

**ARKANSAS TECH UNIVERSITY
DEPARTMENT OF NURSING**

**NUR 4991
Nursing Skills Competency I**

Course Syllabus

**Dr. Terri McKown, DNP, FNP-BC
Level I Coordinator
and
Susan Self, MSN RN**

Spring 2017

Course: NUR 4991

Title: NURSING SKILLS I COMPETENCY

Credit Hours: ONE (1) HOUR

Course Description

The course assesses skill competency the student has completed the prior semester but unable to progress to Level I. *The course is self-directed and faculty strongly encourage the student to attend class (NUR 3103) to review theory and guided practice of basic psychomotor skills.* Practice is in a multi-media laboratory setting. Emphasis is on skills needed in the care of the client throughout the life cycle. Supportive nursing behaviors are stressed as the student is introduced to skills used in caring for individual clients. Before utilizing these skills in the health care setting the student must demonstrate confidence in his/her ability and perform the psychomotor skills in the skills laboratory according to set procedures.

Objectives:

The objectives of the skills course (NUR 3103) are which the student is attempting to prove competency.

Conduct of the Course:

Teacher Role: Demonstrator, Planner, Evaluator, Supporter.

Student Role: Learner, Care giver, Communicator, Collaborator.

Teaching-Learning Strategies: Lecture, discussion, audiovisual materials, including computer assisted instructional programs, and skills demonstration in the Learning Resources Laboratory.

Justification/Rationale for the Course:

1. By the completion of this course the student will progress toward program goals/outcomes 1,2,3, and 4.
2. This upper division professional nursing course provides opportunities for the student to apply knowledge and skills from the general education component and from nursing courses to the care of individuals.

Discrimination Statement:

Arkansas Tech University does not discriminate on the basis of color, sex, sexual orientation, gender identity, race, age, national origin, religion, veteran status, genetic information, or disability in any of our practices, policies, or procedures. If you have experienced any form of discrimination or harassment, including sexual misconduct (e.g. sexual assault, sexual harassment, stalking, domestic or dating violence), we encourage you to report this to the institution. If you report such an incident of misconduct to a faculty or staff member, they are required by law to notify Arkansas Tech University's Title IX Coordinator and share the basic fact of your experience. The Title IX Coordinator will then be available to assist you in understanding all of your options and in connecting you with all possible resources on and off campus. For more information please visit: <http://www.atu.edu/titleix/index.php>.

Disability Statement:

Arkansas Tech University adheres to the requirements of the Americans with Disabilities Act in order to prevent barriers to academic accessibility. If you need an accommodation due to a disability, please contact the

ATU Office of Disability Services, located in Doc Bryan Student Center, Suite 171, or visit <http://www.atu.edu/disabilities/index.php>.

Student Responsibility:

1. The student is required to contact the level coordinator responsible for Skills Competency on the first day of class.
2. Skills Competency requirements will be provided by the level coordinator at the beginning of the semester.

Skills competence can be attained by:

1. Completing **10** successful IV modules with a grade of **80% or higher** on the IV Simulator located in the Skills Lab.
2. Students will complete skills validation at the end of the semester. The student will draw **2 basic and 2 intermediate to advanced skills** and successfully demonstrate competence with faculty evaluation. Those who do not pass skills validations will be considered failing and **WILL NOT** pass this course.

Evaluation:

Grading scale:

A - 90-100
B - 80-89
C - 75-79
D - 68-74
F - 67 or below

Course Grade:

IV Simulator -----25%
Skills Validation -----75%
100%

1. Students must achieve a grade of "C" or above must be achieved in every nursing course in order to progress in the nursing program. Any grade below 75% will not be rounded up.
2. Student must maintain a 75% average on all exams including the final exam in order to pass the course.
3. A grade of "I" may be recorded for a student who has not completed all the requirements of a course because of illness or other circumstances beyond the student's control, provided work already completed is of passing quality. For all nursing courses "passing quality" is defined as a grade of 75% or above on previously completed work. Before a grade of "I" may be recorded, the student and the instructor must determine course requirements to be completed and the completion date. This information is to be documented by completing the ATU Incomplete Grade Agreement contract.

Cell phone:

There is a **NO cell phone policy for all upper division testing/test review**. This includes paper/pencil testing, test review, cooperative testing, and computer testing. If you are discovered with having a cell phone on your person, this will be considered a violation of the Academic Honesty Policy. If we discover that you have your cell phone with you during a unit exam/cooperative testing or unit exam review **you will receive a 0 for the test grade**.

Abilities and Skills for Admission to and Progression within the Nursing Major

The ATU Department of Nursing requires abilities and skills for admission and progression in the curriculum based on those required of a practicing professional nurse.

