President's Letter

Dear Friend of Arkansas Tech University,

It has now been twenty years since the Arkansas Tech University board of trustees asked me to become the 11th president at this wonderful university. Throughout these twenty years, the dedicated faculty and staff, as well as our alumni, students, parents and our community have all worked diligently in continuously improving Arkansas Tech to the point that we are now widely recognized as one of the top-tier public universities in the state of Arkansas. This journey has been exciting. At times it has been difficult and frustrating. But in stopping momentarily to reflect back, it has been deeply rewarding to see the impact we have made in working together.

From that reflection we chose to work this decennial report around the theme of Significant Impact. Among other things, those words mean important, systematic and influential. As you explore this report you'll see how those terms apply to our achievements. We have added a vibrant, growing satellite campus; expanded and improved our learning and housing facilities, added many academic accreditations – many of them unique to this campus – and graduated students in record numbers

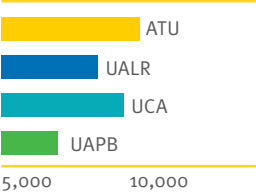

In 2012, our enrollment was close to 11,000 – a number that solidifies us as a significant, top-tier public university. We also have the second highest graduation rates among public universities in the state. Arkansas Tech has clearly created a successful formula that ushers students out of their high school years through higher education and onto graduation and employment.

We have also started an initiative to make higher education more accessible to adults in Arkansas and this year we enrolled our 1,000th student in our online accelerated degree program, which has already produced more than XXX graduates.

The last ten years have been historic for our university and we plan to keep moving forward as a leading voice and advocate for higher education in our state and region.

Significant

20 years of this and that

From breaking ground on our Pendergraft Library and Technology Center to adding our Ozark campus and our enrollment topping 10,000, Tech has taken each success in stride while always planning for the next. This timeline notes significant dates that has made our university the beautiful, sprawling, river valley campus that it is today.

Changes

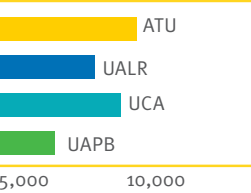

Some sort of message that drives home the main point to all the readers fortunate enough to be enlightened by this document.

Some Figures and Stats

ON THIS

Over the past 20 years, we have raised our admission standards. The result has not been a decrease in enrollment, but instead a dramatic increase. From 1997 to 2010, enrollment at Arkansas Tech increased by an unprecedented 131 percent.

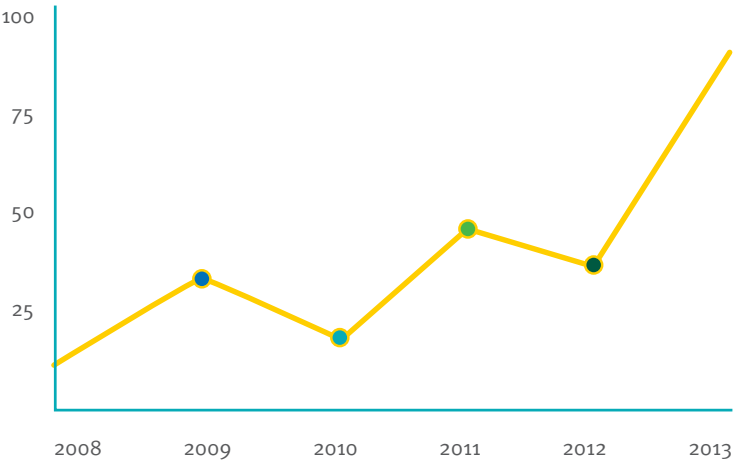

20 Years to Now

Over the past 20 years, we have raised our admission standards. The result has not been a decrease in enrollment, but instead a dramatic increase. From 1997 to 2010, enrollment at Arkansas Tech increased by an unprecedented 131 percent.

In the fall of 2011, the university surpassed a significant milestone – 10,000 students. The next year marked the 14th consecutive year of enrollment growth, reaching an all-time high of 10,950.

Significant Growth

Record-Breaking Enrollment

At Arkansas Tech, our students are the real story of success. From 1997 to 2012, student enrollment at Arkansas Tech increased by 158 percent with immense growth starting in 1999. Through Fall 2012, our freshman class students exceeded state and national ACT score averages for the past 18 consecutive years. While these numbers are great for Tech, it's our students that benefit from the sustainable, responsible growth that we have had for so many years now.

Significant Success

Graduation Rates

Our graduation rates are one of the things we're most proud. As of fall of 2012, Tech has the second-highest graduation rate among public universities in Arkansas. Graduating students is vital to the Arkansas economy and our future workforce. We are determined to make sure our students are prepared for their future.

Dr. Brown's tenure has had a significant impact in our gradu-
ation rates. During Tech's 104-year history, 57 percent of the
degrees conferred here have been given under his leadership

Significant Faculty

subheader maybe...

