

ARKANSAS TECH UNIVERSITY

DEPARTMENT OF NURSING

NUR 4981 - Introduction to Oncology

Spring, 2017

Arkansas Tech University

Department of Nursing

Course Number: NUR 4981

Course Title: Introduction to Oncology

Semester Credits/ Credit hours: 1 hour

Lecture Hours: Combination on-line and face-to-face classroom (TBA)

Faculty name: Wanda Christie, PhD, RN, RN-BC

Faculty contact information:

wchristie@atu.edu

Dean, Room 222

Arkansas Tech University

Russellville, AR 72801

Office hours: by appointment

Cell phone: (479) 970-0494

Home phone: (479) 968-1826

Prerequisites/Co-requisites:

Developed to be taken in Level 1, 2, or 3 of Upper Division Nursing or with consent of instructor.

Catalog/Course Description:

This course is an overview of the different aspects of treatment of patients with cancer. It will include a short synopsis on the cellular changes that occur with cancer, the different preventives and diagnostics that are done, the modalities of treatment and management of side effects of treatment, as well as the emotional and psychological impact of cancer on the patient and their significant others. The course builds upon and expands core knowledge of human anatomy, physiology, and psychology.

Relationship to Program Outcomes:

1. *Relationship to Student Learning Outcomes*

By the completion of this course, the learner will progress toward student learning outcomes 1, 2, and 4.

2. *Relationship to General Education Objectives*

The knowledge and skills acquired through successful completion of this course will enable students to understand and appreciate the importance of communication, abstract thinking, global issues, historical perspectives and the social and governmental processes.

Course Objectives: Upon completion of this course students will be able to:

1. Describe basic cellular changes that occur with cancer.
2. Define common terminology used in diagnosing and treating oncology patients.
3. Explain the common tests used in diagnostic settings.
4. Discuss different modalities of treatments.
5. Identify common chemotherapy drugs.
6. Explain and compare how different drugs and treatments work during the cell cycle.
7. Discuss common side effects of treatment, including the care of the patient.
8. Understand the psychological impact of cancer on the patient and family.

Required titles:

- No text required (provided on Blackboard)
- Selected Readings provided online.

Course Policies:

Attendance Policy:

Attendance is required for this class. The attendance may be by Blackboard or classroom setting, depending on week. Some face to face class time is required, and these times will be determined during the first meeting time. If the student is unable to attend a scheduled face to face class session, then time can be made up by assignments on Blackboard. I expect each student to be responsible for checking Blackboard 2 to 3 times weekly as grades and announcements will be posted on the Blackboard site. Attendance for Midterm test and Final is mandatory.

Student Evaluation/Grading Policies:

The grade will be determined by the following:

Attendance/Discussion (online & class)	43
Midterm test	100
Final test	<u>100</u>
	243 points

Grading scale:

- 90-100 points = A
- 80-89.9 points = B
- 75-79.9 points = C
- 68-74.9 points = D
- 67.9 points and below = F

Grades will be posted on Blackboard for you to see as work is graded. Any grade below 75% will not be rounded up. A grade of "I" may be recorded for a student whose work is incomplete due to circumstances beyond the student's control. This grade will be assigned at the discretion of the instructor according to the amount of time missed, the ability of the student to complete the necessary assignments, and the quality of the student's previous work. The student must take responsibility for removal of the incomplete grade according to the Arkansas Tech University's catalog requirements.

Examination Policy:

Testing dates will be announced according to university testing policy.

Discrimination Statement:

Arkansas Tech University does not discriminate on the basis of color, sex, sexual orientation, gender identity, race, age, national origin, religion, veteran status, genetic information, or disability in any of our practices, policies, or procedures. If you have experienced any form of discrimination or harassment, including sexual misconduct (e.g. sexual assault, sexual harassment, stalking, domestic or dating violence), we encourage you to report this to the institution. If you report such an incident of misconduct to a faculty or staff member, they are required by law to notify Arkansas Tech University's Title IX Coordinator and share the basic fact of your experience. The Title IX Coordinator will then be available to assist you in understanding all of your options and in connecting you with all possible resources on and off campus. For more information please visit: <http://www.atu.edu/titleix/index.php>.

Disability Statement:

Arkansas Tech University adheres to the requirements of the Americans with Disabilities Act in order to prevent barriers to academic accessibility. If you need an accommodation due to a disability, please contact the ATU Office of Disability Services, located in Doc Bryan Student Center, Suite 171, or visit <http://www.atu.edu/disabilities/index.php>.

Expectations of Students:

You will find your assignments under Course Schedule. Each week will have an individual Module devoted to the topic(s). Please be sure to look at this, as there will be specific information you need to know.

Overview of Oncology Course Schedule

	Topic(s)	Reading Assignments
Hour 1	<i>Module 1: What is Cancer?</i> Introduction Define Cancer Common terms used	Students should familiarize themselves with Blackboard assignments and readings that they are responsible for during the semester. <i>Read Section 1</i>
Hour 2	<i>Module 2: Etiology of Cancer</i> Explore different Cancer theories	<i>Read Section 2</i>
Hour 3	<i>Module 3: Detection and Diagnosis</i> Seven Warning Signs of Cancer Recommended guidelines for early Cancer detection	<i>Read Section 3</i>
Hour 4-5	<i>Module 4: Cancer at the Cellular and Molecular Levels</i> Review the cell cycle Types of tissue	<i>Read Section 4, 5, and 6</i>

Hour 6-7	Module 5: Modalities of Treatment Explore modalities of Cancer treatment: Surgical Radiation Chemotherapy Biotherapy	<i>Read Section 9</i>
	Midterm Exam	<i>Date and time to be announced.</i>
Hour 8-9	Module 6: Common Drugs used in the Treatment of Cancer Understand the variety of drugs available and the expected actions and side effects of the medication regimens	<i>Chapter 10</i>
Hour 10-11	Module 7: Managing Treatment Side Effects Discuss the significance of blood counts in Cancer patients Explore the immune system and the purpose of different immunotherapies	<i>Read Section 7 & 8</i>
Hour 12	Module 8: Emotional and Psychological Impact on Cancer Patients and their Family Stages of Death and Dying Financials Aspects of Treatment Role Changes	<i>Information will be provided via Blackboard.</i>
Hour 13-14	Module 9: Pulling it all Together	<i>Face to face class time. Students should be ready for final discussion and review of basic concepts of cancer. Test review for final exam during this class.</i>
	Final Exam	<i>Date and Time to be announced.</i>
