Practical Nursing Program Information

The Practical Nursing Program of Arkansas Tech University-Ozark Campus is an entry level, 15-month, three-semester nursing program. Upon completion of the program, students will receive a certificate in Practical Nursing (PN). The program integrates theory with clinical practice.

Theoretical content is based on the concept of holism, in which the physical, emotional, social and spiritual well-being is considered. Area hospitals, clinics, nursing homes, mental health units and pediatric and adolescent facilities are utilized for clinical experiences, which will require travel at the student's expense. All classes will require access to a computer and/or Internet services.

Upon successful completion of the program, students will be eligible to apply for the NCLEX-PN Exam for licensure. State and FBI background checks are required of each applicant by the Arkansas State Board of Nursing when applying for the licensure exam. An applicant may be denied permission to take the NCLEX-PN Exam based on background check results.

The Practical Nursing Program at Arkansas Tech University-Ozark Campus has been granted approval by the Arkansas State Board of Nursing (1123 South University Avenue, Suite 800, Little Rock, AR 72204-1619; telephone: 501-686-2700; website: www.arsbn.org).

Clinical Requirements

Background Investigation:

Students admitted into the PN program will be expected to obtain criminal background checks upon entry into the program. Criminal background checks may be a requirement for attendance at some of the clinical sites affiliated with the PN program. Based upon the results of these checks, an affiliated clinical site may determine not to allow a particular student's presence at their facility. The clinical site has the right to deny a student permission to perform clinical duties in its facilities. If this occurs, the student may not be allowed to continue in the program if clinical rotations cannot be completed.

Drug and Alcohol Testing:

Drug and alcohol testing may be a requirement for attendance at some of the clinical sites affiliated with the PN program. Based upon the results of these checks, the clinical site may determine not to allow a particular student's presence within their facility. If this occurs, the student may not be allowed to continue in the program if clinical rotations cannot be completed. The student is responsible for the costs associated with any drug or alcohol testing required for attendance at a particular clinical site. In addition, the student is also responsible for submission of testing results to the clinical site that requests the information.

Health Requirements:

Clinical sites may have requirements in addition to those required by the university. This may include, but is not limited to influenza vaccination, tuberculosis testing, COVID-19 vaccination (currently none of the clinical sites are requiring a COVID-19 vaccine), physical exam, TDAP immunization, MMR immunization and varicella immunization. Failure to comply with these additional requirements may result in the inability to complete the clinical coursework for the program.

Essential Functions for the Practical Nurse

Successful participation in the PN program includes the ability to perform essential functions, which are necessary for delivery of nursing services in a safe, ethical, legal manner. The essential functions are expected to be demonstrated, with or without reasonable accommodation, by students participating in the PN program.

Upon review of Essential Functions for the PN Student included in this packet, the candidate will complete the Acknowledgement of Essential Functions for the Practical Nurse student form and indicate whether they can perform the essential functions. Prior to admission to the program, the student is responsible for providing written documentation of any disabilities, along with evidence of the need for accommodation. Program Completion Requirements

To be eligible for graduation and to be verified with the State Board of Nursing for completion of the Practical Nursing program the student must complete the following requirements:

1. Complete all Practical Nursing curriculum courses with a grade of "C" (80% overall).
2. Comply with all Arkansas Tech University-Ozark campus requirements for certification.
3. Complete all required clinical hours
4. Submit Procedure/Skills Check-off sheets to clinical instructor for evaluation
5. Prior to completion/graduation from the Practical Nursing program all third level students will be required to complete a nationally normed exam and obtain a score that is indicative of a mastery-level of proficiency.
6. Applications for submission to the State Board of Nursing for approval to write the NCLEXPN exam will be certified by the program director only after the student has completed the requirements for Graduation/Program completion as stated above.

NCLEX Review/Exit Examination Procedure

Each student must show evidence of preparedness for the NCLEX-PN by completing a comprehensive exit exam through ATI with a score indicative of mastery-level proficiency before program completion. Mastery-level is considered greater than or equal to 95% likelihood of passing the NCLEX-PN on the first attempt. The student will get a maximum of 4 attempts to obtain this score. Student fees cover two exam attempts. The costs of additional exam attempts are the responsibility of the student.

The first attempt will be scheduled after the NCLEX review course to provide the students with the best possible outcome. Further attempts will be scheduled at the discretion of the course instructor or program chair. If the student does not demonstrate mastery-level proficiency on the second attempt, the student will be required to meet with the faculty, review the results, and make a remediation plan. Completion of this remediation will be required before the student may retake the exam. The student may be asked to enroll in an NCLEX preparation course before their fourth attempt if they have not been successful.

The student must have successfully passed all level 3 courses before taking the exit exam. The exit exam is a portion of the course grade for the LPN 1332 course. If the student has a passing grade in LPN 1332, but fails another course and must repeat that course, the student will be asked to complete an incomplete grade contract and will receive an "I" indicating an incomplete course for the LPN 1332 grade. Any student who cannot successfully complete the test before final grades are due for the semester will be asked to complete an incomplete grade contract and receive a grade of "I," indicating an incomplete course for LPN 1332. The student will have one semester to successfully complete the exam and have their final grade submitted. Failure to achieve the required score upon the 4th and final attempt or within the timeframe for completing an incomplete course, the student will receive a "0" for the NCLEX Review/Exam portion of the LPN-1332 grade, a failing grade for the course. The student will be required to develop a

remediation plan and repeat all components of the LPN 1332 course before successfully meeting the requirements for graduation.

** Re-admittance to the course will follow the program policy for re-entry.*

Financial Aid

Students should contact the financial aid office for assistance with financial aid.
