students the opportunity to perfect their language proficiency and to acquire specific training and skills overseas. The overseas sponsor and the foreign language instructor of record will supervise the intern. Performance evaluations and a research paper will be required.

GER 4903
FOREIGN LANG INTERNSHIP
Prerequisites: Advanced foreign language proficiency; permission of the instructor and the department head. The Foreign Language Internship is intended primarily for majors in foreign languages or international studies. It is designed to provide outstanding students the opportunity to perfect their language proficiency and to acquire specific training and skills overseas. The overseas sponsor and the foreign language instructor of record will supervise the intern. Performance evaluations and a research paper will be required.

GER 4951
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.
GER 4952
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

GER 4953
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

GER 4954
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

GER 4991
SPEC PROB/GERMAN
Prerequisite: GER 2024 and consent of the instructor and the department head. Designed to provide advanced students with a course of study in an area not covered by departmental course offerings.

GER 4992
SPEC PROB/GERMAN
Prerequisite: GER 2024 and consent of the instructor and the department head. Designed to provide advanced students with a course of study in an area not covered by departmental course offerings.

GER 4993
SPEC PROB/GERMAN
Prerequisite: GER 2024 and consent of the instructor and the department head. Designed to provide advanced students with a course of study in an area not covered by departmental course offerings.

GER 4994
SPEC PROB/GERMAN
Prerequisite: GER 2024 and consent of the instructor and the department head. Designed to provide advanced students with a course of study in an area not covered by departmental course offerings.
GRK 1013
BEGIN CLASSICAL GRK I
Instruction in the fundamentals necessary to read and write classical Greek.

GRK 1023
BEGIN CLASSICAL GRK II
A continuation of GRK 1013.

GRK 2013
INTER CLASSICAL GRK I
Prerequisite: GRK 1023 or equivalent. A study designed to continue the development of fundamental skills and to give a general reading knowledge of classical Greek and acquaintance with classical Greek literature, history, and philosophy.

GRK 2023
INTER CLASSICAL GRK II
A continuation of GRK 2013 which concentrates on the works of Homer, Plato, Herodotus, and selected Attic dramatists.

GRK 3001
GRK/LAT SCI TERMINOLOGY
The course is designed to assist students with their understanding of English words which have their roots in Greek or Latin. Students who in their course of study need to know specialized vocabulary, such as science, math, pre-med, pre-law and nursing majors, will find this course extremely helpful.

GTED 4003
UNDERST GIFTED/H,SC,CO
Prerequisite: Consent of instructor. GTED 5003 may not be taken for credit after completion of GTED 4003 or GTED 6833. A survey in gifted education providing basic knowledge and concepts of interest to parents, prospective teachers, and the community at large.

HA 1013
SANITATION SAFETY
This course provides knowledge of food safety, potable water, bioterrorism and risk management particularly in the areas of food service and storage. The student will gain knowledge on safe food handling from: receiving and storage through preparing and serving food. This course will also analyze ethical considerations with regards to food and water safety and food service. ServSafe certification from the NRAEF will result upon successful completion of standardized exam.

HA 1043
INTRO HOSPITALITY MGMT
The history and development of the hospitality industry which comprises food, lodging, and tourism management, an introduction to management principles and concepts used in the service industry, and career opportunities in the field.

HA 1063
HOSPITALITY TECHNOLOGY
Prerequisite: COMS 1003. This course will focus on the fundamental features and components of computerized hotel, restaurant, and tourism management systems. The selection and implementation of technology applications to specific hotel, restaurant, and tourism management systems will be presented and discussed.

HA 1923
INTRO TO FOOD/BEVERAGE MGMT
Prerequisite CUL (HA) 1013. This course introduces the practical skills and knowledge necessary for the effective management of food and beverage operations encompassing the historical timeline of food and beverage, non-alcoholic beverages, the identification of meats, fishes, fruits, vegetables, dairy products and proteins. This course also introduces the front-of-the-house essentials for food and beverage operations encompassing glassware, service ware and other front-of-the-house equipment.

HA 2003
COST CONTROLS
This course will study the role of cost control management on overall profitability of hospitality entities. Basic principles of purchasing food, beverage, and non-food items with regards to maintaining an operation?s competitive advantage within the industry will be covered.

HA 2023
HOSPITALITY SUPERVSN/LEADERSHP
This course provides comprehensive coverage of the principles, theories, human-relations techniques, leadership styles, and decision-making skills that are required to manage a team to profitable results in the food service and lodging industries.

HA 2043
FRONT OFFICE MANAGEMENT
A survey of the lodging industry to include its history, growth and development, and future direction. Emphasis on front office procedures and interpersonal dynamics from reservations through the night audit.

HA 2053
WORK EXPERIENCE
Prerequisites: HA major, minor and/or culinary students. Sophomore standing or permission of instructor. Placement in selected hospitality settings as a student worker under professional guidance of both agency and faculty. Students are given the opportunity to take part in meaningful work experiences in actual work situations and managerial observation. Minimum of 200 clock hours of work experience.

HA 2063
GUEST SERVICES MGMT
Prerequisite HA 1063. The analysis and development of guest services management skills including leadership behavior, motivation, communication, training, staffing, etiquette, and professional service. Lecture two hours, lab minimum of three hours depending on the special event requirements. $100 lab fee which helps to cover your meal costs and/or travel.

HA 2133
TRAVEL AND TOURISM
The introduction to travel and tourism, its components and relationship to the recreation and hospitality industry. The course will explore the current and future trends in travel and tourism and the effects on the economy, as well as the social and political impacts of travel and tourism.

HA 2813
BASIC HUMAN NUTRITION IN HA
Study of the relationship between nutrition and health as a basis for food choices of all ages; the application of nutrient functions in human life processes and cycles; how balanced eating promotes healthy lifestyles. Current concepts and controversies are highlighted.

HA 2913
PRINC/FOOD PREPARATION
Prerequisites: CUL (HA) 1013. Corequisite: CUL (HA) 2813 and CHEM 1114. Upon completion of this course the student should be able to demonstrate skills in basic cooking techniques and methods, recipe conversion, and professional food preparation and handling. Additionally, the student should be able to recognize and safely operate common foodservice equipment used in commercial kitchens and demonstrate proficient culinary knife skills. This course is 2 hours lecture and a 4 hour lab depending upon special event requirement(s). $100 lab fee required. Additional costs: professional uniforms and knives are required and are to be considered additional out-of-pocket expenses to the student.

HA 3133
TOURISM PLANNING
An examination of the tourism planning process and techniques. Topics include tourism as a system, levels of planning, environmental, cultural and economic components, attractions, transportation, infrastructure and marketing.

HA 3143
EXECUTIVE HOUSEKEEPING
Prerequisite: HA 2043. This course evaluates the role of housekeeping, the planning and organization of various organizing tasks, and the importance of maintaining and training quality housekeeping staff. This course will evaluate managing inventories, controlling expenses and monitoring safety and security functions. This class is 2 hours lecture and 1 hour lab and will require students to have a minimum of 15 contact hours throughout the semester under supervision in a hotel housekeeping environment.

HA 4001
INTERNSHIP PREPARATION
Prerequisites: PRHA major, senior standing, and completion of RP/HA 3043 (if required for major) or permission of department head. Preparation for the internship experience. This course is graded Pass/Fail.
HA 4013
HOSPITALITY MKT/SALES
The organization of the marketing function and its role and responsibility in developing an integrated marketing program. Special attention to convention sales and management, and the role of travel related services to the marketing function.

HA 4023
HOSP FAC MGMT/DESIGN
Prerequisites: Junior standing plus nine hours of HA courses or by permission. The fundamental principles of facilities planning, facilities management, and maintenance for all segments of the hospitality industry. Application principles in the preparation of a typical layout and design.

HA 4033
LEGAL ASPECTS OF HA
Prerequisites: Senior standing or permission of instructor. Examination of the laws regulating the hospitality industry. Development of an appreciation of the interrelationship between the law and the hospitality industry. Exploration of how legal principles apply in the global environment of the hospitality industry.

HA 4053
MEET/CONVENTIONS MGMT
Prerequisites: Junior standing plus nine hours of HA courses or by permission. Planning and managing meetings and conventions in the hospitality industry.

HA 4063
BEVERAGE MANAGEMENT
Prerequisite: 21 years of age, HA major or permission of the instructor. Selection, storage, and service of beverages with emphasis on controls, merchandising, pricing, history, social and legal concerns. Successful completion of standardized exam results in Serv Safe Alcohol certification from the National Restaurant Association Educational Foundation. Lecture two hours, lab two hours. $50.00 Lab fee required.

HA 4073
HOSP FINANC ANALYSIS
Prerequisites: ACCT 2003 and 2013, HA major. Accounting principles and procedures for the Hospitality Industry as an aid in management planning, decision making and control, financial statements, statement analysis, flow of funds, cash analysis, accounting concepts, cost accounting budgets, capital expenditures, and pricing decisions.

HA 4093
RESORT MANAGEMENT
Prerequisites: Junior standing and nine hours of RP or HA courses or by permission. An in-depth study of resorts with respect to their planning, development, organization, management, marketing, visitor characteristics, and environmental consequences.
HA 4113  
PERSONNEL MGMT IN PRHA  
Prerequisites: Junior standing and nine hours of RP or HA courses. An overview of personnel considerations in various Recreation and Park agencies and the Hospitality industry. Laws, legal issues, structure, staffing, motivation, training, conduct, policies and other aspects of agency/industry personnel relations will be examined using case-studies, as well as other methods.

HA 4116  
INTERNSHIP  
Fall, spring and summer semesters. Parks, Recreation, and Hospitality Administration majors only. Prerequisites: Senior standing, current certifications in CPR, Standard and Advanced First Aid, consent of department head and completion of all other courses applicable to degree. Placement in selected agency settings as a student intern under professional guidance of both agency supervisor and faculty. Emphasis will be placed on application of classroom theory to agency requirements which fulfill student's individual career interest. No prior experience credit will be granted. Minimum of 600 clock hours during a minimum of 15 weeks of supervised internship is required. Student cannot document more than 40 hours of work experience per week. A written report is required within two weeks of internship completion. $100 supervisor travel fee required.

HA 4203  
HOSPITALITY PROBLEM SOLVING  
Prerequisites: Senior standing, MGMT 3003, HA 4013. Solving practical hospitality and tourism management problems through planning, establishment of policy, analysis and application of qualitative and/or quantitative methods.

HA 4243  
ADVANCED LODGING OPERATIONS  
Prerequisites HA 3143, HA 3243, HA 4113. An in-depth study of hotel and lodging operations management. The analysis of competitive strategies, leadership styles, teamwork, technology and creativity in the hotel and lodging industry.

HA 4253  
CLUB MANAGEMENT  
Prerequisites: Junior standing and nine hours of HA courses, or permission of instructor. This course analyzes the organizational diversity of clubs exploring governance, management and operations of profit and non-profit clubs.

HA 4951  
UNDERGRADUATE RESEARCH  
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

HA 4952  
UNDERGRADUATE RESEARCH  
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.
HA 4953
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

HA 4954
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

HA 4983
ADVANCED FOOD PRODUCTION
Prerequisite: HA 2913. Upon completion of this course the student should be able to demonstrate advanced level cooking techniques and methods, recipe conversion, and professional food preparation and handling as well as managerial competencies. This course is one hour lecture and a minimum five hour lab depending on the event requirements. Advanced preparation may be required the day before or the day of an event. $100 lab fee required which helps to cover your meal costs.

HA 4991
SPEC PROBLEMS AND TOPICS
On demand. Investigative studies and special problems and topics related to hospitality administration.

HA 4992
SPEC PROBLEMS AND TOPICS
On demand. Investigative studies and special problems and topics related to hospitality administration.

HA 4993
SPEC PROBLEMS AND TOPICS
On demand. Investigative studies and special problems and topics related to hospitality administration.

HIM 1001
HEALTH INFO MGMNT ORIENT
Fall. An introductory course with emphasis on the basics of health information management as related to career choices, giving the student a better understanding of opportunities in the field. The course will also focus on helping the student develop good study skills, career goals, and understand policies and information needed for a successful college career.
HIM 2033
CODING PRINC MEDICAL OFFICE

Prerequisites: AHS 2013, 1023, BIOL 2004, or permission of instructor. A study of medical coding using ICD-9-CM and CPT codes in the medical office. Students will be taught to evaluate patients' medical records to correctly assign both diagnostic and procedural codes required for healthcare reimbursement in the medical office setting.

HIM 3023
INTRO HEALTH INFO MGMT

Fall. Prerequisite: Admission to the HIM Program. A study of the history of health records, professional ethics, the functions of a health information department, retention of records, medical forms, health information practices, and responsibilities to healthcare administration, medical staff, and other medical professionals.

HIM 3043
ADV CONCEPTS/HLTH INFO

Fall. Prerequisite: HIM 3024. A study of such advanced concepts as quality improvement, utilization review, licensure and accreditation standards, medical staff, and interdisciplinary relationships.

HIM 3132
HEALTH DATA/STATISTICS

Spring. Prerequisite: HIM 3024 or permission of instructor. A study of the methods of recording diagnoses and operations by recognized systems of disease, procedural and pathological nomenclatures and classification systems, manual and computerized systems of indexing and abstracting, research and statistical techniques, and health information data handling.

HIM 3133
ALTERN HEALTH RECORDS

Spring. Prerequisite: HIM 3024. A study of health record requirements in non-traditional settings such as cancer programs, ambulatory care facilities, mental health centers, and long term care facilities.

HIM 3153
CURRENT ISSUES IN HIM

Prerequisite: HIM 3024. An in-depth study of the latest issues affecting the field of health information management. Specific topics will vary to reflect emerging technology including such topics as eHIM, electronic health records, personal health records and HIPAA privacy concepts.

HIM 4034
ADVANCED CODING PRINCIPLES

Spring. Prerequisite: HIM 3033. A continuation of HIM 3033, dealing with advanced principles of coding using ICD-9-CM and CPT-4. Experience with coding of health records as well as DRG grouping and the administrative aspects of coding will be emphasized. May not be taken for credit after completion of HIM 4032. $10 lab fee.

<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIM 4063</td>
<td>ORGANIZATION/ADMIN</td>
<td>Fall. Prerequisites: HIM 3024 and senior standing. A study of the application of the principles of organization, administration, supervision, human relations, work methods, and organizational patterns in the health information department. The duties and relationships of the health information manager and the social forces affecting the department and current trends in hospital and medical care are investigated.</td>
</tr>
<tr>
<td>HIM 4073</td>
<td>LEGAL CONCEPTS/HEAL FLD</td>
<td>Spring. Prerequisites: HIM 3024 and senior standing, or permission of instructor. A study of the principles of law as applied to the health field. Consideration is given to the importance of health records as legal documents as well as a general introduction to the law, administration of the law, legal aspects of healthcare facility and medical staff organization, release of information, confidential communication and consents and authorizations.</td>
</tr>
<tr>
<td>HIM 4083</td>
<td>HEALTH ORGANIZ TRENDS</td>
<td>Spring. Prerequisites: HIM 3024 and senior standing, or permission of instructor. A comprehensive review of the trends and changes in the healthcare field. Historical aspects of healthcare organization and governmental health agencies are reviewed. Emphasis is placed on current events in the healthcare arena.</td>
</tr>
<tr>
<td>HIM 4092</td>
<td>RESEARCH IN HIM</td>
<td>Spring. Prerequisites: HIM 3024 and senior standing. A study of the specific research methodology used in a health information management setting. Emphasis will be given to hands on performance of research in conjunction with area health care facilities and agencies. Formal presentation of research will also be a component of the course.</td>
</tr>
<tr>
<td>HIM 4153</td>
<td>PRINCIPLES/DISEASE</td>
<td>Spring. Prerequisites: AHS 2013, BIOL 2004, and permission of instructor. An introduction to medical science, including the etiology, treatment and prognosis of various diseases. Emphasis is given to the medical information as viewed from the standpoint of a health information management professional.</td>
</tr>
<tr>
<td>HIM 4182</td>
<td>PROF PRACTICE EXPER I</td>
<td>Fall. Prerequisites: HIM 3024, HIM 3043, HIM 3133, HIM 3132 and HIM 3033. Active participation within an actual health information management department providing a supervised learning experience through which the student develops insight, understanding, and skills in health information procedures, accepts responsibilities and recognizes the need for confidentiality. $10 laboratory fee.</td>
</tr>
<tr>
<td>HIM 4292</td>
<td>PROF PRACTICE EXPER II</td>
<td>Spring. Prerequisites: HIM 4182. A supervised learning experience through which the student learns to recognize the contribution of and learns to work with other professional and non professional personnel, learns to recognize and deal with personnel problems in a health information department. $10 laboratory fee.</td>
</tr>
</tbody>
</table>
HIM 4892
SEMINAR/HIM
First summer term. Corequisite: HIM 4895. A seminar, utilizing the case method approach, on problem situations encountered in the field of health information management. This course includes discussion of problems that arise during their affiliation experience.

HIM 4895
AFFILIATION
First summer term. Prerequisites: Successful completion of all required HIM courses except HIM 4892. Provides the student with a four-week management experience in the activities and responsibilities of the health information management professional. Augments theoretical instruction received during previous courses. Student is actively involved in the management process while under direct supervision of a qualified health information management professional. Although every effort is made to secure a convenient locale, the student must assume full financial responsibility for this assignment. $10 laboratory fee.

HIM 4951
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

HIM 4952
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

HIM 4953
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

HIM 4954
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

HIM 4983
SYSTEMS ANALYSIS/HIM
Fall. Prerequisites: COMS 1003, COMS 2003, HIM 3024, and senior standing. A course designed to provide a detailed study of the relationship between health information management departments and computerized information systems. Students will learn from a variety of projects related directly to the clinical setting.
HIM 4991  
SPECIAL PROBLEMS IN HIM  
Each semester. Open to health information management senior students only. The problems will vary to fit the needs of the student and reflect the continual changes in the allied health field.

HIM 4992  
SPECIAL PROBLEMS IN HIM  
Each semester. Open to health information management senior students only. The problems will vary to fit the needs of the student and reflect the continual changes in the allied health field.

HIM 4993  
SPECIAL PROBLEMS IN HIM  
Each semester. Open to health information management senior students only. The problems will vary to fit the needs of the student and reflect the continual changes in the allied health field.

HIM 4994  
SPECIAL PROBLEMS IN HIM  
Each semester. Open to health information management senior students only. The problems will vary to fit the needs of the student and reflect the continual changes in the allied health field.

HIST 1503  
WORLD CIVILIZATION I  
The history of humanity from prehistoric times to the sixteenth century.

HIST 1513  
WORLD CIVILIZATION II  
The history of humanity from the sixteenth century to the present.

HIST 1543  
HONORS WORLD CIVILIZATION I  
Prerequisites: Admission to University Honors or permission of Honors Director. The history of humanity from prehistoric times to the sixteenth century with an emphasis on the critical analysis of primary source documents and the methods by which historians and other scholars interpret historical evidence.

HIST 1903  
SURVEY OF AMERICAN HISTORY
Survey of American History. An overview of American history from the pre-colonial period to the present. May not be taken for credit after completion of HIST 2003 or 2013.

HIST 2003
UNITED STATES HISTORY I
Prerequisite: Minimum scores of 19 on the English and Reading portions of the ACT or successful completion of ENGL 1013 or equivalent. The study of the development of the American nation to the Civil War and Reconstruction Era.

HIST 2013
UNITED STATES HISTORY II
Prerequisite: Minimum score of 19 on the English and Reading portions of the ACT or successful completion of ENGL 1013 or equivalent. The study of the development of the American nation since the Civil War and Reconstruction Era.

HIST 2043
HONORS US HISTORY I
Prerequisites: Admission to University Honors or permission of Honors Director. History 2043 concentrates on the development of the American nation with emphasis upon the winning of independence, the origin of the Constitution, the rise of Jeffersonian Democracy, European influence up America, Jacksonian Democracy, westward expansion, the emergence of sectionalism, and the Civil War.

HIST 2153
INTRO/ARKANSAS HISTORY
Prerequisite: HIST 2003 or HIST 2013. An introductory course on the history of Arkansas. Lectures, discussions, and applied activities will be central to this course. This course is a professional education requirement for Early Childhood and Middle Level Education majors, and may not be counted toward the History and Political Science nor the History and Political Science Education degree. Students may not take this course after completion of HIST 4153.

HIST 2203
INTRODUCTION TO PUBLIC HISTORY
An introduction to the theory and disciplines of public history, including museum studies, historic preservation, archive and manuscript management, and historical editing. The course also explores the current theoretical and practical issues confronting public historians.

HIST 2513
SOURCES/METHODS IN HIST
This course is designed as an introduction to the field of historical research. This course introduces techniques and methods of historical research, basic historiography, bibliographical aids, and the study and writing of history. It is a hands-on course where students will use the skills learned to evaluate social science research.
The European background, the settlement of British colonies, the development of provincial institutions, and the emergence of an American civilization in the seventeenth and eighteenth centuries.

HIST 3023
ERA OF AMER REVOLUTION
The deterioration of empire relationships from 1763 to 1776, with an examination of the causes and consequences of the American Revolution and the post war problems leading to the establishment of a new government under the Constitution in 1789.

HIST 3033
EARLY AMERICAN REPUBLIC
The social, cultural, economic, and political climate in which Jeffersonian Jacksonian democracy developed.

HIST 3043
CIVIL WAR/RECONSTRUCTION
Prerequisites: HIST 2003 or permission of department head. The social, political, economic, and intellectual backgrounds of the war; the military operations; analysis of Reconstruction.

HIST 3063
GILD AGE/PROG 1877-1914
Explores the major issues associated with Gilded Age America (immigration, industrialization, urbanization, imperialism, rise or organized labor) and examines the origins, goals, and legacies of the Populist and Progressive reform movements. May not be taken for credit after completion of HIST 3053.

HIST 3073
UNITED STATES, 1914-1945
Examines the American entry and contribution in World War One; the post- war settlement; the various social, economic, and political trends of the 1920s; the Great Depression; the New Deal; American foreign policy in the inter- war era; and the American role in World War Two, and its effects on American society and culture.

HIST 3083
THE US: 1945-PRESENT
Explores the origins of and American responses to the Cold War, the rise of various reform movements in the 1950s- 60s, the New Frontier and Great Society programs, the Vietnam War, and the rise of the New Right. May not be taken for credit after completion of HIST 4003.

HIST 3103
THE OLD SOUTH, 1607-1865
Prerequisites: HIST 2003 or permission of department head. A survey of the political, social, and economic development of the American South before the Civil War.

**HIST 3123**
THE NEW SOUTH

Prerequisites: HIST 2013 or permission of department head. A survey of the political, social, and economic development of the American South from the end of the Civil War to the present.

**HIST 3223**
LOCAL AND ORAL HISTORY

The course has two main, inter-related themes, local history and oral history. This course examines the nature and practice of local history and explores the various methods and approaches central to local history research. In addition, this course introduces students to the literature and theory of oral history and trains them in related fieldwork methodologies.

**HIST 3243**
ARCHIVE AND MANUSCRIPT MGMT

Prerequisites: HIST 2203 or permission of department head. An introduction to the administration of archival and manuscript collections in various types of institutions. This course explores the basic theoretical principles and archival practices of appraisal, acquisition, accessioning, arrangement, description, preservation, and user services. Topics will include: records management programs, collecting archives programs, legal and ethical issues, public programming and advocacy, and the impact of the new information technologies for preservation and access.

**HIST 3281**
GRANT WRITING FOR HISTORIANS

Prerequisites: HIST 2203 or permission of department head. An introductory course designed to provide students with the basic tools necessary to successfully compete for external grant funds. The focus of the course is public history grants, although the skills and knowledge presented will also benefit historians who propose professional development proposals on research and study plans.

**HIST 3283**
HISTORICAL EDITING

Prerequisites: HIST 2203 or permission of department head. An introduction to historical editing in both print and electronic applications. Students will gain practical experience by editing documents and surveying the relevant literature.

**HIST 3291**
PRACTICUM IN PUBLIC HISTORY

Prerequisite: HIST 2203. Practicum facilitating the integration, synthesis, and application of theories, concepts, and skills associated with public history. Course requires 75 clock hours of supervision in the museum.

**HIST 3313**
COLONIAL LATIN AMERICA
A survey of the political, economic, social and cultural aspects of Latin America to 1825. Emphasis is on cross-cultural accommodation and the role of indigenous, African, and European cultures in shaping Latin American development.

HIST 3323
MODERN LATIN AMERICA
A survey of the political, economic, social and cultural aspects of Latin America since 1825. Emphasis is on cultural values and structures from the colonial period, continuing patterns of authoritarianism, the struggle to establish democratic institutions, and Latin America's role in world affairs.

HIST 3413
HIST CLASS GREECE/ROME
The origins and development of Classical civilization in ancient Greece, the rise of the Roman Republic, and the ascendancy and decline of the Roman Empire.

HIST 3423
HIST MID AGES, 300-1300
Decline of the ancient Roman civilization; rise, ascendance, and decline of medieval civilization; emphasis upon the Christian church and the rise of national monarchies.

HIST 3433
RENAISSANCE/EUR EXPANSION
Fuelled by a growing urban economy and despite the setbacks of the Black Death, Europeans during the Renaissance revived and adapted models of classical learning, created new forms of artistic and vernacular expression, forged national identities, opened up new trade routes, and encountered a New World.

HIST 3443
REFORM/EARLY MOD EUROPE
A study of the social, political, intellectual and cultural impact of the Protestant Reformation, the Roman Catholic response, the sixteenth and seventeenth-century Wars of Religion, the development of confessional cultures, and the continued rise of the European nation-state in both its absolutist and constitutional forms.

HIST 3463
ENLIGHTEN/FRENCH/REV/NAPOLEON
Prerequisites: HIST 1503 and 1513. This upper-division course will address the intellectual, social, and political events of the turbulent eighteenth century in Europe, a period known for the Enlightenment, as well as for the French Revolution and the rise and fall of Napoleon's Empire. Historians often argue that this period ushered in many of the hallmarks of the modern world, including nationalism, open class conflict, and popular democracy. The intent of this course is to examine the period in the context of its long-lasting influence upon world events.

HIST 3483
REACT/REFORM, 1815-1871
A study of the changes in the political, cultural, intellectual, and social environments which characterized Europe during the period between the Congress of Vienna through the rise of the modern nation states.

**HIST 3493**  
**AGE OF EMPIRE, 1871-1919**

A study of the changes in the political, cultural, intellectual, and social environments which characterized Europe during the period between the rise of the modern nation states to the end of the First World War.

**HIST 3503**  
**EUR BETWEEN WARS 1919-39**

A study of the changes in the political, cultural, intellectual, and social environments which characterized Europe during the period between the end of the First World War to the beginning of the Second World War.

**HIST 3513**  
**EUROPE SINCE 1939**

A study of the changes in the political, cultural, intellectual, and social environments which characterized Europe during the period between the beginning of the Second World War to the present.

**HIST 3533**  
**HISTORY OF RUSSIA**

A study of the cultural and political history of Russia from the reign of Peter the Great to the present, emphasizing trends in the nineteenth century which culminated in the Bolshevik Revolution. May not be repeated for credit as HIST 5463 or equivalent.

**HIST 3563**  
**HISTORY OF ENGLAND**

A study of the history of England from national origins to modern times.

**HIST 3573**  
**HISTORY OF EASTERN EUROPE**

Prerequisites: HIST 1503 and 1513. A study of the cultural and political history of eastern Europe from the Napoleonic Wars to the present.

**HIST 3603**  
**HISTORY OF MODERN EAST ASIA**

This course deals with the history of East Asia after 1800. The major stress is placed upon the history of China, Korea, and Japan.
HIST 3703
HISTORY OF MODERN AFRICA
A treatment of African history since 1600, dealing with the development of African states in sub Saharan Africa up to present African nations. May not be repeated for credit as HIST 5703 or equivalent.

HIST 3803
HISTORY OF THE MIDDLE EAST
Political, social, and cultural survey of the history of the Middle East from the rise of Islam to modern times.

HIST 4013
AMERICAN MILITARY HIST
A study of the American military from its colonial origins to the present, including the development of the military establishment and its relationship with American society. May not be repeated for credit as HIST 5013 or equivalent.

HIST 4023
VIETNAM WAR
A study of the American involvement in Vietnam, from 1945 until 1975. Emphasis will rest on the actual period of war in Vietnam. May not be taken for credit after completion of the equivalent course under HIST/POLS 4983 nor be repeated for credit as HIST 5023.

HIST 4033
THE FRONTIER/AMER HIST
Prerequisites: HIST 2003 and 2013, or permission of department head. Study of the American frontier as a place, as a process, and as a state of mind influential in shaping institutions and attitudes during the expansion of this nation westward from Atlantic to Pacific. May not be repeated for credit as HIST 5033 or equivalent.

HIST 4043
AMER CONSTITUTIONAL DEV
An historical analysis of American Constitutionalism and constitutional law from earliest antecedents to the present time, as seen in the leading documents and cases dealing with judicial review, separation of powers, the federal system, commerce taxation, civil rights, and civil liberties.

HIST 4053
ECONOMIC HISTORY OF US
A study of the major economic forces which have helped influence, and been influenced by, United States history. Particular emphasis will be given to the development of agriculture, business, industry, and labor in their American setting. May not be repeated for credit as HIST 5053 or equivalent.
HIST 4073
AMER DIPL HIST TO 1912
Prerequisite: HIST 2003. This course is a study of America’s diplomatic relationships with other nations and peoples from 1776 to 1912. Of particular emphasis will be the changes in international affairs brought about by the evolving economic and political conditions. This course follows the United States’ early struggles in diplomacy through its expansion and eventual emergence as a world power.

HIST 4083
AMER DIPL HIST SNCE 1912
Prerequisite: HIST 2013. This course is a study of America’s diplomatic relationships with other nations and peoples from 1912 to the present. Of particular emphasis will be the changes in international affairs brought about by the evolving economic and political conditions. This course follows the United States from its emergence as a world power through two world wars, a cold war, and a war on terrorism.

HIST 4103
AMERICAN POLITICAL IDEAS
The background and development of American political ideas from the colonial period to the present. Emphasis is placed on colonial political theory, the Founding, conflict and consensus prior to the Civil War, the response to industrialization, the rise of the positive state, nationalism, the New Left and New Right, and current trends.

HIST 4123
AFRICAN AMERICAN HISTORY
Prerequisites: HIST 2003 or HIST 2013. This course examines the unique role and contribution of African Americans in the overall development of American history from the colonial era to the present. Topics include African societies; black colonial life; the institution of slavery; and African American responses to slavery; the free black community; African American cultural, political, and economic development; issues of assimilation, separatism, and African American responses to institutional racism; the Civil Rights Movement, and recent developments. May not be repeated for credit as HIST 5123.

HIST 4133
LATINOS IN THE U.S.
This course is an analysis of the historical and cultural heritage of Latinos who have lived or are currently living in the United States. This course includes the colonial origins of Latino groups and their general migration patterns to the United States. This course also explores the development of Latino communities as well as the relationship between Latinos and social institutions. May not be repeated for credit as HIST 5133 or equivalent.

HIST 4143
NATIVE AMERICAN HISTORY
Prerequisites: HIST 2003 or HIST 2013. A survey of Native American history from the Archaic period to the present. This course will present an interpretation of the historical experience of the diverse nations native to North America utilizing an ethno-historical approach. Some emphasis will be placed on the formation and operation of United States government policy regarding Native Americans in both the 19th and 20th centuries. May not be repeated for credit as HIST 5143.

HIST 4153
HISTORY OF ARKANSAS

http://www.atu.edu/academics/catalog/descriptions/all.php
A study of the history of Arkansas from prehistoric times to the present, noting political, social, economic, and cultural trends. May not be taken for credit after completion of HIST 3153 nor repeated for credit as HIST 5153 or equivalent.

HIST 4163
AMERICAN HISTORY THROUGH FILM
Prerequisite: HIST 2013. This course examines 20th century American history through the study of American film, and film as cultural and historical text. Subjects for analysis include the Great Depression, World War II, the Cold War and Cold War culture, the 1960s, Vietnam, and the Reagan era. Emphasis will be on the uses of film as both primary and secondary source material for the study of history.

HIST 4173
HISTORY OF AMERICAN DISASTERS
A comparative examination of the greatest disasters in American history, the response to them, and how they affected the future of the nation.

HIST 4183
AMERICAN LEGAL HISTORY
This course concerns the history and development of law, legal institutions, and legal culture in the United States from its colonial origins to the present day, with emphasis on the interaction of law with the overall development of American society.

HIST 4193
AMERICAN LABOR HISTORY
This course examines the history of working people-men and women, paid and unpaid, of various racial and ethnic groups, in diverse geographic regions-primarily from the Early Republic to the present. This study will include a review of changes in work environments due to industrialization, unionization, and legal decisions.

HIST 4203
WOMEN IN AMERICAN HIST
A treatment of women in Western and American social history in their lifestyles and economic and family roles. May not be taken for credit after completion of HIST 3203 nor repeated for credit as HIST 5203 or equivalent.

HIST 4213
SOUTHERN WOMEN'S HISTORY
A social history of the lives of women in the American South from approximately 1700 to the present which examines their lifestyles, economic, and family roles. This study includes, but is not limited to, experiences of Arkansas women.

HIST 4293
HISTORIC PRESERVATION
Prerequisites: HIST 2203 or permission of department head. Upper-level survey of historic preservation in the United States. Course examines the theory, philosophy, and methods of maintaining the culture of the past. An introduction to the wide range of ideas underpinning the practice of preservation is covered through readings, discussions, presentations, class projects and field trips.

HIST 4403
INTERP/EDUC/MUSEUM/METH

Prerequisites: Senior or Graduate standing, or permission of instructor. Museum perspectives and approaches to care and interpretation of cultural resources, including interpretive techniques of exhibit and education-outreach materials, and integrating museum interpretation/education into public school and general public programming. Class projects focus on special problems for managing interpretive materials in a museum setting.

HIST 4483
WORLD ECONOMIC HISTORY

World Economic History traces the development of the modern global economy from the late middle ages to the present. Special attention is given to the emergence of capitalism in Europe and its migration to other parts of the world. May not be repeated for credit as HIST 5483 or equivalent.

HIST 4503
HISTORY OF CHRISTIANITY

A study of Christianity, from its beginnings to the present day, focusing especially on ancient Mediterranean, medieval European, and modern American Christian traditions. Emphasis will be on the interaction between individual beliefs, group identity, and institutional forces, how each have been shaped by broader social, political and cultural contexts, and finally how these interactions have resulted in profound changes for the Christian religion.

HIST 4513
HISTORY OF SCIENCE

A study of the origins, nature, and development of Western science and its social, economic, and cultural context. May not be repeated for credit as HIST 5513.

HIST 4713
SOC STUDIES METH/SEC TEA

Prerequisites: SEED 2002 and the completion of 36 hours in the Social Sciences. A course in subject-matter applications for secondary teacher education candidates (grades 7-12) in social studies. The course will incorporate a variety of instructional models, activities, and examples, as well as the integration of traditional and non-traditional resource materials. Must be completed prior to student teaching.

HIST 4813
WORLD WAR II

A study of World War II, 1939 through 1945, in its origins and spread through world theaters. May not be taken for credit after completion of the equivalent course under HIST/POLS 4983 nor repeated for credit as HIST 5813.

HIST 4823
NATIONALISM
Prerequisites: HIST 1503 and 1513. The course looks at the development of the idea of nation in European and World history in the last two centuries. By using historical examples the course will introduce the students to the current theoretical debate on ethnicity and nationalism. The special attention will be placed on the relationship between state power and the nation. The course will look at ethnicity in history before and after the emergence of effective means of communication, such as the printing press, radio, and television. It will also look at the role culture plays in the formation of national consciousness and how the past was used and abused to drum-up political support.

HIST 4951
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

HIST 4952
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

HIST 4953
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

HIST 4954
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

HIST 4963
SENIOR SEMINAR
Prerequisites: HIST 1503, 1513, 2003, and 2013. Required course for History/Political Science and History Education majors. Course content will cover a directed seminar in specified American or European History. Research techniques will be emphasized.

HIST 4971
INTERNSHIP
Prerequisites: Junior or Senior standing, 2.75 grade point average, and consent of department head. A supervised placement in selected agency settings in student/trainee status under professional guidance of both an agency supervisor and a faculty member. Emphasis will be on providing hands-on experience in research, editing, cultural management, public service, or some other area related to the discipline. Written report required and minimum of 100 clock hours of supervision required per credit hour. May be repeated for a maximum of 6 hours credit.

HIST 4972
INTERNSHIP
Prerequisites: Junior or Senior standing, 2.75 grade point average, and consent of department head. A supervised placement in selected agency settings in student/trainee status under professional guidance of both an agency supervisor and a faculty member. Emphasis will be on providing hands-on experience in research, editing, cultural management, public service, or some other area related to the discipline. Written report required and minimum of 100 clock hours of supervision required per credit hour. May be repeated for a maximum of 6 hours credit.

HIST 4973
INTERNSHIP

HIST 4974
INTERNSHIP

HIST 4975
INTERNSHIP

HIST 4976
INTERNSHIP

HIST 4981
SOCIAL SCIENCES SEMINAR

A directed seminar in an area of social sciences. The specific focus will depend upon research under way, community or student need, and the unique educational opportunity available. May be repeated for credit if course content changes.

HIST 4982
SOCIAL SCIENCES SEMINAR

A directed seminar in an area of social sciences. The specific focus will depend upon research under way, community or student need, and the unique educational opportunity available. May be repeated for credit if course content changes.
HIST 4983
SOCIAL SCIENCES SEMINAR
A directed seminar in an area of social sciences. The specific focus will depend upon research under way, community or student need, and the unique educational opportunity available. May be repeated for credit if course content changes.

HIST 4991
SPEC PROB/HISTORY
A course for majors and minors only. Admission requires consent by department head.

HIST 4992
SPEC PROB/HISTORY
A course for majors and minors only. Admission requires consent by department head.

HIST 4993
SPEC PROB/HISTORY
A course for majors and minors only. Admission requires consent by department head.

HIST 4994
SPEC PROB/HISTORY
A course for majors and minors only. Admission requires consent by department head.

HLED 1513
PERS HEALTH/WELLNESS
Each semester. The course is designed to motivate students toward an individual responsibility for their health status and an improved quality of life. An introspective study of personal lifestyle behavior is encouraged. The interrelationship of the multi causal factors which directly affect health status and the various dimensions of personal health are addressed.

HLED 3203
CONSUMER HEALTH PROGRAMS
A study of current health services and the products offered by health providers to the health consumer and an examination of various diseases and disorders.

HLED 4303
METH/MAT HLTH/GR K-12
Exploration of teaching methods and strategies, use of school and community resources, and evaluation related to teaching health in grades K-12.

**HLED 4403  
NUTRITION/PHY FITNESS**

Prerequisite: PE 2653. A health education course which is designed to familiarize students with food as it relates to optimal health and performance. Focus is on nutrition as it affects the physical work capacity of humans from resting states to high output performance.

**HLED 4991  
SPEC PROBLEMS IN HEALTH**

Independent work on approved health topics under the individual guidance of a faculty member. Admission requires consent of department head.

**HLED 4992  
SPEC PROBLEMS IN HEALTH**

Independent work on approved health topics under the individual guidance of a faculty member. Admission requires consent of department head.

**HLED 4993  
SPEC PROBLEMS IN HEALTH**

Independent work on approved health topics under the individual guidance of a faculty member. Admission requires consent of department head.

**HONR 1001  
FRESHMAN HONORS SEMINAR**

Prerequisite: Acceptance into the honors program, approval of Honors Program Director. An introductory course to the honors program, teamwork and multidisciplinary problem solving.

**HONR 4093  
SENIOR HONORS PROJECT**

Prerequisites: Approval of the Director of Honors Program (if used for departmental requirement, all applicable prerequisites also apply). A team or individual independent research project will be completed. Projects will include some aspect of academic investigation appropriate to the subject area chosen. Presentation of project findings at annual Senior Honors Symposium will be required.

**ICS 1103  
PROGRAMMING I**

This course is designed to give the student an understanding of established and new methodologies using Microsoft Visual Basic programming. Emphasis is placed on developing logical thinking skills.
ICS 1104  
FUNDAMENTALS OF ELECTRICITY  
This course is an overall study of the fundamental principles of D.C. and A.C. circuits. A basic study of Ohm's Law, series, parallel and series parallel resistor circuits. The fundamental concepts form the basis for the study of advanced applications of electronic systems. It is necessary for the electronic technician to be able to understand the basic concepts to function as an Electronic Technician.

ICS 1123  
SEMICONDUCTORS I  
This course introduces semiconductors or solid-state components. Topics covered include the diode and applications, transistors, and amplifiers.

ICS 1143  
INTRODUCTION TO DIGITAL LOGIC  
An introductory course in the study of digital logic systems. Basic digital logic gates, truth tables, numbering systems, and different types of TTL integrated circuits are studied.

ICS 1153  
NETWORKING I  
Designed as a foundation course that provides the theory and basic understanding of the hardware and software that comes together to build local area and wide area networks.

ICS 1253  
NETWORKING II  
Prerequisite: ICS 1153. Builds upon the skills and concepts learned in Networking I. Emphasis will be on the hands-on aspects of personal computer networks using Microsoft and Linux based networking products, including installations and/or expanding a networking system and troubleshooting problems.

ICS 1303  
PC MAINTENANCE  
This course is designed to prepare individuals to troubleshoot, build, and repair personal computers, workstations, printers, and other computer peripherals. The student will also learn to install, debug, diagnose, and repair software problems associated with PCs.

ICS 2115  
PROGRAMMABLE CONTROLLERS  
Deals with the subject of programmable controllers (PCs). The PC is a microprocessor-based programmable device used in controlling mechanical machinery, energy management systems, computer integrated manufacturing, and other applications. Lecture: 3 hours, laboratory: 6 hours.
ICS 2116
BASIC INDUSTRIAL AUTOMATION
An illustrated study of circuit configurations used in industry. Topics to be covered are: solid-state systems used to control D.C. and A.C. motors, electro-mechanical devices, three-phase power, open and closed loop motor control, robotic input and output transducers, various instrumentation and process control classes. Lecture: 9 hours, laboratory: 5 hours.

ICS 2123
INDUSTRIAL FLUID POWER
This course is designed to provide the basic knowledge and application of physical principles involving pumps, cylinders, valves, motors, design, assembly, graphic symbols, and the operation of hydraulic and pneumatic control circuits based on logic principles. Lecture: 4 hours, laboratory: 1 hour.

ICS 2203
COMPUTER SYSTEM COMPONENTS
A study of the internal structure of the microprocessor. The full computer system is analyzed from both aspects of hardware and software. Many of the principles studied apply to computer troubleshooting and computer interfacing. Many of the computer support circuits are studied. Many of the skills learned from Programming I, Operating Systems, and Digital Logic are brought together and enhanced.

ICS 2213
SEMICONDUCTORS II
A continuation of ICS 1123, this course is a study of field effect transistors, thristors, and linear integrated circuits.

ICS 2303
PC MAINTENANCE II
Prerequisite: ICS/CIS 1303. This course is designed to teach individuals core elements of computer repair based on the A+ Certification exams. The student will build on the knowledge acquired from PC Maintenance I, allowing them to be more prepared to diagnose, and repair computers in the working environment.

ICS 2903
INTERNSHIP
Provides students with experience in a business setting. Students will participate in internship during the final phase of program completion. There will be contracts signed between the school, student, and training site stating the rules and objectives of the internship.

ICS 2991
SPECIAL TOPICS FOR ICS
This course is designed to introduce students to specific areas in Industrial Control Systems. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.
ICS 2992
SPECIAL TOPICS FOR ICS
This course is designed to introduce students to specific areas in Industrial Control Systems. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

ICS 2993
SPECIAL TOPICS FOR ICS
This course is designed to introduce students to specific areas in Industrial Control Systems. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

ICS 2994
SPECIAL TOPICS FOR ICS
This course is designed to introduce students to specific areas in Industrial Control Systems. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

ICS 2995
SPECIAL TOPICS FOR ICS
This course is designed to introduce students to specific areas in Industrial Control Systems. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

ICS 2996
SPECIAL TOPICS FOR ICS
This course is designed to introduce students to specific areas in Industrial Control Systems. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

INT 1903
INTERNSHIP
Provides students with the experience of a job in a business. Students will participate in internship during the final phase of program completion. There will be contracts signed between the school, students, and training site stating the rules and objectives of internship.

INT 2903
INTERNSHIP
Provides students with experience in a business setting. Students will participate in internship during the final phase of program completion. There will be contracts signed between the school, students, and training site stating the rules and objectives of the internship.
INT 2904
INTERNSHIP

Provides students with experience in a business setting. Students will participate in internship during the final phase of program completion. There will be contracts signed between the school, students, and training site stating the rules and objectives of the internship.

ITAL 1014
BEGINNING ITALIAN I

Emphasis on conversation; introduction to basic grammar, reading, writing, and culture.

ITAL 1024
BEGINNING ITALIAN II

Continued emphasis on conversation and fundamental language skills.

ITAL 2014
INTERMEDIATE ITALIAN I

Prerequisite: Beginning Italian II (ITAL 1024) or equivalent. Instruction designed to develop communication skills and knowledge of grammar, reading, writing, and culture.

ITAL 2024
INTERMEDIATE ITALIAN II

Prerequisite: Intermediate Italian I (ITAL 2014) or equivalent. Instruction designed to enhance communication skills and knowledge of grammar, reading, writing, and culture.

ITAL 3113
CULTURE AND CIVILIZATION

Prerequisite: ITAL 2024 or equivalent. Course will be geared towards students at the intermediate or above level of linguistic competence. The course will introduce students to Italian culture through the use of authentic written texts, videos and Internet materials. Although historical background information will be provided whenever necessary, the focus will be on contemporary Italian society. Students will examine current cultural issues presented on Italian TV or in newspapers and magazines.

JOUR 1163
BASIC PHOTOGRAPHY

A study of the use of the camera, films, equipment, and the basics of black and white processing and printing. Includes introduction to lighting techniques, composition, and color photography.
JOUR 1411
PRINT PRACTICUM
Students will learn practical skills in the areas of writing, layout and design and photography while working an assigned number of hours each week for the student newspaper.

JOUR 1421
PRINT PRACTICUM
Students will learn practical skills in the areas of writing, layout and design and photography while working an assigned number of hours each week for the student newspaper.

JOUR 1811
BROADCAST PRACTICUM
Practical work experience in the studios of KXRJ FM and Tech television productions. Only four hours count for the journalism major.

JOUR 1821
BROADCAST PRACTICUM
Practical work experience in the studios of KXRJ FM and Tech television productions. Only four hours count for the journalism major.

JOUR 1911
MULTIMEDIA PRACTICUM
Practical work experience in the multimedia lab including work as Web news manager, producer, Web content director.

JOUR 1921
MULTIMEDIA PRACTICUM
Practical work experience in the multimedia lab including work as Web news manager, producer, Web content director.

JOUR 2133
INTRO/MASS COMMUNICAT
An introduction to the mass communication process and industry.

JOUR 2143
NEWS WRITING
A study of and practice in writing news stories.

JOUR 2153
INTRO/TELECOMMUNICATION
A study of the technical, legal, programming, advertising and journalistic aspects of the telecommunication industry with practical exercises in radio, television and the Internet.

JOUR 2173
INTRO TO FILM
Prerequisite: ENGL 1013 or equivalent. A study of film as an art form with particular attention to genres, stylistic technique and film's relation to popular culture. JOUR 2173 may be used to fulfill the fine arts General Education requirement. JOUR 2173 may not be repeated for credit after the completion of ENGL 2173.

JOUR 2411
PRINT PRACTICUM
Students will learn practical skills in the areas of writing, layout and design and photography while working an assigned number of hours each week for the student newspaper.

JOUR 2421
PRINT PRACTICUM
Students will learn practical skills in the areas of writing, layout and design and photography while working an assigned number of hours each week for the student newspaper.

JOUR 2811
BROADCAST PRACTICUM
Practical work experience in the studios of KXRJ FM and Tech television productions. Only four hours count for the journalism major.

JOUR 2821
BROADCAST PRACTICUM
Practical work experience in the studios of KXRJ FM and Tech television productions. Only four hours count for the journalism major.

JOUR 2911
MULTIMEDIA PRACTICUM
Practical work experience in the multimedia lab including work as Web news manager, producer, Web content director.
**JOUR 2921**  
**MULTIMEDIA PRACTICUM**  
Practical work experience in the multimedia lab including work as Web news manager, producer, Web content director.

**JOUR 3111**  
**EDITORIAL CONFERENCE**  
Prerequisite: Permission of instructor. Student news executives meet regularly with faculty to critique publication and broadcast products.

**JOUR 3114**  
**NEWS EDITING**  
Prerequisite: JOUR 2143, 3143. A study of copy reading, headline writing, makeup, and problems and policies of editing the news. Three hours lecture, two hours laboratory arranged.

**JOUR 3121**  
**EDITORIAL CONFERENCE**  
Prerequisite: Permission of instructor. Student news executives meet regularly with faculty to critique publication and broadcast products.

**JOUR 3133**  
**PUBLICATIONS MANAGEMENT**  
An analysis of the problems in managing newspapers, magazines and other mass media.

**JOUR 3143**  
**NEWS REPORTING**  
Prerequisite: ENGL 1013 or 1043 and JOUR 2143. A study of news gathering and writing techniques.

**JOUR 3153**  
**FEATURE WRITING**  
Prerequisite: Permission of the instructor. A study of and practice in writing of newspaper features and magazine articles.

**JOUR 3163**  
**NEWS PHOTOGRAPHY**
Prerequisite: ENGL 1013 or 1043. A study of the use of the camera, communication through pictures, news value in pictures, and the history of photojournalism.

**JOUR 3173**  
**PUBLIC RELATIONS PRINCIP**

A study of public opinion and the role of the mass media in shaping it, including practice in public opinion research, communications techniques and solving public relations problems.

**JOUR 3183**  
**BROADCAST NEWS WRITING**

Prerequisite: JOUR 2143 or 3143. Principles and techniques of writing and production of radio and television news. Two hour class, two hour laboratory.

**JOUR 3193**  
**TELEVISION NEWS PROD**

Prerequisite: JOUR 2143 or 3143 or consent of instructor. Study and practice in directing and producing television news programs, including experience in announcing, preparing scripts and video tape, and operating cameras and other studio equipment. One hour lecture, three hours laboratory.

**JOUR 3273**  
**PUBLIC RELATIONS WRITING**

Prerequisites: JOUR 3173. Provides the knowledge and skill training for students to become effective public relations writers. The course will focus on style and content of writing news releases, speeches, newsletters, brochures, annual reports and other public relations communications.

**JOUR 3411**  
**PRINT PRACTICUM**

Students will learn practical skills in the areas of writing, layout and design and photography while working an assigned number of hours each week for the student newspaper.

**JOUR 3421**  
**PRINT PRACTICUM**

Students will learn practical skills in the areas of writing, layout and design and photography while working an assigned number of hours each week for the student newspaper.

**JOUR 3811**  
**BROADCAST PRACTICUM**

Practical work experience in the studios of KXRJ FM and Tech television productions, including work as manager, producer, or director. Only four hours count for the journalism major.
JOUR 3821
BROADCAST PRACTICUM
Practical work experience in the studios of KXRJ FM and Tech television productions, including work as manager, producer, or director. Only four hours count for the journalism major.

JOUR 3911
MULTIMEDIA PRACTICUM
Practical work experience in the multimedia lab including work as Web news manager, producer, Web content director.

JOUR 3921
MULTIMEDIA PRACTICUM
Practical work experience in the multimedia lab including work as Web news manager, producer, Web content director.

JOUR 4011
PRACTICAL EDITING
Actual experience editing news. Arranged with an instructor. May be taken for a maximum of three hours.

JOUR 4012
PRACTICAL EDITING
Actual experience editing news. Arranged with an instructor. May be taken for a maximum of three hours.

JOUR 4013
PRACTICAL EDITING
Actual experience editing news. Arranged with an instructor. May be taken for a maximum of three hours.

JOUR 4033
COMMUNITY JOURNALISM
A study of journalism as practiced in weeklies, small dailies, and broadcast stations in small towns and cities, including the relationship of the media to the community. For majors and non-majors.

JOUR 4053
MASS COMM SEMINAR:
Prerequisite: Permission of instructor. Studies of the relationship of mass communication to social, political, technical, and economic issues. Course content will vary. May be repeated for credit as JOUR 4053 or 5053 when course content changes.

JOUR 4073
GRAPHIC COMMUNICATION
Prerequisites: JOUR 3173 and JOUR 3273. Presents the elements of effective print design as well as the other decision making processes involved with creating an effective visual communication (type, art and illustration, basic design principles, paper and ink, printing processes, etc.). Students will create visually appealing projects using the industry standard design and photo manipulation software programs.

JOUR 4083
NEW COMMUNICATION/TECHNOLOGY
A study of and practice in the use of the developing technology in mass communication, including the social, legal, and economic effects.

JOUR 4091
INTERNSHIP
Credit for work in professional journalistic settings. Credit hours will be based on hours on the job. May be taken for a total of four hours.

JOUR 4092
INTERNSHIP
Credit for work in professional journalistic settings. Credit hours will be based on hours on the job. May be taken for a total of four hours.

JOUR 4093
INTERNSHIP
Credit for work in professional journalistic settings. Credit hours will be based on hours on the job. May be taken for a total of four hours.

JOUR 4094
INTERNSHIP
Credit for work in professional journalistic settings. Credit hours will be based on hours on the job. May be taken for a total of four hours.

JOUR 4111
EDITORIAL CONFERENCE
Prerequisite: Permission of instructor. Student news executives meet regularly with faculty to critique publication and broadcast product.
JOUR 4113  
HISTORY/AMERICAN JOUR  
Prerequisite: Permission of instructor. A survey of the history of American journalism and mass media and their relationships to technical, economic, political, and other aspects of American society. May not be repeated for credit as JOUR 5113.

JOUR 4121  
EDITORIAL CONFERENCE  
Prerequisite: Permission of instructor. Student news executives meet regularly with faculty to critique publication and broadcast product.

JOUR 4123  
LAWS OF COMMUNICATION  

JOUR 4133  
TV PROGRAM PRODUCTION  
Prerequisite: JOUR 3183 or 3193 or consent of instructor. Study and practice in writing, editing, and producing dramatic, musical and documentary programs for television, including experience in writing and editing scripts, making and editing videotape, and operating cameras and other studio equipment for non-news programs, with each student producing a program during the semester. One hour class, three hours laboratory.

JOUR 4143  
ADVANCED REPORTING  
Prerequisites: JOUR 2143 and 3143 or permission of instructor. Study of advanced news gathering techniques and practice in researching and writing difficult types of stories.

JOUR 4153  
EDITORIAL COL REV WRIT  
Study of and practice in writing editorials, columns, and reviews. Includes research and discussion of the function of opinion writing in the mass media.

JOUR 4163  
ADVANCED PHOTOGRAPHY/VIDEO  
Prerequisite: JOUR (ART) 1163 or consent of instructor. An introduction to advanced photographic techniques including digital photography and nonlinear editing. Various historic and current theories of visual journalism provide a substantive base for the application of techniques.

JOUR 4173  
PUBLIC RELATIONS PROJ
Prerequisites: JOUR 3173, JOUR 3273, JOUR 4073, or consent of instructor. Planning, preparation and execution of a public relations program for a specific project.

JOUR 4193
Comm Research Methods
Introduction to the methodologies of behavioral science applied to communication research including design, measurement, data collection, and analysis. Explores the use of surveys, content analysis, focus groups, and experiments in studies of communication processes and effects.

JOUR 4243
Jour Writing Seminar
A concentrated fundamentals writing course that deals with traditional techniques and various formats for journalistic writing such as editorials, feature stories, columns, reporting, press releases, and interviews.

JOUR 4411
Prnt Practicum
Students will learn practical skills in the areas of writing, layout and design and photography while working an assigned number of hours each week for the student newspaper.

JOUR 4421
Print Practicum
Students will learn practical skills in the areas of writing, layout and design and photography while working an assigned number of hours each week for the student newspaper.

JOUR 4811
Broadcast Practicum
Practical work experience in the studios of KXRJ FM and Tech television productions, including work as manager, producer, or director. Only four hours count for the journalism major.

JOUR 4821
Broadcast Practicum
Practical work experience in the studios of KXRJ FM and Tech television productions, including work as manager, producer, or director. Only four hours count for the journalism major.

JOUR 4883
Mass Comm Theory
Prerequisites: 15 semester hours of Journalism. This course provides an examination of the major theories and domains of mass communication research, emphasizing mass media effects. Students are acquainted with the assumptions, propositions, and empirical research foundations of these theories.
course covers the historical evolution and recent trends in mass communication theory as well as the application of theories to specific contexts such as marketing or organizational communication.

JOUR 4911
MULTIMEDIA PRACTICUM
Practical work experience in the multimedia lab including work as Web news manager, producer, Web content director.

JOUR 4921
MULTIMEDIA PRACTICUM
Practical work experience in the multimedia lab including work as Web news manager, producer, Web content director.

JOUR 4951
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

JOUR 4952
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

JOUR 4953
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

JOUR 4954
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

JOUR 4991
SPEC PROB/JOUR
This course, for majors only, requires advanced approval by the instructor and is restricted to second semester juniors and seniors. It is designed to provide certain advanced students with further concentration in a particular area. One, two, three, or four hours may be taken as appropriate.
JOUR 4992
SPEC PROB/JOUR
This course, for majors only, requires advanced approval by the instructor and is restricted to second semester juniors and seniors. It is designed to provide certain advanced students with further concentration in a particular area. One, two, three, or four hours may be taken as appropriate.

JOUR 4993
SPEC PROB/JOUR
This course, for majors only, requires advanced approval by the instructor and is restricted to second semester juniors and seniors. It is designed to provide certain advanced students with further concentration in a particular area. One, two, three, or four hours may be taken as appropriate.

JOUR 4994
SPEC PROB/JOUR
This course, for majors only, requires advanced approval by the instructor and is restricted to second semester juniors and seniors. It is designed to provide certain advanced students with further concentration in a particular area. One, two, three, or four hours may be taken as appropriate.

JPN 1014
BEGINNING JAPANESE I
No prerequisite. Introduction to the oral and written forms of the Japanese language.

JPN 1024
BEGINNING JAPANESE II
Prerequisite: JPN 1014 or equivalent. A continuation of JPN 1014.

JPN 2014
INTERMED JAPANESE I
Prerequisite: JPN 1014 or equivalent. Instruction designed to develop greater facility in fundamental skills. Four hours of classroom instruction.

JPN 2024
INTERMED JAPANESE II
Prerequisite: JPN 2014 or equivalent. A continuation of JPN 2014. Four hours of classroom instruction.

JPN 3003
CONV/COMPOSITION I
Prerequisite: JPN 2024 or equivalent. Further study of Japanese, concentrating on grammar, reading, comprehension, essays, conversation, and kanji.

JPN 3013
CONV/COMPOSITION II
Prerequisite: JPN 3003 or equivalent. Continuation of JPN 3003.

JPN 3113
CULTURE/CIVILIZATION
Prerequisite: JPN 2024 or equivalent. Study of the economic, political, and social structure of Japan and an introduction to Japanese history and culture.

JPN 3143
STUDY ABROAD
Prerequisite: enrollment in a Tech-sanctioned study program in a Japan, completion of JPN 2024 or equivalent, and permission of the Study Abroad supervisor and Department Head. Study of the contemporary language and culture in a Japan. May substitute for JPN 3003 or JPN 3013, depending on the student's proficiency level.

JPN 4283
SEM: LANGUAGE/CULTURE
Prerequisite: JPN 3003 or equivalent. Specialized studies in Japanese literature, art, or social customs.

