ABOUT

Cyber resilience is a holistic concept that brings business continuity, information systems, and emergency management together to better prepare for the unknown, mitigate threats, and to rapidly recover and continue business as usual

COURSES

- EMHS 1013: Intro to Emergency Management
- EMHS 4013: Resilience and Continuity
- CSEC 1003: Introduction to Cyber Security
- CSEC 2213: Network Forensics & Incident Response

OPPORTUNITIES

Given the increasingly digitized and connected world, the cyber skills, knowledge, and judgment of employees across the whole workforce play a vital role in keeping organizations and data secure. More than 3.4 million skilled cyber professionals are needed globally and this certificate focuses on workers in any career setting that uses technology.