We're happy to report that the quality of our faculty has only increased since our last report. Our student to teacher ratio is 21 to 1 while our student to employee ratio is 9.4 to 1. More than half of our professors are tenured with an additional 26 percent on the tenure track. With 431 faculty members on our main campus, 72 percent of them hold either a doctorate or the terminal degree in the field they're instructing.

Significant Education

Academic Programs

With almost one-third of our degrees available in the STEM fields, including master's programs, we're offering our students the opportunity to work in some of the fastest-growing occupations in the country. Additionally, all of our programs that have an accreditation available have been accredited – those programs include teacher education, music, nursing, tourism and emergency management. In fact, Tech was the first institution in the world to have its degree programs in emergency management accredited by the Foundation on Higher Education in Disaster/Emergency Management and Homeland Security. The program was founded by Tech alum James Lee Witt, former director of the Federal Emergency Management Agency.

20 years of progress

Significant Expansion

Ozark Campus

The Arkansas Tech University – Ozark campus was added in 2003. Enrollment grew by leaps and bounds and, in 2002, topped 2,000. Tech-Ozark has 25 academic programs in many viable career fields. The campus, which is more than 26 acres and includes a half-mile exercise path and disc golf course, is located along Arkansas Highway 23 North in Ozark, Arkansas. Tech-Ozark oversees the Arkansas Tech Career Center in Russellville and Adult Education programs in Franklin, Logan and Johnson counties, giving the school 100 full-time faculty and staff members and more than 70 adjunct instructors.

Ozark Campus

20 years of this and that

Over the past 20 years, we have raised our admission stan-
dards. The result has not been a decrease in enrollment, but
instead a dramatic increase. From 1997 to 2010, enrollment at
Arkansas Tech increased by an unprecedented 131 percent.

In the fall of 2011, the university surpassed a significant
milestone – 10,000 students. The next year marked the
14th consecutive year of enrollment growth, reaching an
all-time high of 10,950.

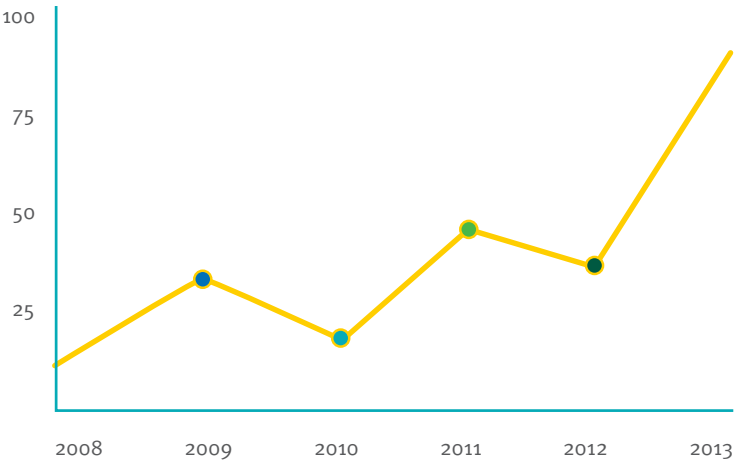

Some sort of message that drives
home the main point to all the
readers fortunate enough to be
enlightened by this document.

Significant Growth

Record-Breaking Enrollment

Over the past two decades, we have raised our admission standards. The result has not been a decrease in enrollment, but instead a dramatic increase. From 1997 to 2010, enrollment at Arkansas Tech increased by an unprecedented 131 percent.

In the fall of 2011, the university reached a significant milestone – 10,000 students. The next year marked the university's 14th consecutive year of enrollment growth, and achieved an all-time high of 10,950.

Significant Improvements

Campus improvements

In the past several years, we have made significant improvement and additions to the buildings on campus. Our campus is a place that students, staff, faculty and visitors can be proud of and enjoy. Some of our most utilized improvements include our football field and the Baswell Techionary.

- Baswell Residence Hall
- Baswell Techionery
- Campus Recreation Fields
- Centennial Plaza
- Chambers Cafeteria
- Chartwells Women’s Sports Complex
- Corley Hall engineering addition
- Crabaugh Hall
- Critz Hall
- Hindsman Tower
- Hughes Hall
- Hull Building addition
- McEver Hall addition
- Norman Hall
- Norman Family campus beautification (including 550 trees)
- Nutt Residence Hall
- Old Art Building
- Paine Residence Hall
- Physical Plant Building
- Rothwell Hall
- Stadium Suites
- Tech Field (baseball)
- Techionery
- Tomlinson Hall
- Tucker Coliseum
- Tucker Residence Hall
- Thone Stadium at Buerkle Field
- University Commons Phase II
- W.O. Young Building
- Wilson Residence Hall

Significant Responsibility

Financial leadership

For the past decade, Arkansas Tech University has consistently increased our enrollment and graduation rates while using efficient and cost-effective means. Tech leads the state in using productive instructional delivery with a focus on completion – a direction the governor set in 2011 for Arkansas’s four-year state-funded universities and colleges. We’re proud to lead in financial responsibility among our state’s public universities.
