Program Title: BS in Agricultural Education	Effective Date: 2013-14 Academic Year
Outline change in program and attach curriculum matrix: Delete AGAS 2082 Feeds And Feeding and Add AGAS 2084 Feeds And Feeding Delete AGPM 3104 ( <i>Introduction to Entomology</i> ) and 1 Elective Hour from the program of study; Add AGPS 1033 ( <i>Introduction to Agronomy</i> ) and AGAS 3021 ( <i>Livestock Selection and Evaluation</i> ).	
What impact will the change have on staffing, on other programs and space allocation?  No new faculty will be needed for the additional course.	
Please provide a rationale for the need for this new course including the evidence derived from your program assessment. Assessment evidence may come from direct and indirect measures of student learning as well as analysis of the current state of the discipline.  Proposed changes align more closely with breadth of content for development of Arkansas agriculture educators. There are no secondary agriculture courses or FFA contests in Arkansas that present need for in-depth background in entomology. Content in agronomy and livestock evaluation would benefit preservice development for teaching in agriculture classes (i.e., Survey of Ag Systems, Animal Science, and Biological Animal Science) and supervising agricultural experiences (e.g., livestock entrepreneurship projects). Likewise, other reputable institutions (e.g., University of Missouri, University of Arkansas, and Oklahoma State University) have previously justified similar course offerings.	

If this course will affect other departments a Departmental Support Form for each affected department must be attached.

Course changes should not impact other departments.

In the attached matrix, outline in specific detail how your proposal will alter the program (include course number and title)

This course is currently being offered by all other Public four year universities in Arkansas as a 3000 level course. Art 2413 Intro to Three-Dimensional Design (a 3D media foundation course and prerequisite for Intro to Sculpture at all 4 year Public universities, including ATU) is a 2000 level course. All other intro to studio media class ( such as Art 3803 Intro to Printmaking, Art 3603 Intro to Ceramics, Art 3403 Intro to Painting, Art 3903 Introduction to Fiber Arts) are 3000 level courses. The only exception is Art 1303 Intro to Drawing which is a core level class. It would allow students who transfer in to get equivalent level credit if taken at another institution. Many of our graphic design majors currently take this course receive general- elective credit. It would allow them to take the course as a major elective and make it easier for them to attain the 40 hour upper level credit requirement. It will also help to decrease the need for 3000 and 4000 special problems courses for Graphic Design majors

How will the effect of the change be monitored in ongoing program assessment?  
Assessment for this course will be conducted through our current UD Junior Review and individual course assessment measures.

If this course will affect other departments a Departmental Support Form for each affected department must be attached.

Program Title: Bachelor of Arts in Graphic Design	Effective Date: Catalog 2013-14
Outline change in program and attach curriculum matrix:	
To remove figure drawing as a required course for Graphic Design Majors	
What impact will the change have on staffing, on other programs and space allocation? This will have a positive impact as it will take less space and staff to offer the course.	
Please provide a rationale for the need for this new course including the evidence derived from your program assessment. Assessment evidence may come from direct and indirect measures of student learning as well as analysis of the current state of the discipline.	
The role of traditional illustration in the current Graphic Design field has changed and the some of the skills of figure drawing like character illustration are being addressed in the ART 3253 Computer Illustration course. The Graphic Design students can still take Figure Drawing as an elective but it would open up room for the addition of more advanced courses in the future.	
Making this change offers Graphic Design Majors some flexibility in their curriculum, alleviates the congestion in the enrollment while leaving it available for those Graphic Designers interested in careers in Illustration.	
If this course will affect other departments a Departmental Support Form for each affected department must be attached.
