Final Report
ATU Faculty Development Grant
for Philip Parker (spring semester 2006)
Restatement of proposal:

My grant proposal was to have a guest composer, Dr. Walter Mays, on campus for 2 days. This mini-residency would entail lectures, a joint recital featuring compositions by Dr. Mays and myself and a band concert featuring Dr. Mays work *Dreamcatcher*.

Review of the 2-day mini-residency:

Dr. Mays was on campus April 9-11 of 2006. He spent the evening of the 9th with ATU faculty members Kelly Johnson and Tim Smith in rehearsal of two of his pieces to be performed on the recital of Monday evening the 10th. Monday morning Dr. Mays spoke to Mr. Parker's classes in arranging and music theory. Monday evening was the joint recital with Mr. Parker (program attached). The program featured ATU faculty members Kelly Johnson and Tim Smith as well as Richard Ramey and Clare Detels, faculty at the University of Arkansas and Glenda Secrest, Cindy Fuller and Caroline Taylor, faculty members at Ouachita Baptist University. On Tuesday the 11th, Dr. Mays gave a lecture titled *Why Stone-age People Sing* which was open to the public. He attended rehearsals of the ATU Symphonic Band that afternoon and the band performed *Dreamcatcher* that evening to a full house and standing ovation (program attached).

Summary:

The grant gave me the opportunity to have my compositions *Bug Dances* for bassoon and piano and *Story Hour* for soprano, alto saxophone and piano performed for the first time on campus by the faculty members from UofA and Ouachita. The joint recital was well attended. At the reception following the recital many students conveyed their enjoyment of an opportunity to hear "Avant Garde" music performed at ATU as well as the off-campus performers. The band concert went very well and student response to the entire 2 day event was extremely positive. Dr. Mays was quite impressed with the ATU band and faculty!

Conclusions:

The opportunity for our music students to have a Pulitzer Prize-nominated composer on campus was a unique treat and to be involved in performing one of his award-winning compositions with the composer's input was particularly rewarding. The joint composition recital gave me an opportunity to have two of my pieces premiered on campus.
