If this is a deletion or other minor change, describe and give rationale.

This is a minor change of the course description for NURN 4024 Community Health Nursing. This minor change is requested so that the course description emphasizes a major concept within the course which is community assessment.

New course description:

This course will introduce the RN-BSN student to the concepts and principles relevant to the promotion, support, and restoration of health for clients of all ages in a variety of settings with particular emphasis upon the health of populations or groups. The student will perform a community assessment which involves the collection and analysis of data from a selected community to plan appropriate educational interventions.

If this is an addition of a new course, fill in the following and attach a syllabus (syllabus should include course objectives, and outline of the course with sufficient details to illuminate course content, and a bibliography. The Curriculum Committee/Graduate Council does not need evaluation and testing procedural information nor does it need excessively long bibliographies).

If this is a deletion or other minor change, describe and give rationale.

This is a minor change requesting the addition of a prerequisite for NURN 4045 Professional Practicum Synthesis. The prerequisite is NURN 4024. The rationale for this change is that the student is required to utilize the assessment data collected in NURN 4024 to successfully implement a community teaching project in NURN 4045.

If this is an addition of a new course, fill in the following and attach a syllabus (syllabus should include course objectives, and outline of the course with sufficient details to illuminate course content, and a bibliography. The Curriculum Committee/Graduate Council does not need evaluation and testing procedural information nor does it need excessively long bibliographies).