JPN 4901
FOREIGN LANG INTERNSHIP
Prerequisites: Advanced foreign language proficiency; permission of the instructor and the department head. The Foreign Language Internship is intended primarily for majors in foreign languages or international studies. It is designed to provide outstanding students the opportunity to perfect their language proficiency and to acquire specific training and skills overseas. The overseas sponsor and the foreign language instructor of record will supervise the intern. Performance evaluations and a research paper will be required.

JPN 4902
FOREIGN LANG INTERNSHIP
Prerequisites: Advanced foreign language proficiency; permission of the instructor and the department head. The Foreign Language Internship is intended primarily for majors in foreign languages or international studies. It is designed to provide outstanding students the opportunity to perfect their language proficiency and to acquire specific training and skills overseas. The overseas sponsor and the foreign language instructor of record will supervise the intern. Performance evaluations and a research paper will be required.

JPN 4903
FOREIGN LANG INTERNSHIP
Prerequisites: Advanced foreign language proficiency; permission of the instructor and the department head. The Foreign Language Internship is intended primarily for majors in foreign languages or international studies. It is designed to provide outstanding students the opportunity to perfect their language proficiency and to acquire specific training and skills overseas. The overseas sponsor and the foreign language instructor of record will supervise the intern. Performance evaluations and a research paper will be required.
proficiency and to acquire specific training and skills overseas. The overseas sponsor and the foreign language instructor of record will supervise the intern. Performance evaluations and a research paper will be required.

**JPN 4991**
**SPECIAL PROBLEMS IN JAPANESE**
Prerequisite: completion of JPN 2024 or equivalent, permission of the instructor and Department Head. This course is designed to provide advanced Japanese students with a course of study in an area not covered by the departmental course offerings.

**JPN 4992**
**SPECIAL PROBLEMS IN JAPANESE**
Prerequisite: completion of JPN 2024 or equivalent, permission of the instructor and Department Head. This course is designed to provide advanced Japanese students with a course of study in an area not covered by the departmental course offerings.

**JPN 4993**
**SPECIAL PROBLEMS IN JAPANESE**
Prerequisite: completion of JPN 2024 or equivalent, permission of the instructor and Department Head. This course is designed to provide advanced Japanese students with a course of study in an area not covered by the departmental course offerings.

**JPN 4994**
**SPECIAL PROBLEMS IN JAPANESE**
Prerequisite: completion of JPN 2024 or equivalent, permission of the instructor and Department Head. This course is designed to provide advanced Japanese students with a course of study in an area not covered by the departmental course offerings.

**LAT 1013**
**BEGINNING LATIN I**
Instruction in the fundamentals necessary to read and write the language. Advanced placement and credit by examination are available to students who have previously studied Latin.

**LAT 1023**
**BEGINNING LATIN II**
A continuation of LAT 1013.

**LAT 2013**
**INTERMEDIATE LATIN I**
Prerequisite: LAT 1023 or equivalent. A study designed to continue the development of fundamental skills and to give a general reading knowledge of Latin and acquaintance with classical Latin literature, history, and philosophy.
LAT 2023
INTERMEDIATE LATIN II
A continuation of LAT 2013.

LAT 3001
GRK/LAT SCI TERMINOLOGY
The course is designed to assist students with their understanding of English words which have their roots in Greek or Latin. Students who in their course of study need to know specialized vocabulary, such as science, math, pre-med, pre-law and nursing majors, will find this course extremely helpful.

LBMD 2001
INTRO/LIBRARY RESOURCES
An introduction to the organization and function of resource collections, with practical experience in location, retrieval, and use of reference and research materials; emphasis placed on subject materials. Course will not count toward licensure.

LE 1003
INTRO TO LAW ENFORCEMENT
This course covers the basics of law enforcement including the responsibilities, opportunities, and advances in the field of law enforcement. The instructor selects pertinent and current topics as the focus of the course.

LE 1013
AMERICAN LEGAL SYSTEM
A survey of basic framework of the American legal system, including a brief history, civil procedure, constitutional law, common law, administrative regulation with particular emphasis on the ethical, sociocultural, and political influences affecting such environments.

LE 1023
JUDICIAL PROCESS
A comprehensive study of judicial process, criminal procedure, and behavior in criminal and civil law as well as the structure and operations of the local, state, and national court systems.

LE 1033
PUBLIC RELATION/LAW ENFRCMNT
A study of proper law enforcement conduct in the public forum including public opinion, mass media, and solving public relations problems.
LE 1043
CRIMINAL, CIVIL, JUVENILE LAW
An in-depth look at state and local law including structure, statuses, and roles.

LE 1053
SPANISH FOR LAW ENFORCEMENT
Useful terminology and expressions for the law enforcement situation with a minimum of grammar.

LE 2003
INTERVIEW/INTERROGAT/TESTIMONY
Designed to develop interviewing and interrogation techniques, critical thinking, and persuasive speaking ability. Includes lecture, discussion, research, study of courtroom testimony, classroom debates, and presentations.

LE 2013
INTRO TO COMPUTER CRIME
Prerequisite: BUS 1303 Intro to Computers. This course examines the use of computers in the commission of crimes and civil wrongs and basic computer forensic investigation techniques. The course emphasizes techniques for identifying financial fraud, identity theft, locating and picking victims and offenders with a survey of associated laws, regulations, and international standards.

LE 2903
INTERNSHIP
Provides students with experience in a business setting. Students will participate in internship during the final phase of program completion. There will be contracts signed between the school, student, and training site stating the rules and objectives of the internship.

LPN 1101
VOC/LEGAL/ETHIC CONCEPTS
Teaches vocational responsibilities of the Practical Nurse to the patient, family community, and coworkers. Nursing organizations, local, state and national health resources, and concepts of delegation appropriate to the level of practice are also covered.

LPN 1102
PHARMACOLOGY I
Pharmacology I is an introduction to the history of drugs, use of drug references, principles of drug actions and interaction, principles of drug administration, and their legal implications for the nurse.

LPN 1103
BODY STRUCTURE/FUNCTION
This course is the study of anatomy and physiology of the human body and all of its systems. Medical terminology is integrated and an introduction to disease processes is included with each unit.

LPN 1111
NURS/GERIATRIC PATIENT
This course covers the normal aging processes, characteristics of aging, special problems associated with aging and caring for the aging adult.

LPN 1114
BASIC NURS PRIN/SKILL I
Co-requisite: LPN 1115. This course covers the fundamental principles, skills, and attitudes needed to give nursing care and prevent the spread of disease. Procedures used in the care of the sick and the ability to adapt them to various situations are discussed. Students will learn to document their observations and interventions.

LPN 1115
CLINICAL I
Co-requisite: LPN 1114. Clinical skills will be practiced, observed, and evaluated by the instructors in the lab and clinical settings.

LPN 1121
NUTRITION HEALTH/ILLNESS
The importance of nutrition and its relation to proper growth and functioning and the maintenance of health are covered.

LPN 1202
NUR ADLT/MED SUR CON I
Students will study common conditions of illness and the nursing care of patients in acute, sub-acute, or convalescent stages of illness. This course includes aspects and principles of Nutrition; Basic Nursing; Pharmacology; Vocational, Legal, and Ethical concepts with attention to cultural diversity.

LPN 1203
NURSING MOTHERS/INFANTS
Nutrition for the mother and the developing fetus and the basic nursing skills to care for the mother during antepartum, intrapartum, and postpartum periods are studied.

LPN 1210
CLINICAL II
Prerequisite: LPN 1115. This course focuses on the skills needed by the nurse to provide the care in a safe and comforting manner.
LPN 1211
BASIC NUR PRIN/SKILL II
Prerequisite: LPN 1114. This course covers the advanced skills and procedures concerned with administrating safe patient care. Skills related to the maternal-child and pediatric patients are included.

LPN 1221
PHARMACOLOGY II
Prerequisite: LPN 1102. A continuation of LPN 1102. The preparation of drugs by enteral, parenteral, and percutaneous administration is continued. Intravenous medications, delivery systems, and techniques for administration are included in this course.

LPN 1302
NURSING OF CHILDREN
Principles of growth and development, nursing of the infant through adolescence and the behavior of well and sick children are studied in this course. Differences in the functioning of the child=s body systems are contrasted with that of the adult patient as well as differences in the child=s response to illness.

LPN 1303
NUR ADLT/MED SUR CON II
Prerequisite: LPN 1202. This course covers the body system disorders, their diagnostic methods, treatment or surgical procedures, therapeutic nutrition, and pharmacological modalities.

LPN 1312
CLINICAL III
Prerequisite: LPN 1115. Includes clinical areas in the mental health, pediatric, and specialty areas of the clinical facilities. The opportunity to practice advanced basic nursing and pediatric procedures will be offered during these rotations.

LPN 1322
MENTAL HEALTH
This course presents topics such as personality development patterns, developmental task throughout the life-cycle, mental disease, and emotional problems as well as chemical dependency. Geriatric, maternal, and pediatric problems are included. Therapeutic communication techniques are stressed.

MATH 0803
BEGINNING ALGEBRA
Content of this course is as follows: the language of algebra, fundamental operations, signed numbers, equations and problem solving. The grade in the course will be computed in semester and cumulative grade point averages, but the course may not be used to satisfy general education requirements nor provide credit toward any degree. A student who makes a D or F in MATH 0803 must repeat the course in each subsequent semester until he or she earns a grade of C or better. Students who make a grade of C or better in MATH 0803 must enroll in MATH 0903 the following semester.
MATH 0903
INTERMEDIATE ALGEBRA

Prerequisites: One unit of high school algebra, grade of C or better in MATH 0803, or consent of the Mathematics Department. The purpose of this course is to prepare for college level mathematics those students whose mathematics background is inadequate. Content of the course is fundamental operations, linear equations, special products and factoring, fractions, functions, graphs, and systems of linear equations. The grade in the course will be computed in semester and cumulative grade point averages, but the course may not be used to satisfy general education requirements nor provide credit toward any degree. A student who makes a D or F in MATH 0903 must repeat the course in each subsequent semester until he or she earns a grade of C or better.

MATH 1003
COLLEGE MATHEMATICS

(A grade of C of better must be earned in this course if being used to satisfy the general education mathematics requirement.) Prerequisite: Score of 19 or above on the mathematics subscore of the Enhanced ACT, score of 460 or above on the quantitative portion of SAT, score of 41 or above on the quantitative portion of the COMPASS mathematics section, or make a grade of C or higher in Math 0903. The course focuses upon the mathematics of contemporary life. Topics include Planning and Scheduling schemes from Management Science, Data Analysis, Probability and Inferrence from Statistics, Voting Systems and Division Schemes from the science of Social Choice, and various Growth Models.

MATH 1113
COLLEGE ALGEBRA

(A grade of C of better must be earned in this course if being used to satisfy the general education mathematics requirement.) Prerequisite: Score of 19 or above on the mathematics portion of the ACTE exam, or score of 460 or above on the quantitative portion of SAT, or score of 41 or above on the COMPASS mathematics section, or grade of "C" or better in MATH 0903. Exponents and radicals, introduction to quadratic equations, systems of equations involving quadratics, ratio, proportion, variation, progressions, the binomial theorem, inequalities, logarithms, and partial fractions. May not be taken for credit after completion of MATH 2703 or any higher level mathematics course.

MATH 1203
PLANE TRIGONOMETRY

Prerequisite: MATH 1113 or consent of Mathematics Department. A study of the properties of the trigonometric functions and their graphs, solution of right and oblique triangles, formulas and identities, inverse functions, and trigonometric equations.

MATH 1914
PRECALCULUS

(A grade of C of better must be earned in this course if being used to satisfy the general education mathematics requirement.) Prerequisites: Completion of high school algebra I and II with a grade of C or better and a score of 19 or above on the mathematics portion of the ACTE exam, or score of 460 or above on the quantitative portion of the SAT, or score of 41 or above on the COMPASS mathematics section, or MATH 1113 and MATH 1203, or a grade of C or better in MATH 0903. This course is designed to provide additional mathematical background before enrolling in the calculus sequence.

MATH 2033
MATH CONCEPTS I

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisite: MATH 1113. For elementary education majors. Elementary set theory, numeration systems, elementary number theory and the real number system.

MATH 2043
MATH CONCEPTS II

http://www.atu.edu/academics/catalog/descriptions/all.php

3/29/2010
MATH 2163
INTRO/STATISTICAL METH

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisite: MATH 2033. For elementary education majors. A continuation of MATH 2033, including a study of the elementary concepts of probability and statistics, and an informal study of geometry.

MATH 2183
STATISTICAL PROC CONTROL

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisite: MATH 2163 or equivalent. This is a course in statistical process control using Deming’s philosophy for the improvement of quality, productivity, and competitive position.

MATH 2223
QUANTITATIVE BUSINESS ANALYSIS

(A grade of C or better must be earned in this course if being used to satisfy the general education mathematics requirement.) Prerequisite: MATH 1113. This course is designed to develop the ability to use quantitative methods in accounting, business, and economics; it includes models of cost, revenue, and profit, linear programming, and probability.

MATH 2243
CALCULUS-BUSINESS/ECON

(A grade of C or better must be earned in this course if being used to satisfy the general education mathematics requirement.) Prerequisite: Completion of high school algebra I and II with a grade of C or better and a score of 22 or higher on the mathematics portion of the ACTE exam or MATH 1113. An introduction to the concepts of differentiation and integration. Emphasis will be placed on applications of calculus in business, economics, accounting, social sciences, and life sciences. May not be taken for credit after completion of MATH 2914 or equivalent.

MATH 2703
DISCRETE MATHEMATICS

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisite: MATH 1113. A study of graph theory, trees, combinatorics, logic, and Boolean Algebra.

MATH 2914
CALCULUS I

Prerequisites: Math ACTE score of 24 or higher, or a grade of C or higher in MATH 1914 or MATH 1203 or consent of instructor. This is the first of two courses covering the calculus of functions of a single variable. The content covers differentiation of all single variable functions and introduces integration of functions.
MATH 2924
CALCULUS II

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisite: MATH 2914 or equivalent. This is the second of two courses covering the calculus of functions of a single variable.

MATH 2934
CALCULUS III

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisite: MATH 2924 or equivalent. This is the third course in the elementary calculus sequence. It covers the calculus of functions of several variables.

MATH 2981
SPECIAL TOPICS IN MATH

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisite: Math ACTE score of 22 or higher, or MATH 1113, or consent of instructor. This course will be offered on an as-needed basis to cover topics in mathematics that are not otherwise covered in the curriculum. The content and credit for this course will vary according to the interests and needs of the student. This course may be repeated for credit if the course content differs.

MATH 2982
SPECIAL TOPICS IN MATH

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisite: Math ACTE score of 22 or higher, or MATH 1113, or consent of instructor. This course will be offered on an as-needed basis to cover topics in mathematics that are not otherwise covered in the curriculum. The content and credit for this course will vary according to the interests and needs of the student. This course may be repeated for credit if the course content differs.

MATH 2983
SPECIAL TOPICS IN MATH

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisite: Math ACTE score of 22 or higher, or MATH 1113, or consent of instructor. This course will be offered on an as-needed basis to cover topics in mathematics that are not otherwise covered in the curriculum. The content and credit for this course will vary according to the interests and needs of the student. This course may be repeated for credit if the course content differs.

MATH 3003
FOUNDATIONS OF NUMBERS

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisite: MATH 2703. A brief review of elementary set theory, followed by the construction of the natural numbers, the integers, the rational numbers, the real numbers and the complex numbers accompanied by a development of the order and field properties.

MATH 3033
METH TEACH ELEM MATH
Prerequisite: MATH 2043 and admission to Stage II. A course on methods of teaching the mathematics of the elementary school using mathematical concepts and principles taught in these grades.

**MATH 3123**
**COLLEGE GEOMETRY**

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisite: MATH 2924. A formal approach to plane geometry with coordinates; sets, points, lines, planes, distance, and coordinate systems, angles, congruence, parallelism, and similarity.

**MATH 3153**
**APPL STATISTICS I**

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisite: MATH 2924. A balanced approach emphasizing both theory and applications will be taken. Topics include descriptive statistics, exploratory data analysis, probability and probability models, discrete and continuous random variables, confidence intervals, hypothesis testing, and control charts. Students will be required to collect data, use a current statistical software package to analyze the data, and make inferences based upon the data analysis as part of an individual and/or group project.

**MATH 3203**
**INTRO TO ANALYSIS**

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisites: MATH 3003. A careful development of the real number system and the theory of calculus on the real line.

**MATH 3243**
**DIFF EQUATIONS I**

Corequisite: MATH 2924. A study of differential equations of the first order; linear equations of higher order including the methods of undetermined coefficients and variation of parameters; linear equations with constant coefficients; special equations of order two and systems of linear first-order differential equations using matrices.

**MATH 4003**
**LINEAR ALGEBRA I**

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisite: MATH 2924. Matrices and matrix algebra, systems of linear equations, determinants, eigenvalues, eigenvectors, general vector spaces, linear transformations.

**MATH 4033**
**ABSTRACT ALGEBRA I**

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisite: MATH 3003. A study of Groups and other algebraic structures. Topics include sub-groups, normal sub-groups, abelian groups, groups of permutations, homomorphisms, kernels, and range.

**MATH 4103**
**LINEAR ALGEBRA II**
MATH 4113  
HISTORY OF MATHEMATICS  

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisite: MATH 2934. A study of selected topics from the history and nature of mathematics from ancient to modern times. Emphasis will be placed on the historical development of mathematics through a study of biographies of prominent mathematicians and the evolution of some important mathematical concepts. The fundamental role of mathematics in the rise, maintenance, and extension modern civilization will be considered. MATH 5113 may not be taken for credit after completion of this course.

MATH 4123  
MATHEMATICAL MODELING  

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisites: MATH 2703 and MATH 3243. This course provides an introduction to the mathematical modeling process and applies this process to problems that may be modeled with pre senior level mathematics. Emphasis will be placed on connections of mathematics to application areas such as business, industry, economics, physical sciences, biological sciences, medicine and social sciences.

MATH 4133  
ABSTRACT ALGEBRA II  

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisite: MATH 4033. Groups, subgroups, homomorphisms, isomorphisms, complex numbers, finite groups.

MATH 4153  
APPLIED STATISTICS II  

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisite: MATH 3153. This course is a continuation of MATH 3153 with emphasis on experimental design, analysis of variance, and multiple regression analysis. Students will be required to design and carry out an experiment, use a current statistical software package to analyze the data, and make inferences based upon the analysis.

MATH 4173  
ADVANCED BIOSTATISTICS  

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisite: An introductory statistics course or permission of instructor. This course will include analysis of variance, one factor experiments, experimental design with two or more factors, linear and multiple regression analysis, and categorical data analysis.

MATH 4243  
DIFF EQUATIONS II  

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisites: MATH 3243 and MATH 4003 or consent of the instructor. A continuation of MATH 3243 with emphasis on higher order and systems of differential equations.
MATH 4253
ADVANCED CALCULUS I

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisite: MATH 3203. The real numbers, the topology of cartesian spaces and convergence of continuous functions.

MATH 4263
MATHEMATICAL STATISTICS

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisite: MATH 3153. This is an introductory course in mathematical statistics. Topics include distribution functions (both discrete and continuous), multivariate distributions, distributions of functions of random variables, and statistical inference.

MATH 4273
COMPLEX VARIABLES

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisite: MATH 2934. An introduction to complex variables. This course will emphasize the subject matter and skills needed for applications of complex variables in science, engineering, and mathematics. Topics will include complex numbers, analytic functions, elementary functions of a complex variable, mapping by elementary functions, integrals, series, residues and poles and conformal mapping. MATH 5273 may not be taken for credit after completion of this course.

MATH 4283
ADVANCED CALCULUS II

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisite: MATH 4253. Differentiation, integration and infinite series.

MATH 4293
INTRODUCTORY TOPOLOGY

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisite: MATH 4253. Metric spaces, topological spaces, mappings, limit point, continuity, connectedness, and compactness. MATH 5293 may not be taken for credit after completion of this course.

MATH 4343
INTRO PARTIAL DIFFERENTIAL EQU

Prerequisites: MATH 2934 and MATH 3243. This course is an introduction to partial differential equations with emphasis on applications to physical science and engineering. Analysis covers the equations of heat, wave, diffusion, Laplace, Dirichlet and Neumann equations. Course is suitable for senior level or first year graduate students in Mathematics, Physics, and Engineering.

MATH 4703
SPEC MEHODS IN MATH

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) Prerequisites: SEED 2002 and junior standing or permission of the instructor. This course, designed for prospective junior and senior high mathematics teachers, will provide the student with
knowledge of current research and practice in mathematics education, a setting in which to apply that knowledge, and the opportunity to assess their teaching performance and formulate a plan for improvement.

**MATH 4772**  
**MATH TEACHING PRACTICUM**

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) A course designed to provide mathematics education majors with experience in teaching mathematics and assessing student performance.

**MATH 4951**  
**UNDERGRADUATE RESEARCH**

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**MATH 4952**  
**UNDERGRADUATE RESEARCH**

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**MATH 4953**  
**UNDERGRADUATE RESEARCH**

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**MATH 4954**  
**UNDERGRADUATE RESEARCH**

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**MATH 4991**  
**SPEC PROB/MATH**

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) The content and credit for this course will be designed to meet the needs of the student.

**MATH 4992**  
**SPEC PROB/MATH**
(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) The content and credit for this course will be designed to meet the needs of the student.

**MATH 4993**  
**SPEC PROB/MATH**

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) The content and credit for this course will be designed to meet the needs of the student.

**MATH 4994**  
**SPEC PROB/MATH**

(A grade of C or better must be earned in the course used to satisfy the general education mathematics requirement.) The content and credit for this course will be designed to meet the needs of the student.

**MCEG 1002**  
**ENGINEERING GRAPHICS**

General course in the most important types of engineering drawings. A foundation course in lettering, geometrical exercises, orthographic projections, including auxiliary views, sections, pictorial representation. The computer is introduced as a drafting tool. Lecture and laboratory four hours.

**MCEG 1012**  
**INTRO TO ENGINEERING**

Prerequisite: MATH 1113 or any higher level mathematics course. An introductory course to acquaint students with the technical and social aspects of engineering, the analytic approach to problem solving, measurements and calculations, including application of computer techniques. Lecture one hour, laboratory two hours.

**MCEG 2013**  
**STATICS**

Prerequisites: MATH 2924 and PHYS 2114. Principles of statics, resultants, equilibrium, and analysis of force systems. Structure analysis, forces in space, friction, centroids, and moments of inertia. Lecture three hours.

**MCEG 2023**  
**ENGINEERING MATERIALS**

Prerequisite: CHEM 2124. A study of the mechanical and physical properties, micro structure, and the various testings of engineering materials (metals, plastics, woods, and concrete) from the viewpoint of manufacture and construction. Lecture three hours.

**MCEG 2033**  
**DYNAMICS**

MCEG 2203
COMPUTATIONAL METH/ENGR
Prerequisite: MCEG 1012 and MATH 2914. An introduction to common computational methods, tools, and procedures used in the solution of common engineering problems. A standard solution methodology is introduced along with instruction in units systems, spreadsheet and calculator computations and the use of engineering software. Lecture two hours.

MCEG 3003
ENGR MODELING/DESIGN
Prerequisites: COMS 2803 or MCEG 2203 and MATH 3243. Reduction of engineering systems to mathematical models; methods of analysis using computers; interpretation of numerical results; optimization of design variables. Examples are drawn from various engineering disciplines. Lecture three hours.

MCEG 3013
MECHANICS OF MATERIALS
Prerequisite: MCEG 2013. Fundamental stress and strain relationships, torsion, shear and bending moments, stresses and deflections in beams; introduction to statically indeterminate beams, columns, combined stresses, and safety factors. Lecture three hours.

MCEG 3023
MANUFACTURING PROCESSES
Prerequisites: MCEG 2023 and 3013. Morphological aspects of manufacturing processes, testing of engineering metals, metal working processes, metal forming processes, machining, non-destructive inspection methods, statistical process control, control charts, and total quality management concepts.

MCEG 3313
THERMODYNAMICS I
Prerequisites: MATH 2924 and PHYS 2114. An introduction to thermodynamics, including thermodynamic properties of pure substances, heat and work, the first and second laws of thermodynamics, and entropy with applications to power and refrigeration cycles. Lecture three hours.

MCEG 3403
MACHINE DYNAMICS
Prerequisite: MCEG 2033 and MATH 3243. The study of the relative motion of machine components, force systems applied to these components, the motions resulting from these forces, and their effect on machine design criteria. Lecture 3 hours.
Prerequisites: MCEG 2033 and 3013. Analysis of machines and components through application of basic fundamentals and principles. Lecture three hours.

MCEG 3442
MECHANICAL LABORATORY I
Prerequisites: MCEG 2023 and MCEG 3013. A study of the basic materials testing procedures and instrumentation. Emphasis will be placed on proper laboratory techniques including data collection, data reduction, and report preparation. Lecture one hour, laboratory three hours.

MCEG 3503
BASIC NUCLEAR ENGR
Prerequisites: MATH 2924, CHEM 2124 and PHYS 2114. An introduction to atomic and nuclear processes and to nuclear science and engineering fundamentals, including the nature of nuclear radiation, the nuclear chain reaction, criticality, power reactor types, and applications of nuclear technology. Lecture three hours.

MCEG 3512
RADIATION DETECT LAB
Prerequisite: MATH 2914, CHEM 2124 or consent. A study of each of the common kinds of nuclear radiation, including the detection and analysis methods and applications to nondestructive assays. Use of computers in analyses. Lecture one hour, laboratory three hours.

MCEG 3523
RADIATION HEALTH PHYSICS
Prerequisites: MATH 2914, CHEM 2124, or consent. A study of the protection of individuals and population groups against the harmful effects of ionizing radiation. Included in the study is: (1) radiation detection and measurement, (2) relationships between exposure and biological damage, (3) radiation and the environment, (4) design criteria for processes, equipment, and facilities so that radiation exposure is minimized, and (5) environmental impact of nuclear power plants. Lecture three hours per week.

MCEG 3991
SPEC PROB IN ENGINEERING
Prerequisite: Minimum of three hours at the junior level in area of study. Individual or specialized study in advanced area under the direction of a faculty advisor.

MCEG 3992
SPEC PROB IN ENGINEERING
Prerequisite: Minimum of three hours at the junior level in area of study. Individual or specialized study in advanced area under the direction of a faculty advisor.

MCEG 3993
SPEC PROB IN ENGINEERING
Prerequisite: Minimum of three hours at the junior level in area of study. Individual or specialized study in advanced area under the direction of a faculty advisor.

**MCEG 3994**  
**SPEC PROB IN ENGINEERING**

Prerequisite: Minimum of three hours at the junior level in area of study. Individual or specialized study in advanced area under the direction of a faculty advisor.

**MCEG 4042**  
**METALLURGY LABORATORY**

Corequisite: MCEG 4043. Laboratory experiments in heat treating, phase transformation, plastic deformation, work hardening and creep. Concepts and topics from MCEG 4043 are emphasized in the lab exercises. Failure analysis modes and examples are included. Lecture one hour, lab three hours.

**MCEG 4043**  
**PHYSICAL METALLURGY**

Prerequisites: MCEG 2023, 3013, 3313. This course provides the student with an in-depth background to the mechanisms and applications of dislocation motion, crystal plasticity, phase transformations and solidification processes. Common industrial and experimental processes are studied for both ferrous and non-ferrous materials. Lecture three hours.

**MCEG 4053**  
**CORROSION PRINCIPLES**

Prerequisites: MCEG 2023, 3013, 3313. A study of the fundamental causes of corrosion and corrosion damage in metals and metallic components. Electrochemistry is used to explore the basic reactions governing environmental corrosion while thermodynamics and kinetics are used to investigate the rate of controlling steps of environmental attack. Includes an overview of techniques commonly used to control corrosion damage in industry and architecture. Lecture three hours.

**MCEG 4202**  
**ENGINEERING DESIGN**

(MCEG majors) prerequisite: Senior standing and MCEG 3413. This course serves as the first part of a two course sequence in which the student completes a senior design project. Design methodologies and tools including real world design considerations such as environmental impact, engineering ethics, economics, safety, product costing and liability are introduced. Design for manufacture, project management, scheduling and proposal writing will be covered. Successful completion of this course shall require completion of a proposal for a senior design project being accepted by the faculty design project review process.

**MCEG 4323**  
**POWER PLANT SYSTEMS**

Prerequisite: MCEG 3313 or consent. Prerequisite or corequisite: MCEG 4403. A study of the design and operation of steam electric power plant components and systems. Fossil and renewable energy plants are emphasized. Lecture three hours.
MCEG 4332
THERMAL SYSTEMS LAB
Prerequisites: MCEG 3313, 4403. Corequisites: MCEG 4433, 4443. Advanced laboratory experiments in heat transfer and thermal systems. Conduction, convection and radiation heat transfer phenomena, power and refrigeration cycle operation, psychrometrics. Lecture one hour, laboratory three hours.

MCEG 4343
INTERNAL COMB ENGINE
Prerequisites: MCEG 3313 and MCEG 4403. A study of the operating and design principles of internal combustion engines. The course will cover combustion cycles, emissions, and performance analysis and testing. Lecture three hours with lab exercises.

MCEG 4403
MECH/FLUIDS/HYDRAULICS
Prerequisites: MCEG 2033 and 3313. A study of statics and dynamics of incompressible fluids. Major topics include the basic fluid flow concepts of continuity, energy and momentum, dimensional analysis, viscosity, laminar and turbulent flows, and flow in pipes. Lecture three hours.

MCEG 4413
FINITE ELEMENT ANALYSIS
Prerequisites: ELEG 2103, MCEG(ELEG)3003, and MCEG 3013. Introduction to approximate methods using finite elements. Development of the finite element method using variational formulations. Applications include machine design, mechanical vibrations, heat transfer, fluid flow and electromagnetics.

MCEG 4423
MACH COMPONENT DESIGN
Prerequisite: MCEG 3413 and MATH 3153. Design and analysis of specific machine components including gears, clutches, springs, and bearings. Lecture three hours.

MCEG 4433
THERMODYNAMICS II
Prerequisites: MATH 2934, 3243 and MCEG 3313. A continuation of MCEG 3313. The study of thermodynamics is extended to the investigation of relations for simple substances, non-reacting mixtures, reacting mixtures, chemical reactions and a study of availability analysis. Power and refrigeration cycles are studied in more depth. Lecture three hours.

MCEG 4442
MECH LABORATORY II
Prerequisites: MCEG 3442 and 4403. A study of fluid mechanics, thermodynamics, and heat transfer experimentation techniques. Laboratory projects will be assigned with student responsibility for procedure development and test program implementation. Formal laboratory reports will be required. Lecture one hour, laboratory three hours.
MCEG 4443  
HEAT TRANSFER  
Prerequisites: MCEG 3313 and MCEG 4403. Basic thermal energy transport processes, conduction, convection, and radiation, and the mathematical analysis of systems involving these processes in steady state and time dependent cases. Lecture three hours.

MCEG 4453  
ENERGY MANAGEMENT  

MCEG 4463  
HEAT/VENT/AIR-COND DESIG  
Prerequisites: MCEG 3313 or permission of instructor. A study of the principles of human thermal comfort including applied psychometrics and air-conditioning processes. Fundamentals of analysis of heating and cooling loads and design of HVAC systems. Lecture 3 hours.

MCEG 4473  
MECHANICAL VIBRATIONS  
Prerequisites: MCEG 2033, MATH 3243. The study of free and forced vibration of single degree-of-freedom systems, response to harmonic, periodic and non-periodic excitations. Multi-degree-of-freedom systems and matrix methods are explored. Computational techniques for predicting system response continuous systems are introduced. Lecture three hours.

MCEG 4493  
MECH DESIGN PROJECT  
Prerequisite: MCEG(ELEG) 3003, 4202, MCEG 4423, senior standing and consent of instructor. An independent or group project in mechanical engineering design. Where appropriate, a team approach will be employed. Emphasis will be placed on designing a mechanical system or sub system with due regard for: safety, environmental concerns, reliability, longevity, ease of manufacturing, maintainability, and cost effectiveness. Both a written and oral report are required.

MCEG 4503  
NUCLEAR POWER PLANTS I  
Prerequisites: MCEG 3503, MCEG 4403. A study of the various types of nuclear reactor plants including the methods used for energy conversion. Relative advantages/disadvantages of various plant types investigated. Lecture three hours.

MCEG 4991  
SPEC PROB/ENGR  
Prerequisite: Minimum of three hours at the junior level in area of study. Individual study in advanced area of the student's choice under the direction of a faculty advisor.
MCEG 4992
SPEC PROB/ENGR
Prerequisite: Minimum of three hours at the junior level in area of study. Individual study in advanced area of the student's choice under the direction of a faculty advisor.

MCEG 4993
SPEC PROB/ENGR
Prerequisite: Minimum of three hours at the junior level in area of study. Individual study in advanced area of the student's choice under the direction of a faculty advisor.

MCEG 4994
SPEC PROB/ENGR
Prerequisite: Minimum of three hours at the junior level in area of study. Individual study in advanced area of the student's choice under the direction of a faculty advisor.

MEDT 4012
CL MICROSCOPY/BODY FL
(Medical Technology courses are offered at affiliated institutions.) Use of the microscope in laboratory diagnostic procedures and introduction to body fluid chemistry, particularly blood, urine and spinal fluids. Emphasis on pathological conditions resulting from abnormal concentrations of substances.

MEDT 4013
CL MICROSCOPY/BODY FL
(Medical Technology courses are offered at affiliated institutions.) Use of the microscope in laboratory diagnostic procedures and introduction to body fluid chemistry, particularly blood, urine and spinal fluids. Emphasis on pathological conditions resulting from abnormal concentrations of substances.

MEDT 4029
HEMATOLOGY
(Medical Technology courses are offered at affiliated institutions.) Consideration of typical and atypical medical laboratory procedures in hematology with emphasis on principles, methodology, sources of error, and clinical application. Supervised training in standard and special laboratory techniques.

MEDT 4035
IMMUNO-HEMATOLOGY
(Medical Technology courses are offered at affiliated institutions.) Consideration of typical and atypical medical laboratory procedures in immuno hematology and blood banking with emphasis on principles, methodology sources of error, and clinical application. Supervised training in standard and special laboratory techniques.
MEDT 4048
CLINICAL CHEM/INSTRUM

(Medical Technology courses are offered at affiliated institutions.) Consideration of methods of determining chemical composition of body fluids and analysis using standard and special laboratory instruments. Study of design, construction, and operation of instruments such as balances, centrifuges, pH meters, autoanalyzers, null balances, others.

MEDT 4049
CLINICAL CHEM/INSTRUM

(Medical Technology courses are offered at affiliated institutions.) Consideration of methods of determining chemical composition of body fluids and analysis using standard and special laboratory instruments. Study of design, construction, and operation of instruments such as balances, centrifuges, pH meters, autoanalyzers, null balances, others.

MEDT 4056
MICROBIOLOGY

(Medical Technology courses are offered at affiliated institutions.) Consideration of typical and atypical medical laboratory procedures in microbiology with emphasis on diagnostic medical bacteriology virology, and mycology. Supervised training in standard and special laboratory techniques.

MEDT 4057
MICROBIOLOGY

(Medical Technology courses are offered at affiliated institutions.) Consideration of typical and atypical medical laboratory procedures in microbiology with emphasis on diagnostic medical bacteriology virology, and mycology. Supervised training in standard and special laboratory techniques.

MEDT 4064
PARASITOLOGY

(Medical Technology courses are offered at affiliated institutions.) Consideration of typical and atypical medical laboratory procedures in parasitology with emphasis on methodology and clinical application. Supervised training in standard and special laboratory techniques.

MEDT 4073
SEROLOGY

(Medical Technology courses are offered at affiliated institutions.) Consideration of typical and atypical medical laboratory procedures in serology with emphasis on methodology, sources of error, and clinical application. Supervised training in standard and special laboratory techniques.

MEDT 4081
SPECIAL TOPICS

(Medical Technology courses are offered at affiliated institutions.) Subject matter may include the following: hospital orientation, laboratory management, radioisotope techniques, laboratory safety, special projects, special techniques, quality control procedures, and seminars on various subjects deemed necessary by hospital personnel.
MEDT 4082
SPECIAL TOPICS

(Medical Technology courses are offered at affiliated institutions.) Subject matter may include the following: hospital orientation, laboratory management, radioisotope techniques, laboratory safety, special projects, special techniques, quality control procedures, and seminars on various subjects deemed necessary by hospital personnel.

MGMT 2013
MGT PRODUCTIVITY TOOLS

Prerequisites: COMS 1003 or BUAD 2003. A course designed to provide students with advanced training in the use of information technology for solving business problems. Students will work in groups on a variety of projects and with a variety of tools.

MGMT 3003
MGT/ORGANIZ BEHAVIOR

(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) Each semester. Basic principles of management and organizational behavior including planning, organizing, leading, controlling, staffing, decision making, ethics, interpersonal influence, and group behavior; conflict management; job design; and organizational change and development.

MGMT 3103
OPERATIONS MANAGEMENT

(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) Each semester. Prerequisites: MGMT 2013, BUAD 2053, and MGMT 3003. A study of the overall operations management task. Critical issues include its integration of market issues, the development of operations strategies, and the management of people. Specific attention is given to the design and development of services and products and the systems by which they are produced and delivered. Factors central to the operations management task include capacity, technology, scheduling and execution, quality, inventory, the significant role of managing the supply chain, and process and delivery system reliability and maintenance.

MGMT 3113
MANAGERIAL PROCESS ANALYSIS

(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) This course is a study of the analysis, mapping, and improvement of business processes using standard symbols, popular software tools, metrics, and general systems theory. Examples of sample business processes and topics include customer service, sales management, scheduling, manufacturing, supply chain management, logistics, hiring/job search, process mapping diagrams, organizational charts, workflow and environment layout, cause and effect analysis, systems analysis and design, collection and analysis of process data, and optimization. Software tools are used for process diagramming, concept mapping, physical facilities layout, project planning and management, and data filtering and analysis.

MGMT 3123
BUSINESS ETHICS

(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) This course is an interdisciplinary study of business ethics and the social responsibility of business organizations in society. The course will consider professional and applied ethics, law and organizational behavior. The focus of the course is on the individual managerial decision making process in response to ethical issues arising in the business context. Students will explore the role of business in society; discuss general theories of ethics; explain and apply key ethical theories in business; and develop and defend their own ethical positions.

MGMT 4013
MANAGEMENT INFO SYSTEMS
MGMT 4023
PER/HUMAN RESOURCE MGT
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) Prerequisite: MGMT 3003. A study of that function performed in organizations which facilitates the most effective use of people (employees) to achieve organizational and individual goals. Topics covered include the law and personnel/human resource management, personnel analysis, planning, and staffing; performance evaluation and compensation, training and developing of human resources; labor relations, employee safety and health; work scheduling; evaluation of personnel/human resources management.

MGMT 4033
INTERNSHIP I IN MGMT
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) Prerequisite: Permission of the instructor, Department Head and Dean; Junior Standing; minimum 2.5 overall GPA. A supervised, practical experience providing undergraduate MGMT majors with a hands-on professional management/marketing experience in a position relating to an area of career interest. The student will work in a local cooperating business establishment under the supervision of a member of management of that firm. A College of Business faculty member will observe and consult with the students and the management of the cooperating firm periodically during the period of the internship. Students will be required to make oral reports in the classroom, maintain an internship log, and prepare a final term paper. Note: Only three hours of internship may be used to satisfy the curriculum requirements for management or marketing electives. Additional hours may be used to satisfy the curriculum requirements for general electives.

MGMT 4043
INTERNSHIP II IN MGMT
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) Prerequisite: Internship I, permission of the instructor, Department Head and Dean; Junior Standing; minimum 2.5 overall GPA. To be taken after completion of Internship I. A supervised, practical experience providing undergraduate MGMT majors with a hands-on professional management/marketing experience in a position relating to an area of career interest. The student will work in a local cooperating business establishment under the supervision of a member of management of that firm. A College of Business faculty member will observe and consult with the students and the management of the cooperating firm periodically during the period of the internship. Students will be required to make oral reports in the classroom, maintain an internship log, and prepare a final term paper. Note: Only three hours of internship may be used to satisfy the curriculum requirements for management or marketing electives. Additional hours may be used to satisfy the curriculum requirements for general electives.

MGMT 4053
SMALL BUSINESS MGMT
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) Prerequisites: MGMT 3003, MKT 3043, and senior standing. Application of business management principles to the creation and operation of small scale enterprises. Emphasis on the preparation and implementation of business plans for such enterprises.

MGMT 4063
ENTREPRENEURIAL DEVELOPMENT
(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) Prerequisite: approval from instructor. The course is designed to increase the students' understanding of critical entrepreneurial and venture creation concepts through practical applications and through textual readings. Specifically, students will take preliminary small business plans and develop and formalize plans that will be submitted for competition consideration at the annual Donald W. Reynolds Governor's Cup business plan competitions.
MGMT 4073
SPECIAL TOPICS IN MGM

(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) Prerequisite: MGMT 3003. In-depth exploration of selected management topics. The primary topic will vary from offering to offering; thus, the course may be taken more than once.

MGMT 4083
BUSINESS POLICY

(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) Each semester. Prerequisites: Senior standing and completion of all junior-level College of Business core courses except FIN 3063 and MGMT 3103, which may be taken concurrently. As the capstone course in the College of Business core, this course examines the application of strategic management processes, including top management's role in situational analysis, strategy selection, strategy implementation, and strategic control, under conditions of uncertainty.

MGMT 4093
HUMAN BEHAVIOR/ORGANIZ

(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) Prerequisite: MGMT 3003. A study of individual and group behavior in organizations. Topics covered include personality and individual differences, personal systems, values and ethics, perception, attribution theory, goal setting, reinforcement theory, theories of motivation and leadership, group systems, power and social influence, and organizational structure.

MGMT 4113
MGMT ISSUES/E-COMMERCE

Prerequisites: MGMT 2013, MGMT 3003, and MKT 3043. A study of managerial issues and strategies involved in Internet-based buying and selling activities. The course examines appropriate business models and best practices in generating revenue, market share, and profit from wholesaling and retailing activities in business-to-consumer, business-to-business, and consumer-to-consumer venues. Topics include initiation and management of electronic commerce operations, technological infrastructure and tools, marketing, customer relationship management, electronic payment, security, staffing, social impacts, ethics, regulation, and international markets.

MGMT 4203
PROJECT MANAGEMENT

(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) Prerequisites: COMS 1003, BUAD 2053, MGMT 3003, MGMT 4013, MKT 3043, or instructor approval. Project Management is studied from a practical perspective. In this course, students explore techniques of organizing the three main elements of project management: cost, schedule and scope, as well as how to manage the most important aspect of Project Management: PEOPLE. Students will learn to utilize software that aids in the visualization of the project management process. The emphasis of this special topic in management will be aimed toward an understanding of Project Management for future business leaders and engineers. The course will culminate with a month-long, graded, practical exercise with industry where students will be organized into teams or as individual developers and sent to explore all aspects of a problem, conduct a project initiation workshop, and then present a project management plan to the leadership of that participating industry.

MGMT 4213
BUSINESS LEADERSHIP

(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) Prerequisites: MGMT 3003, MKT 3043, or instructor approval. The course is an overview of the concepts and issues associated with contemporary leadership. It outlines the challenges, methods, and responsibilities of leading in our society. It covers what every informed citizen should know about leading in a variety of settings: the processes, styles, and pitfalls. We will address leader development, and discuss ethical issues related to leading. Guest speakers and student presentations will provide real world contemporary experiences for comparison to the text materials. Students are expected to be active participants in class. The final paper will serve as a roadmap for leadership development for each student for the next ten years.
MGMT 4223  
LEADERSHIP: ART/FILM/HIST/LIT  
Prerequisites: Junior standing or instructor permission. This course probes the definition, meaning, practice, and paradox of leadership by exploring ideas and images found in diverse domains such as film, art, literature, and history. These ideas and images are used as a platform for examining leadership challenges and for developing personal insights into leadership practice, issues and values.

MKT 3043  
PRINCIPLES/MARKETING  
(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) Each semester. Marketing fundamentals, the ultimate consumer, the retailing and wholesaling systems, marketing functions, marketing policies, marketing costs, critical appraisal of marketing, marketing and the government.

MKT 3163  
CONSUMER BEHAVIOR  
(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) Prerequisite: MKT 3043. A study of the development of consumer decision making processes and the factors which influence them. Psychological, sociological, economic, cultural, and situational factors are examined. Their impact on marketing formulation, both domestic and international, is emphasized.

MKT 4033  
INTERNSHIP I IN MKT  
(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) Prerequisite: Permission of the Instructor, Department Head and Dean; Junior Standing; minimum 2.5 overall GPA. A supervised, practical experience providing undergraduate MGMK majors with a hands-on professional management/marketing experience in a position relating to an area of career interest. The student will work in a local cooperating business establishment under the supervision of a member of management of that firm. A College of Business faculty member will observe and consult with the students and the management of the cooperating firm periodically during the period of the internship. Students will be required to make oral reports in the classroom, maintain an internship log, and prepare a final term paper. Note: Only three hours of internship may be used to satisfy the curriculum requirements for management or marketing electives. Additional hours may be used to satisfy the curriculum requirements for general electives.

MKT 4043  
INTERNSHIP II IN MKT  
(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) Prerequisite: Internship I, permission of the instructor, Department Head and Dean; Junior Standing; minimum 2.5 overall GPA. To be taken following completion of Internship I. A supervised, practical experience providing undergraduate MGMK majors with a hands-on professional management/marketing experience in a position relating to an area of career interest. The student will work in a local cooperating business establishment under the supervision of a member of management of that firm. A College of Business faculty member will observe and consult with the students and the management of the cooperating firm periodically during the period of the internship. Students will be required to make oral reports in the classroom, maintain an internship log, and prepare a final term paper. Note: Only three hours of internship may be used to satisfy the curriculum requirements for management or marketing electives. Additional hours may be used to satisfy the curriculum requirements for general electives.

MKT 4053  
SPORT/EVENT MARKETING  
(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) Prerequisites: MKT 3043, or instructor approval. To apply marketing concepts to sporting, cultural, historical, and charitable activities and events. To examine the performance, production, and promotional segments of the sport and event markets.
MKT 4063
ADVERTISING
(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) Prerequisite: MKT 3043. The "how" and "why" of advertising: principal problems faced by advertisers and advertising agencies, approaches, policies, and procedures as related to successful marketing techniques.

MKT 4073
SERVICE MARKETING MGMT
(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) Prerequisite: MKT 3043. The course offers an in-depth exploration of the differences between tangible goods and services, the problems created by those differences, and the ways in which marketing managers can overcome these problems. The primary focus of the course will be on differences in consumer evaluation processes between goods and services, and specific issues that marketers have to address when dealing with services.

MKT 4093
INTERNATIONAL MARKETING
(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) Prerequisite: MKT 3043. Analysis of opportunities, distinctive characteristics and emerging trends in foreign markets, including exploration of alternative methods and strategies for entering foreign markets; organizational planning and control; impact of social, cultural, economic and political differences; and problems of adapting American marketing concepts and methods.

MKT 4103
SPECIAL TOPICS IN MKT
(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) Prerequisite: MKT 3043. In-depth exploration of selected marketing topics. The primary topic will vary from offering to offering, thus, the course may be taken more than once.

MKT 4143
MARKETING MANAGEMENT
Fall. Prerequisites: MKT 3043, MGMT 3003, MKT 3163 and senior standing. Advanced study of decisions facing a marketing executive. Topics covered include product planning, consumer behavior, promotion, sales management, and pricing.

MKT 4153
MARKETING RESEARCH
(Additional prerequisites for 3000- and 4000-level courses are listed in the College of Business section of this catalog.) Spring. Prerequisites: BUAD 2053, MKT 3043. A study of the development of the basic methodology in research design for primary and secondary data, including requirements for collection, analysis, editing, coding, and presentation of data to support marketing decisions.

MLED 2003
INTRO TO EDUCATION
Prerequisite: Stage I course and will be taken before admittance to the Middle Level Teacher Education Program. Introduction to philosophy of education and to the concept of education as a career with an emphasis on middle-level education. The format will include a weekly lecture and on-site field experiences in
This course will also provide potential middle-level teachers with an overview of the social and historical aspect of the American Education System.

**MLED 3012**  
**RESEARCH FOUNDATIONS**  
Prerequisite: Admission of Stage II to the Middle Level Teacher Education Program. Presentation of the knowledge base and practice in the skills needed to locate educational research information; analyze, synthesize, and evaluate the compiled materials; and write a professional research report based on the composite findings.

**MLED 3024**  
**PSY FND/NATURE/NEEDS MLS**  
Prerequisite: Admission to Stage II of the Middle Level Teacher Education Program. General principles of the physical, social, emotional, intellectual, and moral development of early adolescents and the developmental implications on curriculum and instruction, learning, the learner's potentialities with attention to individual differences, the environment of effective learning, application of psychology to educational problems.

**MLED 3034**  
**LITERACY DEVELOPMENT**  
Prerequisite: Admission to Stage II of the Middle Level Program. Presentation of the knowledge base and methodology needed to guide students in the middle grades toward competency and maturity as readers and writers and practice in the teaching/learning strategies related to reading in all content area disciplines.

**MLED 3041**  
**SCHOOL TO HOME COMM**  
Prerequisite: Admission to Stage II of the Middle Level Teacher Education Program. Presentation of methods of communication between the home and school for the classroom teacher will be explored. The use of classroom management software for school reports, student information sheets, newsletters, electronic mail, and letters to home as well as telephone skills will be practice. Exploration of the use of community resources and evaluation as related to meeting the needs of middle level students and families.

**MLED 3062**  
**TESTS/EDUC MEASUREMENTS**  
Prerequisite: Admission to Stage II of the Middle Level Program. A survey of test theory with particular emphasis upon the use of assessment techniques in the middle level classroom as an educational decision-making tool.

**MLED 3072**  
**DIVERSITY IN CLASSROOM**  
Prerequisite: Admission to Stage II of the Middle Level Teacher Education Program. A study of the major areas of exceptionalities including the learning disabled, mentally retarded, physically handicapped, and the gifted, and their special needs in a school program.

**MLED 3102**  
**READ THRU LIT/MIDDLE AGE**
Prerequisite: Admission to Stage II of the Middle Level Teacher Education Program. A study of the development and source of literature for the middle childhood/early adolescent student. Emphasis will be on integrating literature across the curriculum and on methods of encouraging reading as a lifelong pleasurable pursuit.

**MLED 4004**  
**MID LEVEL CURR/PEDAGOGY**  
Prerequisite: Admission to Stage II of the Middle Level Teacher Program. A study of the developmental curriculum, instruction and pedagogy for teaching the middle level student. Emphasis will be on an interdisciplinary approach to curriculum design.

**MLED 4013**  
**TCHNG/YOUNG ADOLESCENT**  
Hold ECED P-4 licensure and passing Praxis II score on Middle Childhood Generalist test or permission of Instructor. A study of developmentally appropriate curriculum, instruction and pedagogy for teaching the young adolescent with understanding of the historical perspective of middle schools and programs.

**MLED 4023**  
**GUIDED FIELD EXPERIENCES**  
Prerequisite: Admission to Stage II of the Middle Level Teacher Education Program and concurrent enrollment in MLED 3012 and MLED 3034. MLED 4023 Guided Field Experiences is a series of 45 hours of observation, participation, and teaching experiences ranging from individual to large group settings conducted in selected middle level settings designed to prepare the teacher candidate for a smooth transition to internship in a clinical setting. A survey of school law designed to give teacher candidates an awareness of legal rights and responsibilities of teachers, students, and public schools is presented at the beginning of the course before students begin practicum hours.

**MLED 4033**  
**YOUNG ADOL GROWTH/DEVEL**  
Prerequisite: Hold ECED P-4 licensure and passing Praxis II score on Middle Childhood Generalist test or permission of instructor. Prospective middle level teachers will study the educational implications of the developmental period of the young adolescent. An emphasis is placed on developmental characteristics of the young adolescent highlighting the role of the middle level teacher in promoting the healthy development of the young adolescent.

**MLED 4043**  
**DIVERSITY/MID LEVEL CLRM**  
Prerequisite: Hold ECED P-4 licensure and passing Praxis II score on Middle Childhood Generalist test or permission of instructor. Prospective middle level teachers will study the educational implications of the economic, cultural, racial and intellectually diverse middle level classroom.

**MLED 4912**  
**INTERNSHIP**  
(Twelve hour course.) Prerequisites: Admission to and Internship. MLED 4912 Internship is a minimum of fifteen weeks of reflective clinical internship at the middle level. In a select setting under supervision of experienced middle level professionals, teacher candidates will prepare, facilitate, and evaluate an appropriate curriculum experience for instruction of the early adolescent. Fee $100.00.
MS 1101
LEADERSHIP I

Fall. A study of the importance of communications, decision making, and the understanding of human behavior as it affects leadership situations. Includes introduction to basic military skills.

MS 1102
LEADERSHIP II

Fall. A study of the importance of communications, decision making, and the understanding of human behavior as it affects leadership situations. Includes introduction to basic military skills.

MS 1111
LEADERSHIP II

Spring. Introduction to leadership and development and basic tactical skills. Includes introduction to basic military skills.

MS 2312
MIL ORGANIZ/TACTICS I

Fall. Emphasis on the development of effective leadership skills, basic rifle marksmanship training, and on understanding how the leadership process works in organizational situations.

MS 2402
MIL ORGANIZ/TACTICS II

Spring. Continuation of leadership development training from MS 2312. Introduction to practical work in map reading, CPR course and basic lifesaving steps for first aid.

MS 3503
ADV LEADERSHIP/TACT I

Fall. An in-depth study of unit tactics and related individual skills, advanced map reading and their practical application. Emphasis on person to person leadership skill development.

MS 3603
ADV LEADERSHIP/TACT II

Spring. A continuation of MS 3503.

MS 4013
U.S. MILITARY HISTORY
A study of the American military from its colonial origins to the present, including the development of the military establishment and its relationship with American society.

**MS 4703**  
APPL LEADERSHIP/MGMT I  
Fall. A study of command and staff functions and practical exercises in planning, organizing, and supervising. Students in this course plan and administer all activities of the cadet corps. Emphasis is placed on leadership and management of larger organizations.

**MS 4803**  
APPL LEADERSHIP/MGMT II  
Spring. A continuation of MS 4703.

**MS 4903**  
ADVANCED OFFICERSHIP I  
Prerequisite: MS 3503 or MS 4703 and approval of the Professor of Military Science. Advanced Officership I is a special problems course on professional military related topics. The course will emphasize personal and professional goals for officers and related tactics involved in military history.

**MS 4913**  
ADVANCED OFFICERSHIP II  
Prerequisite: MS 3503 or MS 4703 and approval of the Professor of Military Science. Advanced Officership II is a special problems course on professional military topics specifically related to the branches of the US Army. The course will emphasize personal and professional goals for each officer by enhancing their knowledge of their assigned branch and component.

**MUS 1000**  
RECITAL ATTENDANCE  
Offered on a pass/fail basis. Students are required to attend a specified number of recitals each semester and must pass at least six semesters to receive the B.A. degree in music or bachelor of music education.

**MUS 1001**  
APPL MUSIC/TRUMPET  
Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g. 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

**MUS 1002**  
APPL MUSIC/TRUMPET
Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g. 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 1011
APPL MUSIC/FR HORN

Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g. 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 1012
APPL MUSIC/FR HORN

Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g. 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 1021
APPL MUS/TROMBONE

Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g. 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 1022
APPL MUS/TROMBONE

Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g. 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 1031
APPL MUS/EUPHONIUM

Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g. 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

**MUS 1131**
**APPL MUS/STR BASS**

Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g. 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

**MUS 1132**
**APPL MUS/STR BASS**

Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g. 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

**MUS 1141**
**APPL MUS/PERCUSION**

Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g. 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.
MUS 1142
APPL MUS/PERCUSION
Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g., 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 1151
CLASS GUITAR I
For music majors. Introductory class instruction in folk and popular styles of guitar playing with emphasis on guitar as a teaching tool for classroom music instruction.

MUS 1201
APPL MUSIC/PIANO
Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g., 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 1202
APPL MUSIC/PIANO
Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g., 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 1211
APPL MUSIC/HARPSICHORD
Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g., 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 1212
APPL MUSIC/HARPSICHORD
Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g., 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles
are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 1221
APPL MUSIC/ORGAN
Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g., 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 1222
APPL MUSIC/ORGAN
Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g., 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 1231
APPL MUSIC/VOICE
Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g., 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 1232
APPL MUSIC/VOICE
Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g., 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 1241
ITALIAN DICTION
For vocal majors. Study of the rules of pronunciation for Italian lyric diction. Must be taken concurrently with MUS 1232.

MUS 1301
OPERA WORKSHOP
Prerequisite: Permission of instructor. The course of study will involve selected scenes from standard opera literature prepared for dramatic presentation. Research will be required pertaining to the historical setting, appropriate costumes, and mannerisms of the period being studied. Staging techniques and set building will be included as deemed necessary to each presentation.

MUS 1311
JAZZ ENSEMBLE

Membership selected by audition. Study and performance of big band jazz styles from the 1930's to present.

MUS 1321
JAZZ PIANO

As needed. Prerequisites: MUS 1713, MUS 1201 or 1441, or instructor approval. Materials and practices for typical jazz keyboard playing. One hour per week.

MUS 1431
CLASS PIANO

Non music majors. For students who have little or no music reading skills, this course concentrates on basic piano skills while learning to read music. At the end of the course students will play pieces using a chord based approach in several keys and styles.

MUS 1441
CLASS PIANO

For music majors. A development of the fundamental skills of the piano, emphasizing those aspects most useful to non piano majors. A knowledge of chords is stressed, as is sight reading, improvising, playing in all keys and harmonizing melodies. The second year of class piano extends these skills adding the reading of multiple score parts, modulation, harmonizing with secondary chords, improvising in various composers' styles, playing a wide variety of literature, and accompanying. $10 fee.

MUS 1501
BAND

Open to students who can satisfy audition requirements. Marching Band, fall semester, or permission of instructor is a prerequisite for Concert Band, spring semester. Fall semester stresses marching band. Spring semester stresses symphonic and concert bands in the study and performance of quality literature.

MUS 1511
BRASS CHOIR

Membership selected by audition. Study and performance of representative brass literature. Rehearsal 3 hours weekly.

MUS 1521
WOODWIND ENSEMBLES
Open to all students. Membership selected by audition. Two hours weekly.

MUS 1531
BRASS ENSEMBLES
Open to all students. Membership selected by audition. Two hours weekly.

MUS 1541
PERCUSSION ENSEMBLES
Open to all students. Membership selected by audition. Two hours weekly.

MUS 1551
STRING ENSEMBLES
Open to all students. Membership selected by audition. Two hours weekly.

MUS 1571
UNIVERSITY CHOIR
Open to all students. A select vocal group of approximately sixty members selected by audition. Study and performance of choral literature of all periods.

MUS 1581
CHAMBER CHOIR
Open to all students by audition. A select choral ensemble of approximately sixteen voices specializing in the performance of chamber choral music from all historical periods. Two or three concerts are presented on campus each semester. Off-campus performances include tours and public relations functions for the university.

MUS 1591
SM VOCAL ENSEMBLES
As needed. Open to all students. Participation in the various ensemble groups such as trios and quartets: study of selected music literature. Membership selected by audition. Two hours weekly.

MUS 1601
ORCHESTRAL REPERTOIRE
Prerequisite: permission of instructor. A study of the landmarks of orchestral repertoire for winds and percussion sections through the preparation and rehearsal of the literature. Each course may be repeated three times.
MUS 1611
MUSIC THEATRE WORKSHOP
Prerequisite: permission of instructor. Selected songs from standard musical theatre literature will be prepared for public performance with an emphasis on popular professional performance techniques. Credit will be given for one leading part or for a series of supporting parts. Two hours weekly.

MUS 1621
MUSIC THEATRE PRACTICUM
As needed. Prerequisite: permission of instructor. Credit will be given for participation that results in a public performance of a major production. Vocal, instrumental, and/or audiovisual technological participation will be accepted. A minimum of 28 hours participation is required.

