DESIGN AND IMPLEMENTATION PROCESS**

WHEREAS: The Student Government has expressed support for building a student recreation center in the past, and

WHEREAS: The Student Government Association has supported a fee for the cost of building a student recreation center in the past, and

WHEREAS: A student recreation center/student union is needed by the university and students, and

WHEREAS: Hiring an architect would allow plans to be developed and give students the opportunity to have a more clear understanding of what could be built, and

WHEREAS: Currently, the estimated fee for building a new student recreation center/student union is only \$6.25 per credit hour, but is subject to change,

THEREFORE, BE IT RESOLVED, the Student Government Association supports the University hiring an architect to develop plans for a new student recreation center/student union, which will then be revisited by SGA.
