ADVANCED CERTIFICATE IN DATA ANALYTICS

The Advanced Certificate in Data Analytics is designed to provide students with data analytics skills applicable to a wide variety of business, nonprofit, and governmental settings. Recent advances in technology have made it possible to easily collect large amounts of data. This program allows students to capitalize on this data, perform various data analysis techniques, and create visualizations to communicate the results for making decisions and guiding actions. The Advanced Certificate in Data Analytics is open to any student who has completed an Associate degree or higher degree except students majoring in Business Data Analytics.

Curriculum

The Advanced Certificate in Data Analytics has a total of 24 credit hours.