MUS 1671
UNIV-COMMUNITY CHOIR
Evening rehearsals. Open to all students and other interested persons. Assignments made on the basis of voice classification. Study and performance of choral literature of all historical periods. One and one half hours weekly.

MUS 1681
CONCERT CHORALE
Open to all students by audition. A select choral ensemble of choral music from all historical periods. Two or three major concerts are presented each semester.

MUS 1703
MUSIC FUNDAMENTALS
As needed. Music fundamentals to be included are reading pitch and rhythm, basic notation, rudimentary music theory information about scales, harmony, dynamics, tempo; playing a melody instrument; rudimentary ear training, music composition, and music listening skills.

MUS 1713
THEORY I
To be taken concurrently with MUS 1731, 1741. Study of scales, triads, seventh chords, diatonic harmonies, simple modulation. Introduction to small forms.

MUS 1723
THEORY II
To be taken concurrently with MUS 1731, 1741. Study of scales, triads, seventh chords, diatonic harmonies, simple modulation. Introduction to small forms.

MUS 1731
EAR TRAINING I
The elements of music fundamentals, both written and aural.

MUS 1741
EAR TRAINING II
The elements of music fundamentals, both written and aural.

MUS 2003
INTRODUCTION TO MUSIC
Prerequisite: None. An overall view of music history from Medieval to Contemporary times with a focus on relating musical happenings and concepts to the other arts.

MUS 2201
ACCOMPANYING SEMINAR
For piano majors, or by permission of instructor. Development of basic accompanying techniques. Class coaching and presentation one hour weekly, plus assigned accompanying responsibilities in a variety of media. May be repeated three times.

MUS 2241
GERMAN DICTION
For vocal majors. Study of the rules of pronunciation for German lyric diction. Must be taken concurrently with MUS 1232.

MUS 2251
FRENCH DICTION
For vocal majors. Study of the rules of pronunciation for French lyric diction. Must be taken concurrently with MUS 1232.

MUS 2441
CLASS VOICE
(Music majors). Fall. Development of basic vocal techniques through group participation and solo singing. Emphasis is placed on understanding of vocal pedagogy. Supervised practice two hours per week.

MUS 2451
CLASS VOICE
(Non music majors). Fall. Development of basic vocal techniques through group participation and solo singing. Supervised practice two hours per week.
MUS 2713
THEORY III
To be taken concurrently with MUS 2731, 2741. More advanced harmonic concepts, modulation, chromatic harmonies. Further study of larger forms.

MUS 2723
THEORY IV
To be taken concurrently with MUS 2731, 2741. More advanced harmonic concepts, modulation, chromatic harmonies. Further study of larger forms.

MUS 2731
EAR TRAINING III
Further work in more advanced ear training and sight singing.

MUS 2741
EAR TRAINING IV
Further work in more advanced ear training and sight singing.

MUS 3000
RECITAL ATTENDANCE
Offered on a pass/fail basis. Students are required to attend a specified number of recitals each semester and must pass at least six semesters to receive the B.A. degree in music or bachelor of music education.

MUS 3001
APPL MUSIC/TRUMPET
Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g. 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 3002
APPL MUSIC/TRUMPET
Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g. 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.
MUS 3003
APPL MUSIC/TRUMPET

Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g., 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 3011
APPL MUSIC/FR HORN

Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g., 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

**APPL MUS/PERCUSSION**

Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g. 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

**MUS 3143**  
**APP MUS/PERCUSSION**

Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g. 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

**MUS 3151**  
**CLASS GUITAR II**

For music majors. Prerequisite: MUS 1151 or permission of instructor. Advanced class instruction in guitar playing with emphasis on guitar as a teaching tool for classroom music instruction.

**MUS 3201**  
**APPL MUSIC/PIANO**
Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g. 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 3202
APPL MUSIC/PIANO

Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g. 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 3203
APPL MUSIC/PIANO

Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g. 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 3211
APPL MUSIC/HARPSICHORD

Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g. 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 3212
APPL MUSIC/HARPSICHORD

Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g. 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 3213
APPL MUSIC/HARPSICHORD

Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g. 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.
MUS 3221
APPL MUSIC/ORGAN

Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g. 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 3222
APPL MUSIC/ORGAN

Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g. 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 3223
APPL MUSIC/ORGAN

Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g. 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 3231
APPL MUSIC/VOICE

Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g. 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 3232
APPL MUSIC/VOICE

Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g. 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 3233
APPL MUSIC/VOICE
Musical performance includes private study, class piano, class voice, and ensembles. In numbering applied music courses, the first digit, numeral 1, is used for freshman and sophomore level courses; the numeral 3 for junior and senior level courses. The second and third digits indicate applied concentration area (e.g., 20 = piano) and the final digit indicates hours of semester credit. Applied Music (private instruction) requires permission of the department head and is required of all music majors. Applied music students may be assigned participation in designated ensembles in addition to required ensembles. Ensembles are given in the curricula in Music and Music Education. To qualify for three hours per semester, a student must have a minimum 3.50 cumulative GPA in applied music, a 3.00 cumulative GPA in total hours, junior standing and recommendation of the instructor.

MUS 3281  
SEC INSTR METH/MAT I  
Laboratory experience in conducting and performance of materials appropriate to teaching band in the public school.

MUS 3301  
OPERA WORKSHOP  
Prerequisite: Permission of instructor. The course of study will involve selected scenes from standard opera literature prepared for dramatic presentation. Research will be required pertaining to the historical setting, appropriate costumes, and mannerisms of the period being studied. Staging techniques and set building will be included as deemed necessary to each presentation.

MUS 3311  
JAZZ ENSEMBLE  
Membership selected by audition. Study and performance of big band jazz styles from the 1930's to present.

MUS 3321  
PRACTICE/IMPROV  
Prerequisite: successful completion of MUS 3332 or instructor approval. Laboratory experience in improvisation in all jazz styles. This course may be repeated for credit.

MUS 3322  
THEORY OF IMPROVISATION  
Prerequisite: MUS 1713, 1723, 1441, and/ or instructor approval. Music theory, materials and practices for improvising or extemporaneous playing. One hour class, two hour laboratory per week. May not be repeated for credit. May not be taken for credit after completion of MUS 3332.

MUS 3332  
THEORY OF IMPROVISATION  
Prerequisite: Successful completion of MUS 3322. Advanced music theory, materials and practices for improvising or extemporaneous playing. One hour class, two hour laboratory per week. May not be repeated for credit.

MUS 3401  
BRASS INSTRUMENTS
For music majors. A study of the instruments of the brass family to the extent that scales and grade one and two solos can be played on selected instruments. Class two hours, practice two hours.

MUS 3421
WOODWIND INSTR, DBL REED

For music majors. A study of playing and teaching techniques of the woodwind family (oboe, bassoon). Playing of selected instruments will be developed through major scales and grade one and two solos or methods.

MUS 3431
WOODWIND INSTR, SGL REED

For music majors. A study of playing and teaching techniques of the woodwind family (flute, clarinet, saxophone). Playing of selected instruments will be developed through major scales and grade one and two solos or methods.

MUS 3441
INSTRUMENTAL CONCEPTS

For vocal and keyboard majors. A study designed to give non-instrumental music education majors functional knowledge of band and orchestral instruments.

MUS 3442
PIANO PEDAGOGY

Spring. A study of pedagogical principles involved in the teaching of private and class piano, with emphasis on outside reading, class discussion, and observation of actual lessons and classes.

MUS 3481
STRINGED INSTRUMENTS

For music majors only. A study of instruments of the string family (violin, viola, cello, and string bass) with emphasis on the fundamentals of good tone production and bowing techniques to the extent that scales and grade one and two orchestra music can be played on selected instruments.

MUS 3501
BAND

Open to students who can satisfy audition requirements. Marching Band, fall semester, or permission of instructor is a prerequisite for Concert Band, spring semester. Fall semester stresses marching band. Spring semester stresses symphonic and concert bands in the study and performance of quality literature.

MUS 3511
BRASS CHOIR

Membership selected by audition. Study and performance of representative brass literature. Rehearsal 3 hours weekly.
MUS 3521
WOODWIND ENSEMBLES
Open to all students. Membership selected by audition. Two hours weekly.

MUS 3531
BRASS ENSEMBLES
Open to all students. Membership selected by audition. Two hours weekly.

MUS 3541
PERCUSSION ENSEMBLES
Open to all students. Membership selected by audition. Two hours weekly.

MUS 3551
STRING ENSEMBLES
Open to all students. Membership selected by audition. Two hours weekly.

MUS 3571
UNIVERSITY CHOIR
Open to all students. A select vocal group of approximately sixty members selected by audition. Study and performance of choral literature of all periods.

MUS 3581
CHAMBER CHOIR
Open to all students by audition. A select choral ensemble of approximately sixteen voices specializing in the performance of chamber choral music from all historical periods. Two or three concerts are presented on campus each semester. Off-campus performances include tours and public relations functions for the university.

MUS 3591
SM VOCAL ENSEMBLES
As needed. Open to all students. Participation in the various ensemble groups such as trios and quartets: study of selected music literature. Membership selected by audition. Two hours weekly.

MUS 3601
ORCHESTRAL REPERTOIRE
Prerequisite: permission of instructor. A study of the landmarks of orchestral repertoire for winds and percussion sections through the preparation and rehearsal of the literature. Each course may be repeated three times.

MUS 3611
MUSIC THEATRE WORKSHOP
Prerequisite: permission of instructor. Selected songs from standard musical theatre literature will be prepared for public performance with an emphasis on popular professional performance techniques. Credit will be given for one leading part or for a series of supporting parts. Two hours weekly.

MUS 3621
MUSIC THEATRE PRACTICUM
As needed. Prerequisite: permission of instructor. Credit will be given for participation that results in a public performance of a major production. Vocal, instrumental, and/or audiovisual technological participation will be accepted. A minimum of 28 hours participation is required.

MUS 3632
SURVEY OF MUSIC THEATRE
As needed. Survey of Music Theatre is a historical survey of the literature, content and performances practices of music theatre. These proficiencies will be surveyed in terms of broadly defined chronological and style periods.

MUS 3671
UNIV-COMMUNITY CHOIR
Evening rehearsals. Open to all students and other interested persons. Assignments made on the basis of voice classification. Study and performance of choral literature of all historical periods. One and one half hours weekly.

MUS 3681
CONCERT CHORALE
Open to all students by audition. A select choral ensemble of choral music from all historical periods. Two or three major concerts are presented each semester.

MUS 3692
HISTORY OF MUSIC III
Prerequisite: MUS 2723, music major or permission of instructor. A study of 20th century music. Includes one unit of non-western music.

MUS 3702
MUSIC TECHNOLOGY
For music majors with junior standing only. Applications of Technology in Music Education. An overview of current technologies to enhance music instruction, assessment, and productivity by the music educator.
MUS 3712
COUNTERPOINT
As needed. Prerequisite: MUS 2723. The contrapuntal techniques and forms of the Baroque era. Analysis of Canons, two and three part Inventions, and fugues of J.S. Bach plus written exercises in two voice counterpoint.

MUS 3762
INSTRU/CHORAL ARRANGING
An introduction to scoring for instrumental and choral groups to meet the needs of adapting music to meet the needs and ability levels of school performing groups and classroom situations.

MUS 3771
COMPOSITION
As needed. Prerequisites: 16 hours of music theory and senior standing or consent of instructor. Offered as demand warrants. The study of basic compositional techniques of twentieth-century works and completion of composition project.

MUS 3772
COMPOSITION
Fall. Prerequisite: MUS 2723 (Theory IV) or permission of instructor. A study of Western Art music from ancient civilization to A.D. 1750.

MUS 3773
HISTORY OF MUSIC I
Fall. Prerequisite: MUS 2723 (Theory IV) or permission of instructor. A study of Western Art music from ancient civilization to A.D. 1750.

MUS 3783
HISTORY OF MUSIC II
Prerequisite: MUS 2723 or permission of instructor. A study of classical and 19th century music.

MUS 3802
PRIN/CONDUCTING
Fall. Principles and practices of conducting; a study of music terminology and transpositions; development of baton techniques based on the practice of outstanding choral and instrumental conductors.

MUS 3821
SEC CHORAL METH/MAT I
Choral conducting techniques, tone and diction styles and interpretation, rehearsal techniques, programs and concerts, planning and organization, and service information. Conducting of student ensembles and organizations. Methods and materials I will include review of literature for large and small ensembles appropriate for middle school, junior high, and smaller high school teaching situations.

MUS 3853
MUSIC/ELEM CLASSROOM
Prerequisites: MUS 2723, successful completion of Keyboard Exit Exam, and SEED 2002 or permission of instructor. A study of current practices, methods, and materials for teaching general music to elementary school children with emphasis on curriculum development and diversity in the classroom.

MUS 4001
SENIOR RECITAL
Prerequisite: Six semesters of major applied study. Required of all music education majors. $175 Applied Music fee.

MUS 4201
ACCOMPANYING SEMINAR
Prerequisite: Two semesters of MUS 2201 and/or permission of instructor. Advanced accompanying techniques for piano majors. Class coaching and presentation one hour weekly, plus assigned responsibilities in a variety of media. May be repeated three times. May substitute for required 3000 level hour of major ensemble enrollment with assignment by instructor to successfully accompany major ensemble or recital.

MUS 4281
SEC INSTR METH/MAT II
Laboratory experience in conducting and performance of materials appropriate to teaching band in the public school.

MUS 4461
PERCUSSION INSTR
For music majors. A study of the instruments of the percussion family to the extent that scales and/or rudiments and grade one and two solos can be played on selected instruments. Designed as a practical preparation for public school teachers. Two hours weekly.

MUS 4581
VOCAL ENSEMBLES
As needed. Membership selected by audition. Study and performance of representative vocal literature. Ensembles may be small ensembles such as trios or quartets, or may be large ensembles such as choir or chamber choir. Six hours weekly.

MUS 4701
SPECIAL METHODS/MUSIC
Spring. Prerequisites: Admission to Stage II of the Teacher Education program. Intensive on campus exploration of the principles of curriculum construction, teaching methods, use of community resources, evaluation as related to teaching music, and dealing with diversity in the classroom.

MUS 4712
FORM ANALYSIS

Fall. Prerequisite: MUS 2723. A study of the standard forms of the Classical period with emphasis on instrumental forms and genres developed in the period 1750-1825 and the continuation and expansion of those forms in the nineteenth century.

MUS 4771
COMPOSITION

As needed. Prerequisites: 16 hours of music theory and senior standing or consent of instructor. Offered as demand warrants. The study of basic compositional techniques of twentieth-century works and completion of composition project.

MUS 4772
COMPOSITION

As needed. Prerequisites: 16 hours of music theory and senior standing or consent of instructor. Offered as demand warrants. The study of basic compositional techniques of twentieth-century works and completion of composition project.

MUS 4803
HIST AM MUS:JAZZ/FOLK

Open to all students. An in-depth study of folk music and the relationship between these forms and American life. Research, aural activity, and analysis are used to explore a variety of musical forms, composers, and performers.

MUS 4811
KEYBOARD LITERATURE

Fall. A survey of piano or organ literature with emphasis on historical development, analysis of selected compositions, and listings of suitable pedagogical materials.

MUS 4821
SEC CHORAL METH/MAT II

Choral conducting techniques, tone and diction styles and interpretation, rehearsal techniques, programs and concerts, planning and organization, and service information. Conducting of student ensembles and organizations. Methods and materials II will include a review of historically important choral works and the music of the master composers of each musical epoch. Sight singing methods for group sight reading will be reviewed.

MUS 4832
VOC SOLO LIT/PEDAGOGY
Spring. Prerequisite: Junior standing. Introduction to and comparison of vocal solo literature and the teaching of vocal technique.

MUS 4842
SURVEY OF OPERA

As needed. A history of opera including events which helped in the creation of this art form. Course will include major developments beginning with the Italians and incorporating the French, English and German contributions and styles.

MUS 4853
MUSIC OF THE WORLD'S PEOPLE

A survey of predominately non-Western world music cultures with attention to sonic structures, musicians, musical instruments, and socio-cultural contexts of music making. Open to students in all majors. Listening emphasized.

MUS 4881
WORKSHOP IN MUSIC

As needed. Prerequisite: Permission of instructor. Course with variable credit designed to meet specific needs of participants. Each credit hour will require fifteen clock hours of instruction.

MUS 4882
WORKSHOP IN MUSIC

As needed. Prerequisite: Permission of instructor. Course with variable credit designed to meet specific needs of participants. Each credit hour will require fifteen clock hours of instruction.

MUS 4883
WORKSHOP IN MUSIC

As needed. Prerequisite: Permission of instructor. Course with variable credit designed to meet specific needs of participants. Each credit hour will require fifteen clock hours of instruction.

MUS 4951
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

MUS 4952
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.
MUS 4953
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

MUS 4954
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

MUS 4972
MARCHING BAND TECH
Fall. For music majors only. A study of the problems, practices, techniques, and the organization and administration of the marching band.

MUS 4991
SPEC PROB/MUSIC
As needed. Prerequisites: Senior standing and permission of the instructor. Additional work in an area of the student's choice under the direction of the faculty member competent in that area.

MUS 4992
SPEC PROB/MUSIC
As needed. Prerequisites: Senior standing and permission of the instructor. Additional work in an area of the student's choice under the direction of the faculty member competent in that area.

MUS 4993
SPEC PROB/MUSIC
As needed. Prerequisites: Senior standing and permission of the instructor. Additional work in an area of the student's choice under the direction of the faculty member competent in that area.

MUS 4994
SPEC PROB/MUSIC
As needed. Prerequisites: Senior standing and permission of the instructor. Additional work in an area of the student's choice under the direction of the faculty member competent in that area.
MUSM 4403
INTERP/EDUC/MUSEUM/METH

Prerequisites: Senior or Graduate standing, or permission of instructor. Museum perspectives and approaches to care and interpretation of cultural resources, including interpretive techniques of exhibit and education-outreach materials, and integrating museum interpretation/education into public school and general public programming. Class projects focus on special problems for managing interpretive materials in a museum setting.

MUSM 4951
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

MUSM 4952
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

MUSM 4953
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

MUSM 4954
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

NUR 1001
ORIENTATION TO NURSING

A one hour elective course for students interested in pursuing nursing as a professional career. The student is introduced to the history of nursing, issues and trends, basic nursing education, advanced education for nurses, and nursing career opportunities. Students interested in nursing or a career in science are encouraged to take this course during the fall semester of their freshman year. Lecture 1 hour.

NUR 2023
INTRO/PROFESSIONAL NURS

Summer or fall prior to Junior year. Prerequisite: MATH 1113 and permission of Admission and Progression Committee. A non clinical, three hour course which introduces the student to selected basic concepts in professional nursing. Purpose of the course is to introduce nursing concepts to nursing majors. The course focuses on nursing as a caring profession, nurses' roles and functions, ethics, standards, legal aspects, holism, wellness, health care settings, communication, teaching/learning, critical thinking, and the nursing process. The Conceptual Framework and Philosophy of Tech's Department of Nursing will be explored. Lecture 3 hours.
NUR 2303
NUTRITION

Principles of normal nutrition at all stages of the life cycle are emphasized. Growth and development needs are incorporated into the maintenance, restoration of nutritional health, and in the prevention of nutritional deficit. Exploration is conducted of the social, religious, and cultural factors which affect the family's nutritional health. Lecture 3 hours.

NUR 3003
ALTERNATIVE THERAPIES

Prerequisite: Admission to Upper Division Nursing or consent of instructor. This course focuses on the principles and concepts of alternative therapies for clients of all ages in a variety of health care settings. Alternative therapies are explored in relationship to conventional medicine in the prevention of negative health conditions, promotion of health practices, and support and restoration of wellness.

NUR 3102
NUR SKLS THEOR/MED INT I

Summer and Fall. Prerequisite: Open to students majoring in Spanish with a concentration in Medical Interpretation. The course provides the student with theory of basic psychomotor and math nursing skills. Lecture 2 hours.

NUR 3103
NURSING SKILLS I

Summer or fall session prior to junior year. Prerequisite: Admission into upper level junior nursing courses. The course provides the student with theory and guided practice of basic psychomotor and math nursing skills in a multimedia simulated laboratory setting. $60 course fee. Lecture 2 hours. Laboratory 3 hours equal to one credit hour.

NUR 3204
THEOR/CONCEPTS NURS I

Prerequisite: NUR 2023, 3103, 3303, 3803 and admission into upper level junior nursing courses. Corequisites: NUR 3513 and 3404. This course is an introduction to the cognitive framework of the curriculum which emphasizes holistic man, environment, and nursing as an interacting system. The course focuses on bio psycho social and spiritual behaviors as indicators of health throughout the life cycle. The nursing process and the scientific method of problem solving are presented as systematic approaches to nursing care. Further emphasis is placed on assessment of health needs and health practices of individuals in structured episodic health care settings. Beginning concepts of professionalism and care of clients with self-limiting alterations to health are integral parts of this course. Lecture 4 hours. $25 testing fee.

NUR 3213
CARE OF THE OLDER ADULT

Prerequisites: NUR 3103, NUR 2023, and PSY 3813. This course will include a study of communication with individuals, families and groups. It will also provide the foundational basis for the professional care of older adults and their families. Care of the older adult introduces trends, theories and multidimensional changes of aging and addresses issues related to wellness, health promotion, and disease prevention in older adults.

NUR 3302
HLTH ASSESS THEOR/MED IN
NUR 3303
HEALTH ASSESSMENT

Prerequisite: Departmental permission. The student uses the nursing process to assess the client by the utilization of observation, palpation, percussion, and auscultation skills. The language of Health Assessment is taught and methods of proper documentation are emphasized. The course provides guidance in specific assessment techniques and enables the student to recognize normal findings throughout the life cycle. The student collaborates with members of the healthcare team in the sharing of health findings in order to make a specific nursing diagnosis. $10 laboratory fee. Lecture 2 hours. Laboratory 3 hours equal to one credit hour.

NUR 3304
HEALTH ASSESSMENT

Prerequisite: Departmental permission. The student uses the nursing process to assess the client by the utilization of observation, palpation, percussion, and auscultation skills. The language of Health Assessment is taught and methods of proper documentation are emphasized. The course provides guidance in specific assessment techniques and enables the student to recognize normal findings throughout the life cycle. The student collaborates with members of the healthcare team in the sharing of health findings in order to make a specific nursing diagnosis. $10 laboratory fee. Lecture 3 hours. Laboratory 3 hours equal to one credit hour.

NUR 3402
PHARMACOLOGY I

Prerequisites: NUR 2303 and 3103. Corequisites: NUR 3204 and 3404. This course focuses on the relationships between the action of drugs, their effects and the contraindications for their administration. The relationship between specific patient needs and the type of drugs that would be effective to meet those needs will be analyzed. The nursing care related to each type of drug and the rationales for care will be included.

NUR 3404
PRAC/NUR I/INDV CLIENT

Prerequisite: NUR 2023 and NUR 3103. Co-requisites: NUR 3204 and 3304. Practicum facilitating the integration, synthesis, and application of theories, concepts, and psychomotor nursing skills taught in NUR 3103, 3204, 3304 and 3513. The student uses maintenance nursing behaviors to assist individuals to reach functional adaptation. 12 Clinical hours equal to 4 credit hours. $20 laboratory fee.

NUR 3501
NUR SKL THEOR/MED INT II

Prerequisite: NUR 3102. A continuation of NUR 3102. The course provides the student with theory of intermediate-level psychomotor nursing skills. Lecture 1 hour.

NUR 3503
END-OF-LIFE CARE

This course is designed to offer basic skills and knowledge needed to recognize and intervene with a client at the end of life. Emphasis is to implement the nursing process with clients at the end of life. Students will apply concepts, theories, principals and techniques gained from their general education and previous nursing courses.
NUR 3513
NURSING SKILLS II
Prerequisites: NUR 3103. A continuation of NUR 3103. A guided practice of intermediate level theory and skills in a multimedia simulation laboratory. $20 course fee. Lecture 1 hour. Laboratory 3 hours equal to one credit hour.

NUR 3603
PERSONAL/PROF SELF-CARE
Prerequisite: Admission to Upper Division Nursing or consent of instructor. This course provides the RN-BSN student with the opportunity to assess one's own current health, lifestyle, and professional career and consider where one is, where one has been, and where one wants to be in the future. This class will provide a mechanism for change by actively involving the student in a self-analysis and establishment of a course of action for changes that are assessed to be needed.

NUR 3606
THEOR/CONCEPT/NURS II
Prerequisites: NUR 3204, 3304, 3404, 3513. This course, utilizing the nursing process, builds upon NUR 3204 and includes the bio psycho social and spiritual needs of the family. The course emphasizes family development, the childbearing experience, and the child's unique response to the internal and external environment. Lecture 6 hours. $25 testing fee.

NUR 3703
NURSING PHARMACOLOGY
Prerequisites: NUR 3204, 3304, 3404, 3513. This course focuses on the relationships between the action of drugs, their effects and the contraindications for their administration. The relationship between specific patient needs and the type of drugs that would be effective to meet that need will be analyzed. The nursing care related each type of drug and the rationales for the care will be included. Lecture 3 hours.

NUR 3802
PHARMACOLOGY II
Prerequisites: NUR 3204, NUR 3402, NUR 3404. Corequisites: NUR 3606 and NUR 3805. This course is a continuation of Pharmacology I and focuses on the relationships between the action of drugs, their effects and the contraindications for their administration. the relationship between specific patient needs and the type of drugs that would be effective to meet those needs will be analyzed. The nursing care related to each type of drug and the rationales for the care will be included.

NUR 3803
APPLIED PATHOPHYSIOLOGY
Each semester. Prerequisites: BIOL 2014 and BIOL 3074. This course focuses on the mechanisms and concepts of selected pathological disturbances in the human body. Emphasis is placed on how the specific pathological condition effects the functioning of the system involved, as well as its impact on all other body systems. Lecture 3 hours.

NUR 3805
PRAC/NURS II/NURS FAM
Prerequisites: NUR 3103, 3204, 3304, 3404, 3513. Corequisites: NUR 3606 and 3703. A practicum course which facilitates the integration, synthesis, and application of the theories, concepts, and skills taught in NUR 3103, NUR 3513, NUR 3606 and NUR 3703. 15 clinical hours equal to 5 credit hours. $20 laboratory fee.

NUR 3892
CLINICAL COMPETENCY I

These courses are practicum courses designed to enable a student to prove clinical competence. Students who have failed a junior or senior level theories and concepts course but have passed the accompanying practicum course must prove clinical competence in order to progress to the next level. For the student who failed, NUR 3892 or NUR 4892 would be taken the same semester that the student is repeating the accompanying theories and concepts course. Students who have been absent from the upper division of the nursing curriculum must prove clinical competence at the level of the last practicum course they successfully completed before they can reenter upper division. $20 laboratory fee.

NUR 4202
SELECTED TOPICS

Prerequisite: Departmental permission. This course is designed to offer a selection of topics which will meet student needs and interests. The course provides the student with the opportunity to expand and improve knowledge in a carefully selected topic of relevance to nursing and/or health care. General demand will play a part in the topics offered. May be repeated for credit if course content differs. Lecture 2 hours.

NUR 4206
THEOR/CONCEPT/NUR III

Prerequisite: NUR 3606, 3703, 3805. The course focuses on the prevention of illness, maintenance of health and the restoration of wellness in the care of clients and families experiencing major dysfunctions in adaptation. The nursing process is the methodology used to assist clients and families toward achieving optimal health. Principles of growth and development throughout the life cycle, utilization of research findings, principles of communication in crisis, and the role of the nurse in crises situations are included in the course. Psycho social theories and concepts relevant to the care of the emotionally disturbed client and family are explored in depth. Lecture 6 hours. $25 testing fee.

NUR 4303
NURSING RESEARCH

Prerequisite: Admission to Upper Division Nursing, senior standing or consent of instructor. This introductory research course focuses on the validity and applicability of research findings for the improvement of nursing practice. Emphasis is on scientific inquiry and the role of the nurse as an intelligent consumer of research.

NUR 4405
PRAC/NUR III/CLIENT CR

Prerequisites: NUR 3103, 3304, 3513, 3606, 3703, and 3805. Corequisites: NUR 4206. This is a clinical nursing course which provides the opportunity for the integration of theories and concepts in the application of the nursing process in the care of the emotionally and/or physically dysfunctional client, family or group who are undergoing adaptation difficulties due to major deviations from wellness. The health care is delivered according to scientific principles, research findings, and accepted standards of care. Nursing behaviors and nursing roles are emphasized which are appropriate to the level of the students. Learning experiences are gained through caring for clients. 15 clinical hours equal to 5 credit hours. $20 laboratory fee.

NUR 4502
PRINCIPLES OF ACLS
Prerequisite: Departmental permission or consent of the instructor. This course is designed to offer the student the knowledge and skills necessary to provide appropriate early treatment for cardiopulmonary arrest in the adult patient utilizing current ACLS protocols as guidelines for emergency care.

NUR 4606
THEOR/CONCEPTS/NUR IV
Prerequisites: NUR 4202, 4206, 4303, and 4405. The course focuses on the prevention of illness, maintenance of health, and the restoration of wellness of individuals, families, and communities. Concepts of epidemiology, prevention, decision making, and collaboration are utilized to organize and deliver distributive nursing care in complex situations. Theories and techniques of management are studied which relate to self, team members, and care of groups of clients. The emerging role of the professional nurse is explored. Lecture 6 hours. $25 testing fee.

NUR 4804
PRAC/NUR IV/NURS COMM
Prerequisites: NUR 4206 and 4405. Corequisites: NUR 4606 and 4903. A clinical course which integrates theories and concepts from all nursing courses and provisions for practice in predominantly distributive healthcare settings. Emphasis is on the utilization of the nursing process, the prevention of illness, maintenance of health, and the restoration of wellness of individuals, families, and communities, experiencing adaptation to complex health problems. Management skills and techniques are utilized in the delivery of holistic nursing care. Activities are provided which facilitate the role transition from student to professional nurse. Clinical experiences occur in a variety of distributive healthcare settings. 12 clinical hours. $20 laboratory fee. $64 testing fee.

NUR 4892
CLINICAL COMPETENCY II
These courses are practicum courses designed to enable a student to prove clinical competence. Students who have failed a junior or senior level theories and concepts course but have passed the accompanying practicum course must prove clinical competence in order to progress to the next level. For the student who failed, NUR 3892 or NUR 4892 would be taken the same semester that the student is repeating the accompanying theories and concepts course. Students who have been absent from the upper division of the nursing curriculum must prove clinical competence at the level of the last practicum course they successfully completed before they can reenter upper division. $20 laboratory fee.

NUR 4903
SYNTHESIS/CLIN/THEOR/NUR
Synthesis of clinical and theoretical nursing knowledge occurs throughout the course. Students will be required to use all previously learned clinical and theoretical knowledge in the management of a diverse client population for which they are planning and providing a full-range of needed health care. Theory and clinical application of nursing knowledge must be integrated in order to prioritize, delegate, and ensure the delivery of comprehensive health care to clients in a variety of institutional and community-based settings. Students work closely with designate professional nurse preceptors and faculty in carrying out these learning activities. $40 testing fee.

NUR 4951
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

NUR 4952
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.
NUR 4953
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

NUR 4954
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

NUR 4991
INDEPEND STUDY/NURSING
Prerequisites: Departmental permission or NUR 4303. Faculty and student collaborate on the selection, development, and evaluation of an individual project or topic in an area of nursing or health. 15 clock hours per credit hour.

NUR 4992
INDEPEND STUDY/NURSING
Prerequisites: Departmental permission or NUR 4303. Faculty and student collaborate on the selection, development, and evaluation of an individual project or topic in an area of nursing or health. 15 clock hours per credit hour.

NUR 4993
INDEPEND STUDY/NURSING
Prerequisites: Departmental permission or NUR 4303. Faculty and student collaborate on the selection, development, and evaluation of an individual project or topic in an area of nursing or health. 15 clock hours per credit hour.

NUR 4994
INDEPEND STUDY/NURSING
Prerequisites: Departmental permission or NUR 4303. Faculty and student collaborate on the selection, development, and evaluation of an individual project or topic in an area of nursing or health. 15 clock hours per credit hour.

NURN 4002
NURSING INFORMATICS
Prerequisite: Admission to Upper Division or consent of instructor. This practicum course establishes competency in using information resources within a professional nursing context. The course incorporates utilizing online resources available at ATU, Arkansas state, federal, and organizational web sites. In addition to becoming familiar with these resources, the student will identify and utilize online health-related resources.
NURN 4003
SCOPE/PROFESSIONAL PRACT
Prerequisite: Admission to Upper Division or consent of instructor. This course will enable the RN-BSN student to recognize how history and modern economic forces have shaped current professional practice. The student will examine the development of Nurse Practice Acts and how states use these Acts to manage professional licenses and scope of professional practice. The student will examine the variety of roles and setting in which the professional nurse can work.

NURN 4013
LAW/ETHIC/ISS/PROF/NURS
Prerequisite: Admission to Upper Division or consent of instructor. This course will enable the RN-BSN student to examine the legal, ethical, and policy-making traditions that frame the health care industry. This course will emphasize the integration of personal values, institutional cultures, law, and ethical decision-making in professional practice.

NURN 4024
COMMUNITY HEALTH NURSING
Prerequisite: Admission to Upper Division or consent of instructor. This course will introduce the RN-BSN student to the concepts and principles relevant to the promotion, support, and restoration of health for clients of all ages in a variety of settings with particular emphasis upon the health of populations or groups. The student will perform a community assessment which involves the collection and analysis of data from a selected community to plan appropriate educational interventions.

NURN 4034
LEADERSHIP & MANAGEMENT
Prerequisite: Admission to Upper Division or consent of instructor. This course will enable the RN-BSN student to recognize the principles and concepts of change theory and leadership/management strategies in professional practice. The student will examine how current leadership and management strategies are implemented within the health care settings and how effective and efficient these strategies are to health care delivery and consumer health. Management and leadership issues significant to nurse managers will be examined and discussed.

NURN 4045
PROF PRACTICUM SYNTHESIS
Prerequisite: NURN 4024 and admission to Upper Division or consent of instructor. This practicum course enables the RN-BSN student to integrate the skills and insights gained from this program in a population or group-based application. This capstone course demonstrates the cognitive and affective growth achieved while in the RN-BSN Completion Program.

NURN 4303
NURSING RESEARCH
Prerequisite: NUR 3606, 3703, and 3805. This introductory research course focuses on the validity and applicability of research findings for the improvement of nursing practice. Emphasis is on scientific inquiry and the role of the nurse as an intelligent consumer of research.

PE 1051
VOLLEYBALL
Designed for beginning volleyball players. The student will learn the fundamental skills, knowledge of the rules, and terminology associated with volleyball.

**PE 1101**  
**FOLK/SQUARE DANCE**

Course content will include the origin and factors which influence development of folk and square dance. Basic steps, basic positions, and dance movements will be introduced to the students.

**PE 1121**  
**SOCIAL DANCE**

Techniques of leading and following, basic positions, and a variety of dance steps will be introduced throughout the course.

**PE 1201**  
**ORIENTATION/HPE AND WS**

This course provides an introduction to the HPE/WS curriculum, as it affects the student. Emphasis will be given to resources, services and opportunities available to the student through the University, which will help him or her grow as a professional. This is a pass or fail class.

**PE 1301**  
**BEGINNING BALLET I**

These courses are designed for those students that have little or no ballet training but have an interest in pursuing dance. Ballet forms the basis for all dance arts and offers specific training in all muscle groups of the body. These courses offer students beginning-level technical and performance training in ballet. Flexibility, strength, body alignment and coordination lay a foundation for the introduction of more advanced aspects of dance artistry including more difficult steps, musicality, mobility, and balance.

**PE 1311**  
**BEGINNING BALLET II**

These courses are designed for those students that have little or no ballet training but have an interest in pursuing dance. Ballet forms the basis for all dance arts and offers specific training in all muscle groups of the body. These courses offer students beginning-level technical and performance training in ballet. Flexibility, strength, body alignment and coordination lay a foundation for the introduction of more advanced aspects of dance artistry including more difficult steps, musicality, mobility, and balance.

**PE 1321**  
**INTERMEDIATE BALLET I**

These courses offer intermediate level training in ballet technique and performance for proficient dancers. It stresses the physical and mental skills necessary to make the transition to more advanced dance work. These include physical stamina, strength, flexibility, articulation, coordination, musicality, and phrasing; an understanding of basic physical concepts underlying clear and efficient movement; the capacity to assimilate new movement material; and an awareness of the center of gravity and its role in the mobilization and control of the body.

**PE 1331**  
**INTERMEDIATE BALLET II**
These courses offer intermediate level training in ballet technique and performance for proficient dancers. It stresses the physical and mental skills necessary to make the transition to more advanced dance work. These include physical stamina, strength, flexibility, articulation, coordination, musicality, and phrasing; an understanding of basic physical concepts underlying clear and efficient movement; the capacity to assimilate new movement material; and an awareness of the center of gravity and its role in the mobilization and control of the body.

PE 1341
INTERMEDIATE BALLET III
These courses offer intermediate level training in ballet technique and performance for proficient dancers. It stresses the physical and mental skills necessary to make the transition to more advanced dance work. These include physical stamina, strength, flexibility, articulation, coordination, musicality, and phrasing; an understanding of basic physical concepts underlying clear and efficient movement; the capacity to assimilate new movement material; and an awareness of the center of gravity and its role in the mobilization and control of the body.

PE 1351
INTERMEDIATE BALLET IV
These courses offer intermediate level training in ballet technique and performance for proficient dancers. It stresses the physical and mental skills necessary to make the transition to more advanced dance work. These include physical stamina, strength, flexibility, articulation, coordination, musicality, and phrasing; an understanding of basic physical concepts underlying clear and efficient movement; the capacity to assimilate new movement material; and an awareness of the center of gravity and its role in the mobilization and control of the body.

PE 1361
ADVANCED BALLET I
These courses are a continuation and refinement of the skills achieved in Intermediate Ballet I-IV. The courses offer advanced level training in ballet technique and performance for proficient dancers. They stress the physical and mental skills necessary to make the transition to professional dance work. These include physical stamina, strength, flexibility, articulation, coordination, musicality, and phrasing; an understanding of basic physical concepts underlying clear and efficient movement; the capacity to assimilate new movement material; and an awareness of the center of gravity and its role in the mobilization and control of the body.

PE 1371
ADVANCED BALLET II
These courses are a continuation and refinement of the skills achieved in Intermediate Ballet I-IV. The courses offer advanced level training in ballet technique and performance for proficient dancers. They stress the physical and mental skills necessary to make the transition to professional dance work. These include physical stamina, strength, flexibility, articulation, coordination, musicality, and phrasing; an understanding of basic physical concepts underlying clear and efficient movement; the capacity to assimilate new movement material; and an awareness of the center of gravity and its role in the mobilization and control of the body.

PE 1401
ARCHERY/RECREATION GAMES
The student will learn the fundamental skills in archery, including care and selection of archery tackle. Recreational games will include table tennis, giant volleyball, three way volleyball, box hockey, pin ball, scooter soccer, variety ball, indoor soccer, and horse shoes.

PE 1411
BADMINTON
Designed for beginning badminton players. The student will learn the fundamental skills and a knowledge of the rules and terminology associated with badminton.

**PE 1431**  
**BOWLING**

The bowling classes are structured for the beginning bowler. Fundamental skills and general bowling knowledge and etiquette will be introduced to the student. ($77.50 fee).

**PE 1481**  
**TENNIS**

Constructed to aid the beginning tennis player to learn the fundamental skills for tennis. The student will gain a knowledge of the rules and strategy in tennis.

**PE 1851**  
**TENNIS/BASKETBALL**

Designed for the average student. Fundamentals in basketball and tennis will be introduced along with knowledge of the rules and strategies of play.

**PE 1901**  
**BEGINNING SWIMMING**

This course is designed for students who cannot swim 25 yards on front and 25 yards on back (any form), and/or students who are afraid of water. Introduction to various aquatic activities is included.

**PE 1911**  
**INTERMEDIATE SWIMMING**

Students who are comfortable in deep water and are able to swim 25 yards on front and 25 yards on back (any form) may enroll in this course. Application of intermediate skills through various forms of aquatic activities is included.

**PE 1991**  
**RACQUETBALL**

Designed to introduce the rules and strategy of racquetball and develop the basic skills needed to play racquetball successfully.

**PE 2101**  
**METH TEACHING TEAM ACTV**

This course is designed to assist in teaching students to be skilled and knowledgeable in selected team activities. Emphasis will be placed on developing and evaluating the student's skills and knowledge.
PE 2111
METH TEACHING/INDIV ACTV
This course is designed to assist in teaching students to be skilled and knowledgeable in selected individual activities. Emphasis will be placed on developing and evaluating the student's skills and knowledge.

PE 2301
BEGINNING GOLF
Designed for individuals who wish to learn the basic fundamentals in golf. Course includes the fundamentals of the full swing and the fractional swing in golf. It also includes the knowledge of rules and courtesies of golf.

PE 2513
FIRST AID
Each semester. Standard and advanced course in first aid. This course includes CPR instruction.

PE 2523
FOUNDATIONS HEALTH/PE
A study of history, philosophy, and principles of health and physical education in grades K 12 as applied to each area.

PE 2653
ANATOMY/PHYSIOLOGY
Prerequisite: BIOL 1014 or permission of department head. The structure and function of the human body with emphasis on the bodily systems important to teachers and practitioners of wellness, fitness, and physical education.

PE 2861
RHYTHMIC AEROBICS ACTV
This course will include motor skills put to music, rope jumping, step aerobics, kickboxing, senior fitness, childrens fitness, sport aerobics, sculpting, and aerobic dance activities.

PE 2921
WATER SAFETY INSTRUCT
Prerequisite: PE 1911 or equivalent skills. This course is designed to train and certify students as American Red Cross swim instructors.

PE 2932
LIFEGUARD TRAINING
Prerequisite PE 1911 or equivalent skills. This course is designed to train students as lifeguards.

PE 2941
SCUBA DIVING I
This course is designed to serve as an introduction to scuba. Course will include classroom work and laboratory (pool) practice. Student must provide mask, snorkel, fins, weight belt, and weights. (Rental fee paid to rental company for use of scuba equipment including tank, regulator, alternate air source, submersible pressure gauge, depth gauge, underwater compass, buoyancy control device with automatic inflator, and air fills. Rental fee is currently $100 and is subject to change.)

PE 2951
SCUBA DIVING II
Prerequisite: Open Water Diver certified or equivalent (see instructor for equivalency). This course will contain the advanced scuba skills set forth by the Professional Association of Diving Instructors (PADI). The course will include techniques for: diving at night, in limited visibility, in deeper waters, and underwater search and light salvage. Field trips (lake dives) are required for certification as an Advanced Open Water Diver. Students must provide all equipment. (See instructor for equipment list). (Rental fee paid to rental company for use of scuba equipment including tank, regulator, alternate air source, submersible pressure gauge, depth gauge, underwater compass, buoyancy control device with automatic inflator, and air fills. Rental fee is currently $100 and is subject to change.) ($50 fee includes certification processing and open water training.)

PE 3051
METH TCH FIT/WELL CONCEP
This course is designed to provide the student with knowledge needed to implement a sound fitness and wellness program that will yield the desired results. The emphasis is on teaching students how to take control of their own personal health and lifestyle habits so that they can make a deliberate effort to stay healthy and achieve the highest potential for well-being. $10 Tech Fit fee.

PE 3101
METH TCH RHYTHM GYM MOV
Methods and activities to develop rhythm, folk dance, and gymnastic skills related to teaching physical education. Laboratory two hours.

PE 3103
METH TCH MOV PA ACT CHIL
Prerequisite: Admission to Stage II or permission of department head. Methods and activities to develop basic movement patterns, primary and lead-up game skills, and knowledge related to teaching elementary physical education. Lecture one hour, laboratory four hours.

PE 3413
COACHING THEORY
The course exposes students to the theory of coaching, relevant to athletics. Emphasis is placed on organization, management, and content involved in coaching a variety of sports.

PE 3512
COACH STR: FTBALL/BASEBL
Principles of coaching football and baseball, including off-season training programs, team organization, offense, defense, scouting, and use of visual aids. One hour lecture and one hour laboratory.

**PE 3522**  
**COACH STR: BKTBAL/TRK/FLD**  
Principles of in-season and off-season training programs and team organization for track and field. Additionally, the course is designed to provide a systematic process for teaching basketball skill development and team strategies. Emphasis on fundamental skills and drills, rules and evolution of the game, offensive and defensive strategies used by various successful coaches are introduced. Extensive use of floor demonstrations and video presentations enhance the course content. One hour lecture and one hour laboratory.

**PE 3532**  
**COACH STR: SFTBAL/VOLBAL**  
This course will offer information relative to the following topics for both volleyball and softball: in-season and off-season training programs, team organization, offense, defense, special situations, scouting, and use of visual aids. One hour lecture and one hour laboratory.

**PE 3573**  
**PREVENT/CARE/ATHLE INJUR**  
Prerequisites: PE 2653, 3663. Development of techniques in prevention and treatment of athletic injuries.

**PE 3583**  
**MET/MAT PE/REC K & EL**  
Prerequisite: PE 3103. Methods, materials, supervision, school problems, rhythmical activities, movements exploration, and group games for kindergarten and elementary teachers. Lecture two hours, laboratory two hours.

**PE 3603**  
**METH/MAT/PE SEC SCHOOLS**  
Prerequisites: PE 2101, PE 2111 and admission to Stage II. A course in program planning and techniques of teaching physical education in the secondary schools, critical analysis of methods now in use in physical education, and criteria for evaluation of programs. Lecture two hours, laboratory two hours.

**PE 3661**  
**LAB EX ANAT/PHYSIO/KIN**  
Prerequisite: PE 2653 or permission of department head. The laboratory experience supplements Anatomy/Physiology and Kinesiology by providing practical experiences which enable students to bridge the gap between theory and practice.

**PE 3663**  
**KINESIOLOGY**
Prerequisite: PE 2653. Study of human movement and the physical and physiological principles upon which it depends. Body mechanics, posture, motor efficiency and the influence of growth and development upon motor performance.

**PE 4033**
**BASIC EXER PHYSIOLOGY**

Prerequisites: PE 2653, 3663, and 3661, or permission of the department head. Introduction to the basic effects of exercise on physiology of the systems of the body, and the principles of exercise prescriptions and programs.

**PE 4103**
**PRIN/METH/ADAPT PHY ED**

Principles and methods of teaching special students with various types of physical and mental disabilities which require adapting the learning process.

**PE 4203**
**METH/TCH ADAPTATED PE/SCH**

Prerequisites: PE 3103, PE 3583 or permission of the department head. Principles and methods of teaching students with disabilities in the schools. Lecture two hours, laboratory two hours.

**PE 4513**
**ORG/ADMIN OF HEALTH/PE**

Organization and administration problems in grades K 12 to be treated as a single administrative unit.

**PE 4523**
**MEAS/EVAL/HEALTH & PE**

Prerequisite: Admission to Stage II or permission from department head. Research methods, measurement, and evaluation in health, physical education, and recreation with an analysis of their practical application.

**PE 4701**
**SPECIAL METHODS/HPE**

Prerequisites: Admission to student teaching phase of the teacher education program and concurrent enrollment in SEED 4809. Intensive on campus exploration of the principles of curriculum construction, teaching methods, use of community resources, and evaluation as related to teaching health and physical education.

**PE 4991**
**SPEC PROB/PE**

Prerequisite: PE 4523. Open to physical education majors and minors of outstanding ability. Course content will include readings and research and the setting up and carrying out of a piece of research which will include review of literature, the problem, and conclusion.
PE 4992
SPEC PROB/PE
Prerequisite: PE 4523. Open to physical education majors and minors of outstanding ability. Course content will include readings and research and the setting up and carrying out of a piece of research which will include review of literature, the problem, and conclusion.

PE 4993
SPEC PROB/PE
Prerequisite: PE 4523. Open to physical education majors and minors of outstanding ability. Course content will include readings and research and the setting up and carrying out of a piece of research which will include review of literature, the problem, and conclusion.

PE 4994
SPEC PROB/PE
Prerequisite: PE 4523. Open to physical education majors and minors of outstanding ability. Course content will include readings and research and the setting up and carrying out of a piece of research which will include review of literature, the problem, and conclusion.

PHIL 2003
INTRO TO PHILOSOPHY
A survey of basic problems in the major areas of philosophical inquiry-metaphysics, epistemology, ethics, esthetics, and philosophy of religion.

PHIL 2013
RELIGIONS OF THE WORLD
An examination of the major historical religions according to their basic scripture, their historical development, and their contemporary ideas and practices.

PHIL 2043
HONORS INTRO TO PHILOSOPHY
Prerequisites: Admission to University Honors or permission of University Honors Director. A survey of basic problems in the major areas of philosophical inquiry-metaphysics, epistemology, ethics, esthetics, and philosophy of religion. Special emphasis will be placed on critical thinking and in-class discussion.

PHIL 3003
ANCIENT PHILOSOPHY
An examination of the thought of the leading philosophers of ancient Greece and Rome - the Pre Socratics, Socrates, Plato, Aristotle, and representatives of the Stoic and Epicurean traditions.
PHIL 3013
MODERN PHILOSOPHY
A survey of the history of philosophical thought and its impact upon western civilization from the Renaissance to the twentieth century.

PHIL 3023
ETHICS
An introduction to the problems of formulating and validating principle definitive of "the good" in respect to ends, means, and norms of human behavior.

PHIL 3033
ESTHETICS
An investigation of representative historical theories of beauty, the nature and social significance of art, standards of criticism, and epistemological aspects of the creative process.

PHIL 3053
PHILOSOPHY OF RELIGION
A consideration of historical and contemporary studies in religious thought basic conceptions of the divine, the human engagement with the divine, and the nature and destiny of man within diverse eschatological perspectives.

PHIL 3063
MODERN POLITICAL THOUGHT
An examination of the major contributions to political thought during the Modern Era. Completion of POLS 2253 recommended.

PHIL 3103
LOGIC
A study of the principles of deductive reasoning. Topics include immediate inference, the syllogism, truth functions, natural deduction, quantification, and fallacies.

PHIL 3113
CONTEMPORARY PHIL
A survey of some of the major philosophical trends of the twentieth century.
Historical study of the main philosophical ideas of the period from St. Augustine to the Renaissance.

PHIL 3253
CLASSICAL POLITICAL THOUGHT
An examination of the major contributions to political thought during the Classical Age, the Medieval Era, and the Renaissance. Completion of POLS 2253 recommended.

PHIL 4093
AMERICAN PHILOSOPHY
An examination of the main currents of American philosophical and religious thought from the earliest times to the present.

PHIL 4103
ADVANCED LOGIC
Prerequisite: PHIL 3103. A study of selected topics in advanced logic. Emphasis will be placed on proof theory, quantification theory, semantic tableaux, logicism, theories of completeness and consistency, and some consideration of the logical foundations of mathematics.

PHIL 4951
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

PHIL 4952
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

PHIL 4953
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

PHIL 4954
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.
PHIL 4991
SPEC PROB/PHIL
Admission requires consent of department head.

PHIL 4992
SPEC PROB/PHIL
Admission requires consent of department head.

PHIL 4993
SPEC PROB/PHIL
Admission requires consent of department head.

PHIL 4994
SPEC PROB/PHIL
Admission requires consent of department head.

PHSC 1001
ORIENT/PHYSICAL SCIENCE
Introduction to vital university affairs, department and university resources and curriculum. The course emphasizes information and skills that increase a student's likelihood of a successful college career. All students majoring in programs within the Department of Physical Sciences are strongly encouraged to take this course during their first fall semester on the Arkansas Tech University campus. Lecture one hour.

PHSC 1004
PRIN ENVIRONMENTAL SCI
This course is designed to bring the student to a basic but informed awareness of and responsible behavior toward our environment and the role of the human race therein. The content will include a study of the philosophical and scientific basis for the study of ecosystems and the environment, the nature of ecosystems, the techniques used to study the environment, the origin and development of current environmental problems, the interdisciplinary nature of environmental studies, the processes of critical thinking and problem solving, and the moral and ethical implications of environmentally-mandated decisions. Lecture three hours, Lab three hours. $20 laboratory fee.

PHSC 1011
ORIENT/PHYSICAL SCIENCE II
Continuation of PHSC 1001. Introduction to programs of study and employment opportunities for students of the physical sciences. All students majoring in programs within the Department of Physical Sciences are strongly encouraged to take this course during their spring semester on the Arkansas Tech University campus.
PHSC 1013
INTRO PHYSICAL SCIENCE
Each semester. Prerequisite: A score of 19 or above on the mathematics section of the ACTE exam or completion of MATH 0903, Intermediate Algebra, with a grade of "C" or better. An introduction to the natural laws governing the physical world, with emphasis upon the discovery and development of these laws and their effect upon man. Includes topics in physics and chemistry and may include other topics from other disciplines in physical science such as astronomy, meteorology, and/or geology. May not be taken for credit after completion of two laboratory courses in the physical science disciplines. Lecture three hours. Note: To enroll in an internet section (TC1) of this course, the prerequisite COMS 1003 or equivalent is required.

PHSC 1021
PHYSICAL SCIENCE LAB
Each semester. To be taken concurrent with or following completion of PHSC 1013. An introduction to laboratory experiences in the physical sciences, including physics, chemistry, earth sciences, and astronomy. Laboratory two hours. $10 laboratory fee. Note: To enroll in an internet section (TC1) of this course, the prerequisite COMS 1003 or equivalent is required.

PHSC 1031
HONORS PHYSICAL SCIENCE LAB
Introduction to Physical Sciences for the Honors program including topics from physics, chemistry, geology, astronomy, and meteorology. Must be accepted into ATU Honors program to enroll. $10 lab fee.

PHSC 1033
HONORS INTRO PHYSICAL SCIENCE
Prerequisites: Admission to University Honors or permission of instructor. An introduction to the natural laws governing the physical world, with emphasis upon the discovery and development of these laws and their effect upon man. Specific topics are selected from disciplines of physics, chemistry, astronomy, geology, and meteorology.

PHSC 1051
OBSERVATIO/ASTRONOMY LAB
Fall. Prerequisite: A score of 19 or above on the mathematics section of the ACTE exam or completion of MATH 0903 with a grade of "C" or better. Corequisite: PHSC 1053 or consent of instructor. An introduction to astronomical observations and techniques. Students will have the opportunity to use telescopes at the ATU astronomical observatory (weather permitting) to make observations and collect scientific data for analysis. This course includes telescope orientation, constellation recognition, identifying celestial objects, and interpreting astronomical data. When taken concurrently with PHSC 1053, this course satisfies the general education physical science laboratory requirement upon successful completion of both courses. Course PHSC 1051 will run simultaneously with PHSC 3051 and duplicate credit will not be allowed. Credit for PHSC 3051 requires completion of an observational research project for upper division students, but is not required of students enrolled in PHSC 1051. Laboratory 3 hours; 1 credit hour. $10 laboratory fee.

PHSC 1053
ASTRONOMY
Fall. Prerequisite: A score of 19 or above on the mathematics section of the ACTE exam or completion of MATH 0903 with a grade of "C" or better. Corequisite: PHSC 1051 or consent of instructor. A study of our universe; constellations, celestial motions, tools and methods of astronomical observations, the solar system, properties of stars and the interstellar medium, the birth, life and death of stars, our Milky Way galaxy, dynamics of stellar systems and other galaxies, and cosmology. When taken concurrently with PHSC 1051, satisfies general education physical science laboratory requirement upon successful completion of both courses. Course PHSC 1053 will run simultaneously with PHSC 3053 and duplicate credit will not be allowed. Credit for PHSC 3053 requires completion of several assignments, a term paper and a research project for upper division students, but is not required of students enrolled in PHSC 1053. Lecture three hours.
PHSC 1074
PHYSICAL SCIENCE INQUIRY

Each Semester. Prerequisite: A score of 19 or above on the mathematics section of the ACTE exam or the completion of MATH 0903, Intermediate Algebra, with a grade of "C" of better. This course is designed to model physical science teaching and learning through the process of inquiry. Topics explored are Interactions and Energy, Forces, Systems, Behavior of Gases, Physical Changes, and Chemical Changes. The focus is upon the construction of knowledge regarding science content and process skills essential to the preparation of teachers of physical science in early childhood education. It is recommended for early childhood education majors seeking to fulfill undergraduate requirements in preparation for upper level science methods courses and is equivalent to 3 hours of lecture and 3 hours of laboratory experience in physical science. However, the course requires that students participate as active learners in an activity-based, cooperative learning style curriculum. $10 laboratory fee.

PHSC 3033
METEOROLOGY

Fall. Prerequisite: PHSC 1013 or PHYS 2014 or CHEM 1114 or CHEM 2124. A study of the weather, the physics of the atmosphere, and associated phenomena. Lecture three hours.

PHSC 3051
OBSERVATION/ASTRONOMY LAB

Spring. Prerequisite: MATH 1113; Corequisite: PHSC 3053 or consent of instructor. An introduction to astronomical observations and techniques. Students will have the opportunity to use telescopes at the ATU astronomical observatory (weather permitting) to make observations and collect scientific data for analysis. This course includes telescope orientation, constellation recognition, identifying celestial objects, and interpreting astronomical data. When taken concurrently with PHSC 3053, this course satisfies the general education physical science laboratory requirement upon successful completion of both courses. Credit for PHSC 3051 requires completion of an observational research project for upper division students. Laboratory 3 hours; 1 credit hour. $10 laboratory fee.

PHSC 3053
ASTRONOMY

Spring. Prerequisite: MATH 1113; Optional corequisite; PHSC 3051 or consent of instructor. A study of our universe; constellations, celestial motions, tools and methods of astronomical observations, the solar system, properties of stars and the interstellar medium; the birth, life and death of stars, our Milky Way galaxy, dynamics of stellar systems and other galaxies, and cosmology. When taken concurrently with PHSC 3051, satisfies general education physical science laboratory requirement upon successful completion of both courses. Credit for PHSC 3053 requires completion of a term paper and a research project for upper division students. Duplicate credit for previously offered PHSC 3043 is not allowed. Lecture three hours.

PHSC 3213
SCI EDUC IN ELEM SCHOOL

Each semester. Prerequisites: Junior standing, ECED 2001, ECED 2002, and at least six credit hours in science. An overview of the most recent and research-based strategies and techniques for planning, teaching, and assessing elementary science. Inquiry-based methods and other constructivist approaches as described in the National Science Education Standards will be emphasized. Design and execution of learning activities for an elementary school setting are required. Lecture two hours, laboratory two hours; three credit hours. $10 laboratory fee. Note: To enroll in an internet section (TC1 or AT1) of this course, one of these prerequisite courses is required: COMS 1003, EDMD 3013, or equivalent.

PHSC 3223
SCI ED MIDDLE LEVEL

Spring. Prerequisites: 16 hours in science and MLED 2001. This course is designed to provide pre-service teachers with an integrated approach to the teaching of science in the middle grades. Theoretical and practical aspects of teaching science will be explored and students will develop curricular materials based on their explorations. Lecture two hours, laboratory 2 hours. $10 laboratory fee.
PHSC 3233
SCI EDUC IN SEC SCHOOL
Fall. Prerequisites: 16 hours in biology or 16 hours in physical science and SEED 2002. This course will examine the issues of nature and history of science, developing lessons and assessments, and science education standards for the prospective secondary school teacher. Curriculum development, including assessment and planning skills, utilizing various instructional media and inquiry methodology are emphasized. Design and execution of learning activities for a secondary school setting are required. Lecture two hours and lab two hours. $10 laboratory fee.

PHSC 3252
NATURE/CONTEXT OF SCI
Prerequisite: At least 12 hours of science courses. This seminar course examines science from a holistic perspective. It will concentrate on examining how current science develops scientific knowledge including unifying concepts across scientific disciplines, the place of science within modern society, technology and its role in science and society, and current scientific methodology.

PHSC 4003
HISTORY/PHIL SCIENCE
Prerequisite: a Sophomore-level science course (or higher). A course in the historical development and philosophical basis of modern science. May not be repeated for credit as PHSC (BIOL) 5003 or equivalent. Lecture two hours.

