

**CAEP Measure 3 (Advanced Licensure Programs)
Candidate Competency at Program Completion
Components RA3.4**

The Arkansas Tech University College of Education and Health collects data from candidates at program completion demonstrating the candidates' ability to be recommended for licensure as related to their program of study. To be recommended for licensure candidates must complete the following to demonstrate their competency at the end of their program of study.

1. **Praxis Specialty Area Assessment** – The Educational Testing Service (ETS) has designed assessments for advanced licensure programs (e.g., Educational Leadership, Library Media, School Counseling, etc.). Program completers must successfully pass the assessment by meeting or exceeding the assigned cut score for the respective assessment in order to be recommended for licensure by the College's Director of Teacher Licensure and Support Services.
2. **Program Grade Point Average** – program graduates must complete all programs with a minimum of a 3.0 grade point average (GPA) in order to be recommended for licensure in the respective licensure area.

Summary and Notes

Based upon these advanced programs' data results, it appears that graduates demonstrate competency at completion. ETS Subject-Area Assessment data indicate a near 100% pass rate across the programs of study. In addition, graduates demonstrate high GPAs within their fields of preparation and exceed the minimum 3.0 GPA as graduates with some graduate groups nearing an average of 4.0 within their advanced licensure program preparation.
