

## How to Connect to 'ATU-Wireless' Network

1. Click once on the wireless icon on the taskbar to open the available wireless connections

2. Click once on "ATU-Wireless"

3. Once connected, you should see a checkmark next to "ATU-Wireless"

- Once you see the checkmark, open a web browser (i.e. Safari, Firefox, Google Chrome) and navigate to a web page (i.e. [www.yahoo.com](http://www.yahoo.com) or [www.cnn.com](http://www.cnn.com)). You should be redirected to the following login screen:

Your IP Address is: 10.200.85.78

- Sign in using your OneTech username and password, and check the box accepting the Use Policy. Follow the SafeConnect prompts to complete connecting to the network.

6. If you don't have an ATU account, you can click the "Request a Guest account" button. The following page is shown to be filled out:

The screenshot shows a web browser window with the URL `https://auth.impulse.com:8443/guest`. The page header features the Arkansas Tech University logo and the title "Request a Guest Account". Below the title, a sub-header reads "Complete this form and then click continue." The form contains several input fields: "Reason for access (Optional)", "Email Address (Required)", "Full Name (Required)", and "Mobile Phone Number (Required)". Below these is a dropdown menu for "Carrier (Required)" with the text "Select mobile service provider" above it and "Standard messaging rates apply." below it. A link "List all providers" is located to the right of the carrier field. At the bottom of the form are two buttons: a blue "Continue" button and a light blue "Cancel" button. Below the form is a section titled "Guest Account Information" with the text: "To access the network: 'ATU-Wireless Guest' complete this form. Login information will be sent including information on how to login to your account." At the very bottom, a note states: "Guests that have previously had an account can [Click Here](#) to resend the guest account password."

Once the information has been filled out, a username and password will be sent to the email address provided and also a text message to the number provided. Guests will then use the provided username and password to log into the SafeConnect page. Guests will then follow the SafeConnect prompts to complete connecting to the network.