PHSC 4013
MULTICULTURAL SCIENCE ED
On demand. Prerequisites: Junior standing or admission to teacher education program. A course designed to familiarize prospective teachers with the materials, methods, and procedures to meet the needs of culturally diverse learners in the science classroom. This course includes the discussion of equity issues, the limitations of Eurocentric and androcentric science worldviews, how culturally diverse students learn science, instructional strategies, technology, and alternative assessment. Lecture three hours for three credit hours.

PHSC 4701
SPECIAL METHODS/PHSC
Prerequisites: Admission to student teaching phase of the teacher education program and concurrent enrollment in SEED 4909. Intensive on campus exploration of the principles of curriculum construction, teaching methods, use of community resources, and evaluation as related to teaching physical science.

PHYS 1114
APPLIED PHYSICS
Fall. A survey of selected topics in physics. The "scientific method", mechanics, fluid mechanics, heat, electricity, sound, light, and nuclear radiation will be studied. May not be taken for credit after completion of PHYS 2014, PHYS 2024, PHYS 2114, or PHYS 2124. Lecture three hours, laboratory three hours. $10 laboratory fee.

PHYS 2000
PHYSICS LABORATORY I
Corequisite: PHYS 2014 or PHYS 2114.
PHYS 2010
PHYSICS LABORATORY II

Corequisite: PHYS 2024 or PHYS 2124.

PHYS 2014
PHYSICAL PRINCIPLES I

Fall, and summer (On demand). Concurrent enrollment in PHYS 2000 is required. Prerequisite: A grade of C or better in MATH 1113 or consent of the instructor. Open to freshmen. A broad survey course emphasizing the understanding of the principles of physics necessary for students not specifically interested in advanced work in physics, chemistry or engineering. Topics include mechanics, heat, sound, wave motion, and fluid mechanics. Lecture three hours, laboratory three hours. $10 laboratory fee.

PHYS 2024
PHYSICAL PRINCIPLE II

Spring, and summer (On demand). Concurrent enrollment in PHYS 2010 is required. Prerequisite: PHYS 2014 or permission of instructor. Continuation of PHYS 2014, covering electricity and magnetism, light, relativity, particle physics, and quantum effects. Lecture three hours, laboratory three hours. $10 laboratory fee.

PHYS 2114
GENERAL PHYSICS I

Fall. Concurrent enrollment in PHYS 2000 is required. Pre or co requisite: MATH 2924. Introductory mechanics, heat and thermodynamics, kinetic theory, and sound. Lecture three hours, laboratory three hours. $10 laboratory fee.

PHYS 2124
GENERAL PHYSICS II

Spring. Concurrent enrollment in PHYS 2010 is required. Prerequisite: Permission of instructor; pre or corequisite: MATH 2934. Introductory electricity and magnetism, wave motion, optics, and elementary quantum concepts. Lecture three hours, laboratory three hours. $10 laboratory fee.

PHYS 3001
COLLOQUIUM

On demand. Prerequisite: Junior standing. Attendance required of students interested in physics concentration. Discussion of advanced topics in current physical theory. Student presentations are required. Lecture discussion one hour.

PHYS 3003
OPTICS

Spring even years. Prerequisite: PHYS 2124 or consent of instructor. Introduction to geometrical and physical optics. Lecture two hours, laboratory two hours. $10 laboratory fee.
PHYS 3011
COLLOQUIUM

On demand. Prerequisite: Junior standing. Attendance required of students interested in physics concentration. Discussion of advanced topics in current physical theory. Student presentations are required. Lecture discussion one hour.

PHYS 3023
MECHANICS

Fall even years. Prerequisite: PHYS 2114. Co requisite: MATH 3243. The conservation laws. Euler's angles. Lagrange's and Hamilton's equations. Lecture three hours.

PHYS 3033
RADIATION HEALTH PHYSICS

On demand. Prerequisites: PHSC 1013, PHYS 2014 or CHEM 2124. Theory and exercises in radiological monitoring techniques, neutron activation analysis, and environmental effects of nuclear reactors. Lecture three hours.

PHYS 3042
INTERMEDIATE PHYSICS LAB

Fall odd years. Prerequisite: PHYS 2114 and 2124. For physical science education majors. This course expands and refines essential content and laboratory skills through the modeling and experimental investigation of topics in both classical and modern physics. Will not satisfy the physics elective requirement for students majoring in physical science. Laboratory three hours. $10 laboratory fee.

PHYS 3133
THEORY/ELEC/MAGNETISM I

Spring even years. Prerequisite: PHYS 2124. Gauss's law, potential, Laplace's and Poisson's equations in rectangular, cylindrical, and spherical coordinates, inductance, capacitance, moving charges, dielectric phenomena, and Maxwell's equations. Lecture three hours.

PHYS 3143
ELECTRONICS

On demand. Prerequisite: PHYS 2124 or ELEG 2113. Amplifiers, power supplies, oscillators, trigger circuits, modulation, and demodulation. Intended to acquaint students with the working principles of the equipment they will use as a physicist. Lecture two hours, laboratory three hours. $10 laboratory fee.

PHYS 3153
SOLID STATE PHYSICS

Fall odd years. Prerequisites: PHYS 2114, 2124; CHEM 2124. Corequisite: MATH 3243. An introduction to the physics governing the crystalline state of matter. Modern theories describing lattice vibrations, energy bands, crystal binding, and optical properties are presented. These ideas are then applied to the understanding of technologically important areas such as superconductivity, doped semiconductors, ferroelectric materials, and photorefractivity. Lecture 3 hours.
PHYS 3213
MODERN PHYSICS
Spring odd years. Prerequisite: PHYS 2124. Introduction to relativity, wave-particle interactions, atomic structure, quantum mechanics, quantum theory of the hydrogen atom, statistical mechanics, nuclear structure, and elementary particles. Lecture 3 hours.

PHYS 3991
SP PROB/PHYSIC/ASTRONOMY
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to significant problems in physics and astronomy. Supervised by faculty member. Formal report and presentation required. One to three credits depending on problem selected and effort made.

PHYS 3992
SP PROB/PHYSIC/ASTRONOMY
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to significant problems in physics and astronomy. Supervised by faculty member. Formal report and presentation required. One to three credits depending on problem selected and effort made.

PHYS 3993
SP PROB/PHYSIC/ASTRONOMY
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to significant problems in physics and astronomy. Supervised by faculty member. Formal report and presentation required. One to three credits depending on problem selected and effort made.

PHYS 4001
COLLOQUIUM
On demand. Prerequisite: Junior standing. Attendance required of students interested in physics concentration. Discussion of advanced topics in current physical theory. Student presentations are required. Lecture discussion one hour.

PHYS 4003
THERMODYNAM/STAT MECH
Fall even years. Prerequisite: PHYS 2124, Pre or corequisite: MATH 3243. Applications of the three laws of thermodynamics, partition functions and transport phenomena. Lecture three hours.

PHYS 4011
COLLOQUIUM
On demand. Prerequisite: Junior standing. Attendance required of students interested in physics concentration. Discussion of advanced topics in current physical theory. Student presentations are required. Lecture discussion one hour.
PHYS 4013
QUANTUM MECHANICS

Fall odd years. Prerequisites: PHYS 3213 and MATH 3243. A formal course in wave and matrix mechanics, designed to enable a student to set up and solve the elementary practical problems of quantum mechanics. Lecture three hours.

PHYS 4113
ADV PHYSICS LABORATORY

Spring odd years. Prerequisite: PHYS 3213. An application and investigation of advanced physical topics in the laboratory. Techniques of experimental [engineering] physics, such as computerized instrumentation, vacuum technology, optics, and electron optics will be applied to investigate various areas of advanced physics. Proper data reduction and analysis will be used to yield meaningful measurements. Intended as a culminating course, previous course work is applied to solve problems in the laboratory. Lecture 1 hour, Lab 5 hours. $10 laboratory fee.

PHYS 4213
ADV TOPIC/PHYSIC/ASTRONO

Fall even years. Prerequisite: PHYS 2024 or PHYS 2124. Introduction to relativity, elementary particle physics, quantum dynamics, big-bang cosmology, atomic nucleosynthesis, and large scale structure and exotic states of matter such as black holes. Forces and interactions between the building blocks of matter in addition to cosmological models will be studied to gain insight into the complex universe we observe today. Lecture two hours, laboratory two hours. $10 laboratory fee.

PHYS 4951
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

PHYS 4952
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

PHYS 4953
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

PHYS 4954
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.
PHYS 4991
SP PROB/PHYSIC/ASTRONOMY
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to significant problems in physics and astronomy. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

PHYS 4992
SP PROB/PHYSIC/ASTRONOMY
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to significant problems in physics and astronomy. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

PHYS 4993
SP PROB/PHYSIC/ASTRONOMY
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to significant problems in physics and astronomy. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

PHYS 4994
SP PROB/PHYSIC/ASTRONOMY
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to significant problems in physics and astronomy. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

POLS 2003
AMERICAN GOVERNMENT
Prerequisite: Minimum score of 19 on the English and Reading portions of the ACT or successful completion of ENGL 1013 or equivalent. A study of the principles and practices of American Government, explaining the origin and purpose of our governmental institutions in a broad sense, with consideration given to interstate and national state relations.

POLS 2013
INTRO TO POLITICAL SCIENCE
The basic terms and concepts for the study of political science, including an understanding of democratic and authoritarian political systems and the methods for researching and writing a political science paper. This course is highly recommended for all students interested in political science.

POLS 2153
INTRO/STRATEGIC STUDIES
An introduction to strategic studies focusing on the key theoretical principles that have played a major role in shaping Western understandings of strategy, with particular focus on the United States.
POLS 2253
SURV WESTERN POLITICAL THOUGHT
An introduction to the subfield of political theory, examining the works of major political thinkers from ancient Greece to the present.

POLS 2421
MODEL UN WORKSHOP
Prerequisite: POLS 3433. Participation in the state or regional Model United Nations. Only one of these courses may be taken for credit during a semester. POLS 3421 may be repeated for credit three times.

POLS 2431
MODEL UN WORKSHOP
Prerequisite: POLS 3433. Participation in the state or regional Model United Nations. Only one of these courses may be taken for credit during a semester. POLS 3421 may be repeated for credit three times.

POLS 2513
RESEARCH METHODS I
This course is designed as an introduction to the field of political science research. This course teaches the scientific method as applied to political science, bibliographical aids, and the study and writing of political science. It is a hands-on course where students will use the skills learned to evaluate social science research.

POLS 3013
REC AMER FOR/MIL POL
Prerequisites: POLS 2013 and 3413 recommended. The post World War II environment in which U.S. foreign and military policy functions; emphasis is on the formulation of policy, relationship of foreign policy and domestic affairs, problems of foreign and military policy coordination and control, and the military industrial complex.

POLS 3023
JUDICIAL PROCESS
The structure and operation of the state and national court systems. Emphasis upon the role of the criminal courts in the political system and the consequences of judicial policy making.

POLS 3033
AMER STATE/LOCAL GOVT
A comparative study of the nature of the organization and operation of state and local governments in the United States with emphasis on state and local government in Arkansas.
POLS 3053
INTRO TO PUBLIC ADMIN
A study of public administration with attention devoted to organizational problems and pathology, leadership, communication, control, and the hiring, training, compensating, motivating, and firing of personnel. Numerous case studies are considered.

POLS 3063
MODERN POLITICAL THOUGHT
An examination of the major contributions to political thought during the Modern Era. Completion of POLS 2253 recommended.

POLS 3083
POL PARTIES/INT GROUPS
Prerequisite: POLS 2013. A study of American political parties and interest groups with emphasis on such topics as public opinion, the nature and history of parties and interest groups, organizational structures and procedures, public policy interest, nominations, and elections.

POLS 3093
AMERICAN MUNICIPAL GOVT
A comparative study of the structure, functions, politics, and problems of urban, suburban, and metropolitan governments in the United States, with emphasis on municipal governments in Arkansas.

POLS 3123
AM POLITICAL BEHAVIOR
A study of the individual's decision to participate in American political life and the impact those decisions have on policy formation. The course aims to understand the influences that lead to or retard individual political participation.

POLS 3133
UNITED STATES CONGRESS
Examination of the U.S. Congress in terms of its functions as both a lawmaking institution and a representative institution. Attention to the legislative process, congressional elections, party leadership, and executive-legislative relations.

POLS 3143
THE UNITED STATES PRESIDENCY
Analysis of the role of the presidency in the American political system. Topics include the theoretical and constitutional foundations of the president, the growth of the presidency as an institution, the evolving constitutional, political, and environmental restraints to presidential action, presidential leadership, and historical trends in the relationship between the presidency and the legislative and judicial branches of government.
POLS 3253
CLASSICAL POLITICAL THOUGHT
An examination of the major contributions to political thought during the Classical Age, the Medieval Era, and the Renaissance. Completion of POLS 2253 recommended.

POLS 3403
COMPARATIVE GOVERNMENT
Prerequisite: POLS 2013 recommended. A study of various political systems of the world, such as the governments of Western Europe, socialist or communist systems, and developing world governments. The focus of this course is often adjusted to deal with real world circumstances.

POLS 3413
INTL RELATIONS
Prerequisite: POLS 2013 recommended. A study of the theory and practice of international politics, with special emphasis upon decision making, policy making, the state system, war and arms control, ideology and nationalism, the ecological system, interdependence, the multinationals, and human rights.

POLS 3421
MODEL UN WORKSHOP
Prerequisite: POLS 3433. Participation in the state or regional Model United Nations. Only one of these courses may be taken for credit during a semester. POLS 3421 may be repeated for credit three times.

POLS 3433
UNITED NATIONS
Study of the organization and functioning of the United Nations, significant problems confronting world organization, weaknesses of the UN, and the future of world organization. Students will conduct research and write papers on significant international issues confronting the UN and on the foreign policy of selected members of the UN. Students will participate each week in a mock session of the UN and will attend, at their own expense, the annual session of the Arkansas Model United Nations, which normally meets on Friday and Saturday of the first week in December. Only one Model United Nations course may be taken for credit during a semester. Course offered in fall semester only.

POLS 3473
NATL SECURITY POLICY
Prerequisite: POLS 2013 and 3013 recommended. A study of national security policy making, with an emphasis on current national security issues.

POLS 3513
RESEARCH METHODS II
Prerequisite: POLS 2003 and POLS/HIST 2153 or PSY/SOC 2053. Completion of MATH 1113 recommended. Introduction to elementary descriptive and inferential statistics, with an emphasis on applications in political science.
POLS 4043  
AMERICAN CONSTITUTIONAL LAW  
A comprehensive study of the United States Supreme Court's decisions in the evolution of American Government as seen in the leading cases dealing with judicial review, separation of powers, and federal systems; protection of personal rights, interstate commerce, taxation, and due process of law in economic regulation and control; and civil liberties and civil rights.

POLS 4103  
ENVIRONMENTAL POLITICS  
Prerequisite: POLS 2013 recommended. An examination of environmental issues from a policy perspective. Although scientific questions are involved, emphasis is on the political process of environmental issues. Topics discussed include the actors, their power, limits to their power, and their impact on the environmental policy process. May not be taken after completion of POLS 5103 or equivalent.

POLS 4951  
UNDERGRADUATE RESEARCH  
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

POLS 4952  
UNDERGRADUATE RESEARCH  
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

POLS 4953  
UNDERGRADUATE RESEARCH  
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

POLS 4954  
UNDERGRADUATE RESEARCH  
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

POLS 4963  
SENIOR SEMINAR  
A required course for senior History and Political Science majors. Course content will cover a directed seminar in a specified area of Political Science. Research techniques will be emphasized.
POLS 4971
INTERNSHIP
Prerequisites: Junior or Senior standing, 2.75 grade point average, and consent of department head. A supervised placement in selected agency settings in student/trainee status under professional guidance of both an agency supervisor and a faculty member. Emphasis will be on providing hands-on experience in research, editing, cultural management, public service, or some other area related to the discipline. Written report required and minimum of 100 clock hours of supervision required per credit hour. May be repeated for a maximum of 6 hours credit.

POLS 4972
INTERNSHIP
Prerequisites: Junior or Senior standing, 2.75 grade point average, and consent of department head. A supervised placement in selected agency settings in student/trainee status under professional guidance of both an agency supervisor and a faculty member. Emphasis will be on providing hands-on experience in research, editing, cultural management, public service, or some other area related to the discipline. Written report required and minimum of 100 clock hours of supervision required per credit hour. May be repeated for a maximum of 6 hours credit.

POLS 4973
INTERNSHIP
Prerequisites: Junior or Senior standing, 2.75 grade point average, and consent of department head. A supervised placement in selected agency settings in student/trainee status under professional guidance of both an agency supervisor and a faculty member. Emphasis will be on providing hands-on experience in research, editing, cultural management, public service, or some other area related to the discipline. Written report required and minimum of 100 clock hours of supervision required per credit hour. May be repeated for a maximum of 6 hours credit.

POLS 4974
INTERNSHIP
Prerequisites: Junior or Senior standing, 2.75 grade point average, and consent of department head. A supervised placement in selected agency settings in student/trainee status under professional guidance of both an agency supervisor and a faculty member. Emphasis will be on providing hands-on experience in research, editing, cultural management, public service, or some other area related to the discipline. Written report required and minimum of 100 clock hours of supervision required per credit hour. May be repeated for a maximum of 6 hours credit.

POLS 4975
INTERNSHIP
Prerequisites: Junior or Senior standing, 2.75 grade point average, and consent of department head. A supervised placement in selected agency settings in student/trainee status under professional guidance of both an agency supervisor and a faculty member. Emphasis will be on providing hands-on experience in research, editing, cultural management, public service, or some other area related to the discipline. Written report required and minimum of 100 clock hours of supervision required per credit hour. May be repeated for a maximum of 6 hours credit.

POLS 4976
INTERNSHIP
Prerequisites: Junior or Senior standing, 2.75 grade point average, and consent of department head. A supervised placement in selected agency settings in student/trainee status under professional guidance of both an agency supervisor and a faculty member. Emphasis will be on providing hands-on experience in research, editing, cultural management, public service, or some other area related to the discipline. Written report required and minimum of 100 clock hours of supervision required per credit hour. May be repeated for a maximum of 6 hours credit.

POLS 4981
SOC SCIENCES SEMINAR
A directed seminar in an area of social sciences. The specific focus will depend upon research underway, community or student need, and the unique educational opportunity available. This course may be repeated for credit if course content differs.

**POLS 4982**  
**SOC SCIENCES SEMINAR**

A directed seminar in an area of social sciences. The specific focus will depend upon research underway, community or student need, and the unique educational opportunity available. This course may be repeated for credit if course content differs.

**POLS 4983**  
**SOC SCIENCES SEMINAR**

A directed seminar in an area of social sciences. The specific focus will depend upon research underway, community or student need, and the unique educational opportunity available. This course may be repeated for credit if course content differs.

**POLS 4991**  
**SPEC PROB/POLSC**

Admission requires consent of department head.

**POLS 4992**  
**SPEC PROB/POLSC**

Admission requires consent of department head.

**POLS 4993**  
**SPEC PROB/POLSC**

Admission requires consent of department head.

**POLS 4994**  
**SPEC PROB/POLSC**

Admission requires consent of department head.

**PS 3001**  
**PORTFOLIO DEV FOR PLA**

Prerequisite: the student must have successfully completed 60 hours of credit which includes all general education requirements and 12 hours of coursework after being admitted to the Professional Studies degree. The basis for requesting credit for prior learning is the development of a portfolio with assistance from a faculty advisor. Every student requesting credit for prior learning must enroll in this course and complete a portfolio which demonstrates the college-level learning that has resulted from experiences outside a formal academic framework. The student utilizes this method to document knowledge acquired...
which is equivalent to upper-division college-level credit. Credit for PS 3001 applies only to the Bachelor of Professional Studies degree and cannot be applied toward any other program. Grading is on a Pass/Fail basis.

PS 3003
SPECIAL PROBLEMS

Prerequisites: Completion of the BPS Professional Core and permission of the program advisor. This course will provide an opportunity for the student to facilitate a process for identifying a specific problem in an actual industry or business environment relevant to the student's specialty area. The student will outline a formal plan of action for identifying the problem. The plan must include a broad scan of the specific area/operation selected including the names and titles of the individuals surveyed for input. The end product will be the development of a formal needs assessment which identifies deficiencies or areas of improvement. The needs should be prioritized on the basis of feasibility, cost, and urgency.

PS 3023
PROFESSIONAL COMMUNICATION

Prerequisites: 6 hours of English Composition and COMS 1003 or BUAD 2003. This course supports career fields which require competencies in advanced professional communication. Course includes principles of effective professional communication using technology to generate professionally-prepared materials including formal correspondence, brochures, public relations materials, graphics, and technical documents.

PS 3133
APPL PRIN PERSONNEL MGMT

This course supports the needs of professionals whose career fields require competencies in the area of human resources/personnel management. The focus of the course is on the practical application, essential theories, and process of personnel management from the perspective of a generalist. Course content will include the essential aspects of recruitment, selection, training, legal rights and responsibilities, compensation and appraisal.

PS 4006
CAPSTONE PROJECT

Prerequisite: PS 3003. This course capstones the process conducted in PS 3003 by requiring the student to demonstrate competencies required of a professional in the student's specialty area in an actual business or industry setting. The student will assume a leadership role in presenting the outcomes of the needs assessment to a group of company stakeholders. On the basis of empirical research conducted throughout the assessment process, the student will recommend relevant strategies for addressing the identified problem/s. A review of the literature will serve to either validate or reject the strategies selected. A continuous process improvement model will be developed along with a detailed continuous process improvement plan which must be approved and accepted by all relevant stakeholders. The final component of the course will require the student to demonstrate presentation ability, appropriate leadership styles, critical thinking, and communications skills in a formal presentation of the strategic plan to the group responsible for implementing the strategies.

PS 4201
PLA CREDIT

Prerequisite: PS 3001. Based on a recommendation from the BPS Director/Instructor and reviewed by the dean of Community Education and the Registrar, the portfolio assessment completed in PS 3001 will determine the number of hours that can be awarded for prior learning. This variable-credit course provides the opportunity for the student to enroll in the number of hours that were approved through the portfolio up to a maximum of 12 hours. Regular tuition charges will be applied. Credit for PS 4201-12 applies only to the Bachelor of Professional Studies degree and cannot be applied toward any other program. Grading is on a Pass/Fail basis.

PS 4202
PLA CREDIT

Prerequisite: PS 3001. Based on a recommendation from the BPS Director/Instructor and reviewed by the dean of Community Education and the Registrar, the portfolio assessment completed in PS 3001 will determine the number of hours that can be awarded for prior learning. This variable-credit course
provides the opportunity for the student to enroll in the number of hours that were approved through the portfolio up to a maximum of 12 hours. Regular tuition charges will be applied. Credit for PS 4201-12 applies only to the Bachelor of Professional Studies degree and cannot be applied toward any other program. Grading is on a Pass/Fail basis.

**PS 4203**  
PLA CREDIT  
Prerequisite: PS 3001. Based on a recommendation from the BPS Director/Instructor and reviewed by the dean of Community Education and the Registrar, the portfolio assessment completed in PS 3001 will determine the number of hours that can be awarded for prior learning. This variable-credit course provides the opportunity for the student to enroll in the number of hours that were approved through the portfolio up to a maximum of 12 hours. Regular tuition charges will be applied. Credit for PS 4201-12 applies only to the Bachelor of Professional Studies degree and cannot be applied toward any other program. Grading is on a Pass/Fail basis.

**PS 4204**  
PLA CREDIT  
Prerequisite: PS 3001. Based on a recommendation from the BPS Director/Instructor and reviewed by the dean of Community Education and the Registrar, the portfolio assessment completed in PS 3001 will determine the number of hours that can be awarded for prior learning. This variable-credit course provides the opportunity for the student to enroll in the number of hours that were approved through the portfolio up to a maximum of 12 hours. Regular tuition charges will be applied. Credit for PS 4201-12 applies only to the Bachelor of Professional Studies degree and cannot be applied toward any other program. Grading is on a Pass/Fail basis.

**PS 4205**  
PLA CREDIT  
Prerequisite: PS 3001. Based on a recommendation from the BPS Director/Instructor and reviewed by the dean of Community Education and the Registrar, the portfolio assessment completed in PS 3001 will determine the number of hours that can be awarded for prior learning. This variable-credit course provides the opportunity for the student to enroll in the number of hours that were approved through the portfolio up to a maximum of 12 hours. Regular tuition charges will be applied. Credit for PS 4201-12 applies only to the Bachelor of Professional Studies degree and cannot be applied toward any other program. Grading is on a Pass/Fail basis.

**PS 4206**  
PLA CREDIT  
Prerequisite: PS 3001. Based on a recommendation from the BPS Director/Instructor and reviewed by the dean of Community Education and the Registrar, the portfolio assessment completed in PS 3001 will determine the number of hours that can be awarded for prior learning. This variable-credit course provides the opportunity for the student to enroll in the number of hours that were approved through the portfolio up to a maximum of 12 hours. Regular tuition charges will be applied. Credit for PS 4201-12 applies only to the Bachelor of Professional Studies degree and cannot be applied toward any other program. Grading is on a Pass/Fail basis.

**PS 4207**  
PLA CREDIT  
Prerequisite: PS 3001. Based on a recommendation from the BPS Director/Instructor and reviewed by the dean of Community Education and the Registrar, the portfolio assessment completed in PS 3001 will determine the number of hours that can be awarded for prior learning. This variable-credit course provides the opportunity for the student to enroll in the number of hours that were approved through the portfolio up to a maximum of 12 hours. Regular tuition charges will be applied. Credit for PS 4201-12 applies only to the Bachelor of Professional Studies degree and cannot be applied toward any other program. Grading is on a Pass/Fail basis.

**PS 4208**  
PLA CREDIT
Prerequisite: PS 3001. Based on a recommendation from the BPS Director/instructor and reviewed by the dean of Community Education and the Registrar, the portfolio assessment completed in PS 3001 will determine the number of hours that can be awarded for prior learning. This variable-credit course provides the opportunity for the student to enroll in the number of hours that were approved through the portfolio up to a maximum of 12 hours. Regular tuition charges will be applied. Credit for PS 4201-12 applies only to the Bachelor of Professional Studies degree and cannot be applied toward any other program. Grading is on a Pass/Fail basis.

PS 4209
PLA CREDIT

Prerequisite: PS 3001. Based on a recommendation from the BPS Director/instructor and reviewed by the dean of Community Education and the Registrar, the portfolio assessment completed in PS 3001 will determine the number of hours that can be awarded for prior learning. This variable-credit course provides the opportunity for the student to enroll in the number of hours that were approved through the portfolio up to a maximum of 12 hours. Regular tuition charges will be applied. Credit for PS 4201-12 applies only to the Bachelor of Professional Studies degree and cannot be applied toward any other program. Grading is on a Pass/Fail basis.

PS 4210
PLA CREDIT

Prerequisite: PS 3001. Based on a recommendation from the BPS Director/instructor and reviewed by the dean of Community Education and the Registrar, the portfolio assessment completed in PS 3001 will determine the number of hours that can be awarded for prior learning. This variable-credit course provides the opportunity for the student to enroll in the number of hours that were approved through the portfolio up to a maximum of 12 hours. Regular tuition charges will be applied. Credit for PS 4201-12 applies only to the Bachelor of Professional Studies degree and cannot be applied toward any other program. Grading is on a Pass/Fail basis.

PS 4211
PLA CREDIT

Prerequisite: PS 3001. Based on a recommendation from the BPS Director/instructor and reviewed by the dean of Community Education and the Registrar, the portfolio assessment completed in PS 3001 will determine the number of hours that can be awarded for prior learning. This variable-credit course provides the opportunity for the student to enroll in the number of hours that were approved through the portfolio up to a maximum of 12 hours. Regular tuition charges will be applied. Credit for PS 4201-12 applies only to the Bachelor of Professional Studies degree and cannot be applied toward any other program. Grading is on a Pass/Fail basis.

PS 4212
PLA CREDIT

Prerequisite: PS 3001. Based on a recommendation from the BPS Director/instructor and reviewed by the dean of Community Education and the Registrar, the portfolio assessment completed in PS 3001 will determine the number of hours that can be awarded for prior learning. This variable-credit course provides the opportunity for the student to enroll in the number of hours that were approved through the portfolio up to a maximum of 12 hours. Regular tuition charges will be applied. Credit for PS 4201-12 applies only to the Bachelor of Professional Studies degree and cannot be applied toward any other program. Grading is on a Pass/Fail basis.

PS 4951
UNDERGRADUATE RESEARCH

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

PS 4952
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**PS 4953**
**UNDERGRADUATE RESEARCH**

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**PS 4954**
**UNDERGRADUATE RESEARCH**

On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**PSY 2003**
**GENERAL PSYCHOLOGY**

An introduction to basic concepts in the study of behavior and to elementary principles of genetics, individual differences, motivation, emotion, personality, sensation, and perception.

**PSY 2023**
**CONSUMER PSYCHOLOGY**

An introduction to the application of psychological principles to the study of the acts of individuals involved in obtaining and using economic goods and services, including the decision making processes that precede and determine these acts. Emphasis is placed on the role of perception, learning, personality, and attitude change.

**PSY 2033**
**PSY OF ADJUSTMENT**

A course to provide a broad introduction to psychology as applied to human behavior. Focus is on the theoretical and experimental issues underlying the development and function of mental and emotional states. Emphasis is on normal functioning. $20 testing fee.

**PSY 2053**
**STATISTICS/BEHAV SCI**

Prerequisites: MATH 1113 and PSY 2003 or SOC 1003, or consent. An introduction to descriptive and inferential statistical methods pertinent to behavioral sciences research, including correlation, sampling distributions, t-tests, chi square and analysis of variance. Emphasis is upon the logical and applied aspects.

**PSY 2063**
**RESEARCH DESIGN BEHAVIORAL SCI**
Prerequisites: PSY 2003 or SOC 1003. This course is designed to introduce you to the foundations of behavioral science, the logic of research design and the many possible modes of operation. This class focuses on teaching students in the behavioral sciences the basic principles that guide the research process, the elements of research design, how to read and critique research articles, and how to write a literature review for a research project.

**PSY 2074**  
**EXPERIMENTAL PSYCHOLOGY**

Prerequisite: PSY 2003 and PSY(SOC) 2053. A study of research methods in psychology. Emphasis is placed upon developing skills in data gathering and analysis, report writing and application of basic research strategies. Three hours lecture, two hours laboratory per week.

**PSY 2093**  
**HUMAN SEXUALITY**

A survey of the psychological themes associated with human sexuality. Topics include, but are not limited to: love and intimacy, sexual behaviors, sexual problems, gender, and sexual orientation.

**PSY 2133**  
**CROSS-CULTURAL PSYCHOLOGY**

This course is designed to link basic principles in cross-cultural developmental psychology and practical everyday events and questions as above ones together to help students cultivate a global and multicultural perspective on human behavior and gain an understanding of, and appreciation for, human development as it takes place in diverse cultural settings throughout the world. Experiential learning will be an important component of this course. Each student will have a chance to observe the behavior of a child/adolescent of different ethnic background from his or her own and develop their own cross-cultural viewpoint on human development.

**PSY 3003**  
**ABNORMAL PSYCHOLOGY**

Prerequisite: PSY 2003. Emphasis will be placed upon the etiology, symptoms, and treatment of the neuroses, psychoses, and personality disorders.

**PSY 3013**  
**PSYSOC/ASPECTS/DEATH/DYI**

Prerequisite: Upper division standing. This course studies the psychosocial and sociological aspects of death. The course will provide a basic insight into the dynamics surrounding death from the individual and societal level, its impact on survivors, and the effect death has on the living. This course cannot be taken for credit after completion of PSY 4003.

**PSY 3033**  
**THE CRIMINAL MIND**

Prerequisite: PSY 2003 and CJ(SOC) 2003 or CJ(SOC) 2043. The course familiarizes students with various models, theories, and research regarding criminality from a psychological perspective. Genetic, constitutional, and biological factors will be emphasized, and some practical applications to dealing with criminals will be considered.

**PSY 3043**  
**ENVIRONMENTAL PSY**
Prerequisite: PSY 2003. This course is designed to provide students with information on the reciprocal relationship between humans and their environment, both natural and man-made. Major topics to be considered include (but are not limited to) the following: noise, pollution, temperature, density, architectural influences on human behavior, cognitive mapping, and crowding.

PSY 3053
PHYSIOLOGICAL PSY

Prerequisites: PSY 2003, BIOL 2124, or BIOL 1014. An introduction to the physiological correlates of behavior, with emphasis upon the nervous system.

PSY 3063
DEVELOPMENTAL PSY I

Prerequisite: PSY 2003. A study of how the maturation process affects an individual's physical and psychological state from conception through adolescence. Representative topics include (but not limited to) genetic influences, child cognitive processes, moral reasoning, and testing.

PSY 3073
PSYCHOLOGY OF LEARNING

Prerequisite: Twelve hours of psychology. An introduction to the basic processes in learning and conditioning, including human and animal experimental findings. Emphasis will be placed on conditioning paradigms, reinforcement principles, memory functions and their use in behavior change.

PSY 3083
PSYCHOLOGY OF WOMEN

The purpose of this course is to examine the lives of girls and women, including topics such as gender stereotypes, the development of gender roles, gender comparisons, women and work, love relationships, women's physical and mental health, violence against women, and women in later adulthood. Students who take this course should acquire an understanding of what it means to be female in North America.

PSY 3093
INDUSTRIAL PSYCHOLOGY

Prerequisite: PSY 2003. A survey of psychological applications in industrial settings with emphasis upon selection, placement, and training techniques; organizational theory; and decision making processes.

PSY 3133
SELF AND SOCIETY

Prerequisite: SOC 1003 or PSY 2003. A sociological survey of the ways in which social structure and personality interact. Topics typically covered are: socialization, attitudes and value formation and change, and group influences upon self concept and self esteem.

PSY 3141
SEMINAR IN PSYCHOLOGY
A directed seminar in an area of psychology. The specific focus will depend upon research underway, student need, and current developments in the field of psychology. May be repeated for credit if course content differs.

PSY 3142
SEMINAR IN PSYCHOLOGY
A directed seminar in an area of psychology. The specific focus will depend upon research underway, student need, and current developments in the field of psychology. May be repeated for credit if course content differs.

PSY 3143
SEMINAR IN PSYCHOLOGY
A directed seminar in an area of psychology. The specific focus will depend upon research underway, student need, and current developments in the field of psychology. May be repeated for credit if course content differs.

PSY 3144
SEMINAR IN PSYCHOLOGY
A directed seminar in an area of psychology. The specific focus will depend upon research underway, student need, and current developments in the field of psychology. May be repeated for credit if course content differs.

PSY 3153
THEORIES OF PERSONALITY
Prerequisite: Six hours of psychology. An introduction to the various theoretical viewpoints of the normal personality structure and its development.

PSY 3163
DEVELOPMENTAL PSY II
Prerequisite: PSY 2003. The study of how the maturation process affects an individual's physical and psychological state from adolescence through old age. Representative topics include (but not limited to) early, middle, and late adulthood biological, psychosocial and cognitive development.

PSY 3173
PSYCHOLOGY OF CONSCIOUSNESS
Prerequisite: Upper division standing. An introduction to the various theoretical viewpoints as to the topic of consciousness and how it is investigated.

PSY 3184
ANIMAL BEHAVIOR
Spring of even years. Prerequisites: sophomore standing in biology or psychology, or approval of instructor. An introductory course in animal behavior covering behavioral responses in primitive and advanced animals exposed to a wide range of environmental and social conditions. Laboratory exercises will
include field as well as in-lab exercises and will focus on observational techniques and analyses of behavioral patterns in vertebrates and invertebrates. Lecture three hours, laboratory two hours. $20 laboratory fee.

**PSY 3813**  
LIFESPAN DEVELOPMENT

Prerequisites: NURS major, PSY major with 90 earned hours, or instructor permission. A study of the processes of human development from conception through the lifespan. Research, application, and other considerations for Nursing majors will be emphasized. Topics include, but are not limited to: how the maturation process affects an individual’s physical and psychological state, genetic influences, child cognitive processes, moral reasoning, and early, middle, and late adulthood biological, psychosocial, and cognitive developmental processes.

**PSY 4003**  
ADV RESEARCH METHOD/LAB PSY

Prerequisites: PSY 2003, 2053, and 2063. A study of research methods in psychology. Emphasis is placed upon developing skills in data gathering and analysis, report writing and application of basic research strategies.

**PSY 4013**  
HISTORY OF PSYCHOLOGY

Prerequisite: PSY 2003. A survey of the developments in psychology from the ancient Greeks to the emergence of psychology as a modern experimental science.

**PSY 4033**  
PSY TESTS/MEASUREMENTS

Prerequisites: Twelve hours of psychology and PSY(SOC) 2053. Theory of psychological testing, statistical procedures, and training in administration, scoring and profiling of various tests of ability, achievement, interests, and personality. $20 testing fee.

**PSY 4043**  
SOCIAL PSYCHOLOGY

Prerequisite: 9 hours of Sociology or permission. The study of how individuals are influenced by the actual or implied presence of other persons. Emphasis is placed on attitudes, social cognition, social influence, aggression, altruism, self and other perception.

**PSY 4053**  
PSY OF PERCEPTION

Prerequisite: Nine hours of psychology or consent. The study of general perceptual process. While the main senses will be covered, emphasis will be placed on visual functioning. The role of perception in organismic adaptation will be explored.

**PSY 4073**  
COGNITIVE PSYCHOLOGY
Prerequisite: 60 hours including 9 hours of psychology or permission of instructor. A study of the basic principles of mental processes, and their influence on behavior. Specifically, the course focuses on the conscious and unconscious processes involved in the acquisition, storage, transformation, and use of knowledge.

**PSY 4133**  
**PSYCHOPHARMACOLOGY**  
Prerequisites: PSY 2003, 2053, or permission of instructor. An introduction to the field of psychopharmacology. Representative topics include (but are not limited to) neuronal structures and processes, neurochemicals and neurotransmission, and the biological basis and pharmacological treatment of neurodegenerative diseases and mental illness.

**PSY 4234**  
**FIELD PLACEMENT**  
Prerequisites: PSY 2023 or 3093, and PSY(SOC) 2053 and PSY 2074 (or comparable), senior major, and mutual consent of advisor, supervising faculty and industry supervisor. This course is a jointly supervised field placement in an area business or industry. Emphasis is placed on integration of theory and classroom work with on the job experience. The placement is designed for students who are considering work in the area of industrial/organizational or consumer psychology. The purchase of professional liability insurance is required.

**PSY 4951**  
**UNDERGRADUATE RESEARCH**  
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**PSY 4952**  
**UNDERGRADUATE RESEARCH**  
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**PSY 4953**  
**UNDERGRADUATE RESEARCH**  
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**PSY 4954**  
**UNDERGRADUATE RESEARCH**  
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**PSY 4991**  
**SPEC PROB/PSY**
Prerequisite: Eighteen hours of psychology and prior permission of instructor. Independent work under individual guidance of a faculty member.

PSY 4992
SPEC PROB/PSY
Prerequisite: Eighteen hours of psychology and prior permission of instructor. Independent work under individual guidance of a faculty member.

PSY 4993
SPEC PROB/PSY
Prerequisite: Eighteen hours of psychology and prior permission of instructor. Independent work under individual guidance of a faculty member.

PSY 4994
SPEC PROB/PSY
Prerequisite: Eighteen hours of psychology and prior permission of instructor. Independent work under individual guidance of a faculty member.

PTA 1111
PRINCIPLES OF PHYSICAL THERAPY
Course credit: 1 hour lecture. This course provides an introduction and orientation to the field of physical therapy. The course includes historical background, medical-professional ethics and conduct, and the role of the PTA as part of the health care team.

PTA 1121
CLINICAL KINESIOLOGY LAB
Co-requisite: PTA 1122. Lab skills practice to apply concepts presented in PTA 1122. Laboratory: 1 hour.

PTA 1122
CLINICAL KINESIOLOGY
Course credit: 2 hours. Co-requisite: PTA 1121. This course provides an introduction to the musculoskeletal anatomy, human movement, and clinical assessment. Students will learn to locate and identify muscles, joints, and bony landmarks of the spine and extremities. Students will also learn to assess range of motion and muscle strength.

PTA 1132
PATHOLOGICAL CONDITIONS
Course credit: 2 hours lecture. This course will examine the mechanisms and concepts of selected pathological conditions in the human body. Emphasis is placed on how the specific pathological condition affects the functioning of the system involved, as well as its impact on other body systems. This course includes general pathology with emphasis on the study of diseases and disorders commonly seen in physical therapy practice.
PTA 1221
PRINCIPLES OF PATIENT CARE LAB
Course credit: 1 hour laboratory. Co-requisite: PTA 1222. Lab skills practice to apply concepts presented in PTA 1222.

PTA 1222
PRINCIPLES OF PATIENT CARE
Course credit: 2 hours lecture. Co-requisite: PTA 1221. This course will introduce students to the theory, principles, and techniques of patient care including, but not limited to: documentation, patient preparation and handling, gathering of vital signs, use of universal precautions, and mobility training using the wheelchair and other assistive devices. Students will also receive an orientation to the psychological and social needs of the ill and disabled.

PTA 1231
THERAPEUTIC PROCEDURES I LAB
Course credit: 1 hour laboratory. Co-requisite: PTA 1232. Lab skills practice to apply concepts presented in PTA 1232.

PTA 1232
THERAPEUTIC PROCEDURES I
Course credit: 2 hours lecture. Co-requisite: PTA 1231. Students will learn physical therapy interventions using specific physical agents.

PTA 1241
PRINC OF PHYSICAL THERAPY LAB
Co-requisite: PTA 1243 This lab will cover concepts and techniques presented in PTA 1243 Principles of Physical Therapy. Course credit: 1 hour laboratory.

PTA 1243
PRINCIPLES OF PHYSICAL THERAPY
This course provides an introduction and orientation to the field of physical therapy. This course will introduce students to the theory, principles, and techniques of patient care. Students will be introduced to concepts of professional ethics and conduct in the delivery of patient care. Course credit: 3 hours lecture

PTA 1251
DATA COLLECTION IN PT LAB
This lab will cover data collection and compilation as it relates to Physical Therapy. Course credit: 1 hour laboratory.

PTA 2112
THERAPEUTIC PROCEDURES II LAB
Co-requisite: PTA 2113. Lab skills practice to apply concepts presented in PTA 2113.

PTA 2113
THERAPEUTIC PROCEDURES II
Co-requisite: PTA 2112. This course is a continuation of physical therapy interventions using specific physical agents. Course credit: 2 hours lecture.

PTA 2121
NEUROLOGICAL DEV/MOTOR CONTROL
This course will examine the principles of normal motor development across the lifespan from infancy to adulthood.

PTA 2142
THERAPEUTIC EX/CARD REHAB LAB
Co-requisite: PTA 2143. Lab skills practice to apply to concepts presented in PTA 2143.

PTA 2143
THERAPEUTIC EXER/CARDIO REHAB
Co-requisite: PTA 2142. This course will examine the theory and application of physical therapy procedures for the management of patients with cardiovascular and pulmonary conditions. This course will also examine the theory and application of therapeutic exercise.

PTA 2151
ADMINISTRATIVE PROCEDURES
This course will examine the administrative aspects of providing physical therapy services including reimbursement, quality improvement, laws and professional liability regarding the delivery of physical therapy services, administrative principles, and organizational patterns. Course credit: 1 hour lecture.

PTA 2152
ADMINISTRATIVE PROCEDURES
This course will examine the administrative aspects of providing physical therapy services including reimbursement, quality improvement, laws and professional liability regarding the delivery of physical therapy services, administrative principles, and organizational patterns.

PTA 2164
CLINICAL EXPERIENCE I
This course is the first clinical experience in the PTA program curriculum. Students will perform 200 hours of clinical practice in a physical therapy setting while under the supervision of a licensed physical therapist and/or licensed physical therapist assistant. Students will apply the knowledge and skills acquired from previous didactic learning as deemed appropriate by the clinical instructor.
PTA 2211
MUSCULOSKELETAL REHAB LAB

Co-requisite(s): PTA 2212 Lab skills practice to apply concepts presented in PTA 2212.

PTA 2212
MUSCULOSKELETAL REHABILITATION

Co-requisite(s): PTA 2211 This course will examine the theory and application of physical therapy interventions for the management of patients with specific musculoskeletal conditions. A review of basic assessment and treatment procedures will be included.

PTA 2221
NEUROLOGICAL REHAB LAB

Lab skills practice to apply concepts presented in PTA 222.

PTA 2222
NEUROLOGICAL REHABILITATION

Co-Requisite(s): PTA 2221 This course will examine the theory and application of physical therapy interventions for the management of specific neurological disorders. A review of basic assessment and treatment procedures will be included.

PTA 2234
CLINICAL EXPERIENCE II

Pre-requisite: PTA 2164 This course is the second clinical experience in the PTA program curriculum. Students will perform 200 hours of clinical practice in a physical therapy setting while under the supervision of a licensed physical therapist and/or licensed physical therapist assistant. Students will apply the knowledge and skills acquired from previous didactic learning as deemed appropriate by the clinical instructor.

PTA 2235
CLINICAL EXPERIENCE III

Pre-requisite: PTA 2234 This course is the third clinical experience in the PTA program curriculum. Students will perform 240 hours of clinical practice in a physical therapy setting while under the supervision of a licensed physical therapist and/or licensed physical therapist assistant. Students will apply the knowledge and skills acquired from previous didactic learning as deemed appropriate by the clinical instructor.

PTA 2303
DIRECTED STUDY

Pre-requisite: Program Director approval An individualized course of study which includes topics related to physical therapy.

READ 0103
COLLEGE READING SKILLS
A course designed to develop reading skills through perception training, vocabulary building, comprehension training, and active listening exercises. Individual diagnosis and prescription is emphasized. The grade in the course will be computed in semester and cumulative grade point averages, but the course may not be used to satisfy general education requirements nor provide credit toward any degree. A student who is placed in READ 0103 must repeat the course until he or she earns a grade of "C" or better. A student who makes a "D" or "F" in READ 0103 must repeat the course in each subsequent semester until he or she earns a grade of "C" or better.

**RP 1002**
**BACKPACKING**

This course is an introduction to basic backpacking skills, equipment, food, and backcountry travel. Day hikes and overnight hikes. Students will need to provide own personal equipment (backpack, sleeping bag, etc.) and be willing to share tents, stoves, cooking gear, etc. with other students in the course. Some students may need to borrow or purchase such gear depending on the equipment owned by members of the class. $50 course fee required.

**RP 1011**
**SPORT HUNTING**

An introduction to the fundamentals of sport hunting, materials, and personal skills. Emphasis on state game laws, personal equipment and usage, game species and their natural habitats, and firearm safety. Arkansas Hunter Safety certification awarded with successful completion.

**RP 1013**
**PRIN RECREATION/PARKS**

A study of the history of the recreation and park profession and the basic sociological and ecological intermix of contemporary recreation and park services.

**RP 1021**
**BOATING EDUCATION**

This course will take students through the Arkansas Game and Fish Commission Boating Guide. Those who successfully complete the course will be awarded Boating Safety Certification. A variety of audio visual presentations will be used, and participation in one weekend day of actual boating experience is required. Certification is awarded upon completion.

**RP 1031**
**INTRODUCTION TO CYCLING**

Introduction to Cycling is designed to introduce the beginner biker to the basics needed for lifelong enjoyment of this recreational activity and sport. Students will be introduced to techniques of road cycling and off-road cycling. Emphasis on choosing clothing and equipment, maintenance, and riding skills. Students will have riding opportunities at area trails, as well as classroom instruction. Participants are expected to provide their own bikes and associated gear and equipment. $50 fee required to cover transportation to area trails.

**RP 1041**
**PRINCIPLES OF FISHING**

This course provides an introduction to the sport of fishing. Students will learn to identify species of freshwater fish, emphasizing fish inhabiting Arkansas streams and lakes. Students will learn casting techniques, ethics, catch-and-release techniques, knot tying, and lure and bait selection. Cleaning and cooking your catch of the day will be covered. Arkansas fishing license required. Bring your own pole and tackle. $10 lab fee required. Field trips to area fishing holes.
RP 1993
BASIC FOREST FIREFIGHT
This class is taught jointly by the U.S. Forest Service and ATU using classroom theory and weekend field exercises which will enable successful candidates to obtain the “Red Card” recognized by most federal and many state firefighting agencies as a minimum requirement for wildland fire firefighting certification. This class consists of the following wildland fire training courses recognized by the National Wildland Coordinating Group (NWCG): S-130 Basic Firefighting; S-190 Introduction to Fire Behavior; S-110 Wildland Fire Suppression Orientation; I-100 Introduction to Incident Command System; and Standards for Survival. These courses will be taught together to provide a complete picture of the basics of forest firefighting. This training is required before any person can participate on a wildland fire suppression crew for the U.S. Forest Service, other federal agencies and most other state wildland fire agencies. Instruction will be by U.S. Forest Service certified instructors and RP faculty.

RP 2003
RECREATION PROGRAMMING
Recreation program planning, supervision, and evaluation. This course examines the theory, principles, and leadership techniques of programming for individuals and groups in a variety of recreation settings, including community, institutions, and camps. May not be taken for credit after completion of RP 2002 and RP 2012.

RP 2013
LANDSCAPE PLANNING/DESIGN
An introduction to the use of plants and other materials in the landscape planning process and environmental design.

RP 2033
RECREATION LEADERSHIP
A study of the processes, methods, and characteristics of leadership and supervision in the delivery of leisure services.

RP 2133
TRAVEL AND TOURISM
The introduction to travel and tourism, its components and relationship to the recreation and hospitality industry. The course will explore the current and future trends in travel and tourism and the effects on the economy, as well as the social and political impacts of travel and tourism.

RP 3013
REC/SPECIAL POPULATIONS
Development of an understanding of disabled sub populations and its relationship to recreation programming and administration for agencies at the local, state, and federal level of responsibilities.

RP 3023
CAMP ADMINISTRATION
Prerequisite: Junior standing. Theory and principles of camp administration, programming, leadership, and supervision in public, private, and school camps. Field trips, school camp.
RP 3033
COMMERCIAL RECREATION
An introduction to the spectrum of planning, delivery and assessment of goods and services in the commercial sector of recreation.

RP 3034
SITE PLANNING/DESIGN
Fundamentals of the site planning process and application to park and recreation development, including consideration of factors both external (user preferences) and internal to the site (function, organization and aesthetic treatment). Emphasis on resource capabilities and potentials. Lecture two hours, laboratory four hours.

RP 3043
WORK EXPERIENCE
By permission. Supervised field application of class skills and knowledge in Parks and Recreation work situations. Students are given the opportunity to take part in meaningful management and work experiences in actual work situations under the supervision of both university faculty and professionals in the field. Minimum of 100 clock hours of work experience is required.

RP 3053
NAT RESOURCE/MGT/PLAN
Study of the economic, social, political, and physical factors of the natural environment and methods to guide, direct, and influence orderly growth and development.

RP 3063
OUTDOOR EDUCATION
An introduction to outdoor education foundations, methods, and practice. Preparation and planning for teaching in, about and for the outdoors. Leadership of outdoor education programs. $25 transportation and supplies fee.

RP 3093
INTERPRETIVE METHODS
An analysis of various interpretive techniques, interpretive planning, and utilization of interpretation to obtain management goals. Students will plan, design and implement interpretive programs using various media.

RP 3133
TOURISM PLANNING
An examination of the tourism planning process and techniques. Topics include tourism as a system, levels of planning, environmental, cultural and economic components, attractions, transportation, infrastructure and marketing.
RP 3403
FINANCING RECREATION AND PARKS
Prerequisites: Junior standing and Recreation and Park Administration major. An introduction to recreation and park financial management including revenue and expenditure management.

RP 3503
RECREATIONAL SPORT MGMT
An overview of recreational sport and event management in various settings. Topics include informal, intramural, club, extramural, instructional sports, and sporting events programming; values of recreational sports; administration and operation of recreational sports and sporting events; terminology and career opportunities in various sport settings.

RP 3763
INTRO TURFGRASS MANAGEMENT
An introduction to turf management emphasizing structure, growth, adaptation, and management of turfgrass. Methods for establishment, fertilization, mowing, cultivation, irrigation and pest management.

RP 3791
TURFGRASS MGMT: EQUIPMENT
An introduction to turfgrass equipment. Visits to golf course or other turfgrass sites where students will examine and operate various types of turf equipment. Equipment maintenance discussed. Equipment design and selection discussed. $25 travel fee.

RP 3793
TURFGRASS PEST CONTROL
An introduction to the integrated management of pests affecting turfgrass. Maintenance practices related to pest and abiotic turfgrass problems, safety, and materials.

RP 3993
WILDLAND FIRE PRAC/NRMGT
Prerequisites: RP 1993 or permission. Advanced study of the organization, deployment, and techniques of fire suppression applicable to wildfires affecting residences, outbuildings, and other human-structure barriers in remote areas and outlying suburban locales. Particular emphasis on wildland structure and urban interface fire suppression problems. This is a science-based course. Emphasis is placed on: (1) uncontrolled wildland fire and the many positive and negative impacts with which fire personnel must deal; (2) planning and implementing controlled burn projects to attain desired future conditions and reduce fire hazards, and (3) the dilemma of ever-expanding wildland/urban interface issues. The overall purpose of this course is to provide the student with integral fire knowledge and skills necessary to become an effective member of a fire/natural resource management team. Weekend field exercises required.

RP 4001
INTERNSHIP PREPARATION
Prerequisites: PRHA major, senior standing, and completion of RP/HA 3043 (if required for major) or permission of department head. Preparation for the internship experience. This course is graded Pass/Fail.
RP 4013
RECREATION/PARK ADMIN
Prerequisite: Six hours of RP courses. A study of the administrative process of planning, organizing, staffing, directing, evaluating, budgeting, and coordinating of recreation and park agencies.

RP 4023
RESEARCH METHODS
Prerequisite: Twelve hours of RP courses. An introduction to the spirit and theory of research including the scientific method and its application to the recreation and parks profession.

RP 4042
FIELD SEM/INTERPRE M ETH
This off-campus course will be of one-week duration conducted at recreation and park facilities in Arkansas and the nearby region. The course will center on discussion of interpretive facilities, techniques, problems and innovations with leading professionals on site. A fee of $100 will be assessed to cover transportation, food and entry fees for some sites. Lodging is usually provided by park agencies at the site free or at a very low cost.

RP 4053
WATER RESOURCES DEVEL
A study of water resources with emphasis on surface supply and small watershed and reservoir recreation. Supply and pollution in federal, state, local and private water use allocation will be considered.

RP 4063
PARK OPERATIONS
Prerequisite: COMS 1003 or equivalent. Basic principles, practices, and problems pertaining to the management of public park systems with emphasis on maintenance and operation schedules, construction and maintenance equipment, employee safety, office procedures, law enforcement, personnel management, and public relations.

RP 4073
PRIN/TECH/THERAPEUT/REC
Prerequisite: RP 3013 or permission of instructor. A professional course which examines the foundation, theory, philosophy, and historical significance of therapeutic recreation. Emphasis on the therapeutic recreation process as it relates to program development and service delivery for individuals with illnesses and/ or disabilities in various clinical and community settings.

RP 4093
RESORT MANAGEMENT
Prerequisites: Junior standing and nine hours of RP or HA courses or by permission. An in-depth study of resorts with respect to their planning, development, organization, management, marketing, visitor characteristics, and environmental consequences.
RP 4103
RECREATION LAW/POLICY

An examination of the relationship between recreation and the law. Specific topics include liability negligence, contracts, safety codes, law enforcement, insurance, and administration policy. Identification of legal decision making organizations and the court system, including the policy dimensions of land acquisition, personnel disputes, and current issues in land use.

RP 4113
PERSONNEL MGMT IN PRHA

Prerequisites: Junior standing and nine hours of RP or HA courses. An overview of personnel considerations in various Recreation and Park agencies and the Hospitality industry. Laws, legal issues, structure, staffing, motivation, training, conduct, policies and other aspects of agency/industry personnel relations will be examined using case studies, as well as other methods.

RP 4116
INTERNSHIP

Fall, spring and summer semesters. Parks, Recreation, and Hospitality Administration majors only. Prerequisites: Senior standing, current certifications in CPR, Standard and Advanced First Aid, consent of department head and completion of all other courses applicable to degree. Placement in selected agency settings as a student intern under professional guidance of both agency supervisor and faculty. Emphasis will be placed on application of classroom theory to agency requirements which fulfill student's individual career interest. No prior experience credit will be granted. Minimum of 600 clock hours during a minimum of 15 weeks of supervised internship is required. Student cannot document more than 40 hours of work experience per week. A written report is required within two weeks of internship completion. $100 supervisor travel fee required.

RP 4173
THERAPEUT REC ASSESS/DOC

Prerequisites: RP 4073 or permission of instructor. This course is an examination of the various assessment tools, styles of documentation, and methods of assessment and documentation utilized in therapeutic recreation services. The purpose of this course is to provide students with the basic skills and knowledge necessary to conduct therapeutic recreation assessments and to properly document health care information.

RP 4273
ADM/OP THERAPEUTIC REC

Prerequisites: RP 3013 and 4073 or permission of instructor. Program design and planning for effective administration of client centered services for special populations. Management of therapeutic recreation services including standards of practice, clinical supervision, reimbursement, marketing, budgeting, and writing policies and procedures.

RP 4373
INTERVENT/ThERAPEUT/REC

Prerequisites: RP 3013, RP 4073, or permission of instructor. This course is designed to provide an understanding of the various interventions utilized in therapeutic recreation services and to develop technical competencies necessary for the provision of quality therapeutic recreation services. Emphasis will be placed on the skillful application of various processes and techniques utilized to facilitate therapeutic changes in the client.

RP 4753
SPORTS FIELD MANAGEMENT DESIGN
A survey of design and management practices for turfgrass sports fields. Personnel and budgeting requirements for operations and maintenance. $25 travel fee.

**RP 4763**
**GOLF COURSE OPERATIONS DESIGN**
Golf course turfgrass management as influenced by golf course design, including operations, financial analysis, personnel, and environment. $25.00 travel fee.

**RP 4951**
**UNDERGRADUATE RESEARCH**
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**RP 4952**
**UNDERGRADUATE RESEARCH**
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**RP 4953**
**UNDERGRADUATE RESEARCH**
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**RP 4954**
**UNDERGRADUATE RESEARCH**
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**RP 4991**
**SPECIAL PROBLEM/TOPICS**
On demand. Investigative studies and special problems and topics related to parks, recreation, and hospitality administration.

**RP 4992**
**SPECIAL PROBLEM/TOPICS**
On demand. Investigative studies and special problems and topics related to parks, recreation, and hospitality administration.
RP 4993
SPECIAL PROBLEM/TOPICS
On demand. Investigative studies and special problems and topics related to parks, recreation, and hospitality administration.

RS 2003
INTRO/REHAB SERVICES
A survey of the history, philosophy, and roles of the rehabilitation and social services movement. In addition, the course will focus on public attitudes toward people with disability, adjustment to disability, and an orientation to the various community resources which can be utilized toward the rehabilitation of people with disabilities.

RS 3004
MED/PSY ASPECTS/DIS
A study of the etiology, treatment and prognosis of various disabling conditions. Emphasis will be placed on medical information as received in medical reports, and as related to vocational functioning and to the everyday psychological and social adjustment problems associated with disability. This course may not be taken for credit after completion of RS 3003.

RS 3013
THE WORLD OF WORK
A survey of the world of work emphasizing the role of work in our society, how disability changes one's work role, how career choices are made, and placement techniques. $20 testing fee.

RS 3023
PRIN/TECH OF REHAB SCI
Prerequisite: Junior standing and RS 2003. An introduction to the casework process emphasizing principles of case management, interagency relations and interviewing skills.

