Tammy

Pam Dixon has described below that adjustment that is needed for this program. I approve of these changes and adjustments. Please let me know if you need further information or have questions. Thank you for your support. - LB

We would like to transition the M.Ed. program in School Counseling & Leadership from a traditional face to face program (1 to 49% on-line) to a blended program with at least 50% of the curriculum delivered via distance learning technology. We have prepared, and will forward to both the Arkansas Department of Education and the Arkansas Department of Higher Education, the requisite Letter of Notification.

Thanks for your assistance with this.

Pam
