# INSIDE YOUR BENEFITS

## Benefit Information

This guide includes 2025 employee benefit information available to you and your eligible dependents through Arkansas Tech University (ATU). Please review the ATU Human Resources (HR) website for additional details regarding available benefits. Plans refer to the Summary Plan Description (SPD) for a full description of each group benefit plan.

ATU places a great value on the benefits offered to its faculty and staff. Electing your benefits is one of the most important decisions you will make as an employee. There are two opportunities to enroll in benefits. 1) During your Initial Enrollment Period and 2) the Annual Open Enrollment Period.

## Initial Enrollment Period

Benefits are offered to eligible employees who work a minimum of 30 hours per week. Benefits may begin the first of the month following your waiting period (waiting period = the first of the month following date of hire).

Human Resources will inform you when it is time to enroll. After your initial enrollment period closes, changes cannot be made until the next open enrollment period unless you experience a qualifying event.

## Annual Open Enrollment Period

The Annual Open Enrollment period is typically held in October each year for an effective date of January 1st. Human Resources will notify you of scheduled meeting times and available resources to assist you in completing your elections. You can make changes in benefits through the PlanSource on-line portal or visit with Human Resources. Additional benefit information is available through PlanSource, including the summary of benefits, rates and policy information.

## Pre-Open Enrollment Homework

To best prepare for Open Enrollment, you should log into OneTech to review your current deductions. It's always best to check your deductions, and be aware of the plans that you are enrolled in as you make decisions for the coming benefit year.

You can review your benefits by logging into OneTech and navigating to Current Employee Benefits through Self-Service Banner.

Please contact a member of Human Resources Department if you need assistance reviewing your benefits.

## Qualifying Life Events

Unless you have a qualifying life event, the elections you make during your initial new hire enrollment period and the annual enrollment period can't be changed until the next open enrollment period in the Fall of 2025. Some common examples of qualifying life events are:

- Getting married or divorced
- Having a baby or adopting a child
- Loss or gain of medical coverage of a spouse
- Change in your status of employment
- Entitlement to Medicare, Medicaid, or Enrollment in CHIP Programs

Should any of these events occur, you have 30 days from the date of event to make a change to your benefits. Benefit changes must be consistent with the change in status. Please contact a member of the Human Resources Department to ensure a timely change in your benefits.

# MAXIMIZING YOUR BENEFITS

## Take the First Step Toward Your Health

What is a primary care physician? A primary care physician (PCP), sometimes called a family doctor is usually a family medicine doctor, general practice doctor, internal medicine doctor, pediatrician or geriatrician. A PCP will advise you and your family on the care you need, including checkups to keep you healthy. # HEALTH SAVINGS ACCOUNT

A Health Savings Account (HSA) is a unique, tax-advantaged account that can be used to pay for current or future healthcare expenses. When combined with a High Deductible Health Plan (HDHP), it offers savings and tax advantages that a Copay Plan can't duplicate. With an HSA, you will have:

- A savings account used for eligible medical expenses as well as deductibles, co-insurance, prescriptions, vision expenses, and dental care
- Unused funds that will roll over year to year; no “use it or lose it” penalty
- The potential to build more savings through investing; members choose from a variety of self-directed investment options with no minimum balance
- Additional retirement savings; after age 65, funds can be withdrawn for any purpose without penalty, but may be subject to income tax if not used for IRS-qualified medical expenses

## How does an HSA work?

Employee enrolls in an HDHP and a Health Savings Account

Employee Contributes pre-tax payroll deductions or online contributions

Employee spends, saves, or invests HSA dollars

HSA balance grows for when it's needed most

## How much can I contribute?

The IRS provides inflation-adjusted contribution limits each year. For 2025, those guidelines are:

- **Individual Contribution Limit** \$4,300
- **Family Contribution Limit** \$8,550
- **Catch-Up Contribution Limit (age 55+)** \$1,000

For a list of eligible expenses, log on to [www.consolidatedadmin.com](http://www.consolidatedadmin.com).  
A CAS debit card will be issued for you to access HSA funds.

# FLEXIBLE SPENDING ACCOUNT

A Flexible Spending Account (FSA)  ATU team members take home a larger paycheck by reducing their taxable income. Team members enrolled contribute tax-free dollars into an account that can be used throughout the year on qualified medical, dental and vision or qualified dependent care expenses — reducing out-of-pocket costs.

We offer three different types of accounts: A **Health FSA** that covers general-purpose health expenses; a **Dependent Care FSA** that covers qualified dependent care services; and a **Limited Purpose FSA** (for use with an HSA) that pays for dental and vision expenses only.

Health FSA	(NEW!) Dependent Care FSA	Limited Purpose FSA
This allows team members to set aside pre-tax dollars to pay for qualified medical, dental and vision expenses such as deductibles, coinsurance amounts, copays, and other expenses that are described in IRS Publication 502 – Medical and Dental Expenses. Premiums for health and other insurance are not eligible expenses.	This allows team members to set aside pre-tax dollars to pay for qualified dependent care services. (Not to be used for dependent medical expenses.) See the complete list in IRS Publication 503 – Child and Dependent Care Expenses.	This allows team members to set aside pre-tax dollars to pay for only qualified dental and vision expenses such as deductibles, coinsurance amounts, copays, and other expenses that are described in IRS Publication 502 – Medical and Dental Expenses.
<b>Contribution Limit:</b> \$3,200	<b>Contribution Limit:</b> \$5,000 per family; or \$2,500 each for married filing separately	<b>Contribution Limit:</b> \$3,200

## What happens if I have funds left in my FSA at the end of the year?

FSAs are governed by IRS regulations. As a result, the money you set aside must be used for expenses incurred during the plan year in which you make the election.