RS 3033
INTRO/VOC REHAB/PROCESS
An overview of the history, philosophy, and legal basis of vocational rehabilitation plus an in-depth study of the case process. This class will emphasize the vocational rehabilitation process through studying closed case files and case recording procedures.

RS 3043
INTRO/SOCIAL SERVICES
An introduction to the history, philosophy, and legal basis of the social services movement. This class will also emphasize the social service case process and case management practices.
RS 3053
REHAB APPR/CORR SET
Prerequisite: SOC(CJ) 2043 or consent of the instructor. A comparative study of rehabilitation approaches in working with adult and juvenile public offenders. Approaches to be studied include: prisons, training schools, camps, halfway houses, work release, study release, preparole classes, vocational training.

RS 3073
ORG/STRUCT/REHAB-HUMAN
This course will provide the student with an overview of organizational and administrative structure in the rehabilitation human services setting. Additionally, it will focus on the dynamics involved in developing a successful managerial style.

RS 3083
SUPPORT EMPLOY/SP POPL
Prerequisite: RS 3013 or consent. An introduction to the ideas, philosophies, models, concepts, and issues that characterize supported employment. Applications with different disability populations will be reviewed.

RS 3093
REHAB PROGRAM/ELDERLY
Prerequisite: SOC 3173 or consent of the instructor. A study of aging and the elderly from a rehabilitation viewpoint. This course will focus on intervention strategies, actual and potential, that might enable other people to maximize their potential and affect the needs for institutionalization.

RS 3123
ETHICS IN HUMAN SERVICES
A study of personal values, CRCC, ACA, and APA professional guidelines, and decision making models that will assist future human service practitioners to effectively deal with ethical dilemmas. This course will emphasize critical thinking and problem solving, and will utilize instructor and student generated dilemmas.

RS 3133
MULTICULTURAL ISSUES/HS
An introduction to issues of multiculturalism and diversity and the importance of understanding these issues when working with individuals. This class will emphasize understanding one's own culture, examine various cultures including disability, and stress the importance of understanding each individual in relationship to his/her culture.

RS 3141
REHAB SCI SEM: RESEARCH
A directed seminar in an area of rehabilitation science. The specific focus will depend upon research underway, community or student need, and the unique educational opportunity available. May be repeated for credit if course content differs.
RS 3142
REHAB SCI SEM: RESEARCH
A directed seminar in an area of rehabilitation science. The specific focus will depend upon research underway, community or student need, and the unique educational opportunity available. May be repeated for credit if course content differs.

RS 3143
REHAB SCI SEM: RESEARCH
A directed seminar in an area of rehabilitation science. The specific focus will depend upon research underway, community or student need, and the unique educational opportunity available. May be repeated for credit if course content differs.

RS 3144
REHAB SCI SEM: RESEARCH
A directed seminar in an area of rehabilitation science. The specific focus will depend upon research underway, community or student need, and the unique educational opportunity available. May be repeated for credit if course content differs.

RS 3153
ASSISTIVE TECH/REHAB SETTINGS
Prerequisite: RS 2003 or consent. A study of the types of technology devices and services available to individuals with disabilities. Emphasis will be placed on knowledge of resources, assessment of individual needs, funding of devices and services, and methods to use assistive technology to improve the quality of life for all individuals.

RS 3163
ADDCTN ASSESS/PLAN/TREAT STRAT
Prerequisites: RS 2003 or consent of instructor. A study and assessment of addiction disorders and related treatment planning approaches with an overview of evidence based intervention techniques and strategies. Group facilitation skills and meeting cultural issues in the group setting will be addressed.

RS 3173
ADDICTIONS AND THE FAMILY
Prerequisites: RS 2003 or consent of instructor. A study of the impact of addictions upon families, the social fabric of the nation. The course includes a review of family systems theory and family addictions counseling models.

RS 3243
SOC SER/INDV FAMILIES
Prerequisite: RS 3043 or consent of instructor. A study of the varied and numerous services offered by federal, state, and privately funded social service programs with an emphasis on protective services, foster care, and adoption services.
RS 4012
INTERNSHIP/REHAB SERV

(Twelve hour course.) Prerequisite: RS 2003, grade of C or higher in RS 3023, rehab major, senior standing, 2.00 cumulative grade point average, and consent of the instructor. A full-time, one semester supervised internship in a rehabilitation or social services setting, either public or private. Emphasis will be placed on the student acquiring first hand experience and entry level skills in practitioner roles such as case management, interviewing and counseling, and coordination of client services among the various community helping services. The purchase of professional liability insurance is required.

RS 4024
FIELD PLACEMENT/REHAB SC

Prerequisites: RS 2003, grade of C or higher in RS 3023, junior standing, 2.00 grade point average and consent of the instructor. A supervised 14 week field placement in which the student may either be placed in one agency setting or if a broader experience is desired may rotate among several agencies. Emphasis will be placed upon gaining an understanding of the community context and coordination of client services among the various rehabilitation and helping agencies. The purchase of professional liability insurance is required.

RS 4034
FIELD PLACEMENT/VOC RS

Prerequisite: RS 2003, grade of C or higher in RS 3023, junior standing, completion of at least six hours in the related emphasis area, 2.00 grade point average, and consent of the instructor. A supervised 14 week field placement in a setting related to vocational rehabilitation. Emphasis will be placed on the student's acquiring first hand experience in practitioner roles such as case management, interviewing and counseling, and coordination of client services among the various community helping services. The purchase of professional liability insurance is required.

RS 4044
FIELD PLACEMENT/AGING

Prerequisite: RS 2003, grade of C or higher in RS 3023, junior standing, completion of at least six hours in the related emphasis area, 2.00 grade point average, and consent of the instructor. A supervised 14 week field placement in a setting related to aging. Emphasis will be placed on the student's acquiring first hand experience in practitioner roles such as case management, interviewing and counseling, and coordination of client services among the various community helping services. The purchase of professional liability insurance is required.

RS 4054
FIELD PLACEMENT/CORRECT

Prerequisite: RS 2003, grade of C or higher in RS 3023, junior standing, completion of at least six hours in the related emphasis area, 2.00 grade point average, and consent of the instructor. A supervised 14 week field placement in setting related to corrections and delinquency. Emphasis will be placed on management, interviewing and counseling, and coordination of client services among the various community helping services. The purchase of professional liability insurance is required.

RS 4064
FIELD PLACEMENT/SOC SER

Prerequisite: RS 2003, grade of C or higher in RS 3023, junior standing, completion of at least six hours in the related emphasis area, 2.00 grade point average, and consent of the instructor. A supervised 14 week field placement in a setting related to social services. Emphasis will be placed on the student's acquiring first hand experiences in practitioner roles such as case management, interviewing and counseling, and coordination of client services among the various community helping services. The purchase of professional liability insurance is required.

RS 4074
FLD PLAC/PSY/SOC MAJORS

http://www.atu.edu/academics/catalog.descriptions/all.php
Prerequisite: RS 2003, grade of C or higher in RS 3023, fifteen hours in major, senior standing, 2.00 grade point average, and mutual consent of the student's advisor, the supervising faculty member, and the director of Rehabilitation Science. A jointly supervised field placement in a human services agency setting, either public or private. Emphasis will be placed on the student's acquiring first-hand experience in practitioner roles as they relate to his major and special interest. The purchase of professional liability insurance is required.

**RS 4084**  
**FLD PLAC/CHILD WELFARE**

Prerequisite: RS 3043, RS 3243, grade of C or higher in RS 3023, senior standing, completion of at least six hours in the related emphasis area, 2.50 grade point average, and consent of the instructor. A supervised 14-week field placement in a Division of Children and Family Services setting. Emphasis will be placed on the student's acquiring first-hand experiences in practitioner roles such as case management, interviewing, risk assessment, interagency collaboration, crisis management, and problem solving. The purchase of professional liability insurance is required.

**RS 4094**  
**FIELD PLACEMENT IN ADDICTIONS**

Prerequisites: RS 2003, RS 3023 (C or better), junior standing, completion of six hours in emphasis area (except RS 4024), 2.0 GPA and consent of instructor. A supervised 10-14 weeks field placement in a setting related to addiction services. Emphasis will be placed on the student's acquiring first-hand experiences in practitioner roles such as case management, interviewing, risk assessment, interagency collaboration, crisis management, group services, motivational interviewing approaches, and client solution/change strategies.

**RS 4123**  
**SURVEY COUNSEL THEORIES**

Prerequisites: Nine hours of psychology to include PSY 2003, PSY 3063, and PSY 3003, or PSY 3153, senior standing, or consent of the instructor. A comparative study of the major theories of counseling, stressing their philosophical views of mankind, assumptions, techniques, strengths, and weaknesses.

**RS 4133**  
**SEMINAR/SEVERE DISABIL**

A study of what makes a disabling condition a severe disability. This course will stress independent research and class presentations by the students dealing with the various severe disabilities.

**RS 4143**  
**REHAB/DEVELOP DISABLED**

Prerequisite: PSY 2003, RS 2003, or consent. A study of the delivery of services to, and the rehabilitation of, those handicapped individuals classified as being developmentally disabled, i.e., mental retardation, cerebral palsy, and epilepsy. Emphasis will be placed on prevocational, vocational, and community-living training for such individuals and the planning required for the provision of such services.

**RS 4153**  
**WORK EVALUATION IN REHAB**

Prerequisite: RS 3013 or consent. A study of the use of work evaluation as a part of the rehabilitation process, emphasizing the philosophy, development and application of work evaluation methods, and use of work evaluation results in rehabilitation services. $20 testing fee.
RS 4163
SUBSTANCE ABUSE
Prerequisite: RS 2003, PSY 2003, SOC 1003, or consent of the instructor. A study of drug abuse emphasizing etiology, patterns of use and abuse, and problems related to research and approaches to treatment.

RS 4173
FAMILY CENTERED SERVICES
Prerequisite: RS 3023 and 3243 or consent of the instructor. An advanced course focusing upon family and community strengths and child welfare practice.

RS 4183
FAMILY SERVICES SEMINAR
Prerequisite: RS 3023 and 3243 or consent of the instructor. A capstone course for students emphasizing child welfare services.

RS 4951
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

RS 4952
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

RS 4953
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

RS 4954
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

RS 4991
SPEC PROB/RS
Prerequisites: Twelve hours of rehabilitation science and prior approval of the Director of Rehabilitation Science. Independent work under individual guidance of a staff member.

RS 4992
SPEC PROB/RS
Prerequisites: Twelve hours of rehabilitation science and prior approval of the Director of Rehabilitation Science. Independent work under individual guidance of a staff member.

RS 4993
SPEC PROB/RS
Prerequisites: Twelve hours of rehabilitation science and prior approval of the Director of Rehabilitation Science. Independent work under individual guidance of a staff member.

RS 4994
SPEC PROB/RS
Prerequisites: Twelve hours of rehabilitation science and prior approval of the Director of Rehabilitation Science. Independent work under individual guidance of a staff member.

RUSS 1014
BEGINNING RUSSIAN I
Emphasis on conversation; introduction to basic grammar, reading, writing, and culture.

RUSS 1024
BEGINNING RUSSIAN II
Continued emphasis on conversation and fundamental language skills.

RUSS 2014
INTERMEDIATE RUSSIAN I
Prerequisite: Beginning Russian II (RUSS 1024) or equivalent. Instruction designed to develop communication skills and basic knowledge of grammar, reading, writing, and culture.

RUSS 2024
INTERMEDIATE RUSSIAN II
Prerequisite: Intermediate Russian I or equivalent. Instruction designed to enhance communication skills and knowledge of grammar, reading, writing, and culture.
SEED 2002
INTRO SECONDARY EDUC
Prerequisite: Sophomore standing or departmental approval. This course is designed to help secondary teacher candidates understand the field of education systemically and to understand the professional roles and ethical responsibilities required of the professional secondary educator. The course consists of classroom instruction and a guided field component. A grade of "C" or higher in the course is required in order to be eligible for admission into Stage II of Teacher Education.

SEED 3552
ADOLESCENT DEVELOPMENT
The primary purpose of this course is to prepare teacher education candidates for classroom interaction by tracing influences of normal human development in all domains and showing how heredity and environmental factors affect the individual's capacity to learn and function in a school environment. The teacher candidate will examine current research, concepts and issues related to normal adolescent development as well as exceptionalties that may be present. A range of cultural, social, and cognitive factors will be explored through reading, discussion, observation, literature search, interviews and case studies.

SEED 3702
INTRO/EDUC/TECHNOLOGY
This is a research-based course involving applications of media techniques to facilitate learning. Media presentations are planned and implemented using practical and theoretical considerations about learning characteristics, exceptionalties, and cultural differences. Various projection techniques as well as microcomputer applications are utilized.

SEED 4052
ADOLESCENT EXCEPTIONALITIES
Prerequisite: Admission to Stage II of the teacher education program. A study of the major areas of diversity including the mentally retarded, learning disabled, gifted, emotionally disturbed, children from economically disadvantaged homes, and their special needs in a school program. May not be taken for credit after completion of EDFD 5053, EDFD 4052 or repeated for credit as EDFD 5052 or equivalent.

SEED 4063
EDUCATORS-IN-INDUSTRY
Each semester on demand. A course devoted to career awareness in relation to the modern workplace. It is conducted in cooperation with local businesses and industries. The course involves research, on-site instruction, and work experience.

SEED 4503
SEM/SECONDARY EDUCATION
Prerequisites: Admission to Stage II and Student Teaching. This course is to be taken concurrently with SEED 4909/4809. This course is designed to provide secondary teacher candidates with knowledge and understanding of the history of American Education, school law, and other contemporary education issues. This course will also address teaching/learning strategies for content area learning and assessment.

SEED 4556
CLASSROOM/APPL/EDUC/PSY
Prerequisite: Admission to Stage II of the Teacher Education Program. This course introduces secondary teacher candidates to educational psychology as a research-oriented discipline and a science of practical application. The course also requires that students apply the theories and principles to instructional planning, teaching, managing and assessing students. The course consists of classroom instruction and a field component.

SEED 4809
TEACH/ELEM/SEC SCHOOL
Prerequisites: Admission to Stage II and student teaching and concurrent enrollment in SEED 4503. A minimum of twelve weeks of supervised full-time student teaching at both the elementary and secondary levels. Meets requirements for K 12 licensure in art and music and licensure at both the elementary and secondary levels for physical education. Fee $100.

SEED 4909
TEACHING/SECONDARY SCH
Prerequisites: Admission to Stage II and student teaching and concurrent enrollment in SEED 4503. A minimum of twelve weeks of supervised full-time student teaching at the secondary level. Fee $100.

SEED 4991
SPEC PROB/SEC ED
Each semester on demand. Prerequisite: Senior standing and approval of department head. Individual study of significant topics or problems relating to education under the guidance of an assigned faculty member.

SEED 4992
SPEC PROB/SEC ED
Each semester on demand. Prerequisite: Senior standing and approval of department head. Individual study of significant topics or problems relating to education under the guidance of an assigned faculty member.

SEED 4993
SPEC PROB/SEC ED
Each semester on demand. Prerequisite: Senior standing and approval of department head. Individual study of significant topics or problems relating to education under the guidance of an assigned faculty member.

SEED 4994
SPEC PROB/SEC ED
Each semester on demand. Prerequisite: Senior standing and approval of department head. Individual study of significant topics or problems relating to education under the guidance of an assigned faculty member.

SOC 1003
INTRODUCTORY SOCIOLOGY
An introduction to the nature of society, social groups, processes of interaction, social change, and the relationship of behavior to culture.

**SOC 2003**  
**INTRO/CRIMINAL JUSTICE**  
An overview of the criminal justice system and the workings of each component. Topics include the history, structure and functions of law enforcement, judicial and correctional organizations, their interrelationship and effectiveness, and the future trends in each.

**SOC 2033**  
**SOCIAL PROBLEMS**  
Prerequisite: SOC 1003. A sociological analysis of contemporary social problems including inequalities, deviance, population changes, and troubled institutions.

**SOC 2043**  
**CRIME AND DELINQUENCY**  
Prerequisite: SOC 1003 or SOC(CJ) 2003. A study of the major areas of crime and delinquency; with emphasis on theories of crime and the nature of criminal behavior.

**SOC 2053**  
**STATS/BEHAVIORAL SCI**  
Prerequisite: MATH 1113 and PSY 2003 or SOC 1003, or consent. An introduction to descriptive and inferential statistical methods pertinent to behavioral science research, including correlation, sampling distributions, t-tests, chi square and analysis of variance. Emphasis is upon the logical and applied aspects.

**SOC 2063**  
**RESEARCH DESIGN BEHAVIORAL SCI**  
Prerequisites: SOC 1003 or PSY 2003. This course is designed to introduce you to the foundations of behavioral science, the logic of research design and the many possible modes of operation. This class focuses on teaching students in the behavioral sciences the basic principles that guide the research process, the elements of research design, how to read and critique research articles, and how to write a literature review for a research project.

**SOC 2073**  
**HISTORY/SOCIAL THOUGHT**  
A study of the historical development of social thought. May not be taken for credit after completion of SOC 4023, PHIL 4053, or equivalent.

**SOC 2083**  
**SOCIOLOGICAL THEORY**  
A survey course of sociological theories and theory development from the classical period to post-modernism.
SOC 3013
PSYSOC/ASPECTS/DEATH/DYI
Prerequisite: Upper division standing. This course studies the psychological and sociological aspects of death. The course will provide a basic insight into the dynamics surrounding death from the individual and societal level, its impact on survivors, and the effect death has on the living. This course cannot be taken for credit after completion of PSY 4003.

SOC 3023
THE FAMILY
Prerequisite: SOC 1003. A study of the American family institution with emphasis upon role relationships, norms, and models. Some attention is given to cross cultural comparisons.

SOC 3033
ENVIRONMENT AND SOCIETY
Prerequisite: SOC 1003. This course focuses on the study of interrelationships between society and the natural environment from traditional to postindustrial forms. Topics in this class will include economic approaches to the natural environment, philosophical/ethical approaches to the natural environment, public opinion on the natural environment, the importance of the environmental movement and policy development on environmental issues.

SOC 3063
COMMUNITIES
Prerequisite: SOC 1003. An exploration and analysis of the sociological concept of community from classical approaches to recent debates. May not be taken for credit after completion of SOC 2063.

SOC 3083
SOCIAL DEVIANCE
Prerequisite SOC 1003 or SOC(CJ) 2003. An introduction to the sociological and criminological study of human deviance. Various theories of deviance will be examined and applied to real life examples.

SOC 3093
SOCIOLOGY OF EDUCATION
Prerequisite: SOC 1003. A study of education as a social system, its organizational characteristics, and its inter relationships with other social systems such as the family, religion, economics, government, and politics.

SOC 3103
JUVENILE JUSTICE SYSTEM
Prerequisite: SOC(CJ) 2003. An in-depth look at the juvenile justice system including the structure, statuses and roles as well as current issues, problems, and trends.
SOC 3113  
SOC MOVEMENTS/CHANGE  
Prerequisite: SOC 1003. An examination of past and current social movements and their effects on social policy and social change. Topics will include classical and contemporary theories of social movements and social change.

SOC 3133  
SELF AND SOCIETY  
Prerequisite: SOC 1003 or PSY 2003. A sociological survey of the ways in which social structure and personality interact. Topics typically covered are: socialization, attitudes and value formation and change, and group influences upon self concept and self esteem.

SOC 3153  
PRISONS AND CORRECTIONS  
Prerequisite: SOC 1003 and SOC(CJ) 2033. An introduction to and analysis of contemporary American corrections. Emphasis will be on current and past correctional philosophy, traditional and modern correctional facilities, correctional personnel and offenders, new approaches in corrections, and the relationship of corrections to the criminal justice field.

SOC 3163  
INTRO TO SOC RESEARCH  
Prerequisite: SOC 1003 and SOC(PSY) 2053. An introduction to research methodology, with emphasis upon conceptualization, design, and processes.

SOC 3173  
SOCIAL GERONTOLOGY  
Prerequisite: SOC 1003. An introduction to the sociology of aging: content provides general and specific knowledge regarding the aging process. Implications for economic, political, and family institutions are emphasized.

SOC 4003  
MINORITY RELATIONS  
Prerequisite: SOC 1003. A study of minority groups with emphasis upon discrimination, socio historical characteristics and processes of change. Minorities considered include racial, ethnic, and gender.

SOC 4013  
DRUGS IN SOCIETY  
Prerequisites: SOC 1003 or CJ 2003. This course presents a comprehensive study of the history and prohibition of drug use in the United States, as well as the effects of drugs on society in the form of crime, prison and treatment. The main focus of this class is on the history of drug use, how certain drugs become illegal, and the intended and unintended consequences of drug prohibition for communities and society.
SOC 4023
SOCIOLOGY OF GENDER
Prerequisite: SOC 1003. This course addresses definitions of gender, gendered identities, how gender is created and maintained as a social construct, and the importance of gender in our daily lives. This class mainly focuses on the theoretical and empirical literature that encourages critical thinking about gender and challenges students to move beyond their preconceived notions/assumptions about gender.

SOC 4043
SOCIAL PSYCHOLOGY
Prerequisite: 9 hours of Sociology or permission. The study of how individuals are influenced by the actual or implied presence of other persons. Emphasis is placed on attitudes, social cognition, social influence, aggression, altruism, self and other perception.

SOC 4053
SOCIOLOGY HEALTH/ILLNESS
Prerequisite: SOC 1003. An in-depth look at the sociology of health and illness including an examination of the social structures related to the medical system, the social psychology of health and illness, a comparative analysis of sick role behavior as well as the study of social causes and consequences of health and illness.

SOC 4063
SOCIAL STRATIFICATION
Prerequisite: SOC 1003. A study of social class and consequences for society and individuals.

SOC 4073
SOCIOLOGY OF RELIGION
Prerequisite: SOC 1003. A study of the various theoretical explanations of religion, including its relationship to the larger society and the world system.

SOC 4141
SEMINAR IN SOCIOLOGY:
A directed seminar in an area of sociology. The specific focus will depend upon research underway, community or student need, and the unique educational opportunity available. May be repeated for credit if course content differs.

SOC 4142
SEMINAR IN SOC: RESEARCH
A directed seminar in an area of sociology. The specific focus will depend upon research underway, community or student need, and the unique educational opportunity available. May be repeated for credit if course content differs.
SOC 4143
SEMINAR IN SOCIOLOGY:
A directed seminar in an area of sociology. The specific focus will depend upon research underway, community or student need, and the unique educational opportunity available. May be repeated for credit if course content differs.

SOC 4144
SEMINAR IN SOC: RESEARCH
A directed seminar in an area of sociology. The specific focus will depend upon research underway, community or student need, and the unique educational opportunity available. May be repeated for credit if course content differs.

SOC 4206
THE LAW IN ACTION
Prerequisite: SOC/CJ 2043, 9 hours of Criminal Justice coursework, senior classification, and instructor permission. Offered only in the summer. An examination of sociological theories of law and main currents of legal philosophy is followed by participant observation of actual community legal agencies, including police, courts, and others as available.

SOC 4283
SOCIOLOGY CAPSTONE
Prerequisites: All required sociology courses (lower and upper division) and 9 hours of upper division electives in sociology, or consent of instructor. This course must be completed by all sociology majors prior to graduation. The course content/topic is determined by the professor and current issues in the local community, which may vary semester to semester. Emphasis will be placed on linking theory, research methods, and social action to community defined problems in the form of applied sociology.

SOC 4951
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

SOC 4952
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

SOC 4953
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.
SOC 4954
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

SOC 4991
SPEC PROB/SOC
Prerequisite: Prior approval by instructor. Content will be determined by specific curriculum review and student need.

SOC 4992
SPEC PROB/SOC
Prerequisite: Prior approval by instructor. Content will be determined by specific curriculum review and student need.

SOC 4993
SPEC PROB/SOC
Prerequisite: Prior approval by instructor. Content will be determined by specific curriculum review and student need.

SOC 4994
SPEC PROB/SOC
Prerequisite: Prior approval by instructor. Content will be determined by specific curriculum review and student need.

SPAN 1014
BEGINNING SPANISH I
Introduction to conversation, basic grammar, reading, and writing. Four hours of classroom instruction. Advanced placement and credit by examination are available to students who have previously studied Spanish. One hour of foreign language lab per week is required.

SPAN 1024
BEGINNING SPANISH II
Continued instruction in grammar and fundamental language skills. Four hours of classroom instruction. One hour of foreign language lab per week is required.

SPAN 1063
BASIC SPAN MEDICAL/SOC
Prerequisite: SPAN 1014 and 1024. Useful terminology and expressions for the medical and social service situation, with a minimum of grammar.

SPAN 2014
INTERMEDIATE SPAN I
Prerequisite: SPAN 1024 or equivalent. Instruction designed to develop greater facility in fundamental skills and more extensive knowledge of grammar. Four hours of classroom instruction. One hour of foreign language lab per week is required.

SPAN 2024
INTERMEDIATE SPAN II
Prerequisite: SPAN 2014 or equivalent. Instruction intended to complete the survey of the basic grammar of the language and to provide the mastery of fundamental skills essential for enrollment in upper level Spanish courses. Four hours of classroom instruction. One hour of foreign language lab per week is required.

SPAN 3003
CONVERSATION/COMP I
Prerequisite: SPAN 2024 or permission of instructor. Further study of Spanish grammatical systems with practice in composition and conversation based on analysis of short texts (newspaper articles, short stories, plays, poetry). Students are expected to use Spanish in oral and written expression.

SPAN 3013
CONVERSATION/COMP II
Prerequisite: SPAN 3003 or permission of instructor. Continuation of SPAN 3003.

SPAN 3023
INTRO TO LINGUISTICS
Prerequisites: ENGL 1023 or equivalent and SPAN 2024 or equivalent. A study of basic concepts in language, comparative characteristics of different languages, and the principles of linguistic investigation.

SPAN 3113
BUSINESS SPANISH
Prerequisite: SPAN 3003 or permission of instructor. The study of business culture, terminology, presentations and cases in the Hispanic world. This course will present a detailed examination of business practices in Latin America and other Spanish speaking countries. Emphasis will be given to business protocols when conducting business correspondence, personal interviews, and appointments, among others. Attention will also be given to the use of technology in business.

SPAN 3123
SPAN CIVILIZ/CULTURE
Prerequisite: SPAN 3013 or permission of instructor. Study of the geography, history, arts, institutions, customs and contemporary life of the Spanish people.

SPAN 3133
SPAN-AMER CIV/CULTURE
Prerequisite: SPAN 3013 or permission of instructor. Study of the geography, history, arts, institutions, customs and contemporary life of the peoples of Spanish America, with some attention to the major pre-Colombian civilizations.

SPAN 3143
STUDY ABROAD
Prerequisite: enrollment in a Tech-sanctioned study program in a Spanish-speaking country, completion of SPAN 2024 or equivalent, and permission of the Study Abroad supervisor. Study of the contemporary language and culture in a Spanish speaking country. May substitute for SPAN 3003 or SPAN 3013, depending on the student's proficiency level.

SPAN 3163
COMM INTERNSHIP EXPER
Prerequisite: completion of SPAN 2024 or equivalent. Study of contemporary language and culture in a Spanish-speaking community or setting. May be taken instead of SPAN 3143 to meet degree requirements.

SPAN 3213
ADVANCED GRAMMAR/USAGE
Prerequisites: SPAN 3013 or permission of instructor. The course is designed to build writing competence and strengthen grammatical competence. Grammar will be studied within the context of writing assignments. The course will deepen the knowledge of the language through the usage of applied linguistics, syntax, grammar, and semantics.

SPAN 3223
SHORT STORY
Prerequisite: SPAN 3013 or permission of instructor. An introductory study of French, German, or Spanish American short stories. Students will analyze short texts to strengthen their reading and text interpretation skills and to increase their knowledge of vocabulary.

SPAN 4003
ORAL COMMUNICATIONS
Prerequisite: SPAN 3013 or permission of instructor. This course is designed to strengthen students' oral communication skills by enabling them to converse easily with native speakers on everyday topics in preparation for the oral proficiency interview (OPI). $134 interview fee.

SPAN 4023
INTRO TO SPANISH LINGUISTICS
Prerequisites: SPAN 3013, 3023, 3213. The purpose of this course is to provide students with the fundamental knowledge of Spanish linguistics as the basis for future application of linguistic principles. This course explores Spanish phonetics, phonology, morphology, syntax and semantics.

SPAN 4213
SPANISH LITERATURE
Prerequisite: SPAN 3223 or permission of instructor. A survey of the literature of Spain with readings from representative works.

SPAN 4223
SPANISH-AMERICAN LIT
Prerequisite: SPAN 3223 or permission of instructor. A survey of Spanish American literature with readings from representative works.

SPAN 4283
SEMINAR IN SPANISH:
Prerequisite: SPAN 3013 or equivalent. Course content will vary. May be repeated for credit if course content varies.

SPAN 4384
MEDICAL INTERP THEORY
Prerequisite: Must be taken in the senior year prior to SPAN 4809, Practicum II. Fall. This course prepares students with the necessary theory and medical terminology to function effectively as interpreters in a variety of medical settings. $134 OPI fee.

SPAN 4701
FOREIGN LANG PEDAGOGY
Prerequisites: Admission to student teaching phase of the teacher education program and concurrent enrollment in SEED 4909. Intensive on-campus exploration of the principles of curriculum construction, applied methods, professional collaboration, and evaluation as related to teaching French, German, or Spanish, followed by professional internship application of these principles under the supervision of a qualified departmental instructor.

SPAN 4703
FOREIGN LANG TCH METH
Prerequisite: SPAN 3013 and 3113 or equivalent; admission to Stage II of the Secondary Education sequence or equivalent. Survey of instructional methods and discussions and demonstration of practical techniques for the teaching of a foreign language.

SPAN 4801
CULTURAL IMMER/RESEARCH
Fall. Prerequisite: SPAN 4801 must be taken in the senior year prior to SPAN 4809, Practicum II. This course provides students with initial experiences into the issues, challenges, and rewards of the Medical Interpretation profession by the first-hand observation and analysis of healthcare encounters between
physicians and families with limited English proficiency. Written reflections based on conversations with patients, physicians, nurses and other staff are also
expected. Field experience, one credit hour.

SPAN 4803
LATIN AMER FILM THEORY
Prerequisites: Completion of Spanish-American Civilization and Culture or equivalent. An introduction to Latin American film theory and major films. The
course traces the development of film and film theories in Latin America covering from its earliest initiatives in the 1950s in Peru, Venezuela, and Uruguay to
the present.

SPAN 4809
PRACTICUM MED INTERP II
Prerequisite: SPAN 4801 and 4384. Spring. This course aims at creating a synthesis of theory and practice in Medical Interpretation by providing students
with in-depth, practical experiences into the issues, challenges, and rewards of their profession. Students will provide interpretation services between
physicians and/or staff and families with limited English proficiency during healthcare encounters at an approved medical facility. Field experience, (8-8
contact hours per day), nine credit hours.

SPAN 4813
US LATINO/A LIT AND CULTURE
Prerequisite: SPAN 1024. This survey course offers an overview of the history of U.S. Latino/a literature, introducing the major trends and placing them into a
historical framework stretching from the nineteenth century to today. Topics to be discussed include the construction of identity in terms of race, gender,
sexuality, and class; bilingualism and code-switching; the experiences of exile, the immigrant, the marketing of the Latino/a identity; and the relationship of
the artist to his or her community.

SPAN 4901
FOREIGN LANG INTERNSHIP
Prerequisites: Advanced foreign language proficiency; permission of the instructor and the department head. The Foreign Language Internship is intended
primarily for majors in foreign languages or international studies. It is designed to provide outstanding students the opportunity to perfect their language
proficiency and to acquire specific training and skills overseas. The overseas sponsor and the foreign language instructor of record will supervise the intern.
Performance evaluations and a research paper will be required.

SPAN 4902
FOREIGN LANG INTERNSHIP
Prerequisites: Advanced foreign language proficiency; permission of the instructor and the department head. The Foreign Language Internship is intended
primarily for majors in foreign languages or international studies. It is designed to provide outstanding students the opportunity to perfect their language
proficiency and to acquire specific training and skills overseas. The overseas sponsor and the foreign language instructor of record will supervise the intern.
Performance evaluations and a research paper will be required.

SPAN 4903
FOREIGN LANG INTERNSHIP
Prerequisites: Advanced foreign language proficiency; permission of the instructor and the department head. The Foreign Language Internship is intended
primarily for majors in foreign languages or international studies. It is designed to provide outstanding students the opportunity to perfect their language
proficiency and to acquire specific training and skills overseas. The overseas sponsor and the foreign language instructor of record will supervise the intern.
Performance evaluations and a research paper will be required.
SPAN 4951
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

SPAN 4952
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

SPAN 4953
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

SPAN 4954
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

SPAN 4991
SPEC PROB/SPANISH
Prerequisite: SPAN 2024 and consent of the instructor and the department head. Designed to provide advanced students with a course of study in an area not covered by departmental course offerings.

SPAN 4992
SPEC PROB/SPANISH
Prerequisite: SPAN 2024 and consent of the instructor and the department head. Designed to provide advanced students with a course of study in an area not covered by departmental course offerings.

SPAN 4993
SPEC PROB/SPANISH
Prerequisite: SPAN 2024 and consent of the instructor and the department head. Designed to provide advanced students with a course of study in an area not covered by departmental course offerings.
SPAN 4994
SPEC PROB/Spanish
Prerequisite: SPAN 2024 and consent of the instructor and the department head. Designed to provide advanced students with a course of study in an area not covered by departmental course offerings.

SPH 1003
INTRO SPEECH-COMM
The purpose of this course is to develop within each individual an understanding of the utilitarian and aesthetic dimensions of speech communication and to increase ability to function effectively with others in a variety of communication situations.

SPH 1111
INDIV EVENTS PRACTICUM
Preparation and performance of a variety of public speaking events.

SPH 1121
INDIV EVENTS PRACTICUM
Preparation and performance of a variety of public speaking events.

SPH 2003
PUBLIC SPEAKING
Each semester. Prerequisites: ENGL 1013 or equivalent. Fundamentals of composition, delivery, and logical reasoning. Effective utilization of basic visual aids will be included.

SPH 2013
VOICE AND DICTION
A course for majors and non-majors. A study of the effective use of the voice, improvement of diction, development of vocabulary, use of the dialects, techniques of radio television announcing, recognition of basic speech disorders.

SPH 2111
DEBATE PRACTICUM
Case research and participation in public debate.

SPH 2121
DEBATE PRACTICUM
Case research and participation in public debate.

SPH 2173  
BUSINESS/PROF SPEAKING
An oral communication course for individuals in business, industry and the professions. Human communication theories and behavioral research are used as a framework for generating competencies in interviewing, briefings, conference leadership, and intergroup coordination.

SPH 3003  
INTERPERSONAL COMM
This course emphasizes interpersonal aspects of communication. Central topics are choice making, personal knowledge, creativity and interpersonal relationships. Increased self awareness, understanding of interpersonal relationships and improvement of interpersonal skills are primary goals.

SPH 3013  
INTERCULTURAL COMMUNICAT
Prerequisite: SPH 1003, or SPH 2003, or consent of instructor. An examination of communication variables in different cultures and how to better understand and more effectively communicate across diverse cultures.

SPH 3023  
INTRO TO LINGUISTICS
Fall. Prerequisite: ENGL 1023 or equivalent. A study of basic concepts of language, comparative characteristics of different languages, and the principles of linguistic investigation.

SPH 3033  
INTERVIEW PRINC/PRACTICE
Prerequisite: SPH 2003 or consent of instructor. A course for both majors and nonmajors that uses interviewing theory as a framework for developing skills in preparing for and practicing various types of interviews.

SPH 3043  
ADVANCED PUBLIC SPEAKING
Prerequisite: SPH 2003 or consent of the instructor. Focuses on enhanced preparation and delivery of advanced forms of public address. Critical analysis of various forms of public discourse and effective utilization of multi-media speech aids will be stressed.

SPH 3063  
ORAL INTERPRETATION
Theory and practice of intelligent and effective oral reading of prose and poetry.
SPH 3073  
GROUP COMMUNICATION  
Examines theory and procedures used when communicating in groups and teams. Areas of inquiry include principles of group formation and development, working in teams, leadership, conflict management, and discussion methods involving decision-making and policy implementation.

SPH 3083  
COMM/CLASSROOM TEACHER  
Prerequisites: Junior standing and completion of ENGL 1023 or equivalent. A study of the relationship between communication theory and instructional processes. Practical classroom experiences are stressed.

SPH 3111  
DEBATE PRACTICUM  
Case preparation, brief writing, and participation in public debate.

SPH 3121  
DEBATE PRACTICUM  
Case preparation, brief writing, and participation in public debate.

SPH 3123  
ARGUMENTATION  
Prerequisites: SPH 1003, SPH 2003 or equivalent, or consent of instructor. Designed to develop research, critical thinking, and persuasive speaking ability. Includes lecture, discussion, research, study of debates, classroom debates, and presentations.

SPH 3163  
WRITING FOR PERFORMANCE  
Students will learn to communicate orally through the medium of aesthetic texts such as monologues and plays. This course teaches skills necessary to all forms of dramatic writing, with emphasis on plot structure, character development, and dialogue.

SPH 3223  
NONVERBAL COMMUNICATION  
This course provides an examination of the various methods in which nonverbal communication is utilized in the communication process. Included in the examination will be historical contexts, as well as the effects of physical appearance, touch, proxemics, eye contact, kinesics, and voice.

SPH 4003  
HUMAN COMMUNIC THEORY
Prerequisite: 18 hours in Speech Communication, consent of instructor. This capstone theory class integrates learning about speech communication in various contexts. It is an in-depth study of contemporary and traditional perspectives of human communication, and synthesizes major concepts in human communication theory development.

**SPH 4053**  
**SPEECH-COMM SEMINAR**

Prerequisite: Junior standing. A course for both majors and non majors who want to investigate the relationship between human communication and contemporary social, political, and economic issues.

**SPH 4063**  
**ORGANIZATIONAL COMM**

Prerequisites: SPH 1003 and SPH 3003 or SPH 3073 or equivalent, or consent of instructor. Theories of organizational communication are examined in terms of their practical application to various organizational contexts, including social, political, profit, and nonprofit organizations. Includes lecture, discussion, research, and group projects.

**SPH 4073**  
**DIRECTING FORENSICS**

Prerequisites: SPH 2003, SPH 3063, SPH 3123, and/or consent of the instructor. Practical study and training to lead to the planning of activities, directing competitive events, and administration of a forensic program on the high school level.

**SPH 4111**  
**INDIV EVENTS PRACTICUM**

Preparation and performance of a variety of interpretive events.

**SPH 4121**  
**INDIV EVENTS PRACTICUM**

Preparation and performance of a variety of interpretive events.

**SPH 4123**  
**RHETORICAL CRITICISM**

Prerequisite: SPH 1003, or SPH 2003, or consent of the instructor. This course will provide the principles of rhetorical theories as they have developed throughout history, and apply them to the critical analysis of various communication events.

**SPH 4153**  
**PERSUAS/THEORY/AUD/ANALY**
Survey of classical and social science theories of persuasion. Particular emphasis is given to analysis of persuasive strategies, preparation of persuasive appeals, ethics of persuasion, and audience analysis. A consideration of social movements and persuasive campaigns is also included.

**SPH 4173**  
**INTERNSHIP SPH COMMUNICA**  
Prerequisites: Fifteen semester hours of Speech and SPH 4063, which can be taken concurrently; university grade point average of at least 2.50. A course that focuses on career goals of students through classroom discussions and places students in communication positions within public and private organizations.

**SPH 4701**  
**SPECIAL METHODS/SPH**  
Prerequisites: Admission to student teaching phase of the teacher education program and concurrent enrollment in SEED 4909. Intensive on campus exploration of the principles of curriculum construction, teaching methods, use of community resources, and evaluation as related to teaching speech.

**SPH 4951**  
**UNDERGRADUATE RESEARCH**  
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**SPH 4952**  
**UNDERGRADUATE RESEARCH**  
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**SPH 4953**  
**UNDERGRADUATE RESEARCH**  
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**SPH 4954**  
**UNDERGRADUATE RESEARCH**  
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**SPH 4991**  
**SPEC PROB/SPH-COM**
A course for majors only. Students are accepted by invitation of the instructor.

SPH 4992
SPEC PROB/SPH-COM
A course for majors only. Students are accepted by invitation of the instructor.

SPH 4993
SPEC PROB/SPH-COM
A course for majors only. Students are accepted by invitation of the instructor.

SPH 4994
SPEC PROB/SPH-COM
A course for majors only. Students are accepted by invitation of the instructor.

TACR 2013
INTRO AIR CONDITION SYST
This course is designed to teach the principles of the basic refrigeration cycle, including temperature-pressure relationships, evaporation, condensation, heat transfer, and refrigerants. The identification and use of hand tools, as well as safety principles and practices will be taught. Practical application is provided through laboratory activities.

TACR 2213
INTRO BOILER/STEAM GENER
This course is designed to teach the components, operation, and design characteristics of steam generation systems. Upon completion of this course, students will possess the knowledge needed to sit for the Arkansas Boiler License Exam. Students will gain experience on actual industrial equipment.

TACR 2223
AMMONIA REFRIGERATION SY
This course is designed to teach the components, operations, and design characteristics of commercial ammonia refrigeration systems. Applications of these principles combined with practical experience on actual commercial equipment should provide the student with the knowledge and skills to diagnose and repair normal equipment malfunctions.

TDFT 1013
BLUEPRINT READING
This course is designed to develop basic skills in reading blueprints and introduces the student to various types of working drawings for engineering and manufacturing purposes. Emphasis is placed on understanding basic concepts of orthographic projection and the ability to visualize objects.
TECH 1001
ORIENTATION TO UNIVERSITY
A course designed to provide information and enhance skills that will enable students to take responsibility for a successful transition to college. The course will expose students to college resources and requirements and promote the development of practical skills for college success.

TELT 1013
FUNDAMENTALS/ELECTRICITY
This course is a program cornerstone presenting the concepts of electricity and magnetism. AC and DC currents and voltages are explained. Ohm's law and the power equation are used to analyze series, parallel, and series-parallel resistive circuits. Fundamental theorems are used in the analysis of resistor networks. It is a study of various combinations of resistors, capacitors, and inductors into circuits that contain both resistance and reactance.

TELT 1123
INDUSTRIAL ELECTRICITY
Prerequisites: TELT 1013. This course is a study of the fundamentals of motors and motor control. The National Electrical Code standards for all circuits are emphasized. Content includes industrial applications of electronics. Subjects studied include relay ladder logic and troubleshooting, SCRs, Triacs, UJTs, polyphase rectifiers, AC/DC motor speed control, inverters, and advanced control systems.

TELT 1223
SOLID STATE
Prerequisite: TELT 1123. Semiconductor theory will explain the P.N. junction and its application in transistors and diodes. The principles of DC power supplies, amplifiers, and oscillators will be studied, ending with the application of field effect transistors. Positive and negative feedback circuits are covered including operational amplifiers, tuned amplifiers, Class A, B, and C amplifiers.

TELT 2013
PROGRAM/LOGIC CONTROL/AP
Prerequisite: TELT 1123. This course provides the student with an overview of the selection, programming, operation, and capabilities/limitations of programmable logic controllers. Application examples presented will define design requirements for input/output cards, memory requirements, scan time, update time, documentation, data highway/host computer interface, etc.

TELT 2233
ADVANCED PLC SYSTEMS
Prerequisite: TELT 2013. This course should provide the student with the comprehensive procedures needed to design and program a PLC System. Design and installation specifications will be examined to provide the student with a first experience in implementing process control systems. Hardware and software selection, as well as, Man to Machine Interface (MMI) will also be discussed. An emphasis will be given to advanced ladder logic programming techniques. Practical programming applications will be provided through laboratory activities.

TELT 2503
IND SYS: SPECIAL TOPICS
Prerequisites TELT 1013, 1313. This course is designed to provide special instruction on new and emerging topics in electronics and mechanical technology that are not otherwise covered in this curriculum. Topics for this course will be determined by the industry, the technology and the equipment to which the
students are exposed. This instruction is designed to provide the student with the knowledge and skills to diagnose and repair complex equipment malfunctions.

TELT 2991
ADV PROB/INDUSTRIAL SYS
Prerequisites: TELT 2503 or consent of advisor. This course is designed to provide advanced instruction to INDS majors in handling and solving special problems associated with unique and advanced systems in the industrial mechanical and electronic environment to which the students are exposed. It is designed to provide advanced students with further study and practical hands-on experience in a particular area. Variable credit from one to five hours may be assigned depending on the course topic and content.

TELT 2992
ADV PROB/INDUSTRIAL SYS
Prerequisites: TELT 2503 or consent of advisor. This course is designed to provide advanced instruction to INDS majors in handling and solving special problems associated with unique and advanced systems in the industrial mechanical and electronic environment to which the students are exposed. It is designed to provide advanced students with further study and practical hands-on experience in a particular area. Variable credit from one to five hours may be assigned depending on the course topic and content.

TELT 2993
ADV PROB/INDUSTRIAL SYS
Prerequisites: TELT 2503 or consent of advisor. This course is designed to provide advanced instruction to INDS majors in handling and solving special problems associated with unique and advanced systems in the industrial mechanical and electronic environment to which the students are exposed. It is designed to provide advanced students with further study and practical hands-on experience in a particular area. Variable credit from one to five hours may be assigned depending on the course topic and content.

TELT 2994
ADV PROB/INDUSTRIAL SYS
Prerequisites: TELT 2503 or consent of advisor. This course is designed to provide advanced instruction to INDS majors in handling and solving special problems associated with unique and advanced systems in the industrial mechanical and electronic environment to which the students are exposed. It is designed to provide advanced students with further study and practical hands-on experience in a particular area. Variable credit from one to five hours may be assigned depending on the course topic and content.

TELT 2995
ADV PROB/INDUSTRIAL SYS
Prerequisites: TELT 2503 or consent of advisor. This course is designed to provide advanced instruction to INDS majors in handling and solving special problems associated with unique and advanced systems in the industrial mechanical and electronic environment to which the students are exposed. It is designed to provide advanced students with further study and practical hands-on experience in a particular area. Variable credit from one to five hours may be assigned depending on the course topic and content.

TESL 4023
TESOL SEC LANG ACQUISITI
This course provides an introduction to the major theories of language acquisition and their application to the instruction of diverse groups of ESL students.
TESL 4703
TESOL MET:TCH ENGSEC LA

This course introduces students to the methodology in teaching listening, speaking, reading and writing English, as well as core content, to diverse groups of ESL students.

TESL 4713
TESOL ASSESSMENT

This course is an introduction to ESL assessment practices, including the design and evaluation of classroom tests and other assessment tools.

TESL 4723
TESOL TCH PEOPLE OTH CUL

This course provides an introduction to issues in language and culture, including sociolinguistic variations due to age, sex, social class and ethnicity.

TH 2203
PLAY ANALYSIS

A course designed for the theatre major. Contains techniques and vocabulary essential for doing a production-based analysis for the student actor, designer or director.

TH 2273
INTRO TO THEATRE

Prerequisite: ENGL 1013 or equivalent. TH 2273 may be used to fulfill the fine arts general education requirement. A study of theatre as an art form with particular attention to scenic, dramatic, literary and historic elements.

TH 2301
INTRO/TEATRICAL DANCE

An introduction to the basic skills and discipline of stage movement and the steps and vocabulary of jazz, tap and ballet. This course counts as a PE activity credit in degree programs that are not intended for teacher licensure.

TH 2331
ADV THEATRICAL DANCE

Prerequisite: TH 2301. This course provides a continuation of the skills development for stage movement, and the steps, vocabulary, and discipline of ballet, tap, jazz, modern dance, and basic partnering. This course counts as a PE activity credit in degree programs that are not intended for teacher licensure.

TH 2511
PRAC/SET CONS/LIGHT
Credit will be given for forty hours of participation in these elements of stagecraft.

TH 2513
INTRO THEATRIC DESIGN
An introduction to the field of technical theatre.

TH 2521
PRAC/SET CONS/LIGHT
Credit will be given for forty hours of participation in these elements of stagecraft.

TH 2611
PRAC/COSTUME/MAKEUP
Credit will be given for forty hours of participation in these elements of stagecraft.

TH 2621
PRAC/COSTUME/MAKEUP
Credit will be given for forty hours of participation in these elements of stagecraft.

TH 2703
ACTING THEORIES/TECH
An introduction to standard acting techniques, including method acting.

TH 2711
ACTING PRACTICUM
Prerequisite: Consent of instructor. Credit will be given for a large part in a major production or for a small part preceded by a series of smaller parts in previous productions.

TH 2713
INTERMEDIATE ACTING
Prerequisite: TH 2703 or equivalent. Emphasis on character development, character interaction, and scene work, with special attention to comedy.
TH 2721
ACTING PRACTICUM
Prerequisite: Consent of instructor. Credit will be given for a large part in a major production or for a small part preceded by a series of smaller parts in previous productions.

TH 3513
STAGECRAFT TECHNIQUES
An introductory course for both majors and non majors who want to learn the technical aspects of dramatic productions. A study of construction fundamentals and skills involved in scenic art. This course also introduces the student to the production process, theatre job descriptions, professional hierarchy, and technical specialist collaboration. This course requires a weekly lab in addition to the class for supervised practice of class skills.

TH 3523
PRIN/THEATRICAL LIGHT
Prerequisite: TH 3513, or consent of instructor. An introduction to lighting design, including the history of theatrical lighting, electrical theory and practice, lighting control systems, color theory and creative process. This course requires a weekly lab in addition to the class for supervised practice of class skills and familiarization with the production process.

TH 3703
ADVANCED ACTING: STYLES
Prerequisite: TH 2713 or equivalent. The analysis and performance of scenes from plays from various historical periods, with attention to vocal and kinesthetic qualities appropriate to different styles.

TH 3711
PRAC/STAGE MANAGEMENT
Prerequisite: Consent of Instructor. Student will be given credit for stage-managing a full-length production or a slate of one-acts. Each number may be taken for credit one time with a maximum of 7 practicum credits counted toward the major.

TH 3721
PRAC/STAGE MANAGEMENT
Prerequisite: Consent of Instructor. Student will be given credit for stage-managing a full-length production or a slate of one-acts. Each number may be taken for credit one time with a maximum of 7 practicum credits counted toward the major.

TH 3731
PRACTICUM IN ACTING
Prerequisite: Consent of Instructor. Credit will be given for a large part in a major production or for a small part preceded by a series of smaller parts in previous productions.
TH 3741  
PRACTICUM IN ACTING  
Prerequisite: Consent of Instructor. Credit will be given for a large part in a major production or for a small part preceded by a series of smaller parts in previous productions.

TH 3803  
DIRECT THEORIES/TECH  
An introduction to standard directing techniques.

TH 3811  
DIRECTING PRACTICUM  
Prerequisite: Consent of instructor. Credit will be given for directing a one act play.

TH 3821  
DIRECTING PRACTICUM  
Prerequisite: Consent of instructor. Credit will be given for directing a one act play.

TH 3833  
ADVANCED DIRECTING  
Prerequisites: TH 3811, and consent of instructor. Credit will be given for directing a full length play.

TH 4243  
SENIOR PROJ/THEATRE HIST  
Research project approved by the department to facilitate graduate school application.

TH 4263  
TH HIST I/ANTIQUITY/1564  
A historical survey of the development of drama and theatre from classical Greece through the sixteenth century.

TH 4273  
TH HIST II/1564 TO 1900  
A historical survey of the development of drama and theatre from the seventeenth to the nineteenth centuries.
TH 4283
CHILD TH: TECHNIQ/PRAC
Prerequisites: Consent of instructor. The philosophy of teaching acting to children, in theory and in practice. The course is designed for theatre majors, teachers, and others interested in child development. The semester equivalent of two hours of class lecture is combined with the semester equivalent of two hours of supervised laboratory experience in a children's theatre setting. May not be taken for credit after completion of SPH 5283 or equivalent.

TH 4313
TH HIST III/1900-1960
The development of theatre during the first part of the twentieth century, including realism, expressionism, symbolism, epic theatre, and theatre of the absurd. May not be repeated for credit.

TH 4323
TH HIST IV: 1960-PRESENT
The development of theatre during the latter part of the twentieth century, including neo realism, post modernism, feminism, political theatre, and collective creation. May not be repeated for credit as TH 5323.

TH 4503
SCENE DESIGN
Prerequisites: TH 3513, or permission of instructor. A study of the elements of design for the stage, from conception to finished production models, focusing on line, form, mass, and color. May not be repeated for credit as TH 5503 or equivalent.

TH 4506
HS PLAY PRODUCTION
This course provides essential information about high school play production. The course will provide basic information in lighting, sound design, set design and construction, makeup, costume design and construction, stage management, directing, and improvisational techniques. May not be repeated for credit as TH 5506 or equivalent.

TH 4511
PRAC SET CONSTRUCT/LIGHTING
Prerequisite: Consent of Instructor. Student will be given credit for 40 hours of set construction participation.

TH 4513
DRAFTING FOR THE STAGE
Prerequisite: TH 3513 or permission of the instructor. Introduction to the United States Institute for Technical Theatre drafting techniques and language. Production of floor plans, elevations, construction drawings and perspectives for theatrical construction. This course requires a weekly lab in addition to the class skills and familiarization with the production process.
TH 4521
PRAC SET CONSTRUCT/LIGHTING
Prerequisite: Consent of Instructor. Student will be given credit for 40 hours of set construction participation.

TH 4523
ADVANCED STAGECRAFT
Prerequisite: TH 3513, TH 4513 or permission of instructor. A course for technical theatre emphasis majors that trains the student for managing a theatre shop. Teaches advanced construction techniques, welding, pyrotechnics, and people managing skills. This course requires a weekly lab in addition to the class for supervised practice of class skills and production process.

TH 4543
SENIOR PROJECT IN DESIGN
Portfolio creation project approved by the department to facilitate graduate school application process or professional placement.

TH 4611
PRAC/COSTUME AND MAKEUP
Prerequisite: Consent of Instructor. Student will be given credit for 40 hours in costume or makeup participation. Each course number may only be taken for credit 1 time with a maximum of 7 practicum hours counting toward the major.

TH 4613
INTRO TO COSTUMING
An examination of the history, theory and practice of costume design. It makes use of lecture, practical experience and personal exploration through a variety of artistic media to help each student understand both the art and technology of costume design.

TH 4621
PRAC/COSTUME AND MAKEUP
Prerequisite: Consent of Instructor. Student will be given credit for 40 hours in costume or makeup participation. Each course number may only be taken for credit 1 time with a maximum of 7 practicum hours counting toward the major.

TH 4711
PRAC/STAGE MANAGEMENT
Prerequisite: Consent of Instructor. Student will be given credit for stage-managing a full-length production or a slate of one-acts. Each number may be taken for credit one time with a maximum of 7 practicum credits counted toward the major.

TH 4721
PRAC/STAGE MANAGEMENT
Prerequisite: Consent of Instructor. Student will be given credit for stage-managing a full-length production or a slate of one-acts. Each number may be taken for credit one time with a maximum of 7 practicum credits counted toward the major.

**TH 4731**  
PRACTICUM IN ACTING  
Prerequisite: Consent of Instructor. Credit will be given for a large part in a major production or for a small part preceded by a series of smaller parts in previous productions.

**TH 4741**  
PRACTICUM IN ACTING  
Prerequisite: Consent of Instructor. Credit will be given for a large part in a major production or for a small part preceded by a series of smaller parts in previous productions.

**TH 4821**  
PRACTICUM IN DIRECTING  
Prerequisite: Consent of Instructor. Student will be given credit for the assistance in the directing of a full-length production or for the independent directing of a one-act.

**TH 4831**  
PRACTICUM IN DIRECTING  
Prerequisite: Consent of Instructor. Student will be given credit for the assistance in the directing of a full-length production or for the independent directing of a one-act.

**TH 4843**  
SR PROJ/TH PERFORMANCE  
Portfolio creation project approved by the department to facilitate graduate school application or professional placement.

**TH 4951**  
UNDERGRADUATE RESEARCH  
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

**TH 4952**  
UNDERGRADUATE RESEARCH  
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.
TH 4953
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

TH 4954
UNDERGRADUATE RESEARCH
On demand. Requires departmental approval. Advanced students carry out independent research activity relating to a significant problem in a major field of study. Supervised by faculty member. Formal report and presentation required. One to four credits depending on problem selected and effort made.

TH 4983
THEATRE SEMINAR:
Prerequisites: Twelve credits in theatre and junior standing. A directed seminar dealing with a selected topic in theatre studies. May be repeated for credit for different topics. May not be repeated for credit as TH 5983 unless topic is different.

TH 4991
SPEC PROB: THEATRE
For majors only. Students are accepted by invitation of the instructor.

TH 4992
SPEC PROB: THEATRE
For majors only. Students are accepted by invitation of the instructor.

TH 4993
SPEC PROB: THEATRE
For majors only. Students are accepted by invitation of the instructor.

TH 4994
SPEC PROB: THEATRE
For majors only. Students are accepted by invitation of the instructor.

TIPM 1103
HYDRAULICS/PNEUMATICS
This course is a study of the basic industrial fluid power systems common to the field of automation, including basic principles, components, standards, symbols, circuits, and troubleshooting of hydraulic and pneumatic systems.

**TIPM 1203**  
**MAINTENANCE PLUMBING SYS**  
This course is designed to provide special instruction in the process of identifying tubing and piping with practical applications in sizing and fitting to different configurations using mechanical fittings, soft soldering, silver brazing and aluminum soldering. The course also provides the student with the knowledge and skills to diagnose and repair commercial plumbing systems.

**TMAC 1013**  
**BASIC MACHINE SHOP**  
Prerequisite: TMAT 1003. This course covers the use of hand tools, drills, lathe cutting tools, and tapers, and study the methods of machining them. Instructions are given in the care and operation of basic machine tools, measuring instruments, and shop safety procedures. Shop projects are designed to provide practice in accurate turning, knurling, threading, and other operation on the lathe.

**TMAC 1023**  
**MACHINE SET-UP AND OPER**  
Prerequisite: TMAC 1013. This course covers the set-up and operation of drilling machines, milling machines and grinders. Students learn abrasives, precision part layout and inspection, drilling, tapping, reaming and boring, as well as the care and used of precision measuring instruments.

**TMAC 1133**  
**WELDING OPTION**  
This course is comprised of in-depth study and practice of the gas tungsten arc welding process. The student's experience begins with the development of manipulative skills through the media of oxyacetylene welding, then progresses to similar applications with TIG welds in the standard positions. Joint designs are mastered on carbon steel, aluminum, and stainless steel.

**TMAT 1003**  
**TECHNICAL MATHEMATICS**  
Prerequisite: MATH 0903 or required placement score. Designed for students in occupational and technical programs, this course includes measurement, operations with polynomial expressions, use of equations and formulas, systems of linear equations, basic geometry, basic trigonometry, and basic statistics, with emphasis on industrial and other practical applications. This course requires a calculator capable of doing arithmetic with fractions.

**VIN 1113**  
**INTRO VITICULTURE/VINE ESTAB**  
This course is designed to introduce students to viticulture in general and to current practices for establishing a commercial vineyard. Topics covered include varietal selection, site preparation, equipment, site selection, first season establishment, vine growth development and training, trellis systems, weed control, vine disease control, and pruning for training purposes. Students are required to partner with an approved vineyard to participate in the required field experience portion of the course.
VIN 1132
WINTER VITICULTURE/VINE ESTAB
Pre-requisite: VIN 1113 This course is designed to provide students initiated in the field of viticulture practical experience in winter vineyard operations. Students are required to partner with an approved vineyard to participate in the required field experience portion of the course which will serve as work experience for those seeking employment in commercial viticulture.

VIN 1142
SPRING VITICULTURE TECHNOLOGY
Pre-requisite: VIN 1113 This course is designed to provide students initiated in the field of viticulture personal experience in spring vineyard operations. Students are required to partner with an approved vineyard to participate in the required field experience portion of the course which will serve as work experience for those seeking employment in commercial viticulture.

