PROPOSAL FOR COURSE CHANGE

To: Curriculum Committee

From: Electrical Engineering

Date submitted: 09/25/2008

Request for: Course change – change of pre-requisite
(Excluding course credit hour changes)

Submitted by: Dr. Ronald E. Nelson

Approved by: Department Head: Ronald E. Nelson
Dean of School: W. Hoefler

Reviewed by: Registrar: *Sammy Rhodes*
Vice President:

Eleg 3131, Electronics Laboratory, allows the student to verify, in the laboratory, theory taught in Eleg 3103, Electronics I. The catalog description of Eleg 3131 currently lists Eleg 3103 as a co-requisite. In order to provide the most useful educational experience, it is highly desirable for the students to have covered all of the theory in Eleg 3103 before seeing it in the laboratory. In order to ensure that this happens, the Eleg 3103 co-requisite for Eleg 3131 will be changed to a pre-requisite. This change will also require a change in the 8-semester sequence for students entering the program in the fall semester. A request for this change is being submitted concurrently.

The catalog description for Eleg 3131 will be changed to read:

Prerequisites: ELEG 2111, ELEG 3103. Experiments paralleling ELEG 3103 emphasizing the applications and limitations of discrete electronic devices, circuit modeling, and applications of integrated circuits. Laboratory three hours per week.