However, the IRS allows for an exception to apply for Health FSAs. IRS guidance allows Health FSAs to provide for “carryovers” in which participants may carryover unused balances of up to \$640 in unused funds remaining at the end of the plan year, to be used for qualified medical expenses incurred in subsequent plan years. Any money not used to reimburse eligible expenses will be forfeited.

**For a list of eligible expenses, log on to [www.consolidatedadmin.com](http://www.consolidatedadmin.com).  
A CAS debit card will be issued for you to access FSA funds.**

# DENTAL

ATU offers dental coverage to meet the varied needs of our employees through Arkansas Blue Cross Blue Shield's Dental Select program.

Good dental health is just as important as your annual physical. If left unattended, dental diseases can contribute to health issues like heart disease, stroke, and diabetes. In fact, gum health is as good an indicator of heart disease as high cholesterol is!

Dental plans protect you from major dental expenses such as root canals and crowns, and covers preventive care, like exams and cleanings.

**To find a dentist anywhere in the United States, go to [arkansasdentalblue.com](http://arkansasdentalblue.com) and select "Find a Doctor."**

# DISABILITY

Even if you are healthy now, it's important to protect yourself and the people who count on our income. Disability insurance can help you pay your bills when you are unable to work. Short-Term Disability (STD) and Long-Term Disability (LTD) coverage is available to full-time employees **actively at work**, working at least 30 hours per week.

## Short-Term Disability

Short-Term Disability (STD) Insurance helps protect your income for a short duration in case you become ill or injured.

- **STD** pays **60% of basic earnings**, up to \$500 per week minus any offsets for other income such as Social Security and sick time
- Your STD benefits **begin on the 8th day** following an accident or illness, you may receive this benefit for up to 12 weeks.

If you do not enroll within 31 days of becoming eligible you will have a 60-day waiting period to satisfy during the first twelve (12) months of coverage before benefits are payable. **You must be actively at work to enroll in this coverage.**

## Long-Term Disability

Long-Term Disability (LTD) Insurance helps safeguard your financial security by replacing a portion of your income while you are unable to work. LTD benefits are intended to protect your income for a long duration after you have depleted short-term disability.

- **LTD** pays **60% of monthly base income**, up to \$7,500 per month.
- Your LTD benefits will **begin on the 91st day** of disability or whenever your STD coverage ends and may continue to your social security normal retirement age.

If you are not currently enrolled in the LTD Plan and are not a new hire in your initial enrollment period, you will be required to go through the Evidence of Insurability process (EOI). This requires you to submit answers to medical questions to an underwriter for review and approval before you can enroll during the Annual Open Enrollment period.

An **Air Evac Lifeteam** group membership through ATU (participating provider in the AirMedCare Network) costs just \$1,500 per year for your entire household (senior discounts are available). More than 3 million people are covered by the AirMedCare Network. Membership covers you for emergency transport with participating providers across 38 states.

The enrollment and renewal process is fast and easy. You may enroll/renew online at <https://lifeteam.net>, or by calling 1.800.793.0010 from 8 a.m. to 8 p.m. CST Monday through Friday.

Use Coupon Code: 3694AMCN You may also access additional information here: <https://www.airmedcarenetwork.com/businessplanregistration>

**NOTE: New memberships for Survival Flight and Air Evac start on January 1st each year. The entire premium is withheld from your December payroll. These memberships are only available one time per year during the annual open enrollment period. Employees hired after October 1st are eligible to enroll during the next annual open enrollment period.**

# RETIREMENT

**Retirement is closer than you might think.** But don't worry, you've got this. ATU offers three options to save for your future. State employees are required to participate in one of the retirement plans available to them. Once a retirement plan has been selected, it cannot be altered during the course of employment at ATU. However, participation in a supplemental plan is at each employee's own discretion.

All new hires are eligible to enroll in the following retirement plan:

	Vesting Period	Retirement Age	Participation Status	Employee Contribution	Employer Contribution
<b>TIAA</b>	Two years	IRS Retirement	Contributory	4%	8%

If you are already vested with APERS or ARTRS, then you may have an opportunity to continue enrollment.

	Vesting Period	Retirement Age	Participation Status	Employee Contribution	Employer Contribution
<b>APERS</b>	5 years	Age 65 with 5 years; Any age with 28 years	Contributory	5.50% 	15.32%
<b>ARTRS</b>	5 years	Age 60 with 5 years; Any age with 28 years	Contributory	7.0%	15%

\* ARTRS is only available to Faculty and Department Chairs who are fully vested. 

\* Depending on length of contract, 181 days or more will be contributory.

\* Vesting is defined as the ownership of the employer contributed funds in the accounts. Refer to specific agency as to how this is defined within their program.

## You Should Know...

If you have a supplemental account with TIAA, you have an ability to make changes throughout the year. You do not have to wait for Open Enrollment to make changes to your withholdings.

If you do not currently have a supplemental TIAA account, but would like to start contributing additional funds into your retirement then you'll need to follow two steps:

1. Complete an electronic enrollment with TIAA to set up your account
2. Complete an enrollment form with HR

A supplemental account with TIAA has a maximum annual limit of **\$22,500** (unless you are over 50 and then your maximum annual limit is **\$30,000**). These limits are set by the IRS each year and are subject to change for 2025.