VIN 1152
SUMMER/FALL VITICULTURE TECH
Pre-requisite: VIN 1113, VIN 1132 recommended This course is designed to provide students initiated in the field of viticulture personal experience in spring vineyard operations. Students are required to partner with an approved vineyard to participate in the required field experience portion of the course which will serve as work experience for those seeking employment in commercial viticulture.

VIN 1463
INTRODUCTION TO ENOLOGY
This is an introductory course in the basic science and technology of winemaking. It is intended for the entrepreneur exploring business opportunities in the grape wine industry, and/or the prospective small winery employee interested in career development. The home winemaker that has never undergone any formal training on the subject may also benefit from this basic course. Students will make wine at home from a kit, track fermentation, make various chemical measurements and provide one bottle of finished wine to the instructor for evaluation at the conclusion of the course.

VIN 2112
INTEGRATED PEST MANAGEMENT
Effective grape production depends on the grower developing a system of grape management that is appropriate for each vineyard. Decisions need to be made for how to manage all of the normal cultural practices such as planting, fertility, harvesting, and pruning as well as managing the insect, disease, and weed problems that occur either regularly or sporadically. The information in this course will address management issues related to common, expected pest problems as well as the occasional appearance of minor pest problems.

VIN 2132
MIDWEST VINEYARD MANAGEMENT
Pre-requisite: VIN 1113 and VIN 1132 This course is a study of commercial grape growing in the Midwest of the United States. Topics include cultivars, vine nutrition, irrigation, canopy management, pests, maturity sampling and harvest, balanced pruning/cropping and cold injury.

VIN 2363
GRAPE VARIETIES OF MID AMERICA
Pre-requisite: VIN 1113 This course is designed to introduce students to the grape varieties best suited to the Mid American region with an emphasis on the Arkansas grape growing region. Students will benefit from in depth analysis of the regional factors which contribute to Midwest grape production.

VIN 2933
SOILS FOR VITICULTURE
The course will explore soil properties and behavior and their influence on wines. The course focuses not only on growth and production, but on the long-term effects of viticulture on soil quality and the wider environment.

VOBE 4023
METH TCH VOC BUSINESS
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) A methods course designed to prepare the beginning business educator for effective teaching in the contemporary vocational business education classroom. Teaching methodologies for the business education occupational clusters are presented and practiced.

VOBE 4043
OCCUPATIONAL ANALYSIS
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.)

VOBE 4053
TECHNOLOGY METHODS BUED
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) A course in technology education focusing on methods and hands-on activities utilized in secondary Business Education programs with emphasis on hardware, software, and program development. May not be repeated for credit as VOBE 5053 or equivalent.

VOBE 4063
EDUCATORS-IN-INDUSTRY
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) A course devoted to career awareness in relation to the modern workplace. It is conducted in cooperation with local businesses and industries. The course involves research, on-site instruction, and work experience.

VOBE 4093
DIR VOC WORK EXPER
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) Prerequisite: Consent of instructor and advisor's recommendation. A course for business teachers or business education students who desire or need practical, on-the-job experience in areas related to the vocational business education curriculum; designed to provide practical experience in a structured, supervised setting.

VOBE 4556
CLASSROOM/APPL/EDUC/PSY
(Additional prerequisites for 3000 and 4000 level courses are listed in the College of Business section of this catalog.) Prerequisite: Admission to Stage II of the teacher education program. Application of educational psychology principles to middle level and secondary classroom practices. The course may not be taken after completion of EDFD 3042, EDFD 3045.

**VOBE 4701**  
**SPECIAL METHODS/VOBE**

Prerequisites: Admission to student teaching phase of the teacher education program and concurrent enrollment in SEED 4909. Intensive on-campus exploration of the principles of curriculum construction, teaching methods, use of community resources, and evaluation as related to teaching vocational business.

**WLD 1103**  
**INTRO TO THERMAL CUTTING**

Students will learn the principles and procedures for oxyfuel cutting, plasma cutting, and carbon arc gouging. Safe shop practices will be emphasized.

**WLD 1202**  
**BLUEPRINT READING**

Students will learn to read and interpret various kinds of blueprints and working drawings. AWS welding symbols and their meanings will be taught.

**WLD 1212**  
**INDUSTRIAL SAFETY IN WLD**

The study of safe and industry accepted practices and equipment necessary for the safe use of all existing manual methods of welding. Student will learn to identify common industrial and occupational hazards and means to avoid accidents.

**WLD 1224**  
**INTRO TO ARC WELDING**

This course is intended to teach theory and application of basic Astick@ welding (SMAW). It will cover safety, correct selection of electrodes, practicing beds and the application of correct welds on actual structures.

**WLD 1302**  
**METALLURGY**

An elementary and practical approach to the structure, marking classifications, machinability and identification of metals and their properties. This will require the use of various manufacturer catalogs, bulletins and charts. Basic heat treatment and how metals are affected will be discussed.

**WLD 1402**  
**WELDING FOR TRADE/INDUST**
This course is intended to teach theory and application of Welding for trade and industry. This course will be specific to the needs and applicable to each area of interest. It will cover basic welding safety, correct cutting torch handling, basic Gas Metal Arc Welding, Gas Tungsten Arc Welding and Shielded Metal Arc Welding. Specific applications will be deemed by the appropriate advisor.

WLD 1403
WELDING FOR TRADE & INDUSTRY

This course is intended to teach theory and application of welding for trades and industry. This course will be specific to the needs and applicable to each area of interest. It will cover basic welding safety, correct cutting torch handling, basic gas metal arc welding (MIG), gas tungsten arc welding (TIG), and shielded metal arc welding. Specific applications will be deemed by the appropriate advisor.

WLD 1405
POSITION WELDING

Pre-requisite: WLD 1224 or permission of instructor. A continuation of the study of Arc welding concentrating on more advanced weld positions and varied electrodes. This course will also discuss hardfacing, padding, and the techniques for welding pipe.

WLD 1503
GAS METAL ARC (MIG) WELD

Pre-requisite: WLD 1405 or permission of instructor. Provides student with theory and application of wire feed processes also known as MIG Welding or semi-automatic and automatic processes. The student also gains an understanding of the basic gases and mixtures used for different materials.

WLD 1603
GAS TUNGSTON ARC (TIG) WELD

Pre-requisite: WLD 1405 or permission of instructor. Study of Gas Tungsten Arc (TIG) Welding commonly referred to as TIG or Heliarc. This course will focus on shielding gases, equipment and feasible use situations. Safety will be addressed and demonstrated in a lab experience.

WLD 1702
WELDMENT TESTING

Covers different types of testing such as destructive and nondestructive. Students will study guided bend, radiographic, ultrasonic, magnetic particle and dye penetrant tests, and take practical tests that are designed according to AWSD1.1 and ASME Section IX industry standard codes.

WLD 1804
CERTIFICATION WELDING I

Student practices with projects that are designed according to AWSD1.1 and ASME Section IX industry standard codes. The implementation and approval of the codes in accordance with AWSD1.1 and ASME section IX will be addressed. Documentation of procedure will also be covered.

WLD 2904
INTERNSHIP
This course is intended to teach theory and application of Welding for trade and industry. This course will be specific to the needs and applicable to each area of interest. It will cover basic welding safety, correct cutting torch handling, basic Gas Metal Arc Welding, Gas Tungsten Arc Welding and Shielded Metal Arc Welding. Specific applications will be deemed by the appropriate advisor.

**WLD 2991**
**SPECIAL TOPICS IN WELDING**

This course is designed to introduce students to specific areas in Welding Technology. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

**WLD 2992**
**SPECIAL TOPICS IN WELDING**

This course is designed to introduce students to specific areas in Welding Technology. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

**WLD 2993**
**SPECIAL TOPICS IN WELDING**

This course is designed to introduce students to specific areas in Welding Technology. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

**WLD 2994**
**SPECIAL TOPICS FOR WELDING**

This course is designed to introduce students to specific areas in Welding Technology. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

**WLD 2995**
**SPECIAL TOPICS IN WELDING**

This course is designed to introduce students to specific areas in Welding Technology. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.

**WLD 2996**
**SPECIAL TOPICS IN WELDING**

This course is designed to introduce students to specific areas in Welding Technology. Course content and credit are designed to meet the needs of the student. The topic will vary from offering to offering; thus, the course may be taken more than once for a total of 6 hours. This course requires 15 clock hours per one semester credit hour.
WS 1002
PHYS WELLNESS/FITNESS
The course provides students with the opportunity to assess their current lifestyle and consider the possible consequences for the present and the future. The class provides a mechanism for change by actively involving the student in self-analysis and a trial exercise program. Two scheduled class meetings and two hours arranged. This course will satisfy two credit hours of PE activity. $10 laboratory fee.

WS 1031
FOOD/EXER/BODY COMPOSIT
The course provides the student with the opportunity to assess their current lifestyle pertaining to the nutrients consumed in the diet and the amount and type of aerobic exercise participation. Special emphasis is placed on developing an internal locus of control by actively involving the student in self-analysis activities, developing an understanding of nutrient intake and the culminating effects on personal health, and participation in an appropriate aerobic exercise program. $10 laboratory fee.

WS 1061
MUSCLE FITNESS FOR WOMEN
Structured to provide for the development of insights and practices associated with resistive activity as the student accomplishes an individually predicted level of muscle fitness. $10 laboratory fee.

WS 1081
MUSCLE FITNESS FOR MEN
Structured to provide for the development of insights and practices associated with resistive activity as the student accomplishes an individually predicted level of muscle fitness. $10 laboratory fee.

WS 1091
FITNESS WALKING/JOGGING
The course provides the student with the opportunity to assess his or her personal physical fitness level with trained personnel. Special emphasis is placed on improving the physical fitness level of the student through participation in appropriately designed walking or jogging activity. Students who enroll in the class will submit themselves to the physical fitness protocol administered by the HPE and Wellness faculty members and upper-level majors. $10 laboratory fee.

WS 2003
FIELD-BASED EXPER/WELLNE
(Level 2 courses require completion of the following with a grade of C or better: PE 1201, WS 1002, ENGL 1013, ENGL 1023, MATH 1113, BIOL 1014, and SPH 2173.) The class provides the prospective Wellness/Fitness professional with an opportunity to observe on-site a community-based wellness/fitness agency or business. A combination of classroom and on-site experiences will direct the student's focus to various aspects of commercial or institutional programs and services aimed at lifestyle enhancement. Specific lecture-class meetings and at least 30 hours of observation in an agency or business setting will be required.

WS 2031
DIRECTING FOOD/EXER/BODY
(Level 2 courses require completion of the following with a grade of C or better: PE 1201, WS 1002, ENGL 1013, ENGL 1023, MATH 1113, BIOL 1014, and SPH 2173.) The course provides the student with the opportunity to assess their current lifestyle pertaining to the nutrients consumed in the diet and the amount and type of aerobic exercise participation. Special emphasis is placed on the methodology of teaching about the development of an internal locus of control.
control by actively involving the student in self-analysis activities, developing an understanding of nutrient intake and the culminating effects on personal health, and participation in an appropriate aerobic exercise program. The course is structured to provide for the development of knowledge and practices of directing food, exercise, and body composition programs employed to accomplish an individually predicted level of physical fitness. $10 laboratory fee.

WS 2043
APPL FITNESS ASSESS/DEV

(Level 2 courses require completion of the following with a grade of C or better: PE 1201, WS 1002, ENGL 1013, ENGL 1023, MATH 1113, BIOL 1014, and SPH 2173.) Prerequisites: PE 2653 and PE 3663. A survey and application of the knowledge and experiences in assessing and developing all components of physical fitness.

WS 2081
DIRECT MUSCLE FITNESS PR

(Level 2 courses require completion of the following with a grade of C or better: PE 1201, WS 1002, ENGL 1013, ENGL 1023, MATH 1113, BIOL 1014, and SPH 2173.) Structured to provide for the development of knowledge and practices of directing resistance training activities used to accomplish an individually predicted level of muscle fitness. $10 laboratory fee.

WS 2091
DIR FITNESS/WALK/JOGGING

(Level 2 courses require completion of the following with a grade of C or better: PE 1201, WS 1002, ENGL 1013, ENGL 1023, MATH 1113, BIOL 1014, and SPH 2173.) The course provides the Wellness/Fitness major student with the opportunity to assess the physical fitness level of individuals under the supervision of trained personnel. The course is structured to provide for the development of knowledge and practices of directing fitness walking and jogging activities employed to accomplish an individually predicted level of aerobic fitness. Students who enroll in the class will submit themselves to the physical fitness protocol as well as help administer various evaluation measures to members of a corresponding wellness activity class. $10 laboratory fee.

WS 3003
EXERCISE PRESCRIPTION

(Level 2 courses require completion of the following with a grade of C or better: PE 1201, WS 1002, ENGL 1013, ENGL 1023, MATH 1113, BIOL 1014, and SPH 2173.) Prerequisite: WS 2043 or consent of department head. A course designed to expose the student to the aspects of health-related and skill-related physical fitness, with particular attention given to prescribing exercise programs. Attention will be given to choosing appropriate fitness assessments, along with development of appropriate goals for clientele.

WS 3023
EXERCISE BEHAV.ADHERANCE

(Level 2 courses require completion of the following with a grade of C or better: PE 1201, WS 1002, ENGL 1013, ENGL 1023, MATH 1113, BIOL 1014, and SPH 2173.) The course provides the student with the opportunity to learn about the components which impact exercise behaviors and adherence to physical exercise programs. Emphasis is placed on the identification of components which directly impact on personal motivation for the development of appropriate exercise behaviors, and the development of incentives which assist in adherence to health enhancement programs.

WS 4003
ADV PROFESSIONAL SEMINAR

(Level 2 courses require completion of the following with a grade of C or better: PE 1201, WS 1002, ENGL 1013, ENGL 1023, MATH 1113, BIOL 1014, and SPH 2173.) Prerequisite: Completion of all 1000- and 2000-level Wellness Science required classes. This course provides the advanced wellness/fitness
major with a setting in which research and contemporary topics critical to the profession may be explored. The student will perform literature research, data gathering, and professional writing/presentation throughout the class.

**WS 4012**
**WLL/FIT PROG MANG INT**

(Level 3 requires completion of all WS, PE, and HLED content area courses with a grade of C or better and a cumulative GPA of 2.00 or better.) (Twelve hour course.) Prerequisites: Admission to internship program and 2.00 grade point average. Intensive on-campus classroom exploration of professional principles and procedures used in the areas of health and fitness promotion for the first three weeks of the semester. The remaining portion of the semester is spent in a supervised full-time internship at a designated site. Fee $25.

**WS 4063**
**WELLNESS/FITNESS PROGRAM**

(Level 2 courses require completion of the following with a grade of C or better: PE 1201, WS 1002, ENGL 1013, ENGL 1023, MATH 1113, BIOL 1014, and SPH 2173.) The course is designed to provide the student with the opportunity to discover various methods employed in planning and implementing wellness and fitness programs in multiple settings. Special emphasis is placed on the administration of client-specific health enhancement programs designed for persons in corporate settings, fitness center clientele, and patients in physical rehabilitation.

**WS 4991**
**SPEC PROB/WS**

(Level 2 courses require completion of the following with a grade of C or better: PE 1201, WS 1002, ENGL 1013, ENGL 1023, MATH 1113, BIOL 1014, and SPH 2173.) Independent work on approved wellness science topics under the individual guidance of a faculty member. Admission requires the consent of the department head.

**WS 4992**
**SPEC PROB/WS**

(Level 2 courses require completion of the following with a grade of C or better: PE 1201, WS 1002, ENGL 1013, ENGL 1023, MATH 1113, BIOL 1014, and SPH 2173.) Independent work on approved wellness science topics under the individual guidance of a faculty member. Admission requires the consent of the department head.

**WS 4993**
**SPEC PROB/WS**

(Level 2 courses require completion of the following with a grade of C or better: PE 1201, WS 1002, ENGL 1013, ENGL 1023, MATH 1113, BIOL 1014, and SPH 2173.) Independent work on approved wellness science topics under the individual guidance of a faculty member. Admission requires the consent of the department head.
Dr. Jason Patton, Interim Director

The Center, with the cooperation of various components of Arkansas Tech University, other state agencies and institutions, and professional staff, has the responsibility of planning and conducting competent research, investigations, demonstrations, and experiments of either a basic or applied nature, or both, in relation to energy, natural resources and the environment. The Center is committed to providing Arkansas Tech University students opportunities for involvement in these various projects.

Additional information may be obtained by writing or calling Dr. Jason Patton at the Arkansas Center for Energy, Natural Resources and Environmental Studies, 1701 N. Boulder Avenue, Russellville, Arkansas 72801; telephone (479) 968-0676.

eTECH (The Distance and Electronic Learning Program of Arkansas Tech University)

Ken Wester, Director
Ross Pendergraft Library and Technology Center Room 322 (479) 964-0567
kweste@atu.edu

The distance and electronic learning program of Arkansas Tech University (eTECH) was established in response to the changing higher education environment. The distance and electronic learning programs that comprise eTECH are an integral part of the overall academic program at Arkansas Tech University. The goal of eTECH is to provide a single focal point for On-Line Resources that are made available to extend the instructional programs of Arkansas Tech University. Courses offered through eTECH are fully accredited and, in some cases, an entire degree may be completed electronically without the need for actually visiting the campus.

Undergraduate students who require remediation, based on their ACT scores, must check with the Office of the Registrar to determine their eligibility to enroll in eTECH courses.

Students may apply for admission and registration through the Arkansas Tech University Web Site or by visiting the campus. You can learn more about eTECH and the courses offered by visiting http://etech.atu.edu.

---

Military Science

Arkansas Tech University students may enroll in military science courses offered on the Arkansas Tech Campus by the Department of Military Science at the University of Central Arkansas at Conway under a cross enrollment agreement. The objective of the department is to provide a basic military education and, in conjunction with the goals of Tech, to develop individual attributes essential to an Army officer. Instruction covers military fundamentals common to all branches of the military service.

Courses are open to all students. Requirements for enrollment in military science courses are as follows:

1. Student must be enrolled at Tech and remain at or above the University’s probationary level.
2. When contracted by the Department of Military Science, students must have a cumulative grade point average of at least 2.00; ROTC scholarship recipients must maintain a 2.50 GPA or better. Registration for military science courses is accomplished at the same time and in the same manner as registration for other courses through Tech. Students interested in this program may obtain further information by contacting the ROTC Department at (479) 498-6069.

Arkansas Tech Museum

Judith C. Stewarta-Abematthy, Director
1502 North El Paso Avenue Techonomy - Museum
(479) 964-0826
http://museum.atu.edu

Theresa Jureka-Johnson,
Education Coordinator
Donna Park,
Collections Manager

The mission of this Museum is to provide a center for collections, conservation, interpretation, and research concerned with the people and events of the Arkansas River Valley of western Arkansas, making this knowledge and interpretation available to the community served by Arkansas Tech University. Museum interpretation focuses on the establishment, history, and development of Arkansas Tech University, seeking to tell a compelling story of the places, events, and individuals making up the University’s history.

The museum officially opened in April 1992 and accepts visitors between the hours of 9:00 a.m. and 4:00 p.m., Tuesday through Thursday, as well as by special appointment, for evening lectures, and through events. Each Spring semester, the Museum offers a course entitled Interpretation/Education through Museum Methods, listed as MUSM (ANTH, HIST) 4403(5403).
Mission
The mission of the College is to provide high quality opportunities for learning to provide a foundation for life-long learning.

Core Values
The College of Applied Sciences values student learning. The College values enhancement of teaching and its positive impact on student learning. The College seeks to demonstrate to students, and professional conduct. The College continually seeks to improve all its programs.

Bachelor of Science
Agriculture Business with Horticulture Business, Animal Science, and Pre-Veterinary Medicine options
Computer Science
Information Systems
Emergency Management
Information Technology
Hospitality Administration
Recreation and Park Administration with emphases in:

Therapeutic Recreation
Natural Resource
Turf Management
Interpretation

Bachelor of Science in Electrical Engineering
Electrical Engineering

Bachelor of Science in Mechanical Engineering
Mechanical Engineering

Associate of Applied Science
Information Technology
Culinary Management

Associate of Science in Nuclear Technology
Nuclear Technology
Transfer Students

Applicability of transfer credit to meet specific degree requirements depends on the transfer student. They should review the Transfer Credit policy in the Admission section and consult with an advisor to determine final transfer credit eligibility for the selected program of study.
The Agriculture Department includes programs of study as follows:

1. A four-year curriculum in agriculture business, with horticulture and animal science, pest management and pre-veterinary medicine options, leading to a bachelor of science degree.
2. Pre-veterinary medicine - Through proper advising and taking courses in proper sequence, students can meet the minimum course requirements for entrance into Louisiana State University, University of Missouri, Oklahoma State University, Tuskegee Institute, and other institutions offering the D.V.M degree in two years.

The objectives of the department are to:

1. provide a balanced educational program with relatively broad interdisciplinary training as opposed to narrow specialization, thus preparing the student for success in his/her chosen field and in his/her citizenship responsibilities.
2. serve and assist the student in educational and personal problems through active faculty counseling.
3. assist the student in development and improvement of leadership abilities through encouragement of active participation in activities of the Agri Club, FFA Day and other extracurricular activities.

The baccalaureate degree program in agri-business integrates the discipline of agriculture, business, accounting, economics, and finance. Emphasis is placed on management directed toward the farm business and agri-business firms.

Trends in occupations related to agriculture are shifting from production to agri-business services such as management, processing, distribution, and marketing. This creates a need for personnel with a broad background in these areas of training. Our systems concept is geared to integration of disciplines to better prepare graduates for present day needs.

Attractive career opportunities exist in agricultural business firms, banks and other financial agencies, marketing, food processing, extension, soil conservation, forestry, farm and agri-business management, and sales and distribution firms.

The curricula that follow represent the program of study for the four-year degree in agri-business, including the horticulture, animal science, pest management and pre-veterinary medicine options. Students enrolled in programs other than agri-business may want to tailor their curriculum to best meet their individual needs.

1See appropriate alternatives or substitutions in "General Education Requirements" (Except ECON 2003).
2Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.
The Computer and Information Science Department offers four undergraduate programs: a Bachelor of Science in Computer Science, a Bachelor of Science in Information Systems, a Bachelor of Science in Information Technology, and an Associate of Applied Science in Information Technology.

The program in information systems prepares students for careers as application programmers/analysts in a business environment and for further graduate work in information systems. Business courses supplement a strong core of technical courses to enable students to design and implement business processing systems that require programming, databases, web development, networking, and client-server processing.

The program in computer science prepares students for careers as systems programmers in a scientific and/or engineering environment and for graduate work in computer science. Mathematics and engineering courses supplement a strong core of computer science courses, enabling students to design and implement software that requires complicated computations, data structures and interfaces.

The program in information technology prepares students for careers in administering and supporting the computing infrastructures of an organization. The curriculum consists of an integrated set of courses in networking, web development and administration, database development and administration, systems administration, and computer forensics.

# Curriculum in Information Technology

## Associate of Applied Science in Information Technology

The Associate of Applied Science in Information Technology program enables students to develop skills in the areas of web processing, databases, networking, programming, and various operating systems. These skills enable students to seek positions within the information technology industry.

The Department of Electrical Engineering offers a four-year degree program leading to the degree Bachelor of Science in Electrical Engineering (BSEE). This program is accredited by the Engineering Accreditation Commission (EAC) of ABET, Inc., the national accrediting board for engineering and technology. The degree program includes both traditional electrical engineering as well as a computer engineering option.

The mission of the Department of Electrical Engineering at Arkansas Tech University is to maintain an accredited program leading to the Bachelor of Science degree. The Department is committed to providing its students with a positive atmosphere in which to learn the fundamentals of engineering practice including engineering science and design. In order to fulfill its mission, the Department has established the following educational objectives.

Engineers who graduate from Arkansas Tech University with a BSEE degree will be:

1. Intellectuals - with a commitment to ethics, social and environmental responsibility, and lifelong learning.
2. Team Players - communicating, planning, coordinating, and managing projects and personnel with efficiency and effectiveness.
3. Problem solvers - learning new concepts, techniques, skills, and tools to aid in analyzing and designing electrical engineering systems.
4. Professionals - trained and competent in the fundamentals of engineering science, applied mathematics, laboratory practice, and principles of electrical and computer engineering.

The first two years of curriculum contain the needed science, mathematics, engineering, and computer science basics to prepare the student for the upper level courses. The junior and senior years of the traditional electrical engineering path include 12 hours of electives which allow students to concentrate their studies in an area of specialization such as electric power, controls and robotics, or communications.

The following curriculum represents the program of study and a suggested sequence for the Bachelor of Science in Electrical Engineering degree. The student should be aware that not all courses are offered each semester and that the ordering of courses is subject to change. In order to minimize scheduling difficulties, each student should schedule a special session with their advisor at the beginning of their junior year to plan the remaining coursework.

1. See appropriate alternatives or substitutions in "General Education Requirements".
2. Engineering Elective must be a 3000 or 4000 level Electrical Engineering course.
3. Technical Elective must be a course from Engineering, Math or the Sciences excluding courses intended for Education Majors. All electives must have approval of the Department.

A computer engineering option of the electrical engineering program will be available for enrollment by students in the fall of 2010.
The bachelor of science degree in Emergency Management (EAM) was established in 1997. Arkansas Tech University was one of the first institutions to offer a baccalaureate degree in this specialized and rapidly growing academic discipline. In 2006, the program became the first degree program to receive accreditation on a national as well as international level from the Foundation of Higher Education Accreditation in Emergency Management. In view of the interest in this degree from a wide geographic area including foreign countries, the degree is also available online as an electronic degree that was approved by the Higher Learning Commission in 2005. The program offers a master of science degree in Emergency Management and Homeland security for students seeking an advanced degree in the discipline.

The Department of Emergency Management at Arkansas Tech University is dedicated to:

1. Increasing learning and knowledge by providing outstanding teaching, scholarship, and service for the university and community.
2. Sustaining a department that supports faculty and students in their professional and intellectual growth.
3. Educating students to become leaders in the emergency management discipline and to make a positive contribution to the field.

Interest in emergency management and its importance from the global perspective have increased following recent events related to natural and technological hazards, terrorism, and other Homeland Security issues. The degree supports advancement opportunities for career professionals in a broad range of discipline areas as well as appealing to students seeking careers in emergency management in both the private and public sectors.

The curriculum in the EAM degree is based on the following core competencies for emergency managers:

- Management skills
- Communication skills
- Leadership and decision making skills
- Technical skills
- Political, bureaucratic and social contexts
- Comprehensive emergency management contexts
- Legal and ethical contexts
- Practical applications

The curriculum requires all students to complete 30 hours of EAM core courses which include 12 hours of credit for externship/internship experiences. This focus of the program is designed to build a solid foundation in emergency management concepts, competencies, and demonstrated applications. Additionally, students are required to complete 15 hours in an administrative core and 21 hours in an interdisciplinary core, which can include courses in both the natural and social sciences. Students have the option of addressing the interdisciplinary core by completing a minor in an area approved by the advisor as long as the total coursework equals 21 hours.

1. See appropriate alternatives or substitutions "General Education Requirements".
2. See appropriate alternatives in "Interdisciplinary Core".
3. See appropriate alternatives in "Required Administrative Core".
4. See appropriate substitutions in "EAM Core".
5. Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.

#### EAM Core (30 hours)

The student will select with the advisor’s recommendation 30 hours of credit from the EAM Core courses. EAM 1003, EAM 1013, and EAM 4033 are required classes for all students. In addition, all students must take 12 hours (EAM 3206 and EAM 4106) from the Practical Applications in addition to the 30 hours. Courses used in other categories, i.e. EAM Core, Administrative, or Interdisciplinary may not be counted in another category.

- EAM 1003 Living in a Hazardous Environment
- EAM 1013 Aim and Scope of Emergency Management
- EAM 2033 Citizen/Family/Community Disaster Preparedness Education
- EAM 3003 Developing Emergency Management Skills
- EAM 3013 Public Policy Issues in Emergency Management
- EAM 3023 Principles and Practice of Disaster Planning and Response Operations
- EAM 3033 The Social Dimensions of Disaster
- EAM 3123 Public Information Skills for Emergency Managers
- EAM 3143 The Economics of Hazards and Disaster
- EAM 3243 Introduction to Terrorism
- EAM 4003 Principles and Practice of Disaster Relief and Recovery
- EAM 4013 Business and Industry Crisis Management
- EAM 4023 Information Technology and Emergency Management
- EAM 4033 Emergency Management Research Methods/Analysis
- EAM 4043 Disaster and Emergency Management Ethics
- EAM 4053 Community Management of Hazardous Materials
- EAM 4991-3 Special Problems and Topics

#### Practical Applications (12 hours)

- EAM 3206 Externship
- EAM 4106 Practicum/Internship

#### Administrative Core\(^{1}\) (15 hours)

The student will select with the advisor’s recommendation 15 hours of credit from the following courses which are currently offered within each departmental area.

- BUAD 2003 Business Information Systems or
- COMS 1003 Introduction to Computer Based Systems\(^{T}\)
- BLAW 2033 Legal Environment of Business\(^{T}\)
- BUAD 2053 Business Statistics or
- SOC 2053 Statistics for the Behavioral Sciences or
- MATH 2163 Introduction to Statistical Methods\(^{T}\)
- COMS 1333 Web Publishing I
- COMS 1403 Orientation to Computing, Information, and Technology
- COMS 2003 Microcomputer Applications
- ENGL 2053 Technical Writing\(^{T}\)
- HA/HP 4113 Personnel Management in Parks, Recreation, and Hospitality Administration
- JOUR 2133 Introduction to Mass Communication
- JOUR 4033 Community Journalism
- JOUR 4063 New Communication Technology
- JOUR 4123 Laws of Communication
- PS 3023 Professional Communications
- PS 3133 Applied Principles of Personnel Management
- SPH 1003 Introduction to Speech-Communication\(^{T}\)
- SPH 2003 Public Speaking
- SPH 2173 Business and Professional Speaking
- SPH 3003 Interpersonal Communication
- SPH 3013 Intercultural Communication
- SPH 3033 Interviewing Principles and Practices
The student will select with the advisor’s recommendation 21 hours of credit from the following courses which are currently offered within each departmental area.

**Interdisciplinary Core**1,2  
(21 hours)

- ANTH 2003 Cultural Anthropology
- BIOL 1004 Principles of Environmental Science
- BIOL 3043 Conservation
- BIOL 3054 Microbiology
- BIOL 3114 Principles of Ecology
- BIOL 4023 Immunology
- BIOL 4094 Coastal Ecology
- CHEM 2143 Environmental Chemistry
- CHEM 2204 Organic Physiological Chemistry
- CHEM 3045 Quantitative Analysis
- CHEM 3254 Fundamentals of Organic Chemistry
- CHEM 3344 Principles of Biochemistry
- CHEM 4422 Advanced Organic Chemistry
- COMS 2703 Computer Networks and Architecture
- COMS 2733 Introduction to Computer Forensics and Security
- COMS 4703 Data Communications and Networks
- COMS 4713 Heterogeneous Networks
- CJ 2003 Introduction to Criminal Justice
- CJ/SOC 3023 Judicial Process
- CJ 4023 Law and the Legal System
- GEOG 2013 Regional Geography of the World
- GEOG 2023 Human Geography
- GEOG 3033 Physical Geography
- GEOG 4023 Economic Geography
- GEOG 4833 Geographic Information Systems
- GEOL 1014 Physical Geology
- GEOL 3044 Geomorphology
- GEOL 3083 Hydrogeology
- GEOL 3153 Environmental Geology
- HA 1013 Sanitation and Safety
- HLED 3203 Consumer Health Programs
- JOUR 2143 News Writing
- JOUR 3173 Public Relations Principles
- JOUR 3273 Public Relations Writing
- MATH 2183 Statistical Process Control
- MATH 2243 Calculus for Business and Economics
- MATH 3153 Applied Statistics I
- MATH 4123 Mathematical Modeling
- MATH 4173 Advanced Biostatistics
- PE 2513 First Aid
- PHSC 3033 Meteorology
- PHYS 3213 Modern Physics
- POLS 2013 Introduction to Political Science
- POLS 3033 American State and Local Government
- POLS 3053 Introduction to Public Administration
- POLS 3063 American Municipal Government
- POLS 3403 Comparative Government
- POLS 3413 International Relations
- POLS 3473 National Security Policy
- POLS 4103 Environmental Politics
- PSY 2003 General Psychology
- PSY 2033 Psychology of Adjustment
- PSY/SOC 3013 Psychosocial Aspects of Death and Dying
- PSY 3043 Environmental Psychology
- PSY 3063 Developmental Psychology I
- PSY 3083 Industrial Psychology
- PSY 3163 Developmental Psychology II
- RP 1993 Basic Forest Fighting
- RP 3053 Natural Resource Management and Planning

- SOC 1003 Introductory Sociology
- SOC/CJ 2033 Social Problems
- SOC 3063 Communities
- SOC/CJ 3083 Social Deviance
- SOC 4063 Minority Relations

1Students must address any prerequisites for these courses
2Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.
The minor in Emergency Management is designed to provide additional breadth for students majoring in related programs in the field of crisis and disaster management. The minor will require 18 hours of coursework emphasizing content in areas of human and physical consequences of natural and technological disasters along with mitigation procedures. Students may wish to minor in Emergency Management from disciplines listed in the Interdisciplinary Core such as Biology, Chemistry, Computer and Information Science, Criminal Justice, and Journalism.

*EAM 1003 Living in a Hazardous Environment
*EAM 1013 Aim and Scope of Emergency Management
Twelve hours of upper division EAM Core Classes
*Required for the Bachelor’s degree in EAM
The Department of Mechanical Engineering offers a four-year degree program leading to the Bachelor of Science in Mechanical Engineering (BSME) and a two-year degree program in Nuclear Technology. The program leading to the Bachelor of Science in Mechanical Engineering (BSME) degree is accredited by the Engineering Accreditation Commission (EAC) of the Accreditation Board for Engineering and Technology (ABET).

The mission of the Department of Mechanical Engineering at Arkansas Tech University is to develop and maintain accredited programs leading to the Bachelor of Science degree. The department is committed to providing its students with a positive atmosphere in which to learn the fundamentals of engineering practice including engineering science and design. In order to meet its mission, the department has established educational objectives for its program.

The educational objectives of the engineering program of the Department of Mechanical Engineering at Arkansas Tech University are:

1. To produce graduates who use the engineering skills and technical ability gained through the program to embark upon successful careers in mechanical engineering.
2. To produce graduates who engage in life-long learning.
3. To produce graduates who employ engineering analysis, experimental methods, and design techniques to solve engineering problems.
4. To produce graduates who demonstrate skills pertinent to the design process including the ability to formulate problems, to think creatively, to communicate effectively, to synthesize information and to work collaboratively.
5. To produce graduates who understand their professional and ethical responsibilities.

Mechanical engineering is the profession which designs, develops, and manufactures machines that produce, transmit, or use power. Mechanical engineers are involved in the design, development, and production of virtually every product one can imagine. The range of job possibilities for mechanical engineers, both in location and function, is limitless. The mechanical engineering program at Arkansas Tech is designed to give its students a solid grounding in the machine design and thermal systems areas and to help satisfy the engineering manpower needs of industry in Arkansas and the mid-south region. The required courses provide a basic foundation in mechanical engineering with a strong cross-disciplinary component and an emphasis on engineering design.

Most graduates of the engineering program go directly into the workforce as practicing engineers. Many are employed by manufacturing companies in the Arkansas River Valley area, while others have obtained positions with large national and multinational corporations. A number of graduates have elected to attend one of many different graduate schools specializing in disciplines such as engineering (electrical, mechanical, industrial, or nuclear), mathematics, physics, or business.

The first two years of the curriculum contain the needed mathematics, science, and engineering science basics to prepare the student for the upper-level mechanical engineering courses. The junior and senior years include 12 hours of engineering electives which allows the student to concentrate in one of the available areas of specialization which include machine design, nuclear systems, or thermal systems.

Transfer of Credit

Students wishing to transfer into one of the programs offered by the Department of Mechanical Engineering are urged to contact the Department Head as soon as possible to reduce the possibility of taking non-transferable courses. Course work taken at another institution must meet the requirements of the Arkansas Tech University transfer policies and, in addition, are subject to the department’s current transfer policy. Contact the Department of Mechanical Engineering for the latest course transfer information and policy.

Students planning to transfer to another university can, in most cases, complete the first two years of work at Arkansas Tech University. Students who plan to transfer should consult with the school to which they plan to transfer to coordinate details.

The following curriculum represents the program of study and a suggested sequence for the Bachelor of Science in Mechanical Engineering degree. The student should be aware that not all courses are offered each semester and that the ordering of courses is subject to change. In order to minimize scheduling difficulties, each student should schedule a special session with their advisor at the beginning of their junior year to plan the remaining coursework.

Nuclear Technology

The department also offers a two-year program leading to the Associate of Science in Nuclear Technology (ASNT) degree. This degree is designed to allow the student to obtain the knowledge base and training necessary to work in one of the many areas in the nuclear field. While many technology degrees, especially at the associate’s level, are seen as less rigorous paths, the ASNT program at Arkansas Tech University includes most of the same courses as the first two years of the engineering programs.

Graduates of the program leading to the Associate of Science Degree in Nuclear Technology may find employment in many areas of the nuclear industry. Many past ASNT graduates have continued their studies to obtain bachelors degrees in engineering or the physical sciences either at Arkansas Tech University or at other institutions.

The Department of Parks, Recreation and Hospitality Administration offers a Bachelor of Science in Recreation and Park Administration and Hospitality Administration, an Associate of Applied Science in Culinary Management and minors in Recreation and Park Administration.

The Recreation and Park Administration major provides specialized education that prepares students for supervisory and administrative positions in federal, state, and local recreation and park agencies as well as commercial recreation and tourism organizations. This program is accredited by the Council on Accreditation, sponsored by the National Recreation and Park Association.

Vision
The program will produce leaders in Recreation and Park Administration.

Core Values
The Recreation and Park Administration Program is committed to:
- Lifelong learning
- Service to community
- Personal and professional development
- Diversity of experience
- Environmental stewardship
- Interpersonal communication
- Healthy lifestyles

Mission
The mission of the Recreation and Park Administration Program is to educate Recreation and Park professionals for self, community and society.

Recreation and Park Administration

This program is designed to prepare students for management careers in private and public recreation agencies or park systems. A broad background in the behavioral and natural sciences is required with major emphasis on resource management and the delivery of leisure services to diverse populations. Specialized course work in biological sciences and business management aid in natural resource decision making. This provides a base for professional courses in planning, design, and operation of park and recreation facilities. A career in recreation administration, park administration, therapeutic recreation, turf management or interpretation requires a basic understanding of human behavior and the challenges of contemporary society. Due to the multidisciplinary nature of the career field, a student is required to choose courses from several related fields, based on professional interest. A comprehensive general education is complemented with a core of professional courses. The Bachelor of Science in Recreation and Park Administration offers five emphases of professional preparation:

Recreation Administration Emphasis prepares students to work in community and agency settings and commercial recreation businesses. Programming and people management are major areas of expertise.
Recreation Administration Emphasis

1See appropriate alternatives or substitutions in "General Education Requirements".
2See Departmental Advisor.
3Internship must be completed in last semester after all coursework has been completed.
4Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.

Therapeutic Recreation Emphasis prepares students for a career as a Certified Therapeutic Recreation Specialist (CTRS) working with special populations in clinical and community recreation environments. The specialized TR emphasis prepares students for national certification under guidelines established by the National Council for Therapeutic Recreation Certification.

Hospitality Administration

The Hospitality Administration Program is designed to prepare students for management positions within the hospitality industry such as lodging, resorts, conference, convention and visitor centers, restaurants, contract services, theme parks and travel and tourism related operations. The course work concentrates on general business, management, finance, marketing, accounting, law, computer science, and specific courses related to hospitality management. The entire curriculum features numerous opportunities for the practical application of problem-solving skills and creativity. The Hospitality Administration Program is accredited by the Accreditation Commission for Programs in Hospitality Administration.

Minor Recreation and Park Administration

The minor in Recreation and Park Administration is designed for those students majoring in other disciplines who wish to develop specialized knowledge in the area of Recreation and Park Administration. This minor may be of particular interest to those students who wish to work for a recreation and park oriented agency after graduation. This minor may be well-suited for Emergency Management, Fisheries and Wildlife Science, and Hospitality Administration majors. Flexibility in the minor allows students to choose courses to match their particular needs and interests. The minor in Recreation and Park Administration requires 18 hours of courses:

RP 1013 Principles of Recreation and Park Administration
RP 2003 Recreation Programming
RP Electives (12 hours of RP academic courses including 9 hours at the 3000 or 4000 level, excluding RP 3043, RP 4001, and RP 4116)

Mission

The mission of the Hospitality Administration Program is to provide quality education in hospitality administration and provide a foundation for professional growth and development. This is achieved by:

- Providing knowledge, skills and abilities through a comprehensive academic curriculum.
- Demonstrating professionalism, leadership and high ethical standards by a competent faculty and administration.
- Promoting community service and outreach.
- Emphasizing the importance of research and continuing education.
- Encouraging life-long learning.

The Hospitality Administration degree program is designed to prepare students for management positions within the hospitality industry such as lodging, resorts, conference, convention and visitor centers, restaurants, contract services, theme parks and travel and tourism related operations.

The course work concentrates on general business, management, finance, marketing, accounting, law, computer science, and specific courses related to hospitality management. The entire curriculum features numerous opportunities for the practical application of problem-solving skills and creativity. The Hospitality Administration Program is accredited by the Accreditation Commission for Programs in Hospitality Administration.

The Lodging and Club Management Emphasis prepares students for management careers in hotels, lodging, resorts, and public and private clubs. This emphasis will analyze competitive strategies, leadership styles, teamwork, and technology in this dynamic and ever-changing hospitality industry.

The Tourism and Event Management Emphasis prepares students for careers in tourism, convention and visitors bureaus and sport and event management. This emphasis will provide a background in commercial recreation, recreational sport and event management in Arkansas’ second leading industry and the world’s largest industry. Tourism and Event Management is a collection of industries under the larger umbrella of hospitality management.

The College of Arts and Humanities comprises seven departments which offer programs of study leading to baccalaureate and associate degrees as listed below:

**Bachelor of Arts**
- Art
- Art Education
- English
- English Education
- Foreign Language
- Foreign Language Education
- History
- International Studies
- Journalism
- Music
- Political Science
- Psychology
- Rehabilitation Science
- Social Studies Education
- Sociology
- Speech
- Speech Education

**Bachelor of Fine Arts**
- Creative Writing
- Creative Writing Education

**Bachelor of Music Education**

**Associate of Arts**
- Criminal Justice
- General Studies

In addition to the degree programs offered, the College of Arts and Humanities also offers minors in anthropology, art, creative writing, criminal justice, English, French, geography, German, history, Italian/Latin, Japanese, journalism, Latin American studies, military science, philosophy, political science, psychology, rehabilitation science, religious studies, sociology, Spanish, speech communication, strategic studies, teaching English as a second language, and theatre. The college also supervises pre-professional curriculum in law and is extensively involved in the general education program.

Through these degree and pre-professional curricula, the departments in the College of Arts and Humanities prepare graduates for a variety of challenging and rewarding careers, either directly or via continued graduate or professional studies. These curricula are designed not only to develop theoretical and technical expertise in the fine arts, humanities, and social sciences, but also to nurture the ability to think clearly and express ideas persuasively. Through its general education commitment and elective offerings, the college’s faculty contributes to the broadening of the knowledge and experience of all graduates of Arkansas Tech University by promoting basic competence in communication skills, by fostering an appreciation and understanding of our cultural heritage and current world affairs, and by developing problem-solving techniques.

**Transfer Students**

Applicability of transfer credit to meet specific degree requirements depends on the major selected by the transfer student. The transfer student should review the Transfer Credit policy in the Admission section of this catalog and meet with their academic advisor to determine final transfer credit eligibility for the selected program of study.

**Associate of Arts**

The associate of arts degree program in general studies is designed primarily for continuing education students who enroll on a part-time basis in the University’s evening school. This degree offers students the background, knowledge, and academic preparation necessary to pursue career opportunities not requiring the traditional four-year degree while at the same time providing the foundation for continued study toward a bachelor’s degree. To qualify for the associate of arts in general studies, the student must satisfy the associate degree requirements, see “Associate Degrees” and complete the following curriculum:

**International Studies**

The International Studies program is interdisciplinary. The Degree Program in International Studies requires 37 hours of General Education coursework, 30 hours of courses selected from an International Studies Core, 9 hours in a foreign language at the 3000 or 4000 level, 27 hours in an area of concentration, and sufficient electives to complete 124 hours with a minimum of 40 hours of upper division courses. Students may select areas of concentration from the available programs outlined below. Students must follow the established course sequence and prerequisite requirements already defined in the catalog.
International Studies majors are advised by the College Dean (479-968-0274, Witherspoon 240).

International Studies majors who choose a foreign language as an area of concentration must complete the foreign language requirement of 9 hours at the 3000 or 4000 level in a second foreign language. International studies majors who elect a foreign language as their area of concentration, and whose native language is not English, may elect 9 hours of English to fulfill their foreign language requirement. English courses must be at the 3000-4000 level. Students with previous foreign language experience may petition the Department of Foreign Languages and International Studies for advanced placement and credit. Petitioners will be given written and/or oral examinations by a foreign language faculty member who will then recommend an appropriate foreign language placement level. This placement level will not exceed FR 3013, GER 3013, JPN 2024, LAT 2013, or SPAN 3013, and will be approved by the department head. Students who have omitted one or more courses in the basic language sequence will receive credit for omitted courses when they have validated their advanced placement by passing the course into which they are placed with a grade of "C" or better.

1See appropriate alternatives or substitutions in "General Education Requirements".
2Students with previous study in a foreign language should refer to Foreign Language Advanced Placement and Credit under Credit by Examination.
3Lab attendance is required for the beginning and intermediate foreign language courses.
4At least 40 of the total hours required for graduation must be 3000-4000 level.
5Students must complete course with a grade of C or better.
6Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.

Concentration Areas:

Art Education: 27 hours
ART 1303; ART 1403; ART 2103 or ART 2113; ART 2403; ART 2413; ART 3003; ART 3013; 3 hours from ART 3113, ART 3123, ART 4103; 3 hours from ART 2503, ART 2703, ART 3533, ART 3603, ART 3803.

Biology: 28 hours
8 hours from BIOL 1114, BIOL 2124, BIOL 2134; 4 hours from BIOL 3114, BIOL 3034, BIOL 3074, BIOL 3124; 4 hours from any 1000/2000/3000/4000-level BIOL classes; 4 hours from any 3000/4000-level BIOL classes; 8 hours from any 2000/3000/4000-level CHEM classes.

Fine Arts: 18 hours
ART 1303, ART 1403, ART 2103 or ART 2113; ART 2403; ART 2413; 3 hours from ART 3113, ART 3123, ART 4103, ART 4823; 9 hours from ART 2503, ART 2703, ART 3533, ART 3603, ART 3803.

English: 27 hours
Any 27 hours of ENGL classes beyond ENGL 1023/1053.

German: 27 hours
Any 27 hours of GER classes. Reminder: Student must complete the foreign language requirement of 9 hours at the 3000 or 4000 level in a second foreign language.

History: 27 hours
HIST 2013, HIST 2513 or POLS 2513; HIST 4963; 3 hours from HIST 3313, HIST 3323, HIST 4133; 3 hours from HIST 4083, HIST 4483, HIST 4513; 3 hours from any 3000/4000-

Journalism: 27 Hours
JOUR 2133; JOUR 2143; JOUR 3114; JOUR 3143; JOUR 3183 or JOUR 3273; JOUR 4883; 2 hours from JOUR practicum (Broadcast, Print, or Multimedia); 6 hours from 1000/2000/3000/4000-level JOUR classes.

Philosophy: 27 Hours
PHIL 2003; PHIL 3013; PHIL 3013 or PHIL 3053; 3 hours from PHIL 3253; POLS 3253; PHIL 3063; 6 hours from PHIL 3003, PHIL 3013, PHIL 3113, PHIL 3203; 3 hours from PHIL 3033, PHIL 4093, PHIL 4103; 6 hours from 3000/4000-level Philosophy classes.

Political Science: 27 Hours
POLS 2013; POLS 2253; POLS 4963; 3 hours from PHIL 3253, POLS 3253, POLS 3063; 6 hours from POLS 3013, POLS 3473, POLS 3433, POLS 4103; 9 hours from 3000/4000-level POLS classes.

Religious Studies: 27 Hours
HIST 3803; HIST 4503; PHIL 2003; PHIL 2013; PHIL 3053; PHIL 3023; SOC 4073; ANTH 3233 or ENGL 2263; 3 hours from 1000/4000-level PSY classes.

Social Sciences: 27 Hours
HIST 4963 or POLS 4963; 3 hours from HIST 3313, HIST 3323, HIST 4133; 3 hours from PHIL 3253, POLS 3253, POLS 3063; 6 hours from HIST 3603, HIST 3703, HIST 3803; 9 hours from GEOG 3303, GEOG 4143, GEOG 3703, GEOG 4023; GEOG 4803.

Spanish: 27 Hours
Any 27 hours of SPAN classes. Reminder: Student must complete
level History class; 3 hours from HIST 3493, HIST 3513, HIST 3533; 6 hours from HIST 3603, HIST 3703.

Hospitality: 27 Hours
HA 1013; HA 1043; HA 2063; HA 3043; HA 4003; HA 4093; 9 hours from any 1000/2000/3000/4000-level HA class (excluding HA 4116).

Strategic Studies: 27 Hours
EAM 1003; EAM 1013; POLS 2153; POLS 3013; POLS 3473; 6 hours from HIST 4013, HIST 4023, HIST 4083, HIST 4813; 6 hours from ECON 4093, GEOG 4803, HIST 4013, HIST 4023, HIST 4083, HIST 4813, 3000/4000-level EAM classes.

Japanese: 27 Hours
Any 27 hours of JPN classes. Reminder: Student must complete the foreign language requirement of 9 hours at the 3000 or 4000 level in a second foreign language.

Theatre: 27 Hours
TH 2203; TH 2513; TH 2703; TH 3513; 3 hours from TH 4263, TH 4273, TH 4313, TH 4323; 12 hours from 3000/4000-level TH classes.

the foreign language requirement of 9 hours at the 3000 or 4000 level in a second foreign language.
The Art Department is committed to quality visual arts education consistent with high professional standards. To achieve its mission, the Art Department seeks to provide:

1. A strong core foundation in visual art concepts, skills, processes, technology and other art media.
2. Substantive curriculum content that challenges students to think critically in both creating and responding to art.
3. Historical perspectives necessary for student understanding of the role of art across time, as a form of communication, and in cultural contexts.
4. Opportunities for developing and assessing a portfolio consistent with areas of professional specialization.
5. Leadership in developing and providing access to visual arts programming for the university and community.

The department has three major components leading to the baccalaureate degree. The first, Art Education (curriculum also located in Secondary Education), provides a foundation of art skills, methodology, and advanced work through teaching internships necessary for teacher licensure. The second, the Fine Arts area, concentrates on drawing, painting, printmaking, ceramics, and sculpture and other special art interests. Third, the Graphic Design program enables a student to develop the skills and techniques required to engage in the various fields of advertising. All three curricula lead to the bachelor of arts degree. The department also offers a service course required in the area of general education. In addition, the department offers an art minor which provides an opportunity to investigate a range of content and studio experiences.

All majors will enroll in a foundations core made up of ART 1303, Introduction to Drawing; ART 1403, Two-Dimensional Design; ART 2403, Color Design; ART 2413, Three-Dimensional Design; ART 2103, Art History I; and ART 2303, Figure Drawing. Graphic Design and Art Education students are expected to include ART 1503, Introduction to Graphic design in their foundations core. These courses may be taken independently of one another, and more than one may be taken in a semester. All art majors are required to enroll in twelve hours of art history. All majors participate in an assessment process beginning with the Sophomore Review after students complete 12 hours of core courses to include ART 1303, ART 1403, ART 2403, ART 2413. It is prerequisite to advanced course work in all program areas. The Junior Review is to be completed one year before enrolling in the Senior Project Course (Spring Semester) for Fine Arts.

### Minor in Art

The minor program provides an opportunity to investigate a range of content and studio experiences. Students who wish to take advanced level coursework in any studio area must meet prerequisites. The minor in art requires 18 hours of courses:

- ART 1303 Introduction to Drawing
- ART 1403 Two Dimensional Design
- ART Electives (9 hours)

AND

3 hours selected from the following:

- ART 2123 Experiencing Art
- ART 2103 Art History I
- ART 2113 Art History II

---

All trademarks herein belong to their respective owners.
Psychology

The Psychology curriculum is designed to (1) prepare students for advanced study in psychology; (2) support, through electives, programs of study in other disciplines; (3) give a basis for entry into the job market; (4) arouse the curiosity of all students regarding human behavior; (5) provide opportunities for experiences outside the classroom by way of field programs and practical experiences.

The department has several distinctive goals. It gives basic preparation which may lead to advanced study; it provides a career line for work in state and local agencies and programs; it provides practical experience and skills in human services; and it offers electives to support other programs of study in the University.

The student may select a major in psychology, sociology, rehabilitation science, or criminal justice. In addition, the student may select an Associate of Arts in criminal justice or a minor in anthropology, psychology, sociology, rehabilitation science, or criminal justice.

While each area outlines a complete program below, one of the objectives of the department is to maintain maximum flexibility of planning with each student within the context of the broad range of offerings. Each student is encouraged to consult with a departmental advisor at the earliest opportunity to develop a program appropriate to his/her interests and goals.

The Psychology program is designed to (1) prepare students for advanced study in psychology; (2) support, through electives, programs of study in other disciplines; (3) give a basis for entry into the job market; (4) arouse the curiosity of all students regarding human behavior; (5) provide opportunities for experiences outside the classroom by way of field programs and practical experiences.

The student majoring in psychology must, in addition to meeting the general education requirements:

• Complete a minimum of 31 credits in psychology to include: (18 credits must be upper division).
  PSY 2003 General Psychology
  PSY 2033 Statistics for the Behavioral Sciences
  PSY 2074 Experimental Psychology

The remainder of the major may be developed to reflect various career goals.

If the student plans to go to graduate school, the following should be included: PSY 3053, PSY 3073, PSY 3153, PSY 4013, PSY 4033, PSY/SOC 4043, PSY 4073, PSY 4991.

If the student plans to seek employment in business, industry or organizational settings, the following should be included: PSY 2023, PSY 3093, PSY/SOC 4043, PSY 4234.

• Complete 15 credits in a second field of study designed to complement career objectives.

• Complete Introductory Sociology (SOC 1003) and Introduction to Anthropology (ANTH 1213) or Cultural Anthropology (ANTH 2003).

## Minor Psychology

The psychology minor is designed for students of any major who want to pursue an understanding of human behavior through psychology. Many majors could benefit from the psychology minor, but majors that are especially compatible include biology, business education, nursing, pre-med, pre-law, rehabilitation science, and sociology. The minor in psychology requires 18 hours of courses:

- PSY 2003 General Psychology
- PSY Electives (3 hours)
- PSY Electives (12 hours of 3000 or 4000 level)

- **Junior:** 15
- **Senior:** 16

\(^1\)See appropriate alternatives or substitutions in "General Education Requirements".

\(^3\)At least 40 of the total hours required for graduation must be 3000 - 4000 level courses.

\(^2\)A minor may be used to fulfill the 2nd field of study.

## Rehabilitation Science

The Rehabilitation Science curriculum is designed to produce undergraduate rehabilitation generalists who have training and experience conducive to successful careers in various rehabilitation service programs. Within the Rehabilitation Science major five areas of emphasis are offered: 1) Vocational Rehabilitation, 2) Aging, 3) Corrections, 4) Social Services, and 5) Child Welfare.

The primary objective of the program is to develop personnel for careers with state and private agencies providing rehabilitation services to individuals with a disability. Until such time as the student enters graduate school, he/she may work in a variety of roles in direct service agencies or institutions. Examples of these agencies and institutions are state rehabilitation services, departments of social services, mental retardation centers, mental hospitals, correctional facilities, nursing homes, halfway houses, sheltered workshops, employment security divisions, disability determination, and occupational skills training schools.

The student majoring in rehabilitation science must, in addition to completing the general education requirements:

- complete the rehabilitation and related required core, including 12 hours of field placement or a 12-hour internship in rehabilitation science. If the field placements are taken instead of an internship, the student must take one placement course in the core rehabilitation area, one in the chosen primary emphasis area, and one in the chosen secondary emphasis area.
- complete a minimum of 12 non-field placement hours in a primary emphasis area and 6 hours of the indicated courses in a secondary emphasis area. Emphasis areas available are vocational rehabilitation, social services, aging, corrections, and child welfare.

1 See appropriate alternatives or substitutions in "General Education Requirements".
2 To be chosen in consultation with advisor. Students are strongly encouraged to pursue a foreign language. At least 40 of the total hours required for graduation must be 3000 - 4000 level courses.
3 Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.

Minor Sociology

The sociology minor is designed to prepare students for employment in a range of careers that require an understanding of social processes and institutions. In addition, the sociology minor is provided for students whose major department requires a minor. The minor in sociology requires 18 hours of courses:

- SOC 1003 Introductory Sociology
- SOC 3133 Self and Society or CJ/SOC 2033 Social Problems
- SOC Electives (12 hours)

Associate of Arts Criminal Justice

The Associate of Arts degree program in criminal justice is designed primarily for students interested in police work at levels other than Federal. This degree will provide the basic, foundational knowledge to supplement the police academy experience.

Completion of the requirement for the associate’s degree will provide the necessary background for those continuing study towards a bachelor’s degree. To qualify for the Associate of Arts in criminal justice, the student must satisfy the associate degree requirements, see “General Education Requirements” of this catalog and complete the following curriculum:

Minor Criminal Justice

The criminal justice minor is designed to prepare students for a career in the field of criminal justice, e.g. police work, probation/parole or corrections. In addition, the criminal justice minor is provided for students whose major department requires a minor. The minor in criminal justice requires 16 hours of courses:

- CJ 2003 Introduction to Criminal Justice
- CJ 2043 Crime and Delinquency
- CJ Electives (12 hours)

Minor Anthropology

The minor in anthropology concentrates on the areas of cultural anthropology. Within this subdivision, the emphasis concerns historic and contemporary cultures (ethnography) and prehistoric cultures (archeology). The Russellville Station of the Arkansas Archeological Survey is located on the Arkansas Tech University campus and offers traditional opportunities in the state for students interested in anthropology. The minor in anthropology requires 18 hours of courses:

- ANTH 1213 Introduction to Anthropology
- ANTH 2003 Cultural Anthropology
- ANTH Electives (12 hours)
The Department of English offers majors and teacher licensure in creative writing and English. In addition, the department offers minors in creative writing, English, and teaching English as a second language.

The department’s programs seek to help students express themselves effectively, especially in writing; develop a respect for and an understanding of language; appreciate and profit from a study of our common literary heritage; increase their awareness of and empathy for diverse peoples and cultures; discover the relevance of ideas and values found in their reading; and learn to think critically and evaluate wisely.

Departmental majors are prepared for a variety of careers in advertising, communications, education, government, management, personnel work, public relations, and sales. A degree in creative writing or English also provides an excellent undergraduate preparation for the student planning to pursue graduate study of business, law, or the humanities.

The degree program in English requires 36 semester hours in English:

- Prepare for the student planning to pursue graduate study of business, law, or the humanities.

The degree program in creative writing requires 45 hours in English:

- Prepare for the student planning to pursue graduate study of business, law, or the humanities.

Students who plan to use an English or creative writing degree as a preparation for law school are encouraged to complete some of the following electives in addition to their required courses:

- Prepare for the student planning to pursue graduate study of business, law, or the humanities.

The Department of English offers majors and teacher licensure in creative writing and English. In addition, the department offers minors in creative writing, English, and teaching English as a second language.