The professional nurse must possess the knowledge and ability to effectively assist his or her client's biophysical, psychological, social, cultural, and intellectual domains. Further, the professional nurse must competently analyze the assessment data through intellectual processing to arrive at a definition of the client's status or problem, plan independently or collaboratively for a full range of therapeutic interventions, execute all or part of the plans through nursing acts, and evaluate the care delivered and the client's responses to it. A candidate for professional nursing must have the abilities and skills necessary for use of the nursing process (scientific decision-making process). These skills and abilities include: observation; communication; motor ability; conceptualization; integration and quantification; and behavioral/social acceptability. Technological accommodation can be made for some disabilities in certain of these areas, but a candidate should be able to perform in a reasonably independent manner. The use of a trained intermediary is not acceptable, in that a candidate's judgment must not be mediated by someone else's power of observation and selection.

The following abilities and skills are necessary to meet the requirements of the curriculum:

1. **Observation:** The candidate must be able to observe a patient accurately at a distance and close at hand. Observation necessitates the functional use of the sense of vision and tactile sensation. It is enhanced by the functional use of the sense of smell. This includes student to remain conscious at all times.
2. **Communication:** The candidate must be able to speak, to hear, and to observe patients in order to elicit information; describe changes in mood, activity, and posture; and perceive nonverbal communications. A candidate must be able to communicate effectively and sensitively with patients. Communication includes not only speech but reading and writing. The candidate must be able to communicate effectively and efficiently in oral and written form with all members of the health care team. For any student with a language barrier or other speech issue. (This often includes communications in a clear, precise, and fluent ability.)
3. **Motor:** Candidates should have sufficient motor function to elicit information from patients by palpation, auscultation, percussion, and other assessment maneuvers. A candidate must have sufficient motor skills to gain access to clients in a variety of care settings and to manipulate the equipment central to the treatment of patients receiving professional nursing care. Such actions require coordination of both gross and fine muscular movements, equilibrium, and functional use of the senses of touch and vision. Students must be able to lift at least 20 lbs. using proper body mechanics.
4. **Intellectual-Conceptual, Integrative, and Quantitative Abilities:** These abilities include measurement, calculation, dimensional analysis, reasoning, analysis, and synthesis. Problem solving, the critical skill demanded of nurses, requires all of these intellectual abilities. In addition, the candidate should be able to comprehend three dimensional relationships and to understand the spatial relationships of structures.
5. **Behavioral and Social Attributes:** A candidate must possess the emotional health required for full utilization of his or her intellectual abilities, the exercise of good judgment, the prompt completion of all responsibilities attendant to the care of patients, and the development of mature, sensitive, and effective relationships with patients. Candidates must be able to tolerate physically taxing workloads and to function effectively under stress. They must be able to adapt to changing environments, to display flexibility, and to learn to function in the face of uncertainties inherent in the clinical problems of many patients. Compassion, integrity, concern for others, interpersonal skills, interest, and motivation are all personal qualities necessary for professional nursing.

The Department of nursing affirms that all students enrolled in the Department of Nursing must possess those intellectual, ethical, physical, and emotional capabilities required by the faculty for safe professional practice. [Bower, D., Line, L., & Denega, D. (1988). *Evaluation instruments in nursing* (pp. 71). New York: National League for Nursing.

Academic Honesty:

Students are expected to be honest and truthful in both classroom and practicum experiences. They are expected to adhere to the Code of Ethics and uphold current standards of care. Students are referred to the Arkansas Tech University Student Handbook for more specific regulations regarding academic honesty.

Students are expected to:

- a. Perform their assigned tasks in the practicum/skills lab experiences.
- b. Notify the instructor immediately of any clinical error made
- c. Present written work that is theirs alone.
- d. Correctly document any materials from a textbook, pamphlet, journal, etc., that is used for an assignment.
- e. Be honest and truthful when writing clinical logs and giving verbal or written reports regarding patient care or assignments.
- f. Only use authorized devices or materials for an examination and not copy from other students' papers.
- g. Document material correctly. Plagiarism is defined as stealing and presenting as one's own ideas or words of another, or not documenting material correctly. Student papers may be evaluated by turnitin.com which can detect plagiarism. For the first occurrence of academic dishonesty, the student will receive an F. If there is a second occurrence, the student will be dismissed from the program. Students are referred to the ATU catalog and handbook for policies regarding plagiarism.

Required Resources:

- Potter, P., Perry, A., Stockert, P., & Hall, A. (2009). *Fundamentals of nursing*. (9th ed.). St. Louis : Elsevier Mosby.
- Audio-Tutorial Materials are available in the Student Learning Lab and Audio-Visual Lab.