1. See appropriate alternatives or substitutions in "General Education Requirements".
2. All minimum college hours (at least two semesters) should be in one language. Students with previous study in a foreign language should refer to Foreign Language Advanced Placement and Credit under Credit by Examination.
4. At least 40 of the 124 hours required for graduation must be earned in 3000-4000 level courses.
5. Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.

### Minor English

The English minor is an excellent complement to any major, allowing students to choose from a wide selection of courses in literature, advanced writing, and linguistics.

The minor in English requires 18 hours of English courses:

- ENGL Electives (9 hours, excluding ENGL 1013, 1023, 1043, and 1053)
- ENGL Electives (9 hours of 3000 or 4000 level)

4. Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.

### Minor Creative Writing

The minor in creative writing provides students who cannot complete a full major with an opportunity to explore their interests in writing.

The minor in creative writing requires 18 hours of courses:

- ENGL 2043 Introduction to Creative Workshop
- ENGL 3083 Fiction Workshop
- ENGL 3093 Poetry Workshop
- and 9 hours selected from the following:
  - ENGL 2881, 4881-4 Nebo Practicum
  - ENGL 2063 Advanced Composition
  - ENGL 3043 Literary Editing and Publishing
The minor in teaching English as a second language offers students an opportunity to add this useful specialization to their transcripts.

The minor in teaching English as a second language requires 18 hours of English and foreign language courses:

- ENGL 4023 Second Language Acquisition
- ENGL 4703 Teaching English as a Second Language
- ENGL 4713 ESL Assessment
- ENGL 4723 Teaching People of Other Cultures
- ENGL 4733 Teaching English in the Secondary School
- FR, GER, SPAN 4703 Foreign Language Teaching Methods
- and 6 hours selected from the following:
  - ENGL 3013 Systems of Grammar
  - ENGL, FR, GER, SPAN 3023 Linguistics
  - FR, GER, SPAN 4703 Foreign Language Teaching Methods
Department of Foreign Languages and International Studies

The mission of the Department of Foreign Languages and International Studies is to help students attain a state of intellectual freedom that enables them to grow personally, socially, and professionally. The department works to develop students' learning skills in foreign languages; to teach students to communicate effectively; to foster cultural understanding, tolerance and world perspective; and to prepare students to live in a global society.

The Department of Foreign Languages and International Studies offers programs of study leading to a baccalaureate degree in French, German, Spanish, International Studies, and Spanish Medical Interpretation. The programs are designed to prepare students to communicate effectively in another language, as well as live, study, or work in international settings. Study or work abroad opportunities, either as part of or after the four-year program, will be available to students. The programs are supported by the most up-to-date technology, available to students in the Foreign Languages Lab located in Dean Hall and Pendergraft Library.

Departmental majors will be prepared to pursue graduate degrees and a variety of careers in business and industry, communication, education, foreign service, government, and public relations.

Tech offers a comprehensive foreign languages program. Students may choose a degree program in French, German, and Spanish; pursue studies in Chinese, Italian, Japanese, Latin, and Russian; or complete a minor in French, German, Japanese, Italian/Latin, Latin American/ Latino studies with language proficiency, Latin American/Latino studies without language proficiency, and Spanish.

All foreign languages majors will be required to take the ACTFL Oral Proficiency Interview (OPI) prior to graduation and score at the Advanced Low level. The OPI fee is currently $134. Each student is responsible for the cost of the exam.

All foreign languages education majors must have at least an Advanced Low oral proficiency rating on the ACTFL Oral Proficiency Interview (OPI) for admission to the internship. The OPI fee ($134) is assessed with enrollment in FR/GER/SPAN 4003. Each student is responsible for the cost of the exam.

The degree program in Foreign Languages requires 38 hours in foreign languages. A student's credit by examination and course work must total 38 semester hours.

Foreign Languages majors may pursue teacher licensure in French, German, and Spanish. The curricula for teacher licensure in French, German, and Spanish are printed in the catalog section of the College of Education.

Students with previous foreign languages experience may petition the Department of Foreign Languages and International Studies for advanced placement and credit. Petitioners will be given written and/or oral examinations by a foreign language faculty member who will then recommend an appropriate foreign language placement level. This placement level will not exceed FR 3013, GER 3013, JPN 2024, LAT 2013, or SPAN 3013, and will be approved by the department head. Students who have omitted one or more courses in the basic language sequence will receive credit for omitted courses when they have validated their advanced placement by passing the course into which they are placed with a grade of "C" or better.

Students have the opportunity to attend universities abroad for a semester or an academic year (see the catalog entry under Student Exchange Opportunities).

Student advising is an important part of the programs. Departmental majors will work closely with their faculty advisors to assure successful academic progress.

Curriculum in Foreign Languages
(BA Degree with Concentration in French, German, or Spanish)

1See appropriate alternatives or substitutions in "General Education Requirements".
2Students with previous study in a foreign language should refer to Foreign Language Advanced Placement and Credit under Credit by Examination.
3Lab attendance is required for the beginning and intermediate foreign language courses.
4At least 40 of the total hours required for graduation must be 3000-4000 level.
5All foreign language majors will be required to take the OPI.
6Must complete course with grade of C or better.
7Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.

Spanish Medical Interpretation

The BA Degree in Foreign Languages with a Concentration in Spanish Medical Interpretation is an interdisciplinary degree, drawing heavily from the Sciences, from Nursing and Spanish. Students who choose this degree will take a minimum of 12 hours of Science, 37 hours of Nursing, and 37 hours of Spanish and fulfill their general education requirements.

A degree in Spanish Medical Interpretation is designed to prepare students to work with clients in the medical field who speak Spanish and little or no English, and who need assistance in communicating with doctors and other healthcare providers. The nature of the translation requires that students are trained in health care and possess a native or near native fluency in Spanish.

Students admitted to this degree program must demonstrate at least a beginning proficiency in Spanish and are expected to demonstrate advanced proficiency in Spanish upon completion of the program. Students who are native speakers of Spanish must demonstrate proficiency in English upon admission. Students may receive up to eleven (11) hours of Advanced Placement credit in Spanish.

It is recommended that students without computer skills enroll in COMS 1003. Prerequisites for NUR 3204, 3606, 3703, 4206, and 4606 will be waived for students majoring in Foreign Languages with Concentration in Spanish Medical Interpretation.

Students must comply with the following requirements:

1. Maintain at least a grade of B in all the Spanish language courses.
2. Maintain at least a 2.75 grade point average on a 4.00 scale in order to be admitted to upper division nursing courses.
3. Acquire professional student liability insurance and current certification of Basic CPR for adults, children, and infants as taught by the American Heart Association, the American Red Cross, or persons currently certified in CPR instruction. These must be renewed each year.
4. Produce evidence of immunity to chicken pox or vaccination.
5. Obtain Hepatitis B Vaccine series.

1See appropriate alternatives or substitutions in "General Education Requirements".
2Students with previous study in a foreign language should refer to Foreign Language Advanced Placement and Credit under Credit by Examination.
3Lab attendance is required for the beginning and intermediate foreign language courses.
4At least 40 of the total hours required for graduation must be 3000-4000 level.
5An oral proficiency level of Advanced Low, as demonstrated by a score on the ACTFL Oral Proficiency Interview, will be required of all Spanish Medical Interpretation majors. The OPI fee ($134) is assessed with enrollment in SPAN 4384.
6Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.

Minor French

The minor in French is designed for foreign language majors who would like to study an additional language and for students who cannot complete a major in a foreign language, but for employment or other considerations, would like to obtain some basic foreign language competencies and be familiar with the culture of the target language. The minor in French requires 17 hours of courses (all course prerequisites must be met first).
Minor German

The minor in German is designed for foreign language majors who would like to study an additional language and for students who cannot complete a major in a foreign language, but for employment or other considerations, would like to obtain some basic foreign language competencies and be familiar with the culture of the target language. The minor in German requires 17 hours of courses (all course prerequisites must be met first):

GER 2014 Intermediate German I
GER 2024 Intermediate German II
GER 3003 Conversation and Composition I
GER 3013 Conversation and Composition II
GER 3113 Culture and Civilization

Minor Japanese

The minor in Japanese is designed for foreign language majors who would like to study an additional language and for students who cannot complete a major in a foreign language, but for employment or other considerations, would like to obtain some basic foreign language competencies and be familiar with the culture of the target language. The minor in Japanese requires 17 hours of courses (all course prerequisites must be met first):

JPN 2014 Intermediate Japanese I
JPN 2024 Intermediate Japanese II
JPN 3003 Conversation and Composition I
JPN 3013 Conversation and Composition II
JPN 3113 Culture and Civilization

Minor Italian/Latin

The minor in Latin/Italian is designed for foreign language majors who would like to study an additional language and for students who cannot complete a major in a foreign language, but for employment or other considerations, would like to obtain some basic foreign language competencies and be familiar with the culture of the target language. The minor in Latin/Italian requires 17 hours of courses (all course prerequisites must be met first):

LAT 1013 Beginning Latin I
LAT 1023 Beginning Latin II
ITAL 2014 Intermediate Italian I
ITAL 2024 Intermediate Italian II
ITAL 3113 Culture and Civilization

Minor Latin American/Latino Studies with language proficiency

The minor in Latin American and Latino Studies with language proficiency is designed for students who wish to obtain a sufficient background about the Spanish speaking populations in Arkansas and the United States. This minor will be particularly valuable to students who are already bilingual and who plan to work with native Spanish speakers in the health fields, law enforcement, education, and the service sectors. The minor in Latin American and Latino Studies with language proficiency requires 18 hours of courses (all course prerequisites must be met first):

HIST 3313 Colonial Latin America
HIST 3323 Modern Latin America
HIST 4133 Latinos in the United States
AND
9 hours selected from the following:
SPAN 3123 Spanish Civilization and Culture
SPAN 3133 Spanish-American Civilization and Culture
SPAN 3143 Contemporary Hispanic Culture Immersion Experiences
SPAN 4213 Spanish Literature
SPAN 4223 Spanish-American Literature
SPAN 4803 Foreign Language Internship
SPAN 4991-3 Special Problems in Spanish

Minor Latin American/Latino Studies without language proficiency

The minor in Latin American and Latino Studies without language proficiency is designed for students who wish to obtain a sufficient background about the Spanish speaking populations in Arkansas and the United States, but who do not wish to major in either history or Spanish. This minor will be particularly valuable to students who plan to work with native Spanish speakers in the health fields, law enforcement, education, and the service sectors. The minor in Latin American and Latino Studies without language proficiency requires 19 hours of courses (all course prerequisites must be met first):

ANTH 3233 MesoAmerican Archeology
GEOG 3303 Geography of Latin America
HIST 3313 Colonial Latin America
HIST 3323 Modern Latin America
HIST 4133 Latinos in the United States
SPAN 1024 Beginning Spanish II
The minor in Spanish is designed for foreign language majors who would like to study an additional language and for students who cannot complete a major in a foreign language, but for employment or other considerations, would like to obtain some basic foreign language competencies and be familiar with the culture of the target language. The minor in Spanish requires 17 hours of courses (all course prerequisites must be met first):

- SPAN 2014 Intermediate Spanish I
- SPAN 2024 Intermediate Spanish II
- SPAN 3003 Conversation and Composition I
- SPAN 3013 Conversation and Composition II or SPAN 3113 Business Spanish
- SPAN 3133 Spanish-American Civilization and Culture
The baccalaureate degree in history or political science is excellent preparation for careers in government and education, for further study in graduate school or law school, and for careers in the private sector of the economy. For personal and career flexibility, students majoring in history can design their degree requirements by selecting courses in World History, American history, or European history. Political science majors can select among courses in American politics and international relations. Students may also elect to work toward social studies secondary teaching licensure. In addition, the department offers minors in geography, history, philosophy, political science, and strategic studies.

The history degree requires thirty nine semester hours in courses in addition to the required General Education courses. In the General Education requirements, history majors are required to take the two-course sequence in World Civilization (HIST 1503, 1513), and introductory courses in political science and economics (POLS 2003, ECON 2003). The thirty nine semester hours required for the history degree include the two-course sequence in American history (HIST 2003, HIST 2103), Regional Geography of the World (GEOG 2013), three hours of a foreign language or speech, the introduction to anthropology or sociology (ANTH 2003 or SOC 1003), Historical Methods (HIST 2513), Arkansas History (HIST 4153), and Senior Seminar (HIST 4963). Fifteen additional semester hours must be 3000-4000 level history courses with at least six hours in U.S. History and six hours in World/European History.

The political science degree requires thirty nine additional semester hours beyond the General Education requirements. In the General Education requirements, political science majors are required to take the two-course sequence in American History (HIST 2003, HIST 2103), one of the two World Civilization courses (HIST 1503, HIST 1513), and an introductory course in sociology, psychology or economics (SOC 1003, PSY 2003, ECON 2003). The thirty nine semester hours required for the political science degree include the introductory course (POLS 2003), Western Political Thought (POLS 2253), Research Methods I (POLS 2511), either American Political Behavior (POLS 3123) or Congress (POLS 3113), and either Comparative Government (POLS 3403) or International Relations (POLS 3413). Majors also choose one course from each of the four political science blocks: Research Methods, Political Theory, International Relations, and American Politics. Nine semester hours of electives, six of which must be 3000-4000 level and Senior Seminar (POLS 4963) complete the major requirements.

Students must complete 124 hours for graduation with a degree in history or political science.

For the curriculum in Social Studies for teacher licensure, see “Curriculum in Secondary Education”.

Minor Geography

The minor in geography is designed to allow students who have successfully completed eighteen or more hours in Geography the opportunity to have his/her transcript noted with a statement certifying such accomplishment.

Students must have a minimum 2.00 grade point in their Geography courses to be eligible for a Geography minor.

Students wishing to obtain a minor in geography must complete:

- GEOG 2013 Regional Geography of the World
- GEOG 2023 Human Geography
- GEOG Electives (12 hours with no more than 3 hours in GEOG 4991-4, Special Problems in Geography)

Minor History

The minor in history is designed for those students majoring in other disciplines who wish to increase the breadth and depth of their knowledge of the human past. This minor is particularly well suited for students who are interested in criminal justice, international studies, and foreign languages. The discipline of history satisfies our shared desire to know more about ourselves, and students can tailor the curriculum of the minor to meet their specific interests. Students must have a minimum of 2.00 grade point in History courses to be eligible for a History minor. The minor in history requires 18 hours of courses:

- HIST 1503 World Civilization I or HIST 1513 World Civilization II
- HIST 2003 U. S. History I or HIST 2013 U. S. History II
- HIST Electives (12 hours of 3000 - 4000 level)

Minor Military Science

The minor in military science is awarded to students who complete the Reserve Officer's Training Corps (ROTC) Program at Arkansas Tech University. The objective of the program is to provide a basic military education and, in conjunction with the goals of the University, to develop individual attributes essential to an Army officer. Instruction covers military fundamentals common to all branches of the military service. Students must have a minimum of a 2.00 grade point average in the required 21 hours to be eligible for a Military Science minor. Students wishing to obtain a minor in Military Science must complete:

- MS 1101 Leadership I
- MS 1111 Leadership II
- MS 2312 Military Organization/Tactics I
- MS 2402 Military Organization/Tactics II
- MS 3503 Advanced Leadership and Tactics I
- MS 3603 Advanced Leadership and Tactics II
- MS 4703 Applied Leadership and Management I
- MS 4803 Applied Leadership and Management II

and

- MS 4013 United States Military History or HIST 4013 United States Military History

Minor Philosophy

The minor in philosophy is designed for those students who wish to broaden their study of the nature of knowledge. This minor is particularly well suited for students who wish to prepare for graduate work or law school. In addition to the academic benefits, the study of philosophy can make an important contribution to the well-lived life. Students can tailor the curriculum of the minor to meet their specific interests. Students must have a minimum 2.00 grade point in their Philosophy courses to be eligible for a Philosophy minor. The minor in philosophy requires 18 hours of courses:

- PHIL 3103 Logic

and 6 hours selected from the following:
- PHIL 2013 Religions of the World
- PHIL 3023 Ethics
- PHIL 3033 Esthetics
- PHIL 3053 Philosophy of Religion
- PHIL 3253 Classical Political Thought
- PHIL 3563 Modern Political Thought
- PHIL 4103 Advanced Logic

and 6 hours selected from the following:
- PHIL 3003 Ancient Philosophy
- PHIL 3013 Modern Philosophy
- PHIL 3113 Contemporary Philosophy
- PHIL 3203 Medieval Philosophy
- PHIL 4093 American Philosophy

and 3 hours in any additional Philosophy courses

Minor Political Science

The minor in political science is designed for anyone interested in politics, law, and government and is particularly well suited for students who are interested in criminal justice, international studies, journalism, business, and emergency management. Students can tailor the curriculum of the minor along either a national or international focus. Students must have a minimum 2.00 grade point in their Political Science courses to be eligible for a Political Science minor. The minor in political science requires 18 hours of courses:

- POLS 2253 Survey of Western Political Thought
- POLS 3123 American Political Behavior or POLS 3133 United States Congress or POLS 3143 The United States Presidency
- POLS 3413 International Relations or POLS 3403 Comparative Government
Minor Religious Studies
The minor in religious studies is designed to provide students with the opportunity to learn about religion in cross-cultural and historical perspectives. The required courses are designed to provide a comparative perspective on world religions and to develop an appreciation of both the origins and contemporary expressions of different religions. This minor is particularly well suited for students in the humanities and social sciences as well as students in other disciplines who want to deepen their understanding of the role of religion in contemporary life. Students must have a minimum of 2.00 grade point in the required 18 hours to be eligible for a Religious Studies minor:

HIST 1503 World Civilization I
ANTH 2003 Cultural Anthropology
PHIL 2013 Religions of the World
PHIL 3053 Philosophy of Religion
SOC 4073 Sociology of Religion
HIST 4503 History of Christianity

Minor Strategic Studies
The minor in strategic studies is designed for those students who wish to increase the breadth and depth of their knowledge of the principles that have played a major role in shaping our understanding of foreign and security policy. This minor is particularly well suited for students who are interested in international studies, emergency management, political science, diplomatic history, military science, and international law. Students wishing to obtain a minor in Strategic Studies must complete:

POLS 2153: Introduction to Strategic Studies
POLS 3013: Recent American Foreign and Military Policy
POLS 3413: International Relations
POLS 3473: National Security Policy

and any two of the following courses:
EAM 3243: Introduction to Terrorism
EAM 3013: Public Policy Issues in Emergency Management
ECON 4093: International Economics and Finance
GEOG 4803: Seminar in Global Studies
HIST 4083: American Diplomatic History, 1912 to the Present
HIST 4013: American Military History
HIST 4023: Vietnam War
HIST 4813: World War II

Students must have a minimum 2.00 grade point in the required 18 hours to be eligible for a Strategic Studies minor.

Pre-Law Pre-Professional Program
Pre-Law Advisors
Witherspoon Room 255

Accredited law schools have not, in general, adopted specific requirements for pre-law courses. However, in most cases, courses of value to those planning the study of law include: history, economics, political science, philosophy, psychology, sociology, English composition, and literature, as well as courses in the natural sciences, mathematics, and accounting. A broad cultural background is of prime importance. Rather than attempt to prescribe the specific contents of courses to be taken by pre-law students, Arkansas Tech University considers the individual intellectual interests of students of prime importance, encouraging development of the ability to read and comprehend accurately, rapidly, and thoroughly; to think logically; to analyze and weigh situations and materials; to speak and write clearly; and to develop a critical approach and mature study habits.

The pre-professional curriculum is not a major in itself. Pre-law students must declare a major for graduation selected from any degree currently offered at Arkansas Tech University. Among general electives in the chosen major, or in excess of the 124 hours required for graduation, pre-law majors are urged to take the courses listed below to prepare them for the LSAT and law school. Many pre-law students choose to major in History and Political Science, and pre-law advisors are located in that department. Students should consult these listed pre-law advisors regardless of their chosen major, as these advisors specifically help students design a good pre-law curriculum. A pre-law library has been set up in Witherspoon 242 for student use.

The mission of the Arkansas Tech University Music Department is to fully exercise its tradition of educational and cultural regional leadership to enhance the quality of life through the art form of music, providing undergraduate educational, artistic, and career opportunities for individuals and the greater society.

The music department has an established reputation for the superior quality of the music teacher preparation program and for high standards in musical performance. Arkansas Tech University is an accredited institutional member of the National Association of Schools of Music.

The goals of the music department are:

1. To provide excellence in music instruction;
2. To provide music instruction for students desiring to pursue music-related studies as a major, as preparation for graduate music studies, and as preparation for a career in music;
3. To provide music curricula leading to the Baccalaureate of Arts with a major in music;
4. To provide the necessary and desirable professional preparation for the training of accredited music teachers for public schools (Baccalaureate in Music Education);
5. To provide opportunities for meaningful professional growth through direct involvement in musical performance;
6. To provide educational and artistic service to students, the institution, the community, and the region;
7. To encourage creative work and research; and
8. To dedicate policies and resources for effectiveness in departmental programs.

An audition, demonstrating acceptable musical preparation, is required prior to enrollment as a major in music.

To meet the requirements for the baccalaureate degree in music, the student must complete 124 semester hours, including 8 hours of applied music and successful completion of the Sophomore Barrier and Keyboard Proficiency Exams, 4 hours in required ensembles (band or choir), 16 hours in music theory and ear training; and 8 hours of music history.

All music majors must demonstrate acceptable piano proficiency or enroll in class or applied piano each semester until successful completion of the appropriate Piano Proficiency Exit Exam. The fee for class piano is $10 per semester. All music majors are required to attend a prescribed number of campus concerts and recitals. Successful completion of 6 semesters of recital attendance is required.

Private instruction in the student’s major performance area is required of all music majors. Such study involves one thirty-minute lesson, 6 hours of practice per week, and carries two semester hours of credit. Students may elect enrollment as a non-major, subject to faculty availability. Such study involves one thirty-minute lesson, 6 hours of practice per week, and assigned ensemble participation. A fee of $40 per semester credit hour is assessed for all applied music study.

1. See appropriate alternatives or substitutions in "General Education Requirements".
2. Piano (MUS 1441 or MUS 1021) to be taken each semester until completion of Piano Exit Exam. Students completing the exam upon entrance may substitute music elective hours for the requirement.
3. Enrollment in MUS 1501, 1571 or 1681 to be selected by advisor. Only one credit per semester may be used for completion of major ensemble requirement.
4. Piano (MUS 1441 or MUS 1021) to be taken each semester until completion of Piano Exit Exam. Students completing the exam upon entrance may substitute music elective hours for the requirement.
5. Vocal majors are encouraged to enroll in Vocal Diction (MUS 1241, 2241, 2252) for elective credit.
6. Successful completion required for enrollment in upper-level applied study for two-hour credit and for completion of all music degrees.
7. Concurrent enrollment is required for applied study in appropriate MUS 1501, 1571 or 1681.
8. MUS 2003 may not be used to fulfill Fine Arts requirement.
9. Elective courses to obtain a minimum of sixty-six non-music hours (21-23 in addition to General Education and Foreign Language hours).
10. Elective courses to obtain a minimum of forty 3000/4000 level hours (32 in addition to music history hours).

1. See appropriate alternatives or substitutions in *General Education Requirements*.
2. Required for enrollment in upper-level applied study for two-hour credit and for completion for all music degrees.
3. Prerequisite: admission to Stage II.
4. MUS 2003 may not be used to fulfill Fine Arts requirement.
5. See admission policy and procedure.
6. For licensure, students must pass the Praxis II specialty and Principles of Learning and Teaching exam.
7. Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.
The Speech, Theatre, and Journalism Department offers majors in speech (speech communication and theatre options) and in journalism. In addition, the department offers minors in journalism, speech, and theatre. Students are involved in both the theoretical and applied dimensions of human communication in these programs. Consequently, students interested in further study and those interested in immediate career opportunities are served. With faculty guidance on the proper selection of courses, students can prepare for: (1) graduate school, (2) public school teaching, (3) recreational or professional theatre, (4) print or broadcast journalism, (5) public relations, or (6) business or government employment requiring communication expertise.

Being able to speak effectively has been recognized as an indicator of the well-educated person throughout recorded history. The ancient Greeks studied the theory and practice of communication under the label of "rhetoric," which also has taken a central role in American education since Harvard was founded in 1636. Even in today’s technologically sophisticated world, good human communication skills are vitally important for one’s personal and professional life. The study of communication in its original form, speech, or its evolved stages of print and electronic communication can prepare the student for citizenship in a democratic society, for more satisfying relationships, and for occupational success.

Journalism

The journalism major requires 31-32 semester hours in Journalism: 9 hours of core requirements, 12-13 hours in one of three options (print, broadcast, or public relations), 6 hours of electives, and 4 hours of practicum. 18 hours of the 31-32 hours major must be upper division hours. Students may take a total of eight hours of practicum coursework; however, only four will count toward the major. The 12 hours in any option must include the pertinent writing course. Recommended courses for each option are listed, with substitutions possible with the approval of the student’s advisor and department head. Moreover, Journalism requires two semesters (6 to 8 hours) of one foreign language; and all majors must know how to type on a computer keyboard.

Core Requirements
JOUR 2133 Introduction to Mass Communication
JOUR 2143 News Writing
JOUR 4883 Mass Communication Theory

Print Option:
JOUR 3114 News Editing
JOUR 3143 News Reporting (required for concentration)
JOUR 3153 Feature Writing
JOUR 4143 Advanced Reporting

Broadcast Option:
JOUR 2153 Introduction to Telecommunication
JOUR 3183 Broadcast News Writing (required for concentration)
JOUR 3193 TV Production
Either JOUR 4143 Advanced Reporting or
JOUR 4163 Advanced Photography and Video

Public Relations Option:
JOUR 3173 Public Relations Principles
JOUR 3273 Public Relations Writing (required for concentration)
JOUR 4073 Graphic Communication
JOUR 4173 Public Relations Project

### Minor Journalism

The minor in journalism is designed for students with any major who wish to better understand the role of media in a free society, and/or who anticipate dealing with media outlets in their future careers. The minor in journalism requires 18 hours of courses:

- JOUR 2133 Introduction to Mass Communication
- JOUR 2143 News Writing
- JOUR 4883 Mass Communication Theory
- JOUR Electives (9 hours of 3000 or 4000 level from the three Journalism Options listed above)

### Speech Communication Option

The speech major offers a speech communication option and a theatre option. Both options require 30 semester hours selected from departmental course offerings. Eighteen hours of the 30-hour major must be upper division level. Students planning to teach in the public schools should refer to the suggested curriculum in Speech set forth in this catalog under teacher licensure curricula, College of Education.

Those students choosing the speech communication option must take SPH 1003, SPH 2003, SPH 3003, SPH 3073, SPH 3123, and SPH 4003. Students choosing the speech communication option, in consultation with an adviser, can design a program in one of the following areas of emphasis: (1) communication for the professions; (2) language and culture; (3) organizational communication; and (4) performance studies.

1See appropriate alternatives or substitutions in *General Education Requirements*.

2Certain electives and social sciences are recommended based on student’s emphasis.
Minor Speech Communication Option

The minor in speech communication is designed for students with any major who recognize the need for communication skills in order to achieve their career goals. The minor in speech requires 18 hours of courses:

- SPH 2003 Public Speaking
- SPH 3003 Interpersonal Communication
- SPH 3073 Group Communication
- SPH 3123 Argumentation
- SPH 3043 Advanced Public Speaking
- SPH Elective (3 hours of 3000 or 4000 level)

Theatre Option

Those students choosing the theatre option must take SPH 2013, TH 2203, TH 2513, TH 2703, TH 3513; 3 hours of Theatre History, TH 4263, TH 4273, TH 4313, or TH 4323; and 3 hours of production practicum. Students selecting the theatre option, in consultation with an advisor, can utilize their TH electives to design a program in one of the following areas of emphasis: (1) Design/Technical or (2) Performance/History.

Curriculum in Speech (Speech Communication Option)

Suggested Sequence in Courses

Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.

Curriculum in Speech (Theatre Option)

Suggested Sequence of Courses

1See appropriate alternatives or substitutions in "General Education Requirements".
2Choose one: TH 4263, TH 4273, TH 4313, TH 4323.
3A maximum of seven hours of theatre practicum courses may be counted toward the thirty-hour major.
4Certain electives and social sciences are recommended based on student’s emphasis.
5Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.

The minor in theatre is designed for students with any major who wish to acquire a better knowledge and understanding of the theatrical arts in order to enrich cultural experiences in their life. The minor in theatre requires 18 hours of courses:

- TH 2203 Play Analysis
- TH 2703 Acting Theories and Techniques
- TH 2513 Intro to Theatre Design and Production
- TH 3513 Stagecraft Techniques
- TH Elective (3 hours)

and 3 hours selected from the following:

- TH 4263 Theatre History I: Antiquity to 1564
- TH 4273 Theatre History II: 1564 to 1900
- TH 4313 Theatre History III: 1900 to 1960
- TH 4323 Theatre History IV: 1960 to Present
Arkansas Tech University has offered baccalaureate degrees with majors in business and accounting since 1950 and 1959 respectively. The degree programs were housed in the Division of Business and then in the School of Systems Science prior to the establishment of the School of Business in 1986. The School of Business became the College of Business in 2009. The College is comprised of a Department of Management and Marketing and a Department of Accounting and Economics. Business students may seek a Bachelor of Science in Business Administration with major fields of study in Accounting, Economics & Finance, and Management & Marketing or a Bachelor of Science with a major in Business Education.

From its early years the College has used full-time faculty to teach primarily full-time undergraduate students. The faculty believe that teaching excellence and the currency of subject matter are best maintained through ongoing professional interaction with peers and the business community. In support of its mission, the faculty participates in service and engages in scholarly activities oriented towards professional practice and pedagogical research.

College of Business faculty and students use current technology to equip students with the necessary business competency skills needed to be successful leaders in business. Students and faculty are encouraged to participate actively in the learning process. A high degree of faculty-student interaction is sought through the management of class sizes and individualized advising. The College adheres to high levels of ethical conduct and promotes this ideal to its students as they prepare for personal and professional success in an evolving global business environment.

Our Vision
The Arkansas Tech University College of Business will be recognized as the premier undergraduate business program in the state of Arkansas.

Our Mission
The mission of the College of Business is to provide undergraduate students with the intellectual foundation for lifelong learning by combining a quality education in fundamental business management competencies with a broad exposure to the liberal arts.

Our Guiding Principles
The College of Business carries out its mission through its commitment to the following guiding principles and core values:

Excellence
Professionalism
Collaboration
Continuous Improvement

The College is committed to:

- High-quality undergraduate learning and faculty development.
- Highest ethical standards of personal and professional conduct for faculty, students and administrators. Professionalism includes maintaining faculty intellectual qualifications and expertise at levels which support the college’s mission.
- Cooperative interaction among students and faculty to achieve the college’s mission.
- A systems approach to continuously improve all aspects of the learning process. This includes feedback from major stakeholders and a spirit of experimentation.

Programs of Study
The College of Business offers programs of study leading to baccalaureate degrees as listed below:

Bachelor of Science
Business Education

Bachelor of Science in Business Administration
Accounting
Economics and Finance
Management and Marketing

The College of Business is committed to preparing students for meaningful careers in business, industry, government or education; or for admission to and success in quality graduate programs. This commitment is founded on the belief that graduates from the College should have a strong background in the liberal arts as a basis for mature understanding of the problems of business leadership and management. The objective of the general education curriculum required of all College of Business majors is to ensure they acquire a knowledge and understanding of topics in the humanities, sciences, communications, social sciences and other related subjects to support a lifetime of continual learning.

Learning Goals
Students who major in any of the bachelor degree programs in the College of Business are required to complete a common core of business courses. The learning goals of the BSBA degree program are to develop students’:

1. Ability to use technology to support business decisions.
2. Overall communication skills in a business context.
3. Ability to think critically and reason effectively about business problems.
4. Ethical awareness and ethical decision-making framework in a business context.
5. Foundation knowledge for conducting business in a diverse, global environment.
Accreditation

The Bachelor of Science in Business Administration degree programs offered by the College of Business are accredited by AACSB International - The Association to Advance Collegiate Schools of Business. AACSB International is the premier accrediting agency for business schools, stressing academic excellence and a commitment to continuous improvement. Approximately one third of the business schools in the United States and several selected schools internationally have earned AACSB International accreditation.

The Bachelor of Science with a major in Business Education is accredited by the National Council for Accreditation of Teacher Education (NCATE).

Transfer Students

In order to meet baccalaureate degree requirements, all transfer students must take in residence a minimum of fifty percent of the College of Business courses required for the degree. Of these courses, at least 24 hours must be 3000-4000 level, 12 hours must be in the student’s major field, and 9 hours must be in the business core curriculum.

Only course credit with a grade of "C" or above will transfer to meet degree requirements for courses offered by the College of Business.

Business courses taken at other institutions at the 1000-2000 level which are offered by Tech at the 3000-4000 level will be transferred as free electives. Business courses taken at other institutions at the 3000-4000 level are subject to validation by the College of Business.

The Curriculum

A student who majors in one of the Bachelor of Science in Business Administration (B.S.B.A.) programs in the College of Business must complete:

1. The general education requirements as described in this catalog.

2. The following business core requirements:
   - ACCT 2003 Accounting Principles I
   - ACCT 2013 Accounting Principles II
   - ECON 2003 Principles of Economics I
   - ECON 2013 Principles of Economics II
   - BLAW 2033 Legal Environment of Business
   - BUAD 1003 Introduction to Business Systems
   - BUAD 2003 Business Information Systems
   - BUAD 2053 Business Statistics
   - BUAD 3023 Business Communications
   - ACCT 3063 Managerial Accounting OR ACCT 4023 Cost Accounting
   - ECON 3003 Money and Banking
   - FIN 3063 Business Finance
   - MKT 3043 Principles of Marketing
   - MGMT 2013 Management Productivity Tools
   - MGMT 3003 Management and Organizational Behavior
   - MGMT 3103 Operations Management
   - MGMT 4013 Management Information Systems OR ACCT 3023 Accounting Information Systems
   - MGMT 4083 Business Policy

3. The following courses in the quantitative area:
   - MATH 1113 College Algebra
   - MATH 2223 Quantitative Business Analysis

4. Requirements that are listed on the following pages under each major.

5. Sufficient elective hours to bring the student’s total hours to 124 (the number required for graduation).

In order to enroll in 3000- and 4000-level courses offered by the College of Business, students majoring in business must have the proper course prerequisites and satisfy the following enrollment requirements:

1. Must have completed a minimum of 54 hours.
2. Must have a cumulative grade point average of 2.00 or above.
3. Completion of the following eighteen hours of business foundation courses:
   - ACCT 2003 and 2013
   - ECON 2003 and 2013
   - BUAD 1003, BLAW 2033, BUAD 2053

   Six hours from MGMT 2013, MGMT 3003, MGMT 3103

   Business students who meet enrollment requirements (1) and (2) above and have only completed fifteen hours of the foundation courses, may enroll in upper division business courses, provided they have the proper course prerequisites and they enroll in the remaining required foundation course in the same semester.

   Students majoring in fields outside the College of Business may enroll in 3000- and 4000-level College of Business courses provided they have completed 54 credit hours, have a cumulative GPA of at least 2.0, and approval from the College of Business Dean.

1Accounting majors must take ACCT 3023. All other business majors must take MGMT 4013.
2Students who have two years of high school Algebra with a grade of "C" or better and a math ACT score of 22 or above may omit College Algebra and enroll directly in MATH 2223, Quantitative Business Analysis.
The Department of Accounting and Economics offers two degree programs. The objective of both degree programs is to offer an academic base equipping students to be life-long learners who will then mature as professionals in the world of business. The accounting curriculum prepares graduates for a variety of careers in public, private and not-for-profit entities as well as entry into graduate programs. The department also provides a major program in economics and finance where graduates can enter professional careers as economic and financial analysts in business or government or continue in graduate studies.

Students who plan to pursue graduate studies should consider the entrance requirements of the graduate degree program which they desire to enter. Faculty advisors will work closely with these students to assist them in planning their course work to meet the graduate degree program requirements. Part of this planning will involve the student sitting for examinations such as the GMAT, GRE, or LSAT.

Since the inception of the program in 1959, accounting graduates have established careers in every segment of the business world. Employment opportunities range from national, regional, and local public accounting firms to corporations, sole proprietorships, and national state and local government entities. The accounting profession offers a promising future for men and women who are comfortable in meeting people, expressing themselves, working in changing environments, and who possess an inquiring and logical thought process.

**Learning Goals for Accounting Major:**

1. Students will be able to demonstrate knowledge of current accounting practices and theory and be conversant in the language of business.
2. Students will be able to demonstrate the ability to think critically about accounting topics.
3. Students will demonstrate the ability to communicate accounting information effectively, both orally and in writing.
4. Students will be able to demonstrate competency in current accounting information technology.
5. Students will be able to demonstrate competency in ethical business and accounting decision making.

Holding the licensure designation as a Certified Public Accountant is viewed as evidence of a professional quality in the discipline of accounting. CPAs are viewed by the business world as individuals who possess a professional knowledge of accounting principles and concepts and have the experiences necessary to make proper application of those principles and concepts. Students who desire to pursue this professional designation can complete the curriculum which will provide them with the necessary academic background to permit the graduate to sit for the uniform certified public accountant examination.

The goal of many students is a career in private accounting rather than public accounting. Professional designations such as Certified Management Accountant (CMA) and Certified Internal Auditor (CIA) are earned by completing examinations offered by their respective professional associations. Accounting majors who desire to complete those certification processes may complete a course of study which will enable them to be a candidate for those professional examinations.

All students who, upon graduation, plan to sit for a professional examination (CPA, CMA, CIA) should obtain a copy of the specific course requirements of the respective examination. The requirements should be considered in planning the student’s course of study while completing the degree. The Arkansas State Board of Public Accountancy requires 150 semester hours of credit for first-time CPA Examination candidates effective with the first CPA Examination given in 1998.

The following curriculum in accounting leads to a Bachelor of Science in Business Administration degree with a major in accounting.

Accounting

Finance

Economics and

Mino

://www.atu.edu/academics/catalog/colleges/business/dept_actc_econ.html

in order to take the upper division (3000-4000 level) ACCT courses, the student must have completed 54 hours including all 2000 level courses listed above, have a cumulative GPA of at least 2.0 and permission from the Dean of Business.

Economics and Finance equips students to analyze a broad range of socioeconomic phenomena and policy alternatives. Regulations, environmental protection, economic growth and development, the distribution of income, resource allocation, international trade and finance, comparative economic systems, inflation, and the level of employment are some traditional topics of study. The study of economics and finance prepares students to understand financial decision making at the individual, corporate, and public policy levels. Two.

Students who complete the economics and finance program will be able to:

1. Understand economic concepts and relationships.
2. Understand financial decision making at the individual, corporate, and public policy levels.
3. Improve problem-solving skills through the application of economic and financial concepts.
4. Evaluate economic and financial issues in a global context.

Minor Accounting

The minor in Accounting is available to students who wish to add to their knowledge of accounting for personal edification or for professional purposes. Please note that for non-business majors, no more than 30 hours of courses offered by the College of Business may be counted toward completion of degree requirements.

Economics and Finance

The minor in Accounting requires 21 hours of courses:

BUAD 2003 or COMS 1003
ACCT 2003
ACCT 2013
ACCT 3003
ACCT 3013
ACCT 3023
ACCT 3043
3 hours of either ACCT 305 or ACCT 402

*In order to take the upper division (3000-4000 level) ACCT courses, the student must have completed 54 hours including all 2000 level courses listed above, have a cumulative GPA of at least 2.0 and permission from the Dean of Business.

### Minor Economics

The minor in Economics is available to students who wish to add to their knowledge of business for personal edification or for professional purposes, but not open to College of Business majors. Please note that for non-business majors, no more than 30 hours of courses offered by the College of Business may be counted toward completion of degree requirements.

The minor in Economics requires 18 hours of courses:
- ACCT 2003
- ECON 2003
- ECON 2013
- ECON 2003**

6 hours of 3-4000 level Economics electives**

*for many majors ECON 2003 can be used to satisfy 3 hours of the general education social science requirement.

**In order to take the upper division (3000-4000 level) ECON courses, the student must have completed 54 hours including all 2000 level courses listed above, have a cumulative GPA of at least 2.0 and permission from the Dean of Business.

---

1. See appropriate alternatives or substitutions in "General Education Requirements".
2. Students who have two years of high school algebra with a grade of "C" or better and a math ACT score of 22 or above may omit College Algebra and enroll directly in MATH 2223, Quantative Business Analysis. If omitted, an additional 3 hours of electives will be required.
3. Students considering graduate school are advised to take MATH 2914.
4. Three hours must be taken from the following: HIST 1903 or POLS 2003.
5. Only three hours of economic/finance internship will apply to this requirement.
6. Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.

The Department of Management and Marketing offers majors in management and marketing and business education. Decision making as a process is stressed. Students are taught to search for and identify important facts and properly analyze them in developing sound alternative courses of action. Modern analytical techniques as well as the importance of the behavioral sciences are introduced.

The management and marketing major is designed generally to prepare students for careers as professional managers or as self-employed entrepreneurs in either profit-seeking or not-for-profit organizations. The curriculum emphasizes a comprehensive understanding of business principles and economic activities. The required course of study seeks to prepare the graduate not only for initial employment but for subsequent advancement in his/her chosen vocation. Effective education for business responsibility consists not only of the development of an understanding of the principles and methodologies which govern the organization and administration of the individual business enterprise, but also includes an understanding of larger problems and relationships of the economy as a whole.

Specific objectives of the program are to provide students who select the management and marketing major with the following abilities:

1. Effectively apply technology as a problem-solving tool in management and marketing contexts.
2. Critically evaluate management and marketing problems.
3. Identify and evaluate ethical issues related to management and marketing problems.
4. Effectively communicate in management and marketing contexts.
5. Proficiency in the foundation principles of management and marketing.

1See appropriate alternatives or substitutions in "General Education Requirements".

2Students who have two years of high school algebra with a grade of "C" or better and a math ACT score of 22 or above may omit College Algebra and enroll directly in MATH 2223, Quantitative Business Analysis. If omitted, an additional 3 hours of electives will be required. Students considering graduate school are advised to use free elective hours to take MATH 2914.

3Three hours must be taken from the following: HIST 1903 or POLS 2003.

4Three hour Behavioral elective must be taken from: MGMT 4023 (Human Resource Mgmt) or MGMT 4093 (Human Behavior) or MGMT 4213 (leadership) or MGMT 4223 (Leadership in Film, Hist, Lit.)

5Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.

1. See appropriate alternatives or substitutions in "General Education Requirements".
2. Students who have two years of high school algebra with a grade of "C" or better and a math ACT score of 22 or above may omit College Algebra and enroll directly in MATH 2223, Quantitative Business Analysis. If omitted, an additional 3 hours of electives will be required. Students considering graduate school are advised to use free elective hours to take MATH 2914.
3. Three hours must be taken from the following: HIST 1903 or POLS 2003.
4. Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.

### Minor Business

The minor in Business is available to students who wish to add to their knowledge of business for personal edification or for professional purposes, but not open to College of Business majors. Please note that for non-business majors, no more than 30 hours of courses offered by the College of Business may be counted toward completion of degree requirements.

The minor in Business requires 21 hours of courses:

- BUAD 1003
- BUAD 2003 or COMS 1003
- MATH 1113
- ECON 3003
- BLAW 2033
- MKT 3043
- MGMT 3003

*for many majors ECON 2003 can be used to satisfy 3 hours of the general education social science requirement.

**in order to take the upper division (3000-4000 level) MKT and MGMT courses, the student must have completed 54 hours including all 2000 level courses listed above; have a cumulative GPA of at least 2.0 and permission from the Dean of Business
Admission & Retention in Teacher Education at Tech

Professional programs are composed of courses and experiences designed to complete the undergraduate stage of professional preparation for teaching. Admission is by application to the Admission and Retention Committee of the Teacher Education Council. Before a teacher candidate may enroll in professional education courses at the upper division level (the required 3000 and 4000 level professional education courses), he or she must be formally admitted to teacher education at Tech. Application forms may be obtained from the office of the Dean of the College of Education (Crabaugh 204) or the office of the Director of Teacher Education Student Services (Crabaugh 109).

To be admitted to programs in secondary education, teacher candidates must have two assigned advisors, one from the College of Education and one from the department representing their teaching concentration, have the approval of both advisors, satisfactorily complete the pre-admission requirements, have a cumulative grade point average of 2.50 on all college work completed including transfer work, and submit a plan of study approved by both advisors. An early childhood education or middle level education major will have one advisor from the Department of Curriculum and Instruction. Admission to teacher education will be recommended by the academic advisors and determined by the Admission and Retention Committee based on the following considerations: completion of English composition courses, an oral communication course, a college-level mathematics course, and the appropriate introductory education course with grades of “C” or higher, and completion of the Praxis I (PPST) with scores equal to or greater than the scores determined by the Arkansas Department of Education. Other factors which reflect professional competence, including moral and emotional stability, physical and mental health, intellectual curiosity, use of English, social awareness, and professional interest will be considered by the Admission and Retention Committee. Formal screening and subsequent admission into teacher education and the monitoring of satisfactory progress in the teacher preparation program represent institutional obligations to the teaching profession, the schools served by and working with the University’s programs, and the agencies that approve and accredit teacher education programs. Once admitted to teacher education, the teacher candidate must maintain satisfactory progress throughout the completion of the teacher education program according to the standards cited above and any additional program standards in effect or lose eligibility to continue in that program. Course sequences and prerequisites will be followed carefully.

A formal appeal of a decision to deny admission to teacher education may be made to the Admission and Retention Committee of the Teacher Education Council. Instructions and forms for such appeals are available in the Office of the Dean of Education. An appeal should be based upon exceptional or extenuating circumstances and/or other pertinent information not previously available or considered. A formal appeal must be submitted in writing to the Dean who will transmit it to the Committee. The Committee’s decision may be appealed in writing to the Dean of the College of Education regarding admission to teacher education. If the appeal is not resolved at this level the teacher candidate may appeal to the Vice President for Academic Affairs whose decision will be final.

Criteria for Internship

Internship is normally expected to be the last requirement completed in teacher education programs. Internship requires a full-time internship in an approved school. The teacher candidate should plan the work of internship to provide one semester free of activities and responsibility which would interfere with the requirements of the professional semester. The teacher candidate is expected to follow the direction of the Field-Based Teacher, the School Principal, the Arkansas Tech University Supervisors, and the Arkansas Tech University Director of Teacher Education Student Services.

Admission requirements for secondary education include completion of all professional education courses, a minimum grade of “C” in all courses required for the teaching field and professional education, and a 2.50 grade point average in the courses required for the teaching field with a cumulative grade point average of 2.50 on all work attempted, including transfer work. Admission requirements...
for early childhood education and middle level education include no grade below “C” in any course work with a cumulative grade point average of 2.50 on all work attempted, including transfer work. Internship admission requires a Praxis II Specialty Area score which meets or exceeds the minimum scores established by the Arkansas Department of Education.

**Appeals of Internship Eligibility Decisions**

Decisions made regarding a teacher candidate’s eligibility and readiness for placement or retention in internship may be appealed in writing to the Admission and Retention Committee of the Teacher Education Council. Such an appeal should be submitted to the Dean of the College of Education, who will transmit it to the Committee. The Committee’s decision regarding an appeal may be appealed in writing to the Dean. If the appeal is not resolved at that level, the teacher candidate may appeal to the Vice President for Academic Affairs whose decision is final. Appeals should be based on exceptional or extenuating circumstances and/or pertinent information not previously available or considered.

**Internship Application Process**

TEACHER CANDIDATE MUST SUBMIT A FORMAL APPLICATION FOR ADMISSION TO INTERNSHIP. APPLICANTS FOR THE SPRING SEMESTER MUST SUBMIT THE APPLICATION PRIOR TO OCTOBER 1 OF THE FALL SEMESTER. APPLICANTS FOR THE FALL SEMESTER MUST SUBMIT THE APPLICATION PRIOR TO MARCH 1 OF THE SPRING SEMESTER. FAILURE TO MEET THESE DEADLINES COULD RESULT IN THE DELAY OF INTERNSHIP FOR A SEMESTER. PRIORITY IN INTERNSHIP PLACEMENT WILL BE GIVEN TO THOSE TEACHER CANDIDATES MEETING THE DEADLINES AND PREREGRISTERING FOR INTERNSHIP FOR THE GIVEN SEMESTER.

Application forms for internship may be obtained during scheduled group meetings with the Director of Teacher Education Student Services.

Early Childhood candidates may accomplish internship by enrolling in ECED 4915. Middle level candidates may accomplish internship by enrolling in MLED 4912. Secondary candidates may accomplish internship by enrolling in SEED 4809 or 4809 and SEED 4809, and any other courses required in their teaching concentration. Assignment of the teacher candidate to an approved site for internship is the responsibility of the College of Education based on policies developed by the College of Education. Placements are chosen to provide the best educational experience for the teacher candidate.

APPLICANTS FOR ADMISSION TO STAGE I OR INTERNSHIP MUST MEET THE REQUIREMENTS THAT ARE IN EFFECT AT THE TIME OF APPLICATION. THE REQUIREMENTS FOR ADMISSION AND RETENTION AS PUBLISHED IN THE POLICIES AND PROCEDURES HANDBOOK OF THE ARKANSAS TECH UNIVERSITY TEACHER EDUCATION PROGRAM WILL SUPERSEDE CATALOG INFORMATION.

The College of Education offers programs of study leading to baccalaureate degrees as listed below:

- **Bachelor of Science**
  - Early Childhood Education
  - Middle Level Education
  - Health and Physical Education including a Wellness and Fitness Program option
  - Secondary Education (teacher licensure programs in life/earth science, business technology, mathematics, physical/earth science.¹

- **Bachelor of Arts**
  - Secondary Education (teacher licensure programs in art, creative writing, English, foreign language, social studies, music, and speech)¹

¹Teacher candidate preparing to teach in secondary schools must complete the courses required for specialization in a teaching concentration. These are listed in departmental sections of the catalog and recommended curricula patterns, including teacher licensure requirements, set forth in the College of Education section of this catalog.

**Transfer Students**

Applicability of transfer credit to meet specific degree requirements depends on the major selected by the transfer student. The transfer student should review the Transfer Credit policy in the Admission section of this catalog and meet with their academic advisor to determine final transfer credit eligibility for the selected program of study.

**Requirements for Teacher Licensure**

All candidates for licensure must successfully complete the Praxis II, Principles of Learning and Teaching, except those taking a Praxis II subject assessment that contains a pedagogy section. These are math, life/earth science, physical/earth science, Spanish and English. Teacher candidates must also successfully complete the appropriate specialty area exams of Praxis II. Scores must be sent directly from the Educational Testing Service to Arkansas Tech University.

**Praxis Series**

Please refer to Item E under the "Requirements for Baccalaureate Degrees”.

The Congress of the United States, in its reauthorization of Title of the Higher Educations Act of 1998, enacted accountability measures requiring institutions of higher education to report data to the public on the pass-rates of teacher candidates on assessments required for state licensure. The pass-rates for 2007-2008 for Arkansas Tech University teacher candidates were 100 percent on the assessments of basic skills, professional knowledge, and academic content knowledge. The average pass-rates for programs in the state were also 100 percent.

Teacher candidates spend an average of 405 hours in the classroom during internship; and the average faculty-teacher candidate ratio in supervised practice teaching is 5.0. All programs are approved by the Arkansas Department of Education. The teacher education program at Tech is not designated by the State of Arkansas as a low-performing program.
The secondary education curriculum is designed to prepare teacher candidates for teaching careers at the junior high school and senior high school levels. Teacher candidates completing the NCATE approved program in secondary education will qualify for licensure in an area appropriate to their major field. The program recognizes three important components in the education of a prospective teacher: a strong general education, an in-depth knowledge in a selected teaching field, and a knowledge of the school, adolescents, and the teaching-learning process.

The unit's conceptual framework is Professionals for the Future. The framework emphasizes the concepts of teacher as instructional leader, reflective decision-maker, and problem solver who has knowledge of the teacher candidate, a strong content and pedagogical knowledge, a commitment to their profession, and a desire to continue their development.

Teacher candidates preparing to teach in secondary schools must complete the courses required for specialization in their major field. During the second semester of their sophomore year, teacher candidates who are admitted to Stage II of the teacher education program for secondary teachers enroll jointly in course work for their degree specialization and course work in the Department of Secondary Education.

Early Childhood Education

The Early Childhood Education program meets the needs of today's children building on the common core of knowledge, performance, and dispositions needed for early childhood professional educators.

There are three stages in the Bachelor of Science Early Childhood Degree program. Teacher candidates begin the first stage by taking general education requirements and are introduced to basic concepts, theory and practices in early childhood courses. Teacher candidates desiring entrance to the teacher education program in secondary education should apply for admission to Stage II during the second semester of their sophomore year. Teacher candidates who are admitted to Stage II of the teacher education program for secondary teachers enroll jointly in course work for their degree specialization and course work in the Department of Secondary Education.

Middle Level Education

The Middle Childhood/Early Adolescence degree exists to provide quality preservice educational programs and services in preparation for teaching grades 4-8. The program prepares and nurtures interdisciplinary teachers who reflect content knowledge as well as facilitate creative talents.

The program is designed around a conceptual framework which organizes learning expectations and experience into manageable discipline-specific strands including: professional and pedagogical knowledge, knowledge of the student, developmentally appropriate and effective practices, knowledge of integrated disciplines, global and cultural perspectives, technology, and a liberal arts and science background. The teaching candidate entering the middle-level program must complete an integrated math/science or English/social studies curriculum.

The first stage of the middle level program is a pre-professional program and admission to this stage does not constitute approval for admission to the professional program in teacher education. Stage II is the professional stage of the preparation program. Teacher candidates must satisfactorily complete the requirements of the first stage, have a cumulative grade point average of 2.50 on all coursework, completion of English composition courses, an oral communication course, a college-level mathematics course, and completion of MILED 2003 with grades of "C" or higher. Competence in oral and written grammar will be assessed. Teacher candidates must submit scores on Praxis I (PPST) that meet or exceed the levels established by the Arkansas Department of Education.

After satisfying all of the requirements at this level, the teacher candidate will apply for internship. Admission to internship requires completion of all professional education courses, senior standing, satisfactory completion of all prerequisites listed in the course descriptions, a minimum grade of "C" in all courses with a cumulative grade point average of 2.50, and the minimum score on the licensure examination as required by the Arkansas Department of Education.

Teacher candidates should make application for admission to the internship for the spring semester by October 1 or the fall semester by March 1. Teacher candidates must present scores on the appropriate licensure examination as directed by the Arkansas Department of Education.

Secondary Education

The secondary education curriculum is designed to prepare teacher candidates for teaching careers at the junior high school and senior high school levels. Teacher candidates completing the NCATE approved program in secondary education will qualify for licensure in an area appropriate to their major field. The program recognizes three important components in the education of a prospective teacher: a strong general education, an in-depth knowledge in a selected teaching field, and a knowledge of the school, adolescents, and the teaching-learning process.

The unit's conceptual framework is Professionals for the Future. The framework emphasizes the concepts of teacher as instructional leader, reflective decision-maker, and problem solver who has knowledge of the teacher candidate, a strong content and pedagogical knowledge, a commitment to their profession, and a desire to continue their development.

Teacher candidates preparing to teach in secondary schools must complete the courses required for specialization in their major field. During the second semester of their sophomore year, teacher candidates who are admitted to Stage II of the teacher education program for secondary teachers enroll jointly in course work for their degree specialization and course work in the Department of Secondary Education.
Curriculum and Instruction. For example, teacher candidates planning to teach mathematics enroll in the math department and the Department of Curriculum and Instruction. The requirements of both departments must be satisfied.

Teacher candidates should make application for admission to internship for the spring semester by October 1 and for the fall semester by March 1. Teacher candidates must present scores on the Praxis II specialty area test equal to or greater than the state-established level in order to be approved for internship. Any questions concerning internship placement should be addressed to the Director of Teacher Education Student Services located in Crabbaugh 109.

Professional requirements for the secondary education program include SEED 2002; SEED 3702, SEED 4503, SEED(VOBE) 4556, and SEED 4809 or 4909. SEED 2002, SEED 3702 and SEED 4556 must be completed prior to internship. Secondary teacher education candidates enrolling in internship should register for SEED 4503 and either SEED 4809 or SEED 4909. In addition to the course requirements specified, the state also requires that the applicants for an Arkansas teaching license supply a copy of his/her score on the Praxis II (Principles of Learning and Teaching, if applicable and Specialty Area Tests) and the criminal background check as required by Act 1310. The Specialty Area Test is required for entry into internship. The Principles of Learning and Teaching, if applicable, may be completed during internship (see "Requirements for Teacher Licensure").

Internship

Internship is the capstone of the teacher preparation program. Placements are the responsibility of the College of Education and are selected on the basis of providing the best experience available for the teacher candidate.

The assignments require full day experiences for the semester. Teacher candidates should make plans with these requirements in mind.

Praxis II

All candidates for licensure must meet minimum scores as required by Arkansas Department of Education on the Principles of Learning and Teaching, if applicable and the appropriate specialty area test.

Please refer to "Requirements for Baccalaureate Degrees".

The Department of Health and Physical Education has a nationally accredited (NASPE) program that is a part of the University core curriculum and the College of Education professional preparation program curricula designed to serve the students, faculty and staff of Arkansas Tech University.

Following are the NASPE standards:

1. Scientific and Theoretical Knowledge--Physical education teacher candidates know and apply discipline-specific scientific and theoretical concepts critical to the development of physically educated individuals.
2. Skill and Fitness Based Competence--Physical education teacher candidates are physically educated individuals with the knowledge and skills necessary to demonstrate competent movement performance and health enhancing fitness as delineated in the NASPE K-12 Standards.
3. Planning and Implementation--Physical education teacher candidates plan and implement a variety of developmentally appropriate learning experiences and content aligned with local, state, and national standards to develop physically educated individuals.
4. Instructional Delivery and Management--Physical education teacher candidates use effective communication and pedagogical skills and strategies to enhance student engagement and learning.
5. Impact on Student Learning--Physical education teacher candidates utilize assessments and reflection to foster student learning and inform instructional decisions.
6. Professionalism--Physical education teacher candidates demonstrate dispositions essential to becoming effective professionals.

The programs in the Department of Health and Physical Education are designed to prepare students for lifelong growth in the physical, intellectual, cultural, emotional and social dimensions. These goals and objectives are met through the qualified faculty's presentation of research-based information, utilizing the latest technology.

The Department of Health and Physical Education offers the following degree tracks:

1. Wellness/Fitness Programs: This track serves students who want to pursue professional preparation in the broad area of Wellness and Fitness Programs. This would include those students who desire to work in clinical based, commercial and/or corporate settings.
2. Driver Education Program
   The driver education program has been designed to serve individuals preparing to be driver and traffic education teachers. Additional information about this summer program may be obtained by calling 968-0344.

Total Hours 17 16 17 16

There are three levels in the Wellness/Fitness program. Students begin the first level by taking general education requirements and are introduced to basic concepts of the wellness/fitness program in PE 1201, Orientation to Health, Physical Education, and Wellness Science and WS 1002, Physical Wellness and Fitness.

During the second level, students complete general education requirements and take courses specific to the wellness profession. Admission to level two requires completion of PE 1201, WS 1002, ENGL 1013, ENGL 1023, MATH 1113, BIOL 1014, and SPH 2173 with a grade of C or better.

The third level is the internship stage of the program. Admission to this level requires completion of all content area courses (HLED, PE, & WS) with a grade of “C” or better and a cumulative GPA of 2.00 or better.

Students are encouraged to meet at least minimal licensure requirements in a second field of teaching in addition to their major field of study.

Licensure requirements in Driver Education are as follows: Hold or be qualified to hold a standard secondary certificate; Driver Education I, two semester hours; Driver Education II, two semester hours; First Aid, two semester hours. Total of 6 semester hours.

For licensure, students must achieve the minimum score on the Praxis II Specialty Area and Principles of Learning Teaching Tests as determined by the Arkansas Department of Education.

There are three levels in the Wellness/Fitness program. Fax: (479) 964-0837

The College of Natural and Health Sciences is subdivided into four administrative units: the Departments of Biological Science, Mathematics, Nursing, and Physical Science. These departments offer a variety of major programs leading to baccalaureate and associate degrees. The College also serves a special role in providing the principal curricular needs of students seeking to enter professional schools of medicine, dentistry, medical technology, optometry, pharmacy, chiropractic, and others. A secondary service is that of contributing to the general education of those students majoring outside of the College of Natural and Health Sciences.

Students earning degrees in the College of Natural and Health Sciences are in a particularly enviable position. Their undergraduate education makes them eligible to compete for immediate employment in a variety of professional positions or for entry into graduate school. The College of Natural and Health Sciences offers programs of study leading to baccalaureate and associate degrees as listed below:

Bachelor of Science
- Biology, with General, Environmental and Biomedical options
- Chemistry with A.C.S. approved General, Professional, Environmental, and Biochemistry options
- Engineering Physics
- Fisheries and Wildlife Science
- Geology with Professional, Petroleum, and Environmental options
- Health Information Management
- Mathematics
- Medical Technology
- Physical Science with General, Physics, and Nuclear Physics options

Bachelor of Science in Nursing
- Nursing

Associate of Applied Science
- Medical Assistant

Environmental Science Options

Three environmental science degree options are available as follows: B.S. in biology-environmental option, B.S. in chemistry-environmental option, and B.S. in geology-environmental option. The student interested in environmental science should choose the program that best suits his or her interest based on background, competencies, and career objectives. Arkansas Tech University’s location in the Arkansas River Valley between the Ouachita and Ozark mountains is ideally suited to environmental programs. With the diversity of ecosystems and geological formations found, the area serves as an outdoor laboratory encompassing habitats that range from wetland and riparian ecosystems to upland coniferous and montane deciduous forests. Swamps, streams, rivers, and lakes dot the landscape. Geological formations ranging in age from Ordovician to Pennsylvanian are within easy field trip distance from the University. Crop farming, hog and poultry production, a nuclear-powered electricity generating plant, coal strip mining, urban centers, and a multi-use national forest provide ample opportunities for studying the impact of modern society on ecosystems and the natural environment.

The employment opportunities in environmental science are good and projected to continue to increase. Graduates may find employment with environmental consulting companies, local, state, or federal governmental agencies, and private companies that have significant environmental impact. Environmental scientists are involved in the following types of studies: environmental impact analysis, pollution assessment and control, solid waste landfill location and management, ecosystem analysis, surface and groundwater resources, and air quality, and many others. The student interested in a specific environmental science curriculum should refer to the appropriate section of this book. For example, the B.S. in biology-environmental science option is listed with the other biology curricula.

Pre-Professional Options

Arkansas Tech University offers complete pre-professional education for students interested in medicine, dentistry, physical therapy, and pharmacy. Students who study at Arkansas Tech University are very successful at gaining entrance into these professional schools. Although the entrance requirements for medical schools reserve the ability to accept students meeting the minimum core courses, in practice students gaining admission will usually have completed a B.S. degree. Most of these students major either in biology or chemistry, but any field is acceptable as long as they complete specific courses required by their chosen professional school. The Biochemical Option of the Chemistry major and the Biomedical Option of the Biology major were specifically developed to serve these “Pre-med” students in addition to others with plans for post-graduate education. Faculty advisors in chemistry and biology are also available to guide students targeting a wide variety of other allied health sciences including optometry, radiology, dental hygiene, dental pharmacy, pharmacy technician, and others. Course schedules can be customized to meet pre-requisites specified by schools of the student’s choice.

Transfer Students

Applicability of transfer credit to meet specific degree requirements depends on the major selected by the transfer student. The transfer student should review the Transfer Credit policy in the Admission section of this catalog and meet with their academic advisor to determine final transfer credit eligibility for the selected program of study.
The Department of Biological Sciences offers baccalaureate degrees in a wide variety of majors and options. We also offer one minor and one associate degree. These different aspects of biological science and associated faculty are organized in the following program areas:

- Biology Program:
- Biology major General option
- Biology major Biomedical option
- Biology major Environmental option
- Biology minor
- Fisheries and Wildlife Science Program
- Fisheries and Wildlife Science major

Each of the bachelor of science degree programs offered by the department, with the exception of medical technology and teacher licensure curricula, requires a total of 124 hours for graduation. Except for Allied Health Sciences programs (AHS), which adhere to grade policies recommended by certifying associations, no more than 12 hours of “D’s” may be applied toward the baccalaureate degree without program area or career planning. Each of the bachelor of science degrees listed above. Students in the Department of Biological Sciences, except for AHS program majors, are required to take a common core consisting of: an orientation course; BIOL 1114, Principles of Biology; BIOL 2124, Zoology; BIOL 2134, Botany; BIOL 3034, Genetics; an ecology course; a physiology course; and a seminar course. These same students are required to take MATH 1113, College Algebra, plus two additional math oriented courses above that level. Courses in computer science, chemistry, and physics are also required. The following descriptions of individual degree programs include specific descriptions and requirements.

Students interested in teaching biology at the secondary level should follow the suggested curriculum in Life Science and Earth Science for Teacher Licensure as outlined under the teacher licensure curricula in the College of Education. A concentration in biology is also offered as part of the International Studies curricula in the College of Arts and Humanities.

Each of the bachelor of science degree programs offered by the department, with the exception of medical technology and teacher licensure curricula, requires a total of 124 hours for graduation. Except for Allied Health Sciences programs (AHS), which adhere to grade policies recommended by certifying associations, no more than 12 hours of “D’s” may be applied toward the baccalaureate degree at Arkansas Tech. This affiliation makes possible a concentration in marine biology.

Arkansas Tech University is affiliated with the Gulf Coast Research Laboratory (GCRL) at Ocean Springs, Mississippi. With prior departmental approval, Arkansas Tech University students may enroll in marine biology courses at GCRL, with the credits applied toward the biology degree at Arkansas Tech. This affiliation makes possible a concentration in marine biology.

The “General Option” is the most flexible and is recommended for students who do not wish to specialize in biomedical or environmental fields.

The “Biomedical Option” is designed for students wishing to study medicine, dentistry, physical therapy, and related fields of specialization. Thus, graduates typically apply to a medical school of some type or a graduate program such as physical therapy. However, while the specified curriculum is well-suited to these studies, professional schools do not specify that entering students have particular majors or options. Graduates who complete the degree option yet do not enter a medical or graduate school program should be prepared for a variety of employment opportunities especially in biomedical or biotechnology-related laboratories.

The “Environmental Option” is designed to cover the aspects of biology, chemistry, and earth science most applicable to employment, consultation, or graduate studies in environmental protection and remediation. Consequently, the overall curriculum and many of the individual courses are interdisciplinary. Furthermore, the program specifically provides opportunities for students to interact with others who are following the Environmental Option associated with Chemistry and Geology majors.

\(1\) See appropriate alternatives or substitutions in "General Education Requirements".

\(2\) Six hours of mathematics above MATH 1113 (courses in the areas of statistics and calculus or statistics and biostatistics (FW 3173) are recommended).

\(3\) Coastal Ecology (BIOL 4094) which is offered during the May mini-term can serve as an alternative to BIOL 3114 in the Biology major.

\(4\) The physiology choices include: Human Physiology (BIOL 3074), General Physiology (BIOL 3124), Physiological Ecology (BIOL 3174) Endocrinology (BIOL 4014), whereas, choices in the area of cell or molecular biology include: Cell Biology (BIOL 4033), Molecular Genetics (BIOL 4074), Microbiology (BIOL 3054), Immunology (BIOL 4023). One in each area is required. Other alternatives must be approved by your advisor and Department Head. Each 3-hour selection in one of these areas must be balanced by 4-hours (rather than 3-hours) of biology electives.

\(5\) Sufficient courses at 3000-4000 level to constitute a total of 40 hours.

\(6\) Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.

1. See appropriate alternatives or substitutions in "General Education Requirements".
2. Must have one statistics course and one computer science course. See catalog or advisor for alternatives.
3. MATH 2914 is recommended if you are considering graduate school in this field. Furthermore, MATH 2924 should be considered for a general elective. Otherwise MATH 2243 is recommended.
4. Recommended electives include: AGSS 2014, FW 4014, FW 4034, GEOL 1014, and 3153, POLS 2013 and 4103, or SPH 2003 (but also see the previous footnote, relative to calculus).

1See appropriate alternatives or substitutions in "General Education Requirements".
2Cellular electives include the first four courses listed in the left-hand column above.
3See catalog to assure pre-requisites are met.
4Select from AHS 2013, PE 2513, PHIL 3103, PSY 3063, SOC 3173, or SOC 4053.
Curriculum in Biology
(Environmental Option)

1Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.

The minor in biology is available to students who wish to add to their knowledge of this increasingly important field for personal edification or for professional purposes, but choose not to complete a major in biology. The minor in biology requires 20 hours of courses:

- BIOL 1014 Introduction to Biological Sciences or BIOL 1114 Principles of Biology
- BIOL 2124 Principles of Zoology
- BIOL 2134 Principles of Botany
- BIOL Electives (8 hours of 3000 or 4000 level)

*No more than one credit hour can be a seminar course

The fisheries and wildlife science program is a professional program designed to prepare qualified field and research biologists, as well as to provide a sound foundation for those students who intend to pursue graduate studies in wildlife biology, fisheries biology or field ecology. Through selection of appropriate elective courses, graduates are eligible for certification by The Wildlife Society or the American Fisheries Society.

Field biologists are employed by various state and federal agencies concerned with natural resources management including the Arkansas Game and Fish Commission, U.S. Fish and Wildlife Service, U.S. Forest Service, Arkansas Department of Environmental Quality, National Park Service, and the U.S. Army Corps of Engineers. Employment opportunities in the private sector are also available. Timber, mining, and utility companies hire field biologists for advice and management of industrial lands. Environmental consulting firms, commercial fish and game farms, and nature centers require qualified researchers, technicians, and educators.

Majors in fisheries and wildlife science must complete a minimum of 124 semester hours as specified in the following curriculum outline. No more than 12 hours of “D’s” may be applied toward the degree. Candidates for graduation are expected to complete a comprehensive series of practical and technical exams to assess mastery of program objectives.

Minor Biology

Fisheries and Wildlife Science

1See appropriate alternatives or substitutions in "General Education Requirements".
2Must have one taxonomic course (FW 3084, 3144, or 3154) and ENGL 2053.
3Must have one statistics course and one computer science course. See advisor for alternatives.
4These alternatives should result in one FW course and one BIOL course within the year.
5Must complete at least eight hours of FW electives to complete the degree, general electives can fill the balance of 124 hours.
6Must have one "physiological" course and one "Fine Art/Humanities course" within the year.
7Must have one "techniques" course and one "Fine Art/Humanities course" within the year.
8Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.

Allied Health Science Programs

The allied health science programs include a two-year curriculum in medical assistant and four-year curricula in health information management and medical technology. Statements and curricula for these programs are listed below.

Health Information Management

Dr. Melinda Wilkins, Director
Dean Hall
(479) 968-0441
mwilkins@atu.edu

The degree program in health information management prepares the student for a professional career as an active member of the modern health-care team. In this age of increased computerization and data analysis, the health information management field is an exciting new area with virtually unlimited possibilities. The health information management administrator is an expert in the world of health record systems. He/she is responsible for obtaining complete health records for use in research; for gathering statistical information on which to base long-range health planning goals; for determining the legitimacy of requests for confidential medical information; for controlling the circulation and integrity of health records; and, as department head, is responsible for efficiency of the health information department employees in the performance of daily activities.

The health information department in a medical facility has in its care all the documentation regarding patient-care, physician as well as ancillary information. Responsibility for data validity and integrity play a major role in the health information profession. Health information personnel must be progressive, conscientious, tactful, and knowledgeable, as much work is accomplished in cooperation with other allied health professionals. Above all, the health information professional must adhere to the Code of Ethics of the American Health Information Management Association and to the appropriate institutional behavioral codes that apply.

Professional practice is scheduled at affiliated hospitals in nearby cities for a period of six hours per week during the fall and spring semesters for senior HIM majors. The management affiliation may be assigned to a hospital in a distant city for four weeks (40 hours per week) and normally occurs in the summer immediately following the senior year. Students are responsible for all transportation and lodging expenses during these assignments; however, every effort will be made to minimize such costs.

Students must make at least a "C" in each of the professional courses and demonstrate their proficiency in professional practice and management-affiliation. Upon successful completion of the program, the student is granted a Bachelor of Science degree in health information management and becomes eligible to write the national certification examination. The student already holding a baccalaureate degree may apply for the HIM program as specified in the Application Guidelines and work toward another baccalaureate degree provided the pre-professional course of study has been completed to establish eligibility to write the national certification examination. Registered health information technicians are urged to contact the Program Director for information regarding RHIA progression. The national certification examination is offered year-round by the American Health Information Management Association.

The application process for the Health Information Management Program is as follows:

1. Application for upper level professional HIM courses must be on file with the HIM Program Director by March 15th prior to the year you wish to take HIM courses.
2. To be eligible for application interview, the following must be on file: Application, current copy of all applicable transcripts, including a cumulative GPA of 2.5 on a 4.0 scale, and COMPASS/ACT scores.
3. Applicants may be required to complete an interview with an interview team. Consideration will be given to areas such as:
   - Dedication and perseverance
   - Aptitude
   - Knowledge of HIM profession
   - Professional appearance
   - Flexibility
   - Realistic career goals
   - True desire to enter HIM profession
   - Ability to finish HIM program within prescribed time
4. Candidates will be ranked based on GPA and number of prerequisite courses completed. The top twenty will be selected. A ranked order waiting list will be maintained by the HIM Program Director.
5. Candidates will be notified prior to pre-registration for the fall semester. If accepted, candidates must return a signed statement acknowledging acceptance. Candidates must register for courses indicated on the degree plan. Any change in degree plan requires approval of the student’s HIM faculty advisor. Candidates must notify the program director of change in degree choice.
6. A late application deadline of August 15th will be observed if positions are available. Late applicants will be notified as soon as possible or during the week of late registration.
7. If a candidate fails a course that would preclude graduation, or does not earn at least a “C” in HIM courses, reapplication to the HIM Program will be required.

The Health Information Management Program is accredited by the Commission on the Accreditation for Health Informatics and Information Management Education (CAHIIM) in cooperation with the American Health Information Management Association’s Council on Accreditation.

## Medical Assistant

Medical assistants perform administrative and clinical duties under the direction of physicians in their offices or other medical settings. The medical assistant curriculum is a two-year associate of science degree program. This program offers the student a broad foundation in basic medical assisting skills including an externship in a medical facility under the supervision of clinic personnel and the Medical Assistant Program Director. Basic medical assistant training and education consist of learning experiences in communication skills, examination room procedures, clinical laboratory skills, and general office practices.

Admission to the second year of the program is on a competitive basis and is limited to 12 students a year. Students must make at least a “C” in each of the professional courses. A student is eligible for admission to the second year of the program upon completion of all prerequisites with an overall grade point average of at least 2.00 on a 4.00 scale; presentation of evidence of good health; and satisfactory completion of a personal interview with the program director. If more than 12 students qualify for the second year of the program, they will be ranked by cumulative grade point average. Those not admitted in the first round of selection will be placed on a ranked waiting list.

Students enrolled in AHS 2034, AHS 2044, and AHS 2055 are required to carry malpractice liability insurance. A group insurance policy is arranged by the program director, but the premiums are paid by the student and are not included in the tuition and fees paid to the University.

The Arkansas Tech University Medical Assistant Program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of the Medical Assisting Education Review Board of the American Association of Medical Assistants Endowment (AAMAE). Students who successfully complete the associate degree program for medical assistants will be eligible to sit for the Certified Medical Assistant (CMA) examination.

Medical Assistant Program
Department of Biological Sciences

http://www.atu.edu/academics/catalog/colleges/natural_health_sciences/dept_biol_sci.html
Arkansas Tech University, in affiliation with approved schools of medical technology, offers a four-year program leading to the bachelor of science degree and to certification as a medical technologist. The affiliated schools of medical technology are accredited by the Council on Medical Education and Hospitals of the American Medical Association.

The first three years of the curriculum are taught on the Tech campus and the fourth (professional) year is taught at one of the affiliated schools of medical technology. Admission to the professional year is on a competitive basis, and students must meet the admission standards of the medical technology school.

To qualify for the bachelor of science degree, the student must satisfactorily complete a minimum of 91 semester hours during the first three years of the program and 40 semester hours during the final professional year (52 weeks of class) at an affiliated medical technology school. The third year of the curriculum (30 semester hours) must include 20 semester hours in courses numbered 3000 or above, of which 4 semester hours must be in chemistry and 7 or 8 semester hours in biology. Also, the third year of the curriculum must be completed in residence at Arkansas Tech University.

Tuition and fees for courses taken the senior year at one of the affiliated medical technology schools will be assessed at the current rate charged by the affiliated school and are payable to Arkansas Tech University. Financial aid and scholarship arrangements are also made by Tech.

Upon successful completion of the final 40 hours at an affiliated medical technology school, a student is eligible for a bachelor of science degree, as well as being eligible to write the National Board Examination for licensure. This examination is given at various times throughout the year by the Board of Registry of the American Society of Clinical Pathologists.

### Curriculum in Medical Technology

#### Suggested Sequence of Courses

| Freshman |  | Sophomore |  |
|----------|------------------|------------------|
| Fall |  | Spring |  |
| ENGL 1013 | 3 | ENGL 1023 | 3 |
| BIOL 1114 or BIOL 2124 | 4 | BIOL 2004 | 4 |
| BIOL 1011 | 1 | CHEM 2134 | 4 |
| CHEM 2124 | 4 | MATH 1203 | 3 |
| MATH 1113 | 3 | Physical Activity | 1 |
| Physical Activity |  |  |  |
| Total Hours | 16 | Total Hours | 15 |

| Junior |  | Senior |  |
|--------|------------------|------------------|
| Fall |  | Spring |  |
| BIOL 3054 | 4 | Fine Art/Humanities | 3 |
| BIOL (3034, 3064, 4023 or 4033) | 7 | Medm 4012-3 | 2-3 |
| CHEM (2204, 3245, 3254, 3264, 334, 43 or 4414) | 12 | Medm 4029 | 9 |
| PSY 2003 | 3 | Medm 4035 | 5 |
| Total Hours | 30 | Total Hours | 40 |

1See appropriate alternatives or substitutions in "General Education Requirements".

2COMS 1003 or Alternate.

3Must have a total of 12-13 hours of upper-level chemistry and 7-8 hours of upper-level biology and a total of at least 29 hours in the junior year to reach the required 91 hour total before entering the senior, off-campus, year.

4Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.

The Department of Mathematics offers a four-year program in mathematics that leads to the bachelor of science degree and curriculum that leads to a minor in mathematics. The curriculum is designed to meet the needs of three groups of students: (1) those who plan to seek employment in business, industry, or government, (2) those who plan to attend graduate school to continue their study of mathematics or a related field, and (3) those who plan to be secondary school teachers.

Students majoring in mathematics are encouraged to use their elective hours to complete a second major, or at least a concentration of 18 hours or more, in the field of their choice. For example, students interested in computer science are advised to complete the following courses: COMS 1403, 2003, 2104, 2203, and 2213, and two additional courses selected from 3213, 3503, 3803, and 4203. Students interested in business electives are advised to complete BUAD 2003, 2033, ACCT 2003, 2013, and ECON 2003 and 2013. For other areas of interest, students should consult their advisor to arrange a plan of study.

Students who plan to attend graduate school in mathematics or a related field are advised to complete additional upper-level mathematics courses beyond the minimal degree requirements.

The curriculum in mathematics for teacher licensure is found in the College of Education section of this catalog.

¹See appropriate alternatives or substitutions in "General Education Requirements".
²3000 - 4000 level math elective. MATH 3033, 4703, and 4772 may not be used to satisfy this requirement. MATH 4993 may not be used without prior approval of the department head.
³At least 40 of the total hours required for graduation must be 3000-4000 level courses.

Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.

Minor Mathematics

For several majors, a minor in mathematics is a natural and popular acquisition. The minor in mathematics requires 20 hours of courses:

MATH 2703 Discrete Mathematics
MATH 2914 Calculus I
MATH 2924 Calculus II

and 9 hours selected from the following:

MATH 2934 Calculus III
MATH 3003 Foundations of Number Systems
MATH 3123 College Geometry
MATH 3203 Introduction to Analysis
MATH 3243 Differential Equations I
MATH 4003 Linear Algebra I
MATH 4033 Abstract Algebra I
MATH 4103 Linear Algebra II
MATH 4113 History of Mathematics
MATH 4123 Mathematical Modeling
MATH 4133 Abstract Algebra II
MATH 4153 Applied Statistics II
MATH 4173 Advanced Biostatistics
MATH 4243 Differential Equations II
MATH 4253 Advanced Calculus I
MATH 4263 Mathematical Statistics
MATH 4273 Complex Variables
MATH 4283 Advanced Calculus I
MATH 4293 Introductory Topology
Admission into lower division foundation courses is open to any Arkansas Tech University student who meets the prerequisites for Admission. The Bachelor of Science in Nursing program is approved by the Arkansas State Board of Nursing and the Arkansas Department of Higher Education. The program is accredited by the National League for Nursing Accrediting Commission, Telephone: 404-975-5000.

The Department of Nursing offers undergraduate study in nursing to qualified high school graduates, graduates of diploma and associate degree programs in nursing, licensed psychiatric technician nurses, and licensed practical nurses. The baccalaureate program leads to the degree of Bachelor of Science in Nursing. Satisfactory completion of eight semesters of general education, prerequisites, and upper-division professional nursing courses is required.

Upon completion of degree requirements, the student may be eligible to take the national examination (NCLEX-RN) for licensure as a registered nurse. All nursing students should be aware that the State Board of Nursing requires all applicants for the NCLEX-RN to have a criminal background check performed. If the applicant has ever been convicted of a crime, the Board will review the application and make a decision as to whether the applicant is eligible to take the NCLEX-RN exam and to practice nursing in the State of Arkansas. Any student who has been convicted of a crime should notify his or her advisor before taking the prerequisite courses. This information will be kept strictly confidential. The student will be advised of the method of petitioning the Board and counseled regarding the process. A registered nurse may be subject to losing his or her license if the conviction is discovered after the license is granted.

The Department of Nursing reserves the right to make changes, without prior notice, in the curriculum and program requirements. Changes are made in keeping with the changing health needs of society and/or the best interests of the students and the department to maintain quality professional nursing education.

The Department of Nursing utilizes the clinical facilities and services of the Arkansas River Valley area; however, in order to meet the objectives of certain courses, the student should be prepared to travel out of this area. Students are required to provide their own transportation.

In addition to the on-campus program, ATU offers an RN to BSN completion program on the Web.

**Admission**

Admission into lower division foundation courses is open to any Arkansas Tech University student who meets the prerequisites for each course. Nursing majors are encouraged to seek academic advising from the nursing faculty immediately upon acceptance to the University.

Admission to the upper division nursing courses is competitive and subject to evaluation by the Nursing Department’s Admission and Progression Committee. Students are considered for admission the spring and fall preceding the semesters they plan to enter upper division nursing courses. All transcripts and/or credentials along with an Application to Upper Division must be submitted to the Department of Nursing by March 1 for fall admission or by October 1 for spring admission. Eligible repeating students applying for readmission must submit all materials by June 30 or January 5.

All students except registered nurses accepted to upper division nursing are required to take a RN entrance exam. This exam must be taken prior to the beginning of Level I nursing courses. Exam results will be used solely for academic advising at this time. Entrance exam dates and information will be posted on the department bulletin board by Dean Hall Room 224.

Minimum requirements for acceptance into the upper division nursing courses are:

1. Prerequisite grade point average of 3.0 on a 4.0 scale. Students will be admitted according to the criteria for selection of upper division students.

2. Completion of the following courses with a grade of “C” or better in each: ENGL 1013, ENGL 1023, MATH 1113, BIOL 2014, CHEM 1114, PSY 2003, SOC 1003, and NUR 2303. Students who attempt the 3000 and 4000 level courses listed above more than twice without achieving a “C” or better will not be considered for upper division. An attempt is “any enrollment in any course and dropping it after the first day of the 10th week of the semester for any reason, and/or failure (grade of “D”, “F”, or “FE”) of the course.”

3. Completion of the following courses: Social Science - 3 hours, American History or Government - 3 hours, Humanities - 3 hours; Fine Arts - 3 hours; Electives - 5 hours, and two semester hours of physical education. Six hours of those listed may be outstanding. (See General Education Requirements for specific course alternatives.)

4. Acquisition of professional/student liability insurance, criminal background check and current certification of Basic CPR for adults, children, and infants as taught by the American Heart Association, or persons currently certified in CPR instruction. These must be renewed each year.

5. Initiation of Hepatitis B Vaccine series.

6. Any student that fails an upper division nursing course (with the exception of nursing electives), withdraws, or has a break in enrollment must apply for readmission into the nursing program by June 30 for readmission to the fall semester, or January 5 for readmission to the spring semester. To reapply, the student must complete the “Reapplication to Upper Division” form and submit a letter of intent addressing reasons for past failure and a plan of action to enhance future success within the nursing program. Readmission will be based on the availability of positions in the level to which the student is applying. Letter of intent and current GPA. Should several students reaply for the same level and a limited number of positions are available, GPA ranking, in conjunction with their letter of intent will guide the committee decision-making process.

7. Students who have not attended Arkansas Tech University during the past year must apply for readmission to the University.

8. The nursing program must be completed within four years of entry into level one of the nursing curriculum.

Applicants will be ranked according to admission criteria for selection of upper division students. Criteria are as follows:
A student position may be filled in a discretionary manner for exceptional reasons as determined by the committee and approved by the faculty.

Should a student have outstanding hours (up to 6 allowed) after completing level 0-preclinical nursing these courses must be general have official transcripts on file in the registrar's office within one month from the first day of the semester. Written note from the course instructor(s) verifying the grade(s) earned in the course(s). These students will sign a form agreeing to

The student must have completed a minimum of 48 hours of required general education and prerequisite courses (see curriculum plan) with a GPA ≥3.0 before entering level 0-preclinical nursing courses.

Applications will be ranked according to GPA. Admission will be determined by the resulting rank order. Applicants completing prerequisites prior to or during summer sessions are required to submit transcripts prior to the registration period for fall semester.

Applicants completing prerequisite requirements at an institution other than ATU during summer sessions or fall must submit a written note from the course instructor(s) verifying the grade(s) earned in the course(s). These students will sign a form agreeing to have official transcripts on file in the registrar's office within one month from the first day of the semester.

Should a student have outstanding hours (up to 6 allowed) after completing level 0-preclinical nursing these courses must be general education courses from the following: Fine Arts, Humanities, History, or electives.

A student position may be filled in a discretionary manner for exceptional reasons as determined by the committee and approved by the faculty.

For students desiring entry to spring Upper Division (Level 0-preclinical nursing):

1. GPA ≥3.0 at the time of application and at the end of the fall semester. Student has no more than 6 hours outstanding at the end of the fall semester.
2. Do not admit at this time.

For students desiring entry to fall Upper Division (Level 0-preclinical nursing):

1. GPA ≥3.0 at the time of application and at the end of the spring semester. Student has no more than 6 hours outstanding at the end of the fall semester.
2. Do not admit at this time.

The student must have completed a minimum of 48 hours of required general education and prerequisite courses (see curriculum plan) with a GPA ≥3.0 before entering level 0-preclinical nursing courses.

Applications will be ranked according to GPA. Admission will be determined by the resulting rank order. Applicants completing prerequisites prior to or during summer sessions are required to submit transcripts prior to the registration period for fall semester.

Applicants completing prerequisite requirements at an institution other than ATU during summer sessions or fall must submit a written note from the course instructor(s) verifying the grade(s) earned in the course(s). These students will sign a form agreeing to have official transcripts on file in the registrar's office within one month from the first day of the semester.

Should a student have outstanding hours (up to 6 allowed) after completing level 0-preclinical nursing these courses must be general education courses from the following: Fine Arts, Humanities, History, or electives.

A student position may be filled in a discretionary manner for exceptional reasons as determined by the committee and approved by the faculty.

Progression Policy

Students must achieve a “C” or better in all nursing courses.

A student in the upper division nursing courses may only repeat one nursing course. Following a second failure in any upper division nursing course the student will be dismissed from the program. Students who repeat any one of these courses twice (2 times) and does not achieve a final grade of “C” or better in the course, will be automatically withdraw from the Arkansas Tech University Nursing Program and will not be eligible for readmission. An attempt is defined as “any enrollment in any course and dropping it (or changing it to an audit) after the first day of the 10th week of the semester during the Fall or Spring semester, or after the third week of either Summer session for any reason, or failure (grade of “D”, “F”, or “FE”) of the course.”

Readmission will not be considered for any student dismissed from the nursing department who obtained a “D”, “F”, or “FE” in two (2) upper division nursing courses. The Department Head on an individual basis will consider exceptions.

Any student who withdraws from a clinical nursing course (NUR 3404, NUR 3805, NUR 4405, NUR 4804) after the fifth (5th) day of classes must have a passing grade at the time of withdrawal in order to withdraw passing. Students failing (“D” or “F”) at the time of withdrawal will receive an “F” after the 5th day of classes. A grade of “F” will count as a failure (“F”) for progression purposes. See Progression Criteria #2 and #4.

All seniors are required to pass the NCLEX Review Exam. The student must complete the non-proctored exam with a passing score of 80% prior to sitting for the proctored examinations. The student is allowed five attempts to pass the NCLEX Review exam (two ATI, and three HESI). Any student not achieving a passing score on the 1st attempt must complete a review prior to a 2nd attempt on the exam. This review includes completion of the ATI/HESI non-proctored exams, review of material available from the resource drawer, and completion of NCLEX review chapters. If a passing score is not achieved on the 2nd attempt the student must meet with faculty to discuss requirements of review course prior to subsequent attempts. The student must wait at least three weeks between the 2nd and 3rd attempts. If a passing score is not achieved on the 5th attempt the student will receive a “0” for that 30% of the grade, a failing grade for the course and must repeat all components of the course, including the preceptorship. If a student desires to take an official review course such as Kaplan, the student may do so and if successfully completes the course, may forego further testing after the first ATI and first HESI attempts are completed.

Students must achieve a passing grade “C” in both the Theories and corresponding Practicum courses in order to progress within the program. Students who repeat a Theories course are required to show clinical competency in order to progress. Students who repeat Practicum are required to show theoretical competency in order to progress.

Clinical competence can be attained by:

1. Taking for credit the corresponding practicum course
2. Completing NUR 3892, Clinical Competency I or NUR 4892 Clinical Competency II with a grade of “C” or better.

Theoretical competence can be attained by:

1. Taking credit corresponding Theories course. Student must maintain a 75% average on all exams.
2. Auditing corresponding Theories course. Student must maintain a 75% average on all exams.
3. Making greater than or equal to 75% on corresponding comprehensive Theory exam.

Advanced Placement

The different types of nursing education programs and vocational-technical school programs give rise to unique transfer problems. Each student's past education is evaluated individually. In addition, the University and the Department of Nursing have established the following policies:

1. Arkansas Tech University offers a baccalaureate degree program in nursing. Licensed registered nurses, licensed practical nurses and licensed psychiatric technical nurses may challenge, validate, or receive credit for general education and nursing courses that are included in the nursing curriculum. CLEP examinations can be used to challenge or validate the general

education courses. The institution's general policy for awarding CLEP credit is followed in determining the successful challenge of courses by these examinations. Transfer credit will be given for prior challenge or validation tests of nursing content credited on official transcripts from other nursing programs. RNs are permitted to receive transfer credit for NUR 3304/NUR 3303.

2. Licensed practical nurses (LPNs) and licensed psychiatric technical nurses (LPTNs) who have met all the lower division nursing curriculum requirements and graduated from an approved Arkansas PN or PTN program or an out-of-state NLN accredited program may receive credit for 17 hours of nursing courses (NUR 3204, NUR 3404, NUR 3313, NUR 3513, NUR 3213) if they meet the following specific requirements:
   a. Have a current LPN or LPTN license in Arkansas.
   b. Graduated less than 12 months prior to entry into the upper division of nursing.
   c. Have graduated within more than 12 months prior to entry into the upper division of nursing and have 1000 hours of nursing employment during the 24 months immediately prior to entry into the upper division of nursing.
   d. Have completed all nursing prerequisite courses, NUR 2023, NUR 3303, and NUR 4302 prior to entry into level II nursing (see Curriculum Plan for LPNs).

NURSING CREDITS WILL BE HELD IN ESCROW PENDING COMPLETION OF THE PROGRAM.

Licensed practical nurses (LPNs) and licensed psychiatric technical nurses (LPTNs) who do not meet the above criteria can challenge or validate 17 hours of nursing courses that are included in the nursing curriculum. LPNs and LPTNs may challenge or validate nursing courses NUR 3204 and NUR 3404 by taking the National League for Nursing ACE I with a decision score of 75 (eight credit hours); NUR 2303 by taking the National League for Nursing Core Nursing examination with a decision score of 50 (three credit hours); and NUR 3103 and NUR 3513 by taking a written and demonstration skills test developed by the Department of Nursing faculty with a decision score of 75 (six credit hours). Students must enter upper division within two academic years after passing the challenge examination or the examination will be invalid.

3. Licensed registered nurses have two options:
   a. Complete the generic curriculum in baccalaureate nursing, or.
   b. Complete the curriculum in baccalaureate nursing for registered nurses.

Those who have met all the lower division nursing curriculum requirements and graduated from an associate degree or diploma program that was Arkansas State Board approved or NLNAC accredited at the time of graduation may receive credit for 40 hours of nursing courses (NUR 2023, NUR 2030, NUR 3303, NUR 3513, NUR 3204, NUR 3606, NUR 3404, NUR 3402, NUR 3802 and NUR 3805) if they meet the following specific requirements:
   a. Have a current RN license in the state where they are practicing.
   b. Have graduated less than 12 months prior to entry into the upper division.
   c. Have graduated within more than 12 months prior to entry into the upper division of nursing and have 1000 hours of nursing employment during the 24 months immediately prior to entry into the upper division of nursing.
   d. All nursing major prerequisite courses must be completed prior to entry into the program. Up to 6 hours of General Education courses may be outstanding. These courses must come from the following; Fine Arts, Humanities, History, or electives (see Curriculum Plan for Registered Nurses).

NURSING CREDITS WILL BE HELD IN ESCROW PENDING COMPLETION OF THE PROGRAM.

Registered nurses (RNs) who do not meet the above criteria can challenge or validate 34 hours of nursing that are included in the nursing curriculum.

RNs can challenge or validate nursing courses by taking the National League for Nursing ACE II Examination with a decision score of 75 (eight credit hours); NUR 2303 by taking the National League for Nursing Core Nursing examination with a decision score of 50 (three credit hours); and NUR 3103 and NUR 3513 by taking a written and demonstration skills test developed by the Department of Nursing faculty with a decision score of 75 (six credit hours). Students must enter upper division within two academic years after passing the challenge examination or the examination will be invalid.

4. Students who have had health-care education or experience but are not licensed health-care professionals will be evaluated individually by the Admission and Progression Committee for advanced placement.

5. Students transferring from another nursing program must submit a letter of good standing to the Admission and Progression Committee with the upper division application.

6. Nursing students other than Registered Nurses must comply with the general institutional provisions; i.e., the last 30 semester hours of work toward a degree must be done at ATU; and, normally, a maximum of 68 semester hours of acceptable credit may be transferred from community colleges.

7. Transfer students from senior colleges and universities must comply with the provisions in Item 3 above but are not subject to any credit hour limitations from those institutions.

¹See appropriate alternatives or substitutions in "General Education Requirements".

Licensed registered nurses who have met all of the lower division nursing curriculum requirements and graduated from an associate degree or diploma program that was NLN accredited at the time of graduation may receive credit for 35 hours of nursing courses if they meet specific requirements.

³Electives to be approved by Nursing advisor.

All nursing major prerequisite courses must be completed prior to entry into the program with a GPA>2.75. Up to 6 hours of General Education courses may be outstanding. These courses must come from the following: Fine Arts, Humanities, History, or electives (see Curriculum Plan for Registered Nurses).
Department of Physical Sciences

The Department of Physical Sciences offers majors and minors in chemistry, engineering physics, geology, and physical science including physics and nuclear physics options. Students interested in teaching science in secondary schools should follow the curriculum in science set forth in this catalog under the physical science/earth science teacher licensure curricula, College of Education.

The description and curricula for each of the various degree programs in the physical sciences are listed below. Note that for every degree program in this department, there is a non-course requirement involving an exit interview with the Department Head as part of the formal process for graduation.

Chemistry

The program and all of the degrees are certified by the American Chemical Society. The chemists of today are involved in the development of a multitude of new materials such as plastics, drugs, and agricultural products. Research chemists are conducting studies of the fundamental nature of matter which lead to expanded knowledge in medicine and biology. Each course in chemistry stresses laws, theories, and applications in the lecture portion and offers students the opportunity to gain experience in well equipped laboratories.

Chemistry is one of the highly recommended courses of study for students interested in pursuing careers in a variety of professional endeavors such as the health sciences: medicine, pharmacy, dentistry, and para-medical fields.

The "Professional option" is especially recommended for students who plan to pursue graduate studies in chemistry or related fields or those persons wishing to seek employment in industry as chemists.

The "Biochemistry option" is designed to provide the background needed for students seeking entrance into professional medical or dental schools. It will also greatly benefit students seeking technical jobs that require multidisciplinary training in biology and chemistry as well as an abundance of science laboratory skills.

The "General option" is specifically designed with a minimum of required courses so that students, in cooperation with their faculty academic advisors, can exercise a maximum degree of flexibility in tailoring programs to meet their individual aspirations. By judiciously choosing electives, individuals can enrich these minimum chemistry requirements to prepare for futures in law, technical endeavors such as the health sciences: medicine, pharmacy, dentistry, and para-medical fields.

Chemistry majors must earn a grade of "C" or better in all chemistry courses (CHEM), including transfer credits, in order to satisfy graduation requirements.

### Chemistry

The science of geology seeks to develop an understanding of the Earth's physical and chemical processes, environmental systems, and natural resources. Geologists work in a variety of areas, discovering new sources of fossil fuels, minerals, and economically important rocks. Volcanoes, earthquakes, landforms, surface and subsurface water, earth history, and fossils are all subjects for study. Also, geologists may work as members of an interdisciplinary team in planning construction projects, sanitary landfills, mine reclamation, and other environmentally-oriented projects. Employment opportunities for geologists exist in private industry, state and federal government agencies, and teaching at all levels.

Geology students may follow programs designed to prepare them for entry into graduate school, employment in the geotechnical field, or secondary school earth science teaching. The best opportunities exist for students who continue their education and complete the master's or doctor's degree in geology. Major oil and gas companies generally require the master's degree for an entry-level position. Also, excellent employment opportunities are available in the environmental geotechnical field.

The geology major will study for a bachelor of science degree. This degree requires a minimum of 124 semester hours with a complete the master's or doctor's degree in geology. Major oil and gas companies generally require the master's degree for an entry-level position. Also, excellent employment opportunities are available in the environmental geotechnical field.

The geology major will study for a bachelor of science degree. This degree requires a minimum of 124 semester hours with a complete the master's or doctor's degree in geology. Major oil and gas companies generally require the master's degree for an entry-level position. Also, excellent employment opportunities are available in the environmental geotechnical field.

The minor in chemistry is designed for science majors who would like to further their studies in chemistry and for students who cannot complete a major in chemistry, but for employment opportunities, would like to gain basic knowledge and competencies in chemistry. The minor in chemistry requires the core chemistry courses:

- General Chemistry
- Organic Chemistry
- Quantitative Analysis

### Geology

The science of geology seeks to develop an understanding of the Earth's physical and chemical processes, environmental systems, and natural resources. Geologists work in a variety of areas, discovering new sources of fossil fuels, minerals, and economically important rocks. Volcanoes, earthquakes, landforms, surface and subsurface water, earth history, and fossils are all subjects for study. Also, geologists may work as members of an interdisciplinary team in planning construction projects, sanitary landfills, mine land reclamation, and other environmentally-oriented projects. Employment opportunities for geologists exist in private industry, state and federal government agencies, and teaching at all levels.

Geology students may follow programs designed to prepare them for entry into graduate school, employment in the geotechnical field, or secondary school earth science teaching. The best opportunities exist for students who continue their education and complete the master's or doctor's degree in geology. Major oil and gas companies generally require the master's degree for an entry-level position. Also, excellent employment opportunities are available in the environmental geotechnical field.

The geology major will study for a bachelor of science degree. This degree requires a minimum of 124 semester hours with a minimum of 124 semester hours in geology (professional option), or a minimum of 36 semester hours in geology (environmental option). Students interested in teaching as a profession should follow the Physical Science and Earth Science curriculum listed under Teacher licensure curricula, College of Education. Additional departmental courses and related courses may be specified for geology majors following particular emphasis programs, and for some emphasis programs, substitutions of the above list may be required. Strongly recommended are calculus and/or statistics.

The geology program is fully interdisciplinary, and the student and his/her advisor can “build” an academic program through selection of appropriate electives to suit the special needs and interests of the student.

### General Education Requirements

1. See appropriate choices, alternatives or substitutions in "General Education Requirements". A specific general education core course does not have to be taken in the semester listed, any other part of the general education core at any time is acceptable as well.

2. Electives in Physical or Life Sciences and Mathematics (Geology, Biology, Chemistry, and Math).

3. Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.

### Ninth Semester

**Summer (after Junior or Senior year)**

| GEOL 4006,2 | 6 |
| **Total Hours** | **6** |

1See appropriate alternatives or substitutions in "General Education Requirements." A specific general education core course does not have to be taken in the semester listed, any other part of the general education core at any time is acceptable as well.

2GEOL 4006 (6 credit hours of field geology) must be completed during the summer after Junior or Senior year.

Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.

---

**Minor Geology**

The minor in geology is primarily designed for students who are majoring in disciplines where a broader background in geology can aid in recognizing and addressing geological hazards, natural disasters, environmental issues, natural resource management, conservation, and land use planning. The minor in geology requires 20 hours of courses:

*GEOL Electives (11 hours)*
*GEOL Electives (9 hours of 3000 or 4000 level)*
*no more than one credit hour can be a seminar course or special problem

**Physical Science - General Option**

The baccalaureate degree in physical science offers a program of study in which the student can elect a major emphasis in the physical sciences department. The curriculum is designed with enough flexibility so that students may prepare for a number of professions that require technical skills and a broad physical sciences background. It is well suited for students anticipating the teaching of science in the secondary schools and for students planning a military career as it affords a desirable general scientific background.

To qualify for a baccalaureate degree in physical science (general option), the student must complete the following minimum number of semester hours: eight hours in biology, eight hours in chemistry, eleven hours in physics, four hours in geology, and eleven hours in general education requirements.
in mathematics. The student must also complete an additional 29 semester hours in four of the following subject areas: chemistry, engineering, geology, mathematics, physics, and physical science (PHSC 1004, 1013, 1021, GEOL 1004 may not be counted in these hours).

The physics curriculum is designed to serve the needs of students in the fields of engineering, medicine, and other sciences. The junior and senior courses are tailored for students who desire a concentration in physics for a bachelor of science degree in physical science and wish to pursue graduate study in areas such as physics, meteorology, and astronomy.

To qualify for a bachelor of science degree in physical science, the student must take eight hours in chemistry, three hours in computer and information science, 27 hours in mathematics, and a minimum of 30 hours in physics. Twenty-two semester hours in these courses must be at the 3000 or 4000 level. A minimum of 38 hours must be taken in the Department of Physical Sciences.
The nuclear physics curriculum is designed to provide a baccalaureate degree program for persons employed or those interested in employment in the nuclear power industry. The program provides a combination of courses which form a firm theoretical foundation for those presently employed as nuclear power plant operators. Students without nuclear power industry experience or training will, in addition to the theoretical education provided through the program, receive sufficient training to enter nuclear power plant specific education if equivalent courses are taken at another college or university.

1. See appropriate alternatives or substitutions in "General Education Requirements". A specific general education core course does not have to be taken in the semester listed, any other part of the general education core at any time is acceptable as well.
2. Excluding MATH 3003, MATH 3033, and MATH 4113.
3. Seven hours of electives must be from physical sciences, biology, engineering, computer science.
4. Must complete both the PHYS 4113 and 3 hours PHYS electives (PHYS course offered in alternating years).
5. Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.
Students graduating with an engineering physics degree will be well qualified for jobs requiring highly technical skills and theoretical knowledge. Also, the degree program will prepare students for graduate studies in the fields of physics and engineering. However, those interested in employment immediately after graduation will have numerous alternatives for career choices. Job opportunities for an engineering physics graduate could include employment in industries such as: McDonnell Douglas/Boeing, Texas Instruments, Honeywell, Microsoft, Polaroid, Union Carbide, National Institute of Standards & Technology, Entergy, Tennessee Valley Authority, and Dow Chemical. Also, government agencies such as NASA, National Bureau of Standards, Office of Naval Research, Department of Energy, etc., provide additional employment opportunities for engineering physics graduates.

To qualify for a baccalaureate degree in engineering physics, the student must complete eight hours in chemistry, three hours in mathematics, 33 hours in physics (including the core physics courses), and 26 hours in another college or university.

1See appropriate alternatives or substitutions in *General Education Requirements*. A specific general education core course does not have to be taken in the semester listed, any other part of the general education core at any time is acceptable as well.
2Excluding MATH 3003, MATH 3033, and MATH 4113.
3Must complete both the PHYS class and one PHYS upper division elective (PHYS course offered in alternating years) (upper division = 3000-4000 level courses).
4Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.

### Minor in Physical Science

The minor in physical science is for students wishing to obtain additional background to enhance their employment opportunities. The minor in physical science requires 20 hours of courses:

*Electives (11 hours chosen from CHEM, GEOL, PHSC, or PHYS)
*No more than one credit hour can be a seminar course or special problem

### Engineering Physics

Students graduating with an engineering physics degree will be well qualified for jobs requiring highly technical skills and theoretical knowledge. Also, the degree program will prepare students for graduate studies in the fields of physics and engineering. However, those interested in employment immediately after graduation will have numerous alternatives for career choices. Job opportunities for an engineering physics graduate could include employment in industries such as: McDonnell Douglas/Boeing, Texas Instruments, Honeywell, Microsoft, Polaroid, Union Carbide, National Institute of Standards & Technology, Entergy, Tennessee Valley Authority, and Dow Chemical. Also, government agencies such as NASA, National Bureau of Standards, Office of Naval Research, Department of Energy, etc., provide additional employment opportunities for engineering physics graduates.
The future may bring employment opportunities in hospitals, nursing homes, and other treatment sites not now available. It is recommended that students pursuing this course of study plan to graduate with a major in biology, chemistry, or physical science even though the professional field requires only two or three years of college work for admission. Requirements are subject to change, and most professional schools are already admitting only students with baccalaureate degrees. Students should contact the school they wish to enter for specific course requirements.

Pre-Dental Hygiene

The dental hygienist is a valuable member of the dental health team whose major responsibilities involve preventing oral disease through patient education, removing deposits from the teeth, exposing radiographs (x-rays), applying fluoride and sealants to the teeth, administering local anesthesia, and nutritional counseling. Opportunities for employment include working in a private dental office, state or federal government agencies, public and private schools, industry, dental product sales, and dental hygiene education. The future may bring employment opportunities in hospitals, nursing homes, and other treatment sites not now available.

Arkansas Tech University offers complete pre-professional training programs in medicine, dentistry, and pharmacy. The pre-professional curriculum is not a major. The major will be selected from the following list of majors that have been approved for the pre-professional curriculum: biology or chemistry. Statements and curricula for these programs are listed below.

Minor Engineering Physics

The minor in engineering physics is for engineering students or physical science students wishing to obtain additional background to support their major degree and enhance their employment opportunities. The minor in engineering physics requires 20 hours of courses:

1See appropriate alternatives or substitutions in "General Education Requirements". A specific general education core course does not have to be taken in the semester listed, any other part of the general education core at any time is acceptable as well.

^Excluding MATH 3003, MATH 3033, and MATH 4113.

^PHYS 3023 and 4003 will satisfy the prerequisites for MCEG 3013 and 4403 for engineering physics majors.

^Must complete both the PHYS class and one MATH upper division elective (PHYS course offered in alternating years).

^Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.

Pre-Professional Programs

Dr. Robert Allen
Dr. Scott Kirkconnell, Coordinators
McEver Hall, Room 20C & 13A

Pre-Medical or Pre-Dental

Students who plan to complete a bachelor of science degree before entering professional school may take their major in another area but must include as electives the specific courses required by the school of their choice.

It is recommended that students pursuing this course of study plan to graduate with a major in biology, chemistry, or physical science even though the professional field requires only two or three years of college work for admission. Requirements are subject to change, and most professional schools are already admitting only students with baccalaureate degrees. Students should contact the school they wish to enter for specific course requirements.

See appropriate alternatives or substitutions in "General Education Requirements". A specific general education core course does not have to be taken in the semester listed, any other part of the general education core at any time is acceptable as well.

Excluding MATH 3003, MATH 3033, and MATH 4113.

PHYS 3023 and 4003 will satisfy the prerequisites for MCEG 3013 and 4403 for engineering physics majors.

Must complete both the PHYS class and one MATH upper division elective (PHYS course offered in alternating years).

Designates a block of courses that would provide for a seamless transfer into this program if equivalent courses are taken at another college or university.
Students pursuing a career in dental hygiene can attend Arkansas Tech for two years to complete general education requirements and then transfer to a dental hygiene department for two years to complete the professional curriculum. Students should contact the dental hygiene program they plan to attend for specific information about degree requirements.

**Recommended Courses for Pre-Dental Hygiene**

- English Composition I, II (ENGL 1013, 1023)
- Principles of Biology (BIOL 1114)
- College Algebra (MATH 1113)
- Introductory Sociology (SOC 1003)
- Survey of Chemistry (CHEM 1114)
- United States History II (HIST 2013)
- Microbiology (BIOL 3054)
- Introduction to Computer Based Systems (COMS 1003)
- General Psychology (PSY 2003)
- Introduction to Speech-Communication (SPH 1003)
- Fine Arts (3 hours)
- Humanities (3 hours)

1. United States History I (HIST 2013) or American Government (POLS 2003) can substitute
2. MUS 2003 or ART 2123 or TH 2273 or ENGL 2173 or JOUR 2173
3. ENGL 2033 or ENGL 2133 or PHIL 2003
4. With 14 additional credit hours, the student could obtain an associate degree (Associate of Arts in General Studies) before transferring to a professional program.

**Recommended Courses for Pre-Medical or Pre Dental**

- English Composition I, II (ENGL 1013, 1023)
- Social Sciences (12 hours)
- Principles of Biology (BIOL 1114)
- General Chemistry I, II (CHEM 2124, 2134)
- College Algebra (MATH 1113)
- Plane Trigonometry (MATH 1203)
- Physical Activity (2 hours)
- Principles of Zoology (BIOL 2124)
- Organic Chemistry (CHEM 3254, 3264)
- Physical Principles (PHYS 2014, 2024)
- Principles of Botany (BIOL 2134)
- English Elective (3 hours)
- Calculus I (MATH 2914) or other MATH above MATH 1113 (3-4 hours)

1. See appropriate alternatives or substitutions in "General Education Requirements".

The curriculum for the last two years will depend upon the major area of study chosen by each individual student. Most students choose to major either in biology or chemistry but any field is acceptable. Students pursuing admission to a professional school should seek the advice of a member of the faculty pre-professional committee appropriate to his/her major.

**Pre-Pharmacy**

Few professions can surpass pharmacy in abundance of opportunities. In addition to the very large demand for pharmacists to work in the local pharmacies, many professional pharmacists are medical-service representatives, drug salesmen, executive officers of industry and government, and teachers and researchers in medical fields. Students should contact the pharmacy school of their choice for specific course requirements.

**Recommended Courses for Pre-Pharmacy**

- English Composition I, II (ENGL 1013, 1023)
- Principles of Biology (BIOL 1114)
- Human Anatomy (BIOL 214)
- General Chemistry I, II (CHEM 2124, 2134)
- Calculus (MATH 2914)
- Physical Principles I (PHYS 2014)
- English/Communications Electives (3 hours)
- Organic Chemistry (CHEM 3254, 3264)
- Principles of Economics (ECON 2003)
- Critical Thinking Electives (6 hours)
- Humanities Electives (15 hours)

1. See appropriate alternatives or substitutions in "General Education Requirements".
2. BIOL 214, BIOL 2124, BIOL 3054, or BIOL 3074 can substitute.
3. Choose from survey courses in art, music, theater, literature, philosophy, religion, foreign language, sign language, psychology, sociology, anthropology, US or world history, political science, ethics, geography.
4. Choose from SPH 1003, SPH 2003, ENGL 2043, ENGL 2053, or any survey of literature course.
5. Choose from ACCT 2003, CHEM 3245, MATH 2163, MATH 2924, PHYS 2024, PHIL 3101, BIOL 3034, BIOL 4033, or CHEM 3344.

**Pre-Physical Therapy**

At the earliest convenience after the decision to study in the field, students should contact an institution of their choice and inquire about the prerequisite study program and other requirements for admission into the professional curriculum. Due to the rapidly changing availability of Physical Therapy degree programs and due to changes in entrance requirements, students should seek the most current information available. Searches on the World Wide Web are the best way to get the most current information. An advisor from the biology department can guide the student’s registration at Tech when the student has secured a curriculum and entrance requirements for a Physical Therapy school that can meet his or her needs.
The College of Professional Studies and Community Outreach offers programs of study leading to baccalaureate and associate
degrees as listed below:

**Bachelor of Professional Studies**
Professional Studies
(Areas of Concentration)
Agriculture Business
Criminal Justice
Early Childhood Education
Industrial/Organizational Psychology
Information Technology
Public Relations
**Accelerated Degree Program**
Bachelor of Arts in General Studies
Associate of Science
Early Childhood Education

**Transfer Students**
Applicability of transfer credit to meet specific degree requirements depends on the major selected by the transfer student. The
transfer student should review the Transfer Credit policy in the Admission section of this catalog and meet with their academic
advisor to determine final transfer credit eligibility for the selected program of study.

The Bachelor of Professional Studies (BPS) degree is a unique program which offers a flexible degree completion path addressing
the needs of particular target groups:

- Students graduating from community colleges
- Adults pursuing full-time careers or raising their families
- Degree "stop-outs" who began but never completed a bachelor's degree
- Individuals who have accumulated hours that cannot be applied toward a specific major
- Entering freshmen seeking maximum diversity for career decisions.

The degree's focus is to successfully prepare graduates for entry or advancement in government, nonprofit, corporate, or industrial
careers. The curriculum is designed to enhance workplace skills such as planning, organizational behavior, ethics, needs
assessment, problem solving, communications, human resources, and technology applications.

Students may select one of the following concentration areas: agriculture business, early childhood education, information
technology, industrial/organizational psychology, criminal justice, or public relations. The degree will follow the same guidelines as all
other bachelor's degrees in requiring 37 hours of general education coursework and a minimum of 40 hours of upper division
courses.

Specialty/Concentration Areas:

- Early Childhood Education: 18 hours
  - Take: ECED 2001 and ECED 2002 (concurrent enrollment); ECED 3023 and ECED 3033 (concurrent enrollment); EDMD 3013, MATH 2033, and BIOL 3213.
- Industrial/Organizational Psychology: 19 hours
  - Take: PSY 2003, PSY 2053, PSY 2074 and 9 hours from the following: PSY 2023, PSY 3093, PSY 4033, PSY 4043, PSY 4234.
- Public Relations: 18 hours
  - Take: SPH 3033, SPH 4153, JOUR 3173, JOUR 4173, JOUR 3273, and COMS 2003.

Accelerated Degree Program (ADP)

The Bachelor of Professional Studies degree can be delivered as an Accelerated Degree Program (ADP). The accelerated delivery format is designed to ease the financial, time, and geographic constraints adults may face when contemplating a baccalaureate program.

Students who enter the program with a minimum of 60 transferable credits and completion of the required general education courses, should be able to complete the remainder of the degree requirements within an 18-month period.

Under the guidance of advisors who understand the unique needs of the adult learner, the ADP allows each student to complete the necessary hours for the degree within a convenient yet directed scheduling format.

Bachelor of Arts

General Studies

The Bachelor of Arts in General Studies is designed primarily for students who wish a broad liberal arts degree, without a concentration in a discipline or preparation for a particular profession. The degree also suits students wishing to pursue a four-year baccalaureate in order to obtain an education which will furnish them with good writing, analytical and/or speaking skills. The degree will furnish background for employment in a variety of business, governmental, and managerial careers. General Studies requires completion of the General Education courses, a core general of classes, with the addition of two emphasis blocks.

The Bachelor of Arts degree in General Studies requires completion of 124 hours. In addition to completion of General Education hours, a student must complete two emphasis blocks, 12 hours in upper level Liberal Arts courses, 6 hours in computer/technology courses, and 25 hours of electives.

<sup>1</sup>At least 40 of the total hours required for graduation must be 3000-4000 level courses.

### Emphasis blocks:

**Anthropology:** 12 hours Take: ANTH 1213 and 2003 and 3 hours from the following: ANTH 3203, 3223, 3243, 4403, or 4903.<br>

**Foreign Language:** 15-16 hours Any catalogue sequence of 4 foreign languages number 1014, 1024, 2014, and 2024 in the same foreign language, for a total of 16 hours. If the student begins the foreign language block on a more advanced level, the student must take 15 hours of the same foreign languages, excluding FR/GER/SPAN 3023.<br>

**Fine Arts:** 18 hours Take: ART 1303, 1403, 2703, or 3603, ART 2503 or 3533, 3 hours electives in 3000-4000 level Art History, 3 hours electives in 3000-4000 level art studio courses.<br>

**Psychology (Applied Human Services):** 18 hours Take: PSY 2003, 2053, and 12 hours from the following: PSY 2033, 3003, 3153, 3163, 4043, or PSY/SOC 3013.<br>

**Sociology:** 15 hours Take: SOC 1003, 3133, and 2083 and 3 hours from the following: SOC/PSY 3013, SOC 3023, 3063, 3093, 3113, 3173, 4063, 4065, or 4066.<br>

**Psychology (Industrial/Organizational):** 19 hours Take: PSY 2063, 2053, 2074 and 9 hours from the following: PSY 2023, 3093, 4033, 4043, or 4234.<br>

**Rehabilitation Science:** 16 hours Take: RS 2003, 3004, 3013, 3023, and 3073. *Completion of block is not the equivalent to completion of a major in Rehabilitation Science.<br>

**English as a Second Language:** 15 hours Take: ENGL 4023, 4763, 4713, and 4723 and 3 hours from the following: ENGL 3013, 3023, or 4013.<br>

**Communication:** 18 hours Take: SPH 2003, 3003, 3073, 3123, 4003, and JOUR 2133.<br>

**Early Childhood Education:** 15 hours Take: ECED 2001, 2002, 3023, 3033, EDM 3013, and MATH 3023.<br>

**Literature:** 18 hours Take from the following: 3 hours required from each of the 3 concentration areas: American Literature and Folklore: AMST 2003, ENGL 2013, 3303, 3313, 3323, 4213, or 4383. British and World Literature: ENGL 2003, 3243, 3413, 3423, 3453, 3463, 4283, or 4483.<br>

**Gene and Theme:** ENGL 2213, 2223, 2233, 2263, 2283, 3103, 3173, 3203, 3223, 3263, or 4683.

The Associate of Science degree in Early Childhood Education is structured to provide a seamless acquisition of academic requirements for various career levels in occupations related to child care and early childhood education in the public and private sectors. The early childhood education courses provide the academic requirements for meeting assessment guidelines for the Child Development Associate (CDA) credential. The general education courses can be applied toward the Bachelor of Science degree in Early Childhood Education.
